The common council of Bay City has instructed the street commissioner of that city to prosecute, under the state law, all persons who allow noxious weeds to grow on their premises. If the city council of this city would enforce the same law and have the weeds on our streets cut the general appearance of our city would be improved 100 per cent.

Some idea of the increase in the size of ocean going ships may be obtained from the following: In 1840 the length of the longest ship in existence was 200 feet; in 1855, 375 feet; in 1881, 525 feet; in 1905, 675 feet; in 1907, 786 feet. The last length is that of the Lusitania and Mauritania, and already there is talk of ships that will be 1,000 feet long.

Hartshorn of Boston, W. C. Pearce of Chicago, Prof. E. A. Fox of Kentucky, and Dr. Wm. Byron Forbush of Detroit who will give three lectures on the "Boy Problem."

"The many friends of Mr. C. M. Smith will regret to learn that he has decided to leave Grand Marais to locate in Sunny California and leaves next week for Santa Barbara where he has been offered a position. Mr. Smith has been a resident of Grand Marais for the past seven years, the greater portion of which time he was engaged in the barber business. The last two years he has been in charge of the gent's furnishing department of R. E. Schneider's department store, which position he resigned this week. During his residence here he organized and directed the Citizen's Military Band, which at one time was one of the best bands in the eastern end of the peninsula, largely due to his musical ability and tireless energy along that line. In music circles he always took a leading part and his departure means a direct loss to the same. Besides being a good musician and barber as well as experienced in store work, Mr. Smith is also a neat painter and sign writer, in any of which lines he is qualified to engage. The family will remain here until such time as he becomes permanently located, when they will join him. Mr. Smith takes with him the good wishes of a large circle of friends.—Grand Marais Herald.

For Sale:—The south half of the south half of section 31 of Reno township. This is the best one hundred and sixty acres of wild land in Isoco county. Price \$8.00 per acre, your terms. Only three quarters of a mile from Mills station.

A. H. PHINNEY, Turner, Mich.

G. H. A. Shaw, editor of the Pigeon Progress, spent Monday with his parents, Mr. and Mrs. George Shaw, of this city.

Louis Truckey and Frank Maher, two Bay City men, were drowned in the river at that place last Saturday, by their boat capsizing.

The Cheboygan Pea Canning Co. has just closed its seasons work with a grand total of 2,100,000 cans. A large increase over last year.

Peter O. Jacobs returned last Saturday to his home at Syracuse, N. Y., after a couple weeks visit with friends and relatives in this city.

The professional man who buys of an order house and a merchant who has his printing done out of town belong to the same lodge—same degree.

A new departure was inaugurated by the D. & M. Ry. Co. this month. They have discontinued running a pay car each month and now pay their employees by check.

On Sunday the 29th, the morning subject at the Baptist church will be "The Sunday School Ideal," a splendid sermon to Sunday school workers. All are cordially invited.

Harry LaBerge, who has been in law office at Loraine, Ohio, during the summer, came home last Friday for a couple of weeks visit with his parents before returning to his studies at the law department of the U. of M., at Ann Arbor.

At the Baptist church next Sunday, preaching by the pastor. Morning theme, "Don't Worry." Evening theme, "Readiness." Bible school at 11:30 a. m. Preaching at Hemlock each Sunday at 3 p. m. regularly each church.

G. C. Karus, of Baldwin, has been suffering since last spring with a very lame wrist and has been unable to secure any permanent relief from the local physicians. Monday he left for Ann Arbor to see what the doctors there can do for him.

Fire did \$20,000 worth of damage to the plant of the Citizens' Manufacturing Co., at Standish, last Friday morning. The wood working department was entirely destroyed. The loss is practically covered by insurance and the plant will be rebuilt.

Western Kansas has found a new use for the sugar beet. A factory is about to be constructed in Western Kansas for the manufacture of a stock food which will employ as its principle constituents the tops of the sugar beets, alfalfa cane and kafir corn and wheat straw.

Did you ever stop to reflect that it was one thing to talk about people and another thing to have people talk about you? If those of us who use our tongues a little too freely about our neighbors, would stop and reflect about this matter and know the great evil that comes from too much gossip and tattling, we are sure we would call a halt and gossip no more forever.

Mrs. H. W. Marsh has recently received three handsome trophy cups won by her son, Sergt. Fred March, at Fort Mead, at the indoor competitions of the 6th U. S. Cavalry. The cups are handsomely engraved and are the second prize for fence vaulting, rope climbing and the broad jump. Sergt. Marsh has recently received his discharge from the service, having completed his enlistment of three years.

Miss Mae E. O'Brien, daughter of John O'Brien, died at the family home in this city Thursday morning, September 19th, aged twenty-one years and eleven days, after an illness of several months. The deceased was born in this city September 8, 1886, and has grown to young womanhood here, where she was held in high esteem by a large circle of friends, who sincerely mourn her untimely death. The funeral will be held from St. Joseph's church tomorrow morning.

THE 33RD ANNUAL FAIR.

The annual fair of the Isoco County Agricultural Society closed last night. Considering the rain on the closing day, the attendance was fairly good, although not up to last year. The experiment tried in cutting out money premiums for stock and agricultural exhibits resulted in practically no exhibits being made in any of these departments. Financially the fair is a success, it being estimated there will be a balance of not less than \$150.00 after all bills are paid.

Renben won the free-for-all yesterday, Air Motor second, Harry K. 3rd, and Chilico fourth.

In the 2:40 Raggafattus won, John M. second, Gustin third and Jay Sphinx fourth.

Mescott won the running race with Elepette second.

A. C. Brown, the photographer, has an artistic display.

W. M. Howard, the auctioneer, is doing business as usual.

E. L. King, of East Tawas, has his usual artistic exhibit of furniture.

The auto race was won by L. L. Johnson, Dr. Darling second, and Dr. Wakeman third.

F. F. French & Co., of East Tawas, have an excellent display of women's coats and dry goods.

Miss Owen, the East Tawas milliner, has a handsome exhibit of millinery goods and ladies waists.

Many compliments were heard for the excellent music and fine appearance of the East Tawas band.

Charles Curry won the farmers' race, A. Berube took second and Ern Chase third. There was lots of fun in it all the way.

John Armstrong, of this city, has a handsome and artistic display of fine furniture, including some very fine leather goods.

One of the most interesting exhibits that has ever been made at the fair is that of Rev. Frederic Sievers. It consists of a collection of books published in the 16th century, the date of one being 1524. There are also a number of medals some of which are over 100 years old. The collection is both rare and valuable.

The 2:24 trot or pace brought out a field of six starters, and was a good race, after it finally got started. Chilico, an Onaway horse won in straight heats. The best time made was 2:28 in the first heat. The summary is as follows:

Chilico	1	1	1
Raggafattus	2	2	2
John M.	3	5	3
Billy Bronco	4	3	4
Harry K	5	4	5
Jay Sphinx	6	6	dr

TABLES TURNED.

Oregon Licenses the Drinker instead of Seller of Booze.

How would you like to live in Oregon, you fellows who like an occasional good drink of liquor? Bet you wouldn't like to live in a state where you have to take out a license before you can get a "swig" of your favorite beverage, before and after and between times. Oregon has taken a new departure in the temperance movement, and so far the plan is said to work well, says an exchange. Things are just reversed there in the liquor deal. Instead of licensing the seller, the buyer of strong drink is compelled to take out a license, for which he has to pay \$5 every six months. Saloon men are compelled by law to confine their sales exclusively to persons holding licenses to buy, under penalty of a heavy fine for selling to unauthorized drinkers. The law is not at all popular, and a feature of the law is especially unpopular among a large class of drinking people. It is that every six months the complete list of licensed drinkers is published. This is held by many to be an outrage. Notwithstanding, there are strong arguments in support of the law as a whole and in support of the publication clause. Confirmed drunkards cannot get license, and the state takes the stand that in licensing the drinker as the seller, and refusing license to the drunkards, that it is simply exercising its right and duty in protecting the community. As to the publication feature, supporters of the law hold that drinking breeds crime and paupers by which the public suffers, and that the public has a perfect right to know who are the drinking people in any community. It is held, too, that the publication of drink license has the effect of restraining many people from becoming drunkards. Of course there are men who drink and don't care who knows it; but there are lots of men who do not want it known, and they are deterred from drinking by the fact that they cannot drink in secret. The law enables the parents to keep a better track of their sons and tells the employers who the sober men are. It is a law that will be watched with interest and if it works other states may take it up.

Progress vs. Ignorance.

Only a few years ago the working-man who could read and write was an exception. Now that man, woman or child over seven that cannot read and write is an exception. Ignorance is fast losing its hold on the brains of human beings. Only a few centuries back and the rulers of the world themselves could not read or write and they gloried in the fact. They looked down upon "the clerks" that did their writing for them. Disease, sister of ignorance, not long ago destroyed human beings almost as fast as patient mothers of the world could bear them. One single plague could wipe out half of all creatures living. It was even necessary to pass laws forbidding the survivors to feed upon the bodies of the dead. Progress has changed that at least and we ought to remember it. To remind us of our imperfections we still have the dreadful plague of consumption, which kills in appalling numbers. It is nothing like the Black Death that broke down the lives of human beings as heavy hail breaks the window pane. But it is a reminder, as we see women and children dying because they are poor, that progress has still a long road to travel.

Drunkness, another sister of ignorance, still has a hold on some human beings, and still represents a difficult fight. But while we fight against intemperance in ourselves or in others we must remember by way of encouragement that intemperance has diminished as disease has diminished. Where there were ten drunken men or women formerly you will hardly find one now. And where drunkness was looked upon as the excusable self-indulgence of great men a hundred years or less ago, it is now looked upon with contempt by all classes.

The great man not occasionally drunk was the exception when the

last century began. And today drunkenness means failure, slavery, scorn and pity. Progress has fought that down from high places to the gutter.

And progress has also fought poverty, although the fight is still on and will last for years.

A death from starvation in our day is a monstrous, sensational and unusual thing. It was the commonest events only recently.

Look where you will in the world and you will find that conditions are getting better. There are discouraging symptoms, and those that think only for today with no general survey of what has happened in the past, get discouraged. But they have no reason to be discouraged.—Chicago Examiner.

From Washington.

Colville, Wash., Sept 12, 1907. Editor Herald

Dear Sir:—Firstly, we have moved, and my address now is as above instead of Davenport, Washington.

Secondly, I wish to pay my subscription. We must keep tab on the Tawas and the best way to do is to take the Herald. I think we have not missed a single number of your paper since we subscribed.

Thirdly, I want to tell you that we are leaving the "Big Bend" wheat country and are going to move into the mountains of Stevens county. It is a beautiful country. At Davenport, wheat is nearly the only product. Stevens county is one of the richest sections of our country. There are nine mills continuous to Colville sawing and shipping lumber. Agriculture of all kinds is carried on and Colville has a large flouring mill. The fruit of this section is indescribably excellent. Stock raising is carried on extensively. Mining and quarrying are carried on extensively.

As you see we have a miniature world of our own. Winters are very mild and winds are unknown. The Columbia river bounds this country on the west and the Peud Orielle (Pond Oray) river is in the eastern part of the country. Forests, vast and dense, are everywhere. Colville has 1700 population, fine schools, a beautiful location at the foot of Mt. Colville, a splendid water supply from five springs two and one half miles from town and up in a mountain, a county seat and is growing rapidly. We greatly miss our Michigan friends and wish they would all come and see us.

Yours Sincerely,
H. A. SHELDON.

Jumped for Their Lives.

Alpena, Sept. 15.—A building owned by John Kesten, and occupied as a bakery, by Mrs. J. Naylor, was destroyed in a spectacular fire Sunday morning. Mr. and Mrs. Naylor, who lived upstairs, had to jump for their lives. They received burned feet but their injuries were not serious. Loss \$2,500; small insurance.

Rate from Tawas City to Bay City \$2.00; to Port Huron, Detroit and Toledo \$4.00. Fare to Ohio and Indiana points is the low rates to Detroit or Toledo plus about 1 1/2 cents per mile in each direction beyond Detroit and Toledo. Special train with parlor car leaves Tawas City at 8:45 a. m. If possible buy tickets and get baggage checked before the day of excursion. Write D. & M. agents or T. G. Wainett, G. P. A. Bay City.

GLOOMY FUTURE.

Whence Cometh the Superintendents and Foremen of Factories.

American Industry, in a recent issue, publishes an article from the pen of Frederick Upham Adams on the subject "Dearth of First-Class Mechanics." One part of the article that is of special interest is the following quotation from a rich manufacturer:

"It is impossible to give a boy a general practical education along mechanical lines in the United States of today. In the first place, there are few factories or machine shops in which a boy is permitted to move from one job to another. They favor the subdivision of labor. In the second place, a boy cannot take up a trade without first obtaining the permission of a labor union. In most crafts he must first serve a certain number of years as an apprentice, and in any number of instances he would be compelled to wait years before he could even qualify as an apprentice. The young man who would aspire to learn mechanics from the blacksmith shop through all the trades which make the finished workman, would be an old man before he was through his schooling. I have not the wealth and the influence—and I am supposed to have plenty of both—to teach my boy what I knew when I was twenty-five years old. He cannot learn it in schools; he cannot learn it in books. This deplorable state of affairs is chargeable partly to the shortsightedness of the manufacturers, who prefer to grind profit out of the man who sticks to one machine or process, and also to the young man who would master the rudiments of all trades. The consequence is that the supply of really intelligent mechanics is so depleted that the problem of filling the places of foremen and superintendents is a most serious one, and unless some remedy is found this country cannot hope to keep pace with our foreign competitors."

Last Excursion to Alpena.

Via D. & M. Ry. Sunday Sept. 22. Excursion train leaves Tawas City at 9:15 a. m., round trip rate \$1.00; proportionate rates from other stations; children between 5 and 12 half fare. Tickets good only on excursion train. See hand bills and D. & M. agents.

A Humane Appeal.

A humane citizen of Richmond, Ind., Mr. U. D. Williams, 107 West Main St., says: "I appeal to all persons with weak lungs to take Dr. King's New Discovery, the only remedy that has helped me and fully comes up to the proprietors' recommendation." It saves more lives than all other throat and lung remedies together. Used as a cough and cold cure the world over. Cures asthma, bronchitis, croup, whooping cough, quinsy, hoarseness phthisis, stops hemorrhages of the lungs and builds them up. Guaranteed by G. S. Darling and J. M. Wuggazer & Co. druggists. 50c and \$1.00. Trial bottle free.

Health in the Canal Zone.

The high wages paid make it a mighty temptation to our young artisans to join the force of skilled workmen needed to construct the Panama Canal. Many are restrained however by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison, biliousness, weakness and all stomach, liver and kidney troubles. Guaranteed by G. S. Darling and J. M. Wuggazer & Co. druggists. 50c.

Last Excursion to Bay City.

Via D. & M. Ry., Sept. 29. Excursion train leaves Tawas City at 9:11 a. m., round trip rate \$1.00; proportionate rates from other stations; children between 5 and 12 half fare. Tickets good only on excursion train. See hand bills and D. & M. agents.

Alcona County Fair

SCHOOL NOTES

LAVINA COX, Editor
LOIS TAYLOR, Assistant

Jennie Bay has been absent this week.

Harry Trainor entered the fifth grade this week.

Sophia Green and Roy Clark have been absent a portion of this week.

The Inose Normal opened Monday morning with twelve pupils enrolled.

Several new plants are to be seen in the window of the second primary room.

The third and fourth grades are much interested in the study of the apple.

A bat was presented by Frank Moore to the zoology class for observation.

Beryl Hughes, Clarence Blust, and Lewis Silka entered the second primary Monday.

Every seat in the high school is occupied since the entrance of George Ferguson and Frank Moore.

John Graff of the grammar department is again in school after an absence of two or three days.

The zoology class is learning the names of the common weeds and also studying the giant water-bug.

Out of the forty-eight pupils of the high school room, there are nineteen boys of which the girls are very proud.

The central primary room had a visitor last Friday in the shape of a young wax wing which had gotten lost. The bird staid with them part of the morning, then the mother bird found the young one and coaxed it out of the window and back to the nest, much to the delight of the little people.

TO SINK COAL SHAFT.

Bay City, Mich., Sept. 16.—Another new coal mine is to be started here this fall. A company is to be incorporated by Lewis P. Coumans, former assistant prosecuting attorney, John McGuiness, of Kawkawin, James Gallagher, former superintendent of the Wenona coal mine, and several local capitalists. The concern has a field of over 800 acres, which has been thoroughly tested and shows a vein of good coal from four to five feet thick. Work on the new shaft will be started in a short time.

Itinerant Dr. Would Cure all Ills

Cheboygan, Sept. 16.—A stranger has been driving through Cheboygan county the past week stopping at every farm home and representing himself as a doctor skilled in all chronic ailments. In many of the homes he has contracted to furnish treatment from one to six months, the farmers paying an amount down, some having paid him as high as \$10 for which he gives them a typewritten prescription which they get filled at any drug store. Several of the prescriptions have been presented to local druggists. The druggists declare the formulae are worthless, and in many instances dangerous to take. Several farmers were in the city, and when they found they had been duped asked for the man's arrest. Officers are looking for the fellow.

Explode Theory for Restoring "Dead."

Saginaw, Sept. 16.—Special.—A test of the theory of a medical authority that drowning persons may be restored to life several hours after apparent death was conducted here yesterday and failed. A dog was submerged in water for 15 minutes and afterward placed in hot water. Artificial and respiratory methods were then tried and after over an hour's work it was decided that the dog was dead. A post mortem was held and it was found that contrary to the theory, the dog's lungs were filled with water.

A Wonderful Society.

The statistics of the Christian Endeavor society, as compared with those of 1893 show a wonderful increase in numbers. The figures are as follows:

In the United States there were then 21,636 societies; today, 44,500. Canada then had 1,632; now 4,301. In Mexico the number has grown from 21 to 133; in Central and South America, including Panama, from 3 to 131; the West Indies, including Cuba and Porto Rico, from 221 to 307. The British Isles in 1893 had 587 societies, and now enroll over 10,000. France has increased from 4 to 141; Spain from 2 to 53; Norway from 1 to 23. These were the only European countries in which Christian Endeavor was represented. Switzerland now has 24, Austria 9, Hungary 23, Italy 13, Crete 4, Russia 49, Portugal 4, Gibraltar 3, Bulgaria 10, Holland 1, Denmark 2, Finland 28, Germany 358, and Sweden 374.

Turkey alone of all the countries of the world has fallen backward from 22 to 18, owing to the repressive policy of the sultan.

Africa now has 467 societies, of which 17 are in Egypt. Thirteen years ago Egypt had none, and all the rest of Africa but 22. Australia has risen from 410 societies to 2,900. Among the Pacific Islands, Samoa has risen from 9 to 31 and Hawaii from 5 to 54, while 6 societies have been established in the Philippines, 25 in the Loyalty Islands, 21 in the Marshall Islands, 4 in the Gilbert Islands, 3 in the Caroline Islands, 9 in the Ellis Islands, and 1 in Formosa. In Japan the number has grown from 27 to 147, in Persia from 2 to 65, in China from 22 to 372, and in India from 69 to 592, while Syria has organized 17, Laos 29, and Korea 12.

LANDED ALLEGED BURGLARS.

Police Take in Three Young Men Charged With Breaking Into Bay City Store.

Bay City, Sept. 17.—John Czerwinski, 716 Madison Avenue, 14 years old; Charles Laude, 420 Madison, 16 years, and Frank Ristan, 322 Madison, 14 years, were arrested early this morning by Captain Ryan and Detective Craig on charges of breaking into the Bay City Hardware Co.'s temporary store, on Water street, near Third. The officers also took in charge a lot of stuff, padlocks, shells, etc., alleged to have been stolen by the boys, finding it concealed about the premises where the boys lived. Detective Craig has been working on the case for some time. The alleged robbery with which the boys will be charged took place Sunday afternoon.

Forestry Men Will Meet.

Saginaw, Sept. 16.—Special.—On the invitation of Hon. W. B. Mershon the Michigan Forestry association will hold a joint meeting here with the state board of forestry and the forestry committee of inquiry appointed by Gov. Warner, Nov. 12 and 13. The state boards of Wisconsin and Minnesota and possibly Ontario will also meet here at the same time.

WANT RAILROAD EXTENDED. D. & M. Officials Consider Proposition From Northern Towns.

Rose City, Mich., Sept. 13.—A special car containing the officials of the D. & M. railway met a delegation of business men and lumbermen from Mio and West Branch to talk over about extending the railroad from Rose City to Mio, a distance of about 20 miles. The citizens of Mio offered a good bonus and the prospects are brighter now than at any time since the road has been talked of. The road would tap a large belt of timber that would come out via Bay City, besides extending railroad facilities to the farmers and opening up a fine tract of farming land.

BOLT FROM CLEAR SKY.

Kills Hanover Farmer While Plowing in the Field.

Hanover, Sept. 16.—Lightning this afternoon killed Niel Cary, 60 years of age, and his two horses while plowing in a field two miles north of here. It did not rain here today and the sun was shining when the bolt came. Mr. Cary and his horses were thrown on their left sides. The lightning struck Cary on the back of the head, tearing his hat to shreds, and came out of his left foot.

Saves All Wasted With Other Stoves For Hard Coal, Soft Coal or Lignite

The waste of gas in burning hard coal is shown by opening the magazine cover of an ordinary base burner, when the oxygen supplied fills the entire stove with flaming gas. Cole's Hot Blast stove burns this gas in hard coal which, in ordinary stoves, escapes, on account of their leaky construction, causing great waste and endangering health and life when it escapes into the rooms.

In the ordinary magazine hard coal stove, three-fourths of the coal is partially consumed in the magazine, where it gives off no heat, as it is not in contact with the radiating surface. The one-fourth of the coal in the fire pot must be kept at a white heat combustion to throw the heat into the rooms, thus causing great waste.

Cole's Original Hot Blast

The combustion chamber and the magazine are combined in this stove and the combustion is perfect. The stove is filled to the top of the inside cast iron lining. This large body of hard coal is burned under perfect control by means of the absolutely air-tight construction of the stove giving perfect control over the drafts. The coal is kept at a slow, economical cherry red combustion and as the heat is in direct contact with every square inch of the sensitive steel radiating surface, all the heat is radiated into the room where it is wanted and not blanketed in and sent up the chimney. Hard coal at Cherry Red Combustion burns 48 hours, while at white heat it is consumed in from 2 to 5 hours.

Sold Under a Positive Guarantee

We guarantee Cole's Original Hot Blast to use less hard coal for heating a given space than any base burner with the same heating surface.

Requires attention only morning and night with hard coal. Warm rooms day and night. No escaping gases to endanger life. The heat wasted up the chimney with other stoves is saved.

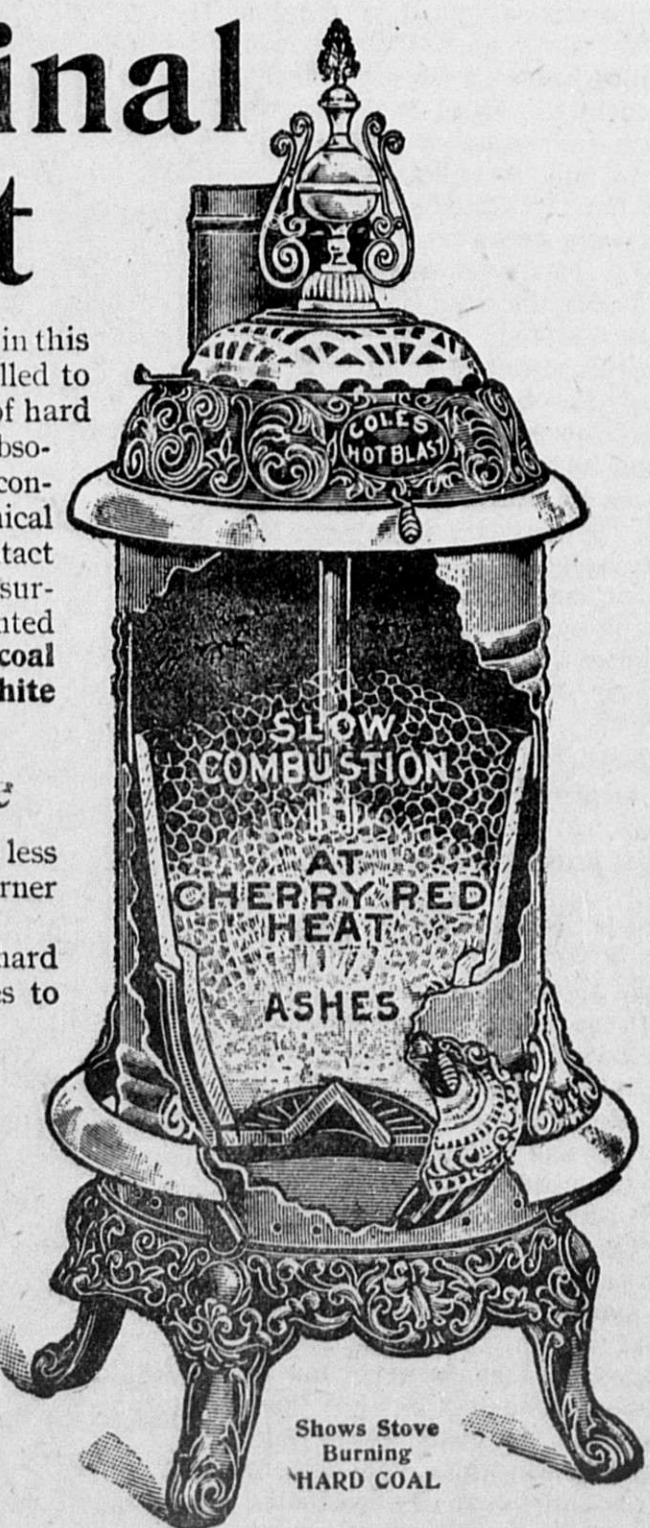

Burns Any Fuel—Saves Half

Cole's Hot Blast is not only a perfect hard coal stove, but is generally recognized as the most economical and cleanest soft coal stove made. Soft coal is half gas and a \$3.00 ton of soft coal or a \$2.00 ton of slack is made to do the work of \$9.00 worth of hard coal, as the gas half is utilized as a heat producer. It burns soft coal, hard coal or wood without any change of fixtures.

Scientific Construction

Cole's Original Hot Blast has an absolutely air-tight and gas tight construction throughout, by reason of its numerous patented improvements. The patented Hot Blast draft saves the gas. A patented steel collar connects the elbow draft to the stove body and cannot be made to leak air by action of the fiercest heat. The patented compound hinge on the ash door cannot warp and the door closes air-tight by its own weight. The heavy fire box protects the joints, where other stoves burn out first. The guaranteed smoke-proof feed door prevents smoke, soot or dust from escaping into the room when fuel is put into the stove. Perfect cleanliness, therefore, from soft coal.

CAUTION. Like all original improvements, Cole's Original Hot Blast has many imitations. They are failures, because they do not have the above patented features. The words "Cole's Hot Blast from Chicago" will be found on the feed door of every Cole's Hot Blast. None genuine without it.

Shows Stove Burning HARD COAL

Cuts the Fuel Bill in Half For Soft Coal, Lignite or Hard Coal

As you know fully one-half the carbon available for heat in soft coal is gas, the entire gas supply used for fuel and illumination in many cities and towns being made from common soft coal. The ordinary stove in burning soft coal allows this gas half of the fuel to pass up the chimney unburned, thus wasting it as a heat producer.

Cole's Original Hot Blast Stove, by means of the patented Hot Blast draft and other patented features, distills this gas from the upper surface of the coal, utilizing it as a heat producer along with the fixed carbon or coke in the coal, thus burning all the coal. This is why

Cole's Original Hot Blast

Saves the Dollars and makes a ton of common \$3.00 soft coal or lignite do the work of \$9.00 worth of hard coal.

Your old stove and imitation Hot Blast are not air tight, do not save the escaping gases and do not give you a warm house at night. You cannot afford to say to yourself "My old stove will have to do this winter." The old stove is eating up the price of a new stove every year. Not only that, but on top of the cost is the unsatisfactory result it gives. It is always out the coldest morning.

Even Heat Day and Night—Fire Never Out

Cole's Hot Blast is so perfect in construction that fire keeps all night, and when the draft is opened in the morning will burn two or three hours with the fuel put in the night before. No other stove does this. Fire, therefore, never goes out, and the rooms are kept at an even temperature all the time.

OUR GUARANTEE

- 1—We guarantee a saving of one-third in fuel over any lower draft stove of the same size, with soft coal or slack.
- 2—We guarantee Cole's Hot Blast to use less hard coal for heating a given space than any base burner made with same heating surface.
- 3—We guarantee that the rooms can be heated from one to two hours each morning, with the soft coal or hard coal put in the stove the evening before.
- 4—We guarantee that the stove will hold fire with soft coal 36 hours without attention.
- 5—We guarantee a uniform heat day and night, with soft coal, hard coal or lignite.
- 6—We guarantee every stove to remain absolutely air-tight as long as used.
- 7—We guarantee the feed door to be smoke and dust proof.

The above guarantee is made with the understanding that the stove be operated according to directions, and set up with a good fuel.

For Hard Coal—Saves Half

The perfect control over the drafts, the slow economical combustion and the large positive radiating surface make Cole's Original Hot Blast the most economical and the best Hard Coal stove made.

Cole's Hot Blast is the modern heater and will save its cost in fuel every winter. Buy one for your home now.

Shows Stove Burning SOFT COAL

Would You Lose \$50.00 in Fuel to Save \$1.00 on the Cost of Your Stove?

That is what you do when you buy a cheaply constructed, putty jointed, showy made imitation stove. Like all successful inventions, Cole's Original Hot Blast has many inferior imitations, avoid them. They all lack the patented features and careful construction, which make the Original Hot Blast a great success. They do not stay tight and soon open seams and cracks which render them worthless as fire keepers. See the name "Cole's Hot Blast from Chicago" on the feed door. None genuine without it.

Kenneth Perry, of Onaway, came last Saturday to attend the funeral of his mother-in-law, Mrs. Osborne. Leslie Belknap left Monday morning for the M. A. C., at Lansing, preparatory to resuming his studies for the ensuing year. At the special election held in Burleigh township Tuesday, the 7th inst., there was one vote cast in the forenoon and six in the afternoon. A total of seven votes. Rev. C. L. Berry, of the Tawas City Baptist church, preached a very able and entertaining sermon at the Forester hall, Tuesday evening. We hope to have another visit from him. That results can be secured from the excellent land in this vicinity is well illustrated by the success of Dr. N. J. McColl. Two years ago the Dr. purchased a wild eighty on which no clearing had been done. Last year, or the first season he cropped it, he harvested 700 bushels of very fine peas and 1275 bushels of merchantable potatoes. This season he has threshed 1010 bushels of wheat and peas, and has four acres of potatoes yet to harvest. Mrs. Mary C. Osborne, wife of Rev. J. W. Osborne, died at the home of her son James W. Osborne of Burleigh township, on Saturday morning, September 14th, 1907, aged 63 years, two months and 12 days. Mrs. Osborne has been critically ill since last March, her disease being creeping paralysis. The funeral was held from the M. E. church in this city on Monday afternoon, Rey. G. H. Tuekey officiating. The remains were taken to Melvin, Sanilac county, for burial.

Mrs. Helen Barrett and granddaughter Irene Beredon, who have spent the past few months with her son returned to her home at Kimbal, on Thursday.

A number of the little friends of Marie Lendo gathered at the home on Saturday afternoon and helped celebrate her birthday. A pleasant afternoon was had by all. Mr. Miller went to Ann Arbor Saturday, and returned Tuesday with his daughter Miss Bertha, who has been at the hospital for the past three weeks. We are sorry to learn that the young lady's health is not at all improved and that but very little hope is entertained of her recovery.

Last Saturday evening a number of the young people gathered at the home of Carl Fahselt to help him celebrate his thirteenth birthday. The evening was enjoyably spent and at a late hour the guests departed leaving behind best wishes for many more such reunions and taking with them memories of a pleasant evening.

Reno Kumbings.

Quite a number from here attended the fair at Tawas this week. There will be a dance held in the Reno town hall tonight, Friday. Thomas Jackson was able to drive out with his brother last Sunday. Mr. and Mrs. Chas. Love, of Hale, spent Sunday with friends at Taft. Sheep are being shipped from here to out side markets every few days. English church service was held at the school house last Thursday evening.

A. Soper and family have arrived from Detroit and will now reside on their farm. A little daughter arrived at the home of Mr. and Mrs. Wm. Gillespie on Tuesday of this week.

Mr. and Mrs. Albert Syze, of Long Lake, spent Saturday at the home of Mr. and Mrs. Wm. West.

M. E. Prayer meeting will be held at the home of Mr. and Mrs. James Daugherty, Tuesday evening, Sept. 24.

Mr. and Mrs. Cornelius Robinson and two sons started Tuesday from Emery Junction, enroute for their native land—England, where they expect to reside in the future.

The Touch That Heals

is the touch of Bucklen's Arnica Salve. It's the happiest combination of arnica flowers and healing balsams ever compounded. No matter how old the sore or ulcer is, this salve will cure it. For burns, cuts, scalds, wounds or piles, it has no equal. Guaranteed by G. S. Darling and J. M. Wuggazer & Co. druggists.

Health in the Canal Zone.

The high wages paid make it a mighty temptation to our young artisans to join the force of skilled workmen needed to construct the Panama Canal. Many are restrained however by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison, biliousness, weakness and all stomach, liver and kidney troubles. Guaranteed by G. S. Darling and J. M. Wuggazer & Co. druggists. 50c.

Every Dream Has a Meaning

It is strange, but nevertheless dreams often come true. To study the meaning of your dreams is interesting and amusing. 300 dreams and their meaning is the title of a little pamphlet issued by the Wonderful Dream Salve Co., Detroit, Mich. One copy will be mailed free to anyone sending the name and address, of some friend who is suffering from Eczema, Piles, Burns, Scalds, or Sores of any kind. It has been said that Wonderful Dream Salve is the greatest healer on earth, and we believe it is true for some wonderful cures have been made. Eczema, Piles and Old Sores that were considered incurable, have quickly yielded to the healing power of this salve which has been used in Michigan for more than 50 years. Every box is sold under a bona-fide guarantee of satisfaction or money refunded. 10-25c and \$1.00 at all drug stores. 7
