Get one demonstrated in your home. The joy of one is the pleasure of all with the Edison phonograph.

During the cold and stormy weather of fall and winter, patrons of the several rural delivery routes are requested to buy stamps and quit the "penny in the box" habit. Letters stamped can be taken from the box without the carrier having to remove his gloves, but pennies cannot, and when your carrier has to scratch pennies out of 25 to 100 boxes a day, you can, by stamping your letters, save him a lot of time and suffering and help to brighten his long and dreary ride. It will cost you no more to ask him for 50cts. worth of stamps today and be prepared.

In ten years the rural free delivery service has made giant strides, as shown by the report of Fourth Assistant Postmaster General P. V. De Graw. In 1897 there were 83 rural carriers. In 1907 there are 37,582. There are 37,728 rural routes and 880 petitions pending, where only 80 existed ten years ago. Michigan has 1,933 of the present rural routes. In 1897 the 83 rural carriers and the service they rendered cost the government \$26,755,524. A feature of the work has been the vast improvement on country roads that it brought about.

To Marquette for Life.

When arranged in the circuit court last Monday on the charge of murdering John Ferris, at the Union steam boat dock in Oscoda on Nov. 13th, Tony Duley, of Alpena, stood mute, and Judge Connine ordered a plea of not guilty entered. Attorneys A. W. Black and Ward B. Connine were appointed by the court to defend the prisoner, while Prosecuting Attorney Rawden and C. A. Jahraus prosecuted the case. The prosecution presented their case against Duley, which was most complete. The defendant was sworn in his own behalf and told a story of how he went to the dock to buy a ticket for Detroit, and Ferris wanted to charge him more than the regular fare. Duley said he refused to buy and threatened to report Ferris, when Ferris pulled the gun and said he would kill him. Duley attempted to take the gun away from him and in the scuffle it was discharged hitting Ferris. When it is considered that Ferris was an active young man weighing about 170 pounds while Duley is a paralytic weighing about 140, it is easy to understand how little effect his story had on the jury, who returned a verdict of guilty of murder in the first degree after deliberating 20 minutes.

Judge Connine sentenced Duley to Marquette prison for life Wednesday morning, and Sheriff Curry and Deputy Johnson left in the afternoon with the prisoner. Duley seemed to be wholly indifferent as to his fate, laughing and joking with the officers and others as he started for his destination. The verdict was a most popular one, as it is believed that a more cold blooded and unnecessary crime was never committed in the county.

Much credit is due the officers for the able manner in which they have conducted this case.

The Navy Department To-Day.

George Washington was the real father of the new navy. There were other patriotic advocates of a fighting fleet, but to his voice more than to that of any other did the country listen. The new Republic, under the protection of its navigation laws, was then building up a large and prosperous merchant marine, and in an address before both houses on December 7, 1796, President Washington urged that "to an active external commerce the protection of a naval force is indispensable." He argued also in words whose vigor matches the language of our present president that "to secure respect to a neutral flag requires a naval force, organized and ready to vindicate it from insult or aggression." The first secretary of the navy took his seat in the cabinet of President Adams on April 30, 1798, and at almost the same time a regular marine corps was established. Out of the neglect of the Jefferson regime the Navy Department lived to win imperishable glory in the war of 1812, and since then it has been an actual and honored right arm of the United States. Very different in organization, authority, and importance from the young department ruling over half a dozen frigates in 1798 is the present department, with 300 vessels of all classes and more than 40,000 officers and men under its control, which is about to signalize the present naval prowess of the Republic by swinging a mighty fleet of sixteen armored ships-of-the-line from the North Atlantic to the North Pacific ocean. In sheer fighting strength the United States Navy at the present moment is the second in the world,—so swiftly and skillfully has there been carried forward the work of rehabilitation and increase following the strange, temporary stagnation of 1870-1882. Only the British admiralty now wields a sea power surpassing that at the disposal of the secretary and assistant secretary of the navy in Washington. —From "The Navy Department and its Work," *American Review of Reviews* for December.

The Value of Laughter.

Under this caption the Brandon Times has an article in its health column which deserves a wide circulation. We quote part of it.

"The immediate physical results of indulgence in laughter are numerous. In the first place the act of laughter involves the exercise of a large number of muscles, including many of those of the face, neck, chest and abdomen, which if they are exercised sufficiently often, become correspondingly well developed as do also all other tissues in intimate connection with them. The facial muscles, for example, of the man who laughs often and easily are generally developed to a degree which gives him the facial rotundity of a contented child. But laughter accomplishes much more than this mere outward appearance of well being. It has a highly beneficial influence on those two vital organs, the heart and the lungs.

"During what may be called 'a fit of laughter,' the lungs may be almost emptied of their contained air. Fresh air is then drawn in to the fullest extent of their capacity, inflating, perhaps, those little used air cells, which contained previously only stagnant air and bacilli—for in the shallow breathing we ordinarily practice, comparatively large tracts of air cells are not used. During this process the general circulation is accelerated, impure air is hurried out of the system and fresh air hurried in. With the forcible ascent and descent of the diaphragm during inspiration and expiration, the liver and other abdominal organs undergo a kind of kneading not unlike that undergone during massage, and which is of great benefit in rousing them from the torpor to which they are liable."

This has no reference to the "horse laugh" of the typical rowdy, nor to the "giggle" of the silly girl who snickers in church during the services.

Mrs. Patrick Campbell.

The visit of Mrs. Patrick Campbell, the greatest of English-speaking actresses, at Bay City is the most notable event of the local dramatic season. Her appearance at the Washington theatre is without question important theatrically and socially, for Mrs. Campbell is not only one of the great actresses of the world ranking with Bernhardt and Duse, but she is quite a figure socially in London also. The work of no player of the present day, has been more seriously or wider discussed than hers. Her engaging personality, her marvelous, though strange beauty, her extreme naturalness and dignified repose compels the deepest interest and unflinching attention, in her every movement; in fact it is quite impossible not to be interested in her, a peculiar fascination rivets all eyes to her from the first instant of her appearance upon the scene and until she again dis-

appears. For her appearance in Bay City on Monday, December 16, she will present the second Mrs. Tanqueray. This is one of the four greatest successes in her career, to which she is limiting her present American tour. Each role is a recognized masterpiece.

The prices for this engagement will range from 50 cents to \$2, according to location. The seat sale will open Friday Dec. 13. For the benefit of out of town theatre goers who may wish to avail themselves of the opportunity of witnessing the Campbell performance, the mail order system will be in effect. A post office money or express order, or check made payable to W. J. Daunt with an enclosed stamped envelope for reply will receive prompt attention, and will be filled now and in the order of their receipt.

Badly Mixed Up.

Abraham Brown, of Winterton, N. Y., had a very remarkable experience; he says: "Doctors got badly mixed up over me; one said heart disease; two called it kidney trouble; the fourth, blood poison, and the fifth stomach and liver trouble; but none of them helped me; so my wife advised trying Electric Bitters, which are restoring me to perfect health. One bottle did me more good than all the five doctors prescribed." Guaranteed for blood poison, weakness and all stomach, liver and kidney complaints, by G. S. Darling and J. E. Dillon, druggists. 50c.

ECZEMA

Cured in less than four weeks.

Those who have had experience with this stubborn disease can hardly believe at first that Wonderful Dream Salve can and does cure Eczema.

There is no doubt about the matter whatever. A great many letters are on file in our office from grateful patients, telling of the quick and easy way in which Wonderful Dream Salve has removed all traces of this torturing skin affliction.

Mr. John T. Kealey, a well-known business man, located in the Stevens Bldg., Detroit, Mich., was recently cured of a bad case of Eczema of fourteen years' standing. After treating with many doctors and taking many remedies without relief, Mr. Kealey was induced to try Wonderful Dream Salve, and in four weeks was entirely cured.

He says: "I certainly consider this a remarkable cure, inasmuch as I have spent hundreds of dollars in the fourteen years of annoyance with this troublesome itching skin ailment. I have since the cure of my case heard of other cures, some of them even more remarkable than mine, which go toward demonstrating the value of Wonderful Dream Salve as a great skin healer."

If you have Eczema, why not try a box of Wonderful Dream Salve. If it fails, your druggist will refund your money. Isn't that fair enough? Keep it in your home for Chills, Chapped hands, Piles, Cuts, Burns, Frost-bites, Boils and Sores of any kind. You will never use anything else. 25c a box at your druggist or mailed pre-paid direct.
