Mrs. Anna English, of Detroit, arrived at East Tawas Wednesday, and will have charge of the trimming department of Mesdames Dease & Martindale's millinery parlors during the coming season. Mrs. English is an expert trimmer and comes highly recommended.

Last Monday evening twenty-eight friends of Miss Sylvia Flintoff, of East Tawas, gathered at her home and gave her a most enjoyable surprise. The evening was spent in social intercourse and games. Refreshments were served and all went home pleased with the evening's enjoyment.

We are informed that our former townsman Mr. F. E. Walker, for the past year located at the Soo, where he held the position of local manager for the lumber inspecting firm of W. L. Martin & Co., has accepted a more lucrative position in Cleveland, O., and will remove to the latter place soon after the opening of navigation.—Grand Marais Herald.

The total value of the stone product of the country in 1906 was \$66,378,794, an increase of \$2,570,046 over that of 1905, and an increase of \$42,413,565 over that of 1896. Vermont gets the credit of being the granite state, but Pennsylvania leads in the production of stone, with nearly 14 per cent of the total to her credit.

The beautiful red color so often seen in canaries is achieved in this way: Just before the time for shedding the feathers arrives, and during the molting season, the bird is fed on crackers and eggs highly seasoned with cayenne pepper. This treatment quickly changes the feathers to a deep reddish hue, but must be given at every molting season or the natural light yellow feathers will reappear.—The New Idea.

One of our popular young ladies who is contemplating matrimony with the advantages which leap year gives her, was handed a testament by her father with the leaf turned down at the following passage: "He who giveth in marriage doeth well; but he who giveth not in marriage doeth better." She immediately returned it with the following reply written underneath: "Dear father, I am content to do well; let those do better who can."

The Herald office is prepared to print auction bills on short notice. Give us a call.

The Herald Moves.

The work of moving the plant of the Herald to our new building, opposite the D. & M. Ry. station, begins today and we will be doing business in that location next Monday, where we shall be glad to meet all our friends and patrons.

The work of removing has of necessity delayed us with some of our work on hand but we expect to have everything going in good shape within a short time, and we ask the indulgence of our patrons who may not receive their work quite as soon as expected.

Our new quarters are most convenient for our purposes and we will soon be located so as to give much better attention to our business.

Mrs. L. L. Johnson announces her Easter opening of fashionable millinery for next Wednesday, March 25. Her line this season is unexcelled including as it does all the latest styles and shapes. The ladies of the Tawas and vicinity are cordially invited to call and inspect the stock.

The remains of Harry Hill were brought from Cleveland to East Tawas last Friday for interment. The young man was a son of Mr. and Mrs. J. Eugene Hill, former well known residents of East Tawas, and was killed while in the discharge of his duties as switchman for the "Big 4" Ry. Co., at Cleveland, Sunday night, March 8. Besides the bereaved parents, brothers and sisters, he is survived by a bride, having been united in marriage to a young lady of Cleveland about two months ago.

Rev. Brainard Brown will deliver his lecture, "The Cowboy," at the East Tawas opera house, Tuesday evening, March 31, under the auspices of the Lady Maccabees, the proceeds going for the benefit of a sick member of the order. Rev. C. Louis Berry says of this lecture: "Brainard Brown, the cowboy, preacher, rancher, interests, instructs and entertains his audience from start to finish. His wit, humor, and pathos ranging from the ludicrous to the sublime, keeps his audience in constant expectancy. The lecture is original and unique. There is only one "Brown," cowboy, preacher, rancher, lecturer."

On April 1, it will be necessary for us to discontinue all subscriptions one year or more in arrears where settlements have not been made. We have urged all those in arrears to call and arrange for a continuation of their papers and those who have not done so must be discontinued, not of our desire but because the government says so. In case of discontinuation, we shall place the accounts in the hands of an attorney for collection. We have no desire to force these matters but after giving all the opportunity to arrange them to their accommodation and receiving no response, it is very evident that this action is necessary.

About 125 of the Masonic fraternity of the Tawas, AuSable and Harrisville gathered at the hall of Baldwin Lodge, of East Tawas last Monday evening, where the work of the third degree was conferred by the members of that lodge. Grand Master, C. E. Sweet, of Dowagiac, Grand Lecturer, F. O. Gilbert, of Bay City, G. L. Lusk, E. M. Sharpe, and C. E. Rosenbury, of Bay City, were guests of honor on the occasion. After the conferring of the work an elegant repast was served which was followed by some most enjoyable addresses. The occasion was one which will long be remembered by the members of this popular fraternity as one of its most enjoyable.

For Sale:—I offer for sale my house with one lot, located in East Tawas opposite the Ottawa Hardwood Co's mill, cheap for cash. I also offer for sale all household goods, stoves, kitchen utensils, etc. Inquire of ELMER S. REED, East Tawas.

TAWAS CITY, MICH., MAR. 20, 1908

Michigan democracy appears to be well supplied with desirable material for a candidate for governor this fall. So far the names of George P. Hamner, of Grand Rapids, W. N. Ferris, of Big Rapids, L. T. Hemeans, of Mason, Nate Stewart, of Kalamazoo, John F. Bible, of Ionia, and a few others are being mentioned prominently. Any one of these gentlemen would give the state an administration which would be a credit.

An article in the March number of the Review of Reviews states that sheep have been reduced over eleven million during the past four years. This has been due to dividing up the large ranches into farms, the high price of mutton and the severe and freezing winters the past few years. Farmers will find it hard to build up new flocks and prices will go up the next few years. The wise man will keep a good flock of sheep.

Don't forget that your neighbor though he differs from you politically may be just as honest in his convictions as you, that this is a free country where freedom of opinion is one of the biggest of the broad foundation stones of our government, and there would be an end of that form of government without it. Be tolerant, therefore, or rather not tolerant but rational, patriotic and good natured. Stand by your convictions and let your neighbor stand by his if so disposed. Keep cool. Argue politics if you will but do it calmly and reasonably, and bear this fact always in mind, that just as you have made up your mind unalterably as to the way which you are going to vote, ninety-one hundredths of the voting population has done the same thing.—*Exchange*.

Significant as showing the extent to which the fish supply of the Great Lakes is kept up by means of artificial propagation is the fact that a consignment of 40,000,000 whitefish eggs were received at Sault Ste Marie hatchery the first of March from the station at Detroit. Eight million lake trout fry were recently received from the Northville hatchery. This stock and that to be procured from the whitefish eggs will eventually be planted in the upper lakes and St. Mary's river to subsequently figure in the catches of commercial fishermen.

The Ingham county grand jury, at Mason, closed its work last Saturday by returning indictments against two members of the last legislature, Representatives J. D. Anderson, of Grand Rapids, and A. F. Banting, of Detroit. The former is charged with receiving expense money to the amount of \$102.93 for a committee junket on which he did not go, and the latter with certifying to false expense vouchers. The jury also issued an extensive report of errors of commission and omission on the part of state officials which should be corrected.

It has been definitely announced in Paris that Dr. Begert has succeeded in solidifying the rare earths used for the Welsbach mantles by means of the electric furnace, while at the same time the oxides retain their radiating properties. M. Begert, by whom the results will be controlled, is a well known physician, and the Societe Halla will shortly put its "poisons ardents" on the market. This name is due to the shape of the ordinary burner, the substitute for the mantle being cast in the form of a thicker or brush of filaments. Any desired shape can be formed, however, so that the process lends itself naturally to fancy effects. The new filaments, it is asserted, resist shocks, tremors, or draft to an enormously increased extent.

For Sale.

I have a limited amount of good clean white seed oats. These oats are good and heavy.

The Petty State Grifters Ought To Go.

The matters investigated by the Mason grand jury indicate that while there has been considerable corruption on a large scale, an army of petty grifters has been feeding at the public platter for many years. This small thievery, it would appear, has been most prolific in the form of padded and false expense accounts, mileage bills that the state should never have paid and in charges for trips that were in reality political junkets. State employes whose duties are in Lansing have been handling in bills for visits home, journeys to summer resorts, attendants at state conventions and errands of a political nature. If there is an internal fight in the administration party, if a "machine" for instance is arrayed against a popular movement, and a state convention is held, practically every deputy on the payroll of the state suddenly discovers "business" in the town where it is held. As a matter of fact their "business" consists in helping the machine to which they look for their jobs out of a hole or in stacking up votes against some charge or return that the public is demanding. When they get back home or to Lansing, fat expense accounts are turned in and the treasury liquidates. There is reason to believe, also, that the cost of running certain departments of the government is excessive because they are made the instrument of political activity. Primary reform unquestionably is a thing to be desired, but the laws do not contemplate that to bring it about the governor shall send state employes into the various counties to circulate petitions. Neither does the law intend that enormous postage bills for furthering a political move or an official's ambition shall be paid by the taxpayers of Michigan. These and many other indefensible practices have long been in vogue in Lansing. Some are down right stealing; others are so near that the difference is not noticeable. It seems to us it is time this graft was broken up. The courts and the legislature can do it.—*Saginaw News*.

Give Credit.

It isn't a great evidence of brain power to be able to find fault. It takes less effort, less gray matter, and does less good to find fault than almost anything else on earth you can do.

Sometimes it seems to be necessary to discipline things that persistently go wrong, but a constant nagging fault finding never remedied any evil on the face of this earth. If you have a "kick coming," walk square up to the scratch, and to the man who is responsible, tell him of it, and it's dollars and dimes that he will make an effort, and an honest effort to square it, whereas constant, backbiting and nagging will probably goad him to further acts that displease you.

That man, nor that body of men ever existed that made no mistakes, and it is no crime to make a mistake, nor is it evidence of evil doing or lack of ability, or that the other fellow would have done any better.—*Selected*.

Importance of the Nose.

The nose is the culminating point of the face—the canopy of the kisser. It is a drunkard's signboard and a nocturnal trumpet. It is a drop-valve for sweat, a roost for flies, and a punching bag in a prize fight. It is the toll gate of your smiling apparatus, and a despoiler of handkerchiefs. The nose is your sneezing instrument. It is the bay window of your face, and sometimes gets the lights knocked out of it. It can be used as an automatic shunk detector, and it is the royal bumper when you come in contact with the earth.—*Exchange*.

Good For Everybody.

Mr. Norman R. Coulter, a prominent architect, in the Delbert Building, San Francisco, says: "I fully endorse all that has been said of Electric Bitters as a tonic medicine. It is good for everybody. It corrects stomach, liver and kidney disorders in a prompt and efficient manner and builds up the system." Electric Bitters is the best spring medicine ever sold over a druggist's counter; as a blood purifier it is unequalled. 50c. at G. S. Darling's and J. E. Dillon's drug stores.

Violins, guitars, banjos, accordions, harmonicas and musical merchandise in great variety at King's.

Smiles Are The World's Right.

What's the use of stifling all the laughs and smiles and good thoughts that are inside you? Heaven knows there are in the world tears enough that can't be helped! Whenever you feel like laughing, go ahead and laugh, says the April New Idea, editorially. When you feel like singing, go ahead and sing out good and loud. It will break the cloud of the worry-disturbed atmosphere; it will shake away the miserable little troubles that come hanging around, bothering one and interrupting and making fusses all the time.

Don't let trouble down you. Put on your steel armor of good thoughts. Get out your broomstick of optimism and when trouble comes along hit him one big, beautiful swoop. Then run away so he can't catch you. Don't laugh—this isn't a joke—it's "for real."

Some people have a fool idea that to keep young and happy is to be regardless of the serious matter of life. But the real serious matter in life is to be courageous. Force yourself to say the pleasant, bright things that come to your mind.

Hard? Of course it is! But it is a good fight, this one against allowing one's self to be submerged in personal griefs, and out of it you can come a conqueror if you will.

But there is always a remedy for a heavy heart. It may be in good, hard, all-absorbing work—it often is.

It may be in thinking out the joys that have been given to you, and the sorrows from which you have been saved.

It may be in helping others by sympathy or in whatever way help is most needed, in forgetting self entirely, and in remembering and relieving the needs of others as far as possible, or in thinking out what the future holds until your heart grows light and the world seems full of sunshine.

Foresters to Raise Rates.

When the supreme court of the Independent Order of Foresters meets in June it will ratify an increase in rates and a re-scaling of charges to members, dating to 1899, that will materially effect 260,000 members of the order.

The new members will be put on the scale of charges of the national congress fraternal table, which will be an increase over the rates in rates put in force by the I. O. F. in 1899. The most striking change will be that affecting present charges to the older members that came into order prior to 1898. They will be asked to pay either in a lump sum or in another way enough to bring them up to date in comparison with what the rates charged for at that age by the order are now. Those who cannot pay the new rate will have the face value of their policies correspondingly decreased.—*Exchange*.

Republican City Convention.

The Republicans of Tawas City will meet in convention at the city hall Thursday, the 26th day of March A. D. 1908, at 8 o'clock p. m., for the purpose of placing in nomination candidates for the offices of mayor, treasurer, clerk, and justice of the peace, also for three members for city committee for the ensuing year, and for the transaction of such other business as may properly come before it. Each ward is entitled to five delegates.

No Use To Die.

"I have found out that there is no use to die of lung trouble as long as you can get Dr. King's New Life Pills," says Mrs. J. P. White, of Rushboro, Pa. "I would not be alive today only for that wonderful medicine. It loosens up a cough quicker than anything else, and cures lung disease even after the case is pronounced hopeless." This most reliable remedy for coughs and colds, haggard, asthma, bronchitis and hoarseness, is sold under guarantee at G. S. Darling's and J. E. Dillon's drug stores. 50c and \$1.00. Trial bottle free.

Best Healer In The World.

Rev. F. Starboard, of East Raymond, Maine, says: "I have used Bucklen's Arnea Salve for several years, on my old army wound, and other obstinate sores, and find it the best healer in the world. I used it too with great success in my veterinary business." Price 25c. at G. S. Darling's and J. E. Dillon's drug stores.
