Verily only a man's wife knows what the future has in store for him.—Ex

The persons who furnish items for a newspaper are valuable friends to the editor. Some persons always hesitate about sending items to a newspaper regarding the movements of friends lest the editor should think them anxious to see their name in print. He thinks nothing of the kind but on the contrary he is always glad to get items. Many seemingly unimportant notes, when printed, are news to a large number of readers.

At the home of the bride's sister, Mrs. John Myles, of this city, on last Wednesday afternoon, Rev. J. Spencer Smith said the words which united in the bonds of matrimony, Miss Mabel Lloyd, of this city, and Charles Nash, of East Tawas.

The young people left on the afternoon train for Vermillion, Upper Peninsula, where Mr. Nash is a member of the U. S. life saving crew. The best wishes of a large circle of friends go with them.

In the scout cruiser Salem the United States possesses the fastest warship afloat. In the recent government standardization trial over the measured mile course off Rockland, Me., this handsome vessel was driven at a maximum speed of 26.88 knots and at an average speed for five runs over the mile course of 25.95 knots. The Salem is equipped with Curtis turbines, a type which has been developed in this country. The Chester, a sister ship, is conceded the fastest warship afloat.

By the debut of a young man last Monday evening at the home of Mr. and Mrs. Ed. Mahoney, Mr. Dan Mahoney and Dan McElerhorn became a real foxy grandpas, and the smiles of the two Dams are as broad and everlasting as that of the happy papa. Ed. says that they have not yet decided on what name the young gentleman will bear but think one will be Dan. No home is complete without a baby, and we are glad to see the idea is becoming so fashionable. Next.—Onaway Inter-Lake.

The farmers throughout the county are showing more interest in the coming county fair—September 22-23-24 than for a number of years. This is as it should be, as the officials have this year arranged the prizes so that every dollar remains in the county, even unto the race money, and it is now up to the farmers to show that they are sincere in their claim that they would give the fair loyal support if outsiders were not allowed to come in and take the money. Liberal prizes are offered in all classes and the money will go to the residents of the county who can show something worthy. Get busy and show that a fair can get the support which it is entitled to.

A Piano Bargain.—A \$750 piano, one of the best made, will be sold at a bargain that will surprise you, if taken before next Wednesday, August 26. Reason for selling is that we do not wish to ship it east. Don't let the high price of this piano deter you from investigation. Call phone 107, 3 long rings.

At the Emmanuel Lutheran church Wednesday evening, occurred the marriage of Miss Olga, daughter of Mr. and Mrs. John Ristow, and Ernest R. Kasichke, Rev. Arthur Wuggazer being the officiating clergyman. The happy couple were given an enjoyable reception after the ceremony at the home of the bride's parents. The young people have a large circle of friends in this vicinity who unite in wishing them a long and happy wedded life.

Swamped with Queen Wasps.
The announcement that the Hayward's Heath Horticultural society was prepared to pay a penny for every queen wasp brought to the summer has caused the secretary to be inundated with wasps from all parts of England. Some of the senders have requested that the money they consider due them should be forwarded by return of post. The secretary, however, wishes it to be understood by senders that only persons living within the radius of the show will be paid for their wasps.—London Standard.

Matrimony vs. Labor.
Some one suggests a novel remedy for the competition of women in trades that have always been sacred to men, says a writer. It is that whenever a woman is known to be making a success of her work some man should marry her, and nine times out of ten it would mean a position for another man. Unions might take the matter up and keep on hand a stock of eligible young men to shoot off the young women through the gate of matrimony.

TAWAS CITY, MICH., Aug. 21 1908

The airing which the republican administration of state affairs is receiving at the hands of the three republican candidates for governor should convince the people of Michigan that none of them are safe men to elect to the office of governor.

Ninety-five victims were added to the list of drowned in Michigan during July, according to reports at the office of the secretary of state. The highest previous record for the season was in June, when 56 lost their lives in the waters. The record of 95 dead in July almost doubles that of any month in any season before. The number of drowned up to the present date is 237.

The efforts of certain democrats in the state to force W. N. Ferris as the democratic nominee for governor in the face of his outspoken refusal to accept, is mighty poor politics. There are many men in the party in every way as capable of filling the office and who are willing to make the run. Hon. L. T. Hemans, of Mason, will undoubtedly be the nominee.

Mr. Hemans and the Governorship.

Democratic sentiment in Michigan appears to be fast veering round to Mr. Lawton T. Hemans of Mason as the party candidate for governor. With the exception of Mr. Ferris, who declines to run, no other democrat appears as large on the horizon. As a member of the legislature, as a mayor of his city, and more than all, as a delegate in the recent constitutional convention, Mr. Hemans has proved himself a statesman of first rank, and has displayed such marked independence of judgment, calmness of temper, and profundity of thought as to distinguish him widely from the man who enters public life as a means of livelihood or entertainment.

Mr. Hemans' well known conception of the governorship is to be found in article five of the state constitution, defining the duties and powers of the executive department, and more especially in section six, which says:

He shall take care that the laws be faithfully executed.

This is an old fashioned view, to be sure, and one which must come into direct conflict with the present system of Lansing of using state patronage and influence to compel the legislative branch of the government to do the executive bidding. But it is quite clear that Mr. Hemans follows constitutional intent. Governor Hughes of New York has recently demonstrated that a governor does not have to stoop to questionable or unconstitutional methods in order to be efficient.—Detroit Saturday Night

What Determines Our Rights.

There are sharp limitations to every man's freedom; for one who is unwilling to recognize this, this world is not a good place to live in. The limitations to our freedom are largely determined by our neighbors' rights. When our rights and his rights interfere, our rights must go. To adapt slightly an effective sentence that is being quoted by prohibitionists, "My right to swing my arms ends where my neighbor's nose begins." And this is true even though arm swinging may be an innocent and healthful exercise. We live in a world that is filled with other people, and our chief business in the world is to help those other people in every possible way. When we once fairly recognize this, we shall not even be willing, like some folks, to come as close to a neighbor's nose, without hitting, as we can; rather we shall forget all about the word "limitations" as bearing on self, and reach out eagerly after the limitless opportunity of living wholly for others.—Sunday School Times.

JNO. A. CAMPBELL, Commissioner.

Mr. Taft and Guaranteed Deposits.

In his speech of acceptance Mr. Taft puts himself squarely on record as being opposed to guaranteed deposits. He says: "The democratic platform recommends a tax upon national banks and upon such state banks as may come in, the nature of enforced insurance to raise a guaranty fund to pay the depositors of any bank which fails. The proposal is wholly impracticable unless it is to be accompanied by a complete revolution in our banking system, with a supervision so close as practically to create a government bank. If the proposal were adopted exactly as the democratic platform suggests, it would bring the whole banking system of the country down in ruin."

Why seek to confuse the people on a simple proposition? We are supposed to have government supervision of national banks now. Supervision does not mean a government bank; it simply means that the national bank inspectors will do just as they are expected to do under existing laws—make their examination of banks thorough and make prompt and effective correction of any irregularities discovered. So it will be difficult to frighten the people by the claim that guaranteed deposits means thorough supervision of banks. That's just exactly what the people want.

It is absurd to say that "guaranteed deposits" would bring the whole banking system of the country down in ruin.

What does "guaranteed deposits" mean? It means that the savings of the masses shall be secured so that when men and women deposit their hard-earned money in banking institutions, they need not worry for fear it will be lost through the recklessness and dishonesty of bank officials. The federal government demands of these banks security for the money it deposits. As a rule state governments and county governments and all governments make similar requirements. But now that it is proposed that depositors generally shall have some such assurance for the keeping of their wealth, we are told by the republican candidate for the presidency that the adoption of such a plan "would bring the whole banking system of the country down in ruin."

It is to save the banking business and to save the people's money that the plan of guaranteed deposits is advocated by democrats. It is strange that Mr. Taft and the big bankers for whom he speaks can not see that the guaranteed deposits system is absolutely necessary for the prevention of panics, for the safe keeping of the money of the masses and for the preservation of the banking business in the hands of individuals.—The Commoner.

Don't Say You Belong to a Party.

We heard a couple of men arguing to-day the other day and one of them remarked to the other that he belonged to a certain party for thirty years and always voted a straight ticket. That certainly represented loyalty. We would not care to belong to any such party for a period of thirty minutes. No man ought to belong to a party. The party ought to belong to the man and not the man to the party. Whenever you hear a man use the common expression that he belongs to some certain party he means that he has a collar around his neck, that the party owns him. When he boasts that he never splits his ticket he means that he would vote for anyone on his ticket so long as he wore a party label. Men are of more consequence now-a-days than parties and when you see a candidate you know to be incompetent or whom you are suspicious of, or would be, if you had any personal business dealing with him you had better cut it out. And don't boast of the fact that you belong to any party. If you believe in democratic principle say so; if you believe in the principles of the republican party say so; but don't say you belong to either party. You don't want to wear a collar.—The Green Bay Review.

Excellent Health Advice.

Mrs. M. M. Davison, of No. 573 Griford Ave., San Jose, Cal., says: "The worth of Electric Bitters as a general family remedy, for headache, biliousness and torpor of the liver and bowels is so pronounced that I am prompted to say a word in its favor, for the benefit of those seeking relief from such ailments. There is more health for the digestive organs in a bottle of Electric Bitters than in any other remedy I know of." Sold under guarantee at Jos. E. Dillon's and G. S. Darling's drug stores 30c.

County Politics.

Joseph W. Minor, of Tawas City, is a candidate for the democratic nomination of judge of probate, and thus far appears to have no opposition.

County Clerk John A. Mark, Register of Deeds Edgar A. Crandall and Judge of Probate A. R. Wier, appear to have no opposition for re-nomination at the republican convention.

Candidates are already in the field for all the principle nominations on the democratic ticket, and indications are that there will be lots of good material for the party to choose from this fall.

The north end held caucuses last Friday and Saturday evening. The fight for delegates was between Hadwin and Johnson, candidates for sheriff, and reports indicate that Hadwin won five out of the nine delegates.

H. W. Stockman and Joseph G. Dimmick are having a neck and neck race for the republican nomination for county treasurer, while Albert W. Black is keeping Prosecuting Attorney Rawden busy, for that position.

The contest for the republican nomination for sheriff between Geo. Hadwin, Colby Johnson and David Davison is leading all others, and apparently the result will be hard to foretell until the final ballot at the county convention.

Anthony B. Schneider, of Sherman township, is looking for the nomination of register of deeds on the democratic ticket this fall. Mr. Schneider is one of the finest penmen in this section and is well qualified for the position which he seeks to fill.

Reforestation Pays.

Figures just made public by the forest service show that under the new law requiring 25 per cent of the gross proceeds of national forest business to be paid over to the states and territories in which the forests are located, to be used for public schools and roads, the last fiscal year will yield these states \$417,063.79.

The amounts which go to each year from \$313.68 for Arkansas to over \$75,000 for Montana. The small amount for Arkansas is because the two national forests in that state were created so recently that they have not yet got fairly under way. Oklahoma, with one small national forest, receives \$544; Kansas, \$644, and the next smallest after these is Nebraska, with \$2,350. Since the forests in these last two states were set aside from land naturally destitute of trees, that the government might try forest planting on them, it will probably surprise most people that they should yield any revenue at all.

Montana, California and Colorado lead in timber sales. In the case of Montana and California this fact is mainly due to the accessibility of the timber in the national forests. The fact that timber can be readily reached and quickly transported to market has created a heavy demand which is reflected in the volume of business. Colorado is almost absolutely dependent upon the national forest timber for its mining operations. Each of these states will receive over \$50,000 from the proceeds of the forests.

Here is a practical illustration of the value of reforestation, made under what are really unfavorable conditions. It would yield much greater returns in states which are especially adapted to tree raising, like Michigan.

For Sore Feet.

"I have found Becklin's Arnica Salve to be the proper thing to use on sore feet, as well as for healing burns, sores, cuts, and all manner of abrasions," writes Mr. V. Stone, of East Poland, Maine. It is the proper thing too for piles. Try it! Sold under the guarantee at Jos. E. Dillon's and G. S. Darling's drug stores 25c.

CONGRESSMAN GEORGE A. LOUD

Hopes to receive your support for renomination at the Primaries September 1st.

In forming your opinion of a public man, you always like to know what his home people think of him. Thereby you get an idea of his integrity and general trustworthiness. Congressman Loud seems to be particularly well grounded in the affections of his home people. In two canvasses for election he received every vote cast in his home precinct, and in 1906 he received 924 votes in his county of Iosco against 23 for his opponent.

It is generally conceded that he will be re-nominated by the republicans at the primaries September 1. He demonstrated his confidence in the people by depending upon the first opportunity that the Congressman from this district should be nominated by direct vote of the people.

Billions of 'Em.

There were 55,402,330,113 cigarettes smoked in the United States during the last fiscal year, according to government statistics just issued. 25,000,000 is perhaps a fair estimate of the number of men and boys in this country who smoke tobacco. So, on an average, each smoker consumed 2,216 cigarettes last year, or 6 1-4 a day, the fraction representing the very small butt a cigarette smoker throws away.

But of the 25,000,000 smokers many million smoke cigars or pipes and some smokers roll their own cigarettes. So the average number each cigarette smoker consumes daily must be much higher than 6 1-4. The government statisticians are very proud of their accuracy in carrying out a figure so high as fifty five thousand four hundred millions to the very last number—13. Perhaps there is a warning to cigarette smokers in these last two figures. Anyhow, the cigarette habit is growing tremendously in this country.

She Likes Good Things.

Mrs. Chas. E. Smith, of West Franklin, Maine, says: "I like good things and have adopted Dr. King's New Life Pills as our family laxative medicine, because they are good and do their work without making a fuss about it." These painless purifiers sold at Jas. E. Dillon's and Geo. S. Darling's drug stores, 25c.

Potato Dinner at Plaza.

A unique dinner was given at the Plaza hotel the other evening. All the courses consisted of the common garden potatoes, served up in various appetizing forms. There were potatoes a la Raleigh, potato straws cooked in sherry, potato puree, potato cream, potato salad, baked sweet potatoes and so on. There were a dozen different courses, and most of them were so cleverly disguised that the diners were skeptical as to whether they were eating "spuds" or not. One of the guests at this potato "blowout" said he never enjoyed a meal so much in his life.—New York Press.

School Nurses Are Successes.

New York is quite well satisfied with the nurse in the schools, and no doubt another year will see more of them installed. As one instance of the work of the nurse, it is reported that 350 children supposed to be so mentally deficient were found to be so only because they were physically unable to do the work required of them. No doubt in the schools of the future the school nurse, taking to the homes the best ideas in regard to health and hygiene, will be considered as much a part of the school system as the teachers.

Male and Feminine Appetites.

"Do men eat less than women or do they buy more economically?" asked a convert to sociology. "The questions are suggested by a comparison of the grocery bills run up by men students and bachelor girls who have clubbed together to cut down expenses. In every case where tables for comparison are given the men's menu for the week costs less than that of the women. Both seem to have reduced the food allowance to the lowest possible equation, but in footing up the amount spent the women have run into certain extravagances avoided by the men. Maybe women really don't know how to shop after all, but the more likely supposition is that no matter how strict the regimen, the feminine nature requires certain luxuries that man can get along without."

New York as a Jewish City.

It is said that the New York Jewish community is now the largest in history or tradition. It represents ten per cent. of the entire Jewish population of the world. It is larger than the aggregate Jewish populations of the eastern largest centers, Vienna, Budapest, Berlin, Vilna, Amsterdam, Lemberg and London. It is ten times larger than the entire Jewish population of France; it is 20 times larger than the entire Jewish population of Italy; it is 25 times larger than the population of Jerusalem, and 15 times larger than the entire Jewish population of Syria and Palestine.

Praise for Arion Singers.

Max Winter, in an account of the visit of the Brooklyn Arion society to the White House recently, says that the society was more highly honored than the Vienna singers who made a visit there last year. One additional song was asked from the foreigners after their program had been finished, but three more were asked of the Brooklyn singers. The president said that he had never experienced so much pleasure in listening to German songs, and he knew that if the Arion did as well on their forthcoming visit to the fatherland their friends in the old world would be equally well pleased.

Oldest Judge in United States.

Charles Field, who is believed to be the oldest judge in the United States now residing, has just celebrated his ninety-third birthday by holding a session of the district court at his home in Athol, Mass. While in good health, the judge is feeble and too weak to journey to the court room. Judge Field, in 1869, was chosen presidential elector, and with J. G. Whitier and others cast his vote for Lincoln and Hamlin.

London Annual English Fair.

Due to the steadily diminishing quantity of wool grown in the district and the poor prices obtained in recent years, an annual wool fair, which has been held uninterruptedly for over a century at Hemel Hempstead, England, has been abandoned.

The State Fair.

All indications point to the biggest success in the history of the Michigan state fair this year. There will be more attractions, better and larger exhibits, and more thorough and systematic exhibiting than before. People are expected to attend who have never before attended, and they are certainly to come home fully satisfied with what they have seen. While the attractions in the nature of horse races, air ships, fireworks, etc., will exceed those of former state fairs, the matter of exhibits will be looked after with just as much zeal. James Slocum, as business manager, and is putting into the work all his energy, and he is peculiarly constituted for just such a position. The fair will be a hummer.

Paris Delivered to the Flea Market. Paris is suffering from a plague of curious flies, known as the Marché Distributions. They are not poisonous, but are very ugly, being over half an inch long, with enormous heads, and feelers like cockchafers. Nobody knows where they come from, and, curiously enough, the plague is confined to Paris, and has not reached the country.

Proof of Australian Thrift.

Consul General John P. Bray of Melbourne reports that during the last five years the deposits in the government savings banks in Australia have increased largely. In the year 1902-'03 the total depositors' balance was \$175,024,855, which by 1906-'07 had grown to \$204,871,324, making \$162.75 the average amount to the credit of each depositor, and representing \$49.55 per head of the total population of Australia. The annual amount paid in interest to depositors in these banks in 1906-'07 was \$5,508,104, against \$4,256,346 in 1902-'03.

The new primary law requires that a primary election be held in every voting precinct in Michigan on the first Tuesday in September for the nomination by each political party of candidates for Governor and Lieutenant Governor, also for the nomination of such other officers of the several political parties as are to be nominated by direct vote. It also provides that the Board of Registration of every precinct in Michigan shall set a Board of Enrollment on the Saturday preceding primary election, September 1st 1908; therefore notice is hereby given that enrollment boards of the city of Tawas City, State of Michigan, will be in session on Saturday, August 29, '08 from 8 o'clock in the forenoon until 5 o'clock in the afternoon of said day, at the city hall in the third ward. (In accordance with a special act of the Legislature of 1899) for the purpose of enrolling the names of all legal voters, members of whatever political party, who may make proper application for enrollment.

How application must be made. There two way in which proper application for enrollment can be made:

First—A written application can be made and signed by the voter desiring enrollment in his own handwriting and presented in person to any member of the board of enrollment, on any day before the day of enrollment. Blanks for this purpose can be had from any member of said board of enrollment.

Second—On the day of enrollment application must be made in person to the board of enrollment.

TABLE DELICACIES

DISHES THAT ARE WORTH ADDING TO THE DAILY MENU.

Gooseberry Pudding a Splendid Dessert—Brown Chicken Fricassee—Flounders in a New Way.

Green Gooseberry Pudding.—Boil a pint of green gooseberries till soft, and sweeten to taste. When quite cold mix in thoroughly four well-beaten eggs and one ounce of butter. Butter a mold and sprinkle it thickly with equal parts of sugar and fine bread crumbs, then pour in the gooseberry puree, being careful not to disturb the casing; cover the top nearly half an inch thick with crumbs and sugar, and bake for an hour. When taken from the oven cover with a cloth, and only turn out when wanted. Serve with clotted or whipped cream.

Mushrooms Stewed with Cream.—This is a favorite recipe. Prepare a pound of mushrooms by paring off the ends. Clean and wash well and if very large cut in halves. Drain and place in a saucepan with three ounces of butter. Season with salt and pepper and cook five minutes. Add two tablespoonfuls of the white sauce made from a tablespoonful butter and one of flour, blended, then cooked with three-fourths cup milk to a smooth cream. Add also a half cupful of sweet cream to the mushrooms, cook three minutes longer and serve in a hot dish with eight heart-shaped bread croutons for garnish.

Sauce for Mushrooms.—Put three tablespoonfuls olive oil in a saucepan with one teaspoonful each of minced parsley and anchovies and a clove of crushed garlic. Heat five minutes, add to mushrooms that have been stewed in oil and serve.

Sauce for Stewed Mushrooms.—Peel and remove the stalks from some large mushrooms, wash and cut in halves. Put two tablespoonfuls butter in a saucepan with two tablespoonfuls flour. When blended add a cup and a half hot milk and stir until smooth and thickened. Add the mushrooms, season with salt, pepper and a little powdered mace, and simmer gently until the mushrooms are tender. When cooked, turn on a hot dish, garnish with fried croutons or bread and serve.

Brown Chicken Fricassee.—For a brown chicken fricassee, Creole style, cut up the chicken in the usual way and fry in equal quantities lard and butter until nearly tender and brown. Dredge a little flour into the gravy and brown. Add a pint of boiling water, a small onion minced, a quart of potatoes and a small bunch of parsley. Simmer gently an hour or until very tender, and serve with rice. If preferred the rice may be added and cooked with the stew.

Flounders in a New Way.—Flounders are good fried in the ordinary way in crumbs or in flour, and especially nice if melted butter seasoned with lemon juice and chopped parsley is passed with them; but here is quite a new way of cooking them: Wash the flounder and wipe it dry; lay it in a roasting-pan on top of two tablespoonfuls of minced onion, and sprinkle it with salt and pepper and a tablespoonful of chopped parsley; put it into a very hot oven and baste with half a cup of boiling water mixed with a tablespoonful of melted butter; when brown put the fish on a hot platter and put a teaspoonful of flour and a small half-cup of hot water into the pan, and stir and scrape over the fire till there is a nice brown gravy, adding a little kitchen bouquet to darken and season it; strain and pour this over the fish, and serve at once.

Left-Over Eggs.
Eggs that have been boiled and sent to the table and untouched can be sliced and dressed with mayonnaise. Fried eggs can be run through a food chopper, mixed with potatoes and cooked in potato balls. Poached eggs should be reheated and cooked done and run through a ricer to add to salads. Boiled or fried eggs if run through a ricer and mixed with finely chopped meat make good croquettes. If the yolk of an egg is used and the white is left, beat it and stir into apple sauce. A broken egg can be covered with water, placed in the refrigerator and will keep for several days.

Cherry Pudding.
Put into a saucepan two tablespoonfuls of butter with two tablespoonfuls of flour; blend well together over a gentle fire; add one pint of milk very gradually and stir until boiling; pour over a quarter pound of bread crumbs; add grated rind of one lemon, four tablespoonfuls of sugar, one teaspoonful of vanilla extract, quarter pound of cherries cut in halves and three well-beaten eggs. Pour into a mold well greased and decorated with cherries at the bottom. Cover with buttered paper and steam two hours.

Changing the Bed Linen.
Arrange to change the bed linen on the day you sweep your bedrooms. The soiled sheets may thus be drawn over the newly made beds to keep the dust from the spread and pillows. It will take but a few moments to remove these sheets and shake out of doors before consigning them to the clothes hamper.

Nut Candy.
Boil one quart of sirup, three cups granulated sugar, butter half size of egg, two tablespoonfuls of vinegar until it is hard when dropped in water, add half teaspoon soda the last thing; spread nut meats in tins. Pour candy in thin sheets over the nuts.

Oysters and Typhoid Fever.
Consul H. Albert Johnson of Liege, reports on an investigation by the Belgian Royal Medical society as to whether the consumption of oysters has contributed to the apparent extension of typhoid fever. In summing up the professional testimony from different sections of the country the conclusion was reached that eating oysters could have been productive of typhoid fever only in exceptional cases, and in such cases was more to be attributed to the unsanitary manner in which the oysters had been handled than to any germs contained in the oysters themselves.

New York's Latest Bridge.

The steel piers of the new East river bridge, which is in the course of construction a short distance above the old Brooklyn bridge, are now a prominent object and excite the interest of all who cross the river by bridge or boat. This will be the fourth bridge to span the East river. Two are already completed, the Brooklyn and the Williamsburg bridges. A third, the Blackwell's island, is nearly finished, and it is expected that it will be turned over to the city by those who are constructing it by the first of January next.—Wall Street Journal.
