TAWAS CITY, MICH., Sept. 25 1908

As We Find It In Michigan.

When a political party becomes so strong in a state that it has no fear of election by the other party, then it forms factions within itself and contests follow between these factions to see which shall hold first place at the pie counter and which shall remain on the waiting list. When two parties are nearly equally divided in a state, there is ambition on the part of both to get the people good service. When one party gets mixed in factional fights to see who shall get the offices, then the desire to render good service unto the people is forgotten, and is displaced by a crook. Do we have to go away from Michigan to find an exemplification of all this at the present time?—Bay City Times.

Hemans the Man.

Thousands of republicans and independents are already openly professing themselves disgusted with the mess into which successively incompetent republican administrations have plunged Michigan. That there should be such a feeling is in no wise remarkable; in fact, it was to be expected, otherwise there would be little hope for the state, as the contrary would indicate a calloused and cankered condition of the public conscience for which there could be no cure. Happily the signs of the time are plentiful that Michigan is due for an awakening from its serenely careless indifference of many years and is in the mood for a change. This change can only be brought about by and with the aid of the republican who is not first, last and all the time a partisan, and the independent. To these the democratic party, in placing Lawton T. Hemans in nomination for governor, has offered the solution of the problem. The change is here to establish a new order of things, to clean out the whole squabbling mess of nagging and petty machine politicians, who are all clamoring for the same thing and who recognize but the one thing, the spoils—in which the people as a whole have no interest.

Further than all this, the election of Mr. Hemans would very definitely settle the decidedly disagreeable and unseemly dispute into which the contending republican factions have been plunged by the result to their own bungling in the primary election, and which threaten according to their own claims to develop court proceedings and revelations, in the light of which all the nauseous scandals of the past fifteen years or so shall pale into mere indiscretions. That there will be court proceedings there now seems no doubt, and yet the final court is the people and their verdict following will over shadow and be made conclusive than that of any of their own created tribunals.

Special Notice Regarding D. & M. Excursion Sept. 29.

All passengers are urgently requested to purchase tickets and check baggage the day and evening before the excursion so as to avoid the rush in the morning. Passengers living out of town are requested to write their nearest agent, saying how many tickets and baggage checks required. Don't forget that special trains run through without change and arrive at Detroit and Toledo by daylight, making connections for all points.

A Paying Investment.

Mr. John White, of 38 Highland Ave., Houlton, Maine, says: "Have been troubled with a cough every winter and spring. Last winter I tried many advertised remedies, but the cough continued until I bought a 50c. bottle of Dr. King's New Discovery; before that was half gone, the cough was all gone. This winter the same happy result has followed, a few doses once more banished the annual cough. I am now convinced that Dr. King's New Discovery is the best of all cough and lung remedies." Sold under guarantee at Jas. E. Dillon's and G. S. Darling's drug stores 50c. and \$1.00. Trial bottle free.

Tainted Money Just As Good.

Tainted money, from the viewpoint of Warren W. Hilditch, of Yale university, means money with bacteria. He used the most soiled money he could obtain from railroad, trolley and theater ticket offices, banks, drug stores and individuals. Some bills were more worn than others, soft, cracked and soiled, with frayed edges. The numbers of bacteria present in the bills ranged from 14,000 to 586,090, with an average for twenty-one bills of 142,000. There seemed to be no connection between the amount of dirt and the number of bacteria present. The cleanest bill he used had next to the highest count, 405,000. The bill that looked the most soiled had but 38,000. When a bill has been in circulation for a short time and has become cracked and its peculiar glaze worn off, the bacteria easily cling without the presence of dirt and grease. He inoculated guinea pigs, but none of them gave any indication of even temporary illness. Mr. Hilditch does not believe that soiled money is dangerous as a transmitter of disease. He thinks that money constitutes an unimportant factor in the transmission of disease. But he does not regard his experience as conclusive. In order to obtain any conclusive evidence on this point it would be necessary to make a careful study of hundreds or even a thousand bills from hospitals and private sick rooms, drug stores and various other sources. A bank teller said: "If one stops to think, money can't be a common means of transmission, for if it were there wouldn't be so many of us alive today. The escape from sure death of those whose duty calls for the constant handling of money is certainly not merely due to chance."

They Take The Kinks Out.
"I have used Dr. King's New Life Pills for many years, with increasing satisfaction. They take the kinks out of stomach, liver and bowels, without luss or friction," says N. H. Brown, of Pittsfield, Vt. Guaranteed satisfactory at Jas. E. Dillon's and G. S. Darling's drug stores. 25c.

Hindu Gods.
The theology of the Hindus is simply a mystery to the occidental intelligence. They believe in a million gods and in as many "heavens" and "heavens." The wild labyrinth of ideas going to make up the Brahmin faith is quite beyond the ability of a white person to follow. The thought of it is bewildering, and once in the midst of it you could no more get out of it than a six-months-old baby could get out of an Amazonian forest.—Exchange.
How to get Strong.
P. J. Daly, of 1247 W. Congress St., Chicago tells of a way to become strong: He says: "My mother, who is old and was very feeble, is deriving so much benefit from Electric Bitters, that I feel it's my duty to tell those who need a tonic and strengthening medicine about it. In my mother's case a marked gain in flesh has resulted, insomnia has been overcome, and she is steadily growing stronger." Electric Bitters quickly remedy stomach, liver and kidney complaints. Sold under guarantee at Jas. E. Dillon's and G. S. Darling's drug stores. 50c

Canderbone Forecast for October.

(Copyright 1908, by C. H. Rieth.)

Now Taft was enjoying
An airplane flight,
And skimming around
Like man-swallow Wright,
When who should appear,
Holding fast to his hat
And sailing the sky,
But the man from the Platte,
Said fat Bill to Platte Bill,
"Now, isn't this great?"
Said Bryan, "You bet—
Is my rudder on stright?"
And the wind coming up
With a slight of bluster,
They both skidded off
Through the air belly bluster.

And while they were flying
About a mile high,
The Roosevelt entry
Emitted a cry,
And Bryan, supposing
He'd dropped from the race,
Slowed up with a horrified
Look on his face.

But Taft was just floating—
"My motor's gone out!"
Now, hand me a match
When you next come about!"
But Bryan just laughed,
And he said, "My dear speeder,
Remember that I
Am a great matchless leader."

October is from the latin octo,
meaning eight. It was the eighth
month of the old Roman calendar.
This brought oysters in at the end
of August, when they had to be canned
like eggs, and the oyster trust
always cornered the supply in cold
storage. But Rome like every other
nation, had a reformer not too often
for reasonable profits in business,
and when Numa Pompilius came into
power in 713 B. C. he made October
the tenth month and busted the
oyster trust. He was idolized by a
great populace, and was only re-

linquished to private life in his later
days that he might gratify his desire
to hunt big game in Africa.

The presidential race will reach
Three quarters of a mile,
And both the bills will hit it up
In good old-fashioned style.
The Platte will shake his big brogans
And put up dust and dirt,
The giant Taft will grunt and sweat
And zip his under shirt,
The plaudits of the multitude
Will rise in mighty peals,
And the watchful Teddy Bear will nip
At William Howard's heels.

The pink midguards of Sunny Jim
will catch the frost descending, and
turn a fine autumnal red, with the
burning sunae blending the frost
will thin out Mr. Kern's elaborate chin
thicket, and each of these hair-bearing
things will go some on his ticket.
The frost will paint the sassafras
a deep and glowing red, and the farm
hand will resume his howl for the
blankets on his bed. The plant ex-
posed phosphorous will gossamer the
air, the stiff rheumatic will put on
his wind-proof underwear. The
southward ducks will quack upon the
reeded lakes, and man will line him-
self inside with buttered flannel
cakes.

The women will parade beneath
the big sky-scraper hats, and gray
lines strung to steady them will an-
chor in their rats; and every time
the wind blows brisk, with many
screams and squeals, they'll all turn
turtle and will fan the azure with
their heels.

The camper will unto the woods
To live the life of Crusoe
And the quail will balance on a rail
And whistle like Caruso.

The poor hay fever patient will
return from his retreat, and every
time his nose goes off and honks up
on the street, we'll scramble for the
nearest curb as fast as we can dart.

believing that his lusty sneeze is
some skiddoodle cart.

The candidate will press his suit
and tell his little jokes while he is
handing out cigars, while he is
famous folks; and notwithstanding
all the harm this sort of smoke has
done us, we'll all waltz up again and
try his deadly M. J. Guinness.

After the 26th October will be un-
der the influence of the zodiacal sign
Scorpio the crustacean. Persons
born in Scorpio are lobstermen, and are
mostly actors and baseball players.
They have remarkable foresight.
Among other things, they can
tell when the hired girl is going to
quit, and always give her notice
first.

The armoured football player will
evort in padded pants and butt to
beat a billy goat while frenzied thou-
sands of glass hid in his Paderewski mop,
and when they pile on sacks he'll do
a dance on the top. The college
men will all get up and yell like
Kingdom Come, the college girls
will swallow six or seven gobs of
gum, the autumnal sun will be ob-
served by colors, horns and hats, the
catapulting end will cave the other
fellow's slats, the giant centers will
collide like two excursion trains, the
guards will paw the earth and
scramble one another's brains; and
when the ambulance drives up, with
great vociferation the howling mob
will give three cheers for higher
education.

The first frost ripened the hickory
nuts

Will nutts to the ground,
And local option will put on
The blower all around.
The hunter's moon will sail the sky,
And the bee will duck the clover.

And the other Wright in France will
knock
The Eiffel Tower over.
The flower for October is the hop.
This signifies that the fate are against
prohibition in one month of the year,
anyway.

Our gad-abouting fleet will throw
a scare into Japan, and shell the
Chinese coast until they tell the age
of Ann; and old John Rockefeller will
observe October nine, with a big
baron dance at Forest Hill and un-
fermented wine, the third month
since he's had to make a payment on
that fine.

And then November 3rd will come,
When all of us shall vote,
And one of these two Bills will have
To be the Billy goat.

**The Womans Home Companion
for October.**

An important article in the October
Woman's Home Companion is entitled
"Seeking Shelter in New York."
"Five dollars in my purse, a few
pian clothes in my bag, an ordinary
school education behind me, and New
York, with its boundless opportunities,
ahead of me," that is the beginning of
the adventures in New York of Lucy
Green. They are real adventures of
a real girl, who tells her story to
readers of the Companion.

This October issue is particularly
rich in fiction, having stories by
Elizabeth Stuart Phelps, Harrison
Rhodes, Octave Thomet, Nellis Mc-
Lung, Margaret Sutton Briscoe, and
especially good stories by Irving
Bacheller and Juliet Wilbur Tompkins.

There is perhaps no more important
question to the average American than
the one of owning or renting a home.
The results of the most careful investi-
gation and the experiences of thousands
of Americans are given in a series of
articles on this subject, which begins
in the October number.

Of special interest are Kellogg Dur-
land's intimate picture of the life of the
Tsaritsa of Russia, and Dr. Woods
Hutchinson's article, "Are Babies
Moral?"

The fashion department with the
Latest Fall Fashions is full of valuable
suggestions.

According to the state law, published last week, all pupils from 7 to 16 years old shall be in school every day for the entire year. Sickness alone is an excuse to remain away from the school room. We hope the truant officer will not be obliged to arrest the parent who thinks he knows more than the state.

Parents, the first report card of the year comes to you next Thursday. If you do not receive it ask your boy or girl for it. You should sign it and not your child for you. Some of the standings may not be satisfactory to you. Many of them are not satisfactory to the teacher. Any standing below 80 shows that more effort is needed on the part of the pupil. Several high school pupils are doing poor work, yet they never take a book home for study; two or three have too many subjects. It is hoped and expected that much improvement will be made during the second month. This can be accomplished by the co-operation of the home with the school.

The Fair a Success.

The annual county fair came to a close last evening and on a whole may be called a successful experiment of new ideas. The attendance was up to an average of recent years and sufficient to meet all expenses and leave a balance. The agricultural exhibits were excellent altho not as large as some years, the fancy work and domestic departments were not as largely filled as usual, while the stock exhibit was very small. However after the complete failure of last year in those departments, the officers can consider that the promise for future fairs are encouraging. The new plan of strictly local races can be said to have been a success. Every race advertised was filled and every race proved to be on the square and exciting. The entries were not what should have been under the easy conditions, but many present expressed themselves as being ready to get in next year.

The running race for horses weighing over 1300 pounds was won by Percy Scarlett, Thomas Scarlett taking second and George Gates third. The novelty race, was won by Otto Look, M. Kendall, second, and William Allen third.

The free for all trot or pace was won by Thos. Curry, Frank Binder second and Chas. Curry third.

The free for all running race was the hottest race of the fair and was won by John Brabon, Harry Scarlett second, Chas. Clough, third, and Tommy Scarlet, fourth.

The Wilber beat the East Tawas Sluggers by a score of 13 to 3 and the Tawas high school defeated East Tawas high school by a score of 16 to 1.

The baby show was a popular attraction and about twenty as pretty babies as can be found in the state were entered. The judges, Mrs. J. G. Dimmick, of East Tawas, Miss Hartingh, of Tawas City, and Mrs. George Thomas, of Tawas township, were called upon to perform the most trying task of any judges at the fair, and discharge their duties very acceptably, at least to the prize winners.

Francis Klingler, of East Tawas, was awarded the prize as the handsomest baby under one year of age, also winning the special prizes as the handsomest boy baby. Walter Laidlaw, of Tawas township, was the handsomest one between one and two years of age. The prize for the fattest baby between one and two years, was won by the baby of Mrs. Fred, of Tawas township, and fattest one under one year by George Joslyn, of AuSable. The special prize for the handsomest girl baby went to Evelyn Bonney, of East Tawas.

Next week we expect to publish a full list of the prize winners in all departments.

The Whittemore Schools.

James Wercly started to school this week.

The enrollment in the primary room is now 54.

We have just received two boxes of new books.

The second grade is memorizing the "Motion Song" for language.

The monthly examination will be held Thursday and Friday of this week.

The pupils of the third grade memorized the poem "The Pretty Moon," this week.

The "Farmer and the Fox" is a popular game with the little folks of the primary room, just now.

For manual training work the pupils of the first grade cut from colored paper some very pretty hearts.

The fourth grade geography class is studying Isosco county. We drew maps and located the townships Friday night.

The girls of our room played a very interesting game of base ball Saturday with the ladies. Our girls were defeated, not because they lacked skill, but height.

The smaller algebra class is in simple equations and the advanced class is in fractional equations. Both classes think they have found a very interesting part of algebra.

A Sure-enough Knocker.

J. C. Goodwin, of Reidsville, N. C., says: "Bucklen's Arnica Salve is a sure-enough knocker for ulcers. A bad one came on my leg last summer, but that wonderful salve knocked it out in a few rounds. Not even a scar remained." Guaranteed for piles, sores, burns etc. 25c at Jas. E. Dillon's and G. S. Darling's drug stores.

A Big Time at Long Lake.

A great political rally and excursion to Long Lake is being arranged for on Saturday, October 3. Gov. Warner, Lieutenant-Governor Kelly, Congressman Loud and other noted speakers will be in attendance. The county officials and candidates of Isosco and adjoining counties have been invited to attend. A fine program of games, boat races and fishing has been arranged with liberal prizes, and the biggest time had in this section of the state is promised. A special train will be run from Bay City, arriving at the lake at 10:45 in the morning. Visitors north of Emery Junction will connect with the special at that point by taking the morning train.

Long Lake is situated on the Rose City division of the D. & M., in Plainfield township, and is one of the most beautiful inland lakes in Michigan. Hotels and stores are being erected at this point, (Ellake), and it is the intention of the builders to make it the most attractive resort of the state.

Here is an opportunity for all to visit this beautiful lake and have a full days enjoyment and hear the political issues discussed by able men in an entertaining manner. There are ample accommodations for all who attend.

The Home.

Salt sprinkled around the drains is a simple and inexpensive disinfectant.

If hooks for the bathroom, kitchen and pantry are dipped in enamel paint there will be no trouble from iron rust.

Maple sirup which has fermented and become sour can be freshened by heating to the boiling point and adding a little soda. Stir thoroughly, then skim.

It is said if the upper sash of a window is drawn down to the sill, the lower one pushed to within two or three inches of the top of the window, it will give a good circulation in a sleeping room, yet the draft will not be noticed.

To clean swansdown make a warm soap lather and in this gently knead the swansdown till clean. Then rinse in fresh cold water to which a little blue has been added. Shake well and hang in the air to dry, shaking from time to time to make the down fluffy.

Lemon Ginger Beer.

This beverage should be made a couple of days before using. Pour two gallons cold water over a half-dozen lemons sliced thin, add a pound and a half sugar and a scant ounce ginger root. Let this come to a boil then add a tablespoonful cream of tartar. Strain and set in a cool place. When nearly cold, add a yeast cake dissolved in a little lukewarm water, stir thoroughly, then set in a cool place over night. In the morning mix well and bottle, corking air tight, and lay the bottles on their sides in a cool place. A small bottle of Jamaica ginger extract may be used in place of the whole ginger, if preferred.

Wash Silk Waist.

Make a strong suds of white soap, borax and lukewarm water. Put waist in suds, let soak for 15 minutes, then lift waist up and down and rub soiled places with hands; do not use a board. Rinse in several cold waters and in the last a little borax and a piece of starch, size of a walnut, to about a gallon of water; then hang up to dry. When ready to iron, dampen thoroughly, let lie for a few minutes, then iron on wrong side with warm iron. I have treated a white china silk waist like this dozens of times and it always came out as white as new, with a slight stiffness which looks like new.

Curried Pork.

Cut two and a half pounds of fresh pork into square pieces, fry them in a stew pan with a piece of butter. Chop four onions and fry them also, then mix them with the pork. Add one tablespoonful of curry powder, season with salt and pepper, pour in one pint of water or stock, set over the fire until boiling, stirring constantly. Draw to one side and simmer slowly for about three-quarters of an hour. When done take out the pieces of pork, boil the gravy and about half the quantity and pour it over the meat. Serve with rice.

Stringency Pudding.

It is not an especial mark of economy to save the stale bread for pudding, and then put in an extra amount of eggs, butter, and sugar to make it good. The success lies in making the pudding cheap. Pour boiling water on a half pint of broken bread. When soft mix in any kind of fruit—stewed or fresh—and add a bit of butter and one egg. Spice and sugar to taste and bake 20 minutes. Make a sauce of the beaten white of the egg, flavored and sweetened.

Improved Shortcake.

A great improvement on strawberry shortcake is made by adding three sliced bananas to two boxes of the berries when preparing them for the cake. This brings out all the delicate flavor of the berry and imparts a most delicious flavor to the whole cake.

To Disinfect a Room.

It is now considered just as important to disinfect a room after being occupied by a consumptive patient as by one who has had scarlet fever. Many good disinfectants are on the market at the present time. Heat, of course, is a powerful disinfectant, and boiling water may be used when it is practicable. It is an excellent plan to burn sulphur in a room after stopping all cracks and crevices with newspapers, so that it will be airtight. Carbolic acid is also a good disinfectant.

Large Sums Expended in Teaching.

There are 30,000 religious in the United States giving their lives to teaching. The pay of these should average \$500 a year, making a total of \$15,000,000 a year. Now, this sum represents, at only five per cent. interest, a capital of \$300,000,000, which the teaching orders of the church give to Catholic education.—Catholic Columbian Record.

Duck Hunter Freed by Lions.

Rhodesia, eastern Africa, turns out some champion big game stories. For instance: G. Thomasie, a boatbuilder of Livingstone, was out after wild duck on the Zambezi, within a mile of the Victoria falls, when three lions saw him and gave chase. He took refuge in a tree and was compelled to remain there all night, the lions remaining on the watch. It was not till well into the next day that he was discovered by a search party, which quickly routed the lions and released the prisoner.

Marriage Age is Increased.

It is generally admitted that the marriageable age of women has advanced considerably of recent years. Mary a bride has long felt girlishhood behind her before she exchanges her vows at the altar, and there seem to be few young men nowadays who care to assume the responsibilities of married life until they are in the financial position usually associated with middle age.

Touched Kaiser's Tender Spot.

An old lady near Bromberg, whose ten sons have all served in the German army, had the idea of having them photographed in a row, and sent the picture to the kaiser. She has received a letter of hearty thanks and cordial wishes from the imperial cabinet by his majesty's order.

Queer Office Sign.

In one of the old buildings on John street, New York, on the top floor, reached by an antiquated stairway the first steps of which start from the pavement, is an office on the door of which is a sign. Under the tenant's name are these words: "Office hours, twice a week, from 11 to 12."

Memorial of New York Fire.

A marble bas-relief commemorating the great fire in New York in 1835 forms a part of a building in one of the old streets of the city not far from East river waterfront, but it is seldom seen, as it stands in the shadow of the Third avenue elevated line just below the track.
