Walter King, of Everett, Wash., a former well-known East Tawas young man, was united in marriage yesterday, at Toconna, Wash., to Miss Belle Drumm. Walt's many friends here unite in extending congratulations.

The hustling little city of Whittemore proposes to make the farmers' institute on January 8th and 9th the most successful ever held in the county. Last year it did its self proud in the way it entertained the farmers of the county, and this year they propose to eclipse their effort. If the farmers know a good thing they will be on deck.

An intelligent farmer wants everything he can get to aid him on his onward progress. The Herald is furnishing the "Michigan Farm Laws" to all its subscribers. No book of so great importance to the farmers of Michigan has ever been offered by a newspaper. Thirty-five chapters of laws and all kinds of business forms. See picture of book our offer on another page of this paper.

A good story is being told on a prominent Hemlock road farmer, who was in town last week with his wife. On his way home he thought he had forgotten something. He went over every item on his note book and paved over all his purchases to see that he had them all with him. All checked up right, and he drove on, still feeling that something was missing. He again referred to his note book and again raked over his parcels to find that he was not mistaken. He could not dismiss the thought and drove on home slowly raking his brain to recollect what it was he had forgotten. When he drove into the yard at home his daughter came running out and in a surprised manner asked "why where's Maw?"

**Girls Wanted:**—To work in the silk mills. Clean light work, good wages, steady employment. For particulars as to work, wages and conditions, address Belding Bros. & Co., Belding, Mich.

The Presbyterian Sunday school have elected the following officers for the ensuing year: Superintendent, James H. Nisbet; assistant superintendent, M. E. Valentine; secretary, Maud Baxter; assistant secretary, Nina Sawyer; treasurer, Ethel Whittemore.

Mr. and Mrs. Charles Brown, of the Townline, had a narrow escape from what might have been a serious accident. Their horse became frightened and ran, the sleigh colliding with the rear of another one, throwing Mr. Brown out, but aside from a few bruises escaped injury.

The merchants of the Tawas have had a most satisfactory holiday trade, it being evident that the people of this vicinity appreciate the efforts made to supply their wants. Next year will undoubtedly see even larger and more varied stocks carried than this. The merchant is wise who carries the best. The better the goods the better the trade.

About the fastest run that has been made on the Detroit and Mackinac road in some time was that of passenger train No. 10 coming south the other day. Between Alpena and Tawas the air brakes on the engine became disabled and delayed the train so that it was 25 minutes late in reaching Emery Junction after changing engines at Tawas. Engine 32, in charge of Thomas Kennedy, made the run from Emery Junction to Linwood Park, a distance of 40 miles, and reached the latter station on time. "Making up" 25 minutes in a 40 mile run is a feat not often attempted by engineers. A passenger who rode on No. 10 that night said it was the fastest he ever experienced.—Bay City Times.

**For Sale:**—A heavy draft team, six years old and sound, together with harness, sleighs, and wagon. Will be sold cheap for cash or on time if taken at once. Inquire of Bert Fowler, Tawas City, Mich.

**Notice to Taxpayers.**  
The tax rolls for the various wards of Tawas City for 1908 are now in my hands for collection, and those wishing to pay their taxes can do so by calling at my office, at residence, J. H. Nisbet, City Treasurer.

**Excursions to Canada.**  
D. & M. Ry. will sell excursion tickets to points in Canada December 19th to 22nd inclusive good returning until January 11th at rate of one fare plus \$2.00 for the round trip. Full particulars later. See hand bills and ticket agents.

**Holiday Rates.**  
The D. & M. Ry. will sell tickets on account of Christmas and New Year holidays at one and one-half fare for the round trip to all points on its line and to points on other lines in the lower peninsula of Michigan also to Toledo and Chicago. Tickets will be sold Dec. 24th and 25th good to return until Dec. 31st and January 1st, good to return until Jan. 4th inclusive.

**Marked For Death.**  
"Three years ago I was marked for death. A grave-yard cough was tearing my lungs to pieces. Doctors failed to help me, and hope had fled, when my husband got Dr. King's New Discovery," says Mrs. A. C. Williams, of Bac, Ky. "The first dose helped me and improvement kept on until I had gained 58 pounds in weight and my health was fully restored." This medicine holds the world's healing record for coughs and colds and lung and throat diseases. It prevents pneumonia. Sold under guarantee at G. S. Darling's and J. E. Dillon's drug stores, 50c and \$1.00. Trial bottle free.

**Do You Know The Law?**  
Do you want to know the law regarding all farm matters, get a copy of the "Michigan Farm Laws," which the Herald is furnishing to all its subscribers. Thirty-five chapters and fine business forms. See pictures of the book and our offer on another page of this paper.

### U. S. Sugar Bill.

Cold figures gathered by the bureau of statistics show that the average American citizen consumes half his weight in sugar every year, and Uncle Sam's sugar bill averages a million dollars a day.

A statement issued by the bureau reads more like popular fiction than the ordinary government report. The total consumption of sugar in the United States in 1907, which is the latest year for which statistics are available, reached the almost unthinkable figure of 7,089,667,975 pounds.

"Calculating this enormous total at the average retail price of 5 1/2 cents per pound" the report states, we get a total of \$372,000,000 as its cost to the consumer or more than \$100,000 for each of the 365 days of the year."

The statement shows that 21.3 per cent, or 1,511,000,000 pounds, of the sugar consumption of the country was of home production; 13.7 per cent, or 1,254,000,000 pounds was brought from our insular possessions, and the remaining 61 per cent, or 4,367,000,000, came from foreign countries. Forty-three million pounds was the aggregate of the exportation of sugar from this country.

### We Get Ours.

In this world we generally get what we pay for. At least, in the long run. Thousands are not willing to pay the price of success with the sterling coin of hard work and patient waiting. They are looking for some lucky chance to mend their fortune.

Why should men expect to make \$100 out of \$10 by betting on a certain horse?

Why should they expect to sit down at a poker game and get up with a month's salary earned in an hour or two?

Why should they expect a big percentage on money invested in get rich quick concerns?

Why do they continually get "let in" by purchasing goods said to be up to the mark at a ridiculously low figure?

The answer is that they are all looking for something for nothing. And the outcome in most cases is that they get nothing for something.

Those who advertise marvelously cheap goods whet the appetite of the public for more, and often the result is that the quality of the goods is reduced.

The man who has not a great stock of ability to sell should not ask too much for it.

The employe who is continually seeking more than he, or she, is worth will never get it—for long. On the other hand, the employe who is continually hunting for help at less than it is worth gets the poorest class of labor—the most unskilled and unreliable.

As a rule, in all lines of life, we get just about what we pay for, and we pay for all we get.—Milwaukee Journal.

### Marked For Death.

"Three years ago I was marked for death. A grave-yard cough was tearing my lungs to pieces. Doctors failed to help me, and hope had fled, when my husband got Dr. King's New Discovery," says Mrs. A. C. Williams, of Bac, Ky. "The first dose helped me and improvement kept on until I had gained 58 pounds in weight and my health was fully restored." This medicine holds the world's healing record for coughs and colds and lung and throat diseases. It prevents pneumonia. Sold under guarantee at G. S. Darling's and J. E. Dillon's drug stores. 50c and \$1.00. Trial bottle free.

### The Natural Result.

"What became of that Puritanical old uncle of yours from New England?"  
"The coroner's verdict was that he died from natural causes."  
"Dear me! What happened?"  
"He took to investigating the electrical lighting arrangements, and came in contact with a naked wire."  
"Well?"  
"Naturally, he was shocked to death."

### Settle Up.

The Western Publisher makes the following pointed remarks, which are worthy of the attention of the Herald readers:

"The season of the year for annual settlement is now at hand, and it applies to the printing and publishing business, as well as to other lines of trade. Get in touch with the spirit of the times, and don't let the sun go down on what has been a most prosperous and goodly year with any account uncancelled. And above and beyond all, don't forget the newspaper man whose demands are scattered here and there, and although individually are comprehensively small, in the aggregate make up a sum of considerable importance and embody power for the accomplishment of many things that the publisher hopes to do in coming days. The paper has come forward with regularity of the weeks, it has chronicled everything in the local firmament worthy of acceptance; it has, in short, given not 30 and 60, but 100 fold for the outlay. Now get busy this month in recompensing the publisher for his efforts in your behalf in the past 365 days."

### Advertisements, Like Clocks, Should Keep Running.

A store's advertisements tell the people what is "doing" at that store—what is new, what is inviting, why to-day is a good time to visit the store. People look for the ads. to tell them these things just as naturally as they would look at a clock to tell the time.

Sometimes a clock does not run—sometimes a store's ad does not. A "run-down" clock or ad, are about equally unsatisfactory, unserviceable, misleading.

Curious thing about it is what a merchant who would think it absurd to have a "run-down" or out-of-repair clock will, sometimes, deliberately let his ad. stop running. It's not wise, nor "good business," nor defensible on any known grounds—but, it's sometimes done.

### Medicine That is Medicine.

"I have suffered a good deal with malaria and stomach complaints, but I have now found a remedy that keeps me well, and that remedy is Electric Bitters: a medicine that is medicine for stomach and liver troubles, and for run down conditions," says W. C. Kiestler, of Hallday, Ark. Electric Bitters purify and enrich the blood, tone up the nerves, and impart vigor and energy to the weak. Your money will be refunded if it fails to help you. 50c at G. S. Darling's and J. E. Dillon's drug stores.

### The Essence of Simplicity.

Under all the forms in which life rests itself, in all social positions, at the top as at the bottom of the ladder, there are people who live simply and others who do not. We do not mean by this that simplicity betrays itself in no visible signs, has not its own habits, its distinguishing tastes and way; but this outward show, which may now and then be counterfeited, must not be confounded with its essence, and its deep and wholly inward source. Simplicity is a state of mind. It dwells in the main intention of our lives. A man is simple when his chief care is the wish to be what he ought to be, that is, honest and naturally human.—Pastor Charles Wagner.

### From a Practical Man.

In the current issue of the Gateway, J. D. Hawks, president of the Detroit and Mackinac railway, presents a strong indictment against the state of Michigan. "As a state," he says, "we have done all the things we have been accused of doing to injure our timber and our land: We have destroyed our timber. We have wasted as much as we have saved. We have compelled our timber growers to cut and keep on cutting their timber by taxing the entire crop each year. We have handled our state tax lands as no sane state should have handled them. We have driven away or destroyed our birds and invited the worms to take their possession. We have dried up our springs. We have invited freshets and paid for the destruction caused by them. We have helped the washing away of our most valuable soil elements. We have paid for dredging silt washed into our harbors and streams. We have invited fires and paid the penalty in loss of life and destruction of property. We have sown the winds and reaped the whirlwind." The worst of this indictment by a very practical business man is that it is true. Nobody can dispute it. What has been done, however, is done and it carries its own punishment. The only object in dwelling on the past is to gain information for the present and the future, and instead of sitting down to mourn what is behind us we should set out to build for the future.

There is, as Mr. Hawks points out a rich opportunity to make our state greater, more prosperous and wealthy than ever if we only have the good sense to appreciate it and the enterprise and good judgment to make the most of it. We can adjust our taxes in such manner as to encourage reforestation then. We need not wait for years for the benefits of tree planting. In ten years the ground will be covered and in twenty years we reap an income. Our cut over lands will reforest themselves if given a chance but they will not as long as fire is permitted to ravage them.

The first thing to be done, in Mr. Hawks' opinion, is to take away the state land department from "the cheap politicians who have preyed on it so many years." The state lands should be carefully looked after, effective steps must be taken to prevent and control forest fires and measures should be taken to learn more about our own resources. This is all true. In its varied phases this upbuilding of the state is the most important matter of the day in Michigan and the legislature should be prodded until it takes notice and acts.—Grand Rapids Press.

### A Dangerous Operation

is the removal of the appendix by a surgeon. No one who takes Dr. King's New Life Pills is ever subjected to this frightful ordeal. They work so quietly you don't feel them. They cure constipation, headache, biliousness and malaria. 25c at G. S. Darling's and J. E. Dillon's drug stores.

### Children Born in Workhouses

A thousand children are born in London workhouses yearly.

### Might Have Been Better Said.

A newspaper, describing the doings of a convention, said: "The procession was very fine and nearly two miles long, as was also the prayer of Dr. Perry, the chaplain."

A steambot captain, advertising an excursion, says: "Tickets, 25 cents; children half price to be had at the office"

Over a bride at Athens, Ga., is the following announcement: "Any person driving over this bridge at a pace faster than a walk, shall, if a white man, be fined \$5, and if a negro receive 25 lashes, half the penalty to be bestowed on the informer."

On a certain railway the following luminous direction was printed: "Hereafter, when trains in an opposite direction are approaching each other, on separate lines, conductors and engineers will be requested to bring their respective trains to a dead halt, and be careful not to proceed till each train has passed the other."

### Notice to Taxpayers.

The tax rolls for the various wards of Tawas City for 1908 are now in my hands for collection, and those wishing to pay their taxes can do so by calling at my office, at residence, J. H. Nisbet, city treasurer.

WAY TO IRON SHIRT

TIPS FOR WIFE WHO DOES HUSBAND'S LINEN.

Precautions at the Beginning Will Save Time and the Garment Will Last a Great Deal Longer.

In order that a shirt may be successfully ironed it is necessary to wash and fold it properly. As to the starch used there are two kinds, the raw and the boiled. The latter, as a rule, gives the more satisfactory, though not the few laundresses prefer the raw starch method for collars, cuffs and shirt bosoms.

The amateur, however, will do well to experiment first with the boiled liquid. To make it mix together take two tablespoonfuls of dry starch and about half a teaspoonful of cold water until it is of the consistency of cream. Then add a little more than one-half pint of boiling water if the starch is needed for shirt bosoms or collars. More water is required if such articles as shirts or petticoats are to be starched. Starch must be quite hot for collars and shirts, warm for the average "soft" garments and almost cold for delicate goods.

In order to prevent sticking to the irons, a little borax, a small bit of tallow candle or a tiny lump of lard may be added when mixing. In starching a shirt have it quite dry, then iron on the right side and under the parts to be stiffened in the hand and dip in cold water, then put into the hot starch, rubbing it well into the shirt. Then clap the stiffened portions between the hands.

Remove with a rag any superfluous starch and fold, taking care to keep all the starched parts together, otherwise the sleeves or body of the shirt may become too stiff. The shirt is laid flat, uppermost. The cuffs are straightened and laid on the bosom part, then the collar is folded downward also on the front and the fronts are doubled one over the other. Fold the shirt again in front, turn up from the bottom for a few inches and roll tightly, beginning at the top.

Leave for a couple of hours, and meantime see that the irons are very hot and quite clean. Then lay the shirt on the table or bosom board and so cover all the starched parts with a clean, white rag wrung out of cold water.

Next apply the hot iron, going backward and forward until the material is quite dry and shows a gloss. There are polishing irons with square heel and straight edges that come for this purpose, although when experience is gained it is possible to finish a shirt with a gloss by using only the ordinary irons.

If blisters appear on the bosom, etc., press them out by ironing over a clean, damp rag placed directly on the spot. In ironing cuffs and collars they should be laid on a table wrong side up and a hot iron passed over the surface. Then they must be turned and treated the same way on the other side. After this the pressure may be as firm and as hard as one pleases provided the iron is not too hot. The rest of the shirt is ironed as other rough dry garments would be.

Probate Order

STATE OF MICHIGAN, The Probate Court for the County of Isco. At a session of said court, held at Probate Office in the city of Tawas City in said County, on the 19th day of December A. D. 1908.

Present: Hon. Alfred R. Weir, Judge of Probate. In the matter of the estate of William Draeger, deceased. Gottlieb Draeger having filed in said court his petition praying that a certain instrument in writing, purporting to be the last will and testament of said deceased, now on file in said court be admitted to probate, and that the administration of said estate be granted to Gottlieb Draeger and Albert Crum or to some other suitable person.

It is ordered, That the 22nd day of January A. D. 1909, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is further ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Tawas Herald a newspaper printed and circulated in said county.

ALFRED R. WEIR, Judge of Probate.

Notice Of Letting Drain Contract.

Notice is hereby given that I, Anthony B. Schneider, county drain commissioner of the county of Isco, and state of Michigan, will on the 7th Day of January, A. E, 395 feet to the west line of said Scheritt's land. Total length of Gregory drain 17,873 feet. Total length of Scheritt branch 5,086 feet. A total length of 22,959 feet.

Specifications: Said drain to be not less than six feet wide at bottom from starting point to station 112, and from station 112 to end of drain to be not less than three and one-half feet at bottom. Slope of banks to be not less than one foot vertical for every foot horizontal. Said drain to be eleven feet wide more or less at top from starting point to station 112, and six feet wide more or less at top from station 112 to end of drain. Depth of drain to be two feet more or less according to the survey thereof, and ten feet will be required on each side of said drain to put excavations. The center line of said drain shall commence at a point at stake No. 0 to stake No. 175 plus seventy-two feet to end of said drain. Stakes and grade hubs are set each 100 feet along the line of said drain and are numbered consecutively commencing with stake No. 0 at the lower end and ending at stake No. 175 plus 72 feet.

All excavations taken from said drain shall be placed in the highway where it traverses the same and leveled down so as to make a smooth road, leaving the center a little crowned, and along private right of way it shall be placed on side of drain the owner chooses if he resides on the premises and upon the non-resident on the side most convenient, but not less than four feet from edge of drain and not over three feet in height.

The width of the surface excavations shall be governed by the slope and width of bottom and the depth which is measured from a level with the top of the grade hubs in feet and inches as follows, to-wit:

Table with 3 columns: Station, Depth below hub, Top width in ft. Rows 1-45.

Gregory County Drain. Gregory County Drains to be six feet in width at bottom from station 0 to 112. From 112 to end of drain to be three feet six inches, sides sloped not steeper than one to one. Stations 100 feet apart. Dimensions given in feet and inches.
