E. church next Wednesday evening by W. E. Bogardus, of Saginaw. The Saginaw Courier-Herald says:—W. E. Bogardus gave the spice of variety to the exercises in one of his recitations, portraying the painful results of the close communion of a pin, a chair, a boy and a man, and in response to a recall gave "Grandfather Ben" in a good style. All accounts due F. W. Marzinsk are the property of The Holmes-Kelsey Co. and are payable at the office of W. B. Kelly, Tawas City, Mich. The book keeping class bids fair to be a record breaker. Second and sixth grades are both represented in the normal a half day each. The compulsory school law leaves the superintendent and truant officer no choice. The truant must be reported. Inspiration Institute Friday night, April 30th, and Saturday May 1st. **Find Happiness in Children.** Very domestic is the life of the Belgians, and the children enter into every sort of interest of the parents. They would not think of going to the restaurant or summer garden without the children, and their own pleasures are often but the reflected ones of their boys and girls. The father goes to the circus with his little troupe of young folks about him and enjoys their joys. The happiness of the people is centered in their homes, and anything that will interfere with the good of the child is not tolerated by the self-sacrificing Belgians. **Certificate of Determination.** STATE OF MICHIGAN, COUNTY OF IOSCO—S. The Very Best Clothes in America—\$10 to \$25

When we say that CLOTHCRAFT CLOTHES are the very best clothes in America for the average man, we mean exactly that in so many words. We know what the average man wants: Clothes with style, Clothes that hold style, Clothes that wear well, Clothes at sensible prices. We know that no other clothes in the world combine these four points.

Clothcraft Clothes

Style that Holds—\$10 to \$25 These clothes have style. They are pure wool (guaranteed) and are splendidly tailored. Hence they hold their style and wear well. And they sell at \$10 to \$25. No other Guaranteed pure wool clothes sell at such prices. We know the honest men who make CLOTHCRAFT and we know the remarkable processes and methods that enable them to save several dollars in factory costs on each suit or overcoat. We know that the savings from these processes enable the makers to put better wools and better tailoring in these clothes.

We Know How They're Made And so we know how these clothes can be made so astonishingly good at such low prices. We have never dared make such strong claims for any other clothes. We have the future of our business to look to and we would not dare make these claims for CLOTHCRAFT if we did not know them to be true. We wish we could make you realize that you will make a real mistake if you buy clothes without first looking at CLOTHCRAFT to judge these claims for yourself.

Resolutions. WHEREAS, The Great Ruler of the Universe has, in his infinite wisdom, removed from our midst our worthy and esteemed fellow member, Alfred C. Hebel, and WHEREAS, the intimate relation held during his time as a member of this Tent, makes it fitting that we record our appreciation of him; therefore be it RESOLVED, that the wisdom and ability which he has exercised in aid of our Tent work by counsel, service and funds, will be held in grateful remembrance. RESOLVED, that the sudden removal of such a man from our Tent, in which he has held a responsible position for more than five years, leaves a vacancy and shadow that will be deeply realized by all members of the Tent and friends, and will prove a grievous loss to this town and the public. Be it further RESOLVED, that with deep sympathy with the afflicted wife, relatives and friends of the deceased, we express an earnest hope that even so great a bereavement may be overruled for their highest good.

TAWAS CITY, MICH., April 23, 1909

A bill has been introduced in the Michigan legislature by Rep. Kappeler which provides for a guarantee of bank deposits similar to the Oklahoma law. There is no prospect of its being passed by the present legislature, however.

A chance seedling that grew up on a farm near Lowell, Mass., about 1740 became the first Baldwin apple tree, but it was not till 1784 that Col. Baldwin became interested in the apple, developed it and gave it his name. The original tree lived till after 1817, and the place where it grew is now marked by a monument. The Baldwin is the only apple thus honored.

Some people seem to have the idea that a great privilege is being conferred on them if they are permitted to give an item of news to a newspaper, hence the editor fails to learn of many important news items. Not so here, declares the Fairport (N. Y.) Herald. We want the news. We will take it over the telephone, over the counter, on the street, any hour of the day or night, and be thankful for it. We are out for the news, and if you know of anything in our line, it will be considered a favor and no breach of propriety on your part if you will communicate the fact to this office. If you do not know all the details, give us the tip and we will do the rest: that is part of our business.

Tree Planting.

Now that Arbor Day is almost here, it is not amiss to learn something of the best way in which to get the best returns for the labor and effort expended in planting trees and shrubbery.

An agricultural paper gives some experiences as to the proper plans, and after reading them, the horticulturist is at liberty to take his choice.

Tree planting revolutionizes. It is an article of faith among fruit growers that a fruit tree must be planted in properly prepared soil, a large, wide, shallow hole, the roots carefully spread in all directions and arranged near the surface with a slight upward bearing at the ends.

Small quantities of the finer soil are first worked in among the roots, hollow places caused by archings in the stouter roots are filled up, the remainder of the soil is put in, trodden carefully down, and the whole left to the compacting influence of the rain. The tree is supported by stakes until it is firmly established.

But Spencer U. Pickering, with his recent researches, declares that proper tree planting means a small hole, roots doubled up anyhow, the trees stuck in the soil thrown in and rammed down as for a gate post. With extensive experiments 59 per cent show in favor of the new simple method, 27 show no difference, and 14 per cent show against the new way. By whatever criterion the trees are gauged the new method is said to give better results than the orthodox. Although an antagonistic cry has been raised against the revolution theory, no practical man has been able to give any reason for the old faith that is in him beyond the fact that it is sanctioned by established custom.

Examination proves that ramming has led to a copious development of fibrous roots. In planting the important thing is to induce fresh root formation, and ramming does this more rapidly than the old way.

'I'd Rather Die, Doctor,

than have my feet cut off," said M. L. Bingham, of Painesville, Ill., "but you'll die from gangrene (which had eaten away eight toes) if you don't," said all doctors. Instead he used Bucklen's Arnea Salve till wholly cured. Its cures of eczema, fever sores, boils, burns and piles astounded the world. 25c, at G. S. Darling's and Jas. E. Dillon's drug stores.

For Sale.

A forty acre farm, two miles from Alabaster and five miles from Tawas City, eight acres under cultivation, 15 cut off, small young orchard, nice lot of small fruit. Fair but does. Also one horse, one cow, one heifer, wagon and harness. Sold cheap for cash if taken at once.

BENJ. HOYT, Alabaster.

The Home Merchant.

In an editorial on "Why It Pays to Buy Goods at Home," the Liberal (Kan.) Independent has this deserved appreciation of the home merchant:

Without any thought of sentiment or suggestion that we owe allegiance to anyone, the cold, hard truth is that the retail merchants of our home town are the best business friends we have.

The retail merchant conducts a school of commerce for our education and the tuition is free. Every man, woman and child gets the benefit of seeing in the home town about anything that is of real importance. He protects us against fraud and deceit. He stands for the square deal.

You never ordered a \$10 lightning rod for your home merchant and then found your note for a thousand dollars in the bank next day as a result. You never paid him \$69 for a range that warped out of shape in six months—without your wife getting the money back. He never charged you \$75 for a "trailer" buggy that you found out afterwards could be bought anywhere for \$60.

"No, the home merchant is just like you. He lives where he does business and his success depends on making a friend of you and your neighbor. Like you, he has to 'make good.'"

The retail merchant is now the one great factor in our commercial system and this is true solely because he renders us better service than we can get elsewhere. Take him away and our home town is gone; take our home town away and we deprive our children of the retail store, which is the greatest single educational factor in modern life. No, it cannot be. The retail merchant will continue to abide in our affections so long as we value our homes, because the average citizen is proud of his town (he always tells how close his farm is to it) and he secretly despises the method of peddlers—and the peddler system is now known to be the legitimate father of the whole catalog house business.

Swept Over Niagara.

This terrible calamity often happens because a careless boatman ignores the river's warnings—growing ripples and faster current. Nature's warnings are kind. That dull pain or ache in the back warns you the kidneys need attention, if you would escape fatal maladies—dropsy, diabetes or bright's disease. Take Electric Bitters at once and see backache fly and all your best feelings return. "After long suffering from weak kidneys and lame back, one \$1.00 bottle wholly cured me," writes J. R. Bankship, of Belk, Tenn. Only 50c at G. S. Darling's and J. E. Dillon's drug stores.

Eighth Grade Examinations

Eighth grade examinations for Iosco county will be held Friday and Saturday, May 7th and 8th, 1909, at the following places: East Tawas, Hale, Whittemore and AuSable. The reading will be based on "Hawthorne."

EMANATION FROM PRINTERS' INK

Ocular Property Found to Affect a Photographic Plate.

That printer's ink gives off an emanation that passes through opaque bodies and affects a photographic plate has been discovered by a German investigator. Photographic roll film is sometimes thus affected, through its celluloid cover, by the printed characters on the paper in which it is wrapped. The emanation is found to proceed from the oil in the ink during the drying process. It is not precisely the same as the emanation from radium and other radio-active substances, for, unlike them, it changes gum arabic into a granular, insoluble substance. It was this effect produced on the gum of envelope flaps by the printed characters on the envelopes that first attracted the investigator's attention. The emanations are reflected by metal mirrors in the same way as light, and they oxidize metal surfaces against which they strike. The exposure necessary to effect a sensitive plate is eight to ten days.

Words to Freeze the Soul.

"Your son has consumption. His case is hopeless." These appalling words were spoken to Geo. E. Blevens, a leading merchant of Springfield N. C., by two expert doctors—one a lung specialist. Then was shown the wonderful power of Dr. King's New Discovery. "After three weeks use," writes Mr. Blevens, "he was as well as ever. I would not take all the money in the world for what it did for my boy." Infallible for coughs and colds, it's the safest, surest cure of desperate lung diseases on earth. 50c, and \$1.00, unparellel satisfaction. Trial bottle free. At G. S. Darling's and Jas. E. Dillon's drug stores.

Legislative News.

Lansing, Mich., April 22.—Governor Warner has signed the bill in relation to supervision by the state board of health on waterworks systems and the sources of water supply for such systems.

It is very doubtful whether Senator Shap's bill, relative to the issuance of stocks, bonds, notes, and other evidences of indebtedness of steam railroads, interurban railroads and other common carrier corporations, will ever be reported out as there is considerable objection to such a bill.

Senator MacKay, of Detroit, has introduced a bill to make a husband who disobeys the order of the court in payment of alimony in suits for separate maintenance liable for contempt.

A bill to provide for an additional judge for the Ingham circuit, to relieve Judge West of some of the work, has been introduced by Senator Tuttle, of Ingham and Sanawassee counties.

The House has passed a bill fixing a price for the publication of descriptions of delinquent tax lands at twenty cents a description, after amending it to provide for paying \$20.00 for the publication of the notice in addition to the price per description.

The Austin bill, prohibiting the use of open street cars with a running board alongside, has passed the House. Old cars can be used between May 1 and September 30, each year, but all new cars of this type must have a center aisle.

It begins to look as if Michigan was soon to have a good strong home rule measure in the near future, based on the Hally bill. Every indication is that the bill will be reported out this week. It is believed the bill will give state wide satisfaction.

Last week's fight in the House principally over the ad valorem bill, was a storm before a lull and it now looks as if the solons of the lower House had decided to mend their ways and work for the balance of the session.

Governor Warner has signed the (Rep.) Flowers' bill, providing that cocaine shall only be sold on physicians' prescriptions.

"Joy riding" with automobiles, taking them for a short pleasure ride and returning them, is under the ban, Governor Warner having signed a bill making the act a violation of law.

The senate has passed the Kline banking bill, with an amendment providing for a non-partisan board of three members, to hold competitive examinations for applicants for appointment as state bank examiners, the banking commission is to receive five thousand dollars yearly, deputy commissioner three thousand and the examiners graded, according to length of service, from \$1,700 to \$2,500 a year.

The Mung common carriers' liability bill has passed the Senate. An effort in the Senate to tack on an amendment prohibiting relatives other than wives, parents, brothers and sisters from bringing action under the bill, failed.

The Anhalt bill to compel railroads to equip all cabooses with platforms has passed the House. There was quite a fight on the time limit, finally placed at January 1, 1910.

The township unit bill was defeated on third reading in the House, after being passed in the committee of the whole and laid on the table and will probably be taken up again.

Rep. Kappeler has offered a bank guarantee bill which provides for the guarantee of bank deposits. The bill is similar to the Oklahoma law.

Two Marks of Beauty.

Beautiful eyes and brows are, in one sense, a special gift of nature. Many a plain woman is redeemed by fine eyes; many a pretty face spoiled by red-rimmed, dull, lusterless eyes. But at the same time a great deal may be done to make even unpromising eyes clear and attractive, to render eyes which are only passably pretty really beautiful.

Attention to the general health will go far to make the eyes clear and bright and prevent fatigue, even when they are called upon to do a great deal of work.

Have you never noticed the dull eyes of a person afflicted with dyspepsia, the yellow tinge of overfeeding and neglected liver; the lusterless eyes of the woman who sleeps in an ill-ventilated room, who takes no exercise and spends all her spare time reading novels over the fire?

Teachers Attention.

An Inspiration Institute will be held in the new high school building, East Tawas, the evening of April 30 and May 1st. Prof. E. C. Rowe, Department of Psychology, Mount Pleasant Normal will be present. Every live progressive teacher will be present.

J. A. CAMPBELL.

Against Parcel Post.

The decadence of the smaller towns and villages, says Iron Age, is a substantial loss to the country as a whole, and to the sections which are thus deprived of the advantage of having live, prosperous and up-to-date commercial and social centers within easy reach, this consideration makes it the part of wisdom to cultivate a local spirit in all the smaller communities, so that whatever can be done in the way of increasing their attractiveness, business importance and general welfare should be taken hold of with intelligent and united effort. How this can be accomplished, the lines on which such efforts can most effectively be directed, are matters well worthy of the earnest attention of all who have the best interests of rural communities at heart.

In this connection it will be well to remember the bearing of this problem on the question of the advisability of establishing a merchandise or parcel post. There are many arguments against the project, but the one to which there is no answer is the fact that it would be directly and seriously in opposition to the welfare of the retail merchants of the country, excepting only the department stores and catalogue houses of the large cities. The establishment of a parcel post in general and on the rural routes in particular would be a severe blow to retail merchants generally. This is recognized by them usually in a timid, inactive way. They should speak out and let their opposition be known. They should let it be understood that a merchandise or parcel post, as it was successful as a transportation scheme for the carriage of merchandise, would in precisely the same measure be disastrous to retail interests, and that it would in the same degree militate against the welfare of the towns and villages. While the farmer may occasionally save a dime on his purchases in the far off city he would in the long run be the loser. For the dwindling trade of the rural communities would mean their gradual deterioration and perhaps, their ultimate disappearance. The farmer who is surrounded by dead or decadent towns is a partner in their misfortune.

INSPIRATION WAS HAPPY ONE.

Good Idea That Rescued Student from a Serious Dilemma.

A student in one of the theological colleges found himself face to face with an examination in Old Testament history—a subject which he had entirely ignored all term. Taking counsel with some friends, he decided that all he really needed to know was the long list of the names of the kings of Israel and their dates. So he crammed them each all into his bursting head. But, sad to relate, all he was asked to do was to criticize the acts of Moses. Not one act of Moses, good, bad, or indifferent, could the unfortunate youth remember, so, after much thought, he wrote as follows:

"Far be it for one as humble as I am to criticize the acts of the great Moses; but, if you would care to know the names of the kings of Israel and their dates, you will find them written below!"

He was passed.

Throwing Down Fences.

Destroying crops, throwing down fences, bars, gates, crossing lands, committing nuisances, detaching property, injuring trees, etc., and other matters of a like nature are of concern to every farmer. The law punishing such offenses is found in the "Michigan Farm Laws," which the Herald is offering to all its subscribers, old and new. Don't fail to get a copy at once. Amendments of present legislation furnished free.

We want every lady in the Tawas to come and see how to save money re-finishng old floors and woodwork.

Floors which are in too poor condition to be improved with varnish alone can be made to imitate a genuine hardwood floor with this new patented Graining System. This process does not require the services of a professional wood finisher. The Graining Tool takes the place of skill and can be successfully used by the inexperienced man or woman, thus making it possible for any one at a very slight expense to enjoy the luxury of a new hardwood floor. This Graining Compound when protected by one or two coats of Chi-Namel produces a surface that will outwear any ordinary varnished floor, many times over.

THE NEXT FAIR

Will be Held September 14th, 15th and 16th Next.

The board of directors of the County Agricultural Society held a meeting Monday and mapped out the plan for the fair for this year. September 14, 15 and 16 were chosen for the dates, and it was decided to conduct the fair along the same line as last year, making it strictly a county fair with no outside competition.

The executive committee were instructed to complete the arrangements, and were authorized to expend \$150.00 in securing special attractions, also to secure a brass band for this year. It is the intention to furnish sufficient attraction this year so that amusement will be supplied to satisfy everyone.

It was voted to make considerable repairs on the grounds and track this year which are badly needed, and everything will be done to make this the best fair in years, in so far as the association is concerned. If the farmers will come along with their end of it there can be no doubt of its success.

Dr. Shoop's Health Coffee is gaining its great popularity because of: first, its exquisite taste and flavor; second, its absolute healthfulness; third, its economy—1 1/2 lbs 25c; fourth, its convenience. No tedious 20 to 30 minutes boiling. "Made in a minute" says Dr. Shoop. Try it at your grocer's, for a pleasant surprise. James Hamilton.

COURTESY IN THE STREET CAR.

Something of a Reversal of the General Rule.

"Do you suppose that's an effect of the recent agitation of women's rights?" asked the man, indicating with a nod of his head a woman who was taking place in an "L" car in the homeward rush. His companion looked and saw a slender, handsomely gowned woman offer her seat to a young man who, in the crush, was standing in front of her and was carrying an armful of large, heavy books.

The young man looked rather embarrassed and bravely declined with a pleasant little smile, which was all he could accomplish in lieu of raising his hat with his heavily incumbered hands.

"Well, then," said the lady composedly, resuming her seat, "let me hold the books in my lap."

"That would certainly be kind, if you don't mind," consented the youth, relinquishing his load; and when the lady reached her station, leaving her seat to him, he thanked her for her thoughtfulness with fully as much gratitude as a woman would have expressed for a similar courtesy from a man—perhaps with more appreciation, the experience being more rare.

Medicine in the Sea.

The sea, according to certain scientists, can furnish not only nourishment, but medicine. A distinguished French practitioner prescribes the drinking of sea water as a cure for diabetes, the water being aerated in order to remove its impurities and, to some extent, its nauseous flavor. It has also been administered with success in cases of bronchitis and pleurisy. Experiments carried out on consumptive patients show that subcutaneous injections of sea water are beneficial, at all events in the early stages of tuberculosis. Bread made with sea water is said by those who have tried it to be most appetizing and nourishing.

The Stock Gambler's Voice.

As a rule, great manipulators have high, thin voices and take a distrustful view of securities. Their vocal peculiarity must be left as an arbitrary fact; as to their bearish slant of mind, it is easily accounted for. It comes of the fact that their services are more often solicited by men having something to sell than by men wishing to buy—in the ratio of about five to one. Nevertheless there is no instance of a bear manipulator's having died rich. It is a bull's country—Everybody's Magazine.

Saved From The Avalanche

Returned Alpine Tourists Tell Marvelous Stories of Hairbreadth Escapes From the Greatest Danger of Mountaineering.

Across a huge mass of snow and ice piled on the brink of a precipitous mountain side, a party of climbers roped together, are cautiously threading their way. At any moment a puff of wind or a false step may start the avalanche down the mountain, and hurl the travelers into eternity. You would certainly consider the situation of the adventurous travelers dangerous, wouldn't you?

And yet you are in similar peril yourself if you are neglecting that touch of bronchitis or asthma, that cough or cold, which may lead to terrible consequences. Why not take effective measures by purchasing a bottle of Abbey Syrup, Cloister Sancto Prunello, a remedy which has simply astonished Europe with its marvelous results in the cure of all forms of bronchitis and lung disease? Abbey Syrup is an infallible remedy, and though harmless in itself, is a radical cure for coughs and colds, asthma, bronchitis, croup, croup and whooping cough, influenza and all chest, throat and lung troubles.

PAIN

Pain in the head—pain anywhere, has its cause. Pain in congestion, pain in blood pressure—acting else usually. At least so says Dr. Shoop, and he has created a little pink tablet. This tablet—called Dr. Shoop's Headache Tablets—cures blood pressure, that sure cure. Its effect is charming, pleasantly delightful. Gently though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you're restless, nervous, if it's blood congestion—blood pressure. That sure cure. Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the natural blood pressure.

Brush your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion. You'll find where pain is—always. It's simply common sense. We sell at 25 cents, and cheerfully recommend.
