WARDWELL CHASE.

The old fashioned way of dosing a weak stomach or stimulating the heart or kidneys is all wrong. Dr. Shoop first pointed out this error. This is why his prescription—Dr. Shoop's Restorative—is directed entirely to the cause of these ailments the weak inside or controlling nerves. It isn't so difficult, says Dr. Shoop, to strengthen a weak stomach, heart, or kidneys, if one goes at it correctly. Each inside organ has its controlling or inside nerve. When these nerves fail, then those organs must surely falter. These vital truths are leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. Test it a few days, and see! Improvement will promptly and surely follow. Sold by C. H. Prescott & Sons.

Up Before The Bar.

N. H. Brown, an attorney, of Pittsfield, Vt., writes: "We have used Mr. King's New Life Pills for years and find them such a good family medicine we wouldn't be without them." For chills, constipation, biliousness or sick headache they work wonders. 25c at G. S. Darling's and Jas. E. Dillon's drug stores.

"I'd Rather Die, Doctor,

than have my feet cut off," said M. L. Bingham, of Princeville, Ill., "but you'll die from gangrene (which had eaten away eight toes) if you don't," said all doctors. Instead he used Backlen's Aranea Salve till wholly cured. Its cures of eczema, fever sores, boils, burns and piles astound the world. 25c, at G. S. Darling's and Jas. E. Dillon's drug stores.

When It's a Nude.
"The Bather" was the title of the young painter's picture, the first that he had ever shown. It hung, unnoticed, on the line.

"But," said his friend, "you have done nothing to draw a crowd!"

"I've done my best work," said the young painter.

"Fudge," was the retort. "Work draws, but there are better magnets. At the Paris exhibitions every artist, until he makes a name, uses some device to keep a crowd about his daubs."

"A painting like 'The Bather' always, in Paris, has the model, very beautifully dressed, strolling idly back and forth near it. The resemblance between her and it is at once perceived. And the result is the greatest curiosity—an immense crowd—a tremendous hit."

Throwing Down Fences.

Destroying crops, throwing down fences, bars, gates, crossing lands, committing nuisances, defacing property, injuring trees, etc., and other matters of a like nature are of concern to every Farmer. The law punishing such offenses is found in the "Michigan Farm Laws," which the Herald is offering to all its subscribers, old and new. Don't fail to get a copy at once. Amendments of present legislation furnished free.

The Herald's Popular Contest.

In February, 1909, The contest was begun, For the Tawas City Herald The boast of every one. Just thirty-one contestants Then entered in the race, But later some withdrew They could not keep pace. And so the fun was started In districts one and two, With twenty-four still in line, Subscribers to pursue. All towns were represented, And each one had to work To add the new subscribers, They had no time to shirk. And so the votes were gathered By those on winning bent; While 'Pat' stood by and urged them on What cheering words he sent. He knew how interesting The work to them had grown, So smiled, and praised them as they worked, Still 'looking for his own.' Some entered to the office, Their standing week by week; While others silent watched for votes, With manner slick and meek. Some there were whose pockets Were full of jingling tin, And these for fear of failure Bravely ventured in. But since the votes are counted They don't have much to say, For alas! the tin is jingling In Tawas by the bay. And the watches they are carried By those who did not shirk, For the list of new subscribers Shows they won by work. And thus the fun continued Till they counted up the votes: On April 12th the mayors met, And each one took the notes, Which shows how women only, Can work to win a game; For each winner in the contest Bore a woman's name. 'Tis Scarlett, Swartz, and Hurford, To-day that feel the best; For they have won the glory And you all know well the rest. How they added in subscribers That was such a grand surprise; But there's always much accomplished When once a woman tries. And the way they'd boast the Herald And ask us to renew, Made us send in our subscriptions; Pray what could manhood do? And since the contest ended 'Pat' is feeling gay, For his own kept coming back to him In such a wondrous way. We compliment the workers Who failed to win the game; And appreciate their efforts With the others, just the same. And the Herald tells the story Printed at the county seat; How, when it comes to contests, Losco can't be beat. And now my tale is ended, We'll apply the scriptures, too Do always unto others, That which they should do to you. If to follow this good motto, You will ever, ever try; We, perhaps may meet together In the "Sweet by and by."

UNCLE SAM, Whitemore.

Ice Cream Bill Passes House.
Lansing, April 27—Senator Larry Snell, who is in the dairy and ice cream business, has scored one for himself. His ice cream bill, which a few weeks ago passed the senate, was Monday night passed by the house. It means that hereafter no manufacturer can sell ice cream in quantities unless he tags the cans so as to disclose exactly what ingredients the ice cream is made. Also a bill forbidding any person selling any imitation of ice cream. All ice cream manufacturers must get an annual license from the state dairy and food commissioner which shall cost \$5. Also all retailers of ice cream that is not strictly cream must display a sign reading "We use ice cream containing gelatine." The bill will go to the governor this week for his signature.

Eighth Grade Examinations

Eighth grade examinations for Losco county will be held Friday and Saturday, May 7th and 8th, 1909, at the following places: East Tawas, Hale, Whitemore and AuSable. The reading will be based on "Hiawatha." J. A. CAMPBELL, Commissioner.

Woman's Home Companion for May.

The burden of our changing social order falls upon our daughters, claims the Woman's Home Companion for May, and this magazine shows by striking examples and figures how topsyturvy is our way of training girls.

In this same issue is a charming article Margaret Sangster, showing that the millionaire mother is by no means as black as she is painted. Mary Heaton Vorse, in her own inimitable style proves that if we are fat it is our own fault.

In more serious mood is a trip through the Metropolitan Museum of Art with Sir Caspar Purdon Clarke as guide. This valuable article is illustrated by exquisite reproductions of famous paintings.

Other articles of interest are "The Art of Economy," by Mrs. John Van Vorst, and "The Commuters of New York," by Albert Bigelow Paine. "An Imperial Wraith," by Clara Morris, contains charming reminiscences of the Empress Eugenie. "Lucy Green," a friendless seventeen-year-old girl, tells how she went to Boston penniless, in search of a job, and how she got one. "Afraid" is a story in Zona Gale's exquisite style. "Hearts and the Highway" has Cyrus Townsend Brady's usual swing and dash, and "The Four Adventuresses" is another story by Hulbert Footner, whose freshness and humor have established his reputation.

This issue of the Woman's Home Companion is distinguished by two features—a poem entitled "The Grandmother," by James Oppenheim, and a full-page drawing by Harrison Fisher, showing Margaret and Gerard, from "The Cloister and the Hearth."

Swept Over Niagara.

This terrible calamity often happens because a careless boatman ignores the river's warnings—growing ripples and faster current. Nature's warnings are kind. That dull pain or ache in the back warns you the kidneys need attention, if you would escape fatal maladies—dropsy, diabetes or bright's disease. Take Electric Bitters at once and see backache fly and all your best feelings return. "After long suffering from weak kidneys and lame back, one \$1.00 bottle wholly cured me," writes J. R. Blankenship, of Belk, Tenn. Only 50c at G. S. Darling's and J. E. Dillon's drug stores.

Eye Was a Linger.

Man still carries the original number of ribs, but he is short of a lung lobe. Where did he lose it? Eye got it. Man's right lung to-day consists of three lobes; man's left lung to-day consists of two lobes. Let us consider the missing lobe on the left. The lungs, mind you, are the life. Eye was made out of Adam's third lung lobe on the left, the lobe nearest the heart. She was constructed out of heart mostly. That is—she took part of Adam's breath away. Adam's posterity of the male persuasion in these latter days can count on only five lobes to both lungs; while Eve's daughters can count on seven; which accounts for woman having the last word in a controversy.—New York Press.

AT HARVARD FIFTY YEARS AGO.

N. S. Shaler Tells Us of the Life of a Senior.

He was a senior in Harvard college and had a well-deserved name for scholarship in the classics, as well as for a miscellaneous assortment of talents and knowledge. He was reputed to be the best player of the game of checkers in the country; knew the political history of the United States amazingly well; was learned in pugilism, having at his tongue's end the story of all the prize-fights of recent times; withal he was the merriest little man I ever seen. I well recall my first morning with him, when, after going over the best of what I could and could not do, he asked me if I could box. I pleaded guilty to some knowledge of that ignoble art. At that time I had not learned of his interest in it, and thought that I would be lowered in his eyes by the confession. To my surprise, indeed to my horror, for I had a swordsman's contempt for the business, he insisted on my having a boat with him at once.—N. S. Shaler's Autobiography, in the Atlantic.

The old fashioned way of dosing a weak stomach or stimulating the heart or kidneys is all wrong. Dr. Shoop first pointed out this error. This is why his prescription—Dr. Shoop's Restorative—is directed entirely to the cause of these ailments the weak inside or controlling nerves. Each inside organ has its controlling or inside nerve. When these nerves fail, then those organs must surely falter. These vital truths are leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. Test it a few days, and see! Improvement will promptly and surely follow. Sold by C. H. Prescott & Sons.

Without His Retaining Fee Young Lawyer Could Not Act.

An impecunious young lawyer recently received the following letter from a tailor to whom he was indebted: "Dear Sir—Kindly advise me by return mail when I may expect a remittance from you in settlement of my account. Yours truly, J. Snippem."

The follower of Blackstone immediately replied:

"Dear Sir—I have your request for advice of a recent date, and beg leave to say that not having received any retainer from you I cannot act in the premises. Upon receipt of your check for \$250 I shall be very glad to look the matter up for you and to acquaint you with the results of my investigations. I am, sir, with great respect, your most obedient servant, Barclay B. Coke."—Success Magazine.

Words to Freeze The Soul.

"Your son has consumption. His case is hopeless." These appalling words were spoken to Geo. E. Blevens, a leading merchant of Springfield N. C., by two expert doctors—one a lung specialist. Then was shown the wonderful power of Dr. King's New Discovery. "After three weeks use," writes Mr. Blevens, "he was as well as ever. I would not take all the money in the world for what it did for my boy." Infalible for coughs and colds, its the safest, surest cure of desperate lung diseases on earth. 50c. and \$1.00. Guarantee satisfaction. Trial bottle free. At G. S. Darling's and Jas. E. Dillon's drug stores.

Throwing Down Fences.

Destroying crops, throwing down fences, bars, gates, crossing lands, committing nuisances, defacing property, injuring trees, etc., and other matters of a like nature are of concern to every farmer. The law punishing such offenses is found in the "Michigan Farm Laws," which the Herald is offering to all its subscribers, old and new. Don't fail to get a copy at once. Amendments of present legislation furnished free.

A Hardwood Floor of any Color You may Choose for \$2.50

Floors which are in too poor condition to be improved with varnish alone can be made to imitate a genuine hardwood floor with this new patented Graining System. This process does not require the services of a professional wood finisher. The Graining Tool takes the place of skill and can be successfully used by the inexperienced man or woman, thus making it possible for any one at a very slight expense to enjoy the luxury of a new hardwood floor. This Graining Compound when protected by one or two coats of Chi-Namel produces a surface that will outwear any ordinary varnished floor, many times over.

We want to see you at our store on the date mentioned below. The occasion is very special.

A representative of one of the leading manufacturers of wood decorating material will be with us, with a full line of samples to show our visitors.

This is not a sale—but a display of beautiful colorings and finishings for wood work and floors.

It is your opportunity to get ideas; also to learn how the red-tape of old method of wood finishing may be cut and the process once so mysterious, be so simplified as to enable every one to do their own decorating at very slight expense.

You can learn how to put a new Mission Finish, supplying the grain as well as color, on the wood work of a room without the expense of taking off the old paint or varnish—and treat old furniture to match.

You can learn to make soft wood floors equal to hard wood, in looks and wear.

You can learn how to make your hard wood floor water-proof, heel-proof, scratch-proof.

You can save old furniture from the second hand man.

All the above and much more you can learn; it is absolutely free; you need not feel obliged to spend any money.

DETROIT & MACKINAC RAILWAY CO.

Proposition to Farmers and Others to Reforest Cut-Over And Wood Lands Adjacent to This Company's Line.

The Detroit & Mackinac Railway Company have at Tawas Beach Forestry Nursery a number of the following varieties of trees for transplanting.

Western yellow pine, Scotch pine, western white cedar, red fir, Norway spruce, blue spruce, red spruce, Douglas spruce, white spruce, balsam and white pine.

They desire to dispose of a portion of these trees and will give them to parties who will transplant them and see that they are properly taken care of. It is especially desired that the farmers on and adjacent to the line of this company make requisition for these trees for the purpose of setting them out for reforesting some of the lands they have cut over on their farms.

A charge will be made for packing the trees ready for shipment; also parties receiving the trees to pay the freight charges. Trees to be ready for delivery as soon as the frost is out of the ground, which will probably be about April 15th. Those interested should communicate as early as possible with the undersigned.
