Word was received here Wednesday announcing the death of Mrs. Thomas Galbraith at the family home in Detroit at 8 o'clock that morning, from an attack of pneumonia. The remains will arrive here this, Friday, afternoon at 2:30, and the funeral will be held from the train to the M. E. church. The unexpected death of Mrs. Galbraith came as a great shock to her many friends in this city where the family resided for many years before their removal to Detroit.

John T. McInerney, who has been in the employe of the D. & M. Ry. as agent at Emery Junction and this city for the past 13 years, has resigned, and we understand will engage in the saloon business at East Tawas. N. D. Murchison, agent at Omer for the past seven years, has been transferred to this city and will take charge of the station here next Monday. Mr. M. is an old Tawas boy and his many friends are glad to welcome him back. He has purchased the cottage on Lake street next to N. C. Harting's.

Landlord Henry Kane informs us that his new hotel will probably be ready for business by June 10, with the possible exception of the new wing. Work is being pushed as rapidly as possible. When completed the building will be most convenient, with steam heat, electric light and water. Mr. Kane has awarded the contract for furniture to our local dealer, John Armstrong, and C. H. Prescott & Sons have the contract for the dishes. That when completed Hotel Iosco will be the favorite among the traveling public there is no doubt, and will be a credit to our city.

Girls Wanted—To work in the silk mills. Clean, light work, good wages, steady employment. For particulars as to work, wages, and conditions, address Belding Bros. & Co., Belding, Mich.

The home of William Proper, on the Townline, was entirely destroyed by fire about 4 o'clock last Sunday afternoon, together with all its contents. The fire started in the upper story and had gained such headway that it was impossible to get out any of the contents. The loss is a severe one on Mr. Proper.

A. R. Code, a prominent resident of AuSable, appeared before the city council last week and gave the dry bones of the city a shaking that ought to be beneficial. While much of Mr. Code's address was left out, owing to the fact that the editor of the Press thought it was wise to refrain from giving it further publicity, enough appeared to indicate that the most of what little had been paid in taxes in that city during the past few years, had gone to the officials instead of to the improvement of the city.

The board of directors of the Iosco County Board of Trade met Tuesday and conducted much business of importance. It is evident that most of the directors have decided to stand by the slogan, "We're After You" and keep after improvements until they are landed. It should be remembered that this association is for the entire county and every resident should have an interest in helping the good work along. The next meeting of the board of directors will be June 8, and every member is expected to be present.

TAWAS CITY, MICH., May 14, 1909

The attorney general has declared the bill introduced in the legislature to appropriate \$10,000 for the purchase of seed for the fire sufferers of northern Michigan, to be unconstitutional.

The state tax levy for this year will be \$10,262,000, and this does not include the deficiency of over \$2,000,000 which has accumulated during the past two years. The much talked of economy in state affairs seems to have been entirely forgotten since the legislature convened last January.

The "search and seizure" bill passed by the senate a few weeks ago, was passed by the house last week and is now up to the governor for his signature. This is the bill of the Anti-saloon league and forbids druggists in dry counties to sell liquor except on a doctor's prescription, and forbids a doctor to refill a prescription. It also gives police officers the same right to search for and seize liquor in those counties that they now have a search for and seize gambling outfits.

Time To Clean Up.

The time of year is near at hand when much could be done to beautify our little town and add to its desirability as a place of residence. Doubtless many improvements will be made this year. If you desire to see your home town improve and progress in all things which aid to make it a pleasant and beautiful abiding place, it is "up to you," as a citizen, to do your share. Tawas City is situated so that it can be made one of the best towns in Northern Michigan. Let's all do our share during the coming season to help to start a movement toward beautifying it. The snow has disappeared and the frost has gone from the ground, and we can add to the attractiveness of our property by cleaning up your back yards, getting lawns in shape, and planting trees along the streets. Nothing so adds to the beauty of a town or city as an abundant supply of nice shade trees and well kept lawns and premises. If we all go to work with a determination to make our home town more beautiful this coming season, the fall will witness a marked improvement along these lines and a few years we will be able to point with pride to our home town as a desirable and beautiful abiding place. Any way its worthy a trial.

New School Laws.

Governor Warner has signed the bill providing that the school boards in any district that does not maintain a high school shall pay the tuition to one of the three nearest high schools of any children residents of the district who have completed the eighth grade and who desire a high school course. The amount paid shall not exceed \$25 per pupil annually, and in addition transportation must be paid.

The governor has also signed a bill enlarging the authority of officers to compel parents who neglect their duties to send their children to school and to allow complaints to be made before any justice of the peace for violation of the compulsory school laws.

Legislative Notes

Lansing, May 13.—The final adjournment of the legislature has been definitely set for May 19, and the usual closing ceremonies held by the presiding officers of both houses with a few representatives from both branches present, will take place June 2nd. Closing on this date will make the shortest session of any legislature since 1867. It is also believed that the tendency from now on will be for even shorter sessions.

The house has passed the senate bill which increases the pay of the banking commissioner, and bank examiners. The commissioner is to receive \$3,500; the deputy \$2,500 and the bank examiners from \$1,700 to \$2,000 according to the length of their services.

The house has passed the Ming Liability Bill which introduces the doctrine of comparative negligence in cases of railroad accidents. It permits the measure of negligence to be decided by a jury.

Representative Lodge was appointed last week by Speaker Campbell on the state affairs committee in place of the late Representative Agens.

The Ogg bill has been passed by the house which modifies punishment in the state prisons. A stop is put to handcuffing convicts to their cells and prohibits paddling when the offense is that of only failure to perform an assigned task.

The car fare penalty bill, although it squeezed through the senate, has little chance of ever becoming a law from the work of the present legislature.

The defeat of Rep. Verdier's bill, in the house, put a stop to any possibility any one might have had of seeing civil service established for state employees.

Senator Aitkin's book bill passed the senate, that of Senator Tuttle's being killed. This bill is to establish uniform text books in the schools. The bill provides for a state board to pass upon the eligibility of all school books, publishers being obliged to submit samples and school boards are given the right to choose such books as they desire.

House bill No. 539, entitled "A bill to prohibit the use of automatic and repeating shot guns in the hunting of birds" has been introduced by Rep. Willoughby, and referred to the committee on game laws.

Governor Warner will undoubtedly sign the Ward-Anhut bill authorizing the state railway commission to fix rates for the water power companies of the state.

Among the bills passed by the house is the Morriss bill, providing that five per cent of highway taxes collected against any summer resort property be expended in highways within or leading to such resort.

The Shields bill making it an offense to refuse entertainment to soldiers or sailors has passed the house.

If your stomach, heart or kidneys are weak, try at least a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly: Dr. Shoop doesn't drug the stomach, nor stimulate the heart or kidneys. Dr. Shoop's Restorative goes directly to the weak and fatigued nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity suffer. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell, sold by C. H. Prescott & Sons.

RANDOM SHOTS

SOME ARE ORIGINAL, SOME ARE NOT

When a man is in love with a woman he appears proud of her, and no woman on earth will ever believe in a man's love when he appears the least ashamed of her.

Did you ever sing a lot of old songs a long time ago about sleeping in the valley so sweet? Then really, did you ever see a cemetery that wasn't stuck on top of the highest hill they could find?

When a woman hears that her boy is a bad one, she wants to scratch the eyes out of the person that started the evil report, but when she hears that her husband is bad, she accepts it as a confirmation of a long standing suspicion.

The Elkton Review says: "There's a striking similarity between the merchant who ignores the home carrier and buys his envelopes of Uncle Sam and the man who ignores the home merchant and buys his goods of one of the big mail order houses."

The way of the tippler is certainly getting harder and dryer in many parts of the country. The senate of Arkansas has taken a step toward adding to his difficulties by passing a bill to make it a misdemeanor for a person to take a drink of intoxicating liquor on any passenger train in Arkansas, or to leave the train and take a drink on a station platform and then get back on the train.

Money can't buy everything. There are no admission tickets to a sunset; you wouldn't trade the look in your boy's eye when he greets you at night for a million dollars of anybody's money; and if you keep a well-furnished mind you can go into it any time you like as you would into a child's playground and amuse yourself watching your thoughts play leapfrog with each other.—Success Magazine.

Reforestation Act Prospects.

Lansing, May 13.—Of all the proposed measures of reforestation the Rep. Flowers' bill providing for a public domain commission agreed to in the house seems to stand the best chance of passage. It provides for radical changes governing state lands and forestry. It takes the fire protection work away from the game warden and creates a state forest fire warden.

Under the terms of the bill, as agreed to, the commission is to consist of the auditor general, land commissioner, secretary of state, one university regent, one member state board of agriculture, one member board of control of the college of mines and one member appointed by the governor.

The commission is authorized to sell state lands as seem suitable for farming purposes, providing that at least 200,000 acres are held for a forest reserve.

A book on rheumatism, and a trial treatment of Dr. Shoop's Rheumatic Remedy—liquid or tablets—is being sent free to sufferers by Dr. Shoop, of Racine, Wis. You that are well, get this book for some one discouraged, disheartened sufferer! Do a simple act of humanity! Point out this way to quick and certain relief! Surprise some sufferer, by first getting from me the booklet and the test. He will appreciate your aid. C. H. Prescott & Sons.

The High Road to Consumption

Neglected Asthma and Bronchitis Inevitably Result in Consumption. Cure Them Today by Using Abbey Syrup, the Wonderful European Remedy.

Asthma is almost invariably associated with Bronchitis. Every asthmatic has retarrh of the nose, throat and bronchial tubes. When too long neglected, Asthma becomes chronic attacks are of almost nightly occurrence, reducing the vitality, totally unfitting the patient for active occupation, and rendering him incapable of throwing off the effects of germs-infection. Consumption quickly follows.

To these sufferers Abbey Syrup, Cloister, San Joaquin, comes as a wonderful relief, allaying the irritation, strengthening the tissues, stopping the cough, besides acting as a nerve-builder and tonic. Perfect health has been restored in many cases where relief was absolutely desired.

Not only for Asthma, but for every kind of throat, chest and lung trouble, Abbey Syrup is an infallible remedy. Bronchitis, Croup, Whooping Cough, Influenza, Colds and Coughs yield to its wonderful power.

This is the original remedy and is sold and personally recommended Tawas City by C. H. Prescott & Sons and G. S. Darling, and in East Tawas by T. O. Gates and J. E. Dillon.

Stop That Cold

To check early colds or Gripes with "Preventics" means sure relief for Pneumonia. To stop a cold with Preventics is safer than to let it run and be obliged to cure it afterwards. To be sure, Preventics will cure even a deeply seated cold, but take it early—at the sneeze stage—it breaks or beats off these early colds. That's surely better. That's why they are called Preventics. Preventics are little family Cold Cures. No Quinine, no physic, nothing sickening. Give for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Promptness may also save half your usual sickness. And don't forget your child, if there's feverishness, night terrors, hoarse, probably the Preventics' great-sold medicine. Sold in five boxes for the pocket, also in the boxes of a Preventics. Insist on your druggists giving you

KRESO

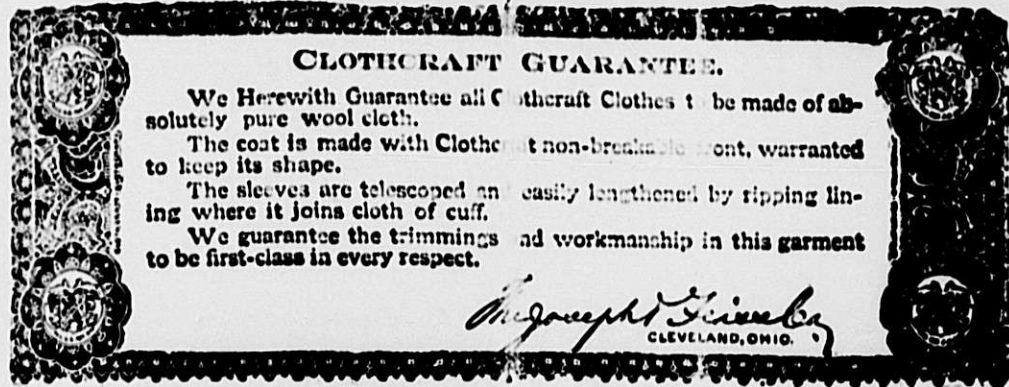

Combination of Coal-Tar Derivatives.
(NON-CARCINOGENIC.)
**A STANDARDIZED DISINFECTANT, ANTISEPTIC
CLEANSER, DEODORIZER AND PURIFIER**

Kreso possesses advantages which make it better and safer than any other material for household disinfecting, and it is preferable to carbolic acid, because it does not burn, to chloride of lime, copperas, etc., because
First. It is safe. In the dilution recommended it is practically non-poisonous, and can therefore be used freely, and is safe to have around. It is not caustic or irritating, it does not attack metals, and therefore does not destroy plumbing; it does not permanently stain washable fabrics.
Second. It is effective. Our laboratory tests require that in a 1% solution it must destroy the most resistant disease-germ (the green pus germ) in one minute. It thus disinfects, cleanses and purifies. It destroys foul odors, not by substituting another, but by destroying the cause of the odor.
Third. It is standardized; always the same. You can depend upon it.
Kreso is particularly valuable in preventing an outbreak of contagious diseases, by destroying infection, cleansing, purifying and promoting sanitation. It is the ideal disinfectant for HOSPITALS, RAILWAY STATIONS, PUBLIC BUILDINGS, SCHOOL ROOMS, BATH ROOMS, WATER-CLOSETS, URINALS, KITCHEN SINKS, STORE ROOMS, OUT-HOUSES, GARBAGE BOXES, CESSPOOLS, STABLES, DOG-KENNELS, CAGES, ETC.
For all general disinfecting purposes mix Kreso with water (warm preferred) in the following proportions:
1 tablespoonful Kreso, 1 pint water, 3 pints water, 12 gallons water, making approximately a 1-to-100 solution.
SAFE AND EASY TO USE.

SILOS

EVERY FARMER NEEDS ONE

Good Soil means good Crops. Plenty of Stock means good Soil. Plenty of Feed means plenty of Stock and SILOS ARE THE ONLY ECONOMICAL MEANS OF FEED FOR WINTER FEEDING.

A Silo should be correctly proportioned to the number of head kept. It should be Frost Proof. It should be Fire Proof and carry its own Fire Insurance. It should not require Painting or Repairing. It should be Air Tight. The Best Silo to meet all these conditions is built of Concrete. We build these Silos. Prices willingly given.

Michigan Crop Report.

The May crop report issued by the secretary of state Monday says: The present outlook prospect shows a slight improvement since the issuance of the April report, the average being 75 in the state and southern counties, and 80 in the northern counties.

The average condition on April first in the state and southern counties was 76, in the central counties 83 and in the state 6. The damage by Hessian fly in per cent in the state and southern counties is 2 and in the central and northern counties 1.

The total number of bushels of wheat marketed by farmers in April at 108 mills is 84,673 and at 76 elevators and to grain dealers 48,322 or a total of 132,995 bushels. The estimated total number of wheat marketed and used by growers in the nine months, August-April, is 9,000,000. The amount of wheat yet remaining in possession of growers is estimated at 1,500,000 bushels.

The average condition of rye in the southern counties is 86, in the central counties 81, in the northern counties 88 and in the state 85.

The condition of meadows and pastures in the state and northern counties is 76 in the southern counties 75 and in the central counties 80. The average of clover sown compared with an average for the past five years in the state and southern counties is 98, in the central counties 97 and in the northern counties 100. The acreage of clover that will be plowed up because winter killed or otherwise destroyed in the southern counties is 18, in the central counties 10, in the northern counties 12 and in the state 16.

The acreage of clover that will be plowed up because winter killed or otherwise destroyed in the southern counties is 18, in the central counties 10, in the northern counties 12 and in the state 16.

Fruit correspondents through the state quite generally report the prospect for the fruit crops very favorable at present. The spraying of fruit trees is on the increase.

After Sheep.

The Kansas City Daily Drovers' Telegram, of April 30, contains the following:

"Kansas City and this southwest country beat anything I ever saw for progressiveness," remarked J. B. Bradley of Tawas, Mich. Mr. Bradley, accompanied by C. C. Gage of the same place arrived here yesterday on a sheep buying tour. These men are members of the firm of Prescott Gage & Bradley, extensive land owners and live stock men. They are in the market now for about 15,000 stock sheep. Mr. Bradley was a candidate last year for the republican nomination for governor of Michigan, and came very near to getting the nomination. He is a physician and is on the medical board of the Michigan Life Insurance company of Detroit. He was at one time auditor general of that state, an office he held 4 years. "We made a tour of the boulevards of Kansas City, and went through its business district, and I declare I cannot express my surprise at the great enterprise shown in the rapid growth of the city. Its residence districts, and its beautiful boulevards and parks beat anything I ever saw. And it has the country back of it that means still greater growth and commercial importance. Kansas City is in the great producing territory of this country. And these stock yards are another wonder. Each year they show tremendous gains, and seem to be expanding at a rapid rate. And no wonder. When we lay the geography down before us and look it over we find the secret of all this growth. That great southwest, stretching clear off there to the Gulf of Mexico, and then to the west to the Pacific coast, all belongs to Kansas City. And the people who make up the inhabitants of this southwest country, are the cordial and broad gauge class. While some others are figuring on a problem, they get up and do it. Of course the whole country is prosperous. Up in Michigan the producer is prosperous. And it is the producer first of all who ought to prosper. He is in the lead, and bids fair to stay in the lead."

Potato Scab.

Michigan Agricultural College Experiment Station, Press Bulletin No. 21, says: Potato scab is a fungus growth on the skin of the potato. From this fungus grow spores which live over winter in the soil and on the tubers in storage. Therefore, planting scabby seed generally (but not always) results in a scabby crop. The soil which has produced scabby potatoes is almost sure to produce a scabby crop if planted with potatoes again the following season.

When potatoes are to be planted on land free from scab the seed tubers should be disinfected to prevent the introduction of the disease by means of scab spores on the seed; but if the land is already thoroughly infected this is of little use. Disinfection may be accomplished in different ways—by soaking the seed in corrosive sublimate solution or in formalin or by exposing it to formaldehyde gas.

Make a solution containing one of corrosive sublimate in seven gallons of water. Soak the tubers in this for 1 1/2 hrs. This treatment has been largely superseded by formalin treatment which is equally effective, more convenient and safer. Corrosive sublimate is very poisonous.

Into 30 gals. water pour one pint of formalin (40 per cent formaldehyde) Soak the uncut tubers in this solution for two hours. The same solution may be used several times. Take care that the treated tubers are not re-infected by coming in contact with bags or crates which have held scabby potatoes. It is better to make this treatment only a few days before planting. Formalin is not poisonous. Treated seed not needed for planting may be used for food or fed to stock with safety.

When large quantities of potatoes are to be treated formaldehyde gas may be used to advantage as follows: (Recommended by the Mains Station Bul. 149.) "Place seed tubers in bushel crates or shallow slat work bins in a tight room. For each 1000 cubic feet of space spread 23 ounces of potassium permanganate evenly over the bottom of a large, flaring pan or pail placed in the middle of the room. Pour over this three pints of formalin. Close room at once and do not open for 24 to 48 hours."

Scabby potatoes are more common on clay and loam than on sandy soil. These soils are more apt to be acid, and on acid soil scab is not common. The scab fungus does not thrive in this kind of soil. Soils which are neutral or slightly alkaline are most favorable to the growth of the scab fungus. Unfortunately, the soil conditions most favorable to large yields are also most favorable to the growth of the scab fungus.

Putting lime, wood ashes or stable manure upon the potato field tends very much to increase the trouble with scab. These substances lessen the acidity of the soil and thereby make it more favorable for the growth of the fungus which may be in the soil. They do not cause the scab as some believe, simply make favorable conditions for its growth.

By plowing under some green crop like clover or rye a soil that has become alkaline may be brought back to an acid condition. This is some help but cannot be relied upon to entirely prevent scab. An application of sulphate of ammonia will reduce the loss from scab as well as supply plant food.

A rotation of crops will assist, considerably, in the control of scab. On soil badly infected with scab it is usually cheaper to abandon potato to culture for a time than to try and combat the disease. Scab may persist in the soil several years—just how long is unknown. Much depends on the treatment of the soil and kind of crops grown. Probably, the time is shorter in tilled land than in sod. Beets harbor scab; so do turnips, probably.

Lived 152 years.

Wm. Parr—England's oldest man—married the third time at 120, worked in the fields till 132 and lived 29 years longer. People should be youthful at 80. James Wright of Sparklet, Ky., shows how to remain young. "I feel just like a 16-year old boy," he writes, "after taking six bottles of Electric Bitters. For thirty years kidney trouble made life a burden, but the first bottle of this wonderful medicine convinced me I had found the greatest cure on earth." They're a godsend to weak, sickly run-down or old people. Try them. 50c at G. S. Darling's and Jas. E. Dillon's.

Want to be strong?

Eat more Quaker Oats. Eat it for breakfast every day. This advice is coming from all sides as a result of recent experiments on foods to determine which are the best for strength and endurance. It has been proved that eaters of Quaker Oats and such cereals are far superior in strength and endurance to those who rely upon the usual diet of heavy, greasy foods.

When all is said and done on the cereal food question, the fact remains that for economy and for results in health and strength, Quaker Oats stands first of all. It is the most popular food in the world among the foods sold in packages.

All grocers carry Quaker Oats. It sells at 10c for the regular size package, 25c for the large size family package and 30c for the family package containing a fine piece of china.

A single instrument out of tune will spoil all the music that ever was played by an orchestra. So a single boy or girl out of tune, either in school or at home, can spoil all the pleasure and comfort of both. Let us "tune up" and keep in tune, if we really want to add to the world's music.—Sel.

ATHLETIC NOTES.

Oh! yes we lost the game but we will probably play two more games with them this season.

We have learned where we are weak and where we are strong and will immediately try to patch up the weak spots.

That second inning was sure a farce. We don't remember a thing that happened in it. They say the Tigers got five runs. Our own little Charlie Muller did some work Saturday. The "Spider" ran bases like a Ty Cobb and made the three base hit in the ninth inning that started the batting rally that "almost won the game. We can't see where Ernie Dillon has it in our catcher. "Premo caught four men off second base so far that there was n't anything to it. Ernie didn't get any.

Huff was so tired in the eighth inning he could hardly swing the bat. The four scores we got in the ninth was the result. Ty Brabant twirled the first two innings, Rubie Mark the next three and Spider Muller finished. Everyone got a tryout. Hallock dropped a bat in the ninth that helped some. It was out of everyone's reach. That grass cutter Nanny Swartz poked up in the eighth inning made the bugs sit up and take notice.

Koffman made quite a lot of noise that time he got on base but he made more noise when he was put out trying to steal third. Lardy Garber made quick work of it. Little Babe Moore got a beautiful hit in the ninth that brought Hallock over with a run. For a little fellow he is some player. Hewson pulled off a lightning double play in the seventh getting Mark and Garber.

Rube Mack had a chance to make a name for himself with three men on but all he did was line a fast one straight into Howes's hands. The rooting was decidedly East Tawas.

We will play many more games this season and remember that rooting is almost half the game. There would have been a chance for us Saturday if there had been a few rooters with us.

Score by innings:
1 2 3 4 5 6 7 8 9 R B
Tawas City 0 0 0 2 0 0 0 4 6 6
East Tawas 0 5 0 0 2 0 1 0 2 8 10
Hits—of Brabant 2, Mark 3, Muller 5, Huff 6. Three-base hit—C. Muller. Two-base hits—Murphy and LaBerge. Umpires—Smith and Wood.
