Ed says for the present he will use it to travel between the farm and this city, but just as soon as he gets the critter well broke that he expects to use it to do his fall plowing with.

At the home of Mr. and Mrs. Frank Black, in Mason township, Arenac county, on Wednesday, occurred the marriage of Miss Flora Farley and Archie W. Colby, of this city. Rev. J. B. Brown, of this city, said the words that bound the happy couple in wedlock. Miss Helen Carlson, of Baldwin, acted as bridesmaid while Loren Davison, of Tawas was groomsmen. Miss Bessie Black was flower girl. About seventy five guests were present and the couple were the recipients of many handsome presents. After a short wedding trip the young people will be going to keep house in this city. We unite with their many friends in extending congratulations.

Commencement Week.

The seventeenth annual commencement of the Tawas City High School and the fifth annual of the Iosco County Normal have been held this week. With the exception of the class-day exercises the classes have held joint exercises.

Six young ladies and one young man comprised the high school class, viz: Nina J. Sawyer, Grace M. Birney, Wilena A. Deacon, Lois E. Taylor, May M. Murray, Anna M. Sands and James F. Mark.

The Normal class contained thirteen young ladies: Minnie Reynolds, Evelyn Brabant, Belle Bixby, Mary McGarry, Jennie Birney, Marguerite Baguley, Jean Campbell, Hazel Lemmon, Lois Garber, Ethel Garber, LaVina Cox, Hazel Market and Olga Haglund.

The exercises were all held at the court house, the baccalaureate sermon on Sunday evening by Rev. J. Brainard Brown was a very pleasing and able address and was well received by the large audience present.

The high school class day exercises were held Tuesday evening. The court room was handsomely decorated with the class colors, red, white and blue.

The exercises opened with a piano solo by Miss Elizabeth Grise and invocation by Rev. Gilroy. The essays and orations by the members of the class were exceptionally well prepared and delivered, it being self evident that each had given careful, honest effort in their endeavor to handle their subjects in an intelligent and entertaining manner and how well they succeeded is evidenced by the liberal applause accorded them by the large audience present.

The Normal class-day program was rendered on Wednesday evening. Miss Mary E. Gardner, of East Tawas, gave a most pleasing piano solo. The papers by the different members of the class were largely of a practical nature and

showed that these young ladies have made a conscientious effort during the past year to especially fit themselves for their calling as teachers. Each was rendered in an excellent manner and showed much thought by the pupil. The class motto was, "For Value Received, We Promise to Pay," and there is every reason to believe that these young ladies will make good the promise.

Last evening were the commencement exercises of both classes, and the following program was rendered in a most pleasing manner:

March	Mrs. M. J. Conant
Invocation	Rev. O. E. Moffet
Vocal Solo	Mrs. A. Taggart
Address	Hon. F. L. Keeler
Song	Male Quartette
Presentation of Diplomas	Normal Class
	J. A. Campbell
Presentation of Diplomas	Senior Class
	C. A. Jahraus
Song, My Own United States	
Benediction	Rev. O. E. Moffet

A Business Change.

C. H. Prescott & Sons have, we understand, sold their grocery stock to Edward Woiceski and Julius Musolf, who will take possession next Thursday, July 1. The store is being remodeled, and the grocery will be moved to the department now occupied by the office.

The new proprietors are well known and popular and we bespeak for them a liberal patronage.

The shift will make considerable of a change in the personnel of the force of C. H. Prescott & Sons, several of the present employees being dropped.

Do not buy your furnishing goods or shoes for the Fourth until you have examined the new line at LaBerge's.

Some of today's advertised store bargains may never be duplicated again in this town. Don't miss the opportunity.

And Don't Forget that this Chap Knows.

"Whenever the government really wants to bring the criminal rich who are managing these conspiracies that are notoriously violating the criminal law within the penalties of that law, it will not be difficult. There never has been an honest, intelligent effort to enforce the ample provisions against any of the monster monopolies. Somehow or other it looks as if the power of these men is too much for the government. The sugar company has been a consistent lawbreaker ever since its birth. Its activities in congress have been one of the scandals of the country for many years. It has robbed the public and ruined its would be competitors. But it is no worse than many of the others in its criminal methods, and not quite so bad as some."—Samuel Untermyer, legal counsel for several trusts and corporations, and also a director in several.

It is rarely that the public has the benefit or the opinion of an attorney who intimately associated with no monopolies and knows the ins and outs of their common practice, but it happens that Mr. Untermyer is the counsel of Adolph Segal in his fight with the sugar trust, and that publicity of the facts serves the purpose of his client. The sugar trust today is the heir of an evil past. The Havemeyers for many years were one of the chief influences in congress, and also foremost among the promoters of political fortunes of men who were supposed to be serving the people in Washington and in Albany, N. Y. The Havemeyer interest helped to finance political campaigns, and it whispered the names of its choice of candidates in the ears of the bosses. The bosses saw that the caucuses and the convention delivered the nominations. The people, voting blindly for candidates who were supposed to be the free and natural choice of their party, elected the Havemeyer candidates to office, and there the officeholders delivered the goods to the Havemeyers.

As Mr. Untermyer says the sugar trust is but one of an aggregation of corporations who know no law, because they have so powerful an influence in shaping legislation for their own interest, and so strong a pull in staving off enforcement of the laws that would keep them in proper restraint. There is a very simple reason for the fact that in any ordinary contention the corporations prove more powerful than the government. It is because, under the convention system certain corporations really are the government, and the American people are so hoodwinked by their ignorance of the inside workings of their political leaders and so driven by their sense of allegiance to their parties that they become as sheep in the hands of the shearers. Curiously enough, the cunning managers of this miserable system are using their own evil methods as a warning against interference. Whenever the public, in desperation, shows inclination to undertake for itself the service that some of the corporations are now performing, the politicians cry, "Beware! Look at the corruption that exists in politics. Do you want to get the street railways and other public services into politics?" And all the time these very interests are exercising the functions of government over the people, instead of permitting the people to govern them.

Mr. Untermyer's declaration why the people in so many states are forcing primary reform is for the purpose of nominating their own public officials, and why there is a swelling cry for the direct nomination of United States senators. The attitude of certain United States senators in the tariff debates—and those of Michigan are particularly conspicuous—is sufficient explanation of the demand.—Detroit News.

Trouble Makers Ousted.

When a sufferer from stomach trouble takes Dr. King's New Life Pills he's mighty glad to see his dyspepsia and indigestion fly, but more he's troubled over his new, fine, appetizing stomach health vigor, all because stomach, liver and kidneys now work right. 25c at G. S. Darling's and Jas. E. Dillon's.

Michigan's Official Post Card.

Michigan now has an official post card and it is a card that all citizens of this state may well be proud of. At the left hand side of the card is a column of strength, at the base of which is a cluster of fruit and grain. From the cap of the column a red streamer bearing the words, "Michigan, 1837," reaches in graceful folds across the top and at the right hand corner is the state shield and coat of arms.

The legion on the card was composed by the state librarian, Mrs. Mary C. Spencer. It reads as follows: "Here's to our lake-encircled state—Our Michigan, so strong, so great. Her mineral wealth, her waving grain, Her homes where peace and plenty reign; Greatest of states since states began, We pledge to thee, our Michigan."

Soldiers Tax Exemption.

The tax laws were amended by the last legislature to exempt from taxation homesteads of soldiers and widows of soldiers as follows: "All real estate used as a homestead not exceeding in value one thousand two hundred dollars of any soldier or sailor of the federal government who served three months or more during the civil war, and in all real estate used as a homestead not exceeding in value one thousand two hundred dollars of any widow of such soldier or sailor: Provided, That any soldier or sailor, or widow of any such soldier or sailor desiring to accept the benefits named in this section as to the exemption from taxation, shall make and file with the supervisor or assessing officer an affidavit, stating under oath that he was a soldier or sailor of the federal government during the civil war for a period of not less than six months, and in case it be the widow of a soldier or sailor making such application, said affidavit must state that she is the widow of a soldier or sailor of the federal government at the present time, who served not less than three months as such soldier or sailor during the civil war. Any person making a false affidavit in any particular, for the purpose of exemption from taxation shall be deemed to be guilty of the crime of perjury, and punished accordingly: Provided, however, That this exemption shall not operate to relieve from the payment of taxes any of the persons therein before enumerated who are the owners of taxable property of greater value than twelve hundred dollars."

Bay City Home Coming.

The Home Coming Celebration at Bay City, which opens July 5th, gives promise of being one of the most elaborate celebrations given in Michigan in some years. It has the sanction of the common council and all the clergy. Everything of the street fair or carnival nature is to be eliminated and there is to be no graft games or fake shows. Everything of the amusement nature is to be absolutely free. Monday, July 5th, there is to be a reunion of the old military company, and this event is to be celebrated by eight companies of the state militia, which have been ordered to Bay City for the occasion, by the military board. The companies are to be encamped there over Sunday and on Monday will parade. There will be address, etc., also on Monday by Hon. H. E. Hatch, T. A. E. Weadock, and other pioneers, and a program interesting to all old citizens. Thousands of invitations have been sent out to former residents and there has been many responses. It will be a big week.

A Thrilling Rescue.

How Bert R. Lean, of Cheny, Wash. was saved from a frightful death is a story to thrill the world. "A hard cold," he writes, "brought on a desperate lung trouble that baffled an expert doctor here. Then I paid \$10 to \$15 a visit to a lung specialist in Spokane, who did not help me. Then I went to California, but without benefit. At last I used Dr. King's New Discovery, which completely cured me and now I am as well as ever." For lung trouble, bronchitis, coughs and colds, asthma, croup and whooping cough its supreme. 50c and \$1.00. Trial bottle free. Guaranteed by G. S. Darling and Jas. E. Dillon.

In sickness, if a certain hidden nerve goes wrong, then the organ that this nerve controls will also surely fail. It may be a stomach nerve, or it may have given strength and support to the heart or kidneys. It was Dr. Shoop that first pointed to this vital truth. Dr. Shoop's Restorative was not made to dose the stomach, but to temporarily stimulate the heart or kidneys. That old-fashioned method is all wrong. Dr. Shoop's Restorative goes directly to these failing inside nerves. The remarkable success of this prescription demonstrates the wisdom of treating the actual cause of these failing organs. And it is indeed easy to prove. A simple five or ten days test will surely tell. Try it once, and see! Sold by C. H. Prescott & Sons.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments, must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Night Cure is the local. Dr. Shoop's Restorative is the constitutional. The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, which Dr. Shoop's Restorative wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure," as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, excites nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

Fifty Out of Ten Thousand Girls
Nine thousand nine hundred and fifty girls out of every ten thousand are sacrificed in our method of education, according to Katharine Eggleston in Woman's Home Companion for July. Out of every ten thousand girls who enter our primary schools only fifty go to college, yet every one of the ten thousand is prepared for college. The nine thousand nine hundred and fifty who will be wage-earners and home-makers are entirely neglected.
For example, says Miss Eggleston: "Helen's school has not made work popular, so today Helen has several ideas firmly implanted in her brain. First, education offers a sure escape from domestic work, which is of all work the most menial. Second, the woman who has an income of her own is more independent than the woman who makes a home for a man who provides the income, therefore she is to be emulated. Third, the simplest method of acquiring one's own income is to seek work in the commercial or industrial world."
"Right here we find Helen destined to become the victim of sex competition. When Billy Smith, her ex-classmate, goes to work in a store or office, she goes with him, perhaps working elbow to elbow. Before long Billy Smith discovers that if there were not so many 'Helens' in his line of work, earning just enough to pay mother some board and meet dressmaking and millinery bills, he would receive more salary and secure promotion sooner.
"Unless Billy was very much in love with Helen while in school, the breach between them widens. Helen is proud of her equality with Billy at the office or store, but Billy resents Helen's interference with his earning capacity and his future. Helen is no longer a matrimonial possibility in Billy's eyes. She has become a business rival. And if Helen has been secretly nursing any affection for Billy, she soon faces the realization that this dream is over. But she does not know why. For all her 'education,' Helen is less the woman, less the Eve, less subtle than her mother was before her."

Anti Free Lunch Law.
According to the intention of the legislature, both the house and senate, the anti-free lunch law was supposed to take immediate effect. However, in the rush of the closing time before the final adjournment, the clause bearing this phase of the question does not appear on the see-grossed copy which Gov. Warner signed.
However, there is still some question as to whether this bill can come under the immediate effect class of legislation, but it is believed that there is nothing to hinder the law from being binding, at least after the 90 days have passed.

Womans Home Companion for July
Woman's Home Companion for July is a summer fiction number. There are eight stories in this issue, by Cyrus Townsend Brady, Mary Van Vorst, Alice Brown, Mary Heaton Vorse and Albert White Vorse, Annie Hamilton Donnel, Anne Warner, and Euphemia Holden. Most of these are love stories—of the kind the world and his wife like to read at this time of the year. One of the most charming of them, however, is a tale of a "Poor Little Helpless Thing," in which a wee baby proves itself the strongest member of the family. The story strikes an answering chord in the experience of many a long-suffering parent.
Especially timely are the articles in this issue on "July in the poultry yard," by Kate V. Saint-Maur, "The Woman Camper," "A Charity Cafe Chantant" and "The Picnic-Basket."
Kate Douglas Wiggin has a winning personality, and it never seems so evident as when she is at home at "Quill-cote-on-Saco." A writer in this issue had the good fortune to see her there and tells about it in a most interesting story.
Ideas for summer pillows, crocheting ideas and new summer recipes, all are opportune in this issue. An article on the making of long sleeves from short will be welcomed by many a woman.
In addition to all this, there are the regular departments: The Fashion Department, the Entertainment Page, Margaret Sangster's Home Page, Sam Loyd's Page of Puzzles, advice to the girl who earns her own living, many suggestions for fancy-work and cookery, and several pages especially for the children.

No More Indian Pennies.
The new Lincoln pennies will be distributed the first week in August. They will supplant the penny with the familiar Indian head upon it. A stock of the new coin is now being accumulated, and as soon as it is large enough to supply all parts of the country at the same time the pennies will be handed out to the public. The Lincoln design is the work of Victor D. Brennet, a New York sculptor. A number of proofs of the new cent dies have been examined by Director of the Mint Leland and have been found out to be satisfactory.
The Lincoln penny will remain in circulation for twenty-five years. The law forbids more than one change in the design of a coin in each period of a quarter of a century.
The next coin to undergo alterations will be the nickel. The time limit of the present design has expired, but as it gives general satisfaction there has been no disposition to supplant it.
The \$20 gold double eagles of the famous Roosevelt design are selling at great premiums. The high relief design which was withdrawn because the coins could not be "sticked" sell anywhere for from \$40 to \$60 each.—Brooklyn Eagle.

Women Who Are Envid.
Those attractive women who are lovely in face, form and temper are the envy of many, who might be like them. A weak, steky woman will be nervous and irritable. Constipation or kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. For all such, Electric Bitters work wonders. They regulate stomach, liver and kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth velvety skin, lovely complexion. Many charming women owe their health and beauty to them. 50c at G. S. Darling's and Jas. E. Dillon's.

Boys, Stay On The Farm.
S. D. Williams, editor of the Modern Maccabee, the newspaper representative of the more than one hundred thousand members of that organization in Michigan, who is something of a student and philosopher in various directions, declares it looks like a good time for the farmer boy to stay on the farm. Mr. Williams approaches the conclusion which leads him to believe that for some years to come farming will be almost the most profitable industry that men can engage in through a review of the increased production of gold and silver and through the further fact that this country's cheaper labor is drifting almost wholly toward the cities.
"Unless you have a good and sure thing in the city you had better bide a wee with dad on the old farm, for the pendulum is swinging that way," is Mr. Williams' concluding admonition.

MANY TOPICS

Gathered From Our Exchanges

Until Wilbur Wright can show that aeroplanes can be driven with one hand or can find their way home alone it isn't likely that they will be popular with loving couples.

The story that a fishing rod has been invented which will accurately record the weight of the fish caught, sounds fishy because if it accurately recorded the weight no modern disciple of Isaac Walton would have any use for it. Besides it is well known that most fish furnish their own scales.

Secretary of State Knox has notified the navy department that it must send no more warships to the Great Lakes. The Canadian government went as far as conditions would allow when the gunboat Nashville was sent for the use of the Illinois naval militia, and when Toledo asked for a new warship to replace the ancient Essex, Canada drew the line.

A prominent dairy man in Michigan says that the price of butter is raising because the people are eating the food which belongs to the cows and paying a high price for it. They are willing to give from 5 to 10 cents per pound for breakfast food made of bran, middlings, round corn, cobs, etc., which used to be fed to cows at half a cent a pound. Thus the cows are robbed of milk producing food.

The legislature has passed a new law which provides that township treasurers, highway commissioners and other township officers must publish financial statements in newspapers. When the bill was under discussion it was brought out that in one township of the state only one copy of the treasurer's report was made and that was tacked up on the back of a shed face downward so no one could read it. Publishing these reports in newspapers will let the taxpayers know what their servants have done with their money.

The Grand Army of the Republic is to be perpetuated by the election of men who did not serve in the armies. This is wrong. The men who fought for and who saved the Union should have these honors, and when they are gone, the great association should have an end. When men who did not assist in that great work are admitted to membership there will be a scramble of politicians, upstarts, and unworthy men to secure membership in the order to the end that they may make capital for themselves out of it. Honor to whom honor is due; the members of the Grand Army earned their honors and their bronze buttons. It should not be given to those who did not earn either.

A newspaper can never very creditably represent a town whose business men do not advertise. He may howl himself hoarse bragging about the vim, energy and enterprise of his town, but if his declarations are not backed up by a liberal amount of advertising by the business men of the town, the world will be slow to take his statement as true. It takes more than the unsupported testimony of the local newspaper man to prove to the world that his town is the financial center, the business center, the best market, and the best place on earth to buy goods; his evidence needs corroboration.—Clarkville (Mo.) Times.

During the year 1908, 31,231 sawmills in the United States manufactured 33,289,369,000 feet of lumber, according to a preliminary report just issued by the bureau of the census. These mills also cut 12,106,483,000 shingles and 2,986,684,000 lath. Lumber manufacturing like every other industry, felt the effects of the business depression which began in October, 1907. Consequently the production in 1908 was below that for the previous year. In 1907 the cut of 28,850 sawmills was 40,256,154,000 feet, the highest production ever recorded. Notwithstanding, therefore, that in 1908 reports were received from eight per cent more mills than in 1907, the decrease in lumber cut reported by them was slightly over seventeen per cent.

State Capitol News Briefs.

Lansing, June 24.—State Game and Fish Warden Pierce's department, according to the monthly report, shows that the department made 93 complaints last month for violations of the game and fish laws, and that 85 convictions were secured. A total of \$1,369.35 was collected in costs and fines.

The Ishpeming company of the Third Regiment, National Guard, has been mustered out by the state military board for inefficiency, and it is probable that a new company will be organized in the upper section of the state. The Adrian company, against which there was a deficiency report, was granted 30 days in which to reorganize and recruit up to the standard.

The dairy and food department is conducting experiments upon cuts of all classes and degrees in demon-

strating the effect of benzoate of soda, a preparation which is sometimes found in products under the "shady" class which come to them for analysis.

Governor Warner approved of the plan for the state to turn over to the war department, either free of charge or for exchange of government land, a large parcel of land lying west of the Soo, to be used as a maneuver ground and target range for national and state troops. The law will be looked up fully in regard to this matter before any steps are taken.

State Game Warden Pierce announces that his deputies will examine the spark arresters on all railway locomotives running through districts in which forest fires are liable to occur and ascertain if the spark arresters comply with the law. Also the railway rights-of-way to see that they are kept clear of combustible material.

The new law allowing eighth grade graduates of rural schools the right to have their tuition paid by the district to one of the three nearest high schools does not become operative in time to have any tuition paid next year. The law goes into effect September 2. It provides that the parents or legal guardians of pupils who have completed the eighth grade in districts where no high schools are maintained, may notify the district board that such children desire high school. This must be done on or before the fourth Monday in June. The attorney general holds that inasmuch as the law does not take effect until the second day of September, no notice can be legally served on school boards by parents or guardians until June, 1910, and that no tax can be raised this year for the paying of such tuition.

About July steps will be taken to enforce the new labor law, relating to the employment of persons under the age of 18 years, embracing stores, shops, factories, laundries, theaters and mercantile establishments of all kinds. However, before beginning the rigid enforcement of this new law, an effort will be made to get it before employers.

Want to be strong?

Eat more Quaker Oats. Eat it for breakfast every day. This advice is coming from all sides as a result of recent experiments on foods to determine which are the best for strength and endurance. It has been proved that eaters of Quaker Oats and such cereals are far superior in strength and endurance to those who rely upon the usual diet of heavy, greasy foods.

When all is said and done on the cereal food question, the fact remains that for economy and for results in health and strength, Quaker Oats stands first of all. It is the most popular food in the world among the foods sold in packages.

All grocers carry Quaker Oats. It sells at 10c for the regular size package, 25c for the large size family package and 30c for the family package containing a fine piece of china.

WALTHER'S GREAT

Semi-Annual Stock Raiding Sale

CARRIES A MESSAGE INTO EVERY HOME

Commences Monday Morning, June 28, 1909

AND CONTINUES FOR FIFTEEN DAYS

A SALE WITHOUT ANY STRING TO IT

A long story told in only a few words. Owing to the backward season we find ourselves over-stocked in every department. We want to reduce stock and we will if low prices will do it. A sale at this season has a double meaning. To us it means a great loss on profit; to you, it means a great saving. Or in other words, our loss is your gain. Don't miss this Great Sale. For anything you may need.

PRICES STRIKE ROCK BOTTOM IN THIS IMMENSE SALE

Come to this sale with the highest expectations. Come expecting to see the greatest display we have ever made. Come to see all sorts of good, serviceable goods marked at prices by far the lowest. We have made extensive preparations for this sale. It is to be our chief merchandise events of the season. Every item will upon comparison prove our supremacy in value giving.

It pays US to advertise because by having kept faith with the people in everything we have ever attempted we have won the confidence of the City and State. Instead of taking what we say "with a grin of salt" you know absolutely that whatever bargain is advertised is here. That means a lot to YOU, because you know you will not be disappointed after coming to the store. And it means a mighty big thing to us because we know thousands of you WILL COME every time we announce OUR GREAT STOCK RAIDING SALE IN ALL DEPARTMENTS. Dry Goods, Clothing, Shoes, Millinery, Crockery, Glass and Tinware, Hardware, Patent Medicine, Groceries.

ATHLETIC NOTES.
Rooters! We want you.
Our last scheduled game will be played tomorrow, Saturday, against Oscoda at Oscoda. We won from them on our grounds the 7th inst. but they are a stronger team than they were then. They won from East Tawas last Saturday, 10 to 7. Our high school record is two won and one lost and our all around record four won and three lost. It means work to beat Oscoda next Saturday, and we want rooters to help us. A train leaves the Tawas City depot at 2 o'clock standard time. Fare for round trip 45 cents. We want everyone.
We wish to thank the people of Tawas City for their help in making this base ball season a success financially. We have had this spring a new catching mitt and a new protector, have made a trip to Oscoda, have been kept in balls and bats and will take a trip to Oscoda tomorrow. We think it has been successful as to the gains won and lost also, and will try to add another scalp tomorrow.
The relay banner that we have been waiting for for two years is here, and it is a beauty. It is in pennant form, size 1 1/2 by 4 feet, a back of crimson and the pennant proper of gold. The letters are crimson upon the gold and it is inscribed "Osco County Meet. 1907, Relay Race Tawas City," and a monogram of T. H. and S. The cord and tassels are of gold. Our medals and ribbons are expected any day. The banner is being exhibited in the different business places of the city.

Could Not Be Better.
