 Last Wednesday morning as Leslie Brothers started for Whittemore with their big ten-ton traction engine, which they had been using to run their portable mill in this city, it went through the Mathew street bridge. Fortunately but slight damage was done, the engine, altho the bridge was badly damaged. It took the entire day to get the engine out.
 Good roads. One can hardly pick up a paper from this or any other state that does not contain something about good roads. The agitation along that line seems to be sweeping over the whole county, and right it should. The initial cost of good roads may seem large, but the benefit to the farmers in getting their crops to market is so many fold, that the cost is hardly to be considered at all.
 The announcement of the death of George L. Cornville was received here Thursday evening of last week, and came as a shock to his many friends. Mr. Cornville died at his home in Monte Vista, Colorado, suddenly on October 22. For many years he was one of the best known and most highly respected residents of this county, having filled the offices of county clerk and register of deeds for several terms, besides many minor offices. The sympathy of the entire community goes out to the bereaved widow and daughter.
 Commissioner Campbell and Hon. H. R. Pattengill have been "stirring up things" educationally thro the county this week. Meetings have been held in several school districts each day. The work closes with a lecture by Mr. Pattengill at the Congregational church, in this city, tonight and an all day institute at the high school tomorrow. Prof. Bailey, representing the state library, has been with the gentlemen, and as a result of his visit to our county fully fifty circulating libraries have been installed, comprising 1250 of the very best books published.

WHITTEMORE MICHIGAN

Ganderbone's Forecast for November.

Copyrighted 1909 by C. H. Rieth.
Whereas, notwithstanding beef is going upward with a bound, pork is higher, and our butter costs us forty cents a pound. Hah! is doing well, the weevil having spared it, and the prunes are the finest and most filling. We have raised in many moons; and whereas, the reign of terror, Mothered by the suffragette, is remote from us a matter of an ocean trip as yet, and the polar controversy has subsided for a bit, leaving us to reassemble, our disseminated wit, and whereas, the railroads have delivered Taft the debonair here and there around the country, right side uppermost with care, and the Congress in its wisdom has arranged a sort of truce by which business and reform have sort of turned each other loose; and whereas, no one is running very hard this year for place, and we're neither disconnected nor distracted by the race, and the present state of being, notwithstanding we rehearse some complaints to keep in practice, might quite easily be worse; therefore Thursday, or November Twenty-fifth, is set apart as a day of thanks and fullness of the stomach and the heart, when the sacrificial turkey shall resume its festive sway, and we may rejoice it isn't what it might be, anyway.

November gets its name from November, the Latin word for nine. It was anciently the ninth month, but that brought it around at the season when the Roman explorers were getting in from Britain and other parts and raising such a hullabaloo with their claims and counter claims that it was finally made the eleventh month, when the atmosphere had somewhat cleared and there really was something for which to be thankful. Incredulity in those days was much worse than it is now. When Caesar returned to Rome and claimed to have divided Gaul into three parts he precipitated a dispute, in the violence of which both his Eskimos were assassinated and the empire rose and fell four or five times.

The countersign for November is supplied by Charles R. Crane, who was for a minute Minister to China. Mum is the word. Mr. Cannon will be coon for the month, with the following cast: Dogs, Mr. Clapp, Mr. Cummins, Mr. Nelson, Mr. Borah; later, Mr. Bristol; axes, Mr. Beveridge, Mr. Dolliver; gamecock, Mr. LaFollette.

From the first to the twenty-second the sun will remain in the constellation of Scorpio, but on the twenty-second it will pass into that of Sagittarius the Archer. This will give the wolf the ball

again on our 10-yard line, with only three meals to play. If we can hold them there for downs, the consumer will eat on the ninth, seventeenth and twenty-seventh, as he has been doing; but if they score on us, he will eat only once this month—on the twenty-fifth.

All of us, no doubt, remember something of the month November, when the pumpkin pie is blooming, and the husking bee is out; when the hills are turning amber, and the hog lies down to slumber in the melancholy knowledge that he is to die at dawn.

It is then the apple butter has a tendency to splutter and to radiate a perfume quite a distance from the pot; it is then the orchards beckon, and it's pretty hard to reckon whether father had his senses when he moved to town or not.

Then the pheasant, that great drummer, wakes the morning, and for summer in the sad heart of the forest is a sweet and plaintive wail; and the geese go over a flying, down the arching heavens crying loud alarms, as if winter fairly had them by the tail.

You would think to hear them hollow that a blizzard were to follow, and that borax had stung them where they couldn't stand by pain; but we know them pretty fairly by this time, and it is rarely that we ever look for anything beyond a little rain.

But it's not so bad to see them, nor amiss to want to be them— they are free, which makes a married man look at them more than once; and a thoughtful contemplation of that wedged aggregation is not, anyhow, exactly what made any man a dunce. It arouses his suspicions that too many politicians have to do with the direction in humankind is bound. And he wishes it were fated that we might be recreated and begin again at Eden with a new deal all around.

But, howeverwise it may be, this November is the baby for that plenty which is pictured with a long Pandora horn from which sustenance is pouring in abundance on the flooring in the shape of sweet potatoes, pumpkins, cabbages and corn.

All of us know that old picture, and it's what November's like, when the days are soft and hazy and the farmer's on the hike with his corn and his hog-killing. 'Till he's all but out of breath with exertion lest the people in the cities starve to death.

The November flower is the chrysanthemum. To wear a red or pink one signifies love, a white one indicates that you are for Cook, a green one that you are for Peary, and a brown one indicates that you do not know what to think. November's birthstone is the topaz, and it is a good month to be married in, love pirates being too much occupied with getting into winter quar-

ters to be chasing and boarding occasional bliss.

After Thanksgiving, the greatest day in the month will be the ninth, which is the day the Pilgrims landed. There will be a big celebration at Plymouth Rock, with a parade by the trusts and speeches by Messrs. Alrich, Morgan, Rockefeller, Cannon and other active friends of liberty.

On the fourth, fifth and sixth Mr. Ryan will make a few short anniversary dashes around the house for old time's sake.

And then December's cruel blasts will bite the weather vane, and Santa Claus will skid around upon his aeroplane.

Plainfield Dist. No. 5.

Leone Carney entered school Monday. We all enjoy music better since our organ arrived.

We enjoyed a short visit from Commissioner Campbell Tuesday.

Third grade dramatized "The Town Mouse and the Country Mouse."

Vera VanWormer who had been visiting in Toledo, returned to school Friday.

Chart, first, second, and third grades cut and drew birch bark canoes this week.

Examinations were given last week and the report cards were given out Monday.

No school Nov. 5th on account of Teachers' Institute which will be held in Tawas City.

Chart, first, second and third grades drew and sewed maple, oak and poplar leaves last week.

Selma Curtis, Mina and Louise Waite, and Margaret Stimpson were neither absent nor tardy during last month.

Some parents are very negligent in sending their children to school. Such cases are reported to the school commissioner.

The debate in civil government this week was, resolved, "that there should be an educational qualification to suffrage." The affirmative side won.

We have so far studied in Agriculture, tilling the soil, the destruction of weeds, the dairy, and the stock on the farm. We have found it all very interesting.

We are planning an old fashioned box social, which will be held in the school house some time in November. The proceeds will be for the organ, which arrived Saturday. Look for the date later.

We are sorry to lose four of our schoolmates who are leaving Hale, namely: Margaret Stimpson, Mina, Louise, and Wilder Waite. Games were played, and candy and peanuts were passed around Friday afternoon for a farewell treat in honor of those who were leaving.

Whittemore Schools.

Our school is increasing in numbers rapidly.

The fourth arithmetic class is reviewing multiplication.

Winnie Mills and Winnie Pringle have entered school.

Miss Arlie Ruddock, of the county was a pleasant caller Thursday last.

Roman history is proving very interesting for the general history class.

The fourth grade language class is learning how to write letters correctly.

The second grade language class is memorizing the poem "Thanksgiving Day."

Those perfect in attendance during the month of October were Gradson Bruce, Isaac and Judson Rowley, Stella Barnum and Romano Hall in the primary room.

Mothers may help the teacher by requiring the children to be prompt and regular in attendance, by visiting the school, by occasional talks with the teacher. Mothers are you thus co-operating? Such co-operation makes the educational dollar do a deal more.—Moderator Topics.

Tawas District No. 2.

Stella Ullman entered the chart Thursday.

The eighth grade is working in invention.

The fourth grade is working in long division.

The chart class is weaving mats for busy work.

Willard Proper visited our school last Thursday afternoon.

The sixth grade is working in denominated numbers for arithmetic.

The fourth grade is learning for language, "The Landing of the Pilgrims."

The fifth graders have finished some fine maps of the United States.

Arthur and Maggie Ullman have been absent for some time on account of sickness.

We are sorry to lose Josie Emerich, one of our fifth graders. She will soon leave for Idaho.

Estray Notice.

There came into my enclosure about October 1, 1909, three sheep, one old one and two lambs. The owner can have same by proving property and paying charges.

SPARKS FROM THE SAGINAW MEETING.

Total enrollment 4441.

Tell the boys to stand by the constitution and the union.

Drill, drill, review, review until the required things "get there."

Abraham Lincoln's passion, his master-passion was to learn.

Lincoln's power was to make people think he was telling the truth.

The teacher plows, and sews and reaps in the hearts of human beings.

The teacher of striking personality perpetuates himself in immortal reflexes.

The story of Lincoln to overcome his environment is a moral study, a grand story.

Child likes to do things which he does well. Have something well done, then something more to do.

Stock lower nerve centers with sense stuff. When a man debates to win, some good day that man will fail.

Patrick Henry was a poor young man; his wife a poor young woman; they united their poverty and were rich.

Definitions should be exact. Make few points, drive them home. Get students to test by terms of their own experience.

We must turn out a useful product. The high school should return the boy a better prepared man to fill the place his father filled.

The educated man should do his fair share of the disagreeable things. We are not engaged in educating the exceptional man but we are to educate all.

The high school is not, exclusively, a preparatory school for the college. Costs more to educate a child than to give him a round trip trolley ride every day—10c per day.

Hale Schools.

Ralph Brown was absent Friday.

Miss Zella Purks was absent Friday.

There has been a few tardy marks this week.

Jesse Shellenbarger was absent last week.

The high school room has a new row of seats.

The ninth grade will soon begin factoring in algebra.

We have a new set of dominoes in the high school room.

The seventh grade has started division in literal quantities.

The eighth grade has nearly finished studying civil government.

The two back seats or rocking chairs were fastened—secure last week.

Ora and Floyd Putnam are again in school after a few days absence.

The seventh grade is having a hard time in multiplication of algebra.

Latin is a very interesting study for some, but others have dropped it.

Perry Nunn accomplished the feat of climbing the flag pole after the rope.

The high school boys had the misfortune to make a hole in their foot ball.

The ninth grade general history class has nearly completed the study of Greece.

H. R. Pattengill gave a lecture at the school house Tuesday morning, which was much appreciated.

Fertilizing in the Orchard.

For fertilizing the orchard leguminous plants have great value. The details of their growth, cultivation and utility should be studied, that we may learn how and when to use the different varieties to best advantage.

Their roots penetrate deep into the soil, making it more porous and decompose more or less of the hardest substances with which they come in contact. The roots also support bacteria which have the power to change the free nitrogen of the air into plant food.

The thick epidermis of the leaves prevents rapid evaporation from their surface. The heavy foliage shades the ground, checking the loss of moisture by the direct action of the sun and wind, at the same time keeping the temperature of the soil at a lower point through the hot months than if clean cultivation is used.

ELASTIC MONEY

Is what you have when you trade at this Big Store. It is elastic because it will stretch over more of your needs here than anywhere else. Our **Great Bargains** get you more for your money here than elsewhere.

'I Don't Care About Wool, I Want Style'

That's what a young fellow said in our store the other day. In less than a minute he had changed his mind.

For we told him what you probably know already—that, unless a suit is *all pure wool*, it will not wear well and it simply cannot be made to *hold* and *keep* its style.

Clothcraft All-Wool Clothes

Then we tried one of these smart, dashing Clothcraft suits on him and showed him the *Signed Guarantee* that it was all pure wool. He bought the suit.

These are the most remarkable clothes we've ever seen—they have so much style, they are honestly all wool and yet they sell at the same prices as common clothes—\$10 to \$25. Clothcraft is the *ONLY Guaranteed pure wool line in America*, at these prices.

Most of the men in town have found out about these clothes and they are selling fast. Don't let a good thing like this get away from you.

Your feet encased in a pair of **R. K. L. & CO., or Pingree Shoes** insures comfort and satisfaction, at a reasonable price for the Best Goods. You cannot afford to buy any other.

Our New Line of Ladies' Suits, Coats and Skirts, and Children's Coats is the largest and Best ever shown in this section. All new and Up-to-the-Minute in style and the prices are what we always give—The Lowest.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Night Cure is the Local.

Dr. Shoop's Restorative, the Constitutional.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all worn, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, causes nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

Hon. H. R. Pattengill spoke to a large audience at the M. E. church Tuesday evening. The attendance was not only of our town citizens but also of rural districts. Mr. Pattengill gave a stirring, instructive and entertaining address on "Gum-

ption." Mr. Bailey representative of the Traveling State Library was also present and spoke of the free libraries. We trust our citizens are having enough gumption to grasp such a splendid opportunity and place within their reach and own benefit the possibility of good clean literature.

Tickling, tight coughs, can be surely and quickly loosened with a prescription druggists are dispensing everywhere as Dr. Sloop's Cough Remedy. And it is so very, very different than common cough medicines. No opium, no chloroform, absolutely nothing harsh or unsafe. The tender leaves of a harmless, lung healing mountain shrub, gives the curative properties to Dr. Sloop's Cough Remedy. Those leaves have the power to calm the most distressing cough and to soothe and heal the most sensitive bronchial membrane. Mothers should, for safety's sake alone, always demand Dr. Sloop's. It can with perfect freedom be given to even the youngest babes. Test it yourself and see! Sold by C. H. Prescott & Sons.

The lecture last Monday evening, by Hon. H. R. Pattengill, at the church was well attended in spite of the bad weather. Mr. Pattengill can certainly enlighten and awaken the most sluggish mind, and to say that his talk was most pleasing and appreciative is but slightly hinting at the true facts. Many expressed a desire that he might talk all night and that he may come again in the near future.

The old, old story, told times without number, and repeated over and over again for the last 36 years, but it is always a welcome story to those in search of health—There is nothing in the world that cures coughs and colds as quickly as Chamberlain's Cough Remedy. Sold by Red Cross Pharmacy.
