## FATHER AND SON BADLY BURNED

### M. A. Sommerfield and Son, George, Receive Serious Burns While Saving Furniture from Burning Home

Another disastrous fire occurred in Tawas City last Sunday morning. M. A. Sommerfield's home was practically destroyed and Mr. Sommerfield and son, George, suffered serious burns. At about six o'clock Mr. Sommerfield, who was on his way to the barn glanced back and saw smoke coming from under the roof of the house. He ran back to the house and gave the alarm. Mrs. Sommerfield immediately went over to Bert Fowler's home and had Mrs. Fowler send in the fire alarm. Neighbors began to gather, but by the time the fire engine had arrived the fire was raging. Through the efforts of the family and the citizens present most of the household goods were saved. Mr. Sommerfield and George were trying to save the remaining articles of furniture in an upstairs bedroom when the chimney fell, smashed through the ceiling and pinned them to the floor underneath the weight of brick and the burning ceiling. They struggled free and finally reached the lower floor and went out of doors, when it was found that they were both seriously burned about their heads and hands. Drs. Case and Pochert were present and rendered first aid. Sunday evening they were taken to the Samaritan hospital where it is expected they will have to remain for several weeks. Mrs. Sommerfield, who was at Bay City, Wednesday and Thursday with them, said that they were improving.

### NOTICE

To Whom It May Concern:  
I hear the story is being circulated that it will take from \$50.00 to \$100.00 to open sewers and catchbasins that were put in when the new pavement was laid. There is not one sewer or catch basin that is not carrying off water. There has been a lot of talk because I filled in under the sidewalk in front of H. Kane's garage. Did the ones that are doing all the talking ever look up to see what it cost the city for all the water that was used on the pavement construction? If you have not, you had better do so. You will find that I saved the city money by fixing this sidewalk.  
Signed B. C. Bowen,  
Street Commissioner.

### AN OPEN LETTER

Mr. H. N. Butler, East Tawas, Mich.  
My Good Friend and Neighbor—  
I want the world to know what a good time we had at your party (Republican Caucus) last Monday evening. As chairman of the meeting you were very courteous and kind. The race for offices was one-sided as usual. Naturally the surprise of the evening, to me at least, was placing my name on the ticket for city clerk. And by the way Herman, if you elect me city clerk, I will try to give the office the once over at least, the same as you did when you were mayor.

Maybe you don't know about another ticket in the field but there happen to be all that. They tell us competition is the life of trade and if its clean that makes it all the better. And no matter what candidate you elect for clerk the folks in Tawas City will have to stand for him during working hours. Of course they have had that trouble in their hands for years so they are rather used to it.

Now I don't own a newspaper, so my space is limited, but if you will agree to be good, maybe you will tell the folks around home just how strong you are for Mr. Collidge, and who broke the steering gear at your party caucus.

You humble servant,  
advertisement Chas. F. Klump.

## LOSES INSURANCE LICENSE

### Hands Declares Little Guilty of Misrepresentation

Last Saturday Rep. L. S. Little of this district was deprived of his license to sell insurance by L. T. Hands state insurance commissioner. It was alleged that in a letter to I. F. McEvoy, an Alpena insurance man, Little misrepresented himself by signing the communication "L. S. Little, Dept. Ins." Little denied that he had signed the letter in his manner. A handwriting expert, however, testified that the abbreviated words, "Dept. Ins." written under the signature were written by our legislator. Representative Little in an interview with a Herald representative, said:  
"In August, 1923, I learned that an agent for another company had discouraged some of my policy holders and had sold the policies in another company. One of the policy holders had dropped a policy worth \$100 to me and had been in my company four years."

"I endeavored to get in touch with the other agent and to that end left a note in a drug store 'Would like to meet you tomorrow at ten a. m.' and signed it. The other agent met me and we went to see the policy holder and everything was adjusted."

"A month later this note showed up at the Department of Insurance the same note and everything but had under my name 'Dept. Ins.' in a very small hand writing. This is all the other agent said it was on the note when he received it and I said it was not."

"Commissioner L. T. Hands treated it very lightly all fall and said on different occasions that it was such a trivial matter that he would not use the Departments time or go to the expense of investigating it."

"At the special session it was brought up to me and I did not look at it serious enough to think the governor could instruct Hands or that Mr. Hands would go so far as to cancel my license to do business, but this is what took place."

Little says that he has made application for a license to sell insurance for this year and that if it is not issued he will appeal he case.

### SUPREME COURT DECIDES IN FAVOR OF GYPSUM COMPANY

The State Supreme Court recently decided the case of the U. S. Gypsum Company vs. Christensens, in regard to the occupancy of the highway leading to the lake where the store built by Thomas Sheldon now stands, in Alabaster.

The court found, as the testimony on the trial showed, that the land was owned by the Company; that the township was entitled to the use of it as a public highway, but the township had no right to give away that use to private parties, and had no right to deprive the land owner of its use and ownership; also that the Kinney Brothers, in the first place, were simply permitted to use it by the town board as an easement to saw out some lumber, but that act did not constitute and abandonment of the highway, and if the highway was abandoned the land would revert to the owner, and that the board could directly give it away. The court directed or indirectly give it away. The court directed that judgement should be entered for the plaintiff, the company.

CLAIMS AGAINST MEXICO HEAVY

LOSSES THROUGH REVOLUTIONS BY U. S. CITIZENS AMOUNTS TO \$100,000,000.

PROVIDE FOR COMMISSIONERS

Americans to Claim Damages Under Conventions Made Last Summer By C. B. Warren.

Washington—Claims in excess of \$100,000,000 against the present Mexican government for damages suffered during the various revolutions and uprisings since 1838 will be filed with the state department at Washington by American firms and individuals shortly after the commission to be appointed under the special and general treaties now in force between the two countries has started to function.

The conventions or treaties under which claims for damages to American property or individuals may be filed were negotiated for this government last summer in Mexico City by Charles B. Warren, of Detroit, now ambassador to Mexico, and John Barton Payne.

The terms of the treaties provide for the appointment of one commissioner by the United States, one by the Mexican government and a third by mutual agreement. If the latter is not chosen within two months after the other two he is to be selected by the president of the permanent court of arbitration at The Hague.

That other countries intend to take action similar to that of the United States in trying to recover losses of their citizens has already been indicated by the claim of \$5,000,000 filed by the Mexican subsidiary of the Royal Dutch company on account of damages incurred during the late De La Huerta uprising.

Under the general treaty, which was finally ratified in Washington on March 1, all claims will be adjusted excepting those arising from acts incidental to the recent revolutions. These not only include claims against Mexico but also those against the United States by citizens of Mexico. The specific provisions for the collection and payment of these claims in general follow the provisions of the special treaty.

International bankers point out that if it is finally decided that Mexico should pay to American citizens claims against it aggregating more

than \$100,000,000, the collection of the State of Michigan, and that it is now unknown whether he resides in this state or some other state at the present time.

On motion of John A. Stewart, attorney for plaintiff, it is ordered that the defendant, Oliver D. Germany to Hold General Election in 60 Days.

Berlin—The German Republic today faces new general elections, following the order of President Frederick Ebert, dissolving the Reichstag, which came into existence nearly four years ago.

Under the provisions of the constitution, Chancellor Marx's cabinet continues to function, as do also the foreign relations committee, the Reichstag supervising committee and other necessary government commissions, until after the general elections. These must be held within 60 days, when the new Reichstag will assemble and elect a new government.

The date of the election has not been chosen, as much depends on the attitude of the Inter-Allied Rhineland Commission concerning elections in the occupied territory, where campaigning and similar political activity is prohibited by decree.

The question of dissolution was brought to a head by the insistence of the Socialists and Nationalists under their constitutional rights to urge amendments to the Special Powers

BERGDOLL, DRAFT DODGER, TO RETURN

LEGION'S TERMS FOR SURRENDER ARE ACCEPTED—WILL SERVE HIS SENTENCE.

PICKS SHIP ON WHICH TO SAIL

Veterans' Invitation Explained As "Stand for Law and Order"—"To Make Clean Breast."

New York—Grover Cleveland Bergdoll, convicted during the war as a draft evader, has agreed to return to America to serve his sentence in a federal prison, it has been announced here by Norman Hapgood. Bergdoll will return at the invitation of the American Legion, which, through John Quinn, national commander, issued a statement, declaring the legion had been accused of attempting to kidnap Bergdoll and it was time "to show the world" that the organization stood for "law and order."

The legion's offer was made by Leighton H. Blood, a member of the organization who said he went to Germany to carry out a plan mapped out by Garland W. Powell, national director of the legion's Americanism commission and Lemuel Bolles, national adjutant.

Blood said he was violating no confidence in giving a summary of the terms to Bergdoll.

"Bergdoll must come back. He must serve his sentence. The American Legion is not so much interested in Bergdoll as in the men who helped him escape from America. Let's bring Bergdoll back and have him make a clean breast and tell who the enemies in our own camp are. Then let him do his bit in prison. After that give him his money and let him go his way."

Mr. Hapgood said Bergdoll had sold his automobiles and other property in Germany and even selected the ship on which he wished to return to America.

Bergdoll has earned the appellation of "America's most notorious draft evader."

Every move he made to evade army service added to his notoriety and to his daring there was a cunning that took him safely beyond the reach of the United States government.

He reached that security through his sensational escape from two army guards on May 21, 1920. He was on his way from his mother's home in Philadelphia, and had stopped on his

**Increasing the Value of Telephone Service**

The Michigan Bell Telephone Company always is building—always expanding its service in order to efficiently serve the growing needs of Michigan.

Last year the Michigan Bell Telephone Company's expansion was one of the greatest in Michigan's telephone history—and that program is being continued.

108,984 miles of new telephone wires were installed during 1923; 98,501 miles to give additional local service; 10,483 miles of toll and long distance wires.

1,110,369 miles of wire now connect the telephones of this Company's subscribers.

96,805 new telephones were connected with the switchboards of this Company, for a net gain of 36,117, during 1923; 49,686 were added through the purchase of another company, both factors greatly increasing the value of the service to every telephone user in Michigan.

More than 437,000 telephones reserved by this Company over its own switchboards; its connecting companies in Michigan serve 112,049 more; 14,000,000 others can be reached elsewhere in the country. \$10,320,380 represents the total increase of telephone plant made by this Company in Michigan last year.

And an organization of 10,279 loyal telephone workers now serves Michigan. It is their unanimous desire to give the people of our state the highest possible grade of telephone service.

**The Real Economy**  
 —the Safe Kind that Pays Dividends

There are two kinds of economy in regard to farm implements.

One is seeming economy; the other is real economy.

Seeming economy looks mainly to first cost; real economy looks ahead at final results.

Seeming economy sees only the dollar going out; real economy sees the dollar coming back—with interest.

Seeming economy urges one to try to save money by doing without a needed implement or by trying to prolong the life of a hopelessly worn-out implement by hazardous makeshift methods.

Real economy urges one to figure on the benefits that outweigh the price of needed new equipment—to buy the equipment that saves time and labor, reduces costs of farming operations, increases yields and brings a greater net profit per bushel, ton or bale.

Our store is a service station on your road to real economy—the kind that makes farming easier and more profitable.

You have the needs; we have the equipment to meet those needs. Come to our store and let us figure out the relation for you in dollars and cents

Remember, the only thing costly about needed implements is trying to get along without them.
