5. Passenger Sedan
Non \$1605

Now you can afford to make that dream a reality! To own and drive this luxurious sedan, powered by the same type of engine used in Europe's finest cars. Silently gliding sleeve valves instead of hammering cams and clicking poppet valves. An engine that improves with use! An all-season car you'll want to drive season after season. For no Willys-Knight engine has ever been known to wear out.

92 New Threats Against Service

It may surprise you to know that the present Congress * of the United States has already before it for consideration no less than ninety-two bills, each proposing to further restrict Railroad activities.

So wide is the scope of this proposed legislation, and so serious are many of its threats, that the Railroads have been forced to shape their affairs accordingly, as mariners take in sail when storm clouds the horizon.

Michigan's 24 steam railroads are today holding in suspense plans for the expenditure of large sums of money, pending legislative action on these ninetytwo bills.

These expenditures, if released, would go into labor and materials-into Prosperity and Better Service.

Is it wise or just to thus threaten and impede the efforts of any honest business?

How would you welcome ninety-two additional threats against your independence of action in the pursuit in which you are yourself engaged?

We invite any thought on this matter which you care to express.

Michigan Railroad Association

508 Railway Exchange Bldg., Detroit, Mich.

A Welcome Member of the Family

A MOTOR car is never more appreciated than in the springtime. Its convenience and enjoyment are shared by all the family—and by speeding up the day's work, it provides more time for recreation.

A Ford Touring Car provides every motor car essential at the lowest price for which a five passenger car has ever sold-a price only made possible by complete manufacture, in tremendous volume, in the largest and most economically operated plants in the automobile industry.

Efficiency of manufacture is accurately reflected in the quality and price of the Ford Touring Car.
