## TAWAS CITY WINS ANOTHER FROM E. TAWAS

	W	L	Pct.
Omer	9	0	1.000
Standish	6	2	.750
Tawas City	4	4	.500
Oscoda	4	5	.444
Alabaster	2	8	.200
East Tawas	1	7	.125

**Last Sunday's Results**  
Tawas City 2; East Tawas 1.  
Ome, 3; Oscoda 2.  
Standish 8; Alabaster 6 (10 innings)

**Next Sunday's Games**  
Tawas City at Standish, 2 games  
Omer at East Tawas  
Oscoda at Alabaster

Walt Moeller and Oxel Johnson staged a pretty pitcher's duel at the fair grounds Sunday with honors even. But it was the supporting cast that decided the game. Although each team made four errors it was the two errors made by J. Noel in the ninth inning coupled with Jack Johnson's fast baserunning that tucked the home boys third game from their eastern neighbors in the bag.  
Jackson was on third and handled the bag in very good style. Johnson played first like a veteran and Libka took Jack's place in center. These changes made necessary by the non-appearance of some of the boys.  
The boys are going to Standish next Sunday to play a double header with the team there and if they can grab both games we will be tied with Standish for second place. Why not all go over to Standish Sunday and have a basket supper after the games. A number of the fans are going and our boys would like to have several carloads go over to help win two from Standish. Come on and get into the spirit of it. The team is showing you good baseball. Show them that you appreciate it.  
It has been requested by the Standish manager to start the first game of the double header at 12:45 Central Standard time.

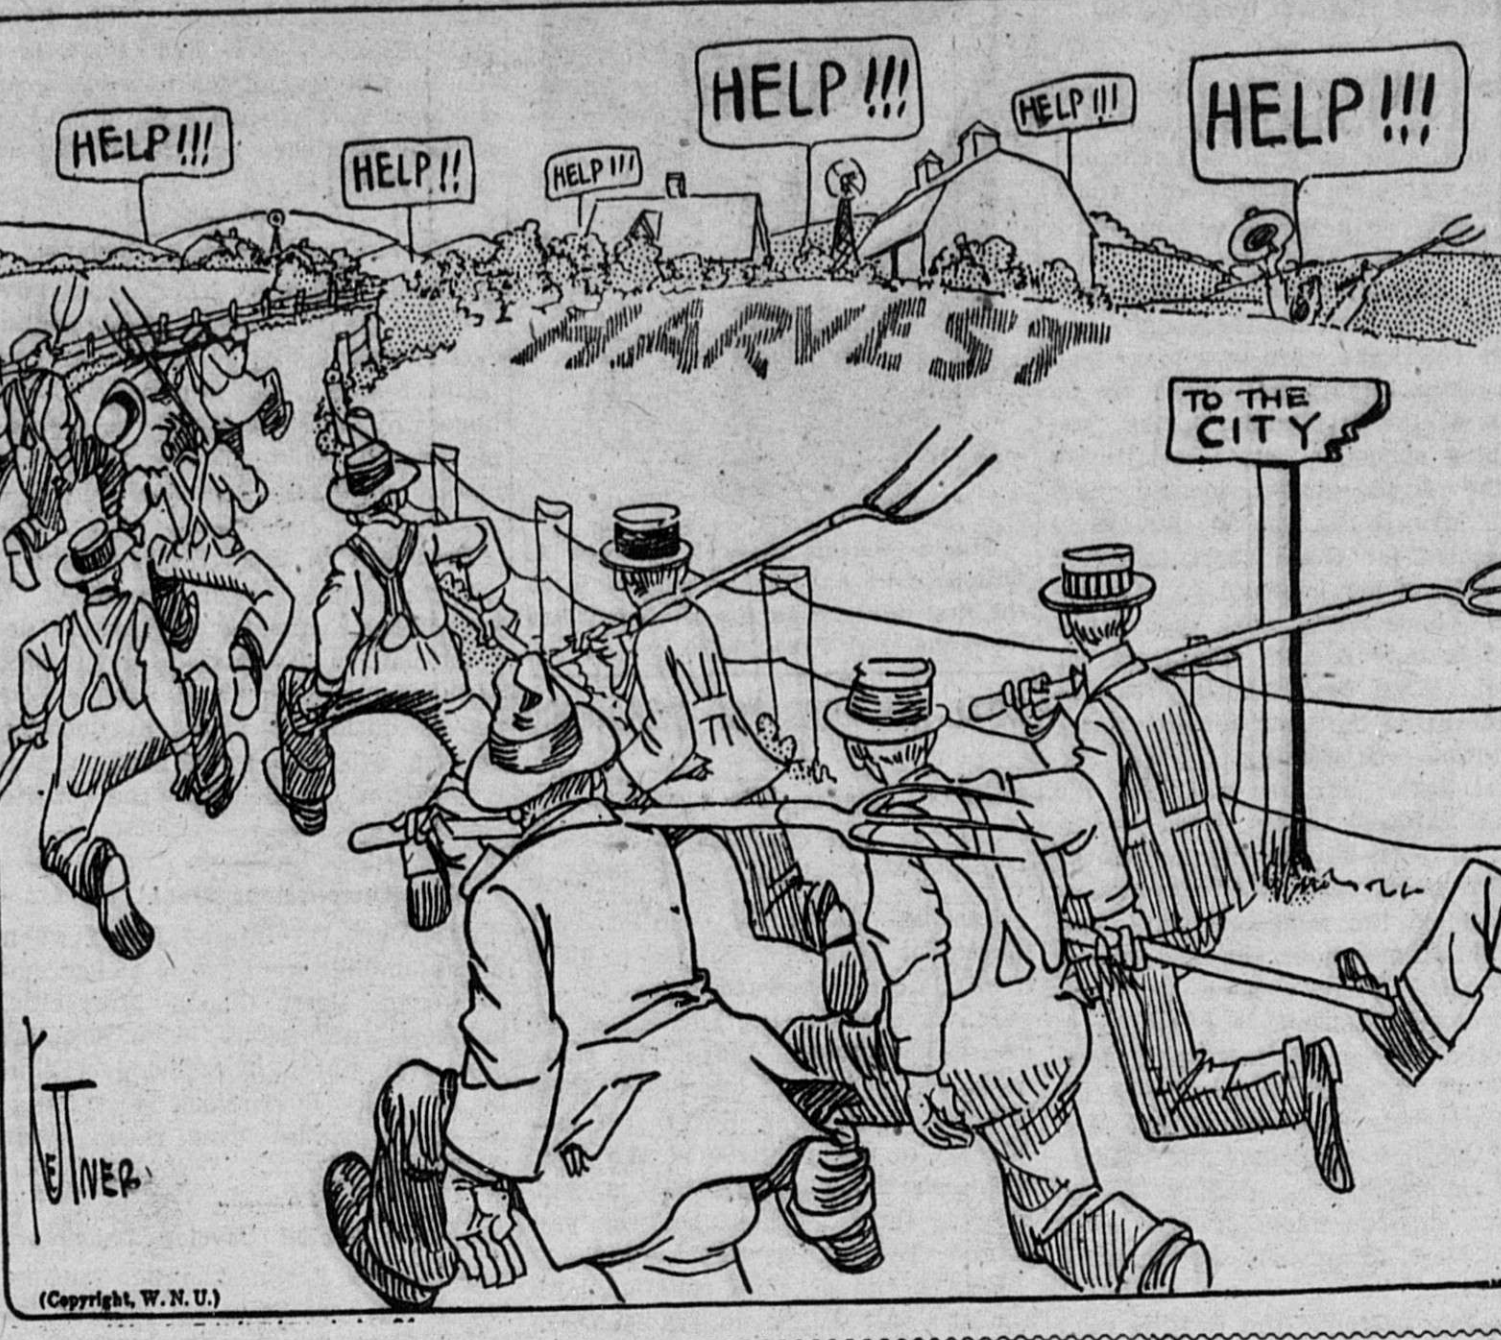

**Score by Innings**  
First Inning, East Tawas—Smith fanned. Case popped to Musolf. Jackson got Boldt at first. No run, no hit, no error.  
Tawas City—Musolf grounded to Zink. Johnson singled. Moeller singled Johnson to second. Johnson scored on Syze's double. Musolf ran for Syze from first each time. Jackson popped to J. Noel. Klenow got Libka's fly. One run, three hits, no error.  
Second Inning, East Tawas—Zink grounded to Syze. J. Noel singled and stole. McMurray popped to Syze. Klenow singled J. Noel home. Moeller got Barkman at first. One run, two hits, no error.  
Tawas City—Allen grounded to J. Noel. Boldt safe on Zink's error. Swartz advanced him to second with a single. Musolf's bunt was a hit filling the bases. Johnson forced Boldt at home. Moeller fled deep to Barkman. No run, two hits, one error.  
Third Inning, East Tawas—Johnson grounded to Musolf. Smith singled, took second on a wild pitch and third on a passed ball. Case fouled to Allen. Boldt fanned. No run, one hit, no error.  
Tawas City—Syze grounded to Zink. Jackson doubled to right center. Libka fled to Smith. Allen whiffed. No run, one hit, no error.  
Fourth Inning, East Tawas—Zink singled. J. Noel flied deep to second. McMurray singled Noel to second. Klenow flied deep to Boldt. Barkman hit to Jackson who held the ball while the runners filed the bases. Johnson fanned. No run, three hits, no error.

## INTERESTS INCREASING IN COUNTY FAIR

During the past few days an increasing interest is being taken in the coming county fair. Many people are now planning their exhibits and this year's fair, promises to bring out a large number of exhibits.  
The poultry department is of particular interest. Superintendent McCrum of the poultry department in a communication to the Herald, said: "With only about six weeks until fair time, the buildings are being put in shape to hold a bigger and better show than ever before. In the poultry building we are putting in six dozen new single coops which fill the down stairs, and upstairs one dozen large coops for cooping the farm flocks. This is a new class and will be one of the best of the show. The entire poultry building will be painted white inside.  
"There will be a care take, in the poultry building this year, who will have nothing to do except care for the poultry, keep the coops bedded and the birds watered and fed.  
"The new class "Farm Flock" shall consist of six hens or pullets of any breed, to be judged from a production standard. This is a practical class and along the lines advocated by the Agricultural college. Pick out six of what you consider your best layers and enter them, get the benefit of an expert opinion of them. We will try to have the same poultry expert we had last year to judge.  
"We will have a nice display of the "Iosco County Poultry Club" birds, they will all be cooped together under proper advertising.  
Don't forget that this club display will be the ideal place to buy a pure bred cockerel to use in improving your flocks.

## COUNCIL VOTES TO ACCEPT PLANS FOR CITY HALL

Last Friday evening the common council voted to accept plans for the city hall drawn by Robert E. Bickel, architect of Bay City. The building is to be 44x60 feet, with basement, and of brick and tile construction. The main floor to contain fire department, council chamber, committee room, clerk's office, voting room and vestibule. The building is to be fitted with toilets and lavatories.  
The plan that the aldermen decided to accept called for one story which would have probably been ample for the city's needs for many years. However, during the past few days many citizen's of the city have expressed their opinion strongly that the city should have a two story building. A special election will be undoubtedly called to decide this question.  
The second story would give the building a much better appearance and would provide a large auditorium but would nearly double the cost of construction.  
Estimates made by Architect Bickel on the one story plan accepted by the city council gave the cost at about \$12,000.

## COUNTY TOURED BY DEMOCRATIC CANDIDATES

Edward Fernsdorf of Hudson, democratic candidate for governor; Dean M. J. Cooley of the University of Michigan, democratic candidate for United States senator and Wm. A. Comstock of Detroit, national committeeman, in making their tour through Northeastern Michigan were at Tawas City and other points in Iosco county Monday and Tuesday.  
Mr. Fernsdorf in his campaign for governor pledges to make a reduction in operating expenses of Michigan's government of at least one-third. His pledge is backed with his exceptional record as warden of Jackson prison. During his incumbency of that office he placed the institution on a paying basis. Instead of requiring the usual large appropriation for running expenses, a profit was returned to the state. This remarkable record will undoubtedly be considered by the voters of the state. Mr. Fernsdorf is a successful businessman and banker.

**DANCE AT COMMUNITY HOUSE, EAST TAWAS**  
Dance at Community house, East Tawas, Monday, August 4th. Music by Michigan Merry-makers of Flint. Bill \$1.00, extra lady 25 cents.

Mr. and Mrs. Earl St. Martin and daughter, Natsie of Flint are the guests of Mrs. A. Noble for a few days. Mrs. St. Martin was formerly Miss Lillian Noble.

## PLEASED AUDIENCES GREET CHAUTAUQUA

The eleventh Iosco county Chautauqua which closed Thursday evening was enjoyed by large audiences, notwithstanding the heavy rains of the week. This season's program proved exceptionally pleasing to Chautauqua goers.  
The opening number given Sunday evening by Leake's Entertainers was a fine, well balanced musical program.  
On Monday afternoon the Mordelia Trio, headed by Pietro Mordelia, gave a novelty musical program of piano-accompanion and violin numbers which were highly enjoyed by the audience. The evening, with a prelude by the Mordelia Trio, was taken up by Capt. Kilroy Harris in a lecture on his 10,000 miles of travel in Australia. Capt. Harris is a native of Australia and his lecture proved to be entertaining and educational.  
The entertainment Tuesday afternoon was opened with a prelude by the Mac Murray-Kackley Players. The feature of the afternoon was a lecture by Arthur MacMurray, "The Confessions of a Lunthead." The audience was given a better understanding and fuller appreciation of literature.  
"Two Blocks Away" given Tuesday evening by the MacMurray-Kackley Players was accredited by many to have been one of the best Chautauqua numbers ever given in this city.  
Woldemar Geltch on Wednesday afternoon and for the prelude in the evening gave two violin recitals. Alexius Baas, bass baritone, was ill and unable to take his part in the program. The lecture, "The Borderland," by Dr. Y. Minakuchi, Japanese lecturer, presented a new viewpoint to one of the absorbing questions of the day.  
The children of the community have greatly enjoyed the Junior Chautauqua with their meetings held in the morning. Their part of the program was given Thursday afternoon which was well received. Each child was presented with a harmonica and on leaving the tent after the performance they were well used.  
The Black and White Ma'e Chorus gave a fine concert after the music dramatization. The audience was so pleased with concerts and endorsed so heartily that they had to be reminded that there would be another concert in the evening.  
The grand concert and minstrel sketch in the evening was given to a well crowded tent. Thursday was one of the big days on the program and the people of the Tawas were well pleased with their performance.

## MALCOLM MORRISON

Malcolm Morrison died at Bay City Saturday afternoon of heart trouble at the home of Mr. and Mrs. A. R. Biggam, 203 Chilson avenue.  
Mr. Morrison has been ailing for several months with his left foot and has been confined to his home for several weeks under the doctors care. He went to Bay City July 4th for medical aid and where he has been until death came Saturday.  
Malcolm Morrison was 67 years old. He was one of the best known railroad men in this section of the state. He was for many years conductor on the D. & M. Railroad and was respected by all who knew him.  
About four years ago he was appointed yard master for the railroad at East Tawas and served in that capacity until illness forced him to quit.  
He was born January 31, 1857 in Montreal and was married at Harrisville 35 years ago to Annie Morrison, who was with him at the time of death. He was a member of the Masonic order at Alpena, The Knights of Pythias, Bay City, Consistory, A. A. S. R. and Elf Khuraef Shrine of Saginaw. Surviving him are his wife, Mrs. Anne Morrison and three children, Kenneth of Detroit, Russell R. and Percy Morrison of Bay City.  
Funeral services were held in Bay City Tuesday afternoon at 2:00 o'clock from the residence of his son, Percy Morrison, 211 Raymond avenue with interment in Elm Lawn cemetery.  
Mr. Morrison has been a resident of East Tawas for the past five years. The family has the sympathy of the community.

## 600 GATHER AT TAWAS ASSOCIATION PICNIC

About 600 former Tawas people attended the Tawas Association picnic of Detroit held at Belle Isle last Saturday. The usual Tawas enthusiasm was prevalent, and the only regret expressed was that there were not more hours in the day.  
The program of sporting events was carried out in full. Short talks were made by Rev. Edinger of East Tawas, Rev. Blackford formerly of East Tawas and Rev. King, whom many Tawas people will remember.  
A definite date for the "caravan" tour to Tawas was set for Thursday, August 21.

## BUILD NEW BRICK SCHOOL BUILDING

**STATE OF MICHIGAN, CIRCUIT COURT FOR THE COUNTY OF IOSCO IN CHANCERY**

Saloma Irvine, Plaintiff, vs. James A. Irvine, Defendant.

Suit pending in the circuit court for the county of Iosco in Chancery.

It satisfactorily appearing to this court by affidavit on file that the defendant, James A. Irvine, is not a resident of the state, but is a resident of the state of Ohio.

On motion of John A. Stewart, attorney for plaintiff, it is ordered that the defendant, James A. Irvine, cause his appearance to be entered herein within three months of the date of this order, and in case of his appearance that he cause his answer to plaintiff's bill of complaint to be filed and a copy thereof served upon plaintiff's attorney within twenty days after service on him of a copy of said bill and notice of this order; and that default thereof said bill be taken as confessed by the said defendant. And it is further ordered that within forty days of the date hereof the said plaintiff cause a notice of this order to be published in The Tawas Herald, a newspaper printed, published and circulated in said county, and that said publication be continued therein once each week for six successive weeks or a copy of this order served personally on the defendant named herein, at least twenty days before the time prescribed for his appearance.

Dated this 9th day of July, A. D. 1924. 9-7-24

N. C. Hartingh, Circuit Court Commissioner for Iosco County.

# Savings is Civilization

Invested capital is the bedrock difference between civilization and savagery. It was only when men began to consume less than they produce and saved a surplus that human progress could begin. What was true of the race is true of the individual. You can accumulate a surplus and this can help protect and keep it.

The Willys-Knight is a car you can keep and enjoy for years. A touring car with all the thrill of 42 horsepower—a car you can drive 50 miles and more an hour, hour after hour—without over-heating—without loss of power—without engine trouble—without carbon cleaning—without ever needing valve grinding.

The Willys-Knight sleeve-valve engine is the most powerful engine of its size ever built—and the quietest—and the only type of engine in the world that actually improves with use. It is common for Willys-Knight owners to report 50,000 miles and more without spending a cent for repairs on the engine.

## Political Advertising

To THE PEOPLE OF IOSCO COUNTY:  
Again I appeal to you for your support at the coming primaries. Not on some promises I may make, but on achievements in the last session of the legislature. I supported the Gas Tax and voted for it twice. First, when it was passed by the house of representatives and again when we tried to pass it over the Governor's veto.

Also the primary school fund bill which would have brought to Iosco county almost three times the school money we are now receiving. This bill was killed in the Senate by pressure from the heavy populated centers of the state.

The Anti-Discrimination Bill which gives the farmers' elevators and shipping associations protection, was one of the bills advocated by me. This is now a law in Michigan.

I voted for the repeal of the Farm Crop Report whereby Wall Street would be advised six months in advance just what you were going to plant or produce the coming year.

I was the first man ever to introduce and secure passage of a bill limiting the acreage that could be fenced by a private shooting club including our beautiful lakes and streams which are property of the state and exclude the public therefrom.

At the special session called by the Governor for the re-apportionment of the voting strength of the House and Senate, I stuck to the people who elected me, when it came to giving the control of our state government over to Wayne county or Detroit. I believe that Michigan's backbone is its agriculture and when you give the reins of our state government over to the floating industrial population our rural sections will suffer for better conditions, and I believe it is bad enough now. This I voted against at a big sacrifice, as you all know. However, I believe I was right in doing so, and I again assure you that if elected to the Legislature of Michigan, I will be the representative as I have been in the past two years and be controlled by no man.

LLOYD S. LITTLE.

To THE PEOPLE OF IOSCO COUNTY:  
Again I appeal to you for your support at the coming primaries. Not on some promises I may make, but on achievements in the last session of the legislature. I supported the Gas Tax and voted for it twice. First, when it was passed by the house of representatives and again when we tried to pass it over the Governor's veto.

Also the primary school fund bill which would have brought to Iosco county almost three times the school money we are now receiving. This bill was killed in the Senate by pressure from the heavy populated centers of the state.

The Anti-Discrimination Bill which gives the farmers' elevators and shipping associations protection, was one of the bills advocated by me. This is now a law in Michigan.

I voted for the repeal of the Farm Crop Report whereby Wall Street would be advised six months in advance just what you were going to plant or produce the coming year.

I was the first man ever to introduce and secure passage of a bill limiting the acreage that could be fenced by a private shooting club including our beautiful lakes and streams which are property of the state and exclude the public therefrom.

At the special session called by the Governor for the re-apportionment of the voting strength of the House and Senate, I stuck to the people who elected me, when it came to giving the control of our state government over to Wayne county or Detroit. I believe that Michigan's backbone is its agriculture and when you give the reins of our state government over to the floating industrial population our rural sections will suffer for better conditions, and I believe it is bad enough now. This I voted against at a big sacrifice, as you all know. However, I believe I was right in doing so, and I again assure you that if elected to the Legislature of Michigan, I will be the representative as I have been in the past two years and be controlled by no man.

LLOYD S. LITTLE.

**Copper the Unique**  
Copper is unique among the metals and, if possible, we would say "big unique" at that. It is the most ancient of all the minerals, far antedating all authentic history. Excavations in Egypt have disclosed copper tools and utensils which were in use before the building of the pyramids. Its industrial importance has grown without a lapse throughout the ages until, today, it is developing more rapidly than ever. Thus, as copper has dominated the past, so it will probably dominate the future; and its complete history can never be written as both ends of the story reach far away into invisibility.  
Not only do we find limitations in the history of copper as related to its uses by man but, in discoursing on its other relations, the same difficulties occur. Copper is a typical and phenomenal "mixer." It is found associated in one way or another with a great variety of substances. It exists in most soils and in ferruginous mineral waters; and all copper ores are always associated with something. It has been discovered in seaweed, in straw, hay, eggs, cheese, and meat—in short, in the liver and kidneys, and traces of it have been found in the blood of man and animals.—Compressed Air Magazine.

**Mosaic Glass**  
Mosaic glass is produced by arranging vertically side by side threads or small canes of variously colored opaque or transparent glass, of uniform lengths, so that the ends shall form a ground representing flowers, arabesques, or any mosaic design. This mass is now submitted to a heat sufficient to fuse the whole, all the sides at the same time being pressed together so as to exclude the air from the interstices of the threads. The result is a homogeneous solid cane or cylinder, which, being cut at right angles or laterally, yields a number of layers or copies of the same uniform design. This process was practiced with great skill by the ancients, who are supposed to have produced pictures in this way; but in existing specimens the pieces have been so accurately united, by intense heat or otherwise, that the junctures cannot be discovered by even a powerful magnifying glass.

**TAWAS CITY WINS ANOTHER FROM EAST TAWAS**  
Tawas City—Boldt grounded to J. Noel. Swartz flied to Klenow. Musolf popped to J. Noel. No run, no hit, no error.  
Fifth Inning, East Tawas—Smith flied to Boldt. Case walked. He was caught off first. Allen to Johnson to Musolf. Boldt was safe on Jackson's error. Zink singled him to second. J. Noel grounded to Syze. No run, one hit, one error.  
Tawas City—Johnson grounded to Case. Moeller flied to Smith. Syze grounded to Zink. No run, no hit, no error.  
Sixth Inning, East Tawas—McMurray flied to Syze. Klenow was safe when his grounder got through Syze. He took second when Allen's throw to first went wide. Jackson took care of Barkman's grounder. Johnson grounded to Musolf. No run no hit, two errors.  
Tawas City—Jackson flied deep to Barkman. Libka singled. Allen and Boldt fanned. No run, one hit, no error.  
Seventh Inning, East Tawas—Moeller took care of Smith's grounder. Case fanned. Boldt singled. Zink grounded to Syze. No run, one hit, one error.  
Tawas City—Swartz fanned. Musolf flied to Barkman in deep right center. It was a good catch. Johnson was safe when McMurray dropped Zink's throw. Jack stole. Moeller fanned.  
Eighth Inning, East Tawas—Noel fanned. Allen dropped the third strike but got his man at first. Jackson threw out McMurray. Klenow fanned. No run, no hit, no error.  
Tawas City—Syze singled. Jackson forced him at second. Libka fanned. Allen bunted a safe one. Boldt popped to Zink. No run, two hits, no error.  
Ninth Inning, East Tawas—Barkman walked. Johnson was safe when his grounder, got away from Syze. Smith forced Johnson. Syze to Musolf and Mart doubled Smith at first. It was a snappy play. Case popped to Syze. No run, no hit, no error.  
Tawas City—Bratt batted for Swartz. Noel dropped Bratt's easy pop. Musolf flied to Barkman. Johnson forced Bratt and stole second. It was exactly the same lay out as in the seventh inning when Moeller fanned. This time he slammed a grounder at Noel just as Johnson was stealing third. Noel threw the ball into the dust at first. It bounded into McMurray's mitt and then out again while Moeller crossed first and Johnson scored the winning run. It was the end of as good a game as the fair grounds has staged in many years. The pitchers were doing so well that it was just a question of which defense would crack first.

**BASE BALL NOTES**  
The season is half over but as Tawas City has two postponed games the standings show eight only. Alabaster is the only team that has played its full quota.  
Only an earthquake or some other dire possibility can keep Omer out of first place now. Some team is going to clean them but we don't think enough will do it to knock them off the top rung.  
Alabaster, has very obligingly lost three overtime games this year, two to Standish and one to Tawas City. Tawas City plays East Tawas at Tawas Beach on the tenth of August and then has five games at home, a double header with Oscoda being scheduled for the seventeenth.  
We understand that Alabaster has protested Sunday's game with Standish.

**STATE FARMERS DAY**  
Completion of the final plans for entertainment of the thousands of Michigan farmers and their families who will gather at M. A. C. on Friday, August 1, for the annual Farmers Day at the college, was announced here this week.  
Exhibits are in place; blue ribbon animals in the college livestock herds have been given a final grooming; tour routes of inspection have been mapped out in detail, and the final arrangements for the general afternoon meeting have been attended to in preparation for the big day.  
With favorable weather conditions, a crowd of at least 5,000 is expected to attend the conference. That number have turned out for the past two years, and it is considered possible that a new attendance record may be set on August 1. Harvest conditions and the weather are said to be the determining factors in attendance.  
For the average visitor, the day's program will include inspection of the college experimental plots and buildings in the morning (following one of the marked tour routes), basket picnic lunch under the campus trees at noon, special exhibits after lunch, and the general speaking program and live stock parade in the afternoon.

**MARINES STILL SEEK RECRUITS**  
Due to the numerous applications of young men who desire to enter some branch of the service, a recruiting has been virtually suspended in all branches excepting the U. S. Marine Corps. This service still has openings for a limited number of men who desire to take advantage of the opportunities for travel, study athletic sport and the many interesting duties which the Marine Corps offers.  
It is probable that within a short period only men with previous service will be accepted, as vacancies are rapidly being filled and each recruiting district can accept only a limited number of men who are making their first application for service. Any fairly robust young man of good character has a good chance to qualify, and can learn full particulars by applying at the Marine Corps Recruiting Station, 508 Equity Building, Detroit, Michigan.

**"Heel of Achilles"**  
The Heel of Achilles refers to a vulnerable part. It is in allusion to the story that when Thetis, mother of Achilles, dipped him into the Styx to make him invulnerable, she held him by the heel so that the water did not touch it. Therefore his heel was the one spot in his body where he was vulnerable.  
**High Mansions**

**All Nations Chew Gum**  
The gum-chewing habit encircles the globe. The American soldiers introduced gum to the soldiers of the other nations engaged in the World war, who, in turn, took it to their countries. In this way chewing gum is now known in practically every country which has contact with the world.

**Political Advertising**  
ANNOUNCEMENT  
Every voter has an important duty to perform Tuesday, September 9th, at the primary election.  
Iosco County is a large corporation in which you are vitally interested as one of the stockholders and direct-ers. As such the privilege and responsibility will be yours of choosing by ballot the man you consider to be best fitted to manage the office of County Clerk.  
This important office is one which calls for constant attention and application. It is comparable to that of a bank cashier, frequent changes are not conducive to highest efficiency.  
The new Uniform Accounting System and other new plans have been inaugurated, which calls for the services of a man for county clerk who is familiar with the affairs of the office.  
And if the affairs of this office have been honestly and successfully conducted and every patron treated with courtesy and fairness by your present county clerk, as I believe I may modestly claim to have been the case, it would seem highly unwise to make any change in the management of the office at this time.  
In soliciting your influence and support in behalf of my reelection to the office of county clerk, it is with the strong assurance that your confidence will not be misplaced; and that if I am continued in this office the affairs of the same will be conducted with the utmost efficiency and economy.  
Thanking you for former favors, and hoping for your favorable consideration at the primary election on Tuesday, September 9th, I am with all good wishes.  
Respectfully yours,  
Frank E. Dease.

**Wonderful Piece of Luck**  
I was sitting on the back porch enjoying the soothing warmth of the sun on my rheumatic hands. The bright glare of sun prevented my reading, consequently I was holding the magazine between my face and the sun. Suddenly something struck the magazine and it dropped to the floor. It was a .32-caliber bullet. No report of a gun was heard and the bullet was spent. The magazine protected my face and eye.—Chicago Journal.

**Hardly Worth Looking For**  
His reasons are as two grains of wheat hid in two bushels of chaff; you shall seek all day ere you find them; and when you have them, they are not worth the search.—Shakespeare.

The final issue standeth sure.  
When right and wrong in conflict meet;  
Who fight for right may be laid low,  
But right knows no defeat.  
**FIRELESS COOKER DISHES**  
FOR the busy house-mother there is no convenience which is of greater comfort than a good fireless cooker. For a busy day, or a day away from home, or for a Sunday dinner, it alone is worth its cost.  
**Pot Roast With Potatoes.**  
Dress a three-pound roast on all sides in a hot frying pan. Sprinkle with salt and pepper and put it into the cooker kettle. Pour over a pint of boiling water and if the meat is not very fat add a little fat from tried-out suet. When boiling hot, from the stove, place in the cooker on a heated radiator and cover with another; both should be glowing hot. Cover and let stand in the cooker for three and one-half hours. One hour before serving open the kettle and drop in enough potatoes to serve the family—that have been cooking in boiling water long enough to become heated through. They will finish cooking if dropped into the broth beside the meat.  
**Chicken Pie.**  
Cook a chicken in boiling water in a cooker for five or six hours. When done remove the large bones, cut the meat into small pieces. Add to the gravy a pint of rich milk and thicken with two tablespoonfuls of flour. Season with salt, paprika and a little onion juice. Cover with a rich biscuit crust in the form of biscuits and bake in the caloric, using two hissing hot radiators.  
**Nut Bread.**  
Sift together two cupfuls of flour two teaspoonfuls of baking powder and a teaspoonful of salt. Add a cupful of milk, two tablespoonfuls of sugar, an egg well beaten and one-half cupful of nuts. Place the mixture in a bread pan and let stand for half an hour. Bake one hour, using two radiators.  
**Sour Milk Cake.**  
Add a cupful of sugar to two beaten eggs, a cupful of sour cream, a teaspoonful of soda, one and one-half cupfuls of flour, a teaspoonful of baking powder. Flavor with vanilla and bake forty-five minutes, using two radiators.  
For breakfast cereals, put the oat meal after boiling for ten minutes into the cooker with one heated stone and allow it to stand until breakfast-time. Reheat and serve. It will be well cooked.  
Soups and stews are especially good cooked in a cooker and will need only the boiling liquid in the kettle for heat.

These departments are State, War, Navy, Treasury, Justice, Postoffice, Agriculture, Commerce, Labor and Interior.

**Artificial Respiration**  
In a case of drowning, asphyxiation or electric shock one of the best ways to establish artificial respiration is the prone-pressure method, in which the rescuer lays the victim face down, straddles his thighs and with fingers spread over his lowest ribs presses them in unison with his own breathing.—Youth's Companion.

**Led in Use of Iron**  
Either the ancient Assyrians or Egyptians were the first to use iron. The earliest pieces of iron now known came from Egypt, but it is probable that the Assyrians were the first to use the metal freely in the manufacture of tools, weapons and ornaments.  
**Future Possibility**
