

COUNTY FAIR BEGINS SEPT. 9

MANY FREE VAUDEVILLE ACTS AT GOLDEN JUBILEE

Some of the Greatest Acts on the Circuits Will be Here to Help Entertain County Fair Patrons

Below is a completed description of the free acts which will be featured this year at the county fair. This is a new feature in connection with the 50th fair.

The oldest actor clown in the world will be master of ceremonies at the Iosco county fair, September 9, 10, 11 and 12. He is Archie Royer, who has been in active service as a clown for 52 years and played clown with old Dan Rice. Archie Royer is 63 years old and throws somersaults like a young acrobat of 15 years. He is the fastest man known for his age and three famous doctors have advised him he will live to be 130 years old. Mr. Royer has a track record of 100 yards in 11½ seconds and will startle you by turning a row of forward somersaults from his knees to his feet with a striking power of 1,000 pounds.

Another star attraction will be the Selbina Sisters, Englands greatest revolving globe artists. They walk revolving globes up and down inclines, spin ropes and do other sensational balancing. This act is sensational from start to finish and has been featured the past winter season in all the Keith theatres.

Another act will be Mirpath Selbina known as the cleverest woman in vaudeville. She is without doubt the most versatile lady performer in the show world and can do ten different and distinct acts. She spade juggles, dances, spins hats, swings baton, jumps up and down steps on a wooden spade and turns somersaults like an Arab and has appeared in every country.

Eugene Climax will also appear. She is known as the aerial cupid. She is the youngest of the Eugene troupe of aerial wonders, for years a feature with the Barnum Bailey shows. She is eleven years old. At the conclusion of her aerial ladder and trap act does 60 revolutions in 60 seconds suspended by her neck.

Included in the troupe of performers will be the three American Aces, formerly a comedy feature with Hagenbeck & Wallace shows. She does a screaming comedy acrobatic novelty act finishing with a lightning chase through a trick house equipped with trick doors and windows.

The supreme feature will be the Venus Adonis troupe of living statuary. This wonderful posing act is said to be the best of its kind and carries a ton of paraphernalia. Their pictures represent the best works of art shown at the Pan American Exposition. This beautiful act is worth going miles to see.

Pretty Barbara June the famous jazz dancer and skip rope artist will also be here. Miss June was one of the star attraction during the season of 1923 with Ziegfeld's Follies. No other fair can boast of this exclusive feature.

These acts are all clean, refined and acts that will not offend anyone. The fair officers have taken every precaution to avoid any acts that are not clean in every respect.

These acts have been booked at a great expense and will appear twice daily, afternoon and evenings, in front of the grand stand without any extra charge to patrons of the fair.

LARGE NUMBER OF AGRICULTURAL EXHIBITS WILL BE SHOWN AT BIG FAIR

Fair Officials Invite Everyone to Take a Part and Help Make Big Golden Anniversary Fair a Success

The time for the 50th annual fair is near and whether or not it is a success depends on the support it receives from the people.

The officers have made plans for an abundance of entertainment and their plans have been carried out but fairs such as will be put on to celebrate the 50th anniversary of the association can not be continued without liberal support.

A fair is not a success unless there are displays in the various departments and arrangements have been made to take care of them. With the building of a new floral hall last year it gave us plenty of room in the old hall for poultry. This year we are improving the cattle barns and building an up-to-date sheep and hog pen so we have facilities to take care of any class of exhibits and no matter where you live, try and bring something to the fair.

Even those in town who have only a garden can bring something and every entry will help to make our fair a real exhibit of produce.

Then the poultry department has several club members in town who can make exhibits. No matter where you live help boost the exhibits yourself and do what you can to interest others.

We look for some fine exhibits in baked goods and dairy products which will be protected with glass so they can be kept clean and be in view.

The entertainment will be the usual horse races; motorcycle races are on the last day. Five machines have promised to enter so this will be a real race for lovers of speed.

The midway will have two and perhaps three riders and several shows. There will be a 23 piece band to furnish the music and as a new feature we have booked seven big free acts which will appear in front of the grand stand afternoons and evenings.

These acts alone are worth the price of admission. Possibly there will be an aeroplane to carry passengers but it is not certain at this date.

A kite flying contest on Wednesday for liberal premiums will interest the young folks who will be admitted free that day.

The fair is worthy of your support, so help boost it and make it a success.

HAULING CONTESTS GIVE 'THRILL' AT FIRST FAIR

Fine Display of Agricultural Exhibits and Large Attendance Marked Initial Effort of Agricultural Society

On August 20, 1874, about thirty citizens of Iosco county gathered at the court house for the purpose of organizing a county agricultural society. The purpose of the society was to "encourage agriculture and the industrial arts in the county." At that time farming was in the experimental stage in the county and to some extent had been discouraged by false reports circulated that the soil of this section was not productive.

At the first meeting the preliminaries of organizing the society were effected, committees were appointed and at a meeting held September 8 of the same year the organization was completed. The following officers were elected: C. H. Whittemore, president; Sylvester Vaughan, vice-president; W. C. Stevens, treasurer, and H. E. Hoard, secretary. It was decided at this time to hold a fair the coming year.

The first fair of the Iosco County Agricultural society commenced Thursday, September 30, 1875, and was held at the court house and on the ground which was at that time vacant between the county building and the Porterfield residence. (This residence is now owned by Attorney C. H. W. Snyder.) Nearly everyone in the county attended this initial effort of the agricultural society and it was a mighty success—a fitting beginning for a succession of fifty annual exhibitions.

The then infant industry, farming, was well represented and the excellent exhibits of vegetables, grains and fruit answered any question that might have been raised relative to Iosco county as a future agricultural section. The vegetable and fruit exhibits were located in rooms of the court house. Here well laden tables and vegetable festooned walls testified to the bounteous nature of Iosco county's soil.

The major industry, lumbering, was also represented. Prizes were offered on several mill products. A few years later salt was added to the list of articles receiving premiums. These articles were retained on the premium list from year to year until only a few years ago, although lumber, shingles and salt as Iosco county products, had long since become but a tradition.

The principal event scheduled on the program was the hauling contest to test the pulling power of mighty logging teams and the proficiency of skilful drivers. The owners and drivers of the winning teams were the heroes of the time. This contest supplied the thrill to the crowd which we now seek by watching the stunt aviator "loop the loop" a thousand feet above our heads.

In 1879 the agricultural society purchased a tract of land along the bay where the car shops now stand. This was fitted up for the fair grounds. During that year Temple Emery, R. E. Pratt, Robert Merrick and others formed the Iosco Driving Park association and constructed an excellent one-half mile track.

On August 15, 1887, the present grounds were acquired. The old grounds were turned over to the Detroit, Bay City and Alpena railway. This became a part of the railroad yards on which the construction of the first unit of the present D. & M. shops was commenced in 1891.

It is a far cry from hauling contests to stunt performances of an aeroplane, and from pine forests to improved farm land, but during all those years the people of the county have displayed a great amount of loyalty to the fair, especially the officers who gave a large amount of time and effort each year to make the fair a success.

This year the officers, directors and department superintendents have been working for the past six months to make the 50th annual fair the best fair in northeastern Michigan. The officers are Chas. H. Conklin, president; A. W. Colby, secretary, and C. F. Klump, treasurer. The directors are, Geo. C. Anschuetz, L. L. Johnson, John Degow, W. A. Evans, H. N. Butler, W. B. Piper, F. C. Latter, Nelson Johnson and J. D. McCrum.

Special Rates to Fair Offered by D. & M. R. R.

Special rates can be secured by fair patrons to Tawas City at all points on Detroit and Mackinac Railway.

COUNTY OFFICIALS, 1874-5

The county officials in 1874-5 were: Sheriff, Lyman B. Smith; clerk, James O. Whittemore; treasurer, W. C. Stevens; register of deeds, W. W. Hubell; prosecuting attorney, O. E. M. Cutcheon; probate judge, David J. Evans; surveyor, Henry G. Rothwell.

POULTRY SHOW TO BE ONE OF THE BIG EVENTS

Poultry club birds will be cooped together in one part of the building and appropriately advertised. We expect to have Prof. Card of the Michigan Agricultural college judge again this year. We will arrange to have him give some more work on culling for egg production. Bring in your poultry problems and have him help you solve them. To see him judge the "Farm Flock" class for egg production will be an education in itself.

The date Prof. Card will be here will be announced later.

If each one in this county with some good chicks, ducks, geese, turkeys, guinas, or any pet stock will do their part we can make this the best county show in Northeastern Michigan. Let's Go!

The poultry building will be in much better shape and bigger than ever before, many new coops and arrangements and interior painted white, all coops will be bedded and kept in a sanitary condition throughout the show. An attendant hired by the management will keep the birds fed and watered.

Kite Flying Contest for Boys

Kite flying contests have become one of the interesting features of fairs all over the state.

This year the officers are endeavoring to interest the young folks taking part in a contest of this kind.

There will be no entry charge and they have a premium worth \$5.00 for the first prize that any boy or girl will be proud of. Second prize will be \$1.00.

Prizes will be awarded for the best kite. Height it will fly and appearance in the air will be taken into consideration.

There is plenty of time to build a kite and join the contest which will take place on Wednesday, the school children are admitted free, so do your part to boost the fair.

A CORRECTION TO PREMIUM LIST

The following articles were omitted from Division J, Class 44 of the Iosco County fair premium list:

Plain and Fancy Sewing
Lunch sets, cross stitch
Pillow cases, knit lace
Pillow cases, crochet lace
Pillow cases, embroidered.

The regular premiums of 75 cents and 40 cents are offered on these articles.

A cross in the square opposite the name of Frank F. Taylor for County Treasurer will assure you of a man that has had years of experience in accounting and capable of handling the work of the office.

FRED C. HOLBECK THANKS FRIENDS

I wish to thank my many friends for their offers of support to my candidacy for the office of Member of County Road Commission.

I have been agreeably surprised to receive offers of support from quarters where I am little known and just as greatly surprised to find opposition from a quarter where I least expected it. Certain members of the present road commission seem to be extremely anxious that no new face appear on the board.

In certain departments of the government it has been found that a change has worked greatly to the advantage of the tax payers and a good many people believe that a change in the present road commission would not be out of place.

During the last ten years the business transacted by the board has increased many times and it is of the greatest importance that each member of the board be willing and able to do his full share of the work. It never was intended that the bulk of the business be taken care of by one man even though he was willing to do it.

If I am elected the tax payers can depend that I shall take my full share in all discussions and that I shall see to it that I have a full knowledge of all transactions entered into by the board.

The farmers of the county should be greatly interested in the membership of this board. They pay over seventy per cent of the taxes. They are more affected by the conditions of the roads than any other class of citizens. Why not have a farmer on the board? Remember, this matter will be decided on the primary election day, September 9th. Your vote will be appreciated.
Fred C. Holbeck.

Laugh at Ptomaines

The natives of New Guinea are immune to ptomaine poisoning. Tins of canned food that had gone bad on explorers are in great demand. At Port Moresby, trading in spoiled tinned foods has become a sizeable business.

Should Be Excellent

"Are your chances good in the mixed doubles?" "Very good. My most dangerous opponent is in love with my partner."—Meggendorfer Blaetter (Munich)

Materials in Clown's Mask

Clowns' masks are made of a mixture of lard, oxide of zinc and tincture of benzoin. This is rubbed on the face.

If you want efficient service in the office of County Treasurer place a cross opposite the name of Frank F. Taylor.

The Climax Sisters will appear at the Iosco county fair. This famous troupe of aerial artists will be one of the features of entertainment at the Golden Jubilee. Many excellent specialties are on the program.

GREAT VALUE OF STOCK EXHIBITS
Breeder Gains More Than Just Ribbons or Prize Money He May Win

A live stock breeder gains more from exhibiting his stock than just the ribbons or prize money he may be fortunate enough to win. Few breeders win enough prize money to pay all expenses of showing. This is just as true with unfitted animals driven to local fairs to compete for \$2 prizes as it is with herds fitted for months and shipped hundreds of miles to compete for \$25 and \$50 prizes at the larger stock shows. This fact should not discourage the exhibitor, however, as there are other benefits of considerable importance.

Educational Value

The educational value of the stock show cannot be overestimated. The show ring is the greatest educational institution for teaching animal form and type. Types sometimes change materially in a very few years. Breeders discover the defects in their own animals when they see them lined up in competition by an efficient judge. Few men become really good judges until they have exhibited stock in competition. Until a man is a good judge

he is rarely a successful stock-breeder.

Advertising Counts

Probably the greatest return from showing live stock is in the advertising one gets for his stock. The man who exhibits live stock, whether it be good or medium in quality, gets his name before people in a way hardly equaled by other forms of advertising. This is more especially true if animals are prize-winners and have been shown in attractive condition. With a well fitted herd on exhibition and the name of the breeder properly displayed on signs or placards, a most effective impression is made on the minds of spectators and prospective buyers. Those who are most successful financially in breeding and selling live stock, consider the exhibition of their stock as a highly important and necessary form of advertising.—Chas. I. Bray in Colorado Extension Bulletin, "Fitting Live Stock for Show."

Wanted to Be Sure

"How dare you, with your scandalous past, propose to me? It wouldn't take much for me to throw you down stairs and turn the dogs on you!" "Am I to take that as a refusal, then?" —Szczutek (Lemberg)

Games Next Sunday
Alabaster at Tawas City
East Tawas at Pinconning
Omer at Standish

Tawas City kept Isoco county from getting a triple beating last Sunday by winning from the league leaders in a hotly contested game. It was a real pitchers battle between Rahl and Holloway and until the ninth inning the edge was with Holloway. But in that inning after Klenk had fumbled Johnson's grounder for the only Standish error, Holloway weakened to the extent of two doubles and the game was over.

The last time our boys met Holloway he held them to three hits and shut them out and it looked like his day again last Sunday after Standish had scored their run on an error. But the error and stolen base in the ninth seemed to weaken Dewey considerably and Rahl and Syze sewed the game up with their double. Lovell's hit was close to the foul line and some of the Standish fans argued pretty strenuously for a time after the game was over.

Only ten men were out Sunday when there should have been fifteen. And the crowd at the game was only about half of what it should be. If we can get the attendance of all the players who have a uniform and bigger crowds at the games the team is going to play better ball. The boys play two more games at home, Alabaster comes next Sunday and Standish comes back September 7th and there is no reason why the bleacher seats shouldn't be crowded to their capacity.

First Inning, Standish—Jackson threw out O'Keefe at first. Flaws walked and stole. Doyle fanned. Rahl got Kiley at first. No run, no hit, no error.

Tawas City—Musolf fouled to Reeves. Flaus got Boldt at first. Johnson walked. Reeves got Rahl unassisted. No run, no hit, no error.

Second Inning, Standish—Wasalaski fanned. Allen got Reeves at first. Moeller got Klenk unassisted. No run, no hit, no error.

Tawas City—Syze walked. Moeller fanned. Libka fied to Kiley. Holloway threw out Allen. No run, no hit, no error.

Third Inning, Standish—Syze re. (Continued on last page)

OMER 1—EAST TAWAS 0

Omer and East Tawas played a fast game at Omer Sunday but Omer won out in the ninth inning by the smallest possible score of 1 to 0. Marzinski was on the mound against Clayton and both pitchers were going good, each allowing three hits. Clayton struck out seven men and Marzinski turned eleven batters at the plate. Both teams had one man thrown out at third base and in the seventh inning each team put men on second and third and with their third and fourth batters up it looked certain that they would score but the pitchers were equal to the job and turned them back scoreless.

In the ninth inning Warren of Omer got a two base hit when his drive to center field could not be brought down on account of the rough condition of the outfield. He advanced to third when the next man was thrown out at first and scored when Monroe hit to short. The game was played in one hour and thirty minutes. Next week the East Tawas team will play at Pinconning.

MICHIGAN NATIONAL FOREST WILL PLACE EXHIBIT AT IOSCO COUNTY FAIR

Supervisor Schreck of the Michigan National Forest has promised a very attractive display for the fair showing in miniature a scene from the Tawas district of the National forest in Isoco county. This miniature scene besides showing a small portion of the National forest will have miniature lookout towers, telephones lines, ranger stations, sand plains, roads, miniature automobiles, miniature people, small lakes and canoes, summer homes and plantations of norway pine showing how the forest service is making the idle acres and Isoco county grow a future crop of pine. The scene will also show how the forest service is protecting the National forest from fires and how important it is to the people of Michigan to prevent forest fires.

There will also be on display in connection with this exhibit the history of a pine seed followed from the cone to a tree planted on the plains that will eventually produce merchantable timber. Cross section of trees will also show the rate of growth per year of these small seedlings on the poor sand plains lands. The exhibit will be very interesting from the fact that it will be purely educational to let the people know what the U. S. Forest service is doing in Michigan.

Mrs. H. Leslie and daughter, Gladys went to Bad Axe Wednesday for a few weeks visit with relatives.

GURLEY—CURRY

Tuesday afternoon at four o'clock at the home of the bride, occurred one of the most charming of the seasons' weddings, that of Miss Alice Marie Gurley, daughter of Mr. and Mrs. Wm. Gurley of East Tawas and Ronald R. Curry, only son of Mr. and Mrs. Chas. Curry of Tawas City.

The ceremony was performed under a bower of pink and white streamers and white wedding bells, Rev. S. S. Cross of Tawas City, M. E. church, read the service, the ring service being used.

Miss Mae Mitchell played Loehengrin's wedding march for the entrance of the bridal party.

Miss Gurley was a lovely bride. She was simply costumed in white canton crepe, sleeveless, her only ornament, a string of pearls, the gift of the groom, and she carried a shower bouquet of bride's roses. Miss Neva Butler, in pink tulle and crepe with hat to match attended her as bridesmaid and carried a bouquet of pink roses and sweet peas.

Edward Libka acted as groomsmen and little Fay Gurley, sister of the bride, as flower girl, carrying the ring in a basket of pink rosebuds.

A three course luncheon was served to about forty relatives and friends immediately following the ceremony. A profusion of garden flowers were used in decoration.

The Misses Barkman, Hewson and Butler, girl friends of the bride, assisted in the serving.

The bride and bridegroom are motoring through the southern part of the state for their wedding trip in a Star coupe, a wedding present from the bridegroom's father and mother. They will make their home in Tawas City.

The out of town guests were Mr. and Mrs. Ed. Tompkins and family of Flushing, Mr. and Mrs. Paul Miser of Otisville, Mr. and Mrs. Jas. Parliament of Rose City, Mr. and Mrs. Fred Bissell of Tuscola and Mr. and Mrs. Earl Bissell of Millington.

MRS. LEOPOLD MARKS

ALPENA BAPTIST ASSOCIATION TO MEET HERE

The Alpena Baptist Association will meet with the Tawas City church next Tuesday and Wednesday, September 2 and 3. There will be speakers from different parts of the state, special interest is being attached to the fact that Rev. Robt. Harper, M. D., of Burma will speak on September 3.

For more than a quarter of a century Dr. Robert Harper, a missionary of the American Baptist Foreign Mission Society has devoted himself whole heartedly to work among the Shans in Burma.

During his years in Burma, Dr. Harper served in four of the five stations which northern Baptists have opened among the Shans. His building operations alone include the erection of two hospitals and many schools. For several years before he came home on furlough, he has worked at Namkham, a frontier station only two miles from the Chinese border. In this trading center and important military post, he treated each year about 8,000 patients in the mission hospital and town dispensary and visited several hundred patients in their homes, proving by the results he obtained that medical work is a strong evangelizing agency.

The outside speakers are—
Dr. Smith of Lansing, general promotion director of the work in this state.
Rev. T. S. Currey, director of evangelism.
Dr. Bachelor, director of education.
Rev. J. C. Austin, director of finance.
Morgan S. Williams, director of religious education.
Rev. G. W. Lawrence, director of rural work.

The other speakers are members of the association.

EAST TAWAS SCHOOLS

The East Tawas public schools opens Tuesday, September 2.

A fullfledged agricultural department has been added, the teaching force has been increased and strengthened to meet adequately the needs of this modern progressive school. The high school now provides courses in all commercial subjects, including farm accounting, manual training and mechanical arts, a Smith-Hughes agricultural department, as well as the academic studies of the old time school.

The East Tawas high school is approved by the University of Michigan and by the department of Education of the state. This high school has no short cuts to a diploma to offer; its aim is to offer the best opportunity a school can give for scholarship, character and culture; nor has the physical education of the boys and girls been overlooked. A real coach for the boys' athletics is one of the faculty. The girls have another especially prepared teacher to supervise and direct their activities in physical education.

The Isoco county normal has a large number of applications for membership in the teacher's training class which will begin under a new program and course of study provided by the state Educational Department. The county normal is just coming into its own. The new law requiring professional training is fully met in this school and teachers and would-be-teachers are gathering here not only from Isoco county but from Arenac and Alcona counties also, to avail themselves of its splendid opportunities.

Remember that there is no tuition fee to pay for the advantages offered by the county normal. A tuition fee of \$40.00 per year is paid for non-resident pupils in the high school by the school district from which the pupil comes, provided he has made the usual application.

The superintendent will be in his office at the high school building on Saturday and Monday before the opening of school to aid any new comer in getting his classification, boarding place, etc.

The Why of Superstitions

By H. IRVING KING

KILLING FROGS OR TOADS

IT IS a superstition common in this and many other countries, and one remaining from ancient times, that if you kill a frog, or a toad, your cows will go dry, or at least give bloody milk. Frogs and toads are of the same family; one is the farmer brother and the other the sister.

In the ancient cuts it is the frog which is generally spoken of, though, from some of the archaic representations and some of the myths, it is evident that the distinction between the frog and the toad was not always definitely drawn. For general purposes of superstition the two batrachians may be taken as one. The frog was a sacred creature among the old Egyptians; in some places it was embalmed after death and it was honored with sculptures on the tombs of Thebes. A volume might be written on the frog in Egyptian mythology. The Romans got their veneration of the frog from the Egyptians and the modern Italian regards the figure of a frog as a powerful amulet against the evil eye. Naturally it brings back luck to kill the sacred creature.

As to why the killing of a frog or a toad should have a particular effect upon cows, it may be said that, while the frog was in general the symbol of Pith, the god of the reproductive forces not solar, it was, in some places and in certain connections, used as the symbol of Isis.

And Elworthy says:
"It is said that the Egyptian Isis was born at Argos and that she is identified with the cow-shaped Io, who was the same as Hera, and both are represented in Egypt, as well as in Greece, with cow's horns."

THE HAT'S DAY

By DOUGLAS MALLOCH

A HAT is very well-behaved. Most all the time. When friends have raved

About your hat, it looks so nice, And even tried to learn the price, A hat is never mean nor proud: It bows its head, when yours is bowed, And acts the very way that you, When you are complimented, do.

But I have often noticed that There's something strange about a hat:

For now and then it acts so queer It's quite astonishing, my dear. For now and then the winds arise, And then right off your head it flies, And you must run and chase it then Before you catch your hat again.

A hat is well-behaved until Its friend the Wind comes up the hill And then it wants to romp and run And fly away and have its fun. A hat will be as nice and good As anybody ever could. And then it ups and blows away— For even hats must have their day. (© by McClure Newspaper Syndicate.)

When Chicago Was Settled.
The site of Chicago was discovered in 1673, but the first house was not built until 1770, by Jean Baptiste Pointe du Sable. In 1790 he sold his claim to Le Mal, a French fur trader who in turn sold to John Kinzie, the first white man to make his home there. In 1803 Fort Dearborn was located on the south bank of the river.

YOUNG FARMER PLEADS GUILTY

STATE DETECTIVE UNCOVERS CONCLUSIVE PROOF OF MURDER OF WIFE

When Ralph Lindsley, a young farmer of St. Joseph county, pleaded guilty in circuit court to the murder of his wife, he admitted the facts which had been disclosed by unusual detective work. One morning Lindsley drove into Sturgis and reported to the chief of police that Mrs. Lindsley had committed suicide by shooting herself. The coroner and other officials found the woman's body lying in a pool of blood, with a bullet wound in the forehead, and a revolver lying close by.

H. Erickson of the state Bureau of Identification was sent for and took a complete set of photographs, also taking the finger-prints found upon the revolver barrel. Lieutenant John S. Palmer, in charge of the criminal investigation bureau of the Department of Public Safety then took the case.

Tests were made with the revolver which showed that the woman could not have shot herself, inasmuch as powder burns were lacking which would have occurred if she had held the gun.

In seeking a clue to the motive for the killing, Lieutenant Palmer learned that Lindsley had been attentive to a young married woman of the neighborhood. Search was made and the fragments of a 16-page letter, which had been read and torn up and the pieces thrown away, were gathered. It took a day and a night to put the letter together and then the motive was plain.

Lindsley had planned to get rid of his wife and also of the other woman's husband, it appeared.

Finger prints of the revolver and measurements showing the direction of the bullet and approximate fixing of the height from which it was fired were other details entering into the case.

Finally, the burden of evidence being too strong to be overcome, Lindsley came into court and pleaded guilty. He is now serving his sentence in Jackson prison.

How to Flavor Coffee

There is a best way of doing everything—even of putting sugar and cream in your coffee. In fact, to put sugar and cream in your coffee is quite wrong, according to Popular Science Monthly. The really correct procedure is to put cream in the cup, then the coffee and add the sugar last of all. This will prevent the cream from "feathering" should it be slightly sour. Coffee poured on cream and sugar in a cup is almost certain to result in the cream's curdling.

PRIMARY ELECTION

TO the qualified electors of the city of Tawas City, State of Michigan,
Notice is hereby given that a general primary election will be held in said city on Tuesday, September 9, 1924, at the city hall, the above location being the place for holding this election for said city.

For the purpose of placing in nomination by all political parties participating therein, candidates for the following offices, viz: Senatorial—One candidate for United States Senator, full term; one candidate for United States Senator to fill vacancy. State—One candidate for Governor; one candidate for Lieutenant Governor. Congressional—One candidate for Representative in Congress for the Congressional district of which said city forms a part.

Legislative—One candidate for Senator in the state legislature for the Senatorial District of which said city forms a part; one candidate for Representative in the state legislature for the Legislative district of which said city forms a part. County—Also candidates for the following county offices, viz: Judge of Probate, Sheriff, County Clerk, County Treasurer, Register of Deeds, Prosecuting Attorney, Circuit Court Commissioner, One County drain commissioner, one Surveyor, two Coroners, one County Road Commissioner.

Delegates to County Conventions
Sec. 18. There shall also be elected at said primary, by direct vote of the registered and qualified voters of each political party in said county, as many delegates in each township, ward or precinct, as the case may be, as such political party in such township, ward or precinct shall be entitled to by the call issued by the county committee of such political party for the county convention thereafter to be held by such political party within said county in that year for the purpose of electing delegates to the state convention called for the purpose of nominating candidates for state offices, to be voted for at the November election. In case of any vacancy in any delegation from any election precinct, township or ward, to the county convention, such vacancy shall be filled by the delegates present from the ward or township in which the vacancy occurs. The state central committee of each political party shall, at least thirty days before the September primary herein provided for, cause to be forwarded by mail to the chairman of the county committee of such party a copy of the call for the state convention showing the number of delegates to which each precinct or ward is entitled in the state convention of such party; and the said state central committee shall apportion such delegates to the several counties in proportion and according to the number of votes cast for the candidate of such party for secretary of state in each of said counties, respectively, at the last preceding November election. The name of the candidate for delegate to the county convention shall not be printed upon the official primary election ballot, but one or more such names may be placed on such ballot by printed slips pasted thereon by the voter, or the names may be written in. The county committee shall in its call for the county convention indicate whether delegates are to be selected by precincts or by wards. In cities having no wards or only one ward, the delegates to which such cities are entitled, shall be elected from the entire city, or by election precincts as the county committee in its call for the county convention shall indicate. The chairman of the township, ward or city committee, as the case may be, shall notify by mail each person elected as a delegate to the county convention of his party.

Suggestions Relative to Voting
Separate ballots for each political party will be provided. The elector must name the political party of his choice when asking for a ballot and in marking his ballot must make a cross in the square to the left of the name of each elector for whom he desires to vote, and can vote for only one candidate except where two candidates are to be elected in which case he should vote for two.

Notice Relative to Opening and Closing of the Polls
Act No. 20, Public Acts of 1919, Special Session
Sec. 1. On the day of any election the polls shall be opened at seven o'clock in the forenoon, or as soon thereafter as may be, and shall be continued open until five o'clock in the afternoon and no longer. Provided, That in townships the Board of Inspectors of election may, in its discretion, adjourn the polls at twelve o'clock noon, for one hour, and that the township board in townships and the legislative body in cities and villages may, by resolution adopted fifteen days prior to the election and published with the notice of the election, provide that the polls shall be opened at six o'clock in the forenoon and may also provide that the polls shall be kept open not later than eight o'clock in the evening of the same day.

The polls of said primary election will open at seven o'clock a. m. and will remain open until five o'clock p. m. of said day of election.
Dated July 21, A. D. 1924.
W. C. Davidson, City Clerk.

Over one-third of all the tobacco chewers in the United States have proved that.

The demand for BEECH-NUT Chewing Tobacco alone is more than 250 million packages in a single year.

That's because we didn't let tobacco growers, labor, manufacturing costs, State, Federal and revenue taxes collect their increases from the quality or the weight.

BEECH-NUT Chewing Tobacco is the same in 1924 as in 1915. Still the most of the best for 10c—still the best chew at any price—still the favorite everywhere.

The Schools and The Railroads

Teachers in Michigan's primary schools are being supported, to a large degree, by taxes paid by the state's steam Railroads. In many counties, the whole cost of these schools is carried in this way.

Michigan is justly proud of these schools, and of the capable teachers who preside over them.

And Michigan's 24 Railroads are proud of the result which their tax payments have made possible.

These primary school taxes have become a part of the delicate balance which laws have established between Railroad receipts and expenditures.

This balance can be preserved with a steady and continued improvement in Railroad service, as the past two years have amply proved.

To destroy this balance by increasing Railroad taxes, or by imposing any additional burden on your carriers, would be a calamity for the Railroads and a severe blow at Michigan prosperity.

All we ask is a fair chance to keep on making good for you.

Write us freely about any phase of this matter that interests you.

NATIONAL FORESTS BECOME FAVORITE OUTING GROUNDS

East Tawas and Tawas City are very fortunate in being the gateway to the Michigan National Forest. This year there has been a noted increase in the number of people who are visiting the National Forest near these cities. During week-ends and holidays the plains roads through the forest receive a very heavy traffic. Cars from every part of the United States are taking the short-cuts which also give them an opportunity to see the National Forest.

The campgrounds recently improved at Corsair Bridge and High Banks and the Rollways are being very extensively used. These grounds have recently been enlarged, cleared of all rubbish and brush, and toilets, fire-places and garbage pits have been installed. As the tourists leave the forests and meet other tourists, they inform them of these camp places and in this way advertising is passed along causing numerous other visitors to enjoy the camp grounds on the forest.

The high bluffs along the AuSable river where wonderful views of the river, and surrounding country can be had are becoming widely known and visited by hundreds of people desirous of obtaining a view of the historically famous AuSable river.

The great areas of young forests and pine that have been planted by the U. S. Forest Service are also attracting numerous tourists. It gives them an opportunity of seeing what the Federal Government is doing in Michigan and what these waste sandy areas are capable of producing. It is a pleasure indeed to drive along the wide fire lines and see rows of green trees stretching away on either side. Plantations varying in age from one to thirteen years old are to be seen at this time and present a very interesting and instructive picture to the tourists who have only had an opportunity to read about such work.

Numerous boating parties and canoeists are traveling down the AuSable river at this time enjoying the wonderful scenery and the fishing that has made the AuSable river the King of Fishing Streams in North-eastern Michigan.

It is a common occurrence at this time for the campgrounds on the forest to be crowded during the week ends and people are making their plans to reach these spots early, so that they can be sure of tenting space and table room.

The forest officers are taking advantage of the great number of tourists in passing out information relative to the forest itself, telling the tourists of the necessity of keeping out fires so that the areas can be kept green both for recreation and to insure future supply of timber and a much needed cover for game.

Don't fail to put a cross in front of the name of Frank F. Taylor for County Treasurer. His aim will be to give good and courteous service as always.

50TH ANNUAL FAIR TO BE BIG EVENT

When the 50th annual fair of the Iosco County Agricultural Society opens September 9th, it promises to be the largest and best in the history of the society. Being the Golden Jubilee, the officers have made every effort to make it such. Along with the many free acts which are mentioned in another column of this paper will be the usual good horse races, motorcycle races, etc. The track has been re-laid and will, weather permitting, be in excellent shape. We will also have the mid-way with no less than two good rides and no less than five clear, moral and refined shows. We will also have a twenty-three piece band which will furnish an endless entertainment well worth the price of admission alone.

We are erecting this year a greater agricultural exhibit than we have had for many years hence. We are also planning for a good stock show, many farmers having had their cattle tuberculin tested as required by the state not longer than ninety days previous to the fair that they might exhibit them this year.

The new sheep and hog pens should be filled to their capacity. The poultry show will undoubtedly be 100 per cent larger than it has ever been before.

Merchants and automobile dealers are preparing to make elaborate displays. Every foot of space will be taken up with things of interest to all.

Do not miss the opportunity of seeing this year's fair.

"What's in a Name?"
By MILDRED MARSHALL

Facts about your name; its history; meaning; whence it was derived; significance; your lucky day, lucky jewel

CARRIE

CARRIE may almost be regarded as a purely American name, though her origin is discovered in the Karling romances of the Teutons. Curiously, the meaning of the name is translated as "man", and Carrie's etymological predecessors were almost universally masculine names. The various Charles' and Carls who figured in English and Teutonic history are close relatives of Carrie.

Carrie was evolved in England after Charlet had been brought there by the brave Lady Derby from the house of La Tremouille, into which the daughter of the unfortunate Charlotte d'Albret had carried it. The Anglicized version, Carolina, became the most popular of the two names, since it was borne by the queen of King George II, who brought it through Germany from an Italian source.

Carrie, an English diminutive brought to this country by the christening of the Carolinas among the Thirteen Colonies, caught the fancy of Southern residents to such an extent that it is now given in baptism as a totally independent and etymologically intact name.

The beryl is the talismanic stone belonging to Carrie. It is said to make her amiable and unconquerable, and to give her the power to hold the love of her husband. Tuesday is her lucky day and 2 her lucky number.

Chaldean libraries are said to have been founded as early as 1700 B. C. Diodorus Siculus describes a library in the tomb of Osymandyas, 1400 B. C. The first public library was founded in 540 B. C.

This Fish Is a Quiet One

The butterfly fish remains absolutely motionless throughout the day, says Nature Magazine. It may always be found at the same spot near the surface of the water, but when twilight falls becomes more animated.

Real Evils Are Enough

Don't let us make imaginary evils when you know we have so many real ones to encounter.—Goldsmith.

WISE MR. FOX

MR. FOX had not the least idea why he carried off the old cart wheel from Mr. Man's barnyard, but he was so cross because he could not get in to pay a visit to the poultry that he wanted to do something, and so he trundled the old wheel off to his home.

"I'll just place it in front of my doorway," said Mr. Fox when he reached home. "I need not be so careful about closing the door, with this old wheel in front of it. The spokes will keep folks out and I can get some air."

This was all Mr. Fox had in his mind when he left the old wheel by his door, and he was not in the least to blame for what followed. But it proved to be such a good scheme that he afterward bragged to all the wood folks about how he "fixed" Mr. Dog.

Mr. Dog had not started out to find Mr. Fox. He knew nothing about his call at the farm, but as he was run-

others, and then somehow he seemed to get all tangled up between those wheel spokes.

Mr. Dog pulled out a leg, only to put it between two other spokes, and the first thing he knew he was rolling down the hill in front of Mr. Fox's doorway with the cart wheel around his neck.

Mr. Fox had heard the noise, of course, and was peeking out to see what was going on, and now that Mr. Dog was on his way down the hill he came out to see how it ended.

When he reached the foot of the hill Mr. Dog jumped up and, without stopping even to give himself a shake, he started off home on the run with his tail between his legs, and he did not stop until he was inside his house.

"Well, you should have seen how my trick worked," said Mr. Fox when later he was telling his neighbor, Mr. 'Possum, about it. "You should get yourself a cart wheel, friend 'Possum, and I will wager Mr. Dog will run a mile without a stop when he spies it by your doorway."

"I really should be paid for thinking up such good schemes to protect us wood folks," said Mr. Fox, looking very wise; "but I am so fond of my friends that I have to share all the good things I discover with them."

Mr. 'Possum was not a very wise creature, but he knew Mr. Fox pretty well, and he did not feel at all certain there was not some trick about the new scheme that would get him into trouble and benefit Mr. Fox. Anyway, he did not see any use in trying a cart wheel to keep away his enemy when he lived in a tree, where Mr. Dog could not climb.

"Going to try it?" inquired Mr. Fox, who saw cart wheels hanging from trees all through the woods.

"No," replied Mr. 'Possum. "It may be all right for you, who have a tall only for show, but with a tall like mine and a tall tree to climb I think I had better stick to my own way of escaping from Mr. Dog."

"Poor little narrow-minded 'Possum," sighed Mr. Fox, as he watched his neighbor walking away; "he is so old-fashioned he won't try anything new. For my part, I am glad I am broad-minded enough to try new schemes." (© by McClure Newspaper Syndicate.)

ning through the woods he happened to get on the track of Mr. Fox and followed the scent straight up to the cart wheel.

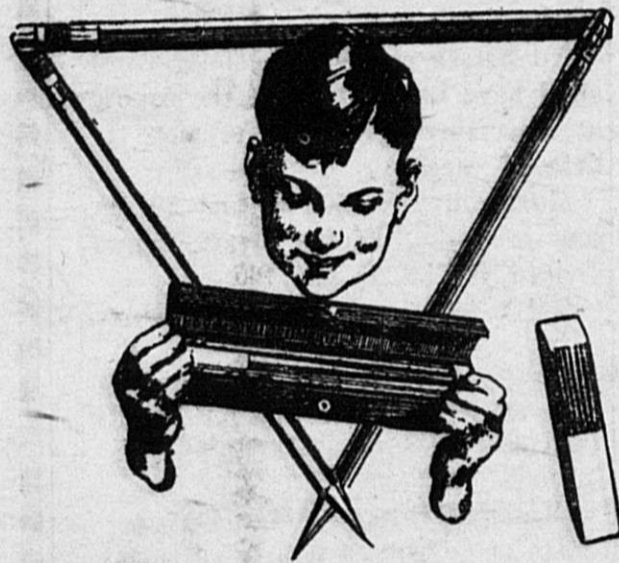

Here he stopped for a second, but was so sure that Mr. Fox was in his home that he began to whine and bark and dance about, trying to get through the spokes.

Mr. Dog was pretty large, so he could not crawl between the spokes. First he poked his head between two of them, then a front leg between two
