At the Fair Grounds

E. V. ESMOND CELEBRATES HIS 80TH BIRTHDAY

Sunday, August 24 about thirty old friends and neighbors of E. V. Esmond gathered at the high rollways on the AuSable river and game him a surprise picnic. He and his daughter's family, Mrs. S. B. Yawger, had motored on ahead, he little dreaming that others were coming to help make his 80th birthday one long to be remembered.

When the long line of cars drove up unloading their freight of old neighbors and friends, many of them pioneers, Mr. Esmond's surprise can better be imagined than described. All brought well filled lunch baskets and a wonderful dinner was served under the trees on the banks of this beautiful river whose history goes back to the lumbering days of this county.

After dinner a short program was arranged, Fred Jennings acted as chairman and in behalf of the family and friends of Mr. Esmond, presented him with a beautiful thermos bottle and tray; in his remarks he very fittingly referred to Mr. Esmond as one of the "trail blazers" of pioneer days.

Mr. Esmond came to this county from Jackson county, Michigan in 1871. He landed in AuSable and by a circuitous route he and his brother, Clark arrived in range six of Plainfield township and located land and built log cabins for their families when they brought later. This was then an almost unbroken wilderness. The Plainfield of today, range five east, was then a dense forest.

The chairman's remarks were followed by pioneer reminiscences of early days given by Mrs. Ella Buck of Flint and Mrs. G. Teed and others followed by reading of extracts of the history of Plainfield written by Mrs. Fred Jennings also the reading of the poem, "Father, the Pioneer."

Mrs. S. B. Yawger very touchingly told some stories of childhood memories and simple pleasures of those early days and paid a grateful tribute to this pioneer father who sometimes walked the long distance across the plains to Tawas, eighteen miles or more to buy groceries for his family and then walked home again carrying them on his back and who always remembered his children with candy or some little gift.

At the close of the program it was moved and supported that this gathering of pioneers be made an annual affair to be held August 24 each year and to be called, "The Esmond Pioneer Society." Officers elected were as follows: President, Fred Jennings, secretary, Mrs. S. B. Yawger.

After the program cameras were busy taking pictures, Mr. Esmond felt so young that he walked down to the spring and carried a pail of water up the 200 foot bank without resting, afterwards he poised for his picture, the center of a group of ladies which all goes to show that he is only 80 years young.

Long may he live to enjoy many more such enjoyable occasions is the wish of his many friends.

"America" now being shown at the Auditorium, Tawas City, under the auspices of the American Legion, is one of the greatest pictures ever shown here, declare those who have seen it. It will be shown Friday and Saturday evenings.

This picture of the Revolutionary war period has proven of great interest to not only movie fans but everyone who has seen it.

"America" was filmed under the guidance of a special corps of research experts and historians, including representatives of the Daughters of the American Revolution, the Sons of the American Revolution, The Lexington Historical society and similar organizations. Secretary of War Weeks assisted by turning over various regular army units, who appear in costume in the massive battle scenes. Historic houses, actual battle grounds and the shrines of American liberty were used for the scenes; descendants of the leading families of Revolutionary Days as extra people and drums, pistols, fintlocks and even uniforms which saw service in the war of Independence as properties.

The story of "America" written by Robert W. Chambers, the novelist, whose earlier books dealt with the Revolutionary period, and who is regarded in literary circles as an expert is the history of those days, is the story of the struggle of the colonies for liberty from Paul Revere's ride until George Washington became president.

A matinee will be shown Saturday afternoon, beginning at 2:30.

PETER SAWYER

Death entered the home and took from our midst, Peter Sawyer, one of the oldest settlers in Isoco county, coming to Ogemaw in 1879, then later settling in Reno township, where he has since made his home.

Mr. Sawyer was born in Ogdensburg, N. Y., in the year of 1861, and departed this life at Mercy Hospital, Bay City, August 18, 1924, at the age of 63 years and five months.

On May 24, 1887 he was united in marriage to Miss Evelyn Shirts and to this union nine children were born. Two preceding him in death. His wife departed this life eight years ago. Six years ago he was again united in marriage to Mrs. May Tilly of Hale.

He leaves to mourn his loss a wife and seven children, Oscar Sawyer of Detroit, David of Chicago, William of Midland, Edward of Whittemore, Mrs. Bell Bronson of Twining, and George and John at home; six grandchildren; two brothers and one sister, Lewis Sawyer of Washington and David Sawyer of California and Mrs. Lulu Boyd of Fall River, Mass.

There are also seven grandchildren left to mourn his loss.

Those from out of town who attended the funeral were Mr. and Mrs. Floyd Bronson of Twining, Mr. and Mrs. Ed. Sawyer of Flint, Mr. and Mrs. Wm. Sawyer of Midland, Mr. and Mrs. Dave Sawyer of Chicago, Mrs. Stella Shaw and son of Flint, Mrs. Boyd of Fall River, Mass., Mr. and Mrs. Herriman of Detroit, Mr. and Mrs. Geo. Parent of Saginaw and Mr. and Mrs. Vern Mayo of Saginaw.

Funeral services were held Saturday, August 23, at the St. John's church at Whittemore, Father Walsh officiating, and remains were laid at rest in the Reno cemetery.

TAWAS CITY LOSES TO WHITE CITY

Tawas City had a very poor week end last Sunday and Monday. Thirteen errors by Rahl's supporting cast, coupled with five bases on balls, enabled Alabaster to score nine unearned runs on six hits. Managerial laxity contributed to the cause as well. Although our gang got nine hits for twelve bases, they scored only two runs. Daring baserunning that didn't register cut off at least four rallies that might have meant a bunch of runs.

Monday's game with East Tawas was also a farce. By Mark pitched for Tawas City and held East Tawas to four hits and gave one base on balls, all scattered in separate innings, but East Tawas scored seven runs. The home boys got eight hits and four walks while Swales, hurling for the East Tawas boys, hit three men. But only four men tallied. Swales and Mark each got nine strike outs.

When the boys go wrong they sure go the limit. And they go bad against the teams down in the race. But they also have the faculty of going good and they have been playing good ball against the leaders. Standish comes here next Sunday for the two teams last meeting of the season. Tawas City has won two out of three from Standish and is out to make it three out of four. There will be only one more home game after next Sunday, that will be with Omer on the 21st.

C., to add to the beauty of the city. One of these granite monoliths now stands on the Victoria embankment in London, while the other is in Central park, New York.

Savings is Civilization

Invested capital is the bedrock difference between civilization and savagery. It was only when men began to consume less than they produce and saved a surplus that human progress could begin. What was true of the race is true of the individual. You can accumulate a surplus and this can help protect and keep it.

### Saved by Roosevelt's Idea of Square Deal

When Roosevelt was getting ready for his African trip various sportsmen friends, as a matter of course, volunteered suggestions.  
"When you get to Nairobi," said one—a Mr. Blank, a happy-go-lucky, careless, prosperous chap, who had lived into the jungle and out again two years before—"whatever you do, don't hire a guide by the name of W—. He is capable enough, but not trustworthy."  
The day Roosevelt reached Nairobi he inquired about this particular guide. He sent for the repudiated guide and got his side of the story, says the Milwaukee Journal.  
Just as Roosevelt had divined, it was a mountain made out of a mole hill. The damning word dropped by Mr. Blank without warrant had left stark misery in its wake for the guide. After that he could get no employment from any hunter who came to Nairobi.  
Roosevelt heard all this. By way of rejoinder he smashed his itinerary. He rearranged it over night to include a ten days' expedition never before dreamed of in that section of the country. He hired the Nairobi guide to take entire charge of the trip.  
When the expedition got back in scheduled time Nairobi's house-tops heard from Roosevelt. He said: "That guide is the most intelligent, the most industrious, the most reliable and the most satisfactory guide I have ever had."  
The rehabilitation of the wounded guide dated from this utterance and this act of Roosevelt's. Again the man began to be sought after by hunters.

### Outlaw Queen Could Be All Feminine at Times

Belle Starr, outlaw queen of the old days in Texas and Oklahoma, wore her hair short and was particularly sweet to women, says the Detroit News. She lived for years on the proceeds of loot and lined up a gang of the meanest-looking, hardest cursing, wildest riding and shooting hard-boiled customers in her particular parts of the cow country.  
She used to call at women's houses on her way home from leading her band on a robbery, and she would talk feminine things with them, sing religious songs and tell stories to the children.  
Several stories are told of the way Belle Starr met her death. The generally accepted one is that she was assassinated by a man named Edgar A. Watson, who had gone to Oklahoma in the '80s and started farming near her place. It is told they became enemies in a dispute over land rental. Anyway, February 3, 1899, so the version has it, a double-barreled shotgun did the work.

### Long Pedigrees

Royalty, as in the Hatfield chart, which traces Queen Elizabeth's descent from Adam, is not alone in claiming long pedigrees. On the tomb of a former town clerk of Burton-on-Trent that worthy is described as thirty-seventh in descent from Alfred the Great. Again, a distinguished French family, the Magons (an Admiral Magon was killed at Trafalgar) shows a pedigree deriving from Mago, the brother of Hannibal.  
An Italian nobleman, the Marchese Porro, traces his line back to Porus, the Indian monarch who fought against Alexander the Great, while the Samson family who own estates near Lyons claim that their descent is from the strong man of the Bible, and in support of the claim bear on their coat-of-arms the broken column of a temple.—Manchester Guardian

### Real "Robinson Crusoe"

Alexander Selkirk was an adventurer, born in Largo, Scotland, in 1676. He was a skillful seaman and made several voyages to the South sea, in one of which, having quarreled with his commander, he was put ashore on the island of Juan Fernandez with a few supplies. Here he lived alone for four years and four months, when he was rescued by Capt. Woods Rogers. He returned to England in 1731, and is said to have given his papers to Defoe, who, from them, wrote the story of "Robinson Crusoe." Selkirk died on the ship Weymouth in 1723.

### Famous the World Over

Epsom, England, is in the county of Surrey, 15 miles southwest of London. Epsom was formerly celebrated for a mineral spring, from the water of which the well-known Epsom salts were manufactured. A number of the sons of medical men are educated at the Royal Medical college, and adjoining the school is a home for aged physicians or their widows. The principal attraction is the grand race meeting held on the downs, which is attended by hundreds of thousands of persons.

### Characters of History

Razi or Rhazes was an Arabian physician who lived from 852 to 932. He is noteworthy as being the first man to describe smallpox and measles in an accurate manner. Hughald or Hucbald was a Benedictine monk and writer of music. He was born at Tournai, France, about 840. He later started a school of music and other arts at Nevers. He was the inventor of the gamut. The only work positively ascribed to him is the Harmonica institute. He died in 930.

**LOCAL CHIROPRACTOR LEASES VALUABLE INSTRUMENT**  
 Dr. E. G. Starr of East Tawas returned Friday last from Davenport, Iowa where he has been taking instructions in the technique of the "Neurocalometer." He has leased this instrument and expects to have it in his office for use the first part of next week.  
 The "Neurocalometer," a highly sensitive instrument for allocating spinal trouble by heat variations, the product of four years' research by Dr. B. J. Palmer and Dr. D. D. Evins of The Palmer School of Chiropractic, has taken the Chiropractic world by storm. The demonstration of the invention at Chiropractic clinics and at the U. S. Bureau of Standards at Washington, D. C., has created a sensation as did the exhibition of Alexander Graham Bell's telephone at the Philadelphia Exposition in 1876.  
 Laboratory work and experimentation on the new device was begun in 1920 by Dr. Evins, who is a graduate of The Palmer School. The invention in an embryo stage, was brought to the attention of Dr. Palmer in April of last year and both he and Dr. Evins combined their efforts in perfecting the new instrument, which they called the "Neurocalometer."  
 "When nerves are pressing against one another we have what might be called a short circuit or a hotbox," explained Dr. Palmer. "The same thing occurs when vertebrae are subluxated, inflammation and heat being produced at these points of resistance. The purpose of the Neurocalometer is in being able to detect these minute differences in heat created by crossed nerves, and recording them."  
 Seven machines are now installed and in use in the faculty adjusting rooms at The Palmer School and appointments for these are scheduled full for three weeks in advance, an unprecedented recognition.  
 The use of the Neurocalometer greatly increases the efficiency of the science of Chiropractic.

**LITTLE SHOULD GET OUR SUPPORT**  
 All the people of Iosco county should be united in the re-election of Representative Lloyd S. Little.  
 Nothing is so important to this section of the state as Conservation and without a doubt, Little will be the chairman of the Conservation committee when he returns to Lansing.  
 This matter should convince even those who would otherwise be opposed to him. Iosco county was well represented in the last session, Little's interests are our interests, his home is in Iosco county. Without a question he could and would do more for Iosco county than a new man serving his first term from an adjoining county.  
 Little is a poor man, he has seen fit to throw his lot with the common people, his record will prove this in the Legislature. Iosco county should stand united behind their candidate for his second term.

**ALEX J. GROESBECK**  
 Lansing, Michigan  
 August 30, 1924.  
 Chamber of Commerce, East Tawas, Michigan.  
 Gentlemen:—  
 I am sending you in this letter the facts pertaining to the state tax reduction in your county, which can be verified by calling upon your county treasurer. This reduction has been entirely due to the efforts of Governor Groesbeck and his determination to give to Michigan a businesslike administration. It answers all of the misstatements that have been made by some misinformed candidates and others, pertaining to state expenses. The proportion of reduction shown in your county is the same in all other counties in the state.  
 You can see from this what has actually been accomplished during the time Governor Groesbeck has been in office.  
 I know that the voters of Iosco county will be pleased to have this information:
