# Reflections of a Bachelor Girl

By HELEN ROWLAND

WHAT constitutes a "popular fellow": The ability to tell a good story-to men, and a good lie to a

Every girl hitches her wagon to a star, in these days; but that never seems to prevent her from wanting a husband, if only as a parachute in case of disaster.

Advising a husband how to rule his wife or a wife how to manage her husband is deliberately juggling with | the 280 pioneers who set sail only 31 | here to see if I could find any four-T. N. T. But the world will always be full of intrepid "advisers," who keep the rest of us busy "picking up

Nothing helps a woman's morale, in times of trouble, like a brand-new an admiring glance from a good-looking stranger.

order to reach a man's ideal, and having to step off of it, every now and then, in order to get down to his level, the average wife feels almost as though she were committing polyg-

If a man were as careful about selecting a wife as he is about selecting a bootlegger, and as cautious about signing his name to a marriage certificate as he is about signing it to a check, there would be fewer sentimental bankrupts in the hands of the Reno receivers.

No matter what noble principles a man may stand for, his wife feels justified in secretly guarding him from any little pink and yellow thing that a less noble man might fall for.

Bachelors are the Bolsheviki of love; yet some of the finest husbands in the world have been made from bachelors, merely by a little denaturing-"extracting the kick."

" Unless you are yearning for a martyr's crown, never ask a man if he loves you, when he is testing the new syphon, or trying to discover what makes the knock in the engine.

(Copyright by Helen Rowland.)

# DUPLEX—a new name

-for a new type car you have never seen before!

A closed and open car combined—the advantages of both at an open car price!

STANDARD SIX DUPLEX-PHAETON

No other car in its pricerange has this combination of features:

New Duplex Body. Real Balloon Tires. Inclined valve engine.

Crankshaft and connecting rods machined on all surfaces for vibrationless balance.

Genuine chrome tanned Spanish leather.

All the usual equipment-plus a high grade clock, a dash gas gauge, automatic windshield wiper and lighting switch on steering wheel.

New Studebaker 4-Wheel Hydraulic Brakes-optional equipment. Automatic braking

cushioned and richly appointed. In less than car, with all the unhindered freedom every motorist likes and enjoys. Its double utility satisfied a most urgent need-it is as revolutionary as the self-starter and electric lights.

And the price is the same as that of the open car - with advantages in finish, fittings, room and comfort no open car could ever give!

Framed and shaped in steel, the upper part of the Duplex Body is built integrally with the lower part-it functions perfectly with the lower part-it is permanently beautiful.

But even without the "double-value" of the Duplex Body the new Standard Six would still be the same great Studebaker success. For its introduction marks the beginning of an era in the automobile industry when fine cars of real quality, plenty of room and comfort, impressive appearance, splendid power and performance may be had at a price the average buyer can afford to pay.

NE minute the DUPLEX is a comfort- Surpassing mechanical superiority is obviable, weather-tight closed car — deeply ous in every mile you drive it. Power, smoothness, silence you expect in any good thirty seconds it becomes a delightful open six-cylinder car; but in this great car your expectations will be exceeded. You cannot anticipate such performance-perfection in any car even within hundreds of dollars of the new Studebaker Standard Six price.

> The proof is easy to establish - drive it yourself, try it out on your favorite hill, test its speed on the straight-away. Sense what "ease of operation" really means in terms of effortless steering, velvety clutch action, easy gear shifting and instant brake application.

> Experience what real comfort means in plenty of room, soft deep cushions; genuine balloon tires; long, supple springs.

> The new Standard Six will tell you a story as it has never been told before by any other car at the Standard Six price.

next year-you should see this new Studebaker. It is a car that will revolutionize values in the automobile industry!

Whether you are in the market now or

### Tobacco Far North Tobacco may be grown in every

part of Canada, even north of the 55th degree, a bulletin of the Canadian Pacific railway announces. The tobacco plants are grown as are cabbage. When it is felt certain that the last spring frost has occurred, the plants are set out. One Alberta farmer, living well above the 55th degree, has never failed to produce a

# All Help Unfortunate

A singular custom prevails among the Tartars or Kurds. If a man loses his cattle or other property he pours a little brown sugar into a piece of colored cloth, ties it up, and carries one such parcel to each of his friends and acquaintances. In turn he is presented, according to circumstances, with a cow or sheep or a sum of money.

### Object Lesson Should Have Impressed Youth

A boy returned from school one daywith a report that his scholarship had fallen below the usual average.

"Well," said the father, "you've fallen behind this month, have you?"

"Yes, sir."

"How did that happen?"

"Don't know, sir."

The father knew, if the son did not. stood upon the floor, and he said:

"Empty out those apples, and take the basket and bring it to me half full of chips." Suspecting nothing, the son obeyed.

"And now," he continued, "put those apples back in the basket." When half the apples were replaced,

the son said:

"Put them in, I tell you."

"But, father, I can't put them in." "Put them in! No, of course you here. can't put them in. Do you expect to fill a basket half full of chips and then fill it with apples? You said you did not know why you fell behind at school. I will tell you. Your mind is like that basket. It will not hold more than so much, and here you have been for the past month filling it up with chip-dirt-cheap novels."-Bombay Guardian.

# Cruel Human Sacrifices

Part of Aztec Religion

In ancient Mexico, the Mexico of the Aztecs, human sacrifices were not only the custom, but practically the only sacrifice offered. But mostly the sacriflers were composed of offenders, law-breakers and enemies. Enemies were generally offered up in preference to victims of their own race.

Another civilization much like the Aztec was the Incas. The Aztecs and son flied to left. No run, no hit. no off Rupp 5; Briggs 2; Rahl 1. Left misfortune to break her arm while the Babylonians, although the moon was a sort of lesser divinity to each, finding its counterpart in the Egyptian

The human sacrifices were unnecesand laid upon a regular sacrificial table impulse of the current keeps the huge SCHOOL NOTES BURLEIGH NO. 4 children of Alabaster visited on the and had his heart cut out by a few incisions, or else was put upon an eminence and armed with a blunt' wooden sword. He was then attacked successively by men armed with obsidian swords and very sharp. He dences of these cruelties have been

There was another custom, that of a priest praying a person to death. This was believed quite possible. Anyone whom a priest was known as praying to die was certain to die. For the most part they did, killed by terror-Bruce Bryan, in Art and Archeology.

# L'and Ruled by Insects

After an African trip an English explorer said that on the dark continent the fly was the ruler of man, for the human was constantly battling with it. "Africa," he says, "is but an ant heap. What a land of insects! zie visited at Mr. and Mrs. Mile What a power they wield!" This is the sort of country it is: "We journeyed Victor Bouchard drove to Detroit down to the valley, starting early to a "Jew's piano." The fur trade has with his sister, Mrs. Fisher and lit- white men, armed with fly-switches, tle son, to assist in the care of their each with an ear attuned to the buzz of the tsetse fly behind him. In six days we reached the Luangwa river, which runs at the valley bottom." It was a wild spot where the canoe awaited Mr. Barnes and his fellow travelers. The banks were lined with Mr. and Mrs. John McArdle, Jr., great mahogany trees, raffia palms and and infant daughter and Mr. and hanging monkey ropes. Brilliant birds Mrs. W. Sherman and two children and butterflies were there. "Elephants drove up from Bay City Sunday and came there nightly to drink," says spent the day with Mr. and Mrs. Mr. Barnes. "Hippos snorted in the John McArdle, Sr., They returned pools. The broad river alone was alluring after the arid bush behind us."

### Monopoly Long Held The mill near Windsor, England.

where paper for bank notes has been manufactured since 1724, was founded by a French Huguenot. Before this gentleman, Henri Portal, undertook the making of the paper, bank notes contained no watermark. He introduced one consisting of a looped border running round the outside of the note, and on the left-hand side a somewhat intricate scroll. The family Edgar Bradford, wife and baby monopoly has existed for 199 years. It was not held without a struggle in the early days, for a document of 1737 Mrs. Irvin and two children visit- tells us that-"There was an opposition at this time by One Judd at Yewell paper mill by which means ye Price was lowered 18 p. Ream, and the duty. Felting and carry to London all struck off and to be pd, and done by ye Maker."

### Light Cellar Best If the beams of cellar ceilings are

covered with wall board and then given two coats of battleship gray paint, or a lighter tone, dust from ashes, coal and cement floor will not sift into upper rooms. If cellar floor and walls are painted, dust will be further prevented and lighting improved. Outline all corners in white, germs and vermin do not find the painted cellar attractive.

# IRRIGATION WHEELS USED IN CALIFORNIA

### Water Device Used to Irrigate Lands.

In certain portions of northern California there are still sections that can be rendered very fertile only by the addition of water. There are as yet no government reclamation projects in operation in such districts on any great scale and land owners in many cases must rely upon their own resources to improvise adequate irrigation facilities. Particularly is this true along one narrow valley near the Klamath river. Along that stream have been placed

a number of "irrigation wheels" that, in the aggregate, furnish an adequate supply of water for all kinds of crops grains, grasses, orchards, vegetables, etc. Generally, these wheels are about 80 feet in diameter, and are strongly built of wood. Along the outer circumference are placed "float boards" or paddles. The wheel is immersed sarily cruel. The victim was either several yards in the water and the time. Placed at the interval of every are large boxlike metal buckets. These are filled as they dip into the water, are hoisted by the revolving wheel to the top and the contents poured into troughs on each side These timber water flumes lead into ditches dug along the steep banks of the stream. Many of these ditch flumes are miles in length.

> As these wheels run perpetually, great stores of water are thus collected and distributed among the thirsty crops of the ranchers for leagues on both sides of the narrow winding valley.

October 5 to 11, has been proclaim- four need not start for they are due ed Fire Prevention week by Gov. A to public carlessness and ignorance, Grosbeck. Fires occur in American both correctable. Carless smokers Chas. Mark spent the week end homes at the rate of 359 every cause many fires. Safeguard your 24 hours—a fresh out break every family and your home by being care-
