The first number of the Redpath Lyceum course given under the auspices of the Twentieth Century Club will be next Monday evening at the Auditorium, Tawas City. The initial number will be the Faubel Entertainers.

CLARENCE FAUBEL

The Faubel Entertainers offer a program that is highly entertaining and filled with variety from beginning to end.

Character sketches in costume, monologs and musical readings are featured with the aid of wigs and grease paints.

Italian, Irish, Swedish, Scotch and rural characters are faithfully reproduced by Mr. Faubel, and in practically all of his work he is ably assisted by Mrs. Faubel. She also is an impersonator and a musician of real excellence.

One of the most effective programs offered by the Faubel Entertainers represents a rehearsal for an old-fashioned "Literary" of forty years ago. The scene is laid in the little red schoolhouse. Fourteen characters are portrayed in costume. In the instrumental part of this "take-off" there are such old-time fiddle numbers as "Leather Breeches" and "The Arkansas Traveler."

Another of the Faubel features that has been much praised by audiences is their one-act sketch, "Dust of the Road." It portrays four characters and with its serious lesson holds the keenest attention of an audience.

### ERNEST JOSEPH KENDALL

The community was shocked and grieved on Thursday when they learned that Ernest Kendall, youngest son of Mr. and Mrs. Michael Kendall had passed away on Thursday, Oct. 9, after a short illness of two days.

Ernest was going after the cows on horseback when the horse he was riding stumbled and threw him off and rolled on him. The boy finally got to the house and at the time was thought to be not seriously injured.

Ernest Kendall was 15 years, 2 months and 7 days old at the time of death and is survived by his parents, Mr. and Mrs. Michael Kendall, five brothers, George, Arthur, Reynold, Walter and Hubert, four sisters Mrs. Mary Gaiser, Mrs. Ella Geodecke, Mrs. Elizabeth Ross and Miss Lydia Kendall.

The sympathy of the community is extended to the bereaved parents and family in their great loss.

## OMER WINS N. E. MICH. LEAGUE BALL PENNANT

The following account of the final game of the Northeastern Michigan pennant series appeared in this week's Standish Independent:

The base ball world may now rest contentedly through the winter months. The World's Series and the series to decide the pennant winner of the Northeastern Michigan league are over. The only difference between these two series was the "class." The Northeastern Michigan classic did not end though until this event had been definitely decided. "If" Pincoching had succeeded another game would have been necessary to decide the winner. Omer however, decided they had enough base ball for the season, so stepped out and completely crushed Pincoching 13 to 1, which, based upon this series, really showed the relative strength of the two outfits.

Seemingly Pincoching can't stand the thrills of a "big" series. The boys get all fussed up and go all to pieces on chances they usually handle in easy style. On the other hand, Omer slew the Pinny boys with cool deliberation. Never once did they let up in their punishment. Temporarily they were stopped in the seventh where Howard Pagel struck the entire side out. Thereafter Howard regretted his rashness. Five hits and four runs with some bad support, netted the final scores for Omer.

While his mates were pounding the offerings of Krueger, Goode and Pagel for 14 safe blows. Emerald Clayton held Pinny batters to five hits, one run, and struck out 13, considered an excellent day's work by most pitchers. Warren, with a homer, triple and two doubles, Zinnegar with three singles and Roll, Munroe, Snider, Willis and Clayton with two hits each, put to rout the three Pinny pitchers. Some splendid fielding by Warren and Zinnegar in particular and the entire Omer outfit in general strongly backed Clayton's fine hurling.

### BIRTHDAY SURPRISE

A most enjoyable evening was spent Wednesday by the relatives and friends of Miss Irma Kasischeke, when they surprised her at her home, the occasion being her birthday.

The guests departed at a late hour wishing Miss Irma many happy returns of the day.

**FOREST SERVICE EXAMINATION**  
Special interest centers in the examinations this year, for the jobs to be filled, which have hitherto suffered from the low rate of pay, pre-dating the war period, now come under the new Federal Reclassification Act, and the salaries have been made more in keeping with the responsibilities of the work required and the present costs of living. The new salary scale is approximately \$1,620 a year for beginners, or \$1,500 where a fully equipped station, house, barn, etc., are furnished by the Government. All forage costs too, are paid where horses are needed, or with an automobile used in the forest service work, rangers are paid at the rate of 7 cents a mile, which is deemed sufficient to cover the costs of tires, oil and gas used in official business. For full experience after several years' satisfactory work, the forest ranger can look forward to a maximum salary of \$1920 or \$2040, depending on whether or not quarters are furnished, for a ranger on the average district, or \$2300 to \$2400 on some of the most important districts.

The out of door work, the many chances for self-education and correspondence courses offered and even insisted on for Forest Rangers, have always appealed to strong, bright young men, looking forward to a responsible position with the Government. A fair degree of successful schooling, good health, and ability and willingness to try new methods, meet day to day emergencies, are among the usual requirements of a successful ranger. Some previous experience as a guard or under some ranger already in the service are desirable, but not essential. Uncle Sam is looking for young men already acquainted with life in the outdoor west who are able to learn quickly under expert and sympathetic instruction and who will be loyal to their comrades and organization.

The examination is open to men between the ages of 21 and 35 years. Application blanks may be secured from the office of the Forest Supervisor, East Tawas.

## NATIONAL SEC'Y WILL SPEAK AT CHRIST CHURCH

The Rev. Franklin Jones Clark, Sec'y of the National Council of the Episcopal church will speak in St. John's church, AuSable at 2:30 p. m., Eastern Standard, Monday.

Christ church, East Tawas, 7:30 p. m., Central Standard, next Monday, October 20.

Dr. Clark, due to his contact with affairs in the National Council of the Episcopal church over a long period of years, has an unusually intimate knowledge of the work carried on by the church both at home and abroad. Each year several scores of missionaries, part of the more than 3,000, who represent the Episcopal church, both here and in other countries, come to the New York office. Dr. Clark has, therefore, learned the human interest details of the church's work, which will especially commend whatever he may say to his hearers.

In his address on "The Church's Message for Men of Today," Dr. Clark will tell something of the remarkable strides in work accomplished, and the opportunities lying ahead of the church in the next decade.

The address by Dr. Clark on the church's program are part of a ten day campaign of education arranged by the Diocese of Michigan and participated in by five speakers of national reputation, the effort being made to reach at least 20,000 Episcopalians in about 100 different parochial centers in the Eastern part. The southern peninsula, which is the portion included in the Diocese of Michigan. The Diocese of western Michigan and the Diocese of Marquette, being separate jurisdictions.

## Why the FLORENCE is the Best Heater

The Florence construction adds to the ordinary heating power of the fuel, the heating power of the gases evolved from it. By burning the gasses emanating from the fuel in the process of combustion, saves the user what has heretofore passed up the chimney and been wasted in other makes of stoves.

### AS A RESULT---

The Florence stove requires less fuel to obtain the desired temperature of the air, a large saving in fuel bills is effected and an excessive accumulation of soot in the pipes and chimney is avoided.

The Florence burns anything combustible and leaves less ashes than any other stove.
