OUR COLUMN

BY O. W. L.

Why not get expert witnesses in divorce cases? Most men probably could have it made clear that they were temporarily insane when they married.

No wife can ever endure a gambling husband unless he is a steady winner.

Where do your children learn at their bad language? We live near the income tax collector's office.

Do you think you could care for a fellow like me? Oh, yes, I think so—if he wasn't too much like you.

Customer—Will the handle come off this parasol?
Clerk—No, indeed, ma'am; you couldn't hammer it off—it's riveted on there.

Customer—Then I don't want it; I have a silver handle that I want to put on it.

Clerk (easily pulling off the handle and grinning sheepishly)—Well, ma'am you know we all have to tell 'em something.

Bobbed hair is no more likely to cause a woman to stray from the straight and narrow path than long white whiskers are likely to make a man a saint.

Alec—I think I have seen you before somewhere.

Alice—Perhaps you have. I've been there.

TAFI SCHOOL NOTES

Archie and Lamont Sherman are absent from school on account of illness.

Seventh and eighth grades have started fractions.

We have six of the latest maps in our school.

We would like to have the parents visit the school.

We have the windows decorated for Hallowe'en.

The teachers returned from the Institute reporting a fine time.

A sidewalk from the M. E. church to C. H. Ridgley's residence was built this week.

Mrs. H. Leslie and daughter left Sunday for their home in Los Angeles, Cal.

Word has been received here of the marriage of Miss Celia Abbott at Saginaw.

WHITTEMORE SCHOOL NOTES

There are about 115 scholars attending school this year.

The Bible is read in each room now. We also have a new library.

The school has had a number of visitors. Come again, all are welcome.

There have been a few absent on account of the harvest.

We had a teachers and parents meeting October 17. The people attending the meeting elected the officers. Cider and doughnuts were served for lunch. There were about 150 present.

The teachers attended the Institute at Bay City Thursday and Friday.

Lucile and Luella Sawyer started school Monday. Luella is in the primary room and Lucile is in the intermediate room.

Miss Fanny Wilson is our primary teacher. She has fifty three pupils enrolled.

The primary room is planning to do some Hallowe'en decorating and to have a party Friday afternoon.

The children enjoy modeling objects with their prepared clay.

The third grade have been studying the poem, "The Duel," by Eugene Field.

The second grade have learned five new poems.

Our set of drill cards are very helpful in primary number work.

Miss Clara Latter teaches the intermediate room. She has the fourth, fifth, sixth and seventh grades.

Delos Ducaup fell and had the misfortune of breaking his arm.

Leo Wilson is our high school teacher. He has the eight, ninth and tenth grades.

We have the largest ninth grade this year that we have had for some time. There are eleven enrolled.

The eighth and tenth grades gave a box social last week to earn money for graduation. The proceeds were \$25.00.

Lloyd Bowen is out of school on account of illness.

Lora Chard is at the head of the algebra class.

The tenth grade are learning "The Psalm of Life," by Longfellow for English.

All the pupils enjoyed the vacation during teachers institute.

Basil Goupil is back to school again after suffering with a cracked shoulder blade which he received while playing rugby.

Knew Only One Eagle

The fathers of the American republic decided upon an eagle as an emblem, and unfortunately the species known to them was the sea or bald eagle, feathered only to the knees, and a "piratical parasite of the osprey." The golden eagle, to which a change has been made on the coins of the country, is feathered to the toes.

Why the FLORENCE is the Best Heater

The Florence construction adds to the ordinary heating power of the fuel, the heating power of the gases evolved from it. By burning the gasses emanating from the fuel in the process of combustion, saves the user what has heretofore passed up the chimney and been wasted in other makes of stoves.

AS A RESULT---

The Florence stove requires less fuel to obtain the desired temperature of the air, a large saving in fuel bills is effected and an excessive accumulation of soot in the pipes and chimney is avoided.

The Florence burns anything combustible and leaves less ashes than any other stove.

New Type of Car Stirrs Automobile World

It is an open car one moment and 30 seconds later same car is entirely enclosed. Studebaker Duplex ends need of hunting for side curtains in the dark and storm

A new type of car has stirred the automobile world as has nothing since the abandonment of the "buggy" style of body building.

It is the Studebaker Duplex, so called to indicate that it is an open car one moment, and 30 seconds later it is an enclosed car.

Like all great advances in the industrial arts, it is "so simple in operation, it is a wonder it wasn't thought of before" — — —

Particularly since its need has been growing, year by year, ever since automobiles were made.

Many people all of the time, and most people part of the time, want an open car—to bring to their riding the fresh crispness of the country air, and a free and untrammelled association with the great outdoors.

Yet for these same people, the snug comfort of the closed car, shutting out the storm and the wind and the cold, has been at times a necessity.

Two cars in one

The Studebaker Duplex is both cars in one. Just pull down the roller enclosures concealed in the roof of the car. In 30 seconds the open car has been made an enclosed car.

No hurried efforts to put up curtains; no hunting for the right one while the storm beats in; no mixing them up in the dark; no exposure through holes torn in them while trying to obtain, for the emergency, the protection given by a closed car — — —

Just pull down the roller enclosures giving instant enclosed car effect.

The body is built substantially—sides, corners and roof frame are of steel. The roof has curved steel

sides and back; hardwood front. Steel, U-shaped cross beams, six of them, support the waterproofed, duplex fabric top and its linings. Here is permanent beauty, no sagging tops.

But Studebaker, on which the whole vehicle-using world has come to depend for reliability, would not rest on only one real contribution to the value given the public.

It must give all that engineering ability could devise.

Striking new features

So there are offered three distinct models of cars, to meet each of the three fields of demand—the Standard Six, with 113-inch wheelbase and 50 horsepower motor; the Special Six, with 120-inch wheelbase and 65 horsepower motor; the Big Six, most magnificent and luxurious of its products, with 127-inch wheelbase and 75 horsepower motor.

Duplex bodies are available on each line. In addition, closed models have workmanship and materials and beauty of line so far above the price class of the car, they must be seen to be appreciated.

Of scarcely less importance than the Duplex feature are other improvements such as, automatic ignition system, lighting control on the steering wheel, new location of emergency brake, improved one-piece windshield and many others.

The body lines, steering mechanism, and even the fenders of the new Studebaker were designed especially for genuine balloon tires. Thus the body lines harmonize with grace and beauty hitherto unattained, even by Studebaker.

Come in and see these new cars.

FOREST RANGERS AT WORK ON AGRICULTURAL CENSUS
(Continued from first page)

be reported, for the calendar year 1924.

In order that ranchers and farmers may be familiar with the schedule and may know in advance what questions are to be asked of them, 5,000,000 sample copies of the schedule have been distributed to them individually through the rural mail carriers in all parts of the country. The farmer has been requested to fill out this sample schedule and keep it until the census enumerator calls. If the farmers generally will do this, the work of the enumerators will be much easier and the census can be completed more quickly than would otherwise be the case. It is believed also that many farmers will appreciate this advance information as to exactly what the census will cover.

It is hoped and confidently expected that this will be the most complete and accurate census of agriculture that has ever been taken in the United States, since previous farm censuses have been taken in connection with the census of population. The success of the census depends largely of course, upon efficient work upon the part of the supervisors and enumerators. However, it will be affected to a great extent by the co-operation of the individual farmer for it is the individual farmer who must furnish the information upon which the whole census is based.

English Superstition

There are many English superstitions connected with babies, the most interesting of which being what is known as "the christening bit." On the way to the christening the nurse must take with her a small bag of biscuits, which she must offer to the first person she meets. If he refuses, the child will be unlucky, but if he accepts, then good fortune will smile upon the babe.

THREE AMMENDMENTS TO BE VOTED ON
(Continued from first page)

On or before the first day of September of each year, the auditor general shall deduct from the total amount directed by the legislature to be included in the state tax, for that year, the amount of money received under the provisions of this amendment and credited to the general fund of the state for the current year and the balance if any shall be deemed to constitute the state tax to be apportioned among the various counties of the state in accordance with the provisions of the general tax law.

Dividing the territory of the state into senatorial and representative districts.

Amendment to Article V of the constitution dividing the state into senatorial and representative districts.

Section 2. The Senate shall consist of thirty-two members elected for two years and by single districts. Such districts shall be numbered from one to thirty-two inclusive, each of which shall choose one senator. The House of Representatives shall consist of one hundred members elected for two years and by single districts. Such district shall be numbered from one to one hundred inclusive, each of which shall choose one representative.

Section 3. The secretary of state, the attorney general, and the lieutenant governor, acting as a board of review, shall on or before the first day of April, 1925, and every eighth year thereafter, divide the territory of the state into thirty-two senatorial districts. Such districts shall consist of convenient and contiguous territory with regular boundaries following the county, city, or township lines as nearly as possible and shall contain, as nearly as may be, an equal number of registered and qualified voters. The secretary of state, the attorney general, and the lieutenant governor, acting as a board of review, shall on or before the first day of April, 1925, and every eighth year thereafter, divide the territory of the state into one hundred representative districts. Such districts shall consist of convenient and contiguous territory with regular boundaries following the county, city, or township lines as nearly as possible and shall contain, as nearly as may be, an equal number of registered and qualified voters. Provided, that in the formation of such districts no township shall be divided thereby.

Section 4. On or before the first day of January, 1925, and every eighth year thereafter, the clerks of the several counties, cities and townships shall cause to be filed with the secretary of state a certified statement of the number of registered and qualified voters resident therein at the last presidential election.

Somebody Forgot His Cue

It was a sleepy sort of day, the class was about half the usual size and the "prof." was calling the roll in a half-absent manner. To each name some one had answered "Here" until the name of Smith was called. Silence reigned for a moment only to be broken by the instructor's voice: "My word! Hasn't Mr. Smith any friends here?"—College Humbug.

Arrests at Night

In Sweden, unless the person wanted by the police is a desperate criminal, his arrest is usually deferred until night in order that he shall be spared the ignominy of being marched captive through the streets before the gaze of the public.

Geese and Pillows

An idea of the number of geese that are plucked to supply feathers for pillows may be gained from the fact that the feathers on 90,000 geese were used for the pillows of a hotel recently opened.

RENO

Come and buy your Christmas presents. There will be something for the whole family. Mr. Welsh shipped several loads of cattle last week. Jas. Charters, Sr., is on the sick list.

Named by Norwegians

Centuries ago there was a great deal of traffic between Scotland and Scandinavia, and a curious survival is Sutherland, which though the most northern county of Scotland, was given its name as the "southland" of Norway!

Errors Increase in Summer

Clerical errors are low in spring, increase markedly in summer, decrease in the fall and again mount in the winter, according to tests made in business offices by a noted psychologist.

GREENWOOD SCHOOL NOTES

The fifth and sixth grade are learning poems in grammar. Miss Lillian Van Patten, Miss Ellen Smith and Miss Leona Brown visited our school last week. Our drawing paper came and we are busy drawing which is enjoyed by all. Our school was closed last Tuesday afternoon on account of Mr. Coat's funeral. Some of our pupils were absent last week helping to do the work at home. We have got our new Bible in school now. Mrs. Jersey spent the week end with her niece, Mrs. Geo. Bamberger. Henry Biggs, formerly of this place, was married last week in Saginaw. They came up and spent the week end with Mr. and Mrs. Lester Biggs, and Friday evening went to Tawas where a happy bunch gathered to greet them. When they returned they received a real old fashioned charvari. The many friends wish them many happy years to come.

Ship's "Mate"

Our word "mate," the ship's officer, is derived from "gemacen," meaning an equal or companion. Today the word mate is also used in a slang sense for friend or comrade. The sea sense of the word is that the mate is the equal to the captain in capacity, able to assist him, and, if necessary, to take his place.

Old English Residence

Probably the oldest inhabited house in England is Ludlow town court, Kent. The late St. W. St. John Hope said that it dated from "1120 or perhaps earlier."

BURLEIGH SCHOOL NOTES

We are busy preparing for our Hallowe'en entertainment. Gordon and Rolland Kottke from Illinois have entered school. Our costumes are completed for Hallowe'en and we had our pictures taken. The teachers convention afforded us a fine vacation but we are glad to get back to school. The primary grades enjoyed making posters last week. The busy fingers have been folding and cutting paper in the form of cats, pumpkins, apples, witches and brooms. Our percentage of attendance for October decreased from 93 per cent to 83 per cent on account of the harvest. Ruby Grim, Helen Squires and Margaret Westover have been neither absent or tardy for two months. We have the front of our school room transformed into a beautiful stage for the entertainment October 31. Death and the devil, the witches and their black cats have promised to be here, and the goblins will get U if you're not there.

Rules of Chinese Cooking

The rules of Chinese cookery are very clearly defined and demand great attention to the smallest detail. For every dish the meats and the vegetables must always be cut into small pieces of uniform size.

Skyscrapers Shrink

Few people know that the skyscrapers of our modern cities shrink in winter, as the steel of which they are built contracts. This shrinkage is .031 of an inch for each degree of temperature change.

MEADOW ROAD

Mrs. James Chambers attended the Sunday school convention at Saginaw last week. Miss Gladys Latham and Clarence Herriman drove up from Detroit on Saturday and visited at their homes over Sunday, returning to Detroit on Monday. Mr. and Mrs. Austin Allen and two children, Jack and Floybelle, and Mr. and Mrs. Earl Allen and Blythe, drove to Flint Friday for a short visit with relatives and friends. They returned Sunday. Miss Sophie Blust of East Tawas visited at the home of Mr. and Mrs. John McArdle on Sunday. Stephen Mahalski is driving a new Overland. Joseph Fisher has rented the Mart Long farm and is preparing to move there. Mrs. John McArdle visited her daughter, Mrs. John Katterman, Jr., on Monday. Mr. and Mrs. John Rapp and children visited friends on the Meadow road Sunday. Mr. and Mrs. W. E. Laidlaw attended church on the Hemlock Sunday afternoon.

Reflections of a Bachelor Girl
By HELEN ROWLAND

IN THE old-fashioned love story, there was always the climax, where the hero "folded the heroine in his arms, at last"; but, nowadays, he does it at FIRST—and all the rest is anticlimax.

"Duty" is what a man always thinks of quite suddenly, when a game, a flirtation, or a woman has begun to pall; conscience is the reaction that follows boredom.

From the present rapid-fire love affairs and divorce-court-to-altar marriages, it looks as though Cupid had thrown away his arrows, and bought a machine gun.

Don't fancy a man is in love with you while he talks about his triumphs—wait until he begins to tell you his troubles.

If there are really microbes in kisses, then perhaps a microbe has more sense than we gave it credit for.

To be popular in this world, all you need to remember is that every woman loves to be looked at and every man loves to be listened to.

Hail the Jazz-boy! His only books are woman's looks—and mercy! What they've taught him!

Honor Belongs to Bacon

One hundred and twenty-five years before Columbus discovered America and practically determined the shape of the earth, Roger Bacon, the great English Franciscan friar, taught that the earth we live on is a sphere.

Simplicity
Cultivate simplicity, Coleridge, or rather, I should say, banish elaborate-ness; for simplicity springs spontaneously from the heart, and carries into daylight its own modest buds, and genuine, sweet and clear flowers of expression; I allow no hotbeds in the gardens of Parnassus.—Charles Lamb

Bakery Does Big Business
One bakery in this country uses 60,000 cases of blackberries, cherries, blueberries, pineapples, strawberries and raspberries every year in making pies.
