Night-time Daylight for Farm and Home

You can, now, have the light others enjoy and do away with all the bothersome features of old style

oil lamps. The Quick-Lite gives the most brilliant light you ever used—without eye-straining glare, or injurious flicker. For general home use, there is nothing better. Ideal for reading and sewing because the pure white light of the Quick-Lite is a natural light, easy on the eyes, more restful than electricity, gas or kerosene.

Coleman Quick-Lite

Lamps and Lanterns

Make and burn their own gas from common motor gaso-line. Give 300 candle power of brilliant light. Light with matches, no torch needed. No smoke, no soot, no odor. No wicks to trim, No chimneys to wash. Made of brass, heavily nickeled. Can't spill fuel or explode, even if tipped over. Cost to use a trifle more than a cent a night. Lamp is fitted with Universal Shade Holder. Lantern has mica globe. Won't blow out in any wind. Rain-proof and bug-proof. Built to stand all the hard-knocks of after-dark farm-work—feeding, milking, hauling, plow-ing, harvesting, grading, ditching, building—any job, anywhere.

Word's Real Meaning

When we say "going downstairs," we really mean, if the phrase is used rightly, "going up." "Down" is derived from the Saxon word "dun" which means a hill or upland. The opposite to "dun" is "a-dun" so what we should say when a descent is meant 's "going a downstairs."

The New Studebaker

Know what's underneath the paint before you buy

TOU wouldn't think of buying a house I without first knowing how it is built and the quality of materials used. In selecting a piece of furniture you are sure to find out whether it is solid wood or veneer.

Yet many people who exercise care in most purchases buy automobiles without even lifting the hood or knowing about the hidden qualities of body and chassis construction that really determine one's satisfaction with a closed car.

We want you to know about the unseen qualities of the new Studebaker Standard Six Sedan.

Down underneath its superb body finish is a sturdy framework of carefully selected ash, glued together and fastened in place by screws -not nailed. Ash is scarce and expensive, but Studebaker uses it because it best combines proper weight and strength.

Upholstery is genuine mohair of high quality. Various grades of mohair look much alikethe big difference is in the quality.

nests of cushion springs, padded with heavy of the Studebaker Standard Six Sedan.

burlap, upholstery cotton and curled hair. Almost any car seems comfortable on the showroom floor, but it's quality such as this that makes the Studebaker Standard Six remain comfortable after years of service.

The same standards of excellence are maintained throughout the body and chassis. In the engine, for example, the crankshaft is completely machined on all surfaces, a practice that results in the smooth, quiet, vibrationless performance that characterizes all Studebaker cars.

Judged solely on what your eye can see-in beauty of line and finish and exterior refinements-the Studebaker Standard Six Sedan will command your instant approval.

But go deeper than that. Compare its hidden, vital qualities-its design, materials and workmanship-with cars selling for hundreds of dollars more.

Studebaker never compromises-never uses a substitute for genuine quality. Studebake: has been building quality vehicles for 72 years. Beneath this mohair covering are many Come in and let us tell you the "inside story"

Help Your Railroads Keep Tracks Clear

With every Railroad, passenger safety must be the first consideration always. That implies that there must be a clear track.

Asmotor vehicles multiply, this problem becomes increasingly difficult almost from day to day for the 24 steam Railroads of Michigan. Despite the most costly and carefully planned precautions on the part of the Railroads, crossing accidents are becoming appallingly frequent.

Such accidents are due to the growing recklessness of the motorists. Yet each accident also imperils the lives of trainmen and passengers.

Separation of grades can never solve this problem, for crossings are multiplying far faster than grades can be separated. And, with each separation costing from \$70,000 to \$100,000, the entire wealth of Michigan could not accomplish the task.

The public demands of us speed-quick delivery-for passengers, mails, freight. To keep our tracks clear for this efficient service, and to maintain our standards of absolute safety, we must have cooperation at crossings.

Most motorists give this cooperation by heeding our request to Stop Look, Listen. For their own protection, as well as ours, those who do not heed this request should be made to do so by the mandate of Law.

Do you agree? Write us your verdict.

Collar and Cuff Sets

Everybody goes about the ordinary business of life, in plain dresses of dark woolen cloth, that depend upon collar and cuff sets to lend them variety and a dainty flavor. Therefore these sets are among the most acceptable of Christmas gifts. An endless variety of embroideries in white or in fathers. A belfry, which originally bright colors, comes by the yard, in straight or curved sections. One has rectly a belfry, i. e., a watch tower. A only to stitch these sections to bands certain kind of apple used to be known of lawn, to make a set like that pic as a costard, and a dealer in this fruit tured. Other sets are made of net, as a costardmonger, and later on as a lace and sheer fabrics-the last fin- costermonger. Similarly, a grocer was ished with needlework in embroidery or fancy stitches.

The M. E. Ladies Aid are planning for a bazaar December 5.

Sunday, Dec. 7, is White Cross day at the M. E. church. We shall have an opportunity to help Bronson's hospital in its free bed work. This kind of work is certainly christian for you remember Jesus healed the sick and that is what Bronson's hospital is doing every day in the year.

The Philathea class has been trying to get a box of canned fruit together for Bronson's hospital for several weeks. If anyone can spare a can of fruit bring it to Mrs. J. Earhart or the parsonage and this applied christianity will go forward.

A school of Instruction was held at the Masonic lodge room, Monday evening. Mr. Gilbert, Grand Lecturer of the Grand Lodge of Michigan was in charge. At 9:30 a banquet was served in the dining room by the Eastern Star lodge to 60 members. We are expecting some new library Visitors were present from Hale, Tawas City and East Tawas.

FATHER AND SON BANQUET

A Father and Son banquet was held at the M. E. church Thursday even-Christmas pieces but we haven't ing with 60 men and boys present. At 7:00 o'clock they sat down to a The beginners are getting along bounteous feed provided by the Philathea class.

Mr. Price of East Tawas acted as toastmaster and evidently had studied for the the occasion as he knew a lot about everyone on the program. The pastor gave a word of welcome.

A recitation by Ardon Charters entitled "Dad for Mine." Roy Chartlover. He sent epistles to the lady of ers talked on the kind of son I would his choice, who promptly sent them like to have. Rev. Hartley Cansfield back, refusing to pay for them. The of Bay City gave the address for the evening and it was greatly enjoyed.

The boys rendered a song and an orchestra number which were well received. There were also yells by the boys for Dads and the ladies got uncontroable and had to yell once or twice also.

This Father and Son banquet will no doubt be an annual event from

Yuletide Candles

Christmas without candles would be as disappointing as summer without flowers and every home-maker knows their charm and decorative value. A candlestick of paper rope, carrying a tall candle decorated with sealing wax paint, is a lovely homemade gift for either men or women friends. The rope may be bought ready for weaving and it is an easy matter to paint the candle with sealing wax paints.
