Oh! What a surprise, when some 16 of the women folk of the Methodist church gathered at the home of Mrs. Wm. Osborne to pay her a little visit, reminding her that she is going the way of all flesh, and still, in spite of all her efforts is getting older. But it, like herself to remain young. They all were comforted together with the thought of making the very best of it, and trying to be young, thus playing games of various kinds, after which a delicious lunch was served. I understand that they all reached home safely under the protection of Mrs. Horton and Miss Worden, who played the part of guardians or overseers to the young ladies.—contributed.

## SCHOOL NOTES

**Seventh and Eighth Grades**  
The attendance record isn't what we wish it would be. Of course we realize that most of it is due to illness. Meta Zollweg has been out of school for the past week on account of illness.  
This room and the fifth and sixth grade room are learning some new songs to sing during morning exercises.  
Alvin Cholger is only one from this room who must stay home the remainder of the week on account of other members of the family having measles.

**Fifth and Sixth Grades**  
We had a contest in multiplication, addition and subtraction last Friday afternoon. The fifth grade had the highest average of the two grades.  
The pupils of the fifth grade language class are writing letters to Rose Watts. Rose left us to go to Gaylord at Christmas time, and she is anxious to hear from us. The fifth grade has just begun the study of letter writing, so the letters to Rose will be good practice for them.  
Several pupils are absent from school because of measles.

**Third and Fourth Grades**  
We are very sorry that several children from this room must be absent because of measles.  
Albert Quick and Nelda Mueller of the third grade and Vance Webb of the fourth grade had perfect spelling lessons every day last week.  
We have a lovely blooming hyacinth in our room which was brought by Dorothy Davison. It reminds us of spring.  
The fourth grade has been striving for neatness in arithmetic. Most of the papers show a decided improvement.

**Primary**  
We are very sorry about the way the measles are spreading in our room. Our attendance has dropped 50 per cent.  
Arthur Zeihl has the most gold stars in our second grade reading contest.  
We are reading about Holland and have a Dutch scene in our sand table.  
Two people in the beginners' class have been allowed to go in the A class. We hope there will be more soon.  
Our tardy marks are showing up again. We had three weeks without any.

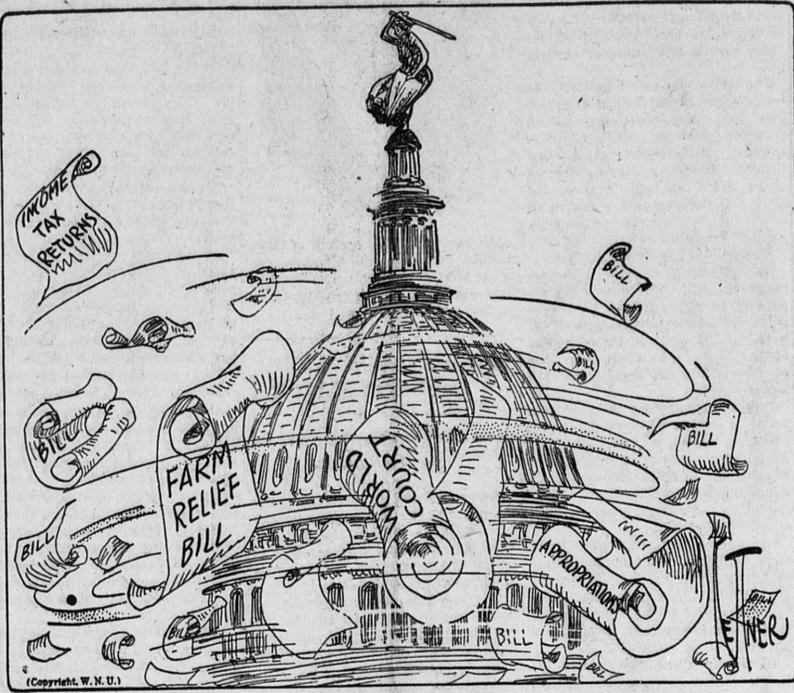

**Ward School**  
The third grade are making a flag for handwork.  
The second grade are memorizing "The Wind" for language.  
Thomas Thompson is the only one who had A in spelling last week. We had no failures however.  
Hugo and Janet Keiser are absent this week.  
We are learning a new action song which we all enjoy.

**WHY "THREE FACES EAST" IS DIFFERENT**  
There is a vast difference in motion pictures as every fan knows. Where the "Coming of Amos" was a melodramatic comedy, "Hell's Highroad" a sophisticated drama of New York society, "The Wedding Song" an amusing crook comedy and the "Road to Yesterday" a strictly dramatic story covering a period of three centuries, "Three Faces East," which will be on view at the State Theatre, March 7 and 8, steps off into the entirely different realm of the mystery story.

Jetta Goudal, Robert Ames, Clive Brook, Henry Wathall and Edythe Chapman head a list of players of unusual strength. They are particularly picked by Director Julian because of their personal fitness for the strong roles in this fast moving romance of the secret service in which a clever girl spy and a clever man are pitted against each other.

Clive Brook, whose appearance in recent Ince and Warner Brothers pictures have proven him a coming favorite, has the arduous part of Valdar the butler. Miss Goudal plays jointly Miss Hawtree of England and Fraulein Marks of Germany, and the mystery as to which side she really belongs to is maintained to the end of the story.  
Robert Ames, the clever New York stage actor who made his first screen appearance in "Without Mercy," plays the part of an English aviator. Henry Wathall plays the role of Chief of the British Service while Edythe Chapman (the mother in "The Ten Commandments") plays the part of his wife.  
Rupert Julian not only directed "Three Faces East" but he has recreated his famous role of the "Kaiser" in "The Beast of Berlin."

## Whirl of March Winds

Stephen Budzynski, age 82 years, Alabaster township farmer, died at his home February 23, after a paralytic stroke.

### NOTICE

To the People of Iosco County.  
The school census will be taken from March 11 to 31 this year. Will you kindly help by having the names, ages and dates of birth ready for the census enumerator when he or she calls at your home? The names of all children between the ages of 5 and 20 are required. The amount of primary money that your district receives from the state depends on the number of names your district has on their census list. Your school tax may be more or less next year according to whether your district has few or many names of children between the above ages. Margaret E. Worden, County School Commissioner.

### COMING—

### Card of Thanks

We wish to thank our many friends for their kindness shown us, especially the school children and Alabaster Grange for their flowers.  
Mr. and Mrs. Jacob Mielock, and family.

### FIRE PREVENTION TRAIN HERE TOMORROW

The Forest Fire Fighting flyer will be in Tawas City tomorrow (Saturday) morning. In the afternoon it will be at East Tawas. The Kanotin club will give a banquet this (Friday) evening to the visitors, to which everyone is invited to attend. The banquet will be held at the Hotel Holland.  
The train has made the circuit of towns on the Michigan Central up to Cheboygan and is now on its way down the Huron shore over the D. & M. Everywhere it has appeared it has been received with an enthusiasm that is surprising.  
The exhibits are unusual. They comprise displays showing a miniature national forest with fire towers, fire lines, rangers' quarters, plantations, etc., a miniature forest with a lake, game cover and recreational advantages, a neighboring waste that has been burned over, destroying its recreational appeal, charts and graphs showing statistics in connection with forest fires, portable motor equipment for fighting forest fires, displays of planting, a pictorial demonstration of the fighting methods, a radio, etc.

So great has been the interest shown at various stops and so large the crowds that lectures in some cases have had to be repeated in order to accommodate all who have been eager to hear them. "Prize packages" are handed to each visitor to the train.  
Some idea of the attendance at the cars may be gained from the following figures: At West Branch 650 adults and 200 children went through the train, 175 children heard a talk at their school and 150 sportsmen were present in the evening. At Sterling 200 adults visited the exhibits, 100 adults heard the lecture and 125 children were addressed at school. The total Gladwin attendance was 1,262, equal to the population of the town. One school teacher brought a class nine miles. Two boys came 17 miles to see the train.

### "HELL'S HIGHROAD"

"Hell's Highroad," starring Letatrice Joy, which comes to the State Theatre on March 9 for a two day run is the first of the DeMille pictures to appear since that director has entered the field independently to make his own productions.  
For many years DeMille has been associated with one of the largest producing companies in the business, so long in fact that the names of the two were almost synonymous. When it was announced a few weeks ago that he was to leave and form his own company, the news caused a stir, not only in inner circles of the picture industry but in the world of playgoers generally.  
"Hell's Highroad" has been widely heralded and admirably received, both at its New York opening a short time ago and wherever it has been presented since. Local movie fans the great majority of whom are DeMille fans, are looking forward to this picture with additional treat of seeing Letatrice Joy in the starring role. Rupert Julian directed the piece and others in the cast include Edmund Burns, Robert Edeson and Julia Faye.

### WHAT'S COMING TO THE STATE

I had a letter from my booker in Detroit today and he told me that "Lightnin'" will strike this town on March 14th. I knew it was going to hit here soon and last week I gave you an advance tip on it, that's why I put lightning rods on the theatre. "Lightnin'" has had the longest comedy drama run on Broadway with the possible exception of "Abies' Irish Rose," and if you like wonderful human interest stories with plenty of rich comedy in it then "Lightnin'" is your show.  
I don't want to get ahead of my story and for that reason I want to tell you a few little things about our Sunday show. "Three Faces East" is what it is called and, Oh Boy, what a story. It keeps you guessing every minute and then it comes out different than you expected. It sure has a dramatic ending and with out doubt it will be one of our best bills on our March program.  
Were you at our last Merchants Night, last Wednesday. Oh My, Oh My, how they did laugh! It was cream from start to finish, and everyone enjoyed it. This is not an exception show for Merchants' Night. We are going to try and get them all as good. So if you want to get a real bargain get a ticket from your local grocer or meat man and come on over, next Wednesday. The Manager.

If John McArdle will call at the office of the Herald he will receive two tickets to the State theatre free.

## CHILD ACCOUNTING LAW

The school census will be taken from March 11 to 31, which is somewhat earlier than has been done previously, states County School Commissioner Margaret E. Worden. This change in time is due to the new Child Accounting Law, which has gone into effect this year.  
The basis principle underlying the organization of a state wide system of child accounting is the need for a permanent and continuous record of every child. It is therefore necessary to hold every district responsible for each child of school age in residence until such child has moved to another district or is accounted for in any one of the legal ways required. Such a procedure automatically eliminates the "temporary left out."  
The following law is Act No. three hundred one of the Public Acts of nineteen hundred twenty-five, same being an amendment of Section five thousand six hundred eighty-nine of the Compiled Laws of nineteen hundred fifteen, as amended.  
Section 22. There shall be taken in each school district of this state a school census during such time as the Superintendent of Public Instruction shall prescribe for the purpose of correcting and adding to the continuous census record as shall be prescribed by the Superintendent of Public Instruction, and in the manner provided in this section.  
First, In all school districts having a population of three thousand or over the secretary of the board of education, or other reputable and capable person or persons employed by the board of education, shall take the school census of said city as follows:  
(a) The census shall be taken and reported for the whole school district or for such divisions of the school districts as the Superintendent of Public Instruction may prescribe.  
(b) Each enumerator shall make a list in writing of the names and ages of all children who are five years of age and under twenty years of age, whose parents or legal guardians reside in the school district, division or portion of the division allotted to said enumerator, together with the names of said parents or legal guardians, giving the street and residence number in each case. Said list to be in such form as the Superintendent of Public Instruction may prescribe, and it shall be verified by the oath or affirmation of the person making the same, by affidavit appended thereto or indorsed thereon, or in such other form as shall be prescribed, setting forth that the person or persons taking such census make a house to house canvass of the entire school district, division or thereof canvassed by said enumerator and that it is a correct list of the parents or legal guardians, their street and residence number, the names and ages of all the children of the ages aforesaid residing in the school district, division or part thereof as allotted to him.

Second, In taking the census in any school district the enumerators shall not include in the census the names of any child or children in reformatories or prisons; nor the names of any child or children in asylums, almshouses, or other charitable institutions except children in such institutions who regularly attend the public schools;  
(a) Children in such institutions and children living in the school district placed in homes licensed by the State Welfare Commission who regularly attend the public schools;  
(b) Orphan s whose parents at the time of death resided in such school district or city. Children of either class shall be included in the district where such institution is located. In all other cases the legal residence of the child is that of the parent. Children placed in homes licensed by the State Welfare Commission shall be considered residents of the school district where the licensed home, in which they are living, is located. The school board of a school district shall refuse to include in the census list of said district the names of children being cared for in said licensed home whenever said school board is served with a written notice by the Superintendent of Public Instruction that the school room or rooms of said school district are inadequate for school purposes, and that no greater number of names of such

## Roman Inheritance Law

In ancient Rome an almost sacred character was attached to the rights of children in inheritance. This is attested by the remarkable fact that a certain Roman father attempting to disinherit his issue was immediately placed under guardianship as a lunatic.

## Forget Value of Time

There is nothing of which we are apt to be so lavish as of time, and about which we ought to be more solicitous, since without it we can do nothing in the world. Time is what we want most, but what, alas! we use worst.—William Penn.

## March of Progress

The idea of a will being used as a means to disinherit or totally alter the line of succession without the consent of the heirs, as can be done in many states of this country, except for dowry interest of wife, is comparatively modern—a product of the philosophy of individual liberty of action.

## The Hotel Stenographer

"Who is she?" asked the House Detective

"A great-granddaughter of Jim Polk or Jack Adams or one of the other early Presidents," answered the Hotel Stenographer.

"You take much stock in family trees?" asked Kelly.

"Nix." The girl snapped her fingers. "Who couldn't find a bird of a big league ancestor if they dug back far enough. We all have two parents and four grandparents, and then sixteen and then thirty-two and then sixty-four and so on, so each generation spreads out fan-wise back into the past. In fifty generations one ancestry includes more people than there are now on earth.

"If in all that gang you cannot find one champion heavyweight you are a poor hunter. And for that one grand wop that you can tell everybody about, there are about one hundred butchers, bakers, candlestick makers, rag pickers and horse thieves.

"That dame there carrying her chin so high you'd think she had a bad egg for a breast pin and all because she had one big-gun ancestor. Wonder how many honest washwomen there were among 'em and how many men who lived off the money they made at the tub?"

"Kelly, if I can get by on my own I am satisfied. I am willing to let the good and bad deeds of my ancestors lie silent in their graves. They were all Irish and so they all fought and all loved and I rather suspect some of the men looked on the wine when it was colored and some of the women talked scandalous about their neighbors. I just take it for granted they were nice folks 'cause I'm nice folks myself. That's the safest bet. Anybody who rakes 'round in the dead ashes of the past is likely to find a hot coal and get burned."

**And an Invitation to Inspect the Wonders of Your Telephone Exchange**

Fifty years ago, on March 10th, for the first time in the history of the country, was the human voice transmitted by means of electrical impulses.

Fifty years ago, over a single wire and a "peculiar contraption" Alexander Bell carried on this first conversation, and his first words "Come here" still echo throughout the world.

The world marvelled at this phenomenal invention, for it was then that was born our telephone system of today.

The strides that this service has made from so humble a beginning are far greater than is ordinarily conceived. From two telephones connected with a single wire it has grown into millions of telephones, with a network of wires running into central distributing exchanges connecting

the whole land into one great community.

Today, your neighbor is only as far as your telephone. He may be only a stonethrow away, or he may be in a far off city, yet your telephone brings him at arms length. Day or night, whenever you please, your telephone places you in communication with loved ones, friends or business associates.

In our own state, the Michigan Bell Telephone System has more than half a million telephones, connecting with 125,000 telephones of other companies in Michigan and 16,000,000 telephones in the country. More than three million calls per day are completed in Michigan. Many men and women are employed constantly to give quick and efficient telephone communication. That has been the growth of your telephone service.

## Taxation in Plainfield Township

In giving statements and facts concerning taxes and assessments in Plainfield township, I want you to first understand that none of these statements are directed at any one person, it is where our money comes from, and where it goes.

We pay this year, \$1890.59 State Tax, our direct return from that is \$3959.30 by way of our Primary School Money, therefore our returns exceed what we pay by \$2068.71.

Our County Tax was \$2464.11, this money is used to pay the running expenses of the County, such as officers salaries, county poor, 8th grade examinations, etc.

We pay County Road Tax \$4182.25  
Highway Improvement \$1000.00  
Highway Repair \$2050.00  
Bridge Tax \$2544.00  
Road Dist. 3 & 4 at large \$4135.93  
Road Dist. No. 4 \$2755.51  
Road Dist. No. 3 \$1064.28

This makes the total amount of road tax paid by the people of Plainfield Township, 17731.97. This is nearly twice the amount we spend for the education of our children, the future men and women of our Township. People, think these things over.

The only way to get any of this road money back is to buy a STAR CAR and drive it. We have the agency.
