## JOHNSTOWN FLOOD

"The Johnstown Flood," Fox films' engrossing dramatic narrative which comes to the State theatre, April 22 and 23, centers around one of the most shocking disasters in the history of world horrors. The flood waters from the bursting dam which completely wiped out the city of Johnstown, Pennsylvania, on May 31, 1889, rushed with such awful fury that its name has been ever since, and will probably remain the synonym of great destruction by water.  
George O'Brien, Florence Gilbert and Janet Gaynor head the large cast of stellar film players appearing in the principal roles. Irving Cummings directed the production.

## Baseball Season Opens

## MEN'S SOCIAL A GREAT SUCCESS

The final of the monthly winter socials was held last Friday night at the Methodist Episcopal church, and was attended by over 70 people, which through the untiring efforts of Superintendent F. F. Taylor and the willingness and the co-operation of Messrs. McLean, Thompson and many others of our men folk, brought about this great success. The game master, Professor Cook, had the program well in hand, and from start to finish there was not one idle moment. A dainty lunch was served in first class style, everything was just as it should be, rolls, frankfurts, cakes, cocoa, flavored with marshmallows, last but not least, three colored brick ice cream, put a splendid finishing touch to the efforts of the men of our church and Sunday school in winding up a most helpful series of socials, in trying to meet the needs of our city. Well done, men! The ladies will surely let you try again.

## A PROCLAMATION

In again proclaiming American Forest Week it is fitting that, while giving full weight to the evils resulting from impoverished forests and idle land, I should lay stress upon the outward spread of forestry in industrial practice and land usage. Too long have we as a nation consumed our forest wealth without adequate provision for its wise utilization and renewal. But a gratifying change is taking place in the attitude of our industries, our land owners, and the American people toward our forests.

The wise use of land is one of the main foundations of sound national economy. It is the corner stone of national thrift. The waste or misuse of natural resources cuts away the groundwork on which national prosperity is built. If we are to flourish as a people and as individuals, we must neither wastefully hoard nor wastefully exploit, but skillfully employ and renew the resources that nature has entrusted us. America's forest problem essentially is a problem involving the wise use of land that can and should produce crops of timber.

Now, therefore, I, Calvin Coolidge, president of the United States of America, do hereby designate the week of April 18-24, inclusive, 1926, as American Forest week; and I recommend to the governors of the various states that they also designate the week of April 18-24 as American Forest week and observe Arbor day within that week wherever practicable and not in conflict with law or accepted custom. And I urge public officials, public and business organizations, industrial leaders, landowners, editors, educators, clergymen, and all patriotic citizens to unite in the common task of forest conservation and renewal.  
In Witness Whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.  
Calvin Coolidge.

## ADDS GROCERY DEPARTMENT TO BAKERY SHOP

J. A. Turner of East Tawas has added a grocery department to his baked goods shop in Tawas city. The new department will be ready for business Saturday, April 17.

## WILL HOLD EVANGELISTIC SERVICES IN RENO

Judy made the audience feel the barrenness of a child's life in an orphan's asylum. Everyone appreciated the informal tea party given by the college girls in their room, and learned also many a device for disposing of housekeeping equipment. Daddy Long Legs proved beyond the shadow of a doubt that it pays to give orphans an education, one orphan at least.

The normal class plan on giving "Daddy Long Legs" at Whittemore in the near future.

Rev. Dr. Frank L. Currey, who begins a series of two weeks services at the Reno Baptist church next Sunday, April 18.

## MRS. LUCY LATTER

Mrs. Lucy Latter died Friday evening, April 2, at the home of her son, Harry Latter, in Reno township after a few days illness. Pneumonia was the cause of death. Mrs. Latter was well known and had many friends throughout the county.  
Lucy King was born in Nutbourne, Hampshire county, England, July 22, 1841, and was 84 years eight months and 11 days old, at time of death.  
In 1858 she was united in marriage to Edney Latter. To this union 12 children were born, six preceding her in death. Her husband died six years ago.

She is survived by four sons and two daughters, William and Harry of Reno township, Edney of Edmonton, Alberta, Arthur of Curtisville, Jane of Lapeer and Emily of Mio and 32 grand children and 22 great grand children.  
Born of Christian parents, she early became a Christian in childhood.

She was one of the early pioneers of Reno township, moving to that section of the county with her family 47 years ago. Two years later, Rev. C. H. Prescott and Rev. B. H. Thomas held meetings at the Au Gres river and a Sunday school was started in Reno in which she was active. All these years Mrs. Latter has been a faithful worker in all Christian activities. Her wonderful Christian life has ever been a great influence for good to all who knew her.

## "DADDY LONG LEGS"

The play, "Daddy Long Legs," was given last Thursday evening, April 8th, at the Community house by the County Normal class. Those who did not attend missed a real treat. The splendid training of the students was shown by the way in which they entered into the part of the characters which they represented.

Judy made the audience feel the barrenness of a child's life in an orphan's asylum. Everyone appreciated the informal tea party given by the college girls in their room, and learned also many a device for disposing of housekeeping equipment. Daddy Long Legs proved beyond the shadow of a doubt that it pays to give orphans an education, one orphan at least.

The normal class plan on giving "Daddy Long Legs" at Whittemore in the near future.

## "MISS SOMEBODY ELSE"

"Miss Somebody Else" will be presented by the students of St. Joseph's high school at the Community building, East Tawas, on Thursday evening, April 22.

"Miss Somebody Else"—thought to be what she isn't and known for what she is. There is a villain whose villainy is truly villainous, and layers deep. Every character is full of interest and the whole play abounds with pleasing wit and acting.

## ALEXANDER McMURRAY

Alexander McMurray, resident of East Tawas for 44 years, died last Thursday evening, April 8, at the home of his son, James McMurray. The deceased had been in poor health for nearly a year and the last few months had been confined to his bed. Failing health due to old age was the cause of death.

Alexander McMurray was born at Wellington Square, Ontario, in 1841, and was 85 years, seven months and 28 days old at time of death. His early years were spent in Canada. In 1871 he was united in marriage to Annie Hodgins of Mansfield, Ont., Seven children were born. Of the family, the wife two sons and one daughter preceded him in death.

Those left to mourn are two sons of this city, Robert and James, one son, Orlo, of Detroit and one daughter, Mrs. Cora Lixey of this city and 16 grandchildren.

The deceased has been a resident of East Tawas for 44 years and leaves a host of friends who will mourn his demise. He was a member of the order of Foresters.

Funeral services were held last Sunday afternoon at Christ church Episcopal, Rev. C. E. Edinger officiating and interment was made in Greenwood cemetery.

Relatives from out of town who attended the funeral were Orlo McMurray of Detroit, Mr. and Mrs. Clayton Armstrong and Ted Armstrong of Saginaw, Mr. and Mrs. Jas. Alford of Alabaster and Miss Lillian McMurray of Detroit.

## FLINT MASONS WILL VISIT EAST TAWAS

The members of the Little Genesee Symphony orchestra, appearing at the Community house, East Tawas, Saturday evening, April 17, are Master Masons from Genesee Lodge F. & A. M., Flint, Michigan. There are nineteen members of the orchestra proper and eleven other entertainers, members of the minstrel show, etc. The full entertainment will be given with every member present.

This entertainment was given at Flint, April 9, when the house was sold out several days before the date of the performance, and many were turned away who could not purchase standing room.

This event is really in the nature of a visit to Baldwin Lodge No. 274, East Tawas, for the entertainers will be their guests and the performance will be given under the auspices of East Tawas Masons.

On Sunday morning, April 18, the visitors, together with Masons from local lodges, will attend church services at the Episcopal church, East Tawas, Rev. W. H. Galligher, Grand Chaplin, officiating, to which the public is also invited.

Surviving her are one son, William H. of Pontiac, and three daughters, Mrs. Thomas Galbraith of Tawas City, Mrs. Wm. Allen of Detroit and Mrs. Ernest Vance of Reno.  
Funeral services were held from the home of daughter, Mrs. Vance, and burial was made in the Reno cemetery.

The funeral services were held Tuesday at the L. D. S. church at McIvor, Elder Geo. A. Pringle officiating. Interment was made in the Tawas City cemetery.

"SALLY, IRENE AND MARY" "Sally, Irene and Mary" which comes to the State theatre, April 18 and 19, will be stamped as one of the best pictures of the year.

The cast is practically an unknown one, yet the girls who portray the title roles are destined for stardom if they keep up the tempo of their performances in this Edmund Goulding production.

Theatrical life always has a distinct glamor and because this picture has chiefly a theatre setting—or at least tells of those engaged in theatre life, it gets off to an engrossing start.

**AN ABBREVIATED STORY**

**WAYS AND MANNERISMS**

**G**REGORY POLKA, usually so unresponsive to women's charms, was forced to admit that Christine Wanderlust's many irresistible little ways had quite conquered him.

The cunning little way, for instance, in which she smacked her lips before beginning to speak.

And her adorable little way of wrinkling her nose like a rabbit to help her think.

And her appealing little way of saying "deah" for "dear" and "heah" for "here," etc.

And her charming little giggle.

Not to speak of her fascinating little way of blowing back the errant wisp of hair that insisted on straying from her forehead.

So, he married her.

It wasn't long before Gregory Polka discovered maddening little mannerisms about his wife that nearly drove him insane.

The irritating little mannerism, for instance, of smacking her lips before beginning to speak.

And her stupid little mannerism of wrinkling her nose like a rabbit to help her think.

And her affected little mannerism of saying "deah" for "dear" and "heah" for "here," etc.

And her astine little giggle.

Not to speak of her annoying little mannerism of blowing back the untidy wisp of hair that always disfigured her forehead.

So he divorced her.

I find the great thing in this world is not so much where we stand as in what direction we are moving.

You may set it down as a truth which admits of few exceptions, that those who ask your opinion really want your praise.—Oliver Wendell Holmes.

**FOOD FOR THE FAMILY**

**A**T THIS time when we are asked to use much corn in our menus the following favorite recipe will be welcomed:

**Corn Meal Muffins.**  
Cream together one-half cupful of butter, one-half cupful of sugar, then add two well-beaten eggs. Sift and mix one-half cupful each of white flour and corn meal, one and one-half teaspoonfuls of baking powder and one-half teaspoonful of salt. Add the dry ingredients to the first mixture alternately with one cupful of milk. Beat all together well. Pour into hot greased muffin pans, filling them three-fourths full, and bake twenty-five minutes.

**Chocolate Macaroons.**  
Grind two-thirds of a cupful of blanched almonds and grate three squares of chocolate. Beat the whites of three eggs until stiff. Fold into them the grated chocolate and the ground almonds, one-half cupful of sugar and three tablespoonfuls of rice flour. Shape lightly into small balls and place on greased baking sheets. Bake for twenty minutes.

**SOMETHING TO THINK ABOUT**  
By F. A. WALKER

**IMAGINATION**

**W**HATEVER it may be with regard to the world at large, the process of recalling, selecting and regrouping the traces of personal impressions or experiences if habitually indulged in lead to accomplishments of the highest order.

What is called "learning" is not simply an exercise of memory but of the imagination as well.

A distinct picture of what one has heard from oral communication or read from books, must in order to be kept permanently in the mind be colored by one's own pigments, so that one may recall it and use it to advantage in the future.

Without these fantasies and fancies, these original visions so helpful in creative work, especially that of the brain, no man or woman can hope to attain eminence.

The general in planning a siege or a deciding battle calls up to help his initial move all the aids to his imagination that he can muster.

And this is likewise true of the painter, the poet, the musician, the scientist and the more prosaic man of business when first stepping in an untried field.

Experience of the past sharpens wits, but imagination goes much farther than that as it virtually supplies new wits of a higher type which recognize neither longitude nor latitude when questing worlds whose presence is unsuspected by those matter-of-fact persons who cannot see beyond the tips of their noses.

In short, the humans with imagination, the dreamers if you please, are the men and women who are doing the greatest work for mankind.

A little group of romancers fired by some original inspiration stir millions to new thoughts, give millions employment and the old world takes another step forward. She praises genius which is not genius at all except that which proceeds from fancy when she is in her liberal mood and bestows her favors lavishly upon her own chosen disciples.

He must indeed be rather a prosy sort of human being who declines to make love to them, for they are rich and comely, in possession of the choicest treasures of earth which they confer without stint upon their adorable favorites and faithful followers.

**His Counter-Charge**

"She used to peel onions just before I arrived home at night so that I would think she was crying and then I would buy her a new hat or dress," was the testimony of a man in court in London, England, in answer to his wife's divorce suit charging him with neglect.

**He Passed**

At an examination a boy, asked to state why a tiger is striped, wrote: "It is striped because it makes it better for circus proprietors. If a tiger escapes from a circus it is easier to find him than if he had no stripes. He will not go far without someone noticing that he is not a horse or a dog, on account of his stripes, and calling up and asking the circus people if they have lost a tiger."

**To Those Who Judge Quality by Price**

The quality of Ford cars cannot be judged by the prices at which they are sold—because Ford prices are made possible by conditions that are absolutely unique in the automotive industry.

From mine to market the Ford car is the work of a single organization. The Company owns and operates the mines and forests that furnish the raw materials for its products. This material is carried over Ford transportation routes, fabricated in Ford mills, manufactured in Ford plants—and the finished product is sold to the public through Ford dealers.

The following statement, previously made in an advertising message, is repeated because of its significance to the public:

"If any other manufacturer endeavored to produce a car similar to the Ford, according to the high standards of quality in material and workmanship used by the Ford Motor Company and with the same tried and proved design, it would be impossible to offer it at any thing like Ford prices. And it is well to note that even with less costly design they have not met Ford prices."

### SCHOOL NOTES

(Continued from first page)  
Fifth and Sixth Grades

All our pupils are back in school now. It seems good to have a perfect attendance again.

John Ciptok has left school. He has returned to Detroit and plans to attend school there.

We are writing examinations this week. The marks seem to be fair in spite of the fact that so many have been absent a good share of this month.

### Third and Fourth Grades

The fourth grade won the addition speed contest which broke the tie between the third and fourth grades. The fourth grade won by 4.5 points.

The Ford and Stanley Steamer have been passing and re-passing one another during the past week. We wonder which one will make the next high hill.

We had a perfect attendance Tuesday for the first time this month. We are hoping for a perfect record from now on.

Marguerite McLean visited our room last Wednesday afternoon.

Those who had perfect spelling lessons last week were Noma Kasischke, Dorothy Smith and Clifford Clute.

On Thursday afternoon we had a story hour which we all enjoyed very much. Each one in the fourth grade told a fairy tale. Most of them were very good.

### MICHIGAN WINS AGAIN

With a float which was characterized as combining both beauty and an appropriate idea, Michigan was awarded first honors in the state section of the Festival of States held last Friday at St. Petersburg, Fla., according to a paper sent to the Munising News by Roy C. Hill who spent the winter in the south. The float was covered with apple blossoms, the state flower of Michigan and upon it was a real apple tree from which six girls tossed apples to the crowd as the float passed by.—Munising News.

### Measuring Time

In a wholesale test made at Johns Hopkins university men and women were requested to sit at ease for a definite time—two minutes was the actual period. They were then asked to estimate how long they had been seated. The males all measured the time as being within half a minute and three minutes. The calculations of the women ranged all the way from ten seconds to twelve minutes.—Los Angeles Times.

### Taste Most Worth While

If I were to pray for a taste which stand me instead under every variety of circumstances, and be a source of happiness and cheerfulness to me through life, and a shield against its ills, however things might go amiss and the world frown upon me, it would be a taste for reading.—Sir John Herschel.

### Normalcy in Headgear

A young man has written a correct dress department to ask what kind of hat a bridegroom should wear on his honeymoon. If the young man intends to wear it afterward also, any hat three sizes too small at the time of the wedding will do.—Arkansas Gazette.

### The Home Painter

When painting anything at all be sure that the first coat is dry before applying the second. You will only waste time and paint and make a poor job of it if the surface is not thoroughly dry.

**for Sturdier Structures**

To provide a safe haven for your loved ones during the stress of wind and storm, as well as in fair weather, build with Native Hemlock for these essential reasons:

- 1—Oversized studding, rafters and joists—8% to 16% more wood to the piece—greater structural strength.
- 2—Grips nails like a vise—heat or frost can't draw them—holds your building rigid against wind strain.
- 3—Free from dry-rot—assures longer life for your buildings.
- 4—Contains no pitch—Hemlock lath won't stain plaster and is more fire resistant.
- 5—Easy to work—don't gum the carpenter's saw—speeds up construction and lowers building costs.
- 6—Takes all paints and stains perfectly.
- 7—And—it's Grade-marked with Licensed Association Brand and Grade plainly stamped on each piece at the mill insuring responsible manufacture and guaranteed grades.

No other structural wood combines all seven of these important and practical advantages. With good lumber like this plentiful, why use questionable substitutes? Ask your lumberman to show you samples of Grade-marked Northern Hemlock. Or write us for booklet check-full of helpful suggestions on building.
