SCHOOL NOTES

High School

Our boys are out three nights each week getting in trim for baseball.

The literature class having finished a general survey of the work, are now giving intensive study to Shakespeare's Macbeth.

The junior moving picture presented April 15 and 16 was a decided success, the class realizing the sum of \$46.00 when all expenses had been taken care of. The class wishes to thank all those who helped to make the affair a success and extends special thanks to Messrs. Davis and Hartley who have shown their loyalty to our school and town.

This is National forestry week and the entire school is planning a program for its observance, Friday afternoon. We shall be pleased to have the community present to help us out.

The citizenship class are studying pamphlets on National forestry, prepared by R. G. Schreck.

Having completed the text, the American history class will devote the remainder of the year to the study of Michigan history and the U. S. Constitution.

Walter Schlechte, Stanley Daley Charles Colby and Lucile Snyder will represent our school in the district shorthand and typewriting held at Midland Friday, April 24.

Seventh and Eighth Grades

The seventh grade hygiene class has been studying about the house fly. The following was written by Luanna Phelan:

The Fly

He has two wings and is a pest
A little worse than all the rest.
A tiny breed, with eyes so small,
One hardly knows they are there at all.

Eight tiny legs that move so fast,
You cannot hear when he goes past.
He's here and there, most every place,

Wherever he goes he wins the race.
We do not like this little mite,
But he always is within our sight.
He has been sentenced, condemned to die,

Tho' we cannot do it no matter how we try.

His family are a healthy race,
They live and survive most every place.

In barn, or home, in filth or slime,
It makes no difference just where he dines.

Now you wonder what this is all about,
You are anxious to know without a doubt,

But don't give up, and leave a sigh,
I'm going to tell you—it's the little house fly.

We have had some very good ones written about the mosquito also.

Fifth and Sixth Grades

Edward Ullman fell and broke his leg while playing at recess Tuesday.

The report cards were given out this week. There were some very good looking reports, but there are still some very poor ones. There are only nine more weeks of school after this. That means that some of the pupils will have to work harder if they expect to make their grade.

The fifth grade pupils have finished their hygiene book and expect to start the sixth grade book next week.

Our attendance record this month was very low, being 76.6 per cent. Of course, most of the absences were due to measles, but the measles epidemic is now over, so we ought to have perfect attendance the rest of the year.

Third and Fourth Grades

This is report card week. The grades on report cards are a pretty good indication of how hard the pupils have been working.

Norma Kasischke, Nelda Mueller, Mildred Rempert and Geraldine Fox had perfect spelling lessons last week.

Jack Mark and Geraldine Fox had the highest examination averages for the month.

Primary

We are sorry to have so many E's on our report cards this month.

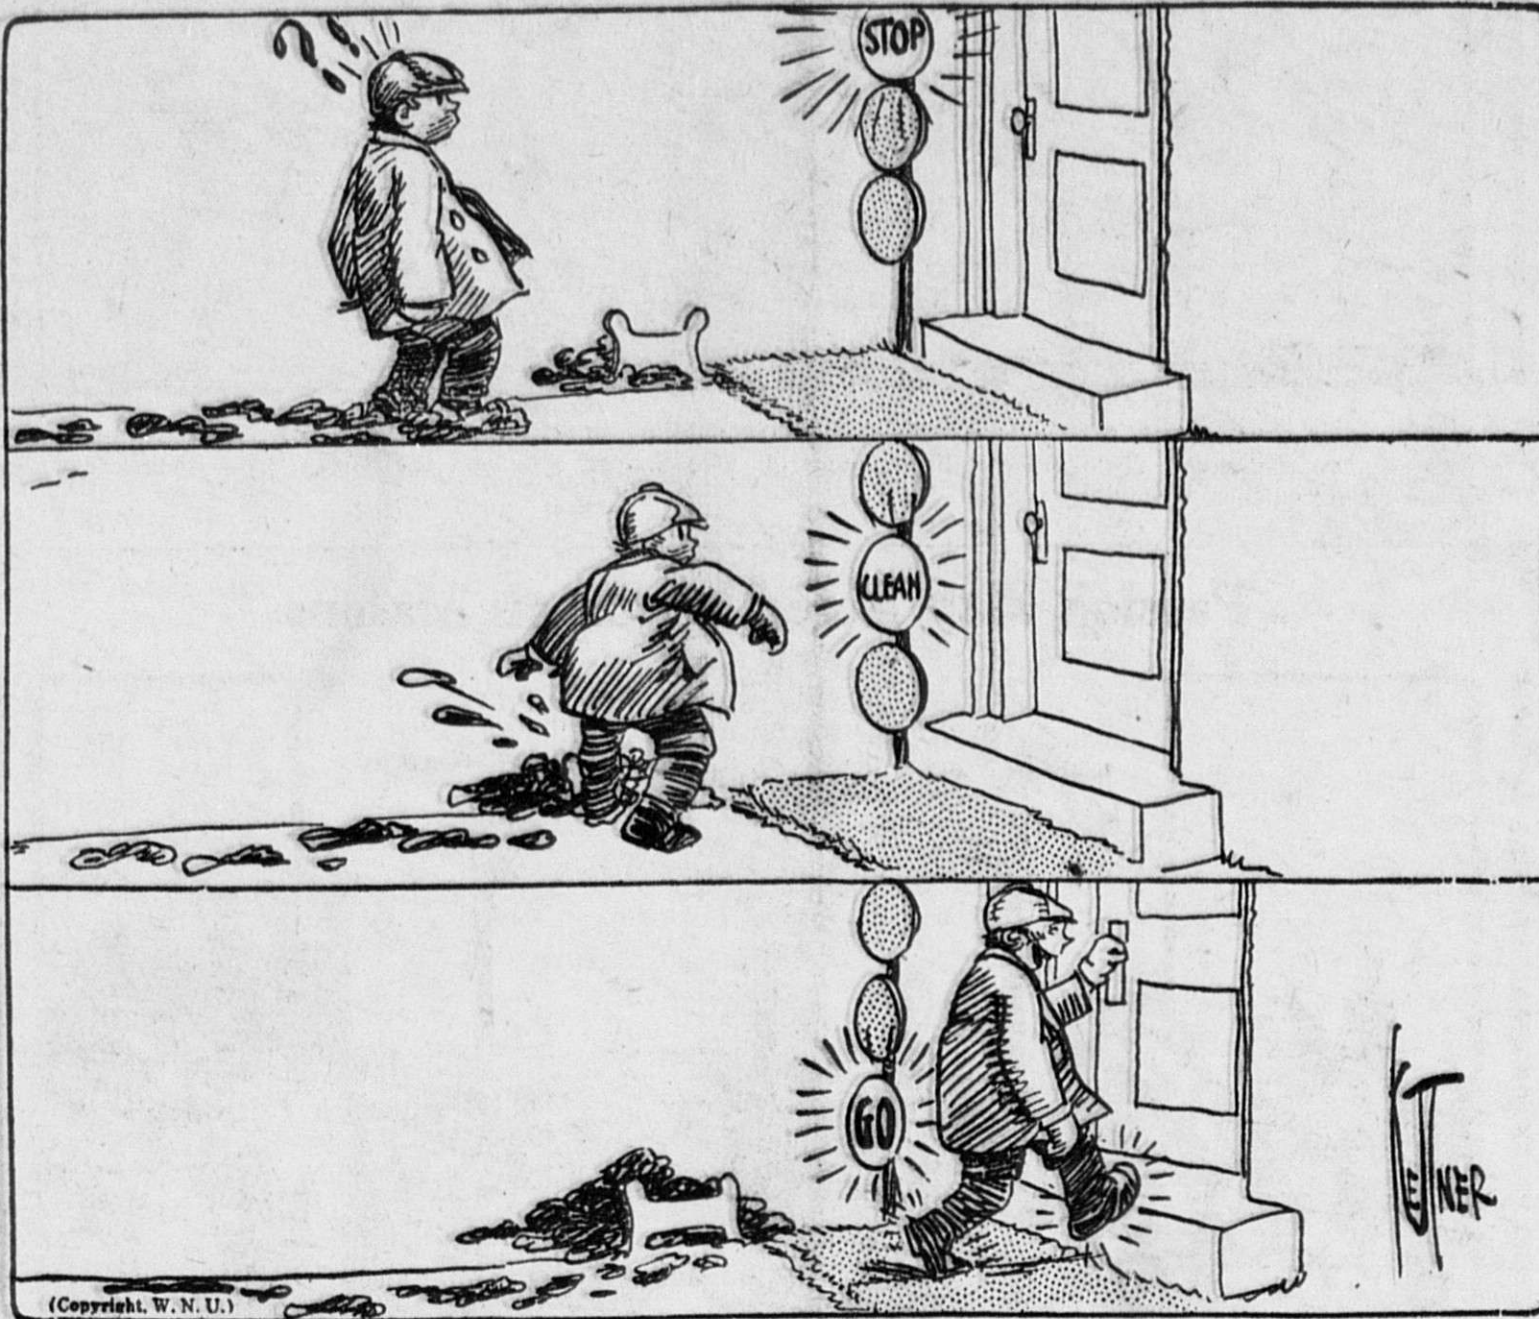

Mildred and Luella Whitman from Port Huron entered our first and second grades. Billy McLeod from Detroit entered the beginners class. This makes our enrollment 38.

We are learning the poem "The Wind," by Robert Louis Stevenson.

BRIGHT BREAKS DEADLOCK; TRUDELL APPOINTED MAYOR

After a fifteen minute recess, preceding which several deadlock votes had been taken for mayor, Acting Mayor F. J. Bright cast the electing vote for Edward Trudell at Wednesday night's meeting of the common council. L. H. Braddock was the unsuccessful contestant. The six equally divided councilmen stood firmly by their favorite nominees, which placed the deciding vote in the hands of the mayor.

The necessity of filling this office by appointment of the common council came about through the resignation of John Coyle, who was elected mayor at the April election. Mr. Coyle was obliged to resign because of sickness in his family.

Mayor Trudell was a newly elected alderman from the third ward. The vacancy made by his resignation was filled Wednesday night by the appointment of Emil Buch, Jr., as alderman.

The matter of salaries for city officers came up at this meeting and the old schedule was retained for all offices excepting city attorney and health officer. The city attorney's salary was raised from \$25.00 to \$50.00 per year and the health officer's reduced from \$100.00 to \$25.00 per year. The unchanged salaries are Mayor, \$25.00; clerk, \$15.00; treasurer, \$20.00 and alderman, \$25.00 each per year, and the marshal and street commissioner, \$125.00 per month.

What Co-operation Is Accomplishing

THE American shipping public since the war period has come to realize a certain responsibility devolving upon it beyond the mere payment of the authorized charges for the transportation service performed.

There is, for instance, the requirement of the prompt loading and unloading of the railroad equipment on the part of consignors and consignees, respectively.

There is the obligation on the shipper of early advice of car requirements to enable the railroads to "mobilize" equipment.

THESE two requirements enter largely and eventually into the cost of steam railroad transportation and they are dependent upon the good-will directly manifested by the shippers and altogether beyond the control of the railroads.

Recognition of these factors has brought about the organization of the Shippers Regional Advisory Boards and enables the country to get more service from the equipment of the American railroads.

THIS is entirely voluntary service on the part of the shippers and is a unique page in the history of business. It has also been a profitable expedient, a lesson in co-operation gained from the world war, a phase in the onward march of the times, which Judge E. H. Gary, of the United States Steel Corporation, recently described as the application of the Golden Rule in business, a condition that was inconceivable twenty-five years ago.

It is a manifestation of a quiet but certain revolution in American business thought which is gradually progressing towards the finest ideals, and incidentally tending to the greater well-being of our people and making for greater material returns.

THE Michigan Railroad Association is keeping step with the shippers and heartily seconding those ideals of an enlightened business opinion and appreciates that this policy is as important to the stabilizing of business as are the operations of the Federal Reserve Bank System in its particular branch of public economy. In fact, it is the identical application of that principle to transportation. Michigan industry has much to gain through the policy of the Shippers' Regional Advisory Boards.

Hale Baptist Church Notes

Last Sunday evening the Sunday school presented the Easter program, "Triumph of Easter," at the Prescott Baptist church. Eight car loads left the church at four o'clock Sunday afternoon, wending their way to Prescott. There we were graciously received by the Ladies' aid and served a dainty luncheon which was fully appreciated. The program was rendered in a pleasing manner to a well filled church. The congregation showed their interest and appreciation by their reverent and attentive attitude. We all left Prescott the better for our fellowship there.

Finns' Double Christmas

For centuries before the year 1772 the people of Finland had four Christmas holidays, but a Swedish royal decree issued that year abolished the third and fourth, as it was thought desirable to curtail the festival in the interest of work. But the Finns still have two Christmas holidays, December 25 and 26 (St. Stephen's day).

Car Ferry American Idea

Car ferries that transport whole freight trains across various bodies of water in this country were the first in the world. They were first used on Lake Michigan in 1888. Ferries on Lake Balkan in Siberia, across the Baltic between Germany and Sweden, across the English channel, and between Havana and Key West, are all designed after our Lake Michigan ferries.

WHEN I WAS TWENTY-ONE

BY JOSEPH KAYE

At Twenty-one: Ernest Thompson Seton Wrote a Story No One Has Yet Taken.

"AT THE age of twenty-one I wrote a wild-animal story which still lies in my desk (for which I am now thankful as I look over it).

"I made other attempts after that, but it was not until six years later that I wrote a story which received respectable payment. This was 'The Drummer on Snowshoes,' which appeared in a magazine. For this story, with five illustrations, they paid me the incredible sum of \$50—cash (no promises)—enough to keep me on the prairies for a year.

"I showed this story to Joe Collins, the Canadian writer. He had editorial instinct, and said briefly: 'You can sell as many of this kind as you choose to write and as fast as you choose to write them'; and he proved right, for this was later rewritten and republished as 'Redruff.' In my most successful book of animal stories.—Ernest Thompson Seton."

TODAY.—Mr. Seton is the most famous writer of animal stories in the world and vastly popular. He was brought up on the Canadian prairies and in the woods and obtained his material then, as he does now, first hand. At about the same time that he wrote the story mentioned above he became naturalist to the province of Manitoba, Canada, and published a volume on the mammals of Manitoba. He was only twenty-six then.

Watch Used as Compass

The statement that all watches are compasses refers to the fact that the directions are easily ascertainable with the aid of a watch. Let the watch lie flat in the hand, with the hour hand pointing toward the sun, and the point on the circle half way between the hour hand and XII, will be directly south in the northern hemisphere and directly north in the southern hemisphere.

Great Writer's Nickname

The name "Great Unknown" was given by James Ballantyne to Sir Walter Scott, the author of the Waverley novels, which, although published anonymously, attained great popularity. Speculation was long rife as to the authorship of these romances; but it was not until the failure of Scott's publishers in 1825 that the secret finally was made known.—Exchange.

His Name Perpetuated

The humorous slang phrase, "to Bant," meaning dieting with the purpose of losing weight, originated in the making of a verb from the name Banting. Banting was the advocate of such a system, which bears his name.

True wisdom lies in the advice Confucius gave to a man whom he found about to hang himself in a wood. "Courage!" he said. "So long as a man has life there is no need to despair.
