Alpena at Alabaster

Oscoda and Tawas completed their 1926 battle last Sunday and as Tawas won, they stand three won and one lost.
Oscoda came down with only eight listed men. They brought down another man not on their list, but preferred to play with their eight approved players as by using the automatic ineligible men they would automatically lose the game whether they had more runs than Tawas or not. And they almost battled out a victory at that. Two doubles and a home run scored three runs in the fifth and a hit batsman, passed ball and two singles scored their other two in the ninth. Outside of these two innings they found Jackson for only three singles. However by combining hits with Urban's wildness Tawas was able to get seven runs over and top the Oscoda boys. The game had very few errors, which was a decided change from the usual run of games this summer, and some mighty good fielding plays were pulled off. In the last half of the fifth Nelem fled to Killmaster and Musolf tried to score but was caught at the plate. In the first of the seventh Larson was retired at first by Musolf and Nelem nipped Knuth at home when he tried to score on the play. Syze picked up a hot grounder from Butterfield's bat in the fifth and caught Urban between bases, S. Noel getting the put-out.
Next Sunday Tawas goes to Twining to play their last game of the 1926 season with the Arenac boys. Tawas has won all games played with Twining this season. But with Twining playing the ball they have the past month, Tawas will have her hands full.

EAST TAWAS PUBLIC SCHOOLS OPEN SEPT. 7

The public schools of East Tawas will open Tuesday, Sept. 7, the day after labor day. A full corps of college trained teachers and supervisors have been engaged and the outlook for a successful year is very bright.
In developing the plan for a real departmental school adopted by the board of education a few years ago, real progress has been made and the school is meeting the needs of the youth of this vicinity.
The commercial department will be under the personal direction of Miss Anna Jeppeson, a very successful teacher and an experienced accountant. Mimeograph duplication, filing and other modern office devices will be instituted this year. New up-to-date equipment makes this feature possible.
The work of our agricultural department under W. E. Sutcliff, who has been in charge of it since its beginning two years ago, has been approved by the state and federal government. One of our graduates, Wallace Boldt, a member of the class of '26 is now official dairy tester for Antrim Co. at a very attractive salary.
Our manual training department is no longer an experiment. It is filling a real need of the boys and girls in our schools. This year with added equipment, pupils will make and learn to read blue prints and work to them, thereby getting better training and more credit out of the course.
The department of music and art will be supervised by Miss Louise M. Sterwalt, a graduate of Columbus high school of Ohio and of the State Normal at Mt. Pleasant. An orchestra will be added to the attractive features in this department—Harmony Glee club and quartette singing—introduced by Miss Hales last year.

You Can Be Warm and Comfortable in Coldest Weather

THE last five years have seen a great change in small-home heating.

Base-burners, oak stoves, and other types of coal-and-wood-burning room heaters have gone out of style. People are no longer willing to put up with the expense and inconvenience of tending several stoves and fireplaces; they are no longer content to shut off some of the rooms in winter, or to imperil health by living in drafty, underheated rooms.

Instead, they have turned to the Estate Heatrola, the heating plant that looks like a fine mahogany cabinet and works like a furnace. Introduced five years ago, it attained instant popularity. Today, in all parts of the country, in tens of thousands of homes, Heatrola has replaced ugliness with beauty, half-hearted heat with solid comfort, fuel waste with fuel economy. And please note particularly this fact—ONE Heatrola does the work of several stoves or fireplaces.

No matter where you live there are Heatrola owners near you. Every state, every section of every state, almost every neighborhood, has its quota of enthusiastic users. Heatrola is recognized as the standard heating appliance for small homes, old and new, one-story and two-story; it is used, too, in stores, halls, churches, schools, garages, and in many other types of buildings.

Heatrola users verify all the facts in this booklet. Upon request, we will send you a 64-page booklet (ask for Booklet No. 736) in which we have reproduced letters from more than 500 users. But any dealer will gladly let the Estate Heatrola sell itself to you, installing it in your home on an absolute guarantee of satisfactory service.

Hale Baptist Church Notes

Virginia Adams of Sterling and Eleanor Meyers of Saginaw visited us last Sunday.

You are invited to enjoy with us the special music promised next Sunday morning at the Sunday school hour.

Last Sunday afternoon the girls of the Christian Endeavor Camp, together with their many guests, gathered in the lobby of the Sand Lake Hotel for a very beautiful religious service. Rev. Roberts presided and introduced the various speakers. Rev. Jones read the Sunday school lesson for the day and offered prayer. Mrs. Haverstack then made a tender appeal to the girls of today that they might weave beautifully the pattern on the web of life entrusted to each one by the Master weaver, Jesus Christ; that the red thread of courage might be used, the blue thread of loyalty, the golden thread of service and the white thread of purity.

In her address Miss Mary Lyons spoke of meeting the Christian Endeavor founder, Dr. Clark, of his magnetic personality and likeness to the Christ whom he has followed so closely, and told of the mighty work being accomplished by the young people banded together for christian service in this great society.

In introducing Miss Iris Haverstack, Rev. Roberts paid high tribute to her influence upon his daughter when she came to the Roberts home from Oberlin college some years ago.
