LOCALS WIN FROM TWINING WITH 17 TO 5 SCORE

STANDINGS

Won	Lost	Pct.	
Alpena	10	1	909
Tawas	9	3	750
Oscoda	4	8	333
Twining	4	9	308
Alabaster	3	9	250

Last Sunday's Results

Tawas 15—Twining 7.

Alpena 3—Alabaster 1.

Next Sunday's Games

Tawas at Alabaster (Game at Beach). Only nine Tawas men showed up at Twining Sunday and one of them, Syze, had developed blood poisoning from a spike wound. By heavy hitting and by taking advantage of Twining's errors, the boys managed to win to the tune of 15 to 7.

Mervin Lixey pitched the entire game with Harris Lixey receiving him and "Mubs" did well. Only six hits were made off him but he gave four bases on balls. Another year will see him taking his regular turn in the box with the veterans, Jack Johnson had a field day with five hits for a total of ten bases, walked once, stole two bases and scored six runs, altogether a profitable day for Jack.

Next Sunday the boys play Alabaster at Tawas Beach, with Alabaster as the home team, the game being transferred here because of the small grounds at Alabaster.

FAIR GROUND IMPROVEMENTS NEARING COMPLETION

The officers of the Iosco County Agricultural Society advise that everything will be ready for the opening day of the fair as the work at the fair is progressing rapidly.

The new stock barn is being built and will be completed in about ten days although not as large as the old barn it will be new and a far more desirable place to exhibit. The chicken coop has been white washed and disinfected.

The board has been very fortunate in securing their entertainment for the fair, nine free acts including the return of Archie Royer, the clown and his troupe, who were here two years ago. Their acts have been changed and combining these with Geyer and Marie who come highly recommended by several larger fairs. The bill will be the largest in N. E. Michigan.

The board has decided to issue tickets to all school children for one day and request teachers throughout the county to notify F. C. Litter at Whittemore how many pupils they want tickets for, and he will mail them promptly.

School children must have these tickets, so every teacher should take care of this at once and the day for school children will be announced next week.

Next week we will give a detailed description of the acts and everyone should read the fair news as nothing has been left undone to make it a success, and worthy of your support.

NOTICE TO TAXPAYERS

Notice is hereby given that Sept. 15 next is the last day on which taxes can be paid without penalty. After that date a penalty of 4 per cent will be added. I will be at the city hall Wednesday and Friday afternoons for the collection of taxes.

Jno. A. Mark, City Treasurer.

MRS. JOHN HUNTER

Mrs. John Hunter, age 74 died at her home, Sunday, August 29 after six weeks illness.

Prudence Eva Boomer was born on a farm in Windham Township, Ont. on February 26, 1852. She made her home in different parts of Ontario until 1901, when she came to Tawas where she has since lived. She was united in marriage to John Hunter in 1910. She leaves to mourn her husband, John Hunter, two daughters, Mrs. Charles Quick, Mrs. Joe Wingrove, five grand children and a twin brother, Phineas Boomer of this city, besides other relatives and friends.

Mrs. Hunter was a member of the Baptist church, having joined in her girlhood in Canada.

The funeral was held from the home Tuesday afternoon, Rev. G. Thompson Jones officiating. Burial in Tawas City cemetery.

Out of town relatives present at the funeral were, Basil Quick of Birmingham, Mrs. George Flintoff and Fred Latham of Bay City.

TWO SERIOUS AUTO ACCIDENTS

Two persons were seriously injured and a third sustained a severe shock when in an automobile collision at the intersection of M-10 and the Wilber road 5 o'clock on Monday afternoon. Mr. and Mrs. George Zaharris of Baldwin township accompanied by the former's sister, Mary, were on their way home from East Tawas when their car was hit by another, occupied by two men who were on their way to Cheboygan. The Zaharris car was rolled over three times by the impact. Mr. Harris has a compound fracture and severe cuts about the head. His sister sustained numerous severe cuts and internal injuries and is staying at the home of her brother, John, in Baldwin township.

The occupants of the other car resumed their trip to Cheboygan without giving their names.

Another serious accident occurred Sunday evening when a Chevrolet and Dodge collided at the John Searles corner in Wilber. Fred Colbath in the Chevrolet sustained a broken jawbone and severe cuts. Arthur Palmers and Daniel Paris of Detroit, who were in the Dodge car also received severe cuts and bruises. Mr. Colbath was taken to Samaritan hospital, Bay City.

Saturday evening, while George Hosbach was on his way to Oscoda, his car was badly smashed in a collision with another car. Both cars had put on their dimmers some distance apart and Hosbach did not see a horse and cart driven by Norv Young, until too late to stop. He swung his car to go around and was hit by the oncoming auto. Youngs carried no light on his vehicle.

STATE THEATRE HAS WONDERFUL SELECTION OF PICTURES FOR SEPTEMBER

Possibly the best assortment of picture plays yet seen in one month will be shown during September at the State Theatre.

Starting with September 2nd and 3rd, they will play "The Barrier," Rex Beach's famous story, read by millions through the world, this is followed by that much heralded picture, "Mare Nostrum" which had a sensational run at the Criterion Theatre in New York City at \$2.00 per seat. It is worth the space to mention the fact that this picture will be shown in Tawas ahead of all the key cities of the state, including Bay City, Saginaw, Flint, Grand Rapids etc. Following in the tracks of "Mare Nostrum" will be "Bigger than Barnums" which will be shown during the fair. This is a most unusual picture of circus life and it comes at a most wonderful time. Visitors at the fair will have an opportunity to remain in the city for the evening and see this famous production. "Siberia" will also be shown. This picture has had a wonderful record and it holds a new angle on stories as those who have read the story well know. "The last Frontier" has an auspicious place on the months program, in the making of this picture it took over 1000 real Indians. This picture like "Mare Nostrum" has not had its first showing in Michigan outside of Detroit. Possibly the most unusual picture on the bill will be "Kosher Kitty Kelly" the "Abies Irish Rose" of the screen. Intermingled with these famous pictures will be such pictures as "His Jazz Bride," Rin Tin Tin in "Hero of the Big Snows," "Palace of Pleasure," "Silver Treasure," Paris at Midnight," "Exchange of Wives," "The Circle," "Honey Moon Express" etc. Not to mention the many westerns and Harold Lloyd will also be shown in "Bumping in on Broadway."

Gene Stratton Porter's story "Lad-die" will be shown early in October.

ANOTHER VICTORY FOR JUNIOR CLUB

Before a large number of baseball fans Sunday, the Tawas Junior baseball club defeated the Sand Lake Independents in a hard fought and evenly played game, score 8-7.

Leading as they were throughout the game, Sand Lake thought themselves winners of another victory, until the final round with two men out and a man on second, Howard Swartz caught one of Anschuetz's speed balls for a triple to deep left, scoring Miller and crossing the plate himself on a single to center by Laidlaw.

Next Sunday there will be two games at the Lake, and both promise plenty of excitement for the fans. The first game will begin at ten o'clock in the morning and the second at 2:30 o'clock in the afternoon.

What is said to be the "Big Game" of the season will be played at Tawas Beach Diamond on Monday, Labor Day between the Tawas Independents and the Tawas City Federals. This team will consist of players, who played in 1914 to 1922. Come out and see if the "old vets" still have their baseball eye.

ST. JOSEPH'S OPENS SEPT. 7

During the first week of school, beginning September 7, Miss S. SHERIFF CURRY CAPTURES BAY CITY CRIMINAL

Lester Greggs, wanted at Bay City for robbing two pay stations and on suspicion indication that a big burglary job was planned by him for last Friday was intercepted and taken into custody last Thursday afternoon by Sheriff Charles Curry near the Tom Murphy place. He was brought to the county jail at Tawas City and there turned over to Bay City authorities.

Sheriff Curry was notified Thursday morning by detective Gleason of Bay City to be on a lookout for a car bearing a certain license number and driven by Greggs. Gleason came here from Bay City and was working on the case. Mr. Curry saw the car passing through the city at about one o'clock on its way toward Alabaster, immediately getting his own car he followed by way of shore road hoping to overtake it at Halletown bridge, but when he reached the bridge Greggs was a half block ahead. The sheriff continued to follow and while passing the Wallace Clark place signalled Detective Gleason, who was at the house, to follow. Detective Gleason is a brother in law of Mrs. Clark. Near the Murphy place the sheriff overtook Greggs and pointing to his car wheel, as though something was wrong with the tire, attracted Greggs attention to such a degree that he slowed down the car. Greggs looked toward the car wheel, became suspicious and reached for his gun, but the sheriff had him covered and Greggs dropped his gun.

Sheriff Curry got out of his car and still keeping Greggs covered, approached. He opened the door of Gregg's car and the gun which Greggs had dropped and which had lodged against the door, fell to the ground. The sheriff ordered him to produce his drivers license, but he said he had none, he was asked for his ownership papers, and to this he said he had none. Then the sheriff accused him of having a stolen car, but this he denied, saying that the car belonged to a friend. This proved to be a false statement.

The sheriff kept Greggs covered until the arrival of Detective Gleason. He was then handcuffed and brought by sheriff Curry to the county jail. The car was found to contain two guns and a burglar's kit. Greggs was released last December from Ionia, after serving a term for robbery. Greggs admitted at the county jail that the car had been stolen, giving full details. Sheriff Curry's friends feel that he should receive the reward for recovering the car.

Fred C. Holbeck
Republican Candidate for State Representative

When the gas tax bill was passed, it was everybody's understanding that all the improved roads of the state were going to be maintained from this fund this, however, has not turned out to be the case. Not half the improved roads are being maintained by the gas tax, and the other half, as also all the unimproved roads of the state, are still a burden on the local tax payer. The building and maintenance of highways, I claim that not only should all the roads of the state be maintained from the gas tax, but that all roads look up your last year's tax receipt and you will find nearly half the total amount you paid in taxes was for built in the future should be paid for out of this fund. If this were the case, the taxes you are paying today would be cut in two immediately.

I also claim that the state should adopt an intelligent and effective snow removal program, and that all the improved highways should be kept open during the winter. The experience of the State Highway Department last winter showed that roads can be kept open for one quarter the cost of the maintenance in summer.

Fred C. Holbeck.

SENATOR H. S. KARCHER

"God gave him some brains to start with and he has made good use of God's gift. He has been a resident of Rose City since 1887, after finishing his schooling in what is now the Michigan State College. For ten year he was superintendent of the Rose City schools; since then he has been in business, which is now taken care of to a large extent by his son. He has been peculiarly fitted in a technical way for State Senator by the experience of being in turn Mayor, School Examiner, Judge of Probate, Postmaster, Supervisor and Clerk, but his best qualification is real, intelligent, unselfish, zealous work for the interests of the various counties in his district and for his constituents. He is entitled to every Republican vote in his district."—Oscoda-AuSable Press.

I wish to formally announce my candidacy for State Representative from Arenac district at the primary election to be held September 14. Your support will be appreciated.

HERALD WANT ADDS BRING RESULTS

You Can Be Warm and Comfortable in Coldest Weather

THE last five years have seen a great change in small-home heating.

Base-burners, oak stoves, and other types of coal-and-wood-burning room heaters have gone out of style. People are no longer willing to put up with the expense and inconvenience of tending several stoves and fireplaces; they are no longer content to shut off some of the rooms in winter, or to imperil health by living in drafty, underheated rooms.

Instead, they have turned to the Estate Heatrola, the heating plant that looks like a fine mahogany cabinet and works like a furnace. Introduced five years ago, it attained instant popularity. Today, in all parts of the country, in tens of thousands of homes, Heatrola has replaced ugliness with beauty, half-hearted heat with solid comfort, fuel waste with fuel economy. And please note

particularly this fact—ONE Heatrola does the work of several stoves or fireplaces.

No matter where you live there are Heatrola owners near you. Every state, every section of every state, almost every neighborhood, has its quota of enthusiastic users. Heatrola is recognized as the standard heating appliance for small homes, old and new, one-story and two-story; it is used, too, in stores, halls, churches, schools, garages, and in many other types of buildings.

Heatrola users verify all the facts in this booklet. Upon request, we will send you a 64-page booklet (ask for Booklet No. 736) in which we have reproduced letters from more than 500 users. But any dealer will gladly let the Estate Heatrola sell itself to you, installing it in your home on an absolute guarantee of satisfactory service.

**ENSEMBLE THEME FINDS FAVOR;
ERA OF ELABORATE MILLINERY**

EVIDENTLY the makers of our modes believe that we cannot have too much of a good thing. Which, perhaps, accounts for the fact that the ensemble costume bids fair to establish a new record for itself in the matter of popularity. The new plaided and checked and otherwise be-patterned flannels are enough to tempt genius into combining them with solid colored worsteds, wherein coat and frock are interrelated.

A striking autumn compose suit is shown in the picture. One can readily appreciate that such an ensemble will give splendid service. As to smart style it carries conviction. It is just

resent foremost coming fashion. We are scheduled to wear millinery of a more elaborate type. That hats are not as simple in their styling as they once-upon-a-time were, is the one outstanding impression gained after a careful review of millinery collections as they now are. There is every evidence of a trimmed era being ushered in.

Even the new felts declare mutiny in the ranks when it comes to featuring the simple banded types. The two felt models shown at the top of the accompanying group tell a story of greater elaboration. Felts of larger brim are crowding out the closer-fit

ENSEMBLE THAT MAKES APPEAL

such fancy colorful woollens which give favor to the new modes.

Very cunning arrangements are featured. For instance, a plaided sports ensemble stresses a coat and skirt of the novelty woolen with a blouse of plain flannel whose coloring responds to some chosen shade in the plaid. This idea of creating the jacket to match the skirt with a contrasting jumper blouse is very important.

Feminine arrivals from abroad expressed their choice of Paris style in that they sponsored plain and novelty woolen ensembles. These composite treatments took form in coats of monotone woolen posed over skirts of pin-checks in matching hues. One inter-

ting sort. Also in order to retain the mode's favor the new felts have taken on a most superior quality. Ordinary common felts are passe. The picture shows kind in demand this season.

Since ornateness and elaboration is the keynote to success in the newer millinery, the designer of the first hat shown here resorted to scissors and a paint brush to accomplish the feat, which in this instance is a cunningly contrived and stenciled floral patterned brim. As a matter of fact both felts pictured at the top of the illustration display a fine fineness in the way of carefully applied velvet bindings and other details.

The soft, gracefully manipulated

ELABORATE MILLINERY DESIGNS

esting version included a skirt in stripes of gray and black worn with a coat of gray.

There is no end to the novelty woollens which combine effectively with like fabric of solid coloring. For sportswear a pleasing material shows a curious darned effect in a second coloring such as mauve on green, blue on a blue of darker men, and so on. Some of the dressier woollens show a patterning in metal thread—all of which goes to emphasize the fact that woollens of extreme novelty will re-

crowns in favor. The model centered in the picture is an admirable autumn headwear suggestion. Moire silk is a magic word these days in the realm of millinery. It is the popular fabric for immediate wear. The large black moire hat pictured here typifies the last word in smart fashion.

The hat shown last in the group accents the trend toward the higher crown.

DAIRY FACTS

SCANT PASTURES IN LATE SUMMER

The condition of the pastures during late summer makes necessary certain changes in feeding dairy cows, says the New York State College of Agriculture in a statement issued recently. At this time the pastures are usually rather scant, which makes grazing more difficult.

The different pasture plants are also more mature. This means that they contain more dry matter but less protein. These conditions are, in turn, accompanied by severe hot weather and by a host of flies which bring much discomfort to the animals. Because of these things the dairyman must use all his knowledge and skill to the best possible advantage in order to maintain the milk flow.

First of all, heavier feeding is needed. The deficient pastures must be helped out with more feed, either through soilage crops, or grain, or both. More protein must be provided in the grain mixture not only because of a lack of it in the pasturage, but also because grain will make up a larger proportion of the daily ration.

A simple yet suitable combination of feeds is as follows: 300 pounds wheat bran, 800 pounds hominy or corn meal, 300 pounds gluten feed, 100 pounds linseed oil meal.

This mixture contains 40 per cent of high protein feeds. This is just about the right proportion to make a balanced ration with late summer pasture grass.

For the man who wants greater variety the following mixture is suggested: 200 pounds wheat bran, 100 pounds standard wheat middlings or ground oats, 300 pounds hominy or corn meal, 200 pounds gluten feed, 100 pounds linseed oil meal, 100 pounds cottonseed meal; 43 per cent.

This combination is similar in composition to the first, but is somewhat more expensive under present market conditions.

Bovine Tuberculosis Is Fast Being Eradicated

Bovine tuberculosis is now being eradicated from the herds in the United States. In some states the infection of bovine tuberculosis is found in 16 per cent of all the cattle. This is the case in the state of New York. Most of the Southern states have less than 1 per cent and some have less than one-half of 1 per cent. It will require many millions of dollars, however, to eradicate the disease. Some four million dollars are being spent annually and the work has just started. In New York state trainloads of infected cattle are shipped and slaughtered where many of them are condemned and tanked. The South is exceedingly fortunate, because this disease has been kept out of the various Southern states by live stock sanitary laws. Also many states have been testing most of the milk cows and pure-bred cattle and destroying all of the reactors.

Bull Is Most Important Animal in a Dairy Herd

The most important animal in a dairy herd is the bull. As he is the sire of all the calves, he alone is responsible for half of the individuality and milking ability of the future dairy herd. The cow is important, but she can exert her influence on only one calf each year.

This important animal at the head of a dairy herd should by all means be a pure bred. It is not so much the registration papers that make the superior individual, but with the registration papers the owner knows exactly what breeding and performance records are behind his herd sire.

A good pure-bred bull is one with high production among his ancestors. The dam of the bull and the dam of the bull's sire should both have records which are far above the average of the cows to which the bull will be mated.

Dairy Facts

Keep the calf pails really clean if you want healthy calves.

Legumes will always lower the feed cost on a herd of dairy cows.

In testing cows it is important that they be tested for several milkings before they are condemned or praised for high-testing milk.

Good dairy cows are becoming scarce and prices are advancing. Heifer calves from all good cows should be raised. All indications point to a ready market at profitable prices.

To produce good quality cream use only clean separators, cans and milking utensils. Cool cream immediately after it is skimmed to near 50 degrees Fahrenheit.

Supply water daily while the calf meal or milk is being fed. A good time to supply the water is during the middle of the day.

Using a milk stool on a cow's back, it has been found by actual experiment, improves the cow exactly as much as the milk stool.

FISHER DESIGN SETS THE PACE

The pace set by Fisher—and exemplified in the beautiful new General Motors cars now commanding public attention—is the guide for the entire motor industry.

Fisher's vast experience, Fisher inventiveness and Fisher's unapproached facilities devise and perfect the beauties, comforts and conveniences which attract you to the leading new cars in all price classes—Cadillac, Buick, Chevrolet, Oakland, Oldsmobile and Pontiac.

For instance, Fisher achieves a new degree of safety—and nothing less than a Body by Fisher can approach it even after seasons of striving.

Fisher leads the way in luxurious fittings and decorations—and all the industry follows.

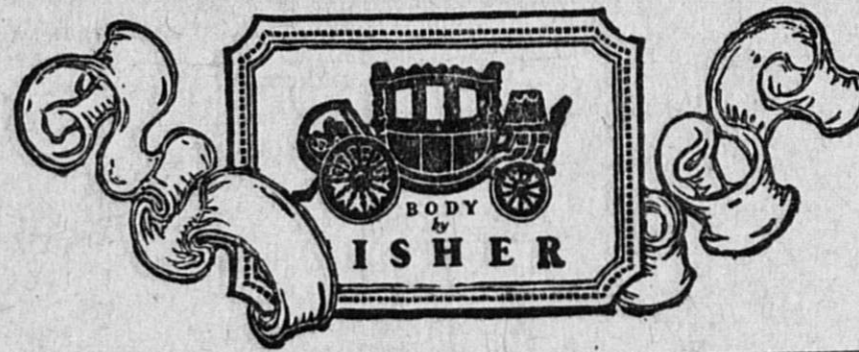

Fisher creates new standards of beauty in line and finish—and those standards are the measure of value for all of the world's cars.

It is easy to see, therefore, why the foremost of the new cars in all price classes carry the emblem—Body by Fisher.

And easy to understand why buyers the world over proclaim as the hallmark of quality that same magic symbol—Body by Fisher.

Cream Patrons!

Beginning about the first of next week, I shall ex-
tend a truck service to our patrons by picking up the
cream at their door. No deductions will be made and no
charge for this service.

Peaches

In about eight or ten days we shall have a few truck
loads of fine Michigan peaches, which will be sold at very
reasonable prices. Do not buy until you see us.

Announcement

We have sold our place of business on the
"Busy Corner" at Hale to

COBB & FRENCH

These gentlemen will continue to carry
out our policy of square dealing and make
many improvements, starting with new
stock, as ours was completely sold out. It
will be worth your while to investigate.

Thanking our many friends and patrons
for past favors.

R. GLASS & SON

Don't forget our Household Goods will be sold at
public auction, Saturday, Sept. 4.
