## 4 AMENDMENTS WILL BE VOTED NEXT TUESDAY

### No Opposition on County Ticket Excepting for Office of Sheriff

Four amendments to the constitution of the state of Michigan will be voted on at the coming general election to be held Tuesday, November 2. An amendment relative to the compensation of the members of the state legislature, allowing \$1200.00 for the regular session and \$10.00 per day for extra sessions. An amendment relative to the term of office of county sheriff. This omits the limit on the number of terms a sheriff may hold office. An amendment providing for the incorporation by any two or more cities, villages or townships, or any combination or parts of same, of metropolitan districts comprising territory within their limits, for the purpose of acquiring, owning and operating either within or without their limits as may be prescribed by law, parks or public utilities for supplying sewage disposal, drainage, water, light, power or transportation, or any combination thereof, and any such district may sell or purchase, either within or without its limits as may be prescribed by law, sewage disposals or drainage rights, water, light, power or transportation facilities. An amendment relative to the condemnation of excess land and property for boulevards and streets. This amendment provides that more land and property than is needed may be condemned and acquired and bonds may be issued to acquire this excess land and property. The voters are also required to vote on the question of a general revision of the constitution and a convention to be called for that purpose. It would cost \$250,000.00 for a general revision and it is doubtful if we would then have a new constitution submitted for acceptance any better than the present constitution. A general revision gives a chance to slip through some things which are not approved by the majority of voters. The safest and best way to amend the constitution, which causes the most careful scrutiny of every change, is the one we are now using. The following are the candidates of the two major parties appearing on the ballot to be voted for at the November election: Governor—Fred W. Green, Republican; William A. Comstock, Democratic. Lieutenant Governor—Luren D. Dickinson, Republican; Gerrit Masselink, Democratic. Secretary of State—John S. Haggerty, Republican; Catherine Doran, Democratic. State Treasurer—Frank D. McKay, Republican; Cornelius Gerber, Democratic. Auditor General—Oramel B. Fuller, Republican; John F. Cross, Democratic. Attorney General—William W. Potter, Republican; Alva M. Commins, Democratic. Justice of the Supreme Court—Ernest A. Snow, Republican; George J. Burke, Democratic. Representative in Congress—Roy O. Woodruff, Republican. State Senator—H. S. Karcher, Republican. Representative in Legislature—Douglas Black, Republican. Sheriff—Charles W. Curry, Republican; Thomas H. Hill, Democratic. Clerk—Frank E. Dease, Republican. Treasurer—W. Harry Price, Republican. Register of Deeds—George A. Pringle, Republican. Prosecuting Attorney—John A. Stewart, Republican. Circuit Court Commissioner—Nicholas C. Hartingh, Republican. Drain Commissioner—Robert C. Arn, Republican. Coroners—John Preston, Louis N. Gagner, Republican. Surveyor—John W. Applin, Republican. County Road Commissioner—Harry VanPatten, Republican. ALCONA-IOSCO I. O. O. F. MEET AT LINCOLN The Alcona-Iosco I. O. O. F. federation will meet November 3 at Lincoln. Mrs. Earl Schram of Lincoln is secretary.

### URGES SCHOOLS TO HOLD ELECTIONS

Thomas E. Johnson, superintendent of Public Instruction in a letter to the teachers of the state, urges that the schools hold elections on election day and that voting is a duty of every citizen and that it should be stressed to the pupils. He says, "As I have often suggested in the past, the time of election offers an excellent opportunity to teach government. I would suggest that every school in Michigan plan to hold an election on Election Day. I believe that it would be easy to secure sufficient instruction ballots for this purpose. Let us stress the fact that it is the duty of every American citizen to vote. It also gives the opportunity to teach the duties of the several officers."

"I will appreciate it if the commissioners will get word to their teachers and call attention to it through the newspapers."

The lecturers will include Mr. H. S. Mobley, Mr. G. L. Smith and Miss Grace Marian Smith. Mr. Mobley is one of the most prominent lecturers on agricultural and community subjects in the country. He has been a member of the extension department for many years, and is superintendent of the Harvester Company's demonstration farm near Montgomery, Ala., where so much is being done to show the value of diversified farming, crop rotation and dairying. Mr. Mobley long was active in farmers' organizations, of the legislative committee of which he was chairman at Washington during the time such bills as the Farm Loan Bank, Parcel Post and Smith-Lever bill were discussed and enacted. For many years he has been a practical and successful farmer and, looking at things from a farmer's viewpoint, he is able to talk to farmers as few other lecturers can. As the result of his success as a live stock and alfalfa grower and as a community builder, he has a fund of information, based upon experiences, which makes his lectures on those subjects most interesting and helpful. Mr. Smith is not only a real dirt farmer, but is a practical and highly successful fruit grower and horticulturist, combining the technical knowledge gained as a graduate of the college of Agriculture at the University of Illinois with the practical experience of operating a 35-acre fruit farm of his own as well as several leased apple and peach orchards. He is an expert in the control of diseases and insect pests, planting and care of young orchards and the renovation of old orchards. He is an authority on vegetable gardens and potatoes, and his wide experience in extension work in many states enables him to give exceedingly helpful and interesting talks. Miss Smith grew to womanhood on a farm, taught in both rural schools and city schools and for a number of years has been an extension worker for the Harvester Company and for the U. S. Department of Agriculture. Her talks are always full of helpfulness and inspiration.

### SOMETHING TO THINK ABOUT

By F. A. WALKER

### CO-OPERATION

IT IS remarked by observing students of cause and effect that, in all activities of minds and hands, we as a people are decidedly delinquent in co-operation.

In other words, instead of working together as a whole, we are at odds, leaving off the mastery of today's perplexities until tomorrow and likely as not forgetting them, or putting them off altogether in pursuit of outside activities of an alien nature.

In the office and in the home, if you will look about you with impartial eyes, you will not be long in discovering that there is frequent lack of co-operative forces, due not so much to the individual workers, but to the inefficiency of those whose duty it is to direct, encourage and spur up workers to do their best and keep in touch and tune with others.

In great office buildings, or in factories where large numbers of both sexes are employed, there are efforts made to bring about the full co-operation of forces—a work filled with difficulties, calling every hour for rare patience and diplomacy.

If examined critically these efforts will be found meager as compared with what might be done if co-operation of forces should be organized and directed by competent captains.

While results in the last decade have improved, they are far from being wholly satisfactory.

There still is much waste of energy and loss of time without any apparent curtailment of expense to the anxious, hard-working manufacturers, merchants and employers generally who provide the money for pay days, irrespective of the state of business.
