THREE COUNTY BANKS CLOSE DOORS MONDAY

Liquidation of Assets Forced by Troubles in Ealy Banks of Thumb District

APPLICATION MADE FOR STATE BANK

L. G. McKay Assures Depositors That Assets Should Cover Liabilities

Depositors of the three banks of Ealy, McKay & Co. located in Iosco county would receive 100 per cent of their money is the opinion of L. G. McKay expressed at a meeting of the depositors of the Tawas City bank held in the city hall Wednesday afternoon. This meeting was called by Mr. McKay following the closing of the banks Monday. Mr. McKay stated the condition of the assets of the three banks was first class and intact and that with the proper handling would more than cover all liabilities.

The closing of the banks Monday morning which stunned the depositors throughout the county and to a great extent paralyzed business, owing to a tie up of checking accounts, currency and the necessary credit for the normal functioning of business was precipitated by ten of the Ealy banks closing their doors in the Thumb territory. The banks of that section were closed last Friday because of "Frozen" loans and other contributory causes.

The farmers in the Thumb territory, are dependent to a large extent upon beans and sugar beets as their "cash" crops. Beans this year are reported to be a 50 per cent or more failure due to the wet weather just at harvest time while continued rains have made the harvesting of sugar beets so costly that there will be little profit left for the growers. Instead of loans being paid up, farmers were demanding increased credit and ready cash became more and more scarce, so that some of the banks were not always in position to meet demands of depositors.

The liquidation of the assets of these banks, because of the interlocking ownership of stock, forced the three local banks into a receivership, although they were independent units. This was caused by a law which went into effect last year, stopping the sale of the stock in privately owned banks. Otherwise the Ealy & Co. interests in the local banks could have been estimated and sold. An offer had been received for the purchase of this stock.

Besides the disastrous effect to business by the holding up of money for current business and losses to depositors which might possibly be sustained through the commercial and savings deposits, a great inconvenience has been felt from the first day through the lack of banking facilities.

Application is being made to organize state banks to replace the three dissolving banks in the county. This will speed up the liquidation of Ealy, McKay & Co.'s assets and improve the outlook of the business men and customers of the closed banks. The stockholders of the proposed state banks will include as many local men as possible, although outside capital has signified its readiness to enter the field. Mr. McKay stated Thursday that he would gladly enter the new organization as an active stockholder, if the public so desired, but in any case would make every effort toward protection of the depositors and the success of the new banks.

The Trust Department of the First National Bank of Bay City was appointed Thursday as receiver of the Ealy, McKay & Co. banks. The work will be under the supervision of I. H. Baker, vice president and general manager.

Mrs. Gust Gustafson passed away at her home in Alabaster Saturday, October 23. The cause of death was paralysis.

Hannah Happla was born in Finland July 8, 1870 and was at the time of death fifty six years, three months and fifteen days of age.

She was united in marriage to Gust Gustafson in 1893 and three years later they came to Oscoda, Mich., residing there until 1906, since then having made their home at Alabaster.

AMERICAN EDUCATION WEEK NOVEMBER 7 TO 13

American Education Week is to be observed in the schools and from the pulpits not only in Michigan but throughout the entire country. The success of the week in any community depends largely upon the interest shown in the schools.

The following program is suggested:

Sunday—"For God and Country Day." The rights and obligations of citizens to be stressed.

Tuesday—"Patriotism Day." A wholesome respect for the symbols of the country and a will to serve in defense of its principles are suggested.

Wednesday—"Equal Opportunity Day." The slogan for this day is, "Make Democracy safe for the world through universal education, giving everyone an equal opportunity."

Thursday—"Little Red Schoolhouse Day." Have a program showing the value and benefit of the public school to every American boy and girl.

Friday—"Know Your School Day." Here the idea is brought out that the ideals, aims and particularly the needs of education are the business of every citizen.

Saturday—"Community Day." This program should bear on the need of civic unity, parks and playgrounds, adequate public libraries, and every schoolhouse a community center.

Each year since the founding of American Education Week the government has issued a proclamation calling attention to the people of Michigan to the importance of this week, and setting it aside for special observance.

NOTICE

To citizens: Which is the easier to do, repair side walks or pay damage suits? Throughout the city there are broken and frost-raised side walks. Repeatedly people fall over these and sustain slight injuries. Sometime someone will be severely injured, and then what? Why not repair these places at but slight expense and insure safety?

A Citizen

TO THE PEOPLE OF IOSCO COUNTY

After 20 years of living among you and having shared your perfect confidence, you can imagine my grief at having been forced to put this confidence and loyalty to the "acid test" of the past few days experience. It is beyond my power to express my appreciation of the loyal way that you have taken it.

Some of the members of this Banking firm are affiliated with banks in Southern Michigan. Through an unwarranted rumor, a run was started last spring upon one of their banks, failures of the crop, which is almost entirely beans, and other contributing causes compelled one of their banks to suspend business. The banks were so closely located that all their chain were obliged to suspend. I have not any interest in any of those banks but we did find that in order to arrive at the value of the capital and surplus in these banks, owned by those outside members it would be necessary to liquidate these banks and we were accordingly obliged to suspend business.

I might add, at this time, that our difficulty came entirely from without and that our assets are as much intact today as they have ever been.

The present plan is to organize new State Banks at each of these points and the preliminary steps are being taken along this line. It requires some time to meet with all the legal formalities. The State Banking Department have given their sanction to this plan and we hope to have, at least, one of the banks started within two weeks and follow with the others as soon as possible.

In this process of liquidation, we have in mind the welfare of the debtors of the bank as well as the creditors. In order not to work more hardship than necessary, we are going to ask the debtors to pay with all their ability and we must likewise ask that the creditors use some patience in awaiting their returns.

The owners of these banks have invested in capital and surplus the sum of \$63,000.00 and this amount will stand as a guarantee until every depositor is paid and we feel that this sum is ample to cover any of the slower lines of credit.

Regrettable as this affair may be, I feel that the outcome is bright and I expect to use every effort to work this liquidation out as completely and rapidly as possible.

Assuring everyone of my appreciation for the kindly spirit and confidence that they have shown me, I want to remain,

Respectfully yours,
L. G. McKay.

Life's labor done as sinks the clay,
Light from its load the spirit flees,
While heaven and earth combine today
How blest the righteous when she dies
Servant of God well done

The toolsome journey past
The battles fought, the victory won
And thou art crowned at last

CARD OF THANKS

I wish to thank the voters of Iosco county for their confidence and support given me at the general election Tuesday.

Charles W. Curry

ELECTION BRINGS OUT LIGHT VOTE

The bi-annual fall election passed with small interest in Iosco County. There was no opposition on the county ticket except for the office of sheriff. In this race Charles W. Curry, candidate for re-election on the Republican ticket received 1003 votes and Thomas H. Hill 305 votes.

In the gubernatorial contest, Mayor Fred W. Green received a vote of two to one over Wm. A. Comstock. The remainder of the Republican ticket received votes which lead that of the head of the ticket. The Democratic candidate for governor captured Bay and Saginaw counties and had a considerable lead in Alpena and Arenac counties.

TAWAS INDEPENDENT BASKETBALL TEAM ORGANIZE

The Tawas Independent Basketball club of 1925-26 is considerably strengthened by former High School stars and a large schedule will be booked with class "A" teams for the 1926-27 season.

Notwithstanding the late start and unsuccessful attempts to obtain practice hall last season, the boys made a fine showing at the tournament, receiving the short end of a 17-14 score with the penant winners. This year, however, they are set for an early start, although they will be unable, under present conditions to practice locally, games and practices will probably be scheduled for Oscoda.

Following is a partial list of members who hope to participate in games this season at the Tri-county tournament as representatives of the local club:

Siglin, Gurley, Noel, Taylor, Acton, Steinhurst and Evrel. More players are expected to join and try out with the club in the near future.

WORKERS AT NATIONAL GYPSUM CO. TO GET BUS SERVICE

The Michigan Public Utilities Commission, in session last Thursday at Lansing, Michigan awarded Jack Davis a permit to operate motor busses between East Tawas, Tawas City and the plant of the National Gypsum Co. at Emery Junction, Michigan.

This will mean that workers with homes in Tawas will be afforded an opportunity to ride to and from work each day and will not be forced to board in Emery Junction, no doubt this service will be very popular with the workers, as heretofore there has been no means of travel between here and the plant. The actual starting time has not been announced, but the first bus is nearing completion and will arrive in Tawas within a few days. Service is expected to start Monday or Tuesday.

IN MEMORIAM

In sad but loving memory of my dear husband, Milo Stevens, who died two years ago today, Nov. 4. Like the petals of a rose that drop and fade away

So was his life just fading, day by day and when at last the sad end came as I stood by in tears
To think of all the loneliness through all the coming years
But some day I hope to meet him when my day is o'er
On the beautiful shore of somewhere
His loving wife

ply moisture and heat. Wet a cloth
with warm water, not hot, and lay it
over the dent. Hold near a hot iron,
but not near enough to scorch or char
the wood. Repeat until the bruise
comes up, then lay over the bruised
surface a cloth dipped in linseed oil.
Finally rub with a mixture of equal

Record Low Temperature

The weather bureau says that the
lowest temperature ever recorded in
the United States is 65 degrees below
zero, at Miles City, Mont., January,
1888. As alcohol freezes at about 180
degrees below zero Fahrenheit, no
known actual temperature sufficiently
low to freeze pure alcohol has oc-
curred in the United States or else-
where.

Barn Larger Than House

The old idea that the barn should
be larger than the house still main-
tains, but not that the barn should be
better than the house. We are now
getting the big thrilling idea that hu-
man beings have some rights as well
as domestic animals.

"Man of December"

Napoleon III of France often was
called the "Man of December" in alu-
sion to his coup d'etat of December,
1851, by which he obtained control of
the government, and to his becoming
emperor in December, 1852.

Said by the Cynic

A cynical bachelor says that one can
never tell what a day may bring forth.
A man may be happy today and mar-
ried tomorrow.

Why Most People Fail

Most people fail because they stop
too soon. When odds are against
them they lose faith in themselves—
they have not the courage to fight
obstacles that seem insurmountable.
Men cannot think failure and win
success.

BURLEY & LEE, Editors

They say that when the eyes are shut, our hearing is more acute. We've seen people trying the experiment in church.

Mrs. Carroll of the Hemlock road says she makes as fine a bread as anyone could wish out of Sweet Cream flour. Every sack is the same.

Ever hear this one? "Honest, judge, I hope de Lord will strike me daid if I stole dem chickens."

"Well, you stand over there in the corner. If He doesn't

strike you dead in 30 minutes, I'm going to give you 30 days."

Mrs. Jacob Sands says, be sure and send me Monitor coal as I don't want any other kind of coal. Every user is a booster for Monitor.

Yesterday we heard a flivver going down the street that must have had all of its bearings burned out last spring.

Call us for prices whenever you are ready to sell your grain and beans. We were raised in this business and "we know our groceries."

Dan. "Where are you off to, Ben?" Ben: "I'm going

to see the doctor. I don't like the look of my wife."

Dan: "I'll come w'ye. I don't think much of the look o' mine."

Don't increase your herd—increase your milk out-put. In other words, feed your cows Wonder Dairy Feed.

"Charge that to my mother," said a small boy in our place the other day. "You know her, she's dad's wife!" We didn't get a pheasant, did you?

Little Miss April

By DOUGLAS MALLOCH

SEE speaks with a frown, but she comes with a kiss. And kisses your beard away. I call her Mrs. April, the dear little miss.

Though really her title is May, Now, May is a month of continual flowers, But April's a season of sunshine and showers.

Had I named the maiden, I'm certain it's so, Then I would have called her Miss April, I know.

She thinks that the world is a terrible place, A moment, a moment or two, A moment a cloud will pass over her face—

And then how the sun will come through!

She tells you the world is a terrible spot, And proves right away that it really is not.

Though how for a moment the lady is vexed, Lord bless me the sun may be shining the next!

O Little Miss April, they laugh at your pranks, They smile at your sigh and your song.

But Little Miss April, I give you my thanks—

You sorrow, but never for long, And I, when the cloud may envelop my way,

May I see the sunshine, behold the new day,

When dark is the mountain, when stormy the sea,

May I have the soul of the spring-time in me!

Among the NOTABLES

NATHAN ROTHSCHILD

THE Rothschilds of Europe have the reputation of being the greatest financial geniuses. Indeed, their ability to amass wealth has made them world famous. And Nathan Meyer Rothschild was the master moneymaker of them all.

Grandson of a small merchant, one of ten children, Nathan was born September 16, 1777. He was sent to England to take charge of the vast Rothschild business there, the other four brothers being scattered in other important European countries. Nathan took up his residence in London. The boldness and skill of his financial methods roused first the distrust then the admiration of his business friends. He employed carrier pigeons and special fast boats to get news which would affect his trading on the stock market. He loaned money to carry on the war against Napoleon, and always believed in Napoleon's eventual defeat. He is said to have been present at Waterloo. However, he did have some representative there, at least, and arranged for relays of fast horses; for he got the news of Napoleon's defeat some hours before any one else. Consequently he could buy heavily in the stock market—at that time depressed by the news of Blucher's defeat. He risked all his fortune on that chance, and made, nobody knows how much, money out of it.

He, himself, and other members of the Rothschild house, had loaned millions to the governments of their various countries. Indeed, the war of the allied countries against Napoleon, was practically financed by them. Nathan died in 1836.

AN ABBREVIATED STORY

IT

MR. AND MRS. EMILIE AIR, who hadn't seen young Blugg and his wife since they left for the Menigitis Islands on their honeymoon, descended on them voraciously.

"Oh, the Bluggs!" cried Mr. Air. "And to think that we should meet them wheeling the baby. Isn't that just too perfect! Do let me take the little coverlet away from its little face and get a little look at the little dear! Blugg, you lucky devil, it's the living image of you! The same Roman chin! The same Mexican ears!"

"Nonsense!" snorted Mrs. Air. "It favors Mrs. Blugg. Why, the resemblance is startling, amazing! It has Mrs. Blugg's Grecian mouth, her Asiatic dimples, her Peruvian nose! Positively, my dear, the likeness is uncanny!"

And they argued it out so excitedly, so vehemently, that a crowd gathered and took sides and the fire engines came, and finally the exasperated young Blugg had to raise his voice to a frenzied pitch to set the matter straight.

"Conblame it!" he roared. "This ain't our baby! We ain't got any baby! This is just one we're wheeling!"

Tree-Trunk Water Pipes

During excavations near Holborn, England, old wooden water pipes have been dug up. They consist of trunks of elm trees hollowed out, and form part of many miles of wooden pipes used more than a hundred years ago for distributing water in the metropolis.

Support for Grapevines

The bureau of plant industry says that copper wire may be used to support grapevines. While the copper wire is more expensive at first, some believe that it is cheaper in the long run, as it endures longer than galvanized iron, which is used more universally. The galvanized iron wire needs to be removed in about three years. No. 10 wire is the size which is used for vineyard trellis.

Porous Stone

The geological survey says that some kinds of stone are quite porous and will absorb considerable quantities of water, while some marbles and granites are practically impervious to moisture.

Tuckahoe is a name applied by the Algonquin Indians to many roundish roots. Specifically it included the golden club and the arrow arum, both having fleshy rootstocks, acrid when fresh, but rendered edible by cooking and abounding in starch. Another highly prized tuckahoe is a subterranean fungus found in the southern states. It is not unlike a coconut. It is also known as Indian bread or Indian loaf.

SCHOOL NOTES

High School

Prin. William Crowe attended the Home Coming at Albion college last week end.

To the Sophomore class credit for 100 per cent attendance the past month has been given.

Talk about salesmanship ability the Freshman can't be beaten as they have in just one week's campaign disposed of their order of jello, which realizes for the class \$22.00.

Stewart Roach, as Freshman class president, takes pleasure in expressing their sincere appreciation of the interest shown by purchasers in their precious food product. It is certainly worthy of buying and this is proved by the way it sold and the call from many for more later on.

Mrs. John Baguley visited High School last week.

Seventh and Eighth Grades

Everyone seems to be ready for work after the short vacation.

Sarah Brown is back after several weeks absence.

We have just finished reading "Silas Marner." We are going to read "Anne of Green Gables" next.

We celebrated Halloween by playing games for one hour Friday afternoon. We had three basketball relay races. The seventh grade won two out of the three and were made the heroes of the afternoon. After the games were over apples were served for refreshments. Everyone reported a good time.

Fifth and Sixth Grades

Friday afternoon the fifth and sixth grades enjoyed a Halloween party. Herbert Zollweg, Bessie Rouillier and Dora Marks were the prize winners of the various contests.

The fifth grade is beginning the study of fractions.

The "Blue Racers" having won seven of the eight stars given in the spelling contest have proved that they are better spellers than the "Red Racers" (Grade V).

Mrs. Olive Davison and Mrs. R. M. Baguley were recent visitors of our room.

Third and Fourth Grades

Richard King is back in school after having been ill for a couple of weeks.

We had a Halloween party Friday afternoon which we enjoyed very much.

TRI-COUNTY ASSOCIATION MEET AT STANDISH

A fine dinner was served the Violet chapter and its guests at the M. E. church community rooms by the junior Aid.

The evening session opened at 8:00 with officers of Violet chapter officiating. Jennie M. Newell grand treasurer of the Grand Chapter of Michigan was present and was escorted to the east, also Anna Brink, past grand Warder and Lena Wakeman, president of the Saginaw and Bay County association. Several members of Temple chapter, Bay city; Zion chapter, West Branch and Glen chapter, Pinconning were also present and were welcomed by the association. Violet chapter officers vacated their chairs and officers appointed by the president of the association took the chairs and exemplified the work in a very able and pleasing manner with Mrs. Joy Milne and Mrs. Leonard Ireland as candidates. During the work, grand treasurer, Jennie M. Newell held a school of instruction.

A quartette composed of Mrs. Schuster and Mrs. Curtis, Rev. Shugg and James Mark assisted with the work and was an added improvement during the initiation. Following the work, the officers of the local chapter took the chairs and closed the chapter in due form. Several visitors were called upon for remarks and promptly responded. Sister Fuqua, past president of the association was presented at the east and with a few well chosen words from the president was presented with a bouquet of red carnations. Worthy matron, Alice Blakeley then presented flowers to president, Sarah Brown and grand treasurer, Jennie Newell. The

The TALE of KIDDIE KATYDD

By Arthur Scott Bailey

SOLOMON OWL'S CRY

MR. NIGHTHAWK was fidgeting about on a branch of a maple tree. What Kiddie Katydd had said to him about Solomon Owl frightened him. And he almost wished he hadn't come to Farmer Green's dooryard that night.

But the more he thought about the matter, the less he was inclined to believe that there was really any danger. And soon he peered at Kiddie Katydd through the darkness and said:

"You almost fooled me. But I know now what you are trying to do. You were trying to scare me away from here."

"Katy did, Katy did; she did, she did!"

"You needn't say that!" Mr. Nighthawk exclaimed. "Katy has nothing

"Who-Who-Who!"—It Was Solomon Owl's Weird Call.

to do with my case. She hasn't even mentioned Solomon Owl's name." "You don't understand," Kiddie told him. "I'm speaking of an entirely different matter."

And then Mr. Nighthawk had another idea. He chased the frown away from his face and smiled very pleasantly.

"I'm sorry that you don't feel like jumping for me," he observed. "But I'd be just as glad to see you fly! I remember being told that you fly almost as well as you jump."

"Oh, I can't begin to fly as well as you can," Kiddie Katydd told Mr. Nighthawk. "I only wish I knew how to coast down out of the sky the way you do, without being dashed upon the ground. How do you manage to stop so suddenly?"

hall was beautifully decorated with autumn leaves, berries, fall bouquets and floor lamps.

The next meeting of the association will be held with Grace chapter at Omer in May 1927.
