In the team typing event, in which

all three students partook, Tawas City took second place, being beaten by Midland. In the second year typing event Walter Kasischke took first place, writing at the rate of 57 words per minute, and Charles Colby took third place at nearly 52 words per minute. In the accuracy typing event Irma Kasischke took second place, but did not qualify because the required speed was not made. WHAT ABOUT THE

"What is Tawas going to do about Baseball this season?" is the question being asked by local baseball fans. It days in Detroit. is thought that National City will not be prepared to enter the league this Guire, Tawas City. year, and it seems that enough available players, if some of the younger ones were included, could be listed to give Tawas City a good team.

If you are interested as a player, get in touch with Manager Musolf or W. C. Roach at once. If assurance is given of the support of the players and the fans of Tawas City there is no question but that a team from here can be placed in the league.

Another question which comes up at this time is "Why not finish the work started on the athletic field at the fair grounds?" The heard of supervisors appropriated \$300.00 for this work and the promoters of the field, Burley Wilson, Rev. Fr. Brogger and W. C Roac', were assured of financ'al support from the people here. Why not fin'sh the job? A considerable amount of work has already been accomplished on the bareball diamond. So much that if 't was d'sced and floated and the infield clayed, the diamond would be in fair condition. If things were pushed forward now the athletic field would be ready within a short time. Why not go ahead?
