WILL COMMANDER BYRD TAKE OLD GLORY TO THE SOUTH POLE?

The Stars and Stripes of America may soon be carried to the South Pole, as it already has been to the north pole if the present plans of a gallant Virginian are successful. For Commander Richard E. Byrd, the first man to fly over the North pole, is planning to duplicate his feat in the Antarctic and the whole world will watch with interest the result.

In this issue of The Herald there is an article by Elmo Scott Watson which gives a comprehensive outline of the plans for this latest Polar dash. Be sure to read the illustrated feature article, "To South Pole By Plane," in this paper.

WHITTEMORE SCHOOL

The Whittemore public schools opened September 6th with an enrollment of 140 pupils. The senior high school has an enrollment of 29 and the junior high 36, with eight in the graduating class. Organized under the 6-6 plan.

Caius Gordon, Superintendent; Floyd L. Stelter, Principal; Florence Moeller; Rosetta Lietz; Russell McKenzie; and Jennie Valley.

The Whittemore school made an excellent exhibit in club work at the Isosco County Fair in the Manual Training and Sewing departments.

COUNTY TEACHERS MET HERE LAST SATURDAY

A meeting of the teachers of the county was held at the Court House September 10, at which many of the year's supplies were given out. The Michigan Education Co. of Lansing sent a representative with samples of school supplies and magazines which the teachers could look over and order for their work.

D. A. Gates from the Michigan Tuberculosis Association was present and talked on the great necessity of health education in our schools.

In speaking of teaching children how to care for their teeth Mr. Gates said that teachers could buy toothbrushes at six cents each from the Michigan Tuberculosis Association at Lansing for their pupils. These are small brushes but good. A sample may be seen at the office of the county school commissioner.

Mr. Emens from the extension department of Michigan State Normal College talked on extension work. Mr. Emens had been out in the county securing enrollments for a class during the week, and several more were secured at this time.

We are definitely assured of two classes this year which will meet Saturdays until twelve to sixteen meetings have been held. If both courses are taken as much credit is earned as at a summer school. Tuition is ten dollars for each course. Credits earned in such a course may be used toward the renewal of certificates, or applied toward obtaining a life certificate or a degree.

The first meeting of this class will be held Saturday, September 24, at the East Tawas High School. Do not forget the date. Everyone who intends to carry on the work should be present in order that the instructor may know just whom to depend on as members of the class.

PRIMARY SCHOOL MONEY RECEIVED

LONG CRUISE TAKEN TO FILM SEA STORY

More than 2000 nautical miles were sailed by the veteran De Mille clipper ships, "Indiana" and "Bohemia," during their location cruise on the high seas for the sea scenes of "The Yankee Clipper," a Rupert Julian production which will be shown at the State Theatre on Sunday and Monday, September 18 and 19.

The producing company made its headquarters aboard the "Bohemia" during the voyage. This 50-year-old clipper ship is the "Yankee Clipper" of the picture, while the "Indiana" is seen as the British ship, "Lord of the Isles." An historic race between the two clippers from Foo Chow, China, to Boston Harbor, each laden with a cargo of tea, provides the background for Denison Clift's story of America's heyday on the seas.

William Boyd and Elinor Fair, who scored so convincingly in "The Volga Boatman," portray the leading roles. Junior Coghlan, Walter Long, John Miljahn, Clarence Burton and Burr McIntosh also figure prominently in the cast. Garrett Fort and Garnett Weston made the adaptation and C. Gardner Sullivan supervised the production.

BUICK
for
1928
When Buick im-
proves upon Buick
—the standard for
the year is set

Buick for 1928 introduces
a higher standard of beauty
and luxury than the world
has ever known. Buick
interiors are as modish as
exquisite drawing-rooms—
as harmoniously colored
—and as comfortable.
Buick's new Fisher bodies
are low-slung without
any loss of head-room or
road-clearance.

And so, down to the small-
est detail of construction,
wherever refinements
could be made, Buick has
made them. Again Buick
has improved upon Buick.
Again the standard for the
year is set.

FOR THE GOOSE—
WHAT'S become of the girls that
used to say, "Oh, Mr. Smith, this
is so sudden?"

If anybody is surprised by a per-
posal of marriage nowadays, it's the
man. He's terrible surprised. He
don't know how he come to do it.

The reason more men don't perpose
is, the women beats 'em to it.

FOR THE GANDER—
Concentrate. A wedge 'll go through

"SWAN SONG." According to tra-
dition Flounnala, daughter of Lir,
was transformed into a swan and was
compelled to wander for many hun-
dred years over the lakes and rivers of
Ireland until the introduction of Chris-
tianity into the land.
This bird when wounded pours
forth its last breath in notes most
beautifully clear and loud. It is said
that its notes resemble the tones of a
violin, though somewhat higher. The
music in Iceland presages a thaw and
hence one of its great charms.
In Shakespeare's "Othello," we find
Emilia says, "I will play the swan and
die in music."—Anna S. Turnquist.

Sam was sent to the grocery store by Mrs. Sam to get a pound of coffee. When he arrived there he had forgotten the brand he was told to get. So the grocer took him back to the coffee shelf to see if he could pick out the brand by the label. After long study, the grocer pointed to a tin which was labeled "Blank's De Luxe," and said to Sam, "Maybe De Luxe is what you want." "No suh," said Sam indignantly, "A h don't pick mah coffee by de looks. All ah's interested in is de flavur!"

Well, some folks are inclined to buy Coal because it looks black and then expect quality.

We buy Coal on the basis of Sam's "Quality" flavor, and we sell it in the same way. Try Blue Diamond Coal.

There is always something wrong with a man, as there is with a motor, when he knocks continually.

A THOUGHT TO THE BUYER

By SYDNEY J. BURGOYNE

THERE are rules on how to treat the man who buys—but this one tells of just a splendid little plan To help the chap who sells.

Jump right into the Salesman's shoes For just a little while— And then I'm sure you won't refuse To greet him with a smile.

He may have traveled all night through In a stuffy upper berth, Just so that he could bring to you "THE FINEST GOODS ON EARTH!"

His hands are always "in and out"— "In" his pockets for a tip, Then "out" again for just about Each breath he takes on his trip.

The comforts of the snug home-nest That you enjoy so much, He had to leave with all the rest— And then maybe "gets in Dutch."

And though hotels are often fine, I'm sure if you would try To jump around along the line You'd pity the Poor Guy.

But pullman berths won't seem so small, Nor hotel clerks so pert, And he won't mind such things at all— The tips he gives won't hurt.

If you just hand a welcome out— Whether you buy or not— Then he'll go on, without a doubt, Happier—by a lot.

So stop awhile and think a bit, And you'll see the common sense Of trying just to look at it From his side of the fence.

Then greet him with the friendly hand. He needs the "dough" and YOU; But don't forget to understand— YOU NEED THE SALESMAN TOO!

THE WHY OF SUPERSTITIONS

By H. IRVING KING

WART CURES

NO DEPARTMENT of folk medicine as practiced in this country appears to be so popular as that which deals with the cure of warts. One of the publications of the American Folk-Lore society gives nearly four pages to a list of magical cures now in vogue for these annoying excrescences.

Mythology and sympathetic magic and old forms of primitive religions are the bases of the "cure." Here are two which are based upon tree worship. Draw a knife across the wart and then draw it (the knife) across an apple tree. Cut your finger nails and place the cuttings in a hole in a tree. Then stop up the hole and "wish the warts onto somebody else." In both cases the tree spirit is appealed to for a cure. In the first process the transference of the evil spirit residing in the wart to the keeping of the tree god is accomplished by means of the knife, and in the second cure by means of the cuttings of the finger nails. The knife is an iron instrument and, as has been shown, iron is something possessing power over witches and evil spirits. And the finger nails were regarded by the ancients, even when severed from the body, as retaining the "ego" of the man. To transfer finger-nail cuttings was tantamount to transferring the whole man to the keeping of the tree god.

The wishing the wart onto another after the ceremony of the nail cuttings is in the nature of a prayer to the tree god to dispose of the evil wart-spirit by handing it over to another person; thus purging the worshiper of it and providing for it another home so that it may be kept quiet and not seek to return to its former habitat. In the days when all Europe was covered with a dense forest, tree worship was the most extensive and most popular cult, and it is not surprising that we find among our current superstitions of today so many vestiges of it.

Save Money on Long Distance Calls

There are Two General Classes of Long Distance Calls:

1—Person-to-Person. This is a call placed for a specified person and is the kind of call to make when you want to talk to someone in particular and you are not reasonably sure that person will answer the telephone or can be called to it quickly. A Person-to-Person call costs the same at all hours.

2—Station-to-Station. This is a call placed for a certain telephone number and is the kind of call to make when you are reasonably certain that the person with whom you wish to talk will answer the telephone or can be called to it quickly. Station-to-Station calls cost appreciably less than Person-to-Person calls, and offer reduced Evening rates, from 7:00 p.m. to 8:30 p.m., and further reduced Night rates, from 8:30 p.m. to 4:30 a.m. There is no change of rates at midnight.

It helps speed the connection if you give the Long Distance operator the number of the distant telephone, when making a Station-to-Station call, but it is not necessary to give it. If you do not know the number, tell the operator, for instance, that you are calling the office or home of "Mr. John Smith, 350 Sayre Street, Lansing, Michigan;" she will then connect you with the called telephone and give you the number for future use.

SCHOOL NOTES
 have decided to try for the Palmer Method Writing Certificate.
Fifth and Sixth Grades
 Annie Metcalf and Mina Brown enrolled in the fifth and sixth grades respectively, Monday morning.
 We were sorry to have Martin Kasischke leave. We miss his hearty laugh as well as his interesting remarks.
 If you wish to know "What's in a Box?" ask the sixth grade boys and girls who have begun work on an arithmetic project. We plan to build a doll house. It is interesting to notice that such remarks as "I hate problems in measurements," and, "I don't see any sense in drawing maps to scales," are disappearing.

 The bureau of standards says it is a well-known fact that it is impossible to secure a perfect adjustment of a watch—that is, to eliminate all variations in the watch's rate. It is, in fact, impossible to secure perfection of rate in any respect owing to the interrelation of the various adjustments and to certain factors which prevent the securing of ideal uniformity of rates.

WHEN I WAS TWENTY-ONE
 BY JOSEPH KAYE

At 21: Senator Hiram Johnson was leading an uneventful life.

"AT THAT time I was practicing law in Sacramento. I spent my days at my desk or at the courts, and when I got through work in the afternoon I went home and stayed until it was time to go to work again next morning.

"My real life began when I was given an opportunity to quit working for myself and began working for the people of the state.—Hiram Johnson."

TODAY: Senator Johnson has been given the opportunity to work not only for the people of his native state, but for the people of the United States. He is one of our most famous and virile political leaders.

Johnson achieved his first celebrity when he moved out from the comparative confines of Sacramento to the greater spaces of San Francisco and was retained there as counsel for a group of citizens to prosecute graft scandals in the city. The case involved most city officials and many public utility corporations and Johnson secured the convictions he was after.
