Automobiles and The Telephone

Thirty years ago the automobile was a novel plaything which only the well-to-do could afford.

Today the automobile is a necessity. Motor trucks and buses play a large part in the transportation of freight and passengers. Commercial motor vehicles are indispensable.

Motor cars take us out-of-doors, enable thousands to enjoy the advantages of travel and make accessible many beauty spots in every state. Commercially and socially, the automobile has broken down the barrier of distance and made neighbors of all communities.

Michigan leads the world in the development of the automobile. Great corporations, producing a majority of the nation's motor-driven vehicles, have made Michigan the center of automobile manufacture.

Closely associated with and contributing to the growth of Michigan's major manufacturing industry are the telephone wireways. More than 3,000,000 miles of telephone circuits in Michigan serve in the purchase of raw materials, the directing of manufacture and transportation, the contacting of dealers and the buying and selling of the finished product. Telephone wireways carry the voice of motordom throughout the country, and even overseas.

Thus, are wireways serving Michigan's great industry and aiding in the prosperity and growth of our state.

Our policy—"To continue to furnish the best possible telephone service at the lowest cost consistent with financial safety".

DOAN'S PILLS

HATE By ARTHUR D. HOWDEN SMITH

STORY FROM THE START Capt. Lion Fellowes' American merchant ship is sunk by a British frigate off Portugal in the War of 1812.

CHAPTER VII—Continued No one was visible about the house and outbuildings, but a trickle of smoke capped the chimney.

There was a flutter of movement in the room. "God save us!" exclaimed a man. "Oh, who is he?" cried Cara Inglepin's voice.

Fellowes bowed ironically toward the sofa. "I am loath to incommode you," he said, "but we require a temporary resting place for the body of an American soldier."

he asked me was it true ye was born in London, and all that. And I said twas. And afore I could say more he cut me off.

He glared toward her appealingly, and she made a little gesture of resignation. "He came to see me, Mr. Fellowes."

"Does it matter for what a man dies, if it be only what he believes—Oh!" Her voice shrilled in a scream. "Your back! Your back!"

"How you must hate me!" There was no trace of belligerence in her manner. "I am proud, too. A hundred lashes! I should hate— But words are cheap, sir."

"They will require the sofa for the lady. Lay Sergeant Peir on the table. Tom, you stand guard at the door here. And remember, no one is to pass out."

"I wouldn't go so far as to say that," he denied. "You know you are subject to suspicion, Chater—oh, not in any extraordinary way, but in your own right, as it were."

***** Mental Growth All my old opinions were only stages on the way to the one I now hold, as itself is only a stage on the way to something else.

The DAIRY CONTROL GARLIC BY FALL PLOWING

Keep Plants Down by Grazing Live Stock. (Prepared by the United States Department of Agriculture.)

Timely plowing late each fall and again early in the spring, followed by the growing of thoroughly cultivated row crops, are the essential steps in the so-called cultural method of controlling wild garlic.

Bad Practice to Leave Calf With Cow Very Long

A common practice is to leave the calf with the cow for the first three or four days. This plan allows the calf to be with the cow during the time when the udder is inflamed.

Skim Milk Calf

The skim milk calf should be allowed to eat some grain. One good mixture consists of equal parts of corn meal, wheat bran, and ground oats.

Rupture Shield Expert
Coming to Tawas City
Tuesday, November 26
At the Hotel Iosco

Rupture shield expert will be at the Iosco Hotel, Tawas City, on Tuesday, November 26, from 10:00 a. m. to 4:00 p. m. Evening by telephone appointment only. One day only. No charge for consultation.

Mr. C. F. Redlich, the successful expert, says:

The "Perfect Retention Shields" hold the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief, contract the opening in a remarkably short time and strengthen the weak tissues (the real cause of rupture) so that they frequently recover their previous natural retaining power, needing no further outside support. Stomach trouble, backache and constipation often caused by Rupture promptly disappear.

Truly remarkable and prompt results have been obtained not only with recent and not fully developed ruptures but also with old, long neglected ones.

Ingenious, recently perfected devices are now holding ruptures firmly which heretofore never had been retained.

No elastic belt—nor filthy leg-straps are used.

I guarantee the durability of my absolutely sweat and moisture proof sanitary appliances.

75% of ruptured children recover completely through expert mechanical treatment according to statistics.

Do not waste your money on widely advertised mail order contraptions. You cannot fit yourself.

C. F. REDLICH, Rupture Appliance Expert, Home Office, 535 Boston Block, Minneapolis, Minnesota.
