Political Campaign Enters Final Weeks; Draft Registration Plans Completed; Hitler and Mussolini Hold War Council As Great Britain Continues to 'Hold Out'

DEFENSE:

Conscription

Deferment of the draft call in farm states until the harvest has been brought in is being considered in Washington. Maj. Joseph F. Battley, occupational deferment advisor to the joint army-navy draft committee, made the recommendation. The proposed deferment would be for six months. In states which are both agricultural and industrial, Battley said, he proposed the governors call urban registrants during the harvest time and equalize this in other seasons.

Plans for the October 16 registration are almost completed. For those in the age range, 21 to 35, there will be no excuse for failure to register. Men who are away from home that day may register wherever they are, and their cards will be sent to their home districts. Those out of the country must register within five days of their return. Failure to register is punishable with five years in prison and \$10,000 fine.

Promotions

The army in September reached the highest peak in peacetime history, 332,142 men. Continued rapid three-year enlistments in the regulars is expected to bring the army to its maximum strength of 375,000 in a comparatively short time. Enlistments since May have been almost 125,000.

To meet the requirements of this rapidly expanding establishment the army is pushing its officer personnel into the higher grades that will be created by the bigger units. In time of peace the army promoted officers up to the grade of colonel by seniority. But now a mass promotion, unknown except in war, already has taken place. To make room for reserve officers, 55,000 of whom are being called into the service, all second lieutenants with a year of service have been promoted to first lieutenants and all first lieutenants to captains. The President also named 85 officers to higher rank in the general grade. This increases to 187 the number of officers in the grade of brigadier general and higher.

When the emergency ceases, or if the officers are assigned to other duties, they will revert to their lower grades.

Recreation

The army will seek, in this emergency, to eliminate the elbowing of each other by welfare agencies that caused rivalry and some ill-feeling in the World War. There will be no recreation huts by Y. M. C. A., Knights of Columbus or Red Cross. Instead the army itself will maintain recreational facilities in all camps.

THE CAMPAIGN:

For the second time in as many weeks, Wendell L. Willkie arrived at his New York home to rest up after six days of hard campaigning. It was the first appearance of the G. O. P. presidential candidate in the East since his nomination. During this period he covered ground from Indiana to Pennsylvania. Be-

Helping Hand?

Here is Warren Lee Pierson, manager of the U. S. Export-Import bank photographed on his arrival in Buenos Aires during his current tour of South American capitals. In an official capacity he is believed to be consolidating Pan-American relationships for the expected economic trade war between western hemisphere powers and the German-Italian-Japanese axis.

NEW ALLIANCE: Against U. S.

Under the eyes of 200 newspaper men from all parts of the world, in the vast gilded Hall of Ambassadors of the new German chancellery, Adolf Hitler and Premier Benito Mussolini linked their fortunes of war to those of Japan. A 10-year agreement was signed by their representatives calling for a "new world order."

The treaty provided: 1. Europe should be the sphere of influence of Germany and Italy; 2. Asia should be the sphere of influence of Japan; 3. the trio would act as one if any should be attacked by a power not now involved in the present European war or the Chinese-Japanese conflict.

It looked as though two nations were being eyed, the United States and Soviet Russia. But another provision excepted Russia. There were hints of additional "secret" provisions, one calling for German and Italian fifth-column activity in Latin America, so that American influence would be activated in that direction and not in the Pacific.

Was the agreement aimed at the United States? To make sure that there would be no misunderstanding, German Foreign Minister Von Ribbentrop spoke up on that. He bluntly said it was. But there was some indication that Russia didn't like what transpired and didn't entirely believe they were out of range. Von Ribbentrop was scheduled to hurry to Moscow and ally suspicions. It was said authoritatively the agreement was an answer to America's sale of 50 destroyers to Britain.

In Washington

Secretary of State Hull told a press conference that "the announcement merely makes public a relationship which apparently has long existed." Washington, it appeared was not inclined to retreat before the new Axis.

President Roosevelt refused to admit that he knew the contents of the treaty in advance. It was significant, however, that 24 hours earlier he applied an embargo on scrap iron and oil to all nations outside the Western hemisphere except England. The embargo is effective October 16.

While Mr. Roosevelt denied he was considering credits for Great Britain, there was reason to believe the army soon would turn over a number of powerful "flying fortresses" to London.

TWO FAIRS:

Closing Time

The "letter for posterity" deposited at the New York World's fair grounds and due to be opened in 5,000 years, was sealed in its 50-foot torped-shaped cupaloy container is backed with symbols of civilization of the year 1940, including an alarm clock, tooth brush, seeds, books, motion picture film, plastics, fabrics, money, a woman's hat and micro film on which are more than 10,000,000 words and 1,000 pictures. The New York fair closes forever October 26.

The Golden Gate exposition in San Francisco harbor, which also opened two years ago, played its final performance to the largest crowd it ever attracted on a single day, 210,800. The 1940 attendance was 6,535,576.

MISCELLANY:

Safety

Five hundred and six school children in Chicago marched slowly through the main streets to beat of muffled drums—each representing a ghost. The funeral file was preceded by a truck bearing two caskets and followed by a hearse. The pageant was produced by the Greater Chicago Safety Council as a grim reminder that 506 pedestrians were killed in that city last year by automobiles.

Early Removal Of Tonsils May Affect Sinuses

By DR. JAMES W. BARTON
(Released by Western Newspaper Union.)

WHEN it was found some 30 years ago that infected tonsils caused rheumatism and rheumatism caused heart disease, there were thousands of children who had their tonsils removed if they had one attack of simple sore throat. Also, tonsils that were larger than normal, without any symptoms whatever, were removed.

However, that the tonsils are useful organs up to the age of puberty (14 to 16) is admitted, so that physicians today do not advise removal of tonsils unless there are repeated attacks of tonsillitis. If one or more attacks of tonsillitis are followed by rheumatic attacks a few weeks later, the removal of the tonsils is usually advised.

There has arisen in recent years a new problem of sinus infection, sinusitis as it is called. And physicians are telling us that there is more sinus infection now because of the early removal of tonsils which were doing some of the work done by the sinuses. The increase in the amount of work to be done by the sinuses—filtering blood and chest—preventing nose, throat and chest ailments, is increasing the number of cases of sinusitis.

An examination of school children with and without tonsils by Dr. Kayser, Rochester, N. Y., who has done so much research work on tonsils, found that sinus infection occurred more often in those whose tonsils had been removed during their early years.

Allergy Sometimes the Cause.
That sinus trouble is not always due to infection is pointed out by Dr. E. C. Mitchell, Memphis, Tenn., in West Virginia Medical Journal, who states that allergy (sensitivity to various substances) can set up an irritation in a sinus which the patient, and sometimes the physician, may believe due to infection. He points out that if allergy or sensitiveness is causing the disturbance in the sinus, the material dropping into the throat is liquid or fluid and the lining of sinus and nose is pale, whereas in infection of the sinus, the material is a thick mucous and the lining of sinus and back of nose is red and boggy.

Relief for the 'Hard of Hearing'

MOST physicians dislike recommending new remedies or forms of treatment to those who are hard of hearing because they do not wish to raise false hopes in these patients. The hard of hearing patient, because he misses so much of what is going on around him, gradually grows moody, keeps looking inward instead of outward, and to have his hopes raised only to be dashed down, increase his mental depression.

The use of prostigmin—an ovary extract—has given some help in cases of hard of hearing due to catarh.

From the Ear, Eye, Nose and Throat Monthly, comes the report of another series of cases of "partial" deafness in which prostigmin was used.

Twenty-eight patients with head noises and acute or recent blockage of the eustachian tube (tube carrying air from back of throat to inner side of ear drum), most of whom had marked deafness, were given injections of 1 cubic centimeter of prostigmin methyl-sulphate, 1 to 2,000 solution, at intervals of from three to five days, together with the opening up of the eustachian tube by the use of an instrument and massage. There was rapid relief from the annoying symptoms and few patients required more than five injections even where there had been loss of hearing for as long as one month.

Thirtythree chronic cases of deafness were treated by similar injections two to three times weekly, with resulting gradual improvement or very slow improvement.

Remember, prostigmin is a gland product and should be given by, or only under the direction of a physician.

QUESTION BOX

Q.—What does the word "negative" denote when applied to a blood test? Would a blood test show infection present due to bad tonsils, teeth, etc.? What causes dizziness due to weather changes?

A.—Usual blood test where word "negative" is used means test for syphilis and that individual does not have syphilis. This test will not show that blood is free of poison from teeth, tonsils, etc.

Getting the 'Low Down' on Crops

One of the most valuable departments of the U. S. Department of Agriculture is the crop report service. It gives a complete picture in acreages, yield, production, utilization, sales, prices, and value of more than one hundred crops. Figures are submitted by forty-one field offices. The information is carefully guarded until the crop report is released, to prevent speculative use of advance information. These photos show how data is gathered.

Above, left: Farmer W. P. Hunter of Beallsville, Md., completes his schedule. He is one of a large number of volunteers. (Oval): A poultry farmer checks up on part of the new generation of chicks.

Top: Statistician C. E. Burkhead of the Maryland office interviews a farmer. Below: Field reports on speculative crops being removed from the double-locked box in the offices of the Secretary of Agriculture. Right: One of the armed guards stationed at the entrance of the crop reporting rooms.

Behind locked doors, sealed windows, and with all communication with the outside world cut off, members of the crop reporting board review and prepare estimates, by states, from reports submitted by the field offices. This secrecy is designed to prevent possible leaks. Their work presents a complete picture of agricultural America.

NEW YORK.—One of the greatest philippics of William Pitt was his famous denunciation of that foul word, "democracy," which had come into the English language "from the sewers of Paris." To him its only associations were homicide and madness. This department has noted recently 11 comparable attacks on this subversive word from similarly respectable and authoritative sources. The latest is the address by Merwin K. Hart, at the Union League club in which Mr. Hart "suspected" that the word was eased into the country, subversively, by the Communist Internationale in 1935.

This thesis, which may develop into something of an American "kulturkampf," is based on the contention that the founding fathers set up not a democracy, but a republic, and that the word, "democracy," is inseparable from Dubious Marxist associations. Mr. Hart also insists that the Marxists have kidnaped the word "liberal," which was all right until it got into bad company.

Mr. Hart is president of the New York State Economic Council. He has been for many years a vigorous and hard-hitting assailant of radicalism in any form. He shells the "subversionists" from his estate on Pippin hill near Utica. His targets have been labor unions, child labor legislation, social insurance, socialized medicine, compulsory health insurance and extravagant expenditures for public education.

Graduated from Harvard in 1904, Mr. Hart has made his business career in insurance, law and manufacturing. He was gassed in the war, is a licensed aviator and a patron of aviation. He urges national discipline. In his Union League address he warned us that we are becoming too soft to stand up against the "tougher products that result from a fascist education."

SIR ERIC COATES was the first British composer to treat modern syncopation seriously, and write compositions in the quickened beat.

Sir Coates of Quikened Beat Gets Last Toot
Many bricks were thrown in his direction by his classical confreres, but now he gets the last word—or the last toot. They gear their whirling war machines to his "hot licks" tempo, broadcast to the forges and workbenches. It is speed-up music and workers and machines catch the pace. A favorite piece is his recent "Calling All Workers" in which he says he sought to capture the spirit of the "wonderful British people in their war effort."

It is a tribute to the surprising adaptability of the British at a time when their traditional work-beat was supposed to be something like "Auld Lang Syne." Significantly, war and rumors of war stir lively music and frantic dancing, as attested by the historic dance of the Carmagnole which has been the forerunner of European wars and revolutions, the jazz outbreak before our entry into the World War, and the present swing craze. At any rate, Sir Eric is in tune with the times and by all accounts Old England is, too, as her war production hits a machine-gun tempo to the beat of a swing baton.

Sir Eric was a romanticist and classicist, which makes his change of pace all the more interesting. For many years, he was the principal viola in the Queen's Hall orchestra. He gradually gained eminence by his numerous orchestral works and songs and became a Fellow of the Royal Academy of Music in 1922. One of his best-known songs is "I Pitch My Lonely Caravan at Night"—a mood ironically at variance with London's night-time musings just now. He is the son of a back country surgeon. His avocation is photography which passion he indulges even when the bombs are falling.

IN 1905 Joseph A. Rosen arrived at Michigan State agricultural college from Russia with fifty cents and a few grains of rye. The fifty cents blossomed into the education of Dr. Rosen and the handful of rye spread over 1,500,000 acres in Canada and the United States, the highest yielding rye in the world known as "Rosen rye." Today Dr. Rosen, as head of the European Refugee colony in the Dominican Republic, reports things are going swimmingly in this new home base for the victims of aggression abroad.

THE BOYHOOD OF JESUS

LESSON TEXT—Luke 2:40-52.
GOLDEN TEXT—And Jesus increased in wisdom and stature, and in favor with God and man.—Luke 2:52.

One brief but revealing glimpse into the earthly life of our Lord is all we have from His birth to the time when he entered upon His public ministry at His baptism in the Jordan. How appropriate it is that he was permitted to live those years of His life behind the curtain of divine silence.

The incident in our lesson shows Jesus at the age of responsibility, and in His Father's house. This is preceded by one verse which reveals Him as the growing child, and is followed by another verse which tells of his advancement from boyhood into manhood. Luke, who is the only one who presents this story, thus fills out the picture of the divine-human personality of the One whom he purposes to reveal as the perfect and universal Saviour.

I. The Child Grows (v. 40).

Like every other child in the world (apart, of course, from any sin or blemish), Jesus grew during the first 12 years of His life on earth. One rightly regards that growth as the normal, happy development of every child, a time of physical development, or carefree play, of learning obedience in the household at Nazareth. A child should not bear the burdens of life nor be required to make its weighty decisions.

Jesus came into the world to die as the Saviour of sinful men, but for these childhood years we are glad that He just grew, waxed strong in body as well as in spirit, developing mentally, and that in it all "the grace of God was upon him." May our children have a similar opportunity and privilege!

II. The Boy Meets Life's Responsibilities (vv. 41-51).

Soon enough came the day when as a "son of the law" Jesus reached the age of accountability and went with His parents to keep the feast of the Passover. He entered the temple, and there took over the responsibility for his own religious life, which until then had been borne by His parents. Such a day is of vital importance in the life of every boy and girl, and in the case of Jesus was of special significance.

Acting for Himself, He tarried in the temple. As a good learner, He asked and answered questions, at the same time amazing those who heard by His understanding. There His mother (who had shown her confidence that He was to be trusted to be where He ought to be) found Him after she had looked in vain for Him at eventide in their company on the road.

To Him it was the natural and expected thing that He would be in His Father's house, going about the business of God. He recognized the special relationship between Himself and the Father—His very own Father—and He began to assume the responsibility of His divine mission on earth.

He was about to turn the corner from boyhood and start toward manhood, but there were yet 18 years that He was to show His perfect submission to the will of God by His obedience to His parents. There is a real lesson there for every growing boy and girl.

III. The Youth Goes On to Manhood (v. 52).

The curtain is drawn again, and the boy Jesus develops into the man; yes, the man who was to bear on Calvary's tree your sins and mine. What do we know about these years when a boy with the consciousness that He must be about His Father's business went forward to manhood under the loving and watchful eye of the mother who "kept all these sayings in her heart" (v. 51)? Only what Luke tells us, but that is a great deal.

Jesus "advanced," the word being entirely different in meaning from the "grew" of verse 40. The child grows without any thought or purpose of doing so, but the boy pressing on to manhood has to beat his way forward, cutting a path through life to his goal.

The fact that Jesus did that should encourage every young man and woman who is doing the same in a difficult and hostile world, and cause them to seek the daily companionship and help of the Son of God and Son of Man who has passed that way before them.

The development here puts the mental first, then the physical. The latter is important, but must be under control of the former. Crowning them both is His growth in grace, fellowship with God and fellowship with men, the latter glorified and made useful by the former.

Here again we may learn of Him who, though the Son of God with power, was obedient to the limitations of the humanity He had taken, and yet advanced "in wisdom and stature, and in favor with God and man" (v. 52).

HOUSEHOLD QUESTIONS

For Best Results—After putting water and soap into washing machine, let it run for a minute or two to dissolve soap before putting in clothes.

Let the dirt around a potted plant come within half an inch of the top of the pot. Then fill the pot with water every day for the average house plant. If you have unusual plants ask your florist about the amount of water they need.

In removing basting threads cut them every few inches, and do not pull a very long thread out at one time, as you are very apt to leave holes in the goods.

To make peanut butter spread easily, add a little boiling water, and then a speck of salt for better flavor. Mix until creamy with a fork. Add some chopped raisins to peanut butter and use as filling for Graham bread sandwiches for the children's lunches.

At least once a year take down shades, stretch them out on a flat surface and after dusting them thoroughly go over them with a wet (not dripping) cloth rubbed lightly with white soap. Clean a portion of the shade at a time, rinsing off the soap with a cloth squeezed out of clear water. Dry thoroughly.

PICTURE yourself in this suave, lovely afternoon frock with fluid, sculptured lines which make every step a poem! Your figure will look slim at the waist and hips and prettily rounded above the nice flat diaphragm! You can brighten the high neckline with a blazing gold necklace, or snowy pearls, or pin one of the extravagant new chateaines at the point of the shoulder yoke!

This need not be just a pleasant imagining, because if you write at once for pattern No. 1209-B, you can have the dress easily finished before a week is up. In rayon jersey, flat crepe or thin

TAWAS CITY

A political campaign for votes often develops into a series of personal attacks, detrimental to both sides. My opponent and myself are agreed on many issues. It is for the electors to decide upon our respective qualifications. Party issues may seem overly important for some, but what each voter may consider—CAN THE MAN I VOTE FOR RENDER THE SERVICE TO THE ENTIRE DISTRICT UNBIASED, UNFETTERED? In all fairness I am asking that the office of senator be passed around in the ten counties comprising the 28th district. Charles F. Klump, candidate from Isosco county.

Trade Marks Go Modish
American women from Maine to California may become walking symbols of American industry. One fabric manufacturer has begun selling dresses and yard goods in which 14 nationally known trade marks constitute the design, all-over design. Patterns include the greyhound of a bus company, the bell of the telephone company, and the Indian of a motor car.

Orient's First Mission
Sancien island, scene of the establishment of the first Christian mission in the Orient, is the land in which St. Francis Xavier established a mission in spite of efforts to keep him and his band out of the Orient. And on this island he lies buried. In late August, 1552, he landed on the island, called Chang-shuen-shan, off the coast of Kwangtung, which served as a rendezvous for Europeans. Soon after his arrival Xavier was seized with a fever and died there.

Reconveyance Notice
To the Owner or Owners of any and all interests in, or Liens upon the Lands herein described:
TAKE NOTICE, that sale has been lawfully made of the following described land for unpaid taxes thereon, and that the undersigned has title thereto under tax deed or deeds issued therefor, and that you are entitled to a reconveyance thereof, at any time within six months after return of service of this notice, upon payment to the undersigned or to the Register in Chancery of the County in which the lands lie, of all sums paid upon such purchase, together with ten per centum additional thereto, and the fees of the Sheriff for the service or cost of publication of this notice, to be computed as upon personal service of a declaration of suit, and the further sum of five dollars for each description without additional costs or charges. If payment as aforesaid is not made, the undersigned will institute proceedings for possession of the land.

STATEMENT OF THE OWNER-SHIP, MANAGEMENT, CIRCULATION, ETC., Required by the Act of Congress of August 24, 1912.

Of the Tawas Herald, published weekly at Tawas City, Michigan, for October 1940.

State of Michigan, County of Isosco.
Before me, a Notary Public, in and for the state and county aforesaid, personally appeared P. N. Thornton, who, having been duly sworn according to law, deposes and says that he is the publisher of the Tawas Herald and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, circulation, etc., of the aforesaid publication for the date shown in the above caption required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations, printed on the reverse of this form, to-wit:

1. That the name and address of the publisher, editor, managing editor and business manager are: P. N. Thornton, Tawas City, Mich.
2. That the owners are: P. N. Thornton, and Edith L. Thornton, Tawas City, Mich.

P. N. THORNTON.
Sworn to and subscribed before me this first day of October, 1939.
W. C. Davidson.
My commission expires Oct. 7, 1940.

Hale

Mrs. T. D. Scofield and Mrs. John Welb attended the Charter meeting of the Women's Society of Christian Service at Pontiac on Friday, October 4. More than 1400 women from the Detroit Conference of the Methodist church were present. Mrs. Irma Churchhill accompanied the two ladies and visited friends in that city.

The P.-T. A. will hold its regular meeting at the Hale school, Thursday evening, October 17. An interesting program has been arranged. All parents are urged to be there and take part in the discussion.

Mrs. Dan Thayer, Mrs. Charles Bills and daughter and Miss Degretta Spencer drove to Mt. Pleasant Wednesday where Degretta entered college and Mrs. Bills spent the day with her parents.

Arnold Bronson has turned his garage and moved it to the front of the lot and put in a cement floor. Later he expects to build an addition to the building.

Work has started on the community building. Windows have been put in and the floor is being laid. The new county garage is also progressing rapidly, and the block top is now partially laid on the road west of town. Wednesday morning Hugh Slosser was making an estimate of the cost of cement sidewalks from Duell Pearsall's residence to Bronson's garage, another much needed improvement. The old town is really up on her toes these days.

Mr. and Mrs. Herbert Townsend, Mrs. Nellie Jennings and Mr. and Mrs. Elmer Streeter are attending Grand Chapter of the O. E. S. at Grand Rapids this week.

The Ladies Aid of the Methodist church will hold its next meeting at the Methodist parsonage in Whittemore. An all day meeting is planned with a pot luck dinner at noon.

Word has been received of the death of Howard Bowman, Sr., who formerly lived at Londo Lake. The community expresses its deepest sympathy to the bereaved family.

Profits in Modernization
More than 1,000 grocery store owners, members of the Independent Grocers alliance, recently studied a survey on increased profits resulting from storefront modernization with structural glass. It was revealed that average profits increased 300 per cent the first year after modernization and that the average gross receipts rose from \$21,050 to \$28,628.

Where Profits Go
Department, dry goods and general merchandise stores throughout the country receive about 52,000,000 complaints a year, which cost merchants on the average one dollar each in operating expense and markdowns, according to William J. Pilot, professor of retailing at the University of Pittsburgh.

Thermostat Placement
Five feet above the floor is considered a generally satisfactory height for the location of thermostats. They should be placed in locations protected from drafts and not in contact with a large volume of air.

Greatest Ocean Depth
The greatest depth of the ocean is 35,400 feet near the island of Mindanao.

Best Tasting Cocoa
Cocoa tastes best when the cocoa, sugar and salt are mixed well with the water, and then boiled for from 5 to 10 minutes before adding the scalded milk, and heating all together.

The Stars are out-ALL FIVE!

This is the cyclonic CENTURY

You'll learn here's lower-sprung weight—a better, steadier, softer ride.

Here are sensational new micro-poise-balanced engines—FIREBALL Eights that get extra lift and power-wallop from still further progress in Buick's exclusive Dynaflex combustion principle—here's a brand-new Compound Carburetion that combines the lift of an extra engine with economy stepped up a full 10% to 15%!

Here are rugged new frames and new Flash-Way signals. New quiet-easy Concentric Shifting and new Permi-firm steering. New lovely body lines and new inside roominess. New instrument panels, new oil-bath air cleaners, new concealed running boards—even new clocks.

Yes, here are new things galore, modern new features by the dozen—but one thing is old, and hasn't changed a bit.

That's the plain rockbottom fact that when you see Buick you've seen the best of the bunch.

Make it the first one you see for '41, and save yourself a lot of fruitless looking around.

SUPER that's still the shiniest style-star of the season, for all the efforts to duplicate its beauty.

You'll lay eyes on a CENTURY broader, longer, bigger in every way, with

an additional twenty-four horsepower under its thrusting hood—and a ROADMASTER that's its rival in action and the very picture of super-streamlined grace.

...and the sleek-lined SUPER

You'll see a Buick LIMITED that is close to twenty feet of sheer spacious luxury—top-of-the-line in finish, richness and meticulous appointment.

All this your wonder-wide eyes will tell you, then your ears begin to take things in.

IT'S probably no news to you, I since we simply couldn't keep those strapping big new Buicks off the street.

But it's official now: the bright and glittering stars of the 1941 season are out—so at any Buick showroom you can see the best automobiles Buick ever built.

You'll see a massive grille, a trim speed-stream radiator ornament—and behind them not one but five series of cars that are gorgeously new from dread-naught bumper to direction-signaling taillight.

You'll spot a SPECIAL that not only looks like but definitely is the biggest package the money has ever bought.

You'll size-up a 125-horsepower

*According to the Encyclopaedia Britannica, a super meteor which travels with a series of explosions like the shock waves of a great projectile is called a "FIREBALL."

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

Lights of New York
by L. L. STEVENSON

New York and its suburbs now boast of more people of title than any capital in Europe, on the word of one of this department's scouts who has been doing some investigating. The titled ones have been coming to this haven ever since the first Russian revolution emigres began flocking to the standard of General Lodjensky when he opened his Golden Eagle restaurant on East Fifty-seventh street 18 years ago. During the last five or six years, as things in Europe grew tougher and tougher for those with titles, they have come in battalions. But the numbers didn't really grow noteworthy until the middle of the summer of 1939 shortly before the war broke out.

During the rapidly ending summer, Newport and every fashionable Long Island colony teemed with titled house guests. Swank Maine resorts bulged with them. Of course many of the names, the titles being authentic, made the society pages, and more than one hostess borrowed distinction for her house parties by having a few titled folk among her guests. The titleholders were what might be called gracious in their acceptances. There may have been more than politeness or courtesy in that, however. Many a titled person left home in such haste that there was time to grab only a few valuables. Or, because of legal restrictions, could bring with them only a small amount of cash. Hence, the best in food and lodging at no cost, proved—and in many instances still proves—something not to be scorned.

Speaking of titles, the other morning, two big motor cars stopped at the Hotel Biltmore coffee shop and a man and six younger persons entered. Carl Wohlk, the manager, recognizing them instantly from pictures, hastily arranged a special table near the main entrance. They were Prince Felix of Bourbon-Parma, consort of the Grand Duchess of Luxembourg, who as this is being written—things change so fast overseas nowadays it is well to qualify a statement—was still in Europe; the Princesses Elizabeth, Adelaide, Gabrielle and Alix and the Princes Jean and Charles. If you are interested, the father stuck to a continental breakfast, rolls and coffee, but the children showed a trace of American influence by ordering eggs, toast and milk.

Hanging to the subject of royalty eating, there was the imposing looking lady who dined alone at a table in one of those little restaurants with foreign names that abound in the Fifties. Her menu apparently was the concern of all employees from the headwaiter down. She had but to turn her head and the entire staff sprang to attention. By and by, the friend who reported the incident to me heard her say to a menial, "Bring me my bill, please." The effect was unique. Her waiter hurried to his captain. The captain spoke to the headwaiter. The headwaiter fairly writhed a negative. Then all three drew up to the lady and chanted in unison, "Bot no, Princess, there is no bill."

That paragraph should end there. But there is a bit more which, especially nowadays, is so unusual that it demands attention. Hardly had the trio ended its recitation than the lady read the three a lecture. Not only did she insist on having her bill but she wanted it right away. It was presented with all due humility and reverence. Having looked it over, she paid it, placed on the table what looked like a liberal tip and departed, leaving the restaurant crew flabbergasted.

All the exiled nobility hasn't settled in the metropolis, of course, many title holders having traveled elsewhere. But still the number of titles is so great that the suggestion has been heard that considerable money might be made by getting out a New York Almanac de Gotha.

The other evening I was at a dinner where 48 boys, one from each state in the Union, received awards for skill in automobile driving. None of those 48 boys looked alike. Their hair ranged in color from bright red to deep black. They were tall and short, skinny, and one rather fat. Each had his own accent. Yet about them was a sameness. Maybe it was what was in their eyes. Maybe it was the way they carried themselves. Possibly it was their alertness. It might even have been a combination of all those things. At any rate, I kept whispering, "Americans, Americans." Our country may be large and there may be many different population elements, but those boys made me believe we are one people.

Understanding
Mrs. Peck—She's very pretty, but she never says a word. I can't imagine why all the men are in love with her.
Mr. Peck—I can.
Writers' Cramp
Tommy—Dad, what is meant by "writers' cramp"?
Dad—It's being cramped for money, my son. All writers suffer from it.

All Ways to 'Home'

Contrary to the impression created by our numerous Chinatowns, Chinese laundries and chop suey restaurants, America has only half as many Chinese as Japanese residents. Incidentally, 20 per cent of the Chinese and 40 per cent of the Japanese are women.

THE TRUTH SIMPLY TOLD

Today's popularity of Doan's Pills, after many years of world-wide use, surely must be accepted as evidence of satisfactory use. And favorable public opinion supports that of the able physicians who test the value of Doan's under exacting laboratory conditions. These physicians, too, approve every word of advertising you read, the objective of which is only to recommend Doan's Pills as a good diuretic treatment for disorder of the kidney function and for relief of the pain and worry it causes. If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed. Burning, scanty or too frequent urination sometimes warn of disturbed kidney function. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out. Use Doan's Pills. It is better to rely on a medicine that has won world-wide acclaim than on something less favorably known. Ask your neighbor!

TAWAS CITY PUBLIC SCHOOLS

More Work, Less Play

Which school would you rather attend—a noisy boisterous one whose students throw rules to the winds, or a quiet orderly one where each student respects the others' wishes? Not so long ago a certain teacher

in the school asked that question. Her class unanimously said they preferred the orderly school, which is what we want our school to be. Every great corporation or company or country is founded on primarily two things; the trust and respect of individuals involved and obedience to the rules set down. Where would our great democracy of today be without these things?

Lets' all try to develop this feeling of respect and order in our school. Our motto might be "More Work, Less Play."

Bake Sale A Success

Last Saturday, October 5, the Junior and Senior classes sponsored a bake sale at Moeller's store. A large variety of baked goods was brought and the sale deemed a success. Both classes take this opportunity in thanking Moellers for the use of the store.

Old Fashioned Dance

To Be Sponsored By Seniors Invitations are now being given for the Old Fashioned Dance to be held October 18 in the Tawas City Auditorium. Square dances, waltzes and the cakewalk will be included in the evening's program.

This year the Seniors are holding closed dances. Guests are to be admitted only by presenting their invitations at the door.

Sophomores Travel To Indian Lake Monday evening, the Sophomore class held a party at Mr. Forsten's shack. The group left school about 5:30 p. m. After a short ride, they came to their destination. Lunch was served and a bonfire over which weiners were roasted was built. Mrs. Forsten made delicious Spanish rice for the group. Cocoa and cookies were also served. After eating, cards and Chinese checkers were played. About nine o'clock, all were ready to leave for home.

Tawas Drops Game To East Tawas On Tuesday, October 1, Tawas City was defeated by their old baseball rival East Tawas, by the close margin of 5 to 4.

Tawas City out-hit their rivals but were unable to group their hits for scoring tallies.

In the first inning Tawas was only able collect one hit when Thornton hit into a double play. East Tawas in their half of the initial inning combined an error, two free passes, and a hit for a total of two runs. After scoring one run in the third, Tawas, in the fourth frame, combined a walk, a double by Fahselt, a smashing triple by Dick Prescott, and a single by Ross for three runs. East Tawas in their half of the fourth frame scored one run on a stolen base from third while the Tawas City infielders were attempting to put through a cut-off play. Tawas City failed to score a run in the fifth inning while East Tawas added another score to their total when Gentry came in on a long fly. Neither team came through with a run in the sixth but East Tawas scored their winning run in the seventh when Wickert came in on a perfect bunt by Gentry.

Total 28 4 7 4 Tawas Beats Alabaster in Close Game In an exciting game last Tuesday Tawas beat Alabaster by the score of 6 - 5. The hero of the game was 'Art' Bigins who in Greenburg style hit a home run that won the game for Tawas.

In an interview after the game Mr. Bigins attributed his hitting success in his natural ability and to a well known breakfast cereal.

Music and Art The newly organized Junior band is progressing satisfactorily due to the splendid co-operation on the part of the parents in purchasing instruments for their children. There is room for additional members and those parents planning to let their children take advantage of this musical opportunity are urged to contact Mr. Polycutt at their earliest convenience.

Plans are under way for a fall band concert to be held in our auditorium. The band will play for the local chapter of the Eastern Star which will entertain the neighboring chapters at the Masonic Temple in the middle of October. The fifth and sixth grade music girls will present a flag drill.

The newly organized art department is doing fine, and many of the children are enjoying this art experience for the first time.

The seventh and eighth are studying some of the fundamentals of design and composition. The fifth and sixth are making paper designs for covers for their penmanship books.

The art students will soon be decorating the rooms in the spirit of Halloween.

Birds With Fingers A primitive bird called the Archaeopteryx once lived which had three sharp clawed fingers on each wing. It is believed by scientists who have studied its fossil remains to be a link between bird life and reptiles. The strange creature had no beak, but rather a long jaw equipped with teeth. It was about the size of a crow.

Will Make Garments For European Relief

The American Red Cross is actively aiding in the relief of European distress. Money has been granted the National organization for purchasing raw material for sweaters, shawls, mufflers, stockings, caps, mittens, women's and children's dresses, layettes, operating gowns, convalescent robes, etc. All organizations in Isosco county desiring such raw materials for producing finished garments under the Red Cross Production Unit for war relief are requested to contact Mrs. D. A. Evans, East Tawas.

Finished garments are destined for war stricken areas and wherever need is greatest. Should unexpected and drastic need arise in our own country, that need will be served first. At present large shipments are needed for this winter abroad.

Political Announcement

To The Voters of Isosco County: I wish to announce that I am a candidate for the office of County Clerk on the Democratic ticket and I am asking for the support of the voters of this county in the belief that I am well qualified to fulfill the duties of this office as an accountant and auditor with years of experience in commercial and Public Utilities work.

I have lived in the county practically a life time, own property and pay taxes in the city and county and any consideration and support which you may give me on November 5 will be greatly appreciated. F. Berzhinski.

AMERICAN BOY IS COMPANION TO THOUSANDS

Hundreds of thousands of boys and young men read THE AMERICAN BOY Magazine every month and consider it more as a living companion than as a magazine.

"It's as much a buddy to me as my neighborhood chum" writes one high school senior. "THE AMERICAN BOY seems to understand a boy's problems and considers them in such a sympathetic and helpful way. It gives advice and entertaining reading on every subject in which a young fellow is interested. It is particularly helpful in sports. I made our school basketball team because of playing tips I read in THE AMERICAN BOY."

Many famous athletes in all sports credit much of their success to helpful suggestions received from sports articles carried in THE AMERICAN BOY Magazine. Virtually every issue offers advice from a famous coach or player. Football, basketball, track, tennis, in fact every major sport is covered in fiction and fact articles.

Teachers, librarians, parents and leaders of boys' clubs also recommend THE AMERICAN BOY enthusiastically. They have found that as a general rule regular readers of THE AMERICAN BOY advance more rapidly and develop more worthwhile characteristics than do boys who do not read it.

Trained writers and artists, famous coaches and athletes, explorers, scientists and men successful in business and industry join with an experienced staff to produce THE AMERICAN BOY, the sort of reading matter boys like best.

Take Precautions Against Fire Hazard

Here comes winter. In a very short space of time a large part of the country will be experiencing rainy days and cold nights. And not far away are the months of snow and sleet and storm.

Winter is something to get ready for. That means buying new warm clothes, or repairing and cleaning old ones. It means buying wood and coal and fuel oil. It means fixing that leaky spot in the roof that has been neglected during the dry summer. And finally, to the wise householder, it means taking special precautions against a destroyer that waits for winter—fire.

Have your furnace inspected—and have that inspection done by somebody who knows what to look for. It's no work for an amateur. Have needed repairs effected at once. See that chimney and flues are properly cleaned. Hard-pressed heating plants in bad order are one of the most profitable sources of home fires. It's no fun to wake up in the middle of the night and suddenly realize that your house is burning away beneath you.

Winter means that you'll use lights oftener. Exposed electric wiring should be checked. Pay special attention to lamp cords under rugs and around baseboards—they fray in time and when that happens a short circuit may occur. Electricity, mis-handled, is one of fire's potent allies.

Go through your house and get rid of any and all accumulations—old clothes, old papers and magazines, collections of rags, etc. They make a fine starting place for fire—and spontaneous ignition isn't so rare a phenomenon as you may think.
