HALLOWEEN PARTY SUGGESTIONS

(See Recipes Below)

Halloween provides a good excuse for an unusual party. The theme you may select should be the basis around which the party is built. "Black Magic Party," "The Haunted House," "Buried Treasure Hunt," "The Witches' Rendezvous," "The Ghosts' Gambol" are all suggestive names for the party you may be planning for All Hallows' eve.

A Halloween party without decorations just isn't a party. They may be so simple that it takes very little time to put them up; pumpkins, cornstalks, and lighted jack-o'-lanterns. Or you may decorate with witches, owls, black and orange crepe paper streamers, black and gray crepe paper moss dripping from the ceilings, or ghosts standing in spooky corners with eerie lights thrown upon them.

The invitations should, of course, be indicative of the type of party you are giving.

"On Halloween the ghosts will dance, The gnomes and goblins will sing and prance, So don your masks and costumes gay, To the Haunted House be on your way. The door will be open till the clock tolls eight, So take my advice and don't be late."

In keeping with Halloween we must not forget the traditional games and pranks. The chamber of horrors, with clanking chains, damp hands clutching the guests, and dark tunnels should put the guests in to the spirit of the party. Bobbing for apples, fortune telling and guessing games are all old favorites. These suggestions may bring to your mind others that may be old-time Halloween games.

Last, but not least, a party is never rightly ended without proper refreshments. If it is a small group, buffet supper may be served; and if it is a large group, simple, but delicious refreshments will finish the evening with the necessary zip!

BETTER BAKING

Most of us are prone to be a little inactive and unambitious during the warm summer months. Our appetites for heavy, hot foods become dull and we readily accept and enjoy cool, refreshing salads and beverages. Just as we put on heavier clothing when the temperature drops, so do we discard using salads as the main dish and dessert of the menu.

Miss Howe's book "Better Baking" includes many fine recipes, tested in her own kitchen. It will prove not only an incentive for "better baking" but also for better and more satisfying meals.

You may secure this book, "Better Baking," by writing to Eleanor Howe, 919 North Michigan Avenue, Chicago, Illinois, enclosing 10 cents in coin.

nutmeats and whipped cream, and pour into the freezing container of an ice cream freezer, filling it not more than 3/4 full. Assemble and cover the freezer. Surround with a mixture of 3 parts of crushed ice to 1 part rock salt. Next turn the crank slowly and steadily until turning becomes difficult. When the mixture is frozen, carefully remove the dasher and pack down the cream with a spoon. Replace the cover, draw off the water, and replenish the ice and salt. Let stand for an hour.

Orange Sauce.

- 1 tablespoon cornstarch mixed with 1 tablespoon cold water
- 5 tablespoons sugar
- 5 tablespoons hot water
- 5 tablespoons orange juice
- 1/2 teaspoon lemon juice
- 1 teaspoon butter

Make a paste of the cornstarch and cold water. Add sugar and hot water and cook for 15 minutes, stirring frequently. Add fruit juices and butter.

Goblin's Dessert.

- (Serves 4 to 5)
- 2 eggs (separated)
- 7 tablespoons sugar
- 1 tablespoon butter (melted)
- 1/2 teaspoon salt
- 3/4 cup orange juice

Beat egg yolks until very light and gradually beat in the sugar. Add butter, salt and orange juice.

Pour over the cubed bread. Beat egg whites until stiff, and fold into the first mixture. Pour into buttered baking dish and bake in a moderately slow oven (325 degrees) for about 30 minutes.

Ginger Snap Pie Crust.

- (Makes 2 crusts)
- Make 3 cups ginger snap crumbs by rolling ginger snaps on bread board or crumbling through food chopper. Combine with 3/4 cup melted butter and blend lightly. Then press mixture into pie plate, shaping firmly all around, and place in refrigerator to chill until firm.

Pumpkin Chiffon Pie.

- (Makes 2 pies)
- 3 tablespoons gelatin
- 1/2 cup cold water
- 6 eggs
- 2 cups sugar
- 2 1/2 cups strained pumpkin
- 1 cup milk
- 1 teaspoon salt
- 1 teaspoon ginger
- 1 teaspoon cinnamon
- 1/2 teaspoon nutmeg
- 1/2 teaspoon cloves
- 1 cup whipping cream

Soak gelatin in cold water 5 minutes. Separate eggs and beat egg yolks. Then combine 1 cup of the sugar, the strained pumpkin, milk, salt, and spices with the egg yolks and cook slowly, stirring constantly, until thickened. Remove from fire, add gelatin, and stir until dissolved. Cool. When mixture begins to thicken, stir in the remaining cup of sugar and fold in the beaten egg whites. Pour filling in the chilled ginger snap pastry shells and chill in refrigerator until set. Before serving decorate pies with whipped cream faces, using chilled pastry tube.

THE newest frilled curtains give a full, lavish effect. If they make your old curtains look a bit dejected, like those shown here at the right, don't be discouraged. The window at the left uses those same curtains with a dash of glamour added. This economy trick saved a certain young matron enough money to buy a number of smart new accessories for her living room.

She discovered that a diagonal dart, which took up the curtains at the back, threw more fullness to the front, thus giving the new high drape a smart line. Tie-backs and valance were made of flowered chintz in rose and plum tones, lined with plain plum colored chintz. One yard of each kind of chintz was required for each window.

NOTE: The chintz covered lamp shade and the spool table also add interest to this window. Full directions for making a shade like the one illustrated are in SEWING, Book 1. Directions for the spool table are in Book 5; also descriptions of the first four booklets in this series. There are 32 homemaking projects in each number.

Irritability Often Due to Need of Food

By DR. JAMES W. BARTON
(Released by Western Newspaper Union)

ONE of the bits of knowledge wives and mothers have learned by experience is that if any serious matter is to be discussed, particularly something unpleasant that has occurred during the day, it is better not to discuss it until the husband and father has finished his evening meal. Of course, nothing serious or unpleasant should be discussed just before any meal, as the upsetment interferes with appetite and digestion.

TODAY'S HEALTH COLUMN

It is not alone for this reason—interfering with appetite or digestion—that the wife and mother postpones the discussion, but because she knows that a hungry man (or woman) is more apt to be cranky or irritable than one who is not hungry. Physiologists tell us that hunger feelings are caused by the contraction or movements of the walls of the stomach. As the stomach becomes empty the walls contract a number of times—10 to 25—after which they become quiet for a while and then start the contractions again; then a quiet period, then contractions again. The "quiet" period lasts from 10 minutes to one hour in the child and from one to three hours in an adult.

Instead of pain, the adult has feelings of weakness, tiredness and disinclination to work. He doesn't know he is hungry until he sees or smells food.

The Five Meal Plan.

Dr. Howard W. Haggard and Dr. Leon A. Greenberg, in their book, "Diet and Physical Efficiency," state: "The feeling of fatigue and irritability that shows the need for food is not relieved by rest but it is relieved by food." These research workers were able to relieve "tiredness" and get from 10 to 15 per cent more work from shoe workers by dividing the "usual" amount of food into five meals instead of three. Food was thus given before the tired, irritable feelings occurred.

"The man returning to his home in the evening, tired, irritable and dispirited from a 'hard day' at his work, finds no satisfaction or relief in rest obtained by waiting for his evening meal. Relief from irritability, fatigue and depression comes only when the meal is eaten."

Infected Teeth Menace Health

IF a distinguished physician or dentist were to say, "The one great objective of the life of a dentist should be to save teeth," most of us would agree.

Dr. Earl H. Thomas, Chicago, a physician and dentist, in the Journal of the American Dental Association disagrees with the above quoted statement. He says "If there is one great objective in the life of a dentist, it should be to place the mouth of his patient in a condition of health. All else is secondary. General health and life, when they depend upon such a condition, are more important than all the teeth in the mouth."

A great number of individuals have abscessed teeth who apparently suffer no ill effects yet others have rheumatism followed by heart diseases due to just one tooth.

Abscessed Teeth Lower Resistance.

The man with many diseased teeth has had the great advantage of being able to use these teeth for years instead of having them removed and artificial teeth inserted. Dr. Thomas points out that for every one person absorbing infection for many years with no apparent ill effects, many are in their graves prematurely because they allowed this condition to exist. Most physicians and many dentists know of cases where abscessed teeth were the cause of rheumatism, heart disease, high blood pressure, inflammation of the kidneys, peptic ulcer and other ailments. The general lowering of the body's resistance to this steady pouring out of poisons is the cause of many "breakups" of individuals in their fifties and sixties.

CLOSE SHAVE

The fog was very thick, and the chief officer of the tramp steamer was peering over the side of the bridge. Suddenly he saw a man leaning over a rail only a few yards away. "You confounded fool," he roared. "What on earth do you think you are doing? Don't you know my ship has the right of way?" Out of the gloom came a sardonic voice. "This ain't no ship, captain. This is a lighthouse."
