TAWAS CITY GIRL WINS IN BANK CONTEST

Miss Marjorie Musolf is Awarded First Prize

Miss Marjorie Musolf's essay won first prize in the county essay contest sponsored by the Peoples State Bank as part of "Coming Generations Week." The subject written on was "Why I Would Choose Banking for My Life's Work." Miss Musolf's essay is a creditable composition and she has the congratulations of her many friends. She is the daughter of Mr. and Mrs. Fred Musolf, of this city, and a student in the Tawas City public schools.

Honors for second place were divided between Miss Phyllis Klenow of St. Joseph school, and Wesley Genry, of the East Tawas Public Schools. The essays of the three winners will be submitted in a state wide contest sponsored by the Michigan Bankers association.

G. N. Shattuck, cashier of the Peoples State Bank, said yesterday when he announced the results of the contest, "There were thirteen entries in the contest, all of them of high merit, and we appreciate the interest taken by the young people of the county." The first prize in the county contest was \$5.00. The two in second place received \$3.00 each.

Miss Musolf's first prize winning essay is published below:

Why I Would Choose Banking For My Life's Work

Who is the most capable of handling the economic welfare of our nation? Is it the politicians, the college professors, or government employees? Oh, no! It is the bankers of our country—they alone have sufficient experience and knowledge to understand the basic value of our currency, the principle of inflation and deflation, and the effect of its rise and fall in regard to the economic welfare of our people.

They can teach our people thrift and economy, the art of keeping the nation's books balanced, which is the backbone of any nation. If, in the next few years, due to the existing conditions of the world, an economic revolution should take place, the bankers are the only logical organization to be entrusted with the economic destiny of our people.

With the realization of the influential position that bankers will hold in regard to the public service, I would choose a career of banking. As achievement depends much on the efficiency and interest of the individual, anyone has the chance to succeed, becoming one of the most respected, trustworthy, and influential citizens of the community whose economic welfare has been entrusted in him.

Marjorie A. Musolf,
Tawas City High School.

SHOPS PREPARED FOR HOLIDAYS

Tawas City's streets have taken on a festive appearance with the installation this week of colored lights through the business district. These will be lighted during the Holiday season.

The stores are especially attractive with their fine stocks of Christmas merchandise and holiday decorations. An exceptionally fine window has been prepared at the Buch Market. This is a scene of the Nativity in miniature figures. The shepherds, the three wise men from the east and the Baby in the manger are realistically shown. The shops throughout the city have made a special effort to be of service to the Christmas gift seeker. Hundreds of the newest gift ideas are on display and a trip through the stores will be a delightful adventure for child or grownup.

TAWAS CITY BOY ENLISTS IN AIR CORPS

Clarence H. Fowler, son of Mr. and Mrs. Clarence Fowler of Tawas City, has enlisted in the U. S. Army Air Corps as Company Clerk. He left Saturday for Jefferson Barracks, St. Louis, Missouri, where he will receive a month's training then he will be transferred to the Hawaiian Island where he will be stationed for two years.

He has been Company Clerk for Camp Silver Creek, 665, Army Division, since July 3. He was rated Leader October 16. He is a graduate of Tawas City High School Class of 1940.

Alphense J. Mirlure, who has been Technical Service Clerk of the Forestry Division at Camp Silver Creek since 1934, also enlisted at the same time with Clarence.

The following Iosco county men received questionnaires this week:

Eva Martha Goodale

Miss Eva Goodale, of East Tawas, died Sunday at Samaritan hospital, Bay City. She deceased was 54 years old.

Miss Martindale was born January 29, 1886. She had lived with her sister, Mrs. John Martindale for the past 25 years. The deceased is survived by her mother, Mrs. Henry Goodale; two sisters, Mrs. John Martindale and Mrs. Frank Meyers, and one brother, Harry Goodale.

Funeral services were held Wednesday afternoon from the Evans funeral home. Rev. Frank Metcalf officiated. Interment was in the East Tawas cemetery.

The pallbearers were Leslie Bischoff, Wade Lomas, Victor Marzinski, Thomas White, Arthur Dease, Delbert Trudell.

Fred Toelle

Fred Toelle, a well known resident of this city, died Saturday at the age of 82 years. Funeral services were held Tuesday from the Emanuel Lutheran church. Rev. J. J. Roekle officiated. Burial was in the Lutheran cemetery.

Fred Toelle was born December 6, 1858, in Germany. He came to the United States when a young man and was married to Mary Bushor in 1890. Previous to coming to Tawas City in 1920 he had resided in Minnesota. He had also been a resident of Oklahoma.

He is survived by two daughters, Mrs. Gilbert Shover and Mrs. Paul Koepke, Jr., and nine grandchildren. Mrs. Toelle preceded him in death about six years ago.

Mrs. Harry Oisten

Mrs. Harry Oisten, resident of Tawas City, died Saturday following an operation at Omer hospital. Peritonitis was the cause of death.

Mabel Benson was born November 25, 1889. She was united in marriage September 6, 1915, to Harry Oisten. The deceased had been a resident of this city for the past four years.

She is survived by the husband and six children, Gene, of Quincy, Michigan, Rex, Mary Ellen, Berzley, Yvonne Sherwood, June and Milla. Funeral services were held Tuesday from the Tawas City Methodist church. Rev. S. A. Carey officiated. Burial was in the Tawas City cemetery.

Womens Study Club

The Rural Women's Study Club met at the club room Wednesday, December 4.

After the short routine of business the members responded to roll call by "A Christmas Tradition." Exchange of gifts and the revealing of the "Mystery Sister" was a joy and surprise to all.

A delicious pot luck lunch was served.

Au Gres Will Build New City Park

Notice was received this week that the Au Gres city council has received a federal grant, the funds of which are to be used in the construction of a city park.

All boys between the ages of 17 and 25 inclusive are eligible to participate in this program, and any who are interested are asked to contact Harry Jennings, Dewey Farver, or Peter A. Maser, of Au Gres.

Construction work has already begun; the project will last for seven months, ending in June.

"FINE WINTER SPORTS AREA" SAYS WRIGHT

187 Enthusiastic Winter Sports Fans at Banquet

The annual winter sports season at Silver Valley was inaugurated Tuesday evening with a banquet at the Hotel Holland at which Ben G. Wright, manager of the Alpena Chamber of Commerce was the principal speaker. One hundred eighty-seven people were in attendance including members of the Iosco county board of supervisors, citizens of the community and guests from Bay City, Saginaw and Alpena.

Mr. Wright asserted that Silver Valley was potentially a fine winter sports center overshadowing any other place in Michigan. He compared it with Lake Placid and the White mountains, the highly publicized winter resort centers of the east and said that "you will find a community which has greater potentialities." He predicted that within a few years 250,000 or more people would visit Silver Valley during the winter sports season. He praised the U. S. Forest Service for the fine facilities prepared in the area.

A series of colored moving pictures of Michigan winter sports was shown by Charles Moulthrop and Pete Stover, of Bay City.

Others who took part in the program were: H. N. Butler, toastmaster; T. F. Morston, secretary—manager of the E. M. T. A.; H. Frank Davis, publicity director; Charles Pinkerton, general manager of the Detroit & Mackinac railway; A. M. Hopperstead, city manager of the Alpena; Glenn McDonald, editor of the Bay City Times; Ralph E. Crowell, supervisor of the Huron National forest; T. S. Dimmick, president of the East Tawas Chamber of Commerce; Roy McMurray, athletic director, Saginaw; W. F. Richter, of Bay City; Rev. Robert Norman; Charles Boehler, of the department of conservation; and Wm. Whately, sports editor of the Saginaw News.

AROUND THE HOUSE

To keep hot fat from splattering, sprinkle a little flour or salt in it before frying.

To have a flaky pie crust, add a teaspoon of vinegar to the cold water used in making it.

Let potatoes that are to be French fried stand in cold water at least half an hour before frying. It makes them crisp.

Make ice cream "Snowballs" by dipping scoops of vanilla ice cream into coconut.

To clean the inside of milk bottles add a tablespoon of salt to one-third cup of vinegar, put into bottle and shake well.

On reading and filing the bill of complaint to quiet title in said cause and the affidavit of Travilla G. Daines attached thereto, from which it satisfactorily appears to the court that the defendants above named, or their unknown heirs, devisees, legatees and assigns, are proper and necessary parties defendant in the above entitled cause, and,

It further appearing that after diligent search and inquiry it cannot be ascertained, and it is not known whether or not said defendants are living or dead, or where any of them may reside if living, and if dead, whether they have personal representatives or heirs living or where they or some of them may reside, and further that the present whereabouts of said defendants are unknown, and that the names of the persons who are included therein without being named, but who are embraced under the title of unknown heirs, devisees, legatees and assigns, cannot be ascertained after diligent search and inquiry.

On motion of Travilla G. Daines, attorney for plaintiff, it is ordered that said defendants and their unknown heirs, devisees, legatees, and assigns, cause their appearance to be entered in this cause within three months from the date of this order, and in default thereof that said bill of complaint will be taken as confessed by said defendants, their unknown heirs, devisees, legatees and assigns.

It is further ordered that within forty days plaintiff cause a copy of this order to be published in the Tawas Herald, a newspaper printed and circulated in said county, such publication to be continued therein once in each week for six weeks in succession.

Herman Dehnke,
Circuit Judge.

Countersigned:

R. H. McKenzie,
Clerk of Circuit Court.

Birds With Fingers

A primitive bird called the Archaeopteryx once lived which had three sharp clawed fingers on each wing. It is believed by scientists who have studied its fossil remains to be a link between bird life and reptiles. The strange creature had no beak, but rather a long jaw equipped with teeth. It was about the size of a crow.

The Probate Court for the County of Iosco.

At a session of said Court, held at the Probate Office in the city of Tawas City in said County, on the 13th day of November, A. D. 1940.

Present, Hon. H. Read Smith, Judge of Probate.
In the Matter of the Estate of Frederick A. Ball deceased.
It appearing to the court that the time for presentation of claims against said estate should be limited and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said court:

It is Ordered, That creditors of said deceased are required to present their claims to said court at said Probate Office on or before the 20th day of January A. D. 1941, at ten o'clock in the forenoon, said time and place being hereby appointed for the examination and adjustment of all claims and demands against said deceased.

It is Further Ordered, That publication thereof be given by publication of a copy of this order for three successive weeks previous to said day of hearing, in the Tawas Herald newspaper printed and published in said county.

H. READ SMITH,
Judge of Probate.
Annette Dillon,
Register of Probate.

TAWAS CITY PUBLIC SCHOOLS

On Tuesday, December 17, the Girls' Glee Club and other members of the student body will go caroling. Anyone is invited to join them.
Students See Films
(Dorothy Buch)

Tuesday morning two films were shown to the student body. The first picture was on the subject of the prevention and cure of cancer. Cancer can be cured if found in its early stages. Any noticeable change in any sort of mole or wart may turn into cancer. A irritation, any wound that will not heal, or any irregular bleeding from any part of the body is a sign of cancer.

Three ways were shown for the treatment of cancer: x-ray treatment, radium and surgery. If the disease is caught in time it can be cured.

The second film entitled "Land of the Free" was a film about our United States, its many industries, wealth, and powers. The United States far surpasses any other country in manufacturing, agriculture, lumbering, oil refineries, and minerals. Our country has been progressing forward from its covered wagon days to the present day of modern living. Our country is indeed a homeland to be proud of.

Buy Some Christmas Seals
(Dorothy Buch)

The Christmas seal sale has been rapidly progressing under the direction of Ethel Rempert and Mable Ulman. The city was laid out in sections. Each individual in a room was given a certain section of the city in which to make his sales. The two who are competing in the contest, to see who can sell the most seals, are the fifth and sixth grade and the seventh and eighth grade rooms. The fifth and sixth grades are far ahead of the other group. An added award will be given to the room which sells the most tickets. Won't you help this worthy cause to promote health?

Basketball
(Phil Ross, Sports Editor)

The boys met their first taste of team competition last Tuesday when they played a practice scrimmage with the East Tawas Indians. Though the scrimmage was undecided, as to score, we certainly were not outplayed. The game clearly showed the weak points of our team (Yes, we do have weak points) and against these weak points the boys are now "cranking."

With the basketball season ever coming closer (first game January 9 vs. East Tawas) the boys are attempting to remedy all those points of the game which they have had difficulty mastering.

The following is our basketball schedule for the '41 season:

January 9, East Tawas here, boys 1 and 2, girls.
January 14, Au Gres here, boys 1 and 2, girls.
January 20, Whittemore there, boys 1 and 2, girls.
January 24, Harrisville here, boys 1 and 2.
January 31, Oscoda here, boys 1 and 2, girls.
February 7, Harrisville there, boys 1 and 2.
February 11, Au Gres there, boys 1 and 2.
February 14, St. Joseph here, boys 1 and 2.
February 18, Whittemore here, boys 1 and 2, girls.
February 21, Au Gres there, girls.
February 25, Alabaster here, boys 1 and 2, girls.
February 28, St. Joseph there, boys 1 and 2.

HEALTH MOVIES
(Virginia Ristow)

Would you like to eat in an unsanitary restaurant? Everyone's answer to this is an emphatic "No." Yet, many times we do not realize that this is the very thing we are doing. As a result, public health is affected.

Last week a film was shown, produced by the Flint Department of Health which dealt with the proper handling of foods in public eating places. Two types of restaurants were shown. The first, wherein sanitation was disregarded by such practices as sweeping the floors while patrons were eating, using drying towels for almost every conceivable purpose, harboring the store cut on the meat block, and numerous other things. The second restaurant shown was one of those which regarded sanitation laws. All the laws on the care of food were observed, the interior of the restaurant was clean and sanitary. The employees regarded the welfare of its patrons.

Miss Arnold spoke a few words to the students in further explanation of the picture and of the sanitary laws and their effect in our own community.

Wall Linoleum

An interesting combination for modern kitchens can be found in matched wall and floor linoleum. Wall linoleum, as a treatment for side walls, reflects the qualities that have made it popular for floors. Harmonious wall and floor blends are obtainable. Another use of wall linoleum, said by builders to be growing in popularity, is in shower stalls.

Counting the Miles

One of the forerunners of the cyclometer on the dashboard of every auto was a contraption known as the "roadometer." It consisted of a device that counted the revolutions of a wagon wheel and was invented by one of the Mormon leaders on the long trek of his sect to Utah. One of the duties of the inventor was to multiply the number of revolutions by the circumference of the wheel to estimate the distance traveled each day.

Where Profits Go
Department, dry goods and general merchandise stores throughout the country receive about 52,000,000 complaints a year, which cost merchants on the average one dollar each in operating expense and markdowns, according to William J. Pilat, professor of retailing at the University of Pittsburgh.

Nova Scotia Caribou
Herds of caribou once more may roam through the forests of Nova Scotia if an experiment being carried out by provincial authorities is successful. Nine of the animals, with young, have been brought in from Newfoundland and released in the game preserve here.

Happy Landing
When their plane crashed near Durban, South Africa, two fliers fell on telephone wires and reached the ground unharmed.

Damp Basements
Damp basements are often due to improper backfilling. When a foundation is dug and later refilled, rubbish is sometimes used in the fill. Water running down the walls of the house collects in pools and seeps through pores or cracks in the walls and into the basement. The remedy is to refill the trench with clean, carefully packed dirt. In extreme cases it may be necessary to install a tile drain at the bottom of the trench to carry off the water.

Hot Paint, Cold Job
When painting, always remember that—for best results—the temperature of the paint and the temperature of the surface to which it is applied should be approximately the same. If warm paint is applied to a surface that is cold, the paint will likely run, sag or streak, whereas, if cold paint is spread on a warm surface it may expand in volume.

Best Tasting Cocoa
Cocoa tastes best when the cocoa, sugar and salt are mixed well with the water, and then boiled for from 5 to 10 minutes before adding the scalded milk, and heating all together.

Honest Mistake
Gabriel Salcedo, Ft. Davis, Texas, killed a doe during the hunting season, but the state game warden, Tom Redford, made no arrest. The deer had horns. Salcedo bagged the animal and found it to be a doe with 10-pointed horns, so Redford termed it an "honest mistake."

Vocational Coiffures
Paris hairdressers are designing coiffures which tell each woman's occupation or position in life. A woman doing a man's work will have a coiffure based on the short-cropped curls of a Greek athlete, much like the Anella Earhart bob. Permanently waved, it may be arranged in close curls over the head with a few swift movements of the comb. For leisured women who would avoid long hours dressing their hair, special chignons of false hair clip onto the back of the head, hiding short ends of the wearer's locks. Plaited chignons give the impression of long natural hair. A special coiffure for Red Cross nurses sets rather high on the sides of the face, with a "bang" frilling forward on the forehead beneath the cap.

Church to Be Lighthouse
Natives building a new church at Hula, on the coast of Papua, are using tons of timber from the forests and coral from ocean reefs. The edifice will have a light tower, given by the government, to guide vessels. A hospital will be built out of the material of the church replaced by the new one.

Gas Mask Repair
Gas mask repair stations will soon be opened throughout England, because constant carrying of the masks has made many of them useless. Those for children are in special need of repair; they use them for toys.

Portugal's Forest
Forests of pine, oak, cork, and chestnut cover 19 per cent of the land in Portugal.

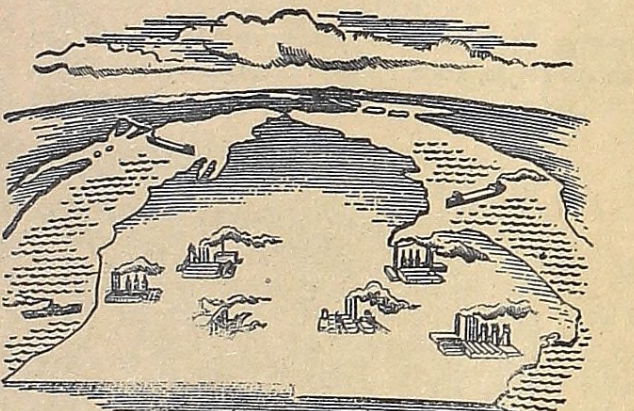

Odd Mercury Qualities
Mercury, the only liquid metal, may evaporate in the open air for years without a detectable loss in weight. Another unusual characteristic is that it may be freed of its dust by filtration through chamois skin or heavy canvas.

Vitamin Supply Important
An adequate supply of vitamins in the diet may mean the difference between buoyant health or feeling under par.

Some folks still can't believe their eyes

GOING over Buick dealers' reports on our 1941 models, we find an unusual thing happening. Time and again cars come in for the usual inspections with an extra note of instructions—"Please check the gas gauge needle."

Even after hundreds of miles, people mistrust their eyes when they see its snail-like pace from the Full mark toward Empty—they don't see how it's possible for a car as big as Buick to go so far on so little.

But it does—and for good reasons.

The whole FIREBALL engine was designed and built to get the most good out of modern gasolines.

And the simple secret of Compound Carburetion is that it keeps your engine running on its most frugal diet for all normal driving—and provides full feed only when you need, want and call for the lift of extra wallop.

Meantime even the gears are helping save money—for the regular high gear in a Buick gives you the economy of the so-called "gas-saving" top speeds you hear boosted so enthusiastically.

The big thing is, of course, that this is no small car that's setting these economy figures. There are all the room, size, impressiveness, comfort and downright thrilling performance you expect from a Buick.

But we assure you that it isn't because the needle's out of kilter that it goes down so slowly. It's simply because it's in a FIREBALL Buick.

Working Toward a New Day

A NEW note of understanding has come into the American Public's thoughts concerning the railroads.

It is now recognized that the coming of new forms of transportation has brought about disruption of the normal transportation situation. These new agencies must be properly fitted into the nation's distribution system if the best interests of the public are to be served. And certainly that program must include attention to the present disordered and unfair regulation requirements under which the railroads are the worst sufferers.

Armed with this new sympathy, the public in recent years has sought to rectify this injustice. Congress, in 1935, and the various states have passed laws to this end. This year Congress enacted the so-called Transportation Act of 1940.

But much additional progress along this line must be made before the railroads are on a parity with their competitors. To achieve equality will not harm other forms of transportation; is no more than justice requires; and definitely will be in the public interest.

Our members of the Michigan legislature and our representatives in Congress are urged to exercise justice, fairness and common sense in considering any legislation intended to bring equality into our transportation industry.

Mr. and Mrs. Earl Dougharty and daughter, Neva, of Reno, spent Sunday with his mother and husband, Mr. and Mrs. L. D. Watts.

John Burt, Atso Smith and Lynn Herriman were week end callers at their various homes.

On Thursday afternoon, December 5, the ladies of the Grange met at the home of Mrs. Robert Cox and helped her celebrate her 70th birthday. Various games were played in which prizes were won after which a tasty lunch was served. Mrs. Cox received many pretty gifts after which they left for their homes wishing her many more happy birthdays.

The Women's Club held their Christmas party on Wednesday afternoon, December 4. A good time was reported. Gifts were exchanged.

Little Gene Long, Henry Seafert, Jr., and Mrs. Chas. Katterman entertained thirty-four guests at a triple birthday dinner at the home of Mrs. Chas. Katterman. Each of them were presented with many beautiful and useful gifts.

Mr. and Mrs. Russell Long and little son left Sunday evening for Detroit where Russell expects employment.

Ladies Aid met at the McArdle home on Friday, December 6, with 20 ladies present. Lunch was served by the hostess. The next meeting will be held on Thursday, December 19 at the Town hall with a Christmas party. Everyone is invited and are asked to bring a 25 cent gift to be exchanged there.

Mrs. Russell Binder and sons spent Sunday with he parents, Mr. and Mrs. Chas. Brown.

John Webb visited his son, David, at Adrain last week. David has been suffering with an eye injury, but is much better now.

Mr. and Mrs. Chas. Bills installed officers at the Reno Grange on Wednesday evening, December 11.

Rags in Paper Making

During the early 1830s, rags for paper making were so scarce that they frequently brought as high as 20 cents a pound. Peddlers, traveling in red wagons, called on householders and traded bibles, testaments, and other books for the good-wife's rag supply.

Courtesy and Justice

District Judge C. D. Murane of Casper, Wyo., one day complained of the noise from a truck engine being tuned up just below the courtroom window. After silencing the disturber, the bailiff of the court noted frequent locomotive whistle blasts near the courthouse. So he wrote a letter to the railroads ordering them to silence their whistles. Worried railroad officials called the judge and said they would be glad to comply with the order but there was a city ordinance that required them to blow whistles at crossings. The judge, who hadn't heard about the letter, told them to go right on whistling.

South African Racket

Cape Providence, South Africa, is preparing drastic action against the money-making racket of "jackal breeders," it is stated in Capetown. It has been discovered that in parts of the province professional hunters, who destroy jackals for bounties have been capturing only the cubs, allowing adult animals to escape, and thus providing for the next season's "crop." It is suspected that in certain districts there are secret jackal breeding establishments, the owners of which make big profits by constantly turning in very young jackals. Last year the record number of 38,000 were destroyed at the standard rate of \$2.50 an animal. In some districts \$3.75 is paid.

Italian Army's Chief of Staff Resigns As Greeks Drive Further Into Albania; Nazi Pour Into Rumania Amid Chaos; U. S. Aid Held Vital to British Victory

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)
(Released by Western Newspaper Union.)

DUCE'S GAMBLE:
Stakes Are Raised

In Athens, wives of the German legation staff are knitting for Greek soldiers fighting Italy, Berlin's Axis partner. There were other indications Germany was in no hurry to come to Mussolini's rescue in Albania. It was said Hitler had advised against the campaign and since the Duce had gone ahead anyhow, he should be given time to consider the consequences of effort to the leader. Mussolini apparently was doing penitence. Already he had relieved one commander in the field, another at home and ordered more Fascist legions committed to the Balkan campaign.

There were other, more practical reasons, why his drive first bogged down and then turned into retreat. These were: British aid in the air and sea, which made hazardous his lines of communication; unwise anticipation of mechanized units in mountain regions; insufficient use of the Italian air corps; Greek strategic ability which made the most of Italian losses.

"Resignation" of Marshal Pietro Badoglio as chief of the Italian general staff was also announced officially in Rome. This fact gave some indication of the tough going of Mussolini's plans for a "quickie" war in Greece. Badoglio was re-

placed by Gen. Ugo Cavalero, until recently commander of the Italian forces in East Africa. Italy's most famous soldier, Badoglio had been chief of staff for 15 years and had been in supreme command of all three branches of the fight forces of Italy.

The Mediterranean

The first major encounter of the British and Italian navies was off Sardinia. British planes sighted tiny spots in the ocean, identified as Italian warships. They radioed the word back to the fleet and the British, led by the battleship Renown, went into action. Planes joined the melee. The Italians finally threw up a smoke screen and got back under the protection of shore batteries. There were conflicting claims, but the British declaration that its navy controlled the Mediterranean seemed to hold weight.

The British told a story: "The American navy," it said, "prefers whiskey, the British navy rum. But the Italian navy sticks to port."

ENGLAND'S CRISIS:
Food and Planes

More and more it became apparent that the weeks just ahead may decide the ultimate victory for Adolf Hitler. That he is well aware of this is seen in the intense bombings being administered to British industrial areas.

Supplies is the key, and Hitler hopes to so cripple British production that the anticipated spring drive will be made easier. Certain it is that he is obtaining some results, although British censorship has hidden the extent of the industrial damage in Coventry, Birmingham, Bristol and Liverpool.

On the other hand, Arthur Greenwood, minister of production, admitted losses when speaking to commons. Also an increase in U-boat activity was admitted to threaten sea traffic, upon which Britain must rely for the major share of its food-stuffs. Stricter rationing was de-

creed, milk supplies curtailed, imports of fresh fruits banned and fewer meat shipments forecast.

Shipping losses were estimated at 4,500,000 tons a year. It was 600,000 tons a month at the height of the U-boat campaign in 1917. Partial British answer to this was found in R. A. F. bombings of submarine bases in France and Belgium. British war on German production also was made in bombings on a score of continental cities.

The Way Ahead

Eyes of all were on the rate of production of planes and munitions in the United States. Here may be the final test, if the British can hold out to mid-summer. American planes sent to Britain in October numbered 281. Scheduled for November were 390. For January the figure is 350, and 400 by April, to be increased to 900 by January, 1942. Also by that time it is considered a fair estimate that the U. S. will have 50,000 planes of its own. But an "all-out speed-up" would even revise these figures upward.

RUMANIA:

Death and Terror

In 1923 a Polish mystic in Rumania formed a fascist, anti-Semitic movement under the name of League of the Archangel Michael, later to become the Iron Guard. His followers wore green shirts. At the same time in Germany an Austrian beer hall orator launched a similar campaign known as National Socialism. His followers wore brown shirts.

In 1938, the Iron Guard, admirers of their German counterpart and allegedly financed by them, were outlawed by King Carol following a long list of bombings and outrages. Corneliu Zelea Codreanu, the Guard leader, was imprisoned. Later it was announced he had been shot dead while trying to escape.

Three months ago German pressure pushed Carol from his throne and put the Iron Guard in control. But the green-shirted legions yearned for revenge. They attained that revenge when a band of several hundred forced their way into a fortress prison, took from cells 69 anti-guardist leaders and executed them. Included was Gen. George Argesuto, premier at the time of Codreanu's death.

Civil War

The Bucharest government of Premier Gen. Ion Antonescu quickly expressed disapproval in the name of party discipline. The premier is titular head of the Iron Guard. Even with strict censorship it was learned that there had been wholesale resignations of army officers in protest. But the assassinations continued and units of the

army and Iron Guard clashed. Later 30 of the Iron Guardists were reported "suicides."

Hitler had little to lose in the quarrel. Both the army and Iron Guard are pro-Nazi, the army however not approving of anti-Semitism. Amid the internal chaos, trainloads of German troops poured into Rumania to "keep order." Germany badly needs Rumanian oil and wheat, and the Rumanian mountain passes lie across the path of the Nazi push to the east. Hitler was easing his route while the Rumanians quarreled.

FARM SHOW:
Girls Is Winner

At the forty-first annual International Livestock Exposition and Hay and Grain show in Chicago, the major event for junior cattlemen and farmers was won by Evelyn Asay, of Mt. Carroll, Ill. It was the junior steer competition and Miss Asay carried away honors with her Hereford steer Sargo.

Then Sargo went on to even greater glory. He was picked as the Grand Champion steer of the exposition, the highest honor in cattle-dom. Later he was sold to the Firestone Tire and Rubber company at the fancy price of \$3.30 per pound. This cash and the money won in prizes by the animal will be used as a down payment for a farm for the Asay family, according to Evelyn, who was hailed as the toast of the show.

Iowa State university was the winner of the collegiate judging contest, scoring 4,436 points out of a possible 5,000. Texas A. & M. college placed second with 4,409 and Ohio State university third with 4,394.

SIAM AT WAR:
Another Invasion

In the World war Siam (Thailand) fought on the side of the Allies. Several thousand troops were brought to France, but military experts after estimating their combat possibilities, assigned them to truck driving in the Paris district.

Now Siam has attacked France, troops invading parts of helpless Indo-China. The French garrison there, split in allegiance to the Vichy and De Gaulle governments and beleaguered by the Japanese, are not expected to put up a strong defense.

Objective

There is little cause for war between the two countries and the original attack came only after the usual "border incidents" which easily can be inspired or imagined.

Actually the behind-the-scenes sponsor is believed to be close affection between Japan and the present Siamese government led by Premier Gen. Luang Bipul Songgram, and all eyes are glued on Singapore, near-by British naval base, the chief British strong point in the Far East. Singapore is impregnable from the sea, but believed vulnerable by land. Should Japanese and Siamese forces unite in Indo-China, it would pave the way for joint movement by land against Singapore.

U. S. Reaction

Washington looks upon Singapore as the best restraining influence in the Far East on Japan. News of the Siamese attack brought immediate reaction here. Announcement was made of an additional loan of \$50,000,000 to the Chinese Nationalist government, with an additional \$50,000,000 to be made available later.

DRAFT REJECTIONS:
Not Fit to Fight

About 15 per cent of the first 14,500 men who answered the initial summons under selective service, are back home, judged by army physicians as sub-standard physically. All the men previously had been passed by their local draft board physicians, but army doctors were more thorough and used X-rays. Chief cause for rejection was sub-standard teeth and eyesight.

The high rejection percentage was a surprise to the army. They had expected a rejection not higher than 2 per cent. Immediate steps were taken to call additional men from each draft board where a man was rejected before being inducted.

MISCELLANY:

A third recent major airline disaster occurred in Chicago when a large United Air Lines passenger plane crashed, killing eight and injuring eight. The plane was descending for a landing and was only five seconds' flying time from the Municipal airport runways when its engines stalled. It fell, crashed into a house, a garage and an electric power line and then slammed to the ground. Preliminary investigation indicated ice on the wings may have caused the crash.

Today's popularity of Doan's Pills, after many years of world-wide use, surely must be accepted as evidence of satisfactory use. And favorable public opinion supports that of the able physicians who test the value of Doan's under exacting laboratory conditions. These physicians, too, approve every word of advertising you read, the objective of which is only to recommend Doan's Pills as a good diuretic treatment for disorder of the kidney function and for relief of the pain and worry it causes. If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed. Burning, scanty or too frequent urination sometimes warn of disturbed kidney function. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out. Use Doan's Pills. It is better to rely on a medicine that has won world-wide acclaim than on something less favorably known. Ask your neighbor!

Suggestions For Relief Of Itching

By DR. JAMES W. BARTON
(Released by Western Newspaper Union.)

I HAVE counted over one hundred causes of headache; others have counted many more than this.

It would seem that another simple yet annoying symptom has likewise a great many causes. I refer to itching, or pruritis as it is called.

Itching cannot be classed as pain and yet it can be so severe that it may cause the patient to actually tear his skin in his efforts to obtain relief.

So important is itching considered from the standpoint of comfort and health that a special article thereon by Dr. Arthur W. Stillians, Chicago, appeared in the Journal of the American Medical Association recently.

The causes of itching may be some disturbance of the skin itself, local causes, or to some general disturbance of the body.

Among the local causes are:

1. Animal parasites such as itch mites and other insects that live on the skin, pin worms, and the parasite known as trichomonas.
2. Vegetable irritants such as itch powder, nettles, fungi, plant juices, pollen, drugs.
3. Mechanical irritants such as scratching and rubbing of clothing and the effect of wind.
4. Cold or heat.
5. Chemical irritants such as sulphur, mercury, nickel.
6. Local secretions: sweat left in folds of skin, alkaline or too acid urine.
7. Sun.

Cause and Treatment.
General causes of itching: 1. Irritations due to pressure of growths on abdominal organs. 2. Deficient nutrition, anemia, vitamin lack. 3. Poisoning of blood and tissues by liver disease and constipation. 4. Gland disturbances such as diabetes (pancreas) exophthalmic goiter (thyroid) and the menopause. 5. Sensitiveness to foods, drugs and other substances. 6. Nervous diseases.

The treatment of itching naturally depends upon the cause. Until cause is found, Dr. Stillians suggests the use of a soothing powder of equal parts of boric acid, talcum and zinc stearate. Cooling the skin by cool wet compresses of boric acid solution—a teaspoon to a pint of water—is also helpful. Calamine lotion is perhaps the most widely used preparation to relieve itching.

Getting Rid of Superfluous Hair

IT HAS been found that the best treatment for the removal of superfluous hair is electrolysis. The tiny needle is inserted into each hair root and, if done properly, the hair is permanently destroyed.

Unfortunately, because this is not "medical" treatment, anyone can buy this electrical outfit and perhaps, in time, acquire the necessary skill to kill the hair root and leave no scar. But while these "operators" are learning how to use the equipment, much damage may be done to the skin of the patient.

There are a number of reasons why safety is not assured by these lay operators, the most important or serious of which is (a) their lack of knowledge of preventing infection, and (b) treating what they consider simple moles, which are really an early form of cancer.

Operator Should Know Antiseptics.

To avoid hazards of infection and spreading a cancerous growth, the operator should have some understanding of anatomy, physiology, bacteriology, antiseptics, besides his knowledge of how this particular electric apparatus is used.

Now this doesn't mean that anyone with superfluous hair must go to a physician to have it destroyed because the majority of physicians know little or nothing about removing hair by electrolysis. It does mean, however, that if he does not go to the physiotherapy department of any hospital, a patient desiring this treatment should ask his physician about the establishment where he expects to undergo the treatment.

A good "operator" of the electrolytic apparatus may be unable to tell the difference between a simple and cancerous mole.

THE HOLIDAY SEASON APPROACHES!

(See Recipes Below)

One of the most important occasions in the year's schedule of holidays is the Christmas dinner. As homemakers, it behooves us to crown it with a superlative dessert. Cakes, fragrant with spices, and rich with fruits and nuts, are traditional Christmas fare, and are more than satisfying as a finale to the feast.

Fruit cakes improve with age. They become mellow and more flavorful as the days go by. So, make them early and let them ripen until the holiday season arrives. Proper storage prevents fruit cakes from molding and drying out. Wrap the cooled cakes in wax paper, and store in tightly covered tins. Pour a little wine or fruit juice over the cakes, every week or so, and when ready to be served they will be mellowed to the proper degree.

Make out your Christmas list now. I'm sure you will find a few friends and relatives to whom you may send fruit cakes. They will make charming gifts, especially for those away from home, and who have neither time nor the facilities to bake their own.

Wrapped in cellophane and tied with a bow, or fastened with colorful Christmas seals, the packaged fruit cake is indeed "lovely to look at, and delightful to eat."

A box of Christmas cookies of various shapes, sizes and kinds will be an appreciated present for someone on your list. Perhaps it is the kindly little old lady next door, or the lonely old man down on the corner, both of whom will thank you for your thoughtfulness.

Christmas Fruit Cake.

(Makes 10 pounds)

- 1 1/2 pounds currants
- 3 pounds seedless raisins
- 1 pound citron
- 1 pound mixed candied fruit
- 1 pound candied pineapple
- 1 pound candied cherries
- 1 cup butter
- 1 cup brown sugar
- 6 eggs
- 4 cups pastry flour
- 1 teaspoon baking powder
- 1 tablespoon cinnamon
- 1 teaspoon allspice
- 1 teaspoon nutmeg
- 1/2 teaspoon cloves
- 1/2 teaspoon salt
- 1 cup fruit juice or wine

Cut fruits. Cream butter and add sugar. Add well-beaten egg yolks. Mix and sift dry ingredients and add alternately with fruit juice or wine to the butter mixture. Add fruit. Fold in beaten egg whites. Place in baking pans lined with wax paper. Cover pans with wax paper and steam 5 hours. Then bake 1 hour in a slow oven (275 degrees).

Gum Drop Cookies.

- 4 eggs
 - 2 1/4 cups light brown sugar
 - 2 cups flour
 - 1 cup nutmeats (chopped)
 - 18 large gum drops (cut in small pieces)
- Beat eggs thoroughly. Add sugar and continue beating. Add flour and beat until smooth. Fold in nutmeats and gum drops. Spread evenly in 1 large or 2 medium-sized greased baking pans. Bake in a moderate oven (350 degrees) for 20 minutes, or until firm. Sprinkle with powdered sugar and cut into bars.

Glaze Finish for Fruit Cakes.

- 1 1/2 cups water
 - 3/4 cup granulated sugar
 - 3/4 ounce Gum Arabic (4 1/2 teaspoons)
- Place sugar and water in a saucepan and boil to the thread stage (230 degrees). Add Gum Arabic and heat again just to the boiling point. After fruit cake has been baked, remove from the oven and garnish with nuts and fruits as desired. Then pour the Gum Arabic mixture over the fruit cake in a thin stream, and manipulate as lit-

tle as possible in order to avoid crystallization of the glaze.

White Fruit Cake.

(Makes 5 1/4 pound fruit cake)

- 3/4 cup butter
- 2 cups sugar
- 7 eggs (separated)
- 2 1/2 cups flour
- 2 teaspoons baking powder
- 1/2 teaspoon salt
- 1 cup sweet milk
- 1 teaspoon lemon extract
- 1 pound white raisins
- 1/2 pound figs
- 1/2 pound blanched almonds
- 1/4 pound citron
- 1/2 pound candied cherries
- 1/2 pound candied pineapple

Cream butter and add sugar. Separate eggs, beat egg yolks and add. Mix and sift together dry ingredients and add alternately with the milk. Add lemon extract. Cut fruits and add. Blend well and fold in well-beaten egg whites. Place in pans lined with wax paper and bake 1 hour in a very slow oven (275 degrees); then increase heat slightly (300 degrees) and bake 2 hours more.

Yuletide Cookies.

(Makes 60 cookies)

- 1/2 cup butter
- 1 cup light brown sugar
- 2 eggs (well beaten)
- 2 cups flour
- 1/2 teaspoon soda
- 1/4 teaspoon salt
- 1/2 teaspoon nutmeg
- 1/2 teaspoon cinnamon
- 2 tablespoons of sour cream
- 1 teaspoon vanilla extract
- 1/2 cup seedless raisins
- 1/4 cup candied cherries (cut)
- 1/4 cup citron (cut fine)
- 1/2 cup dates (cut fine)
- 1/2 cup pecan nut meats (cut)

Cream butter, add sugar slowly and beat thoroughly. Add eggs. Mix and sift all dry ingredients and add alternately with cream and vanilla extract. Fold in fruit and nut meats. Chill thoroughly; then break off in small pieces, form into balls, flatten, and place on greased cookie sheet. Bake in a moderate oven (350 degrees) for approximately 12 minutes.

Orange and Lemon Christmas Cookies.

- (Makes about 5 dozen cookies)
- 1 cup sugar
- 1/4 cup orange juice
- 1/4 cup lemon juice
- 1 teaspoon lemon peel (grated)
- 1 teaspoon orange peel (grated)
- 3 1/2 cups flour (sifted)
- 2 teaspoons baking powder
- 1/2 teaspoon salt
- 1/2 cup butter (melted)

Mix sugar and fruit juices well. Add grated peel, dry ingredients and melted butter. Stir well. Dough should be firm enough to roll. Roll very thin and cut with fancy cutter in Christmas shapes. Bake on a greased sheet in a moderately hot oven (375 degrees) for about 10 minutes, or until lightly browned on the edges. (The dough may be chilled in the refrigerator for about a half hour to make the rolling simpler.)

Feeding Father.

Don't let father down when the holiday season catches up with you. You may be busy with the holiday tasks before you, but Dad will still be around for the evening meals, and during the week-ends, and the family must be fed, regardless of the amount of work to be done.

Miss Howe's cookbook "Feeding Father" will help you immensely in preparing the family meals. It contains recipes for simplified dishes to serve which will delight the family because they are so good to eat.

You may secure your copy of the cookbook by writing to "Feeding Father," care of Eleanor Howe, 919 North Michigan Avenue, Chicago, Illinois, and enclosing 10 cents in coin.

JESUS TEACHES HIS DISCIPLES TO PRAY

LESSON TEXT—Luke 11:1-13.
GOLDEN TEXT—Ask, and it shall be given you; seek, and ye shall find; knock, and it shall be opened unto you.—Luke 11:9.

Teach us to pray!

The request of the apostles was not that He should teach them how to pray, for He had already done that (see Matt. 6:5-7) in the Sermon on the Mount. What they needed, and what we need, is not so much to learn how to pray, but actually to pray. Prayer is more talked about than practiced. We discuss the doctrine of prayer, the time of prayer, the manner of prayer, posture in prayer; but how much do we really pray?

This is a very important and plain question which we must face personally, "Do I pray, or do I only talk about praying?" Let us not try to dodge it or excuse ourselves; let us face it honestly, do something about it, and know God's richer and fuller blessing for our lives.

We have in our lesson,

I. A Principle of Prayer (v. 9).

The one who has a right to call God his "Father" (v. 2) has a right to come and "ask" God for whatever he needs. God expects His children to ask, and many "have not, because ye ask not" (James 4:2). Give God a chance to answer you by asking, but be sure to ask aright, not for your own selfish purposes (James 4:3). The real asker is also a seeker—he doesn't ask and run away empty-handed—he persists. He not only "seeks," but he "knocks" at God's door. A knock is an evidence of faith—expectancy, and often persistency—all essential in real prayer.

II. The Promise of Prayer (vv. 9-13).

Here is the promise of our Lord. We are quick to claim the promises of our friends, business associates, the government; why are we so slow in claiming the promises of God? Can it be that we have less confidence in Him than we have in our neighbor? Asking means receiving, seeking results in finding, knocking brings the open door of His blessing. Why not do it?

God is our Father. Even a man rightly bearing the beautiful title "father" is loving and considerate. Will not the heavenly Father then give us every good thing? In fact, the Holy Spirit Himself is ours in all His fullness, and in Him there is every other gift.

III. A Parable Concerning Prayer (vv. 5-8).

The point of this story is that we should be persistent in prayer. Importunity carries with it a sense of being troublesome, bothering someone until the desired result is attained. God encourages His children to a holy boldness which does not give up (see Luke 18:1-8; Matt. 15:21-28). If a man who is only a friend will at the impossible hour of midnight supply a need which should have been anticipated to feed one who is a stranger to him, will not our Father, who "neither slumbers nor sleeps," who knows and loves us all, meet our deep spiritual need? Indeed He will, "exceeding abundantly above all that we ask or think" (Eph. 3:20).

IV. The Practice of Prayer (vv. 1-4).

There is no one who can teach us to pray better than Jesus, for He "practiced what He preached." He prayed. It was seeing Him pray that led the disciples to ask Him to teach them to pray. To profess is one thing, but it is far better to practice. The teacher who does not practice prayer will accomplish little in teaching this lesson, but the one who prays, though able to say but little, will cause many to say, "Teach me to pray."

For the practice of prayer, Jesus taught His disciples a model prayer. This does not mean that this is the only prayer to be offered, nor that it is the only form of prayer. As suggested, it is rather a model.

This prayer opens with a recognition of God as Father, followed by a reverent petition that His name may be hallowed; that is, that He may have glory as His will is done and His kingdom established in the hearts of men. Those who have that spiritual life and attitude are ready to ask for the supply of daily needs, and above all forgiveness of sin and deliverance from temptation. Note that verse 4 is not the prayer of the unsaved for forgiveness and regeneration, for that is all of grace (Eph. 2:8). The man outside (of the kingdom) gets his forgiveness with no condition; but once he is in the kingdom of the Son of God's love, he lives within the laws of that kingdom. Then he does not get forgiveness unless he is ready to forgive, unless he has forgiven" (Morgan). "Nothing more surely destroys communion than the unforgiving spirit (Matt. 6:14, 15; Mark 11:25). The fact that we forgive others is not the ground on which God forgives us, but it is the condition of our enjoying God's forgiveness (Eph. 1:7; 4:32)" (Bradbury).

Patterns SEWING CIRCLE

Even the least experienced mother or doting aunt can do it!
For the coming holiday parties this frock will be most appropriate in velveteen or taffeta, with organdy or very fine lace for trimming. Simple as it is, this pattern includes a step-by-step sew chart.

Pattern No. 8827 is designed for sizes 3, 4, 5 and 6 years. Size 4 requires 1 1/4 yards of 39-inch material; 1 1/4 yards trimming and 1 1/2 yards of velvet ribbon. Send order to:

DON'T GAMBLE AGAINST MICHIGAN WINDSTORMS!

The house, pictured above, was wrecked by a Michigan windstorm in 1939. Total damages exceeded \$2,500. For \$4.50 a year, the cost of a \$3,000 policy with the reliable, 43 year old State Mutual Cyclone Insurance Company, the owner would have been amply protected. Destructive windstorms occur, all over Michigan, every year. Yearly windstorm losses often exceed \$2,000,000. Protect yourself today. See your local State Mutual Cyclone Insurance Company agent or write us direct.

Budgeting Budgeteers
 Mo. cities use a budget system, according to the National Consumers Tax commission, but the problem in many cities is getting the city fathers to live within their budgets. Most common error is the assumption that the full levy will be collectible when experience shows that from 10 to 50 per cent will be delinquent.

Millions of Years
 The perfect reflection milady sees in her polished plate glass mirror is the result of 500,000,000 years of striving by nature to make the raw material. Scientists of a leading glass company in Toledo, Ohio, estimate that the special silica sand used to make fine plate glass "weathered" that long to attain the quality needed.

Fresh Milk Delivery
 House-to-house delivery of milk dates from the Middle Ages. And in those early days the product was absolutely fresh when received by the consumer. The cows were driven from house to house and milked on the spot.

House of Cotton
 The Farm Security administration is conducting experiments in the use of cotton as a building fabric. A house has been erected in Coffee, Ala., with roof and walls covered with cotton duck. The material is nailed to a smooth backing of plywood, plaster or composition board. It is painted with a mixture of white lead and linseed oil. The cost of such a house, including modern plumbing and electric wiring, is only about \$1,350.
