

GHOST PLANE
By ARTHUR STRINGER
W.N.U. SERVICE

The young Eskimo woman found it hard to explain. "Um a ghost plane."

ages. "I shouldn't be here. But I knew you needed this stuff."

The Flying Padre's smile was an understanding one.

"Yes, Lynn's waiting for it," he casually observed. He also observed that a little of the shadow went from the Viking blue eyes.

"Then she's here?" he asked.

The Padre nodded.

"She'll be anchored here for a couple of weeks with an eye case. But she's been worrying about you."

The gaze of the two men looked for a moment.

Slade was the first to emerge from that moment of abstraction.

"I caught up this mail for you at Yellowknife," he said as he handed letters and papers to the older man.

Slade's eyes rested on that older man, bareheaded and gaunt in the revealing arctic sunlight, as the letters were examined. Lynn was right; her father was not so young as he had once been. Yet if there was any inner weariness there it was masked by a quick decisiveness of movement that spoke of a mind still active and a will still strong.

"These are for Lynn," the Flying Padre was saying as he inspected two bulky envelopes embossed with English stamps.

"They've come a long way," observed Slade.

"Yes, from Barrett. He's at Aldershot now."

Slade felt a little of the warmth go out of the sunlight.

"And these are the drugs and things," he explained as they mounted the knoll to the plain-boarded little surgery.

planned and on its way to the table. Time was when canning was an unscientific and highly questionable process...

Stacking the jars or covering them with a cloth does not allow for free circulation of the air. Jars should not be packed in boxes or in the canning cupboard until they are properly cool.

When the jars are cool, test to see if they are sealed properly, by taking a spoon and tapping the lid gently. If they give off a clear, ringing sound, they are properly sealed.

Safest method for canning vegetables is by the pressure cooker. Your concern here is to be sure to process the exact length of time the vegetable requires...

Young, tender vegetables, freshly gathered, give you the best finished product. Canning cannot remedy tough, over-mature produce...

Cleanliness is important. You'll enjoy letting cool water trickle, trickle over the vegetables to free them entirely of every trace of soil.

Mold, yeast and bacteria cause food spoilage. They lurk in air, soil and water and must be destroyed by proper processing...

Proper cooling is important to the good keeping of canned food. Do not

JUST WHAT

What He Said
 Jimmie—My Uncle Larry's got exclamatory rheumatism.
 Johnnie—You mean inflammatory rheumatism, don't you?
 Jimmie—Nope. I mean exclamatory—every time he tries to move he yells and curses.

It is easy to believe in evolution if your neighbors have children.

Rightfully His
 "Hey, you're cheating!"
 "I'm not—I had that ace before we started."

Retaliation
 Lady—Johnny, why are you making faces at that bulldog?
 Johnny (wailing)—He started it.

Ultimatum
 "Edith, he whispered, "will you marry me?"
 "I don't know, Tom," she replied.
 "Well, when you find out," he said rising, "send me word, will you? I shall be over at Eve's until 10 o'clock. If I don't hear from you by then, I'm going to ask her."

His Last Request
 The American convoy was on its way to Ireland across the stormy North Atlantic. One soldier hurried below to call his buddy.
 "Hey, Bob, come on up. We're passing an American battleship."
 He was answered by a groan.
 "I don't want to see a ship. Call me when we pass a tree."

Sentinels of Health

Don't Neglect Them!
 Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure.
 When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, itching up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.
 Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance.
 The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Insist on Doan's. Sold at all drug stores.
