

Association Formed to Promote Community Hospital Project

Temporary Officers Are Named

Application Made for Incorporation Papers

The outlook on the possibilities of a hospital for this section of Michigan look very bright. Last Monday evening a group of citizens met at the city hall in this city for the purpose of organizing an association for promoting the establishment of such a hospital.

The organization will be known as the Tawas Community Hospital Association and temporary officers were elected Monday evening. They are Mayor John D. LeClair, president; Judge H. Read Smith, secretary, and H. E. Friedman, treasurer.

This section of Michigan has needed a hospital for many years and the possibility of securing one has been discussed for a long time. Last Monday night a definite step was taken to secure one.

To secure a hospital will require a large amount of work because a large portion of the money necessary will be raised by popular subscription, but those present at the meeting were enthusiastic over the prospects. One citizen at the meeting made a gift of \$1,000.00 to the association and two wrote out checks for \$500.00 each.

Dr. Mark Osterlin of the Michigan Children's Clinic at Traverse City will be here to examine the children. Parents must accompany the children.

Children with heart ailments, retarded speech or development will be welcome at this clinic. Call for Mrs. Grace Hanna, County Nurse for information regarding the clinic.

Monday evening the new officers of Jesse C. Hodder Post, American Legion, were formally installed in ceremonies put on by members from the Standish Post of the American Legion.

The officers installed were: Post Commander—William Mallor, 1st Vice—Howard...

Retired D. & M. Employee Passes Away Services for F. J. Bright Held Sunday

Franklin J. Bright, retired railroad man and highly esteemed citizen of this city, died Thursday, August 8.

Mr. Bright was born April 13, 1875 at Samaria, Monroe county, Michigan. He was married September 4, 1901, to Clarissa Augusta Smith in Leelanau county.

The Fahselt family enjoyed a family reunion Sunday at the Laidlawville schoolhouse. A pot luck dinner was served. The afternoon was enjoyably spent in visiting and reminiscing.

The Tawas City Garden Club will meet at the High School Home Room, Monday, August 19.

RELAX--YOU'RE NOT SO DARNED IMPORTANT! By Roy J. McMurray

Once in a while a person should be lost in a wilderness in order that he see the wonders of the stars, feel the beat of rain on his face, or hear the crash of a tree struck to earth by the storm.

Once in a while a fellow should sit alone by the side of the road and let his toes dangle in a puddle and watch the rest of the world keep going along without him.

Work is expected to start within a few days on completing the grading and graveling of First Street to M-55.

Word has been received that the raved portion of M-55 in this city will be blacktopped within a short time.

Wilson-Buch At a lovely candlelight ceremony Sunday evening Miss Marian Wilson, daughter of Mr. and Mrs. Ralph Wilson, became the bride of Roland Buch at the Emanuel Lutheran church.

William Woltman of Bay City played the wedding march and the organ solo, "The Lord's Prayer," following the ceremony.

The bride who was given in marriage by her father, was gowned in traditional white satin with fingertip veil and crown of seed pearls.

Following the ceremony a reception was held at the Wilson home. The young people left on a wedding trip through Northern Michigan.

Amid bitter denunciation of the bond-payment provision, the House sent to President Truman last week the \$63,000,000 GI Furlough Pay bill.

The legislation gives present and former enlisted personnel of the Armed forces the same consideration that officers now receive in the matter of payment for furlough time not actually received.

Residents of Isoco county are to be asked to contribute the sum of \$1,000.00, for the support of the Salvation Army's work in Michigan.

Justice Glenn K. Harwood, of East Tawas, has accepted the Chairmanship for the fund-raising campaign, which will be conducted during the period from August 19th to August 31st inclusive.

Edward Ullman and Miss Maxine Baucus, both of Tawas City were married Saturday, August 10 at 6 p. m. at the Methodist parsonage.

Tawas City Wins from Twining Team

Play at Harrisville Next Sunday

Tawas City edged out Twining, Sunday, 3 to 2 in a game set off by many sparkling fielding plays and some timely hitting by the Tawas City team.

The Tawas City team's timely hitting in the seventh combined with a Twining miscue brought in two runs after the first two men struck out.

Landon while showing his ability on the field also led both teams with a triple and two singles. Eight of the nine hits made by Tawas were by the left handers.

Mrs. Mary Mattson Anderson, age 86 years, former resident of East Tawas since 1870, passed away last Friday at the home of her daughter, Mrs. Paul Ammen at Tecumseh.

NEITHER MAJOR PARTY HAS A CLEAR-CUT PLATFORM

I TALKED RECENTLY with two representatives of the people in congress. One a Republican, the other a Democrat. Both are candidates for re-election. During their service in congress neither has, at all times, voted with the majority of his party. The Republican told me he differed radically with some of his party leaders; that his views on major issues did not match the views of some other Republicans; that he could not present his views as representing anything more than himself; he could not speak for the party on anything other than a general condemnation of the opposition. He said the party has established no policies. If elected, as he expects to be, it will be because a majority of the voters of the district believe in his ability to best represent them. He will feel under no obligation to support any set of policies because the party has enunciated none.

The Democratic candidate told me much of the same thing. He said that during his two years in the house he had been entirely "on his own" in determining what proposed legislation to support, and what to oppose, for the party, as such, did not prescribe any policies those elected on the Democratic ticket were expected to follow, and there were no policies prescribed for the future. The party label is meaningless as a guide to the voter. The choice is between candidates rather than between parties.

Such are the conditions on the eve of an unusually important national election. The voters have no assurance they will get from either party what they, as individuals, believe is best for the nation. Some Republicans voted to continue OPA; others to kill it. The same situation is found among those elected on the Democratic ticket. What was true of OPA has been true of many other issues.

Not one in a hundred of the voters of a state or district has an acquaintance with, or a personal knowledge of, the candidates on either ticket for either senator or representative. The party label tells them nothing, and the voters must go blindfolded to the polls because the directing leaders of both parties cannot agree on what basic principles the party should endorse. Political fear is at the bottom of it all; fear of offending some minority; fear of losing a few votes.

The basis of our government by the people is the two-party system, but that system becomes valueless when the parties refuse to provide for the voters any statement of the principles for which they stand. The party label does not provide a guide. He can only vote blindly for candidates. The election is not a contest between the Republican and Democratic parties; it is a contest between the Bill Smiths and the Ed Joneses.

SEAS NO LONGER PROTECT US

FROM THE TIME George Washington admonished the young nation to beware of European entanglements to the day when President Wilson asked congress for a declaration of war against Germany, that admonition of Washington's had been the guiding principle of our foreign policy; that plus the Monroe Doctrine. For more than a century we had felt secure behind our ocean barriers, both to the East and West.

Today those ocean barriers do not provide the security they once did. Science has demolished them with rockets, capable of a speed faster than sound, carrying a threat of destruction not only to our long sea coasts, but also to every part of the nation. For the future we must face the possibility of atomic bombs being hurled at us from any part of the world. We cannot again ignore the rest of the world. Isolation no longer can be an American policy. We must do our full part to subdue or control the passions that for centuries have affected Europe. We must have a foreign policy that recognizes new conditions. It should be a policy of world leadership, as we are today the greatest, and no longer the youngest or weakest, of the world nations.

MANAGEMENT insists production is the proper basis of wages; labor says it is profits. Fact is production leads to profits, and profits is the more convenient measuring stick. Wages based on profits will encourage production.

BOTH THE ARMY and navy did a commendable job of demobilizing the men and women of the armed forces. The same kind of a job is needed in the army of civilian clerks employed by both services. While the fighting forces have been demobilized, the desk forces have increased, and still are increasing. Those civilian employees doing manual labor have been released, but not those holding desk jobs. They are not asking to be discharged.

NEW ARIZONA GHOST TOWN . . . Photo shows town of Jerome, Ariz., founded on the sloping sides of the mountain from which rich ore was taken over a period of more than 60 years of mining, leaving the town dry from ore. The site produced more than \$600,000,000 in copper, silver and gold and will be abandoned next year. Businessmen plan to develop the area as a tourist center with dude ranches, resorts and private schools, so it will not be a ghost city.

REPRESENTATIVES AT POLICY CONFERENCE . . . The movement was started following attempts to unionize ball players and do away with some objectionable practices.

ONE YEAR AFTER ATOMIC BLAST . . . Here is a view of the city of Hiroshima, Japan, a year after the cosmic blast that shook the world was released by U. S. air forces. Little attempt has been made at reconstruction due to lack of building material. During the cleaning up, hundreds of bodies were recovered from the debris. It is estimated that between 6,000 and 10,000 corpses still lie under the ruins of the city.

CAN HE SWIM . . . Can a pig swim? Some authorities say they are excellent swimmers, some say no. It is maintained by some that the natural fat keeps them afloat, others insist they would sink from their own weight. Kudzu Saves Soil And Provides Feed

Increasing Use Seen On American Farms

Erosion gullies, once the bugaboo of farming, are succumbing rapidly to a versatile leguminous vine known as kudzu.

In addition to growing vigorously, with proper management, under many unfavorable soil and moisture conditions, kudzu has the advantage

Kudzu crowns or roots will produce luxuriant and nutritious forage for hogs and other livestock.

of permanency. The crowns, or root system, will remain over a long period of years without replanting, if the vines are not overgrazed.

When harvested for hay it has a feeding value as high as that of alfalfa, and also provides a nutritious forage for livestock grazing. It is especially recommended for ravines or other sites that are too badly gullied to be used for cultivated crops. It is equally important on more level acreage where it can be cut for hay as well as acting to conserve the soil.

From Dadeville, Ala., comes the report of an increase of 25 bushels per acre for corn that followed the plowing under of kudzu, or 40 bushels an acre. Most corn yields in that section averaged below 15 bushels.

Labor Saving Cart

Almost any dairy will find a cart a big labor saver, as well as a sanitary aid. Scales, milk pail, strainer, disinfectant and record books are all included in the cart shown above.

'Gateless' Cattle Gate

Cattle will not cross this "gate" although it is always open. Photo Lincoln Electric Co.

To make this "gate" dig a hole approximately 8 feet wide, 6 feet across, reinforce all sides at top with 4 inch square concrete slabs, embedding ends of six 5-inch channels for cross supports.

Cut 13 lengths of 2 inch pipe and space 4 inches apart. Weld pipe each side to tops of channels using 3/16 inch rod for mild steel.

Controlling Blackleg Disease in Potatoes

Crop rotation and seed treatment are the two most important control measures for blackleg in potatoes, according to R. A. Schroeder of the University of Missouri.

Blackleg is an old potato disease caused by a bacteria that thrives in cool damp weather. If dipped in a good seed disinfectant, there will be little infection when the seed is planted on clean land.

Save Bees From an Insecticide Death

While the dusting and spraying of farm crops must be regulated upon approved practices for each individual crop, in general the use of DDT and other insecticides should be employed before blossoms appear. In general, by following this practice, it is possible to reduce the loss among bees to such a point that it is of no economic importance. Do not spray or use insecticides except upon a given method of procedure.

NEW DODGE

"SMOOTHEST CAR AFLOAT"

While You're Waiting...

We Give You

Double Protection

Protect Your Safety and Comfort

Protect Your Present Car Investment

From one end of the country to the other Dodge Dealers are now giving their friends and customers Double Protection.

This means that while new car production remains behind demand and schedule, every new Dodge buyer gets insured safety and comfort in the old car he is driving now.

It means that old engines, brakes, ignition, wheels and tires are carefully checked, adjusted and repaired so that there may be no risk—of either safety or comfort while waiting for the new car.

In addition to insured safety and comfort the Double Protection program gives your present car a higher value when your time comes to turn it in.

It stands to reason that if your old car is in good condition we can allow you more than if you permit its qualities to run down.

Bring in your old car today. Let us give it a complete inspection and adjustment. Then you'll know where you stand, you'll have peace of mind, you'll be money ahead.

THANK YOU

**When Your Back Hurts -
And Your Strength and Energy Is Below Par**

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.
You may suffer nagging backaches, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidney or bladder.
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won country-wide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

**Sportlight
by GRANTLAND RICE**

THERE is a pitcher we think is a trifle overlooked. We say that because all the ball players we've talked to lately rank him as the best in either league.

No—his name isn't Bob Feller or Spud Chandler or Tex Hughson. He is a wiry left-hander by the name of Harold Newhouser of the Tigers. Newhouser was the best pitcher in baseball in 1944 when he won 29 games. They threw that one out. A war year.

Newhouser was the best pitcher in baseball last season when he won 25 games and took over the World Series. They threw that one out, also. Another war year.

Wait until the big hitters come back, they said last spring—Ted Williams, Joe DiMaggio, Dom DiMaggio, Bobby Doerr, Bill Dickey, Charlie Keller, all these and many others. So what happens? Newhouser has been winning six times out of seven.

And Newhouser has been winning these games with a third-place ball club—a ball club that without Newhouser would be in fifth place. Newhouser was the best pitcher in baseball in 1944 and 1945. It is our prediction that he also will be the best pitcher in baseball in the current season of 1946.

It's Newhouser, 9 to 1

We decided to make a fuller check on Newhouser in his own league. We took a survey from 10 well-known veterans who know their way around. Nine gave us Newhouser, one gave us Bob Feller. I asked Bill Dickey what he thought about the matter. The Arkansas quail hunter gave us a slow smile. "I'm already in enough trouble," he said, "without getting into another argument. When I came back to baseball this spring, I heard that Newhouser was just another wartime pitcher.

"Our league happens to be well stocked with fine pitchers. I mean Chandler, Hughson, Ferris, Harris, Trucks, Kramer and a few more. But so far I haven't seen a better pitcher than Newhouser. You know how hard it is to win 20 games. Newhouser has won 54 in the last two years. It wouldn't surprise me to see him win 30 or more this year. "What has he got? About all it takes. A good fast ball. A good curve ball. Good control. A lot of confidence in himself. Determination to win. A good head. Plenty of heart."

Unless something disastrous happens suddenly, it is a pretty safe bet that Hal Newhouser will lead both leagues on the pitching side. It is also a pretty fair bet that he will pass the 25-game mark again and threaten the 30 spot, which few have ever reached.

Two 40-Game Winners

So far as so-called modern baseball goes the only 40-game winners I can recall at the moment happen to be Ed Walsh and Jack Chesbro. Among the 30-or-more game winners, we've had Matty, Johnson, Smokey Joe Wood, Dizzy Dean, Grover Alexander, Lefty Grove and possibly one or two others. Only Matty and Alexander have won 30 or more games three times, in the past 40 years. You can let us know if our memory is slipping.

Newhouser has yet to be a 30-game winner. But the willowy Tiger left-hander has the best chance to reach this mark for 1946. He comes so close to being the best pitcher in the game that someone else will need a spur to crowd him back before the stretch run ends in September.

Bob Feller, Spud Chandler and Tex Hughson are all great pitchers. Among the best. But all three will have to put on extra steam to crowd back Newhouser, who has been baseball's best pitcher for three years.

About the Two Leagues

Several querulous letters have come in since the all-star game asking what has happened to the veteran circuit.

"Why is it," one asked, "that the American league should come up with most of the top stars—such men as Ted Williams, Charlie Keller, Bob Feller, Newhouser, Chandler and so many others who apparently outclass most of the National league's best men?"

The sad facts—sad for the N. L.—are that the older league this season can match the younger circuit neither in stars, nor in average playing strength. The N. L. has no pitchers to rank with Feller, Newhouser, Chandler, Hughson and others. Outside of Johnny Mize it has no power hitters who can be classed with Williams, Greenberg, Keller, DiMaggio and several more. This was all known before.

"Nobody's hurt, Dad. It's just a new Betty Hutton record I got today!"

I TOLD YOU TO STOP BLOWING THOSE BUBBLES

This type of recreation is no afterthought in a democracy, it represents basic freedom. Fishing, hunting, boating, etc. are hard work when properly done, but there is no ball and chain attached. That's why Americans like to do these things; they constitute freedom in the true sense.

If we work forty-eight hours a week and sleep fifty-six, we still have sixty-four hours in which to relax. Can you think of any better way of spending some of this time than in being out in our forests or on our streams?

So any time you think that you're so important in the scheme of things that you do not have time to play a little, or pat the dog that comes to meet you, or watch the kids on the corner lot playing baseball, or take notice of the robin that is building a nest in the lilac bush, then it's time for you to do something about it. If nothing more, purchase a jack knife and sit in the corner and whistle, but Relax—You're Not So Darned Important!

present enlisted men and women will be eligible for the compensation, which the House was told would cost \$3,000,000,000.

Payments will be in cash to men whose benefits do not exceed \$50, to those discharged prior to January 1, 1943, and to the estate of those who have died since their discharge.

All others, will be paid in special bonds bearing 2½ percent interest annually and maturing five years after the date of discharge. For some men the maturity date will be 1948.

The bonds will be issued in denominations of \$25, with cash being paid for odd amounts. They will not be negotiable, but could be used for conversion of Government life insurance or for payment of loans on the insurance.

The legislation fixes a maximum of 60 days of furlough pay that may be accrued and paid for after next August 31.

The steps as listed by the treasury. war and navy departments:

1. Obtain from any post office a form entitled "claim for settlement, unused leave," and an accompanying instruction sheet.
2. Fill out this form. Help may be obtained at any of 3,000-odd veteran's community information or advisory centers, or at the office of any state or county veteran's service officer.
3. Swear to the statements made in the form before a notary public or the other authorized civil officer. Most community information or advisory centers will provide the service free.

COST OF LIVING UP 30%

ELECTRICITY DOWN 12%
Because of increased use, the average price per KWH paid by our customers is down 12% since 1939, and . . .

IT'S DOWN 22% BELOW THE NATIONAL AVERAGE

Yes, Reddy Kilowatt is still working for the same low wages he received before the war even though living costs have risen 30% since 1939, according to the U.S. Bureau of Labor Statistics.

Today Consumers Power Company is supplying electric service for home use at the lowest average price per unit since it started serving the people of Michigan over 60 years ago.

The average unit cost of residential electricity in Consumers Power Company territory is 12% below the average unit price in 1939 and 22% below the national average today.

Under Consumers low electric rates the more electricity you use, the lower the average price per unit. Today our residential customers are, on the average, getting 13.7% more electricity for their money than they did in 1939.

Certainly **ELECTRICITY, compared with other living costs, is the greatest bargain item in the family budget.**

For happier, better, carefree living switch to electrical living.
