

Corner Shelf and Colorful Cookie Box

USE ACTUAL-SIZE PATTERN TO CUT COOKIE BOX AND CORNER SHELF OF THIN WOOD

STENCIL PEASANT FIGURES AND LETTERING ON BOX

THERE is magic in the flowing curves of this bracket shelf. Place it at eye-level in a corner of a small room and you have a feeling that the corner has melted away and the walls pushed back to add space.

The shelf is ten inches deep and fifteen wide. It will hold a number of small things or you can make a wooden cookie box for it like the one shown here.

Pattern 266 gives an actual-size cutting guide and directions for making the corner bracket shelf, also directions and large diagrams for making the box and a stencil pattern for decorating it in these quaint cookie-eating Tyrolean figures. To get these three patterns in one, send 15c with name and address direct to:

Household Hints

When melting honey that has crystallized, be sure to loosen the jar lid before you put the jar into the hot water. Tightly closed jars may burst.

To prevent the rusting of needles, keep them in a small bottle.

To revive blanket nap after laundering, hang the blanket up over the shower rod or towel rack nearest the bath tub. Fill tub with hot water. Nap will fluff up.

Used orange nets make excellent dishcloths. When washed thoroughly, rinsed and dried, they are soft, absorbent and scour well.

Keep a record on paper of what happens when your child is sick. Such a record will be of great help to the doctor. On it write the child's temperature and the time it was taken, the number of times he vomited, and when body elimination took place.

Creaky stairs can be corrected simply by inserting a piece of rubber under the treads. If no rubber scrap is available make a wedge of soft wood and insert firmly with the hand.

After cleaning hair combs place them in a solution of one tablespoon of ammonia to one quart of water and they will look bright and clean.

Disaster fighters

Few Americans realize that the protection of thousands of lives and billions of dollars' worth of property rests in the hands of the peacetime Regular Army.

Army Engineers are constantly at work along our great rivers, building dams and levees, dredging channels and using the latest scientific methods to control flood waters. And when the rivers burst their bonds, those same Engineers are ready to battle night and day, raising sandbag barriers and rescuing flood victims.

Many of the nation's finest young men are joining the Regular Army, knowing that they will have an opportunity to work with the most modern equipment and do a constructive job, of utmost value to their country.

PAUL FOUNDS THE CHURCH AT PHILIPPI

LESSON TEXT — Acts 16:11-15; Philipians 2:5-11.
MEMORY SELECTION — I can do all things through Christ which strengtheneth me.—Philipians 4:13.

Missionary zeal keeps a Christian in action for God. After a time at the church in Antioch, the urge to preach the gospel sent Paul out on his second missionary journey. This time his partner was Silas, because he and Barnabas had separated over taking Mark along, since he had turned back in the midst of the first missionary journey. Timothy took his place (Acts 16:1-5).

Our lesson is of unusual import because it tells us how the gospel first came to Europe, from whence it later came to America. Paul's efforts to continue his ministry in Asia were hindered by the Holy Spirit (Acts 16:6, 7). It was then that he was given a heaven-sent vision of a man in Macedonia crying for help. At once the party set out to obey the leading of the Holy Spirit (Acts 16:9, 10).

I. Paul's Ministry to the Philipians (Acts 16:11-15).
Philippi was an important city, a Roman colony and outpost. Apparently the Jews who had come there to live had not felt any strong desire for religious fellowship, for they had built no synagogue. Certain godly women met on the Sabbath by the riverside for prayer. Here was Paul's opportunity and he took it.

The story of the conversion of Lydia has many elements of special interest. It presents the turning point in the progress of the gospel, which by the grace and leading of God brought it northward to Europe rather than southward into Africa or eastward through Asia. Many of us have heard because of the way Paul was led, and one wonders if Europe and America might not otherwise have been the "dark continents" rather than Africa and India. We are what we are by the grace of God. He sent us the gospel through Paul that day at Philippi.

Then we note that the first convert was a woman. She was not the last woman to give an attentive ear and a believing heart to the gospel message. The church through all its history has been blessed by the readiness of women to bear and heed the gospel.

We like to note that Lydia set a pattern of hospitality and service which her sisters in the church have maintained (see v. 15). She "constrained" the visiting preachers to enjoy the comforts of her home, and thus put forward the work of Christ (see III John 5-8).

It is encouraging to observe how perfectly the leading of the Holy Spirit worked out in the experience of Paul and his brethren. The Lord sent his prepared messenger to the place where there was a prepared heart waiting to receive the Word.

We may confidently go on the errands of our God, knowing that when he leads he goes before and prepares the way. That does not mean that there will be no trials and difficulties. Paul had plenty of them (see II Cor. 11:23-33). But it does mean that we may go with the assurance of blessed results, in his name, and with the grace to bear whatever comes along the way for his glory.

The second Scripture portion of our lesson is not related to the first except that it gives a portion of the letter which Paul, by the inspiration of the Holy Spirit, wrote to the church which he had helped to establish at Philippi about 12 years later.

II. Paul's Message to the Philipians (Phil. 2:5-11).
Although after Lydia's conversion Paul met opposition and suffered imprisonment (Acts 16:16-40), that was only the beginning of a blessed ministry there.

The church at Philippi though poor and persecuted was loyal and warmhearted. They sent a generous gift to Paul, who was in prison in Rome. He wrote to thank them, and his letter became a real hymn of joy and assurance. It discusses Christian experience, its principle, pattern, purpose and power.

Chapter 2 presents the mind of Christ as the pattern of true Christian living. Nothing is to be done for vain glory (v. 3), but in the spirit of Christ, who willingly gave up his glory with the Father that he might become our Saviour. It has well been said that if he had not done so, we should have been amazed at his glory, but we should never have been saved.

He who might have "grasped" (v. 6, R. V.) his equality with God, laid it aside that as a man he might die for the salvation of lost mankind (v. 8).

Little wonder that God has given him such a high and exalted position (vv. 9-11). One day every tongue shall confess that he is Lord. Hasten the day!

"UNCLE SAM" WINS FIRST PRIZE AT HALLOWE'EN SHOW

Nonchalantly chewing pop corn, with his chin whiskers bobbing up and down "Uncle Sam" stole the hearts of the audience and captured the \$5.00 prize Thursday night before the regular show. He is the little son of Mr. and Mrs. Reginald Caton. Aunt Jimima of pancake fame, deservedly took the prize for the most comical costume. Wonder why she stood up all the time? Bill Clement won the prize for the best stunt by his good singing. A bathing "beauty" attracted much attention and a little tramp, (probably on his way south?) was seen with his worldly possessions swinging from a stick thrust over his shoulder. Bewitching brides, old witches, ghosts and black folks were seen along with many others in various costumes. It was quite a parade! The board of commerce wishes to thank the children for their participation and hope to make this Halloween party an annual affair.

Bring back the good old days by enjoying the Legion Armistice Dance Monday night, November 11th, Community Building, East Tawas.

The Hale P. T. A. is sponsoring a party at the Community building on Saturday night, November 16. Come and help make this a success. A delicious lunch is being planned.

Peanuts weren't so easily stabbed with a needle, were they, Mr. Greve?

Tomorrow you'll be glad you waited today...

Waiting for a new motor car isn't exactly the easiest or most pleasant experience in the world. But the saying about patience having its own reward holds doubly true when your patience is rewarded by delivery of a gleaming, new Pontiac "Silver Streak".

Up to now Pontiac production has been limited for reasons beyond our control. Now production is increasing. As of today, it's still below anticipations. But the trend is definitely encouraging. Which means that your wait is being shortened every day.

And when you do become the proud owner of a new Pontiac, you'll be mighty glad you waited—and your feeling of gladness will grow with every passing month and mile. Because in every way, the new Pontiac measures up to the phrase, "Finest of the Famous Silver Streaks". In dependability and economy it lives up to its great war-won reputation. It looks, handles, rides and feels like the quality car it is. It's a value that will endure over the years—something well worth waiting for!

PRESERVE AND PROTECT YOUR PRESENT CAR

Until you are definitely assured of a new automobile, keep your present car in a safe, satisfactory condition. While we are prepared to service all makes of cars, we are PONTIAC SPECIALISTS—employing factory-trained mechanics and using highest quality parts. GRANTLAND RICE

IT IS my belief that after 1946, Army and Navy will fade out of the football picture, as far as winners are concerned.

Sure, they had all the best of it in 1944 and 1945. But 1946 will be different, as Navy already has found out and Army is finding out.

It must be admitted that Army and Navy had the breaks in the two war years of 1944 and 1945. But when the war ended, it was a new story. After 1946 every one knows Army and Navy won't have a chance against the inducements offered all over the map. Army and Navy can't match these lures.

Grantland Rice

By inducements I mean something more than scholarships. I mean direct pay, which may range from \$5,000 to \$10,000 a season, more or less. This is important to the poorer kids who seem to make the better football players.

Star football players no longer are going to schools where there is strict discipline and no financial help. They are an integral part of the United States—the cash comes first.

This applies to both coaches and players. Unfortunately, the world-wrecking war also tore a heavy gash into sportsmanship, the old idea of a "fair field and no favor, may the best man win."

Sportsmanship is now a word you find in the dictionary.

Football's Top Target

When you've piled up a long string of consecutive victories over a period of two and a half seasons, you know what you are in football.

You are the top target of the year, the one they all want to knock over, especially the one who will get there first with the blackjack or the club.

Week after week, they were all after Army. First it was Villanova, then Oklahoma, Cornell and Michigan. Then came Columbia, Duke, West Virginia and the crucial test with Notre Dame. Pennsylvania and the Navy clash will end the fray.

Most of the others run two, three and four deep. Army runs less than two deep. Notre Dame runs deeper than all the others, three and four deep.

But they still can play only 11 men at a time. This is something of a fallacy in this modern game, where they wear out quicker than they ever did in the old days. Maybe the pace is faster. Maybe they are not as rugged as they used to be. Who knows?

Army's Red Blaik, a fine coach and an old friend from many years, never thought he could go through this 1946 schedule unbeaten.

The Way of the Mob

(To Ted Williams, Joe DiMaggio and Eddie Arcaro)

All you who get the cheering And the plaudits from the mob, Who shrink because they bawl you Out upon some off-day job, Who scowl because they call you names

That no one likes to hear, Who keep the welkin ringing from The hoarse hoot to the cheer, Who build you up and knock you down,

From here to kingdom come, Remember as the game goes on— They never boo a bum.

I've heard them hiss Hans Wagner And I've heard them snarl at Cobb, I've heard them holler "Take him out."

With Matty on the job, I've heard them curse when Ruth struck out—

Or Speaker missed a play. For 40 years I've heard them ride The heroes of their day.

I've heard their roaring welcome Switch to something worse than hum, But Eddie, Ted and Joe, get this— They never boo a bum.

Ted Williams could never hit his earlier stride after Labor Day. A good point was made in suggesting that Ted was letting too many near strikes—balls an inch or so away from the plate—slide by through his unerring judgment of balls and strikes.

This could be true since it is difficult to get your swing moving in the split fraction of a second needed in following a pitch that far.

Ted is a great swinger, but even the greatest need a little more time to get the bat under way with full power back of the motion. A pitch two inches off the plate is just as easy to hit as one over the corner.

But any way you look at it, Williams dropped a bundle of prestige since the slump overtook him back in early September. It carried right on to the end of the season, and the world series. The boos sounded particularly bitter in his ears, it is reported. Well, that's the way in sports—and in life.
