## Elks Defeat Indians in Fast 51 to 47 Game

### Tawas City Team Plays at Oscoda This Friday Night

What a game! The Tawas City Elks fought off a determined East Tawas Indians team Friday night and came out on the long end of a 51 to 47 score. The local fans, about 600 in all, which crammed into the local auditorium witnessed a battle between two teams that were really hot, not only in their baskets and defense work, but hot under the collar at times. But what player wouldn't be with all the old Tawas rivalry showing up for the game.

The Tawas City teams again made it a clean sweep over East Tawas when the Reserves won 29 to 27 and the girls winning 26 to 15. This was the second time this year they accomplished the feat.

The Elks again came from behind, after the half, which has become quite a habit for the locals to do in the last few games, to wipe away the slim margin held by the Indians in the first two quarters. The big second quarter, though, was the wonder of wonders, when six or seven straight baskets were converted by these two teams in the matter of seconds. No sooner than one team would pop one, the other would race down the floor, and swish, another basket.

Right about this time the fans were starting to grope for nerve tablets and edge just a little closer to the edge of their seats. In the last quarter things really started to pop, and the two officials, Kigar and Schulz from Gladwin had a rough time keeping the game in hand. The Elks saw their small lead go up in smoke, the last three minutes were about as exciting for the fans, who about this time were breathing heavily down their neighbors' collar, when three members of the two teams left the court on technical or personal fouls. The last 20 seconds found the East Tawas Indians with only four men on the floor. In the confusion that followed the final bell rang and brought down the curtain on another rip snorting game between the towns.

The game was marked however, by the poor sportsmanship displayed by some of the fans. It is natural for a player to lose his temper once in a while, but this annual meeting between the two teams can be destroyed by the fans who sit along the sidelines. They do not have any actual part in the game, but their actions do affect the players' attitude during the game.

In the first quarter for the Elks, Myles and McGuire connected on a field goal apiece. Westcott and Look, each a foul shot.

The Indians took a five point lead when Spencer and Tate each connected for field goals, Mandock popped in two one handers, Miller converted two free throws and Ludwig a free throw. First quarter score Indians 11, Elks 6.

In the second quarter, Myles sunk a field goal, McGuire two field goals and Westcott five field goals and three foul shots.

For the Indians: Mandock, four field goals; Erickson, 2; Miller and Tate, each one; Ludwig, two foul shots. Halftime score: East Tawas 29, Tawas City 25.

In the third quarter the Elks' Westcott, Look and Gracik connected for two field goals apiece, Brown and Myles each a field goal and a foul shot.

Spencer and Mandock each dropped in a field goal and a free throw and Miller two free throws. Third quarter score: Elks, 43, Indians 37.

In the hectic last quarter, the Tawas lads were outscored by East Tawas 10 to 8, but held on to their slim lead. McGuire sunk two foul shots, Westcott two field goals and a foul shot, Brown a foul shot.

For the Indians: Miller sunk three field goals and two foul shots and Bolen tipped in one field goal.

The reserve squad had a thriller when in the last few seconds the Tawas lads dropped in a field goal to break up a tie ball game 27 to 29. After trailing East Tawas 17 to 8 at the half, the Reserves from Tawas City whipped in ten points in the third quarter while holding East Tawas to seven. This was still not enough and the Tawas lads trailed 24 to 18, but in the last quarter they racked in 11 more points while the East Tawas team cooled off with three.

High point man was Gingerich, with 16, Bronson, who also played a whale of a game with six, Ed. Wells who sunk the tie breaking shot in the last few seconds with four, Norm Westcott with three, Clark led the East Tawas team with 18 markers.

### Former East Tawas Girls Win Honors

Miss Helen Boice of Ann Arbor won the coveted prize for High School girls when she was selected for the leading role in the operetta given by Ann Arbor Eastern High every other year. Helen will be leading Soprano in the operetta to be given this spring. She is a Junior at Ann Arbor Eastern High. Miss Carolyn Boice won second prize in the essay contest for all Junior High students of Ann Arbor Schools. Her prize was an award of twenty-five dollars.

They are the daughters of Mr. and Mrs. Harmon E. Boice, formerly of East Tawas.

### 4-H Council Will Meet Monday at Hale

The Isoco County 4-H Council Association will meet Monday, February 14, at the Hale High School at 8:00 p. m.

Special Business—Board of Directors meet for election of officers and appointment of committees. Two vacancies on the board must be filled (two previous attempts to elect officers failed, lacked quorum.)

What shall we do to observe National 4-H Club Week? When shall we hold Achievement Day? Where? What projects shall we promote? What shall we have for goals? You have problems and ideas—we need your help.

If you are interested in 4-H club work, you are eligible to membership—no dues. Make it a point to attend. Bring your friends. Remember the date and place. Monday, February 14, 8:00 p. m. at the Hale High School.

### Frank E. Humphrey

Funeral services were held Thursday afternoon at the Moffatt Funeral Home in East Tawas for Frank E. Humphrey, long-time resident of Hale, who died at his home early last Tuesday following a heart attack. He had been ill only two days. Humphrey, who was born in Lockport, N. Y., August 1, 1880, was a farmer and carpenter.

Surviving are his widow, Mary; a brother, Fred, Hale; and two sisters, Mrs. Priscilla Salisbury, Hale and Mrs. Alice Johnson of Flint.

Mr. and Mrs. Fred Misener and baby visited in Chicago a few days this week. Mr. Misener attended to business affairs.

## Merchandising Course Starts February 17

### Program Sponsored By Tawas Chamber of Commerce

The Retail training program offered by the Central Michigan College Division of Field Service will begin under the sponsorship of the Tawas Chamber of Commerce at 7:30 February 17 at the Tawas Chamber of Commerce Building.

HOWARD R. SOMMER

The program will be under the direction of Howard R. Sommer, of the College Division of Field Service. The program is worked out and made possible through the Chamber of Commerce, the Michigan Retailers Association, local schools, the State office for Vocational Education, and Central Michigan college.

Chief purpose of the program is to aid Retailers in the operation of their business and to train sales personnel. Generally, the first two weeks of the program is devoted to the problems of management, and then it is opened up to other areas which involve the training of sales personnel.

### Frozen Food Demonstration Monday

A Frozen Food Demonstration by the International Harvester Company, will be held Monday, Feb. 14 at the Gingerich Feed and Implement Company in Tawas City. The demonstration begins at 2:00 o'clock and will be conducted by Josephine Stone, International Harvester Home Economist. A cordial invitation is extended by Rudy Gingerich of the Gingerich Feed and Implement Company to everyone to attend.

The next visit of T. J. Kennelly, Veterans Administration Contact Representative to Tawas City will be: Tuesday, February 15th, from 10:00 A. M. to 1:30 P. M. at the Court house, School Commissioner's office.

## Enjoy Reading About Old Time Activities

Several weeks ago an item appeared in the "Looking Backward" column concerning Sewell Avery and Ben McCausland when they were active at the United States Gypsum plant at Alabaster 50 years ago.

The item was clipped out by Nathan Barkman and sent to Mr. Avery at Chicago, and Mr. Avery responded as follows:

December 1, 1948  
Mr. Nathan Barkman  
East Tawas, Michigan  
Dear Mr. Barkman:

I have read with a great deal of interest your letters and the clipping you so kindly sent and sent them along to Ben McCausland in Cleveland.

Ben says the clipping must refer to his Uncle Ben since he is sure he would remember the trip. He did get a great deal of enjoyment out of reading of his many old friends.

It was a pleasure hearing from you and we both thank you for your thoughtfulness.

With every good wish, I am,  
Sincerely yours,  
Sewell Avery.

## Military Rites Given World War II Veteran

### Services for Sergeant Charles Follette Held Tuesday at Hale

A military funeral for T-Sgt. Charles T. Follette, Isoco county boy killed May 16, 1945, by a Japanese sniper at Luzon, was held Tuesday afternoon from the Methodist church at Hale.

The military rites were given under the auspices of Glenn Staley Post, American Legion, of Hale. Rev. Roland Brooks officiated.

Born February 25, 1916, at Hale, he was the son of the late Mr. and Mrs. E. B. Follette, prominent Plainfield township residents. He is survived by four brothers, John and Lyle of Detroit, Edwin of Rochester and Gilbert of Hale, and a sister, Mrs. Luella Wandrie of Detroit.

Sgt. Follette served in the 32nd Division and was one of Isoco county's 30 young men who died in action in the service of their country during World War II.

### Alterations Being Made at D. & M. Station

Extensive alteration are being made at the Detroit & Mackinac Railway station here. The baggage room and the dispatchers office are being converted into three new office rooms.

Mr. and Mrs. Russell McKenzie and children were visitors in Detroit last week-end.

### Bolen-Bell

At a ceremony solemnized Saturday morning at ten o'clock Patricia Ann Bolen, daughter of Mr. and Mrs. Harry F. Bolen of Alabaster, became the bride of Fred Bell of Lansing, son of Mr. and Mrs. Fred Bell of Turner.

The couple repeated their vows in the rectory of St. Joseph Church, with Rev. Smith officiating.

The bride wore a navy blue gabardine suit with navy accessories. Her corsage was of pink camellias. Jane Bolen, as her sister's maid of honor, wore a gray suit with black accessories and a corsage of pink gardenias.

Arden Bell of Turner was his brother's best man.

Mrs. Bolen wore a royal blue dress for her daughter's wedding. Her accessories were black and her corsage was of pink and white roses. Mrs. Bell wore a green gabardine suit with black accessories, and her corsage was of yellow roses.

A wedding dinner for thirty relatives and friends was served at the home of Mrs. Eva Proulx of AuGres. The bride's table decorated with pink gladioli was centered with a three tier wedding cake with a miniature bride and groom.

Following the dinner the young couple left for a short wedding trip. On their return they will live in Lansing where the groom attends Michigan State College.

### Mrs. Edward Loudeau

Mrs. Edward Loudeau, former resident of Tawas township, widow of one of Isoco county's well known farmers, died January 9 at Detroit. The funeral was held January 12 from the Wilkes Funeral home and interment was in Grandlawn Cemetery.

Gertrude Laidlaw was born April 23, 1875, at Tawas City and became the bride of Edward Loudeau on May 4, 1894. They moved to Detroit in 1923 where Mr. Loudeau preceded her in death in 1936.

She is survived by two sons, Stephen of Atlanta, Georgia, and Edward of Detroit; three daughters, Mrs. Mable Hilton, Mrs. Marie Queen and Mrs. Grace Tober, all of Detroit; nine grandchildren; eight great-grandchildren; three sisters, Mrs. Frank Long of Grant township, Mrs. Mildred Grant of Oregon and Mrs. Pearl Coon of Granton, Wisconsin, and one brother, W. E. Laidlaw of Tawas township, and a host of friends and other relatives.

### Dubovsky-Moore

Miss Agnes Dubovsky, daughter of Mr. and Mrs. Louis Dubovsky, of East Tawas and Julius Moore of Detroit were married Saturday morning at the St. Joseph's rectory. Rev. Robert Smith officiated at the double ring service and they were attended by Mr. and Mrs. James Burns of Williamston.

A family dinner was held following the ceremony at the home of the bride's parents. The young couple will make their home in Detroit.

## Indies Lose to West Branch

### AuGres Plays Local Team Here Tonight

The local Independent team suffered a 57 to 30 loss at the hands of the powerful West Branch Producers team at West Branch last Saturday night. They were without the services of center, Jim Dubovsky and forward, Herb Blust, who usually furnish the height and control the re-bounds for Tawas City.

The tall-experienced Producer team made short work of the locals and ran up a commanding lead which they held through-out the fracas. Janish, center for the oilmen, meshed nine field goals and one foul shot for 19 points. Davis, lanky teammate, pushed in eight field goals for 16 points. Musolf led in the scoring for Tawas with seven field goals and a foul shot for 15 points.

Included in the Tawas line-up Saturday were: D. Landon, W. Thornton, D. Gingerich, W. Musolf, J. Rollin, E. Metz, J. King and M. Debaugh.

In the second game of the evening, Alabaster Indies defeated the West Branch Vets, 43 to 37. High point man for Alabaster was Gordon Tate, with 21 markers.

Tonight the Tawas City Independents will go up against AuGres for the second time this season, at the local gymnasium. In a previous game the locals nosed out the Arenac team 57 to 50. For some exciting moments and good basketball, drop over to the Tawas City gym at 8:00.

Paul M. Ellifritz, manager of the Bay City office of the Social Security Administration will not be in East Tawas on his usual monthly visit in February. His next visit is scheduled for Wednesday, March 16.

## Large Number Enjoy Winter Carnival

### Silver Valley Queen To Compete for Michigan Winter Queen

Highlighting Silver Valley activities for the season was the annual Winter Sports Carnival which was held Friday, Saturday and Sunday. Ideal weather drew thousands of winter sports fans here from all sections of Michigan to enjoy the skiing, tobogganing and skating at Silver Valley. Capacity house attendance participated in the Coronation ceremonies, banquet and ball held Saturday evening.

At the regular meeting Wednesday evening, the board of directors of the Tawas Chamber of Commerce voted a resolution of thanks and congratulated Stanley Humphrey, general chairman, and the members and subchairmen of the several committees for the excellent winter sports carnival put on this season. The project required a large amount of work, but the results obtained were worth it, because a large number of people were brought here to enjoy Silver Valley and learn of our many other recreational advantages.

The publicity which this county received through the event not only covered the large cities of lower Michigan, but extended throughout the middle west. A resolution thanking and congratulating the Silver Valley committee was also unanimously adopted Monday evening by the Tawas City council. Many visitors here during the carnival have been participating in events at Silver Valley for years.

### Leader Training Meet Tuesday at Whittemore

The second winter leader training meeting will be held Tuesday, February 15 at the Whittemore High School. The general meeting will begin at 4:00 p. m. at which Ruth DeRosa and Kenneth Ousterhout will discuss achievement day and the summer program. Ruth will give instructions on home economics and Ken will take over the handicraft.

Ruth says: "Clothing leaders come prepared for a workshop. Bring at least 1/4 yard of material to work on. (It does not have to be new). Sewing tools—scissors, tape measure, thread, needles, pins, thimble. Also bring a zipper and a button. Bring your problems come anyway. We'll make one for you.

Handicraft leaders: Ken will bring his own props. You will want to discuss standardization of materials and requirements.

There will be instructions on making up demonstrations. Slides and recordings of a Michigan 4-H demonstration will be presented.

Let me suggest that you contact leaders in your locality and make up a car load. I can take five or six. Call me if you want a ride.

Lunch will be served in the Home Economics Room. The Whittemore Wizzards are hostesses.

### Health Unit Meets With Legislators

At a special meeting held in Tawas City, Saturday, February 5, the Health Council of Unit 2 met with Representatives McKay and Deadman and Senator Prescott.

This meeting was called for the purpose of discussing a bill which will be introduced in the Legislature within a few days providing increased State aid to Health Departments throughout the State.

The proportion of State Aid as compared to funds from local sources is greatly out of line.

Michigan is second of all states in amount of money from local sources for Public Work—Yet, it is thirty-seventh in State aid received.

A resolution unanimously supporting the measure was passed by the Board of Supervisors of each county, at the January session.

The Health Council which is composed of three supervisors from each county is requesting our Legislators in Lansing to support such a measure.

### Firemen Sponsor Hospital Benefit Ball

The Tawas City Fire Department are sponsoring a Fireman's Ball for Saturday evening, February 26. The ball will be held at the Tawas City gymnasium and the proceeds will go to the Tawas Hospital Fund. The Melody Boys of Saginaw will furnish the music for modern and old time dancing. Walt Anshuetz and Ray Beaubien will be callers for the square dancing.

### Reappointed to Reemployment Board

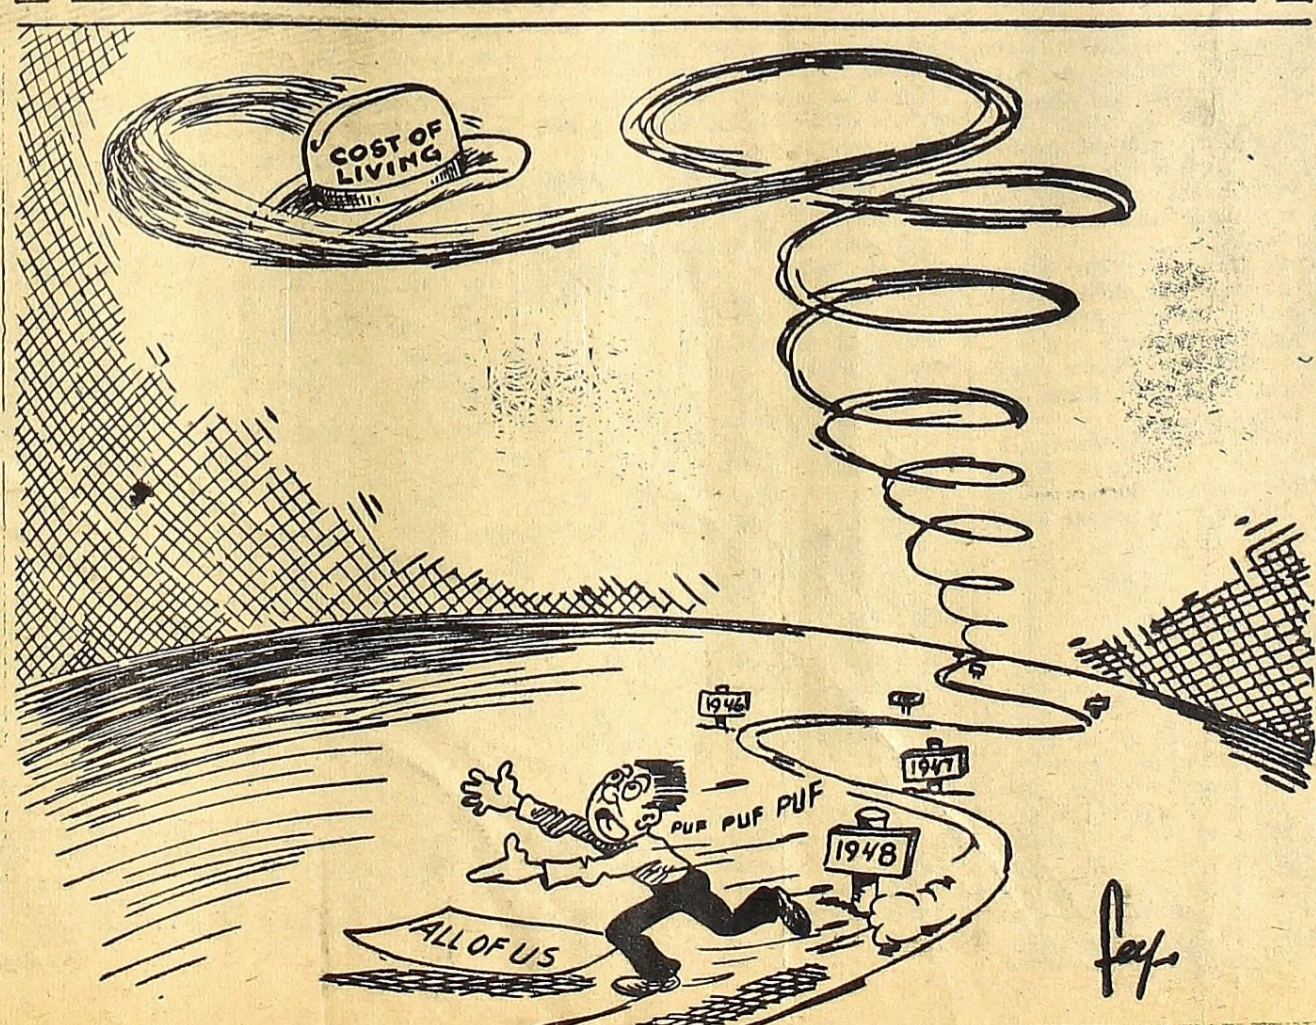

Secretary of Labor Maurice J. Tobin today announced the appointment of H. Read Smith of Tawas City as a volunteer Veteran's Reemployment Rights Committeeman with the Bureau of Veteran's Reemployment Rights under the Selective Service Act of 1948.

Mr. Smith will continue to serve veterans of World War II who are seeking their re-employment rights under the Act of 1940. Commenting on this appointment Secretary Tobin paid high tribute to the thousands of volunteer committeemen throughout the country who have been of inestimable assistance to returning servicemen in securing their proper restoration to their former positions.

### Women's Rural Study Club

The Rural Study Club met at the home of Mrs. Irene Lorenz, club president, Wednesday, February 2. A delicious lunch was served at noon by Club hostesses, Mrs. Lorenz, Mrs. Lida Nelkie and Mrs. Louise McArdle. The program was in charge of Mrs. Mildred Vervoort. The origin of the Valentine was given and valentines of fifty years ago, twenty five and now, were shown. A valentine box was opened and each member received one. The penny art fund, and the March of Dimes were contributed to. The next meeting will be held at Mrs. Bernice Herriman's and election of officers will take place.

## Is It Finally Coming Down?

**THOSE INVENTIVE RUSSIANS**

Pravda claims Russia flew an airplane 21 years before the Wright brothers' Kitty Hawk flight. And Prof. V. Danilevsky tells the Soviet Academy of Science that the Russians invented the telephone, the electric light, the radio, the ship's propeller and jet propulsion. That leaves us with nothing but the zipper and the windshield wiper.

We took these claims up with Dr. Elmer Twitchell and he says they are correct. "It was Russia that gave the world the submarine, the telegraph instrument, the moving picture camera, gunpowder, the talking machine, the safety razor the electric ice-box and the first radio commercial, he declared. "I thought everybody knew!"

"We owe the automobile to Moscow, too," Elmer went on. "Henry Ford was really a Russian named Ivan Flivvercoffski. He got the idea of a low-cost car from Igor Model-teevich. Thomas Edison went to Russia as a spy and stole the secret of the electric light, the phonograph and the movie camera from a fur trader named Menlo Parkovich. Tom got into a meeting of engineers where no Russian was eligible unless he had perfected an incandescent bulb and two types of movie cameras. He escaped discovery due to the fact he wore a red beard and would yield the floor to nobody.

"As for the radio, Lenin's grandfather had his own network, and one of the early radio radio features was a fellow called Arthuromov God-freydovitch. They also had a team called Amosoff and Andy-zoff and Ella Fitzgerald says the Russians had the first jack-pot program. It was called 'Stop the Mujik'."

Russia not only invented the telegraph but the first singing telegram was sent by one Boris Kolo-novopopoff of the Imperial Russian Opera. What we call the Morse code is Russian. The dots come from the old, old Russia and the dashes from the old, old, old, old Russia.

"As for the radio, Lenin's grandfather had his own network, and one of the early radio radio features was a fellow called Arthuromov God-freydovitch. They also had a team called Amosoff and Andy-zoff and Ella Fitzgerald says the Russians had the first jack-pot program. It was called 'Stop the Mujik'."

Dr. Twitchell went on to say that his father remembered the time the Russians invented and flew the first airplane. "It was invented by one of the early Marxists and was propelled by explosives. It had no wings. Marxists hated wings because of the suggestion of religion. They just used a tail, a forked one," he said.

"My old man said the Russians couldn't get their first Russian plane off the ground at first, but that a couple of pro-Soviet writers did it with an editorial. The plane stayed up only a few minutes. It could have stayed up longer except that the inventor and operator wanted to get down and denounce somebody," Elmer concluded.

**WASHINGTON DIAGNOSIS**  
The country is in splendid shape  
God is the Union's state;  
Our system is a booming one—  
So let us operate!

No other system touches ours  
It's busy, strong and fit —  
Hence it is quite apparent that  
There's something wrong  
with it.

There was terrific irony in the last stage appearance of Willie Howard. It was only recently, in the tryout of a new musical. His big sketch was on the topic of hospital routines and he made his entrance on an operating table! No one dreamed that he was to die in one very soon. We saw the first performance of the new show, which was pretty terrible at that time, and were puzzled by Willie's lack of form. There was a marked difference in his appearance, too, and for the first time in our experience wasn't funny. Little did anybody in the audience sense that Death was teaming up with him this time, a new and strange partner after long years of merry going.

The Pilgrims were a backward lot,  
They seemed to slave and  
drudge it;  
They fought the Indians without  
a billion dollar budget.

The early settlers were quite  
quaint —  
When Redmen came full swing,  
They didn't cry for guarantees  
Against that sort of thing.

The Tories are calling the Presi-  
dent Harry Delano Trusvelt.

**WEEKLY NEWS ANALYSIS**  
**Landlords Rebel Over Rent Curbs;**  
**Russians Set up Anti-ERP Program;**  
**Israel, Egypt Sign End to Fighting**

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

**REBELLION:**  
**Among Landlords**

Chest out, muscles flexed, truculent of attitude, members of the American Property Owners association in 20 cities threatened wholesale eviction of tenants in protest against rental control bills now in congress.

AN OFFICIAL of the organization, composed chiefly of owners of small property, said in Tulsa, Okla., 600 to 1,000 eviction notices would be mailed to Tulsa tenants advising them to vacate within 60 days. Similar action, he said, was expected in Chicago, Houston, Kansas City, Detroit, St. Louis, Fort Wayne, Grand Rapids, Danville, Ill., and other cities.

The eviction notices affected rent-controlled housing and included houses and apartments. Business units are not under rent control.

SPEAR-HEADING the Tulsa movement was a retired Baptist minister, the Rev. Wallace J. Murphy, executive-secretary of the 200-member Tulsa property owners organization, and an honorary president of the national association.

The Rev. Murphy termed two rent control bills now before congress "intolerable," and said, "we refuse to operate so long as rental controls are on." Owner of considerable property in Tulsa, the retired clergyman asserted, "we don't intend to serve under slavery which would take away the right to control our property. It is not enough that we must rent our property at a loss—now they want to fine us and put us in jail."

Landlords appeared mainly incensed because pending rent curb measures would be giving the federal housing expediter right to control evictions, extend rent control periods, provide triple damages for overcharges on rent, and permit fines up to \$5,000 and a year in jail for convicted violators.

OBSERVERS WONDERED IF landlords weren't letting their wrath becloud their judgment. For, under existing law, which doesn't expire until late March, landlords are prohibited from doing exactly what the Rev. Murphy and his associates plan to do.

The Tulsa incident was merely fuel to the flame of belief that if rent curbs are not maintained, the question of housing for those who cannot afford to buy homes would become even more difficult than it is at present.

**RUSSIANS:**  
**Coming to Tow?**

Messers Joe Stalin and the polit-buro, so long and so vocally derisive of everything the western world has or offers, were subconsciously paying that world the sincerest form of flattery—imitation.

The Russians had come forth with their own version of ERP, alphabetical symbol of the Marshall plan for aid to Europe.

AS THE EAST'S answer to the European recovery plan, Russia had organized the economic council of mutual assistance for cooperation with five of her neighbors, Bulgaria, Czechoslovakia, Hungary, Poland and Romania.

The purpose, as outlined from Moscow, was "the exchange of experience in the economic field, the rendering of technical assistance to each other, and the rendering of mutual assistance in regard to raw materials, foodstuffs, equipment, etc." Russia, with her vast resources, obviously was to be the key nation in the council.

The Kremlin held the door open to other nations. The announcement said, "other countries of Europe that share the principles of the council and wish to participate in broad economic cooperation with the aforementioned countries," may join.

THAT MOSCOW was considering the Marshall plan when its six-nation council was formed was evident in a Russian charge that the ERP interfered with the sovereignty of nations, and that the U. S., Britain, and "certain other countries of western Europe" were boycotting the six nations in trade.

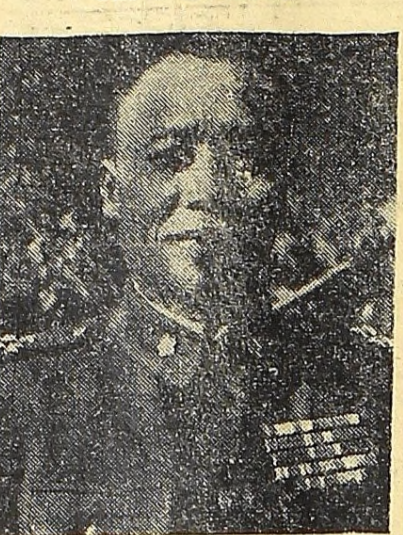

The Russian action may prove to be the vital error in the Soviets' program of expansion. If the system fails to function, it will serve only to spotlight the efficacy of the Marshall plan and the superiority of the western nations in equipment and ability to keep European commitments.

**HURRY-UP MEASURE**  
**Priority Ordered for Rent Curb Bill**

Speed was of the essence. Rent controls had to be safeguarded swiftly. So, into the senate hopper fell an administration bill calling for broader and tougher rent controls for another two years.

The bill, authorized by Senator Maybank, (D., S. C.) and, in the house by Representative Spence (D., Ky.) would continue controls through March 31, 1951, and would

**New Leader**

Li Tsing-Jen, China's nationalist vice-president was holding the reins of organized government following Generalissimo Chiang Kai-shek's departure from Nanking to clear the way for a Communist-directed peace.

**PEACE DOVE:**  
**Hovers in East**

Hovering wings of the dove of peace were becoming faintly audible in the Holy Land dispute.

Israel and Egypt signed a permanent cease-fire order and armistice talks were still going on after recent difficulties.

THERE WERE even more significant developments looking toward final peace in the long controversy stemming from the partition of the Holy Land to make the area available as a place of settlement and nationalization of Jews.

Great Britain had capitulated, and with the British lion on its side, the new nation of Israel had the two most powerful nations in the world committed to its support.

Other nations were falling in line to recognize the Jewish state. Indications were that with the trend apparently fully in motion, Arab opponents to the Israeli state would soon be standing completely alone in their opposition.

SHOULD THAT condition eventuate, Israeli seemingly would have nothing to fear, inasmuch as its armies already have proven a match for Arab forces.

Bible students and others religiously inclined would be quick to see in the developments the beginning of fulfillment of the old prophecy that the Holy Land would one day be returned to the Jews, that they would one day become a nation again, with their own flag, their own land, their own government.

**SURPLUSES:**  
**Curbs Are Sought**

Fearful of large surpluses of wheat and cotton, the government was studying moves to prevent this contingency.

Secretary of Agriculture Charles Brannan outlined to a senate agriculture committee plans to hold down this year's cotton and wheat crops.

Brannan's plan called for serving notice on wheat and cotton farmers that the 1949 crops they plant will not be considered part of their average production in figuring any future acreage allotments. This means growers could plant fewer acres without being penalized later by proportionate acreage curbs on their crops.

Under present law, if acreage controls are renewed, the average acreage planted by a farmer in the five previous years is the amount he is entitled to plant.

Many officials felt that might induce many farmers to plant as much as they can in order to have the maximum possible acreage when and if controls are clamped on.

Brannan's plan, assuring the farmer of no restrictive penalties through curtailment of acreage, was seen as a possible curb on any excessive planting.

About as large a winter wheat crop as possible already has been planted and a committee member declared cotton farmers are preparing to plant an "extra large crop" to get benefit of present high support prices.

Chairman Elmer Thomas (D., Okla.) of the committee which heard Brannan, said legislation to back up Brannan's proposal would be offered in congress.

give the federal housing expediter powers he does not have now. These would include authority to re-impose rent ceilings on previously-decontrolled areas and on other specified types of living quarters. Restored also would be right to control evictions, to sue for triple damages following overcharges, and to take criminal action against willful violators.

**JACKSON DAY:**  
**Million Or More**

"Happy Harry" Truman had pulled himself up by his own bootstraps, grasped the dark cloud of Democratic gloom and ripped it aside to disclose a satisfying silver lining.

And now, party big-wigs and adherents are smiling expansively in anticipation of hacking the million-dollar mark when the traditional \$100-a-plate Jackson Day dinners are held in February.

NOTHING SUCCEEDS like success, Truman might have reminded his followers—and because of his personal success, money, which was woefully lacking in Democratic party coffers before the election, is now expected to come rolling in.

Normally, anywhere from \$600,000 to \$700,000 is raised for the party at the dinners, but this year the national committee thinks it can surpass that figure and come nearer the million-dollar mark.

And they well may do it, for many people who wanted no part of Harry Truman during the campaign, and who kept their hands in their pockets, now are willing to give and give generously.

However, careful planning is going into this year's Jackson Day dinner project. One such dinner will be held in every congressional district of the larger states, and at least one dinner in each of the smaller ones.

Plans already have been mapped to seat an all-time high record of 3,000 at the Washington dinner.

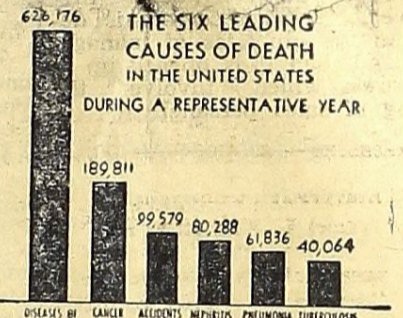

"Of course there are still some lukewarm 'Wednesday Democrats,'" a committee said, "but the financial return this year should be terrific."

**Chief Killer**

Once again the nation's attention would be called to the fact that diseases of the heart and blood vessels are the leading cause of death in the United States.

The occasion: The American Heart association's 1949 national campaign. Hard to dramatize, because its victims seldom die spectacularly, heart disease is a major concern of those who deal with a people's health. The malady is responsible for one of every three deaths in the nation each year.

Rheumatic fever and rheumatic heart disease take a heavier toll from youngsters five to 19 than any other disease. Even in the years from 35 to 54, heart disease causes far greater mortality than the other leading killers, including cancer, accidents, tuberculosis, pneumonia and nephritis.

The chart tells its own story about the fatalities resulting from heart diseases in the nation.

The dates of the national campaign of the American Heart association are February 7 to 28. The dates of National Heart Week are February 14 to 21.

THE FUND-RAISING goal of the campaign is five million dollars. Of this, three and one-half million dollars will be used by local heart associations to maintain and expand their community cardiac programs. The remainder will be used by the American Heart association for expansion of its national programs.

The 1949 campaign slogan is apt and compelling. It is: "Open your heart—fight heart disease."

**COAL SUPPLY:**  
**Everyone Relax**

The American male who must wrestle with the furnace, worry about keeping a fireplace full of fuel, concern himself with the possibility of a heatless future could sit back and relax.

There is enough coal under the surface of the United States to last a thousand years.

After that, somebody else could worry.

AUTHORITY for the extent of the nation's coal resources was Dr. Edward R. Weidlein, director of the Mellon institute of industrial research.

Pointing out that half the world's known coal reserve is possessed by the United States, he asserted many industrial leaders and technical experts believe "that a large industrial development based on coal is in the making and that a considerable expansion in coal production is imminent."

**PSYCHIATRISTS:**  
**Who's Next?**

Americans had something else to worry about besides prices and possible war. It seemed the nation's chief need, despite any suppositions to the contrary, was more psychiatrists.

According to a subcommittee of the Hoover commission, nothing could be done about the nation's deplorable mental health condition until the present 4,500 psychiatrists were increased to 10,000.

**Scholar Who Dared**  
**Death Three Weeks**  
**Learns Old Secret**

TEHERAN.—An American professor, who dared death every day for three weeks, said he had learned the secret of the inscriptions Persian King Darius had carved on Mount Bisitun 2,400 years ago.

Prof George Cameron of the University of Michigan and the American School of Oriental Research copied the rock carvings by means of a rubber compound. He did his work suspended 194 feet from a mountain ledge and 100 feet above the rocky ground just east of Kermanshah in western Iran. Sometimes his son, Thomas, 15, went up with him on the scaffold and helped.

"The story of Darius' life now appears with remarkable clarity," Mr. Cameron said. "I know now the secret of four huge columns of the inscriptions, which have not been read before because they were in an inaccessible spot. The full secret, however, is one that I shall not divulge until I have had further time for study."

The Bisitun inscriptions, in three languages, are ranked as the most famous antiquity of the kind in western Asia.

**If Churches Too Comfy,**  
**Congregation May Sleep**

CARLISLE, ENGLAND.—The chancellor of the diocese of Carlisle says he is against proposals to disperse the immemorial gloom and dampness of English churches. He says it might encourage naps during sermons. A consistory court recently considered a proposal to install lights and a heating system in the church at Gilsland.

"If the heat in a church becomes excessive people might go to sleep during the sermon, or at least have an excuse for doing so," said Chancellor H. H. King. "Also, we don't want theatrical lighting in churches." The chancellor also disapproved installing electrical heating tubes under pews.

The whole project was tabled for reconsideration. Cumberland mists will continue to invade the Gilsland church on frosty Sunday mornings.

**Male Shoppers Rated Best**  
**By Girl Clerks in Stores**

NEW YORK.—The department store girls wear their prettiest smiles for the shopping man, but they don't want to take all his money, Mrs. Lorraine Frankland says.

"We try to sell him something within what we judge would be his wife's price limit," she explained. If he spends too much his wife will bring it back anyway and be mad at the store for selling it to him, she figures. Mrs. Frankland is the head personal shopper at Lord and Taylor's department store.

To figure that price list limit, Mrs. Frankland says she starts out low and works all the way up, making a mental note of the point he starts perspiring. Then she goes back and "encourages" him to buy below the boiling point.

What the girls really love about the men shoppers, Mrs. Frankland said, is they make up their minds so fast.

The average man, shopping for his wife and maybe his mother or daughter, spends about \$50 all told, Mrs. Frankland said.

And not one in 500 of them buys black underwear, she said.

**Chicago Found To Have**  
**More Taxicabs Per Capita**

CHICAGO.—The nation's capital has more licensed taxicabs per citizen than any other city in the land, although New York has the greatest number of licensed cabs, according to the International City Managers Association.

The association, citing figures compiled by the American Taxicab Association, reported today that there were 9,024 cabs to serve the estimated 987,000 citizens of the District of Columbia, a ratio of one cab to every 109 Washington residents.

New Orleans was said to have the second highest ratio of cabs to citizens among thirty-nine of the larger United States cities, with one cab per 466 citizens, or 1,500 cabs for its 700,000 inhabitants. Boston was rated third, with 505 citizens per cab, and Louisville fourth, with a 531-to-1 ratio.

New York was fifth, having 11,814 licensed cabs, or one to every 658 of its estimated 7,783,000 population.

Greater Cleveland (Cuyahoga County) ranked last, with a ratio of 2,601 persons to one cab.

**Mrs. FDR to Devote Life**  
**To Furtherance of U. N.**

PARIS.—Mrs. Franklin D. Roosevelt plans to devote the rest of her active life to the United Nations as "the best hope we have for peace."

"We may slide into war," she said "but we must support the United Nations. It may yet save civilization from the terrible set-back of another war."

Mrs. Roosevelt is chairman of the United Nations eighteen-nation Human Rights Commission, which will seek next year to draft a human rights treaty legally enforcing those rights.

**Politicians Settling Down**  
**To Practical Things Again**

By BAUKHAGE  
News Analyst and Commentator.

WASHINGTON.— With the mighty fanfare of the Democrats on inauguration day a fading memory and even the brave words of the Republicans on Lincoln Day less than a whisper out of the past, the practical politicians on both sides of the aisles in the house and senate are hard at their practical politicking.

The sudden re-entrance of Governor Dewey on the political scene was something that took many of his fellow Republicans by surprise. Nevertheless, it would seem that many who don't like him because he lost last November and others who didn't like him enough to help him win last November, are willing to change their minds and really work for his election to the senate in 1950. They think he has a chance for the seat which Senator Wagner has held so long.

There is a tendency on the part of Democrats to shrug off this distant possibility with "Dewey can't do that either!"

BAUKHAGE

right, might attempt to fill his father's shoes.

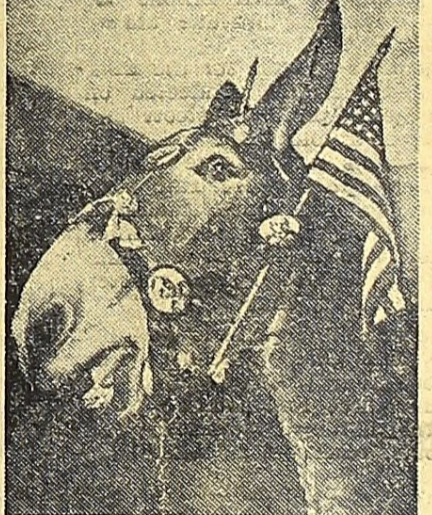

That is always good political practice, for more than one candidate with a former hero's name, has been swept into office by voters who either didn't know their idol had departed or else thought a candidate by any other name couldn't smell as sweet. It was often declared that a number of old-timers had a vague feeling that FDR and TR were, if not the same, at least approximately the same person.

Meanwhile the Republicans are rapidly solidifying their forces for a concentrated battle over the repeal of the Taft-Hartley bill, and the way the atmosphere feels at this writing, Republican senators are offering the nearest thing to a filibuster that can be offered without actually being labelled one. Senator Pepper called it that from the start.

April is contract day for a good many unions and the race is to get the Taft-Hartley act off the books before then. If the Republicans can keep on amending and arguing past that date, it will be a distinct, if only temporary, victory for them.

It must have been quite a shock for the labor leaders to learn that the administration didn't think that labor won the election. Labor did a tremendous job for Truman, put in a lot of hard, fast cooperative work, dovetailing their programs with the efforts of the regular party workers.

But one Harry Truman did a lot of work, all by himself. When the A. F. of L. and CIO heads came down to Washington early in January

INAUGURAL COLOR FADES  
Back to practical politicking

laying their demands on the line they were somewhat annoyed to find a number of top Democrats polite, grateful and gracious, but also just a little coy.

Newsmen outside one office door when an A. F. of L. delegation was waiting for members of Senator Thomas' labor and public welfare committee, heard much desk-pounding and one voice was strong enough to penetrate the thick paneling:

"We went up and down the country ballyhooing for the repeal of the Taft-Hartley act. And that's what we want now."

But the practical politicians in the house and the senate knew they were facing the fight of their lives. They knew they could count on some Republican support, but only if they sent down a bill which had something in it beside straight repeal. That is why the administration ordered a "one-package" measure, one that contained certain positive provisions. The unions were willing to let the old Wagner act come back into force, but the administration knew that was the wrong approach since there was considerable popular sentiment against undoing all that had been done in the way of scotching strikes.

**Shake-Up Hits**  
**Probe Committee**

One of the interesting changes wrought by the election was the re-organization of the un-American activities committee. This strange child, born of a desire of one Democratic congressman to check Nazi and anti-Jewish activity in this country back in the days of Hitler had become a problem child for the administration.

The father of the idea (it was a New York congressman), saw his offspring kidnapped at birth. It was seized by Republican Hamilton Fish of New York and later by Rep. Martin Dies of Texas and brought up in quite a different manner from what was intended.

The Democrats were pretty embarrassed with the committee before Dies was through with it, and when he decided to withdraw from the Washington scene they tried to squelch it but failed. It had proved too good a headline-getter for its members. Then along came the Republicans in 1946 and grabbed it, making it one of the administration's number one headaches.

As soon as Democrats returned to power they saw to it that the committee, now an accepted institution, was cleaned up. By one twist and another, they managed to eliminate all of the old members but one, Representative Wood, who is chairman. Membership was limited to lawyers, which was logical enough, for its faults were those which no honest lawyer would condone, and it was reformed to recognize civil rights and to conform to some of the fundamental principles of justice and civil rights with which the original organization scorned to bother. Witnesses are now permitted to give their side of the case, be represented by counsel if they desire.

Nothing has been done to hamper its effectiveness, and it should be able to render a real service from now on. As Rep. John McSweeney (D., Ohio) one of the new members, said: "The spy hunt should be carried to a logical conclusion, but I will not permit innocent men and women to have their names and characters besmirched by unfounded and unsupported accusations."

The un-American activities committee, as it was run before it was cleaned up, was an institution which simply could not continue to exist in America. It used methods which Americans will not tolerate, because if there is one thing an American demands, it is the right to be considered innocent until he is proved guilty. "Who steals my purse steals my trash. . . but he that filches my good name robs me of that which no enriches him and makes me poor indeed."

**Commies at Work**  
**In Ivid Halls**

One of the jobs which the committee under J. Parnell Thomas, was preparing to do, was to investigate communism in American colleges. That sent the universities and colleges into jitters for fear academic freedom would be throttled as other freedoms had been by the fanatical members of the old group. However, there is no reason at all why a judicial investigation of this particular subject shouldn't be undertaken.

Canada received a distinct shock recently from Dr. Watson Kirkconnell, president of Acadia university. He made an analysis of the report of the Labor Progressive Party university students conference at Toronto last fall which was published by the SATURDAY NIGHT, a weekly magazine published in Toronto.

The report is a 14,000 word document which presents the Communists' own views on their position, in Canadian universities. It reveals, according to Dr. Kirkconnell, that there are militant Communist "nuclei" on the campuses at McGill, Toronto, Winnipeg, Saskatoon, Edmonton, and Vancouver, all under rigid party discipline.

There are known to be a number of similar groups, doubtless working with the same party techniques, in this country. In some places they are considerably weaker than they used to be.

# GRASSROOTS

WRIGHT A. PATTERSON

**Of Masters and Men**  
LABOR IS NOT only labor, it is also capital, spelled with a capital "C". It has a large place in what those seeking political support refer to as "special interests." Labor, in fact, is both master and man.

There are more worker-stockholders in large American corporations than the total of union labor memberships. As such these worker-stockholders provide their own tools. Their first interest is the soundness of their stock-holdings. When the leaders of the members of organized labor—the very ones who own a considerable part of the large corporations of the nation.

UNDER SUCH conditions, with master and man being one individual and playing dual roles, it is not to be expected that the "man" will seek the destruction of the master when instructed to do so by the leaders of himself as he realizes that he is numbered as a "man." The stock-holding worker man and also as a "master" and votes the way he believes his best interests lie.

Labor looks at the Taft-Hartley law from the viewpoint of both master and man. The leaders of organized labor see that law only through the eyes of the "man."

IT IS BECAUSE of that dual relationship of master and man that labor did not follow the direction of labor leaders, and vote a denunciation of that law in last November's election. The "man" did not vote against himself as "master."

That dual capacity of master and man on the part of millions of American stock-holding workers constitutes the strongest bulwark of our capitalistic system. Such stock-holding workers will not permit serious injury to a corporation in which they have a definite financial interest.

AS THE NUMBERS of such workers grow the strength of the system grows, and the wolf cry of "special interests" becomes less audible with each passing year. There are comparatively few nations in which the combination of master and man is found.

A FAMILY OF THREE, who had lived for many years in New York City, had tired of the crowds, the shoving and pushing, the clamor, and proposed to locate a new home in a smaller quieter community. They sold their city home, bought a new car and started out to explore the nation until they could find a community in which they would like to live.

AFTER SEVERAL thousand miles of travel they arrived at a small western city in which resided some old-time friends. Because of those friends the traveling family stopped over for a time. . . The longer they stayed the better they liked the town. It seemed to be what they were looking for as a permanent place of residence.

In that small city was an especially attractive home, which the owner—a woman—wished to sell. Knowing of the presence of the eastern visitors she suggested to their friends that they induce them to look at her home as a possible purchase. . .

AN INSPECTION DATE was easily arranged and the eastern visitors were enthused over the home they were shown. It was what they were seeking and was in a town that appealed to them. There was every evidence of a prospective sale.

The inspection over, the little party was gathered at the front door for further assurances of appreciation of the home by the visitors, when the woman who wished to sell noticed the car standing at the curb.

"Oh! You have a new Ford!" she exclaimed.

"That car, Madam, is a new Lincoln," replied the offended head of the visiting family.

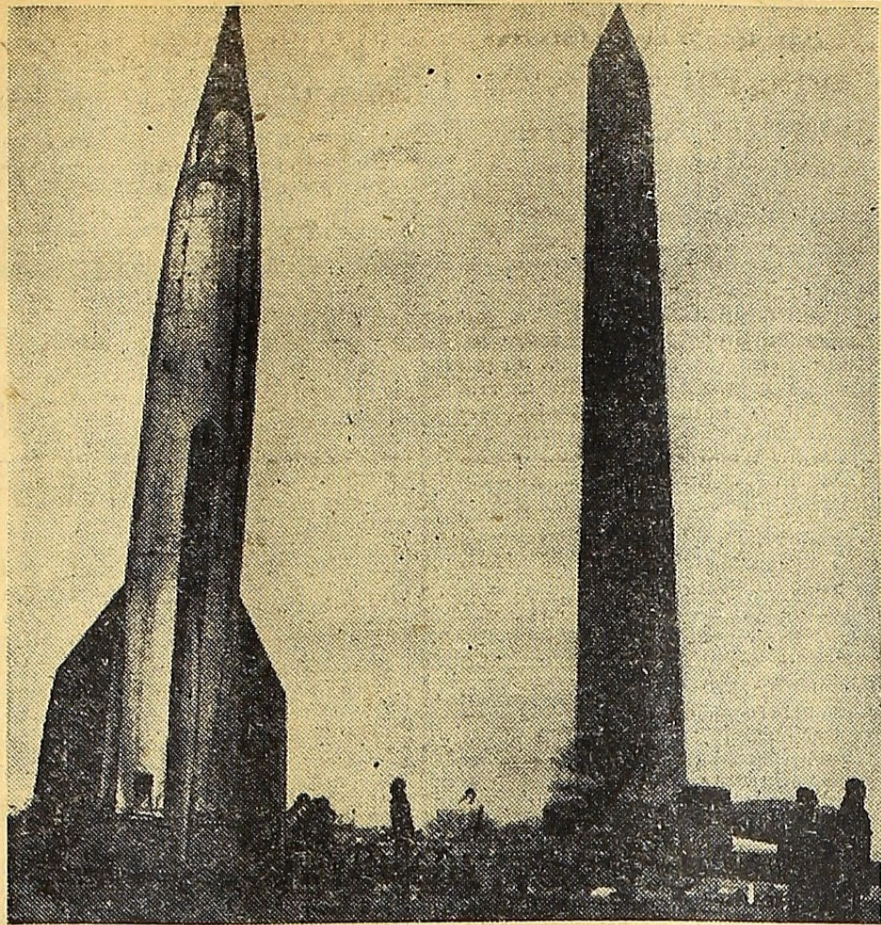

The sales prospects vanished instantly. The visiting family left town. Neither the house nor the town interested them anymore.

Chances are that within the next few years we will have conquered and forgotten all but one of our present-day programs. We will be through with inflation; we will have seen Russia come to her senses and a world peace established; communism no longer will be a threat to our civilization.

But we have one problem that a few years alone will not solve. That is our national indebtedness. We still will have to worry about that after all our other problems are solved.

IT'S ALL IN HOW YOU LOOK AT IT . . . Through a trick of perspective and camera angle, this German V-2 rocket appears to dwarf the 555-foot Washington monument. The rocket, however, is only 55 feet high and is a part of the armed forces exhibit on the monument grounds. The V-2 was powerful enough to be one of the Nazis' most effective weapons in the attacks on Great Britain.

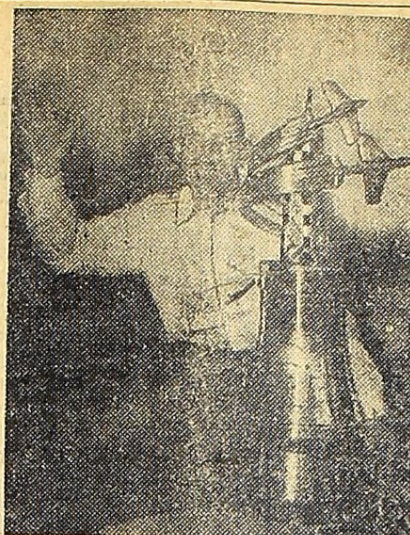

SOME NOTES FOR THE RECORD . . . Grandchildren of Vice-President Alben W. Barkley of Kentucky add a few marginal notes to the Congressional record. They are Alben W. Barkley, II, aged four, and his sister, Dorothy Anne Barkley, six. They are seated at the former senator's desk in the upper chamber.

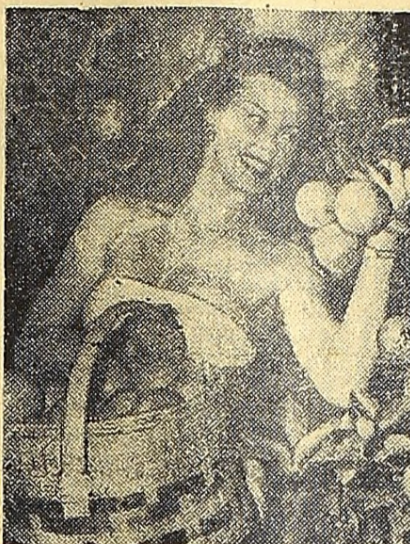

ONLY THE BRAVE PROTEST THE FARE . . . But in this instance it appears to be doing little good. A husky Rio de Janeiro, Brazil, cop is doing some vigorous necking here with Evandro Caxato, one of 24 students of the National Union arrested in protest riots against a planned increase in Rio car fare. Three street cars were stoned and set on fire by the demonstrators, who, police said, were members of the young Communist league. All were released after questioning.

INAUGURAL PRESENT FOR PRESIDENT . . . President Harry S. Truman stands beside a clay model of the bronze bust, by Washington sculptor Felix de Weldon, which was presented to the President during inauguration week. The presentation was made by the Democratic national committee. The bust carries an inscription written by President Truman, himself. It reads: "Our goal must be not peace in our time—but peace for all time."

WINNER AND TROPHY . . . Steve Wittman of Oskosh, Wis., poses with his trophy after he had won the Continental event in all-American air maneuvers in Miami.

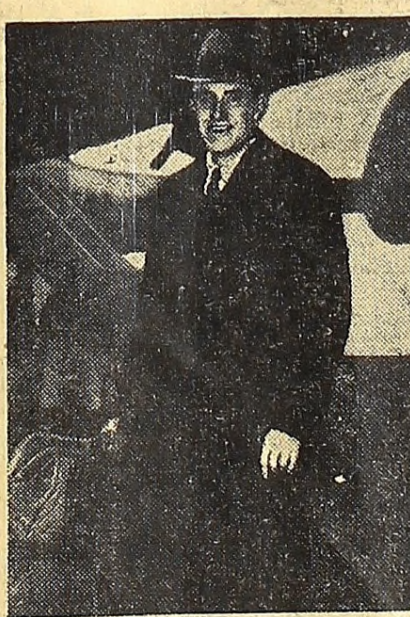

THE ACID TEST . . . While California was shoveling snow, its citrus-growing and weather rival state of Florida was, as the saying goes, "rubbing it in." This time it was Nevada Smith, who poses with Florida sun-kissed oranges.

DISLOYALTY SUSPECT . . . Samuel L. Wahraftig, AMG aid, is pictured in a telephone booth upon arrival in Boston. He was flown to the U. S. by military transport to answer disloyalty charges.

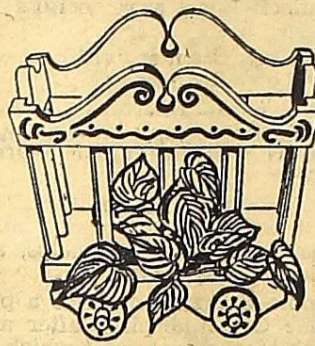

SACRIFICE SUBJECT . . . Alma Bolster, of Bremerhaven, Germany, is the reason James McAvoy, American seaman would renounce his citizenship so he might marry her.

DENIES RUMOR . . . W. Averell Harriman, U. S. Ambassador-at-large, denied upon arrival in U. S. that he planned to quit post because he was not chosen secretary of state. He declared he would remain in his post.

## You Build It Children Will Love This Wagon

HERE is a gift idea that appeals to everyone. It's a circus wagon plant holder that makes a delightful center piece for the table. Ivy and other small potted plants thrive in this gaily decorated circus wagon. If there is a child in the family, forget its use as a center piece and make several wagons to form a circus. Youngsters love to cage their wild animals and move them about.

The full size pattern offered below offers a quick and easy method of building. No special tools or skill are required. User merely traces the pattern on the wood pattern species, saws and assembles. To insure painting with a profes-

sional touch, full size decorating outlines are provided. These are traced on the wood and painted the colors pattern suggests. Pattern specifies using small pieces of wood that can be purchased at any lumber yard.

## This Home-Mixed Cough Syrup Is Most Effective

Cough medicines usually contain a large quantity of plain syrup—a good ingredient, but one which you can easily make at home. Take 2 cups of granulated sugar and 1 cup of water, and stir a few moments until dissolved. Or use corn syrup or liquid honey, instead of sugar syrup.

Then get from any druggist 2 1/2 ounces of Pinex, pour it into a pint bottle, and fill up with your syrup. This gives you a full pint of wonderful medicine for coughs due to colds. It makes a real saving because it gives you about four times as much for your money. Never spoils. Tastes fine. This is actually a surprisingly effective, quick-acting cough relief. Swiftly, you feel it taking hold. It loosens the phlegm, soothes the irritated membranes and makes breathing easier. You've never seen anything better for quick and pleasing results.

Pinex is a special compound of proven ingredients, in concentrated form, a most reliable soothing agent for throat and bronchial irritations. Money refunded if it doesn't please you in every way.

THIS STORM WILL SNOW ME UNDER UNLESS I GET HELP SOON!

COAL COSTS UP 99%  
EMPLOYEE WAGES UP 67%  
POLES UP 90%  
COPPER WIRE UP 95%  
CROSS ARMS UP 110%  
HARDWARE UP 90%  
OTHER EXPENSES UP

IT'S BEEN OVER 27 YEARS SINCE I'VE HAD A RAISE IN WAGES... And I just can't make both ends meet with TODAY'S HIGH COSTS

Almost every item that Reddy uses in his business of producing electricity and delivering it to homes and factories has INCREASED to the point where he must call for help.

Take his coal bill, for instance... and he will use over 2,000,000 tons of coal this year. The price per ton jumped from \$4.12 to \$8.20, an increase of 99%.

And so it goes right down the line — cost of poles UP 90%, copper wire UP 95%, hardware UP 90%, employee wages UP 67%. This is the picture... and the reason Reddy has to give up and ask for an increase in salary.

The wage-boost he is asking for, however, will increase the average residential customer's bill only 2½¢ a day.

Even if I get my pay boost of 2½¢ A DAY I'm sure you'll agree that my wages will still be in the BARGAIN BRACKET

### Iosco County A. B. A. Reports Increase

Tom Nelkie, Inseminator-Manager of the Iosco Artificial Breeders Association reports a constant increase in membership and number of cows. Since annual meeting in August, the association has accepted ten members and added 60 more cows. The association now has 105 members with 829 cows enrolled.

The members are receiving services in Holstein and Red Dane. Bulls of the highest quality are owned by the Michigan Artificial Breeders Cooperative which now has a membership of over 12,000 in 115 breeding associations with over 100,000 cows enrolled.

At a board of directors meeting of the local association, Julius Anderson was elected as delegate to the State Annual meeting which is to be held at Michigan State College, March 31. Mr. Anderson will represent the Red Danes. Because of the growth of the association, Iosco County now is entitled to another delegate who will represent the Holsteins, and will be appointed at the March meeting.

The association is open for more members. Anyone wishing to join, may call Tom Nelkie, George Prescott, III or Harold R. Clark, County Agricultural Agent.

### IN CHANCERY

Roger E. Mitchell and Neva M. Mitchell, Plaintiffs, vs. Margaret Anderson, J. E. Withey, William Karheet, Lillian A. Karheet and their unknown heirs, devisees, legatees and assigns, Defendants.

At a session of said court held at the courthouse in the City of Tawas City in said county, in the 2nd day of February A. D. 1949.

PRESENT: Honorable Herman Dehnke, Circuit Judge.

On reading and filing the Bill of Complaint in said cause and the affidavit of H. Read Smith attached thereto, from which it satisfactorily appears to the court that the defendants above named, or their unknown, heirs, devisees, legatees and assigns, are proper and necessary parties defendant in the above entitled cause, and;

It further appearing that after diligent search and inquiry it can not be ascertained, and it is not known whether or not said defendants are living or dead, or where any of them may reside if living, and, if dead, whether they have personal representatives or heirs living or where they or some of them may reside, and further that the present whereabouts of said defendants are unknown, and that the names of the persons who are included therein without being named, but who are embraced therein under the title of unknown heirs, devisees, legatees and assigns, can not be ascertained after diligent search and inquiry.

On motion of H. Read Smith, attorney for plaintiffs, it is ordered that said defendants and their unknown heirs, devisees, legatees, and assigns, cause their appearance to be entered in this cause within three months from the date of this order, and in default thereof that said Bill of Complaint be taken as confessed by the said defendants, their unknown heirs, devisees, legatees and assigns.

It is further ordered that within twenty days plaintiffs cause a copy of this order to be published in the Tawas Herald, a newspaper printed, published and circulated in said county, such publication to be continued therein once in each week for six weeks in succession.

Herman Dehnke, Circuit Judge

## VETERANS SHOULD KNOW—

1. The final date for making application for automobiles or other conveyances by leg amputees is June 30, 1949.

2. The first GI Bill deadline is not far away. Veterans discharged before July 25, 1947 had only until July 25, 1949 to apply for readjustment allowances or unemployment and self-employment. Veterans discharged after the 1947 date have until two years after discharge.

3. World War II veterans holding unused certificates of eligibility for GI Bill education or training issued before September 1, 1948, and who are planning to enter training for the first time after January 1, 1949, should exchange them immediately for the new type certificate. These certificates may be exchanged in person or by mail to any VA office. By exchanging the old certificates before entering training, veterans will enable VA to dispose of those actions well in advance, and make possible more prompt and accurate service at the training start.

4. Veterans facing demands of VA for repayment of overpayment of any cash benefit would do well to investigate the possibility of getting a waiver. Veterans might be able to save themselves a lot of grief, as well as a lot of money, by applying for an official waiver of repayment covering subsistence, pensions, or other benefits disbursed by the V. A. Waivers committees operate in every branch and regional office, in addition to the Washington central office, and each case is decided on an individual basis. For future information, contact your nearest VA office.

5. Even though a veteran did not apply for NSLI while in the Armed Services, he is eligible to apply for up to \$10,000 of it now, according to the V. A. Veterans can get full details of these insurance benefits at any VA office. In this connection it should be noted that medical examinations for NSLI are available to veterans without charge at any VA hospital or clinic, or at any VA office where a full time physician is employed.

6. Here are a couple of miscellaneous items that may be of interest: (A) Since the Declaration of Independence, our nation has been at war about 11% of the time; this figure out at about eight years of peace to each year of hostility. (B) It was pointed out recently by Gen. Omar Bradley, Army chief of Staff, that safety studies show that a man of army age is three times safer in the Army than he is in civilian life. An analysis of 1947 accident rates reveals that the Army rate was 2256 accidents per 100,000 military personnel, as compared with 7866 injured or killed per 100,000 civilian population.

### Time Savers in Home Sewing

The home economics extension groups of Iosco County believe in being thrifty with time as well as with money. Their program for the year includes a lesson on Time Savers in Home Sewing, which will be taught by Lola Belle Green, Clothing Specialist from Michigan State College.

The leaders of the home economics groups will meet at the Extension Conference Room, Federal Building, East Tawas on February 16, 1949, from 10:00 a. m. to 3:30 p. m. according to the announcement by Harold R. Clark county agricultural agent.

Most women are doing considerable home sewing these days are interested in learning the quickest, easiest methods.

The demonstrations given at the leader's meeting will include short cuts and easy methods that should be helpful to the experienced seamstress as well as to the beginner.

Ways of saving time in planning, in arranging equipment, and in using the sewing machine will also be discussed. The leaders will make some small pieces of equipment.

All groups who are interested should make a special effort to send leaders to this meeting. New leaders should get from Mr. Clark a list of the supplies the leaders are asked to bring to the meeting.

**START THE DAY WITH A GOOD BREAKFAST**  
 (See Recipes Below)

**BRIGHT BEGINNING**  
 ONE OF THE biggest services which any homemaker can give her family is to feed them a good, substantial breakfast to get them off to work and school with proper spirit. This is the best way—at least to my knowledge—of preventing that mid-morning lag in energy as well as having the mind razor sharp whether you apply yourself at a school desk, sit in an office or work in the barn, fields or your own kitchen.

A good breakfast need not be elaborate to serve its purpose. Start off with a simple pattern including fruit, cereal and milk and you can be well fed.

Naturally if you want more, there are any number of foods to be added. Too, there's no need to feel that breakfasts can't have variety. You can vary fruit and cereal daily, while eggs, breakfast meats and hot breads have infinite variety.

If mother will start fragrant odors in the kitchen when the family is scheduled to hear the alarm clock, this will help keep them interested in completing the process and get them down to a good breakfast.

FOR THOSE of you who depend upon the oven to take the chill out of the house in the morning, here are some splendid, quick-to-mix hot breads for breakfast or any other meal:

**Honey Nut Bran Muffins**  
 (Makes 16 large muffins)  
 1/2 cup honey  
 1 cup flour  
 1/4 teaspoon soda  
 1/2 teaspoon salt  
 1/2 teaspoon baking powder  
 2 cups bran  
 1 tablespoon melted butter  
 1 1/2 cups milk  
 3/4 cup walnuts, chopped fine

Sift together flour, soda, salt and baking powder. Mix with bran and add other ingredients. Place in greased muffin pans and bake in a quick (425° F.) oven for 25 to 30 minutes.

**Raisin Bran Muffins**  
 (Makes 6 Muffins)  
 1/2 cup sifted flour  
 1 1/2 teaspoons double-acting baking powder  
 1/4 teaspoon salt  
 1-2 tablespoons sugar  
 1 egg, well beaten  
 1/2 cup milk  
 1 1/2 tablespoons melted shortening  
 3/4 cup raisin bran

Sift flour once, measure, add baking powder, salt and sugar; sift again. Combine egg and milk and add to flour mixture. Add shortening, then mix only enough to dampen flour. Fold in raisin bran. Turn into greased muffin pans, filling them 2/3 full. Bake in a hot (425° F.) oven 25 minutes.

**Flake Gems**  
 (Makes 12 muffins)  
 1 cup sifted flour  
 4 tablespoons sugar  
 1 teaspoon salt  
 3 teaspoons baking powder  
 1 egg  
 1/2 cup milk  
 4 tablespoons melted fat  
 2 cups corn flakes or wheat flakes

**LYNN SAYS:**  
**Add Variety To Breakfast**  
 Orange toast is a delightful variation to serve for breakfast. To make it, toast and butter bread, then spread with a mixture of sugar and grated orange rind which has been moistened with orange juice.

Flaked cereals are delicious if heated in a shallow pan, dotted with butter and sprinkled with brown sugar. Heat in a moderate oven for just a few minutes and serve at once.

 STAGE-SCREEN-RADIO

By INEZ GERHARD  
 Released by WNU Features.

JOHN PAYNE so enjoyed making his first western, "El Paso," that he'd like to make more. Says it's the healthiest branch of picture making, out in the open all day: "I all but slept with my horse." However, there was nothing pleasant about the big fight in a sand storm so realistic

JOHN PAYNE

that it was impossible to see more than a few feet ahead. Payne said he killed the wrong man four times. In his next for Pine-Thomas he will work four days in water—and he looks forward to it. Soon after reaching New York he phoned his California home; his three-year-old daughter got on the line and sang "Happy Birthday" to him, all the way through.

After six years as an announcer on "We, the People" Dan Seymour has become master of ceremonies, the job he holds on "Sing It Again." He will still announce "The Aldrich Family" and "Aunt Jenny"—has been a top-flight announcer for years.

Melvyn Douglas has had distinguished careers as a theatrical producer, army officer, (he fought in both World Wars) and actor on both stage and screen. After finishing "My Own True Love" at Paramount with Phyllis Calvert, he came to New York to do his first play in some years, "Two Blind Mice." The Douglas family is a bit scattered at the moment; Helen Gahagan Douglas, congresswoman, is in Washington, the three young Douglas, 15-21, are still in California.

Paul McGrath, "John Wayne" on CBS' "Big Sister," like Douglas juggles two careers. He may be a hero on the air, but he is practicing to be a villain at the moment, preparing for the role in Clifford Odets' new play, "The Big Knife."

On the set of Samuel Goldwyn's "Roseanna McCoy" Marshall Thompson was displaying the wedding ring he'd bought for Barbara Long. He was hoping to finish his sequences in the picture before the wedding day, so they could honeymoon in Mexico. "But I'll probably have to hang around," he prophesied gloomily. "I get killed in the last reel."

Also in "Roseanna McCoy" you'll see Raymond Massey gallop up to a log cabin on horseback, to be greeted by Aline MacMahon. That scene had to be re-shot because the horse looked too rested—had to be lathered with shaving soap.

Lon McAllister hesitated about ordering meat for luncheon—said he'd been making too many animal pictures lately. And his next for Eagle-Lion will keep him in the rut; an Irish setter is featured. In New York in connection with his latest, "The Big Cat," he stood out as one of Hollywoodite who does not want to go on the stage; says he's afraid of visual audiences. That seems a shame; Lon is a good-looking young fellow, with great (and unconscious) charm.

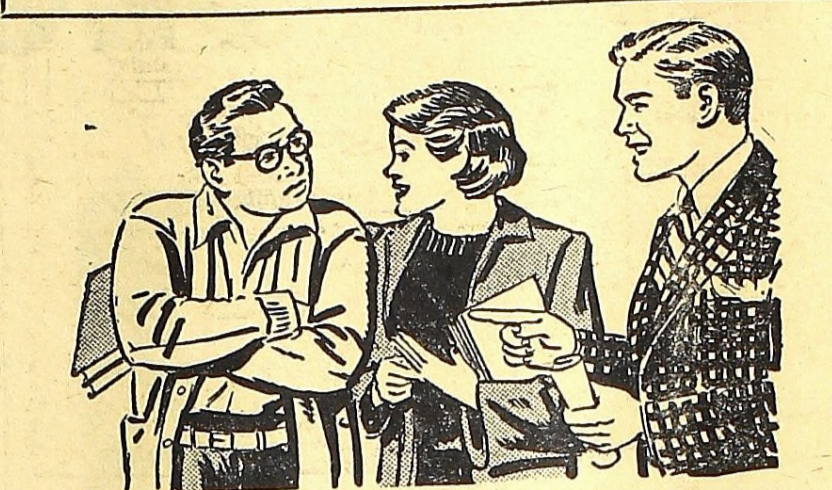

For one hour and a half the pretty girl and the handsome young man-kissed each other lingeringly, while lights were set and cameras adjusted. Then they left, separately. Just stand-ins for Ronald Reagan and Patricia Neal in "John Loves Mary."

Jimmy Durante says he will make personal appearances in London's Palladium Theatre after taking his annual summer vacation from radio. Meanwhile television executives are trying to lure him into doing his famous vaudeville act for them.

**ODDS AND ENDS . . .** Basil Ruysdael, who went to Hollywood to retire from radio announcing, plays an admiral in "Task Force" . . . Patricia Neal is proud of getting Lawrence Olivier's autograph, in London . . . Will Cary Grant regret saying "Betsy Drake's movie contract was strictly business, as far as I'm concerned" . . . **Humor—a Saving Grace**

Is a sense of humor a mark of intelligence?

**Answer:** Not in itself. There have been outstanding geniuses who had very little sense of the ridiculous and were quite incapable of laughing at themselves, however childish they behaved. But a sense of humor usually indicates emotional maturity because it keeps you from childish exaggeration of your own importance and makes you less apt to get "all steamed up" over trifles. And there's nothing more characteristic of a person who has never grown up than to feel his momentary joys and sorrows matter desperately to him and to others.

more likely we are to cling to our "blood kin" and feel ill at ease with "strangers." A mature and self-reliant person, on the other hand, will feel closest to the people with whom he has most in common, whether they are relatives or not.

**Is it normal for a co-ed to be homesick?**  
**Answer:** Not for long, at any rate, writes Annalies A. Rose of Smith College in the Journal of Social Psychology. On the basis of a study of 66 women freshmen in their first five weeks at college, Dr. Rose concludes that "well adjusted" girls, particularly those who have no trouble making contacts with the opposite sex, are not homesick at all. Those who have one attack of homesickness after another are emotionally weak and childish, while the personalities of girls who are homesick only once show comparatively "minor deviations" from the normal.

**Is "blood thicker than water?"**  
**Answer:** Not because of any automatic or instinctive feeling. We like or dislike our relatives, as we do anything else, on the basis of the way they treat us. But because most of us felt more secure with our families as children than we have since, and the stronger our need of security is as adults, the

**KEEPING HEALTHY**  
**Stomach Trouble?**

By Dr. James W. Barton

IT IS known that nervousness and emotional disturbances are the early causes of stomach and intestinal ulcer, and also inflammation of the lining of the stomach. Overcoming the nervousness or reaching a final decision on some disturbing conflict often brings relief from symptoms.

It is also known that infection of the teeth, gums, tonsils, sinuses, gall bladder or large intestine—also can cause stomach disturbances, including ulcer.

What was not suspected of causing stomach ulcer is allergy to certain foods, despite the fact that stomach disturbances and hives (urticaria) frequently are caused by foods to which the individual is allergic.

Foods causing allergic skin reaction in order of decreasing frequency include meat, milk, egg yolk, barley, oats, vegetables, egg white, rye, fish and wheat. This means that our most nourishing foods—meat, milk, egg yolk—are the commonest causes of stomach disturbances due to food allergy. Only 29, or 17 per cent, of 170 patients without stomach disturbances gave positive reaction to the food substances.

The fact, then, that 60 per cent of the patients gave a positive reaction to one or several foods, and only 17 per cent of those without stomach disturbances gave a food reaction, shows a definite relationship between stomach disturbances and food allergy.

Leaving out the foods causing allergic reaction for two weeks, together with a rest cure, usually did away with the symptoms of which the patient complained.

To remove the tendency to allergy, small amounts of the food causing the symptoms were injected under the skin twice a week and the strength of food substances gradually increased. Then the patient was given a cup of broth by mouth beginning with one spoonful. This finally enabled the patient to eat this formerly allergic food without causing any symptoms.

**HEALTH NOTES**

Meat (protein) for breakfast helps prevent mid-morning fatigue on the job and enables you to work more efficiently. Where heavy work is being done, meat or other protein should be eaten not less than twice a day. Hard physical workers really require twice as much food of all kinds—proteins, starches and fats—as do white collar workers and housewives.

Plenty of bed rest supplemented by exercise of the affected joints is the best prescription for rheumatism. With the patient resting in bed—which prevents the weight of the body from setting up further irritation or inflammation—motion in joints and muscles can be kept up by heat, light or passive movement.

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength.

Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

## Yanks Well Equipped

CASEY STENGEL, the professor, was caught in what looked to be deep thought. Naturally, he was thinking about the Yankees, since Casey and the Yankees will be all rolled up together this season.

"Our outfield," he remarked, "is well set. The best. DiMaggio, Henrich, Lindell, Keller and others. We have a chance for good pitching Sox in that de-terfield, Reynolds Shea, Page and a few more."

"Catching — uncertain. Infield — can't hit. We've got to find greater infield offense—more runs batted in. We were far in back of the Indians and Red with Raschi, Por-partment last year. Far back, as far as the infields are compared."

This led to a comparison of the five leading teams. It figured up like this:

Cleveland Indians— Fine outfield better infield; best pitching in base-ball plus good catching. Stars such as Boudreau, Gordon, Doby, Mitchell, Bearden, Lemon and Feller. Plenty of power.

"The Indians shape up as a very tough club to handle," we said. "Is this about right, Professor?"

"That is entirely right," Casey said. "A very tough outfit to handle, offensively or defensively. The team to beat—if you can."

This took us to the Red Sox. High-class outfield headed by Williams and Dom DiMaggio. Even better infield with Good-man, Doerr, Stephens and Pesky. Ragged, uncertain pitching. Below Indians, Yankees and Athletics in this respect.

What about the Athletics? Fair outfield—fair infield. Both below Indians and Red Sox. Pitching high class. Might be better than last year — with catching, close to Yankees.

What is the Tigers' ranking? Red Rolfe has a good outfield, terrible infield and first-class pitching. He must improve the infield, just as the Yankees must. Kell is a fine ballplayer. Should be better than he was last year. Red Rolfe is due to become a smart, hustling leader and will get more life and fire into his squad which has been a dead outfit.

Professor Stengel looked over this report. "I guess it's about right," he said. "From what I've read and heard, we've got a job ahead in handling the Indians and Red Sox. Especially the Indians. They are strong every-where."

"If Bob Feller should happen to have one of his big years—one of his 20-game years—it might be discouraging. It will be a tough league this summer. Can you imagine a world-series winner being strengthened—improved? And quite a bit?"

## Help from Bill Dickey

"We've got plenty to do," Stengel continued. "We may need two or three infield improvements. This has been a good outfield, defensively, but a poor one offensively."

"I'm counting a lot on Bill Dickey. Bill can help our catching a lot. He is a fine teacher—a very patient type. He can also help our pitching. Our pitching will need a lot of thought and work. He has the makings of a star. So has young Bob Porterfield."

"Now about Shea. I know a lot about him. I had him in Port-land. He did a great job for us—and a big job for New York in 1947. I think he'll do a big job again this season."

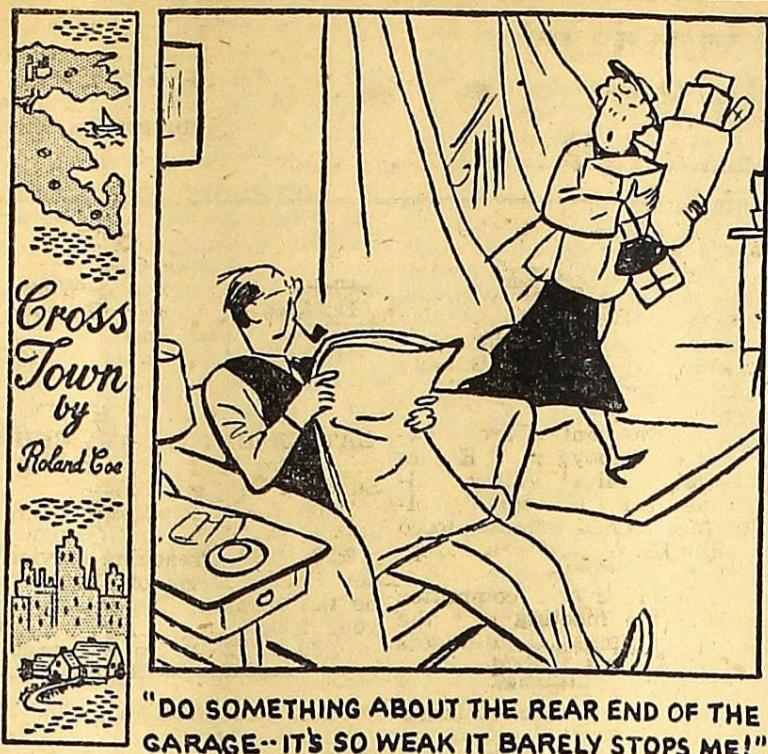

"Dickey will be a big help to all our pitchers. In his old days with the Yankees he was a marvel with young pitchers. He knew how to keep them calm and cool. Pitchers like Atley Donald who could win 10 or 12 straight."

"We'll have to get the best from every pitcher we've got. If we do, it will make a killing difference. I know they've got plenty."

Dickey should be able to bring quick aid to a valuable piece of baseball property known as Yogi Berra. Yogi is a natural hitter—better than .300, and long range to boot. He has a good arm but doesn't know how to throw to second. He can be made into a better out-fielder than he is. The Yogi is a fine competitor, more than willing to learn.

Stengel has another badly-un-derated ballplayer in Johnny Lindell. He is better than a .300 hitter who can also hit the big one—the long one. He is a good outfielder with a good arm. He can play first. And he could be a useful pitcher, which he once was.

Lindell is one of the best all-around athletes in the game. He is also one of the best all-around ball-players—a ballplayer the Yankees, for some reason, have never given his full due.

CASUAL, softly tailored shirt-waist dress with nice yoke treatment, and gathers to accent the slim skirt. Short or three-quarter sleeves are provided.

Pattern No. 1762 is for sizes 32, 34, 36, 38, 40, 42, 44 and 46. Size 34, 4 1/2 yards of 39-inch fabric.

HOUSEHOLD HINTS

To make fudge squares uniform in size, pour the fudge in ice cube trays which have been greased with margarine. The fudge hardens quickly and each piece is uniform.

Do not use too hot an iron or use too much pressure when ironing the folds of sheets. This results in weakness at the line of the folds and finally causes cracking of the sheet along these lines.

New towels should be laundered before use for better absorbency and sanitation.

It is not necessary to iron Turkish towels. Ironing may mat the loops and make the towel less absorbent.

In ironing cotton sheets and pillowcases, use warm water for sprinkling because it penetrates the fabric more quickly than cold water.

Sheets should be dried out of doors if possible, because fresh air gives them a sweet, clean smell.

**Athlete's Foot Common**  
Half of the American people are infected with athlete's foot. Most individuals, especially adults, have had athlete's foot infection a number of times. The disease is usually more irritating than dangerous. It is produced from the spores, or seeds, of a certain fungus and as such, spreads rapidly, especially in damp, dark places. The fungi causing the disease are usually found in three places: locker rooms, shower rooms and dressing rooms; shoes, garters, fabric equipment and towels and on the sunbather's body.

Entries in the contest are expected from Cheboygan, Rogers City, Detroit, Silver Valley, Alpena and several Michigan colleges. In Miss Golda Schultz, Isosco county will be very well represented.

Reports from several committee chairmen at the meeting of the chamber of commerce directors Wednesday evening indicated that last week-end's attendance at Silver Valley was much larger than at any previous carnival. The increase was especially noticeable in the amount of fees received at the toboggan slides.

The toboggan slides are in fine condition, and with the opening of the new skiing area on the Au-Sable river, a large attendance is anticipated at Silver Valley during the coming week-end.

## 70 to 80 Entries Expected at Tawas Bowling Tournament

TAWAS CITY RECREATION'S TEN ALLEYS

Indications are that from 70 to 80 teams will enter in the Sixth Annual Tawas City Bowling Tournament which will open here Saturday, February 19," states Ed. Sietloff, manager of the tournament. The tournament will continue four consecutive week-ends. Entries close Saturday, February 12.

This will be the largest bowling

tournament ever held in northern Michigan, and facilities for the event will be furnished by the Tawas City Recreation with its ten modern alleys and finely equipped hall.

In addition to the numerous teams from the Tawas area to enter, there will be teams from Saginaw, Bay City, Bad Axe, Alpena, Elkton, Argyle, Harrisville, Stan-

dish Ubley, Oscoda, West Branch, Gladwin and other towns and cities. Many of these places have had representative teams and individual players competing in these annual tournaments ever since they started.

The competition events will include five man teams, doubles and singles, in A and B classes. CLASS A—Five-man team, 805

ave. and over; Doubles, 322 ave. and over; Singles, 161 ave. and over.

CLASS B—Five-man team: 804 ave. and under; Doubles, 321 ave. and under; Singles, 160 ave. and under.

The tournament is ABC sanctioned and will be operated on a 75% handicap basis.
