TAWAS CITY, MICHIGAN, FRIDAY, FEBRUARY 25, 1949

Two Dollars Per Year

NUMBER 8

TAWAS CITY

Victor Roekle of Saginaw spent the week-end with his parents, Rev. and Mrs. J. J. Roekle. George Grabow and A. B. Schneider were in town on business Monday.

Jeanette, Delores and Joan Konenski spent two days at Turner last week with their little four year old brother, James, who has been very ill.

World Day of Prayer will be observed at the Tawas City Baptist church March 4 with a union service. All are welcome.

Mrs. Robert Murray and daughter, Mrs. Frank Schreck and family spent Thursday in Bay City.

Mrs. Arthur Allen returned home Sunday from Saginaw General Hospital where she underwent a major operation. She is doing as well as can be expected. Her daughter, Mrs. Lety Snowden of Lincoln Park, is here to help care for her.

Mr. and Mrs. N. E. Strong of Saginaw visited Sunday at the home of Mr. and Mrs. M. E. Irwin of Tawas City.

Mr. and Mrs. Frank Conlen and son Robert and Miss Doris Wright, all of Flint, were Sunday guests of Mrs. Charles W. Curry. Mrs. Conlen and Mrs. Curry are sisters.

Born to Mr. and Mrs. Clyde Soper, a daughter, on Sunday at Omer hospital. She has been named Margaret Evelyn. Mrs. Soper was formerly Lorene Frank.

Mr. and Mrs. Albert Perry of Toledo, Ohio came Wednesday for a couple of days visit with Mr. and Mrs. Carl Schnaaf.

Mrs. Joseph Stepanski is visiting her son, Gerald and family in Saginaw this week.

Frank Schreck of Bay City spent a few days at the Robert Murray home last week.

Mr. and Mrs. Frank Moore returned from Detroit last week where Mr. Moore had his eyes treated.

Mr. and Mrs. James Bowden of Bay City spent Sunday, with Mr. and Mrs. Jack Coyle.

The WSSC of the Tawas City Methodist church will meet next Thursday evening with Mrs. J. R. Mark for their regular meeting.

Mrs. Josephine Ruel visited her son and family, Mr. and Mrs. Charles F. Ruel of Wyandotte, who are the proud parents of a son, Mark Allen, born February 15.

The Tawas City Home Extension class met with Mrs. Albert Mallon Wednesday afternoon. Their lesson was Time Savers in Home Sewing and directors were Mrs. Herbert Wendt and Mrs. William Schaaf. Mrs. Harry Goodale is president. Coffee and doughnuts were served by the hostess.

(Continued No. 1, Back Page)

EAST TAWAS

Edwin Anderson was seriously burned about the face, chest and hands last Friday when an explosion occurred at the County Garage. He was taken to Samaritan Hospital, Bay City where he will be confined for several months.

Mrs. Arthur Kadey has been visiting with relatives at Gaylord this week.

Bobby Hester celebrated his birthday anniversary with a birthday dinner at his home last Sunday. There was the traditional birthday cake and gifts. Among those present were Mr. and Mrs. Lionel Butler and family and Mr. and Mrs. Don Bennett of Fenton.

The Quality Market has been undergoing several changes recently. Among the changes and additions are new shelving, a deep freeze, cold meat case and new counter.

Mrs. Victor Marzinski and daughter Jane, and Mike Summers were week-end visitors in Alpena. Mrs. Elca Green and Harold Shover visited with Mr. and Mrs. Earl Shover in Bay City Tuesday.

Mr. and Mrs. Lawrence Gardner were in Detroit during the past week. While there they attended the Sonja Henie Ice Revue. Mr. and Mrs. Donald Bennett of Fenton spent a few days with their daughter, Mrs. Earl Hester and family.

Mr. and Mrs. Victor Marzinski and daughter, Jane, were in Bay City and Saginaw on Tuesday.

Mr. and Mrs. Don Harwood of Owosso visited with Mr. and Mrs. C. C. Harwood over the week-end.

Miss Leola Connor spent the week-end at her grandmother's home in Twining.

Donald Hester was injured at Silver Valley recently when he struck a tree in coming down the slide and suffered broken blood vessels in his leg. He has been confined to his bed for two weeks.

Sam Siglin had a heart attack Sunday evening and has been quite ill this week.

Mr. and Mrs. D. A. Evans were in Detroit the fore part of the week.

Mr. and Mrs. Roy Hickey spent a few days in Detroit during the past week.

(Continued No. 2, Back Page)

Order of Eastern Star

Tawas City Chapter, Order of Eastern Star held their regular meeting Monday evening, following with the initiation of three new members. Mr. and Mrs. W. E. Slaven and Mrs. Lucille Eckinger received the degrees of the order.

Lunch was served at Vic & Zel's Restaurant.

250 Attend Iosco DeMolay Installation

Ceremonies Held Tuesday Evening at School Auditorium

More than 250 people were in attendance at the open installation ceremonies and George Washington dinner of the newly organized Iosco Chapter, Order of DeMolay, held Tuesday evening at the Tawas City High School auditorium.

The Order of DeMolay is a young men and boys organization sponsored by the Masons. The new chapter here has a countrywide membership and is under the auspices of Tawas City and Baldwin Lodges, F. & A. M. Any boy in the area is eligible to membership in the chapter.

Following an enjoyable pot luck dinner, a musical program was given by Mrs. Lee Cater and her Hawaiian Players. Frank Appleyard, chairman of the advisory council, opened the meeting and gave a talk on DeMolay work.

Paul Dixon was in charge of the ceremonies in which the officers of the new chapter were installed. He was assisted by William Witte, Russell McKenzie and Guy Spencer.

Vane Patterson was chairman of the dinner committee. Phil Mead's orchestra furnished music for the dance which followed the ceremonies.

The tables for the dinner were decorated with cut flowers, flags and red and blue papers. The stage had a setting of Hawaiian scenery for the Hawaiian players.

St. Jude Circle

St. Jude Junior Circle Daughters of Isabella, held a business and social meeting at St. Joseph's School on Monday evening at 7:00 p. m.

Jane Bolen served as chancellor, and Marjorie Lewitzke and Jean Mochty as marshals in the absence of the regular officers. The next meeting will be held on Monday, March 14 at 4:00 p. m. and will be only a business meeting, due to the observance of Lent.

Mrs. Richard Price and Mrs. Richard Lanski of the Senior Circle assisted at the meeting and helped with the social hour.

A variety of games were played and prizes were awarded. High prize at cards was won by Jane Quarters and low by Emily Schram. Jean Brunet and Joanne DeLage were also prize winners in the games.

Joanne Jerome, Shirley Hill and Betty Kendall served refreshments in keeping with Valentine's Day.

The refreshment committee for the next meeting will be Joyce Ketcherside, Ann Klenow, Janet and Joan Klenow.

Will Have Booth At Sport Show

County's Recreational Facilities Displayed

Iosco county's recreational facilities will be again presented to the public through the Mid-west Sport and Boat Show which will be held March 4 to 13 at Convention Hall, Detroit. The Tawas Chamber of Commerce and the Oscoda Chamber of Commerce are sponsoring a booth at the show.

Cecil Cabbie is chairman of the booth committee. He says, "We invite Iosco people to attend the show, and urge you to visit the Tawas-Oscoda booth. Highlights at the booth will be Chief Blue Cloud and a fine display of area promotion, including interesting moving pictures of our year around sports activities."

Included in the display will be a log cabin from the Huron Shores Rustic Furniture Company, furnished by Harry Westrich. The moving picture projector will be furnished by Ben Leslie of Orville Leslie & Sons.

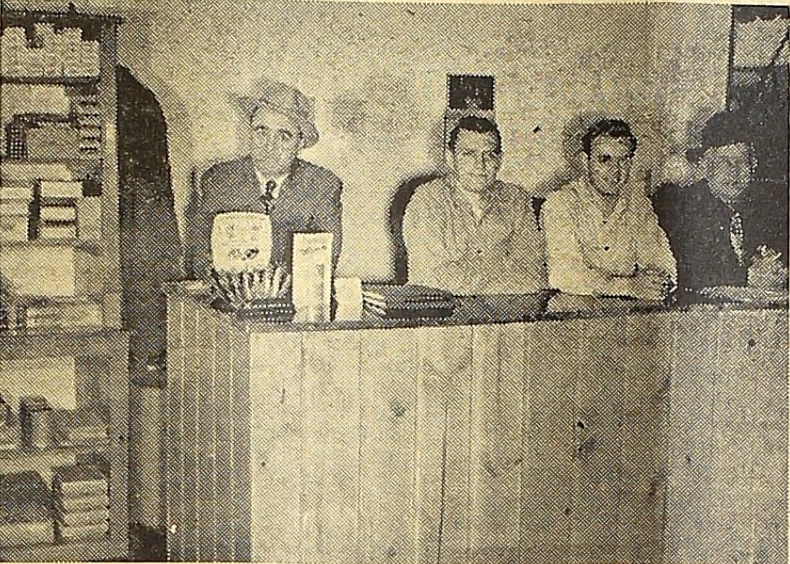

Anyone interested in working a couple of days at the booth should contact Cecil Cabbie, chairman.

CARD OF THANKS

We gratefully wish to thank the many kind friends and neighbors for their kindness shown during the memorial services and reburial of our loved one. We especially wish to thank the boys of the American Legion Post of Hale, Whittemore and the Veterans of Foreign Wars of Tawas for their services and kindness rendered.

Mr. and Mrs. Capt. Shellenbarger
Mrs. Lily Humphrey
Mrs. Lulabell Zilliox.

New Display and Sales Room

Archie Ruckle, manager; Phil Ross, clerk and salesman; Dale Landon, truck driver; Pete Stone, salesman.

"We are now equipped to give better service and our cash and carry display room will be especially convenient to our customers," says Archie Ruckle, manager of the Tawas Branch of the Alpena Candy & Cigar Co. Mr. Ruckle has just added a new display and sales

room to their wholesale store in the Case Building on Lake St. Established here 13 years ago by Mr. Ruckle, the business has enjoyed a continuous growth under his management furnishing an increasing line of merchandise to the trade in this area.

Hill-Walz

Miss Dorothy E. Hill, daughter of Mr. and Mrs. Thomas Hill, Jr., of Tawas City, became the bride of Richard J. Walz of Bay City. The ceremony took place in the East Tawas Methodist church on Tuesday, at 6:00 p. m., with Rev. L. Wayne Smith officiating.

The bride wore a gown of white slipper satin, fingertip veil and her flowers were white gardenias and carnations. The bridesmaid was Miss Marion Hill, sister of the bride, and her gown was of lemon colored satin under net. Her flowers were pink carnations and gardenias. Gerald Walz of Bay City assisted his brother.

A reception followed the ceremony at the Lorenzer Hall in Bay City.

The groom is in service and will leave this week for California.

Young Womens League

The Young Women's League will meet Monday evening, February 28 at Barnes Hotel at eight o'clock.

A Herald Want Adv. will sell it for you, at Low cost!

Tawas City Elks Again Defeat Mio Bengals

Elks Record Now Stands At 15 Wins and Two Losses for Season

The Tawas City Elks again proved to be the Mio Bengals greatest nemesis this year when they again defeated them Friday night in a 34 to 32 tussle. The Elks won from Mio earlier in the season, and these two games were the only defeats that Mio suffered this year. The Elks record now stands at a very formidable 15 wins and two losses. The Elks who clinched the Huron Shore League title last week, will meet Harrisville in the season finale, before the district tournament which will be held here March 3-4-5. The Elks defeated the Harrisville Tigers earlier in the season 65 to 40.

Tawas City's other two teams were also successful against Mio, when the Reserves won 38 to 22 and the Girl's squad won 32 to 16. The Mio team jumped to a first quarter lead over the Elks when Koch garnered four points, Milligan three, Smith two and Houlton one.

The Elks followed closely behind with nine. Bruce Myles collected four, McGuire and Westcott each two, and Look one.

In the second quarter the Elks took the lead when Bruce Myles connected for four, McGuire two and Look one.

The Mio squad was held down without a field goal, but were successful in the free throws with Smith, Houton, Koch and Burr each connecting for one. Half-time score: Elks 16, Mio 14.

In the third quarter the Elks strengthened their lead when Don Westcott dunked 10 points, Look two and Bruce Myles one.

The third for Mio, found Koch hitting for four points, Smith three, Houlton two and Milligan one.

The last quarter the Elks' lead was slowly pared down by Mio. The Elks stalled the ball the last three minutes with a four point lead. The Mio team successful on a field goal were unable to hit the hoop again and fell two points short. Westcott, who played the entire last half with four personals marked against him, garnered five points for the Elks for their scoring.

Houlton collected three, Milligan and Smith each two and Koch one for the Mio team.

Don Westcott, center for the Elks led in scoring with 17 points. Following him were Bruce Myles, with nine; McGuire and Look garnered four, while Graick, Del Myles and Smyczynski were held scoreless they nevertheless played fine defensive game.

(Continued on Sport Page)

CARD OF THANKS

I wish to express my sincere appreciation to all who sent me cards, letters, flowers, words of encouragement and help in any way, while I was away in the hospital.
Mrs. Arthur Allen,
and family.

Wm. J. Grant Dies Monday

Had Been Iosco Road Commissioner 27 Years

William J. Grant, highly esteemed resident of Oscoda and former Iosco county road commissioner, died Monday at the home of his daughter, Mrs. Lorina Heath at Detroit. Mr. Grant was well known throughout the state and had been a member of the Iosco County Road Commission for 27 years.

He was born September 10, 1862, at Stratford, Ontario, and had been a resident of Oscoda for many years. He is survived by four daughters; Mrs. Bernice Spencer of Mikado, Mrs. Lorina Heath and Mrs. Florence Christina of Detroit and Mrs. Mabel Flemming of Bellville; one son, John R. Grant of Great Bend, Kansas; a brother, George Grant, of Port Huron, and a sister, Mrs. Myra Schappi of Battle Creek.

Funeral services were held Thursday afternoon from the Oscoda Methodist church. Rev. B. R. McNally officiated. Last rites were given by the Masons.

20th Century Club Elects Officers

The annual meeting and election of officers of the Twentieth Century Club was held last Wednesday at the home of Mrs. George A. Prescott, Jr.

The present staff of officers were re-elected for their second year. The officers are:

President Mrs. E. F. Potts
Vice President Mrs. A. P. Jerome
Sec. Vice President

Treasurer Mrs. G. P. Liske
Secretary Mrs. J. F. Mark
The revised constitution and by laws were adopted and honorary membership was voted for Mrs. Nellie Robinson and Miss Margaret E. Worden. Two new members, Mrs. Glen Schlaack and Mrs. Charles VanHorn joined.

The next meeting on March 9th will be held at the auditorium and an address on Health will be given by Dr. J. K. Altland of the Michigan Department of Public Health. This meeting is open to the public.

A social hour followed with lunch served by the hostess.

Rites Held for Two Iosco Soldiers

M-Sgt. Frank Bibin and Pvt. William Lubaway

Two Iosco county soldiers returned for reburial were given military services at Detroit during the past week.

M-Sgt. Frank Bibin, son of Samuel Bibin of this place, was given reburial services by Thomas A. Edison Post, American Legion, at the White Chapel Cemetery, Detroit, Saturday. Sgt. Bibin is survived by his father, a son Frank a sister, Mrs. George Frola and a brother, Peter.

A student at Wayne University when he enlisted, he died in the Air Forces in the Philippines, May 24, 1942.

Pvt. William Lubaway, son of Mr. and Mrs. Joseph Lubaway of this city and Wyandotte, was reburied in Holy Sepulchre Cemetery, Wyandotte, Tuesday. Services were held at St. Elizabeth church.

Pvt. Lubaway was killed in action in 1945 at Okinawa.

In addition to his parents and brothers and sisters, he is survived by three children.

East Tawas P-TA

Last Monday evening the East Tawas P-TA met at the High School with Mrs. Mary Wilson in charge. Harold Clark reported on the work the Fathers of the P-TA did in the January Carnival. He reported over \$200.00 donated to the Library Building Fund.

Mrs. Frances Bigelow demonstrated with samples of rain capes for the Safety Patrol. The P-TA decided to purchase eight rain capes to be used by the Safety Patrol.

Stuart White was appointed vice president in place of John Colver, who had resigned.

A Magician Show to be held in March at the Community Building was planned.

A program was given by the girls of the Home Economics Course, directed by Mrs. Harold Clark. The seventh grade demonstrated with a show of hand made aprons, the eighth grade with an exercise on the seven basic foods, the ninth grade demonstrated with a style show of gowns, suits, skirts and blouses made in the home economics class.

After the meeting the ninth grade mothers served a lunch in the home arts room.

NEM Resort Owners to Convene Here

Convention and Resort Suppliers Show Set For April 12, 13 and 14

At a luncheon held Friday noon at the Hotel Holland, preliminary plans were made for a resort owners convention and three day institute to be held here April 12, 13 and 14. Resort and cabin owners from the 11 Northeastern Michigan counties will participate.

Taking part in the discussion of plans at the luncheon, were resort and cabin owners and representatives of the Tawas Chamber of Commerce which will sponsor the event. L. R. Schoenaman and Gladys Knight of Michigan State College discussed the three day institute program which will be given under the auspices of the Conservation Department of Michigan State College. A show will be held in conjunction with the convention and institute. Participating will be manufacturers, jobbers and suppliers to resort and cabin owners.

During the three days there will be daily institute classes with L. R. Schoenaman at the head. The various phases of instruction will be under the guidance of the following Michigan State College institute instructors; Clare Gunn, engineering grounds, buildings and landscapes; Gladys Knight, food service; Robert McIntosh, recreation; guest activities and business administration.

It is anticipated that about 400 resort and cabin owners in the area will participate in the institute and convention. The eleven counties include: Arenac, Iosco, Alcona, Alpena, Montmorency, Cheboygan, Presque Isle, Otsego, Ogemaw, Oscoda and Gladwin.

The three day convention, institute and show will be sponsored by the Tawas Chamber of Commerce, with the Resort and Cabin Owners committee of that organization in charge. Arthur L. Johnson is temporary chairman. The following sub-committee chairmen have been named: Cecil Cabbie, program; Floyd Ketcherside, luncheons and dinners; Gordon Everett, publicity; Ray Bristol, suppliers show. Harold Clark, county agricultural agent, is the Iosco county representative of the Michigan State College Conservation Institute. Agricultural agents from all districts of the area will participate.

A meeting of the Resort and Cabin Owners Committee and the several sub-committees will be held each Monday evening to prepare the program and make arrangements for the event.

Ladies Literary Club

Beethoven, his life and works, particularly what inspired him to compose the "Moonlight Sonata," was the theme of a series of readings given by Mrs. Russell McKenzie at the Ladies Literary Club of East Tawas, at the February 26 meeting.

Mrs. McKenzie was introduced by Miss Helen Applin, chairman. The readings were followed by two piano solos by David Moehring, "The Erl King," by Schubert and "Moonlight Sonata," by Beethoven, the first movement.

A patriotic arrangement of red, white and blue flowers and candles centered the table, where tea was served by the hostesses, Mrs. W. A. DeGrow, Miss Ruby Evans, Mrs. O. W. Mitton and Mrs. Stuart White.

The club voted to sponsor a benefit bridge at the Community building on April 25th, the proceeds to go to the Library Fund. A meeting of Friends of the Library will be held at the club rooms on February 28, at eight p. m.

The next meeting of the club will be held March 2nd in the club rooms at 2:30 p. m. Miss Leonora Hass is chairman for the day and the hostesses are Mrs. Elmer Kunze, Mrs. C. J. Creaser, Mrs. Luther Jones and Mrs. Wayne Smith.

VA Contact Representative Visits Here Soon

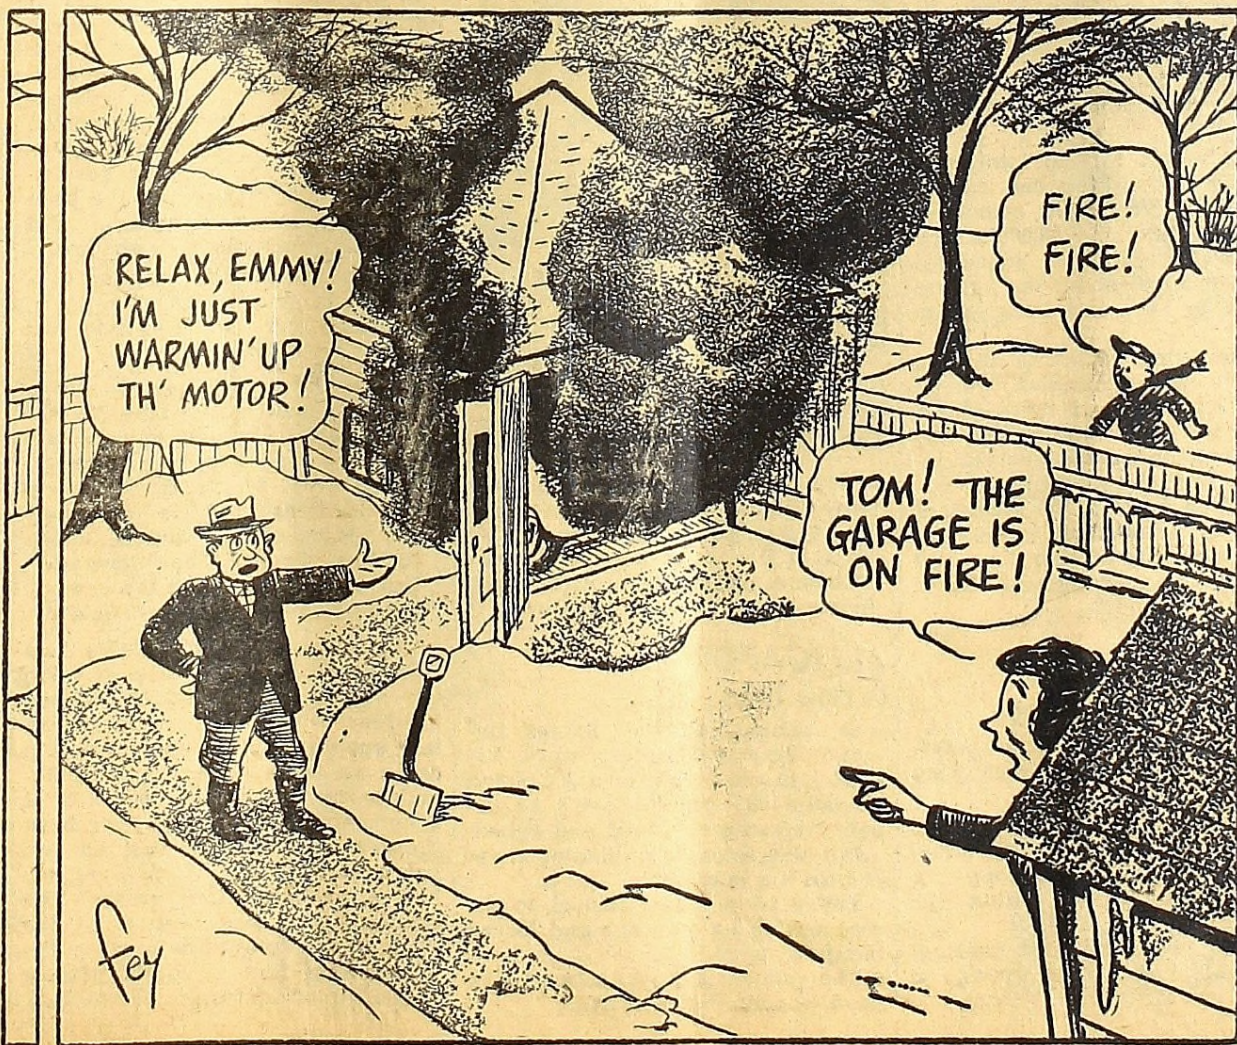

The next visit of T. J. Kennelly, Veterans Administration Contact Representative, to this area will be to Tawas City, Tuesday, March 1, 10:00 A. M. to 1:30 P. M. at the Court House, School Commissioner's office.

East Tawas Honor Students Chosen

Miss Gay Gordon and Miss Pat McCall have been given top honors of the Class of 1949 of East Tawas High School.

Miss Gordon has been chosen Valedictorian and Miss McCall Salutatorian honors for graduation.

Winter Scene

WEEKLY NEWS ANALYSIS

Church Raps Mindszenty Verdict; Dewey Dons Attire of Liberalism; People Checked Inflation Threat

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

MINDSZENTY: Gets Life Term

The trial of Cardinal Mindszenty, primate of Hungary, was over and the verdict came as no surprise. The Cardinal was sentenced to life imprisonment on charges of treason and black marketing. If there were an unexpected element in the outcome it was that he was spared.

But at trial's end even that hung in the balance. Cardinal Mindszenty still could lose his life. Under Hungarian law, while his sentence of life could be appealed, the supreme peoples tribunal, last court of appeal, could increase the severity of the sentence which, in this case, could mean only death.

THE CARDINAL was doomed from the outset. His plight had so stirred the Christian world that denunciations of the Hungarian government's actions were almost universal. Powerful western nations, through their leading churchmen, had attacked the trial procedure and this, in turn, had incensed the Communist-dominated Hungarian court to a point where the issue was never in doubt.

It was generally believed that it was only reluctance to make a martyr out of the Cardinal that averted the death penalty. Hungary lost no time in assailing American representatives who actually, or purportedly, sided with the cardinal. Among targets of these attacks were Cardinal Spellman, of New York, who delivered a scathing sermon against prosecution of Mindszenty, and Selden Chapin, U. S. envoy to Hungary.

AMONG OTHER THINGS, Cardinal Mindszenty was accused of gathering information for Chapin in a scheme to overthrow the Hungarian government. Chapin immediately branded this charge as "pure fantasy."

General opinion was that in the prosecution of the Cardinal Russian communism had made its first great blunder. For in the move was discerned the fact that religion and religious concepts—whether Catholic or Protestant—would not be permitted to stand in the way of Soviet aims.

THE RUSSIANS had restricted a policy which once before had so alarmed them that they had forsaken it. But now they were publicly and dramatically recommitted to it—a policy of the Kremlin versus Christ, and this time the Soviet Union was up against an adversary for whom there can be no defeat.

INFLATION: People Curbed It. The people, themselves, can claim major credit for the recent check to national inflation. That is the conclusion of the family economics bureau of the Northwestern National Life Insurance company which conducted a study of the subject.

THE STUDY developed that a slowdown, halt, or reverse of six main factors in the 76 per cent rise from pre-war price levels had been brought about. It found that as late as last September, the public still was bidding frantically against each other for more goods than were being produced in many lines. But in the final two months of 1948, consumers suddenly quit trying to outbid each other.

With industrial production in high gear and comparatively free from interruptions, output and available supplies of most consumer goods were gaining steadily. Government bidding for grain in Europe, which ran grain prices up to record heights last year, slowed down as world grain production recovered.

THE LONG RISE in wage-costs-per-unit of goods was slowing down, the study said. Continuing its listing of the six factors, the study reported that rapid expansion in money supply, both cash and credit, due to vast government borrowing, had also slowed down.

Borrowing by business for expansion was listed as the sixth factor which was slowed down because of tightened restrictions. But the first and foremost cause of the current price deflation, the study concludes, has been the halt in the public's scramble for goods. By trimming their demands to fit within available supplies, the people have recaptured some of their normal control over prices.

HELP GIVEN NAVAJOS

Government Feeding Snowbound Indians

Operating overland and by air, the federal government was engaged in the business of caring for its snowbound Navajo wards. Caught almost as helplessly as cattle in the worst blizzard to strike the plains states in years, Indians on the vast Navajo reservation were being fed by a 300-mile life-line maintained by the government. With sheep and cattle starving

CARDINAL MINDSZENTY For a principle, life

GOP'S DEWEY: New Liberalism

For a man who was strangely reticent about plans while seeking the presidency of the United States, New York's Thomas E. Dewey turned vocal and voluble in his Lincoln Day address in Washington.

In the diminutive governor's remarks there was no apology for defeat and no supine bid for favor. Instead, he lashed out vigorously against party policy and advocated a purge of "anti-liberals" from GOP ranks.

That there was a noticeable paradox in his position apparently disturbed him not at all. While crying for those who oppose "liberal progressive" policies to get out of the party, he struck out also at New Dealish elements inside the organization.

Urging his party to stop bemoaning the past, he recommended that it dedicate itself anew to forward-looking programs of social progress but without "trying to outbid the Democrats with the public money."

It was Dewey's first public address since his defeat last November, and in it he reminded his listeners that the last GOP platform expressed wholehearted belief in unemployment insurance, increased old-age assistance, broader social security generally, slum clearance and public housing, public development of water power, and farm price supports.

These words must have left some of his hearers stunned. Surely, they must have asked themselves, why weren't some of these things mentioned during the multiple appearances of their presidential candidate last year?

But, Dewey, ever the realist in facing a situation, however he may react to it, conceded that the party was split wide open in a fight between two extremes of thought. And then he uttered a remark which must have brought some sly smiles. He said: "What we ought to do . . . is to make it everlastingly clear to the country where we stand and why."

INCOME: Average \$3,000

The average annual income of the American family was climbing. In 1947 the average was \$3,000, highest ever recorded up to that time. The federal census bureau, which issued the report, found that income was distributed among the country's 37 million families in this manner:

FOUR MILLION had under \$1,000; six million had \$1,000 to \$2,000; eight million, \$2,000 to \$3,000; eight million, \$3,000 to \$4,000; four million, \$4,000 to \$5,000; three million, \$5,000 to \$6,000; three million \$6,000 to \$10,000; and one million, \$10,000 or more.

Thus only four million families—or slightly fewer than one out of each nine families in the country—had in that year the \$6,000 which President Truman has suggested as the starting point for the income tax increase he asked Congress to consider.

An interesting factor is that in one fourth of the families, women earned 25 per cent or more of the family income, and more than two million families were supported entirely by female breadwinners. Who fared best in the average? Farm wage-workers came out best. The income of this class had jumped from an average of \$300 in 1939 to \$900 in 1947.

GREEN LIGHT: Waits Faithfully

Harry S. Truman, of Independence, Mo., is getting into a habit of popping up as a poll topper in this or that department. "Man of the year . . . most popular, etc., etc." are some of the poll winning titles he already possesses.

Now, he has come up with another. Mr. Truman is the nation's No. 1 pedestrian. No less an authority than that National Safety Council has so designated Mr. Truman.

THE ASSOCIATION'S magazine, Public Safety, pictured Mr. Truman on its cover and commended him for his interest in safety. The traffic advisory board of the District of Columbia hailed the President's "firm decision to wait faithfully for the green light before crossing Pennsylvania avenue."

Mr. Truman turned down a suggestion that a special traffic control be established for his daily walks between his temporary residence at Blair House and the White House. Mr. Truman said he preferred to obey the traffic signals "like any other citizen."

A-BOMB DATA: Reds Demand It

The Russians just couldn't stay out of the news. But in an utterance which commanded American headlines, they revealed themselves as almost childishly naive.

With the cold war as hot as it could be, short of the bullet stage, the Soviets had the gall to demand that the United States tell them how many A-bombs this country has and provide full data on armed forces and armaments. Never modest in demands, the Soviets set a deadline for receipt of this information. It was March 31, 1949.

HOWEVER, they wouldn't be completely selfish about the matter. They demanded that the report on these matters be made to the United Nations, of which Russia is a member.

Warren R. Austin, U. S. delegate to the U. N., dubbed the Soviet resolution a "succotash of all the beans and different constituents" Russia has put to the U. N. on the arms and atomic questions since the world peace organization was formed.

Even a non-betting citizen might be excused for risking a sawbuck that the Russians would have nothing but their pains in proposing that the U. S. bare its atomic war potentials to the Kremlin. B-29'S: Direct Hits

The army air force was making a point for its contention of its importance as an effective arm in itself. Four air force B-29's scored direct hits on nine fighting ships attacking Kodiak island in the navy's north Pacific war games. An airman aboard one of the bombers said the formation spotted the nine ships 250 miles southeast of Kodiak and registered bombing hits in three runs at 20,000 feet.

THE SHIPS were part of a navy task force attempting to retake the island from a theoretical enemy. The report was significant from two standpoints. First, because the air force termed it important enough to report. Since that was done, it was motivated, probably, by the fact that the air force wanted to show that it had demonstrated the efficacy of the power of land-based planes in an off-shore attack.

Closeup. This latest excellent profile of General of the Army Douglas MacArthur was made when he arrived at Haneda airport, Tokyo, to welcome ranking generals and officials of the far east command.

ALLIGATOR: Nothing Fatal. In Alencon, France, Santos Dumot, circus performer, stuck his head into the mouth of a 300-pound alligator—his regular act. As usual, the audience oohed and aahed. But this time, the alligator snapped his big jaws shut. The actor's father rushed to the rescue with an iron bar and forced the jaws open. The younger Dumot suffered deep head wounds, but will live.

Washington Digest

American 'Know How' Aids In Development of Nations

By BAUKHAGE News Analyst and Commentator.

WASHINGTON—When the various departments of the government began to gather data for the President to be used as the basis for the liminary legislation for his "bold new program" of establishing the machinery of world cooperation for the development of undeveloped countries, it was a surprise to many to learn that many of these agencies are by no means starting from scratch.

The department of agriculture, of course, has had the longest and most successful record in this line—a good 10 years. In 1939 it had become all too evident that in a world where the free flow of trade was threatened by rising anti-democratic hegemonies, we had to look to our nearer neighbors for many things which we did not produce at home, and which they could, but did not, produce themselves.

Congress was quite willing to authorize the department of agriculture to lend some of its technicians to other countries and to help such countries as were willing to cooperate to set up agricultural stations for the purpose of putting American techniques into action.

BAUKHAGE

For those who may have questioned the expenditure in this connection, there is some satisfaction in noting that the experiment paid, from the standpoint of all concerned including the peoples of the countries involved. On the average the United States puts out one dollar for each three dollars spent by the other countries. In 1943 Latin American countries were expending \$500,000. In 1948 they invested \$1,178,000.

The countries in which the stations are located, an official of the department explained, supplies "land, buildings, associate technicians, office and service personnel, equipment and supplies available within the country, and funds for operating expenses." The United States supplies the "know-how" and the specialized equipment necessary.

The plan pays out, the department explains, this way. Assistance in raising crops such as cocoa, coffee, certain fibres, medical plants, tea and rubber, has increased the revenue from them. They are products in demand in this country, we don't or can't raise. The dollars they earn are turned into many manufactured products which these countries purchase from us.

In the last special report issued by the American military government on the Licensed Press of Germany, we have an example of another type of experience which the United States has had in attempting to provide the "know-how" for a foreign nation.

Some of the seeds which have been planted and which it is hoped will grow, thanks to the application of American techniques, are those which should produce a free and democratic press in Germany. It would be somewhat rash to try to teach the Germans all about the publishing business. After all Gutenberg, who invented printing, was a German, and ever since his time the Germans have taken the lead in many of the mechanical processes connected with the publishing business. But when the American occupation forces moved in, there was nothing that resembled a free press in Germany, and if there had been it hardly could have flourished under the conditions which then existed. Even today the best we can expect is a "nearly free press" and that is what it admittedly is.

In the United States zone and in Berlin there are now 56 newspapers licensed by the United States. These papers own a cooperatively-operated news agency. These publications are not, and never have been, "pre-censored." They are carefully read by the military government officials, and some have been suspended, after warning. But these occasions have been few.

The mission of the military government in the field of the press, as planned and applied to date, has for its first point: "To help democratically-minded and trustworthy German publishers and editors to build an objective, free, democratic press in the U. S. Zone in Germany and to prevent the resurgence of Nazism, militarism, racism, pan-Germanism, or nationalism in the newspaper and news agency field."

The special report explains that controls which were imposed when the papers were first established in order to conserve scarce materials, supplies, and equipment and in order to train editors, publishers, and journalists in the tradition of a democratic, free press have been progressively lifted so that for two years at least the U. S. zone has had a "nearly" free press. The eventual goal has been from the start an absolutely free press to the extent that this condition obtains in the United States and Great Brit-

ain or other democratic countries. What have been the results? In the view of the military government:

"Democratically-minded and trustworthy German editors and publishers have established a solid core of independent and democratic newspapers in the U. S. area of occupation. They have been encouraged to maintain their independence and objectivity against all attacks and to resist the encroachment of government or of other special interest groups and protect their right to bring the news of Germany and the world to the people of Germany and to comment upon it."

The question that remains, however, is this: when the controls and the existing regulations are removed, will the Germans graduate from a "nearly free press" which the Americans have encouraged to a genuinely free press which Americans consider an essential of democracy? Will the Germans, who for centuries have accepted control and regimentation from above, be able to start out afresh and make use of the democratic techniques to which we have attempted to expose them? That is one kind of "know-how" it is hard to pass on.

Haylift Whips Winter Blizzards

The winter storms which attacked the range country and presented what looked for awhile like a major tragedy to the cattle industry didn't turn out to be as bad as some people feared, but it might have been considerably worse if it hadn't been for what happened in the Pacific islands in World War II. The Japs wrote epic history on a clean slate.

The same might be said of the air force, so far as the snowbound ranchers, especially those in Nevada were concerned. There the haylift took them over the first, worst hump of the storms. The Great Plains always have furnished hazards unknown to other parts of the North American continent.

As C. Warren Thornwaite, soil conservation expert of the department of agriculture says of the Great Plains: "In a desert, you know what to expect of the climate and plan accordingly. The same is true of humid regions. Men have been badly fooled by the semi-arid regions because they are sometimes humid, sometimes arid, and sometimes a cross between the two. Yet it is possible to make allowances for this, too, once the climate is understood."

One of the worst blows in the winter storms was struck in the southwestern part of the area affected, southern Nevada and northern Arizona, where ordinarily there is all-winter feeding. There are low altitude ranges there which make it unnecessary, under normal conditions, to provide winter feed. When these were cut off there just wasn't any feed available.

The early settlers who struck west were suspicious of the plains. They didn't realize that the gama and the buffalo grass which covered those plains and provided plenty of sustenance for the millions of buffalo which roamed them unmolested, could resist drought as efficiently as it does. For miles there would be no water in sight to the men in the prairie schooners, so they took for granted the land was not liveable and pushed on to the coast. The grass, as long as it was there—and the buffalo were good conservationists and didn't overgraze it—reduced the run-off after rains and prevented erosion.

But the first adventurers had westward-ho written in their hats anyhow, and they headed toward the coast. Then came the farmers. The cattlemen were driven further west, the plow broke the plains and dug the dust bowl. But agriculture is a closer-knit industry now and it had many means of assistance besides the army upon which to draw to help combat the recent blizzards—help which the early plainsmen didn't have; the department of agriculture had its organization; the foresters had equipment easily pressed into service.

Classified Department

BUSINESS & INVEST. OPPOR. CHINCHILLAS, \$800 PAIR, cash or terms with guarantee. LAURENCE S. KEMP, 10230 Telegraph Rd., Carleton, Michigan. EXCEPTIONAL OPPORTUNITY Restaurant, truck stop. Made ESPECIALLY FOR KIDDIES' CHEST COLDS to relieve coughs—aching muscles! Child's Mild MUSTEROLE

WNU-O 08-49

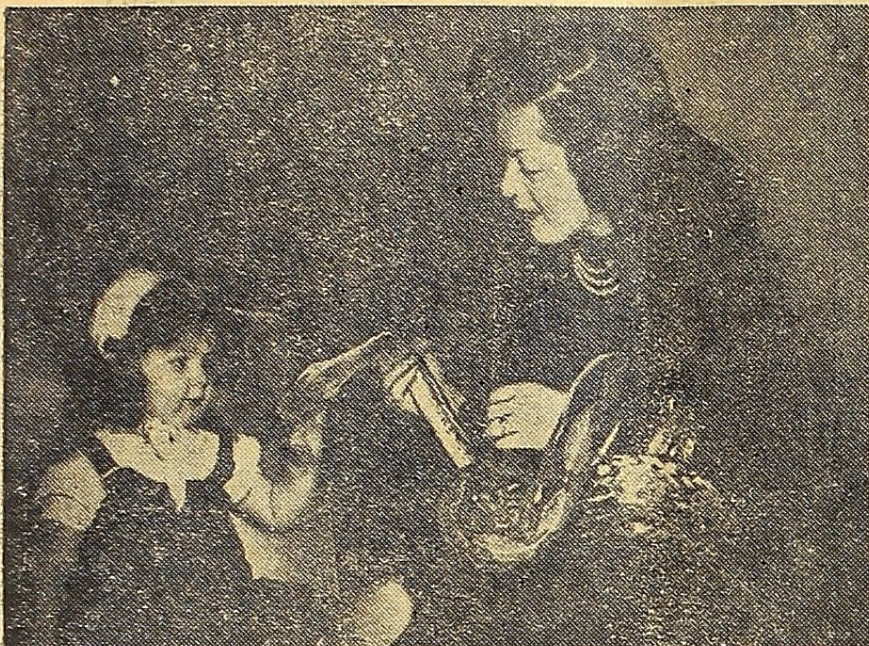

Kidneys Must Work Well-

For You To Feel Well 24 hours every day, 7 days every week, never stopping, the kidneys filter waste from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly. Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headache, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's? You will be using a medicine recommended by the country over. Doan's stimulates the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Doan's Doan's. Use with confidence. At all drug stores.

BENNY-SPONSORED MARCH COMES TO END . . . Ye old covered wagon, shown above, arrived in Washington with a carload of pennies, the end of a coast-to-coast trip sponsored by Jack Benny to raise funds for the March of Dimes campaign. Left to right: Rep Helen Gahagan Douglas of California, acting in behalf of Benny, presents check to Assistant Treasury Secretary Edward H. Foley, Jr., as Janet Glenn, 10, who was stricken with polio last year, holds Benny's violin

COURT WOULD PROTECT SNAKES . . . Usually it's the other way 'round, but a Yorkville, N. Y., court had Zorita (above), night club entertainer, arraigned on ASPCA charges that she was cruel to snakes by placing scotch tape on the reptiles as they did their act. She is shown here with her pet python, "Elmer," which is being petted by her 20-month old daughter, Tawny. Bail was set at \$1,500 and the snakes confiscated. "Elmer" is a 10-foot-long rock python.

HAS HIGH HOOPER ON THE NETWORK . . . It looks easy enough when you watch an expert like Juan Montalvo toss a 25-foot net 40 feet out into the briny. But Juan has been doing this since he was 12 on his native Cabras island. Puerto Rican fishermen make these nets from five spools of nylon at a cost of about \$16. When expertly handled, the net will cover a large area, trapping mullet, red snapper and other small fish which travel in schools. Using it is a definite art, however, and the beginner would have little luck with the net.

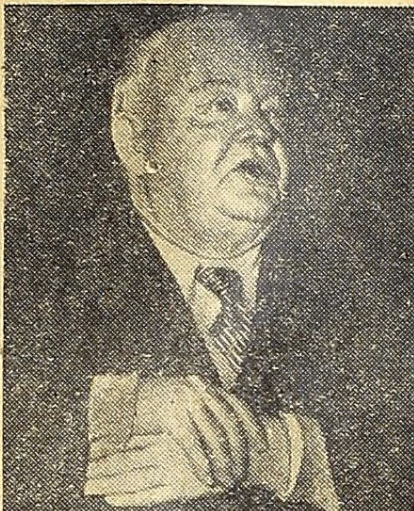

DAUGHTER OF STAR MAKES CAMERA BOW . . . Making her camera bow with her famous mother is Deborah Leslie Dozier, who was born November 5, 1948. She is cuddled in the arms of her mother, screen star Joan Fontaine. Deborah's father is motion picture producer William Dozier. Already the little lady is giving promise of such beauty as may win for her in later years something of the recognition her mother has won in her screen career.

AIDS BLIND HORSEMAN . . . Seeing Eye dog Moki, still has functions to perform, even if his master, Robert Coleman, has taken to horseback riding. Here Moki stops horse and rider at a traffic light in Chicago. Coleman's three-gaited mount is Northern Star.

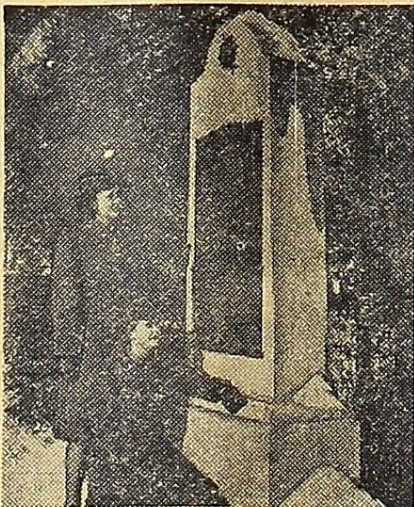

WALLOWS IN MEDICINE . . . Taking his medicine with obvious relish is five-year old Kenneth A. Curtis, Jr., who is suffering from nephrosis, a kidney ailment. A doctor prescribed water-melons as a possible cure.

REMEMBER HIM? . . . This is former President Herbert Hoover as he appeared before congress to testify in behalf of the proposal to cut down expenses of government. He heads a commission studying the subject and has made many recommendations.

CROSSES POLE . . . First Lieut. Margaret C. Flynn, Philadelphia nurse now serving with the air force in Alaska, has won the distinction of being the first woman ever to cross the North pole. She went along in a B-50 bomber.

WACS AT WEST POINT . . . The cadets may never have believed it, but women are quartered at West Point now as evidenced by this photo of WAC's Jewel Strutzenberg of Chicago, (kneeling) and Marjorie Hart of California, Mo., as they inspect the grave of Molly Corbin, Revolutionary war heroine.

The "Rich Poor"
FEW, IF ANY, economists of recognized ability ever question any statement made by Father Edward Keller, director of the Bureau of economic research at the University of Notre Dame. The facts and figures used in this little piece are from his recently issued book, "Who Gets How Much for What in America," published by the Economic Foundation.

The man who leans toward socialism, who, if you have two pigs and he has none, expects you to divide your pigs with him, will tell you he feels that way because our distribution of wealth and income is unfair. For he believes the American profit dollar is split, 75 cents going to owners and 25 cents to workers.

Such is the fanciful statement made by some—a considerable sum—of those looked to for guidance by the masses.

FATHER KELLER says such figures are at variance with the facts and, in his new book, definitely proves his point. His analysis is on the basis of the income of individuals, workers, owners—all of us—for the year 1944, the latest year for which complete data is available. That data is largely from government records.

In that year there were 42,354,468 Americans with taxable incomes, including 39,886,914 with incomes of \$5,000 or less; 1,834,433 with incomes of between \$5,000 and \$10,000; 495,481 with incomes between \$10,000 and \$25,000 and \$117,640 with incomes of more than \$25,000.

Income is derived from wages, from interest and dividends and from rentals. Of all of these sources, the larger proportion of what they produce goes to the lower-income group.

FATHER KELLER shows that in 1944 those in the \$5,000-and-under group received, as a group, 82.6 per cent of the total income; those earning over \$5,000 received 17.4 per cent, and those earning over \$25,000 received 4.4 per cent—before federal taxes had been deducted. After payment of federal taxes those in the \$25,000-and-over group had left only 1.3 per cent.

When we realize the difference in the federal tax rate between those in the \$5,000-and-under group, as compared with those in the \$25,000-and-over group, it is easy to see there is no vast difference in net income.

The fact is that, in America, the so-called poor are growing richer, and the so-called rich are growing poorer with each passing year. In no country in all the world, not even those with socialistic governments, is there such equal distribution of wealth as in the United States.

THERE ARE TO-DAY very few excessively-large incomes. If all such incomes were divided between those in the \$5,000-and-under group, it would give to each one not so much as an extra 50 cents a year. Out of such large incomes as there are comes a heavy portion of the cost of government. As far as income-distribution is concerned, we come nearer being socialistic than socialistic England, or any other nation.

What Price Government?

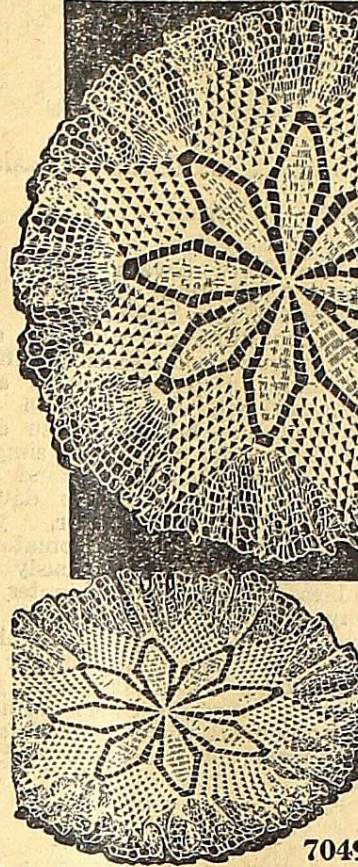

Though having no part in it, I listened to a conversation among three men as they stood on a street corner. Two were carpenters and the third a plasterer. All were good American citizens, the heads of and providers for American families. The income of no one of the three was under \$4,000 a year.

Said one of the carpenters: "The cost of government is entirely too high. For my family of six, as an average, the cost is close to \$3,000 a year. I am not a Red, but I could as well be anarchist and get along without any government rather than pay such a price." The other two were inclined to agree.

That carpenter's first statement was factual. Taxes collected by the federal government amount to \$282 per capita each year. State, county and municipal taxes will add at least an additional \$200 per capita each year. It means we are paying just about \$500 per capita as the cost of government.

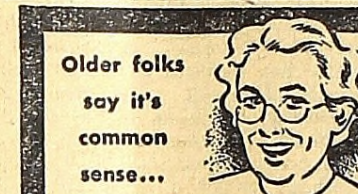

If those to whom we delegate the making of our laws and the spending of our money would try half as hard to save as they do to spend, our tax bills would not continually go up. Fact is, our public officials spend their energies on seeking new subjects for tax levies and for excuses to increase old levies. They are all too anxious to see their names engraved on the cornerstones of new public buildings which the people could get along without in these days of high taxes in all branches of government.

Ruffles Are the Latest Thing

7049

THE latest thing for everything! Ruffles! These flower-and-star doilies have perky ruffled borders. They're charming. Easy to crochet, this new ruffled doily. Make a set! Pattern 7049; crochet directions.

Older folks say it's common sense...

ALL-VEGETABLE LAXATIVE

NATURE'S REMEDY (NR) TABLETS—A purely vegetable laxative to relieve constipation without the usual griping, sickening, perturbing sensations, and does not cause a rash. Try NR—you will see the difference. Uncoated or candy coated—their action is dependable, thorough, yet gentle as millions of NR's have proved. Get a 25c box and use as directed.

FUSSY STOMACH? RELIEF FOR ACID INDIGESTION, GAS AND HEARTBURN. **TUMS** FOR THE TUMMY!

For Joyful Cough Relief, Try This Home Mixture

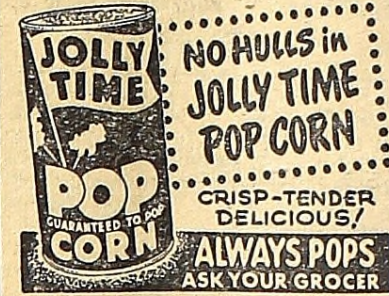

This splendid recipe is used by millions every year, because it makes such a dependable, effective medicine for coughs due to colds. It is so easy to mix—a child could do it.

From any druggist, get 2½ ounces of Pinex, a special compound of proven ingredients, in concentrated form, well-known for its soothing effect on throat and bronchial irritations.

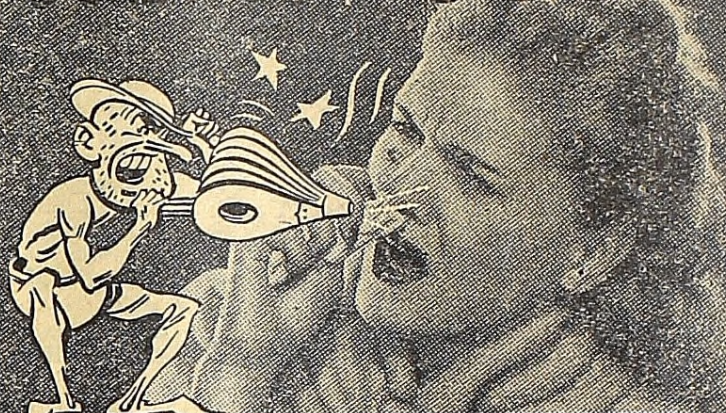

Then make a syrup by stirring two cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking needed. Or you can use corn syrup or liquid honey, instead of sugar syrup.

Put the Pinex into a pint bottle and fill up with your syrup. This gives you a full pint of cough medicine, very effective and quick-acting, and you get about four times as much for your money. It never spoils, and is very pleasant—children love it.

You'll be surprised by the way it takes hold of coughs, giving quick relief. It loosens the phlegm, soothes the irritated membranes, and helps clear the air passages. Money refunded if it doesn't please you in every way. **Pinex Saves You Money!**

IF PETER PAIN SHOOTS YOU FULL OF HEAD COLD

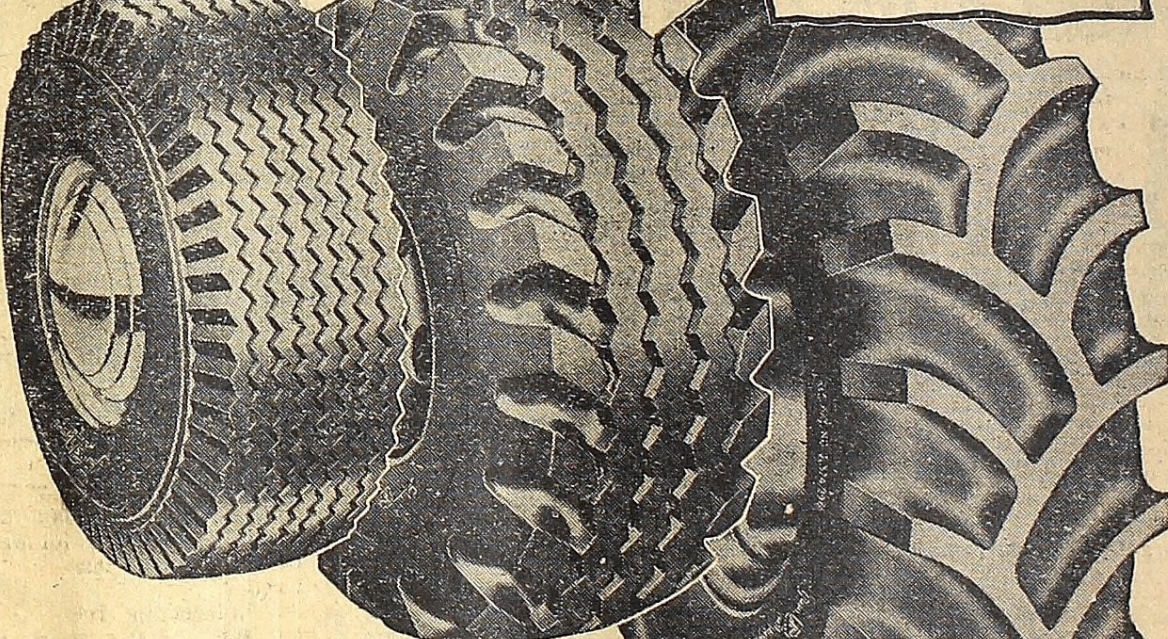

● Rub in Ben-Gay for gently warming, soothing, speedy relief from cold discomfort! Ben-Gay contains up to 2½ times more of those famous pain-relieving ingredients known to every doctor—methyl salicylate and menthol—than five other widely offered rub-ins. Insist on genuine Ben-Gay, the original Baume Analgésique. It acts fast!

Also for Pain due to RHEUMATISM, MUSCLE ACHE, and STRAINS. Ask for Mild Ben-Gay for Children.

QUICK... RUB IN Ben-Gay

Get NEW Firestone Tires NOW! Save Time and Trouble Later

FOR YOUR CAR DELUXE CHAMPION **FOR YOUR TRUCK ALL TRACTION** **FOR YOUR TRACTOR CHAMPION GROUND GRIP**

It will soon be time to get into the field again and you'll want your equipment in condition to go . . . and to keep on going through the planting and harvesting seasons. If you need tire repairs, retreads or new tires the place to go is your Firestone Dealer or Store and the time to go is now. You can save money and you may save a lot of time later.

Firestone builds a tire for every wheel that rolls on the farm including the famous Champion Ground Grip, the only tractor tire that

takes a full traction bite clear across the tread, Your Firestone Dealer or Firestone Store will be glad to put a set of Champion Ground Grips on your tractor and let you prove them to your own satisfaction.

- 3 Rules for Maximum Traction**
1. USE FIRESTONE CHAMPION GROUND GRIPS
 2. USE FIRESTONE HYDRO-FLATION
 3. USE ONLY 12 POUNDS PRESSURE

The Tawas Herald

Entered at the Tawas City Postoffice July 12, 1884, as Second Class Matter Under Act of March 1, 1879

P. N. THORNTON, Publisher

Anyone Can Color Scheme Room or Entire Home

Eager thousands of home owners who have always wanted to express themselves with color, no longer need fear the outcome of combining different colors to obtain their own color schemes. Their hesitancy in painting walls and woodwork will vanish with a sweep of the brush because color selection has now been simplified to meet today's demand for color.

With the help of a new device called the Color Calibrator, you just can't go wrong. It automatically picks out and harmoniously assembles, in a matter of minutes, as many as six different hues at the same time, to reveal a complete color scheme for a room or for an entire home. While designated primarily for choosing colors harmonies for painted walls, woodwork, floors, and furniture, the Color Calibrator works as perfectly and surely in selecting the color for rugs, upholstery, draperies, and such accessories as lamps, pictures and accent pieces. It is the only instrument of its kind which scientifically assembles colors in harmonious relationship.

Now on display at Fox Hardware and Supply, the Color Calibrator is ready to aid the home owner or decorator in the selection of colors and color schemes. Produced by Pratt & Lambert, Inc., hundred-year-old manufacturers of fine paints, the new device was designed and patented by Sterling B. McDonald, eminent authority in the field of color. It incorporates the use of a specially designed color wheel which is divided equally into 12 pie shaped segments or color families such as yellow, orange, red, green, blue, etc. Each color is in turn divided by seven bands of varying tints or tones of that color. These divisions are made for the purpose of classifying or segregating any color in the color family in which it belongs, regardless of its value or tone. All colors imaginable including tints or tones of all colors, belong to one of these color families.

At the center of the wheel mechanical chrome pointers revolve by hand to combine as many or as few colors as are desired. This instrument is so calibrated that the pointers always separate an equal distance from the center guide. As they will not extend beyond 120 degrees, the colors indicated by the pointers are always in perfect balance. The pointers may be turned to indicate true, split, alternate or double complements, triads, analogies or monochromatic with accent color harmonies. By referring to a selection of large cardboard sample sheets in actual color and coded to one of the color families on the Color Calibrator, or to Neutral (White, Black and Gray), the right paint for the right surface is easily found.

This direct adaption of a color wheel is, in itself, the easiest way of approaching color and in simplifying its use. Color wheels are almost universally used in teaching color and are relied upon by artists, colorists and decorators who must be unerring in their judgement.

While the home-owner will unquestionably make the greatest use of the Color Calibrator, it may also be used to color scheme an office, store, school, hotel, apartment, hospital or similar area. Educators have found its use externally helpful in teaching the subject of color.

Fox Hardware extends an invitation to everyone interested in color or color scheming to visit their store and examine or make free use of the Color Calibrator.

Farm Protection
No range, ordinary stove or furnace should be placed within three feet of unprotected woodwork, wood lathe or plaster partitions in building the farm home.

Uncle Sam Says

Small business firms can take a wise tip from many of their customers who have built a reserve nestegg of Savings Bonds through the Payroll Savings Plan for buying Savings Bonds. The Bond-A-Month Plan at local banks where the corner druggist, the grocer and the butcher maintain checking accounts is equally effective in providing a growing reserve for a business. For example, suppose you own a business which nets a \$1,000 a month. By investing \$200 a month in Savings Bonds through your bank's Bond-A-Month Plan you would have a \$2400 reserve in one year's time.

Sherman

Lee Erickson of Midland visited Mr. and Mrs. Walt Smith here Sunday.

Mr. and Mrs. Laurence Jordan visited relatives in Flint over the week-end.

Howard Koehn who is in the army and stationed in Kentucky spent a week here with his mother, Mr. and Mrs. Norman VanWormer and family of Chicago spent the week-end at the home of their parents, Mr. and Mrs. Elmer Dedrick.

A. F. Laffler of Davison was in town looking over his construction company. Several families from here attended the party at Whittemore, Friday night.

Floyd Smith spent Sunday with Dale Blust of National City.

Frank Clemmens of Sterling was in town Monday looking over some well drilling jobs. Mr. and Frank Smith and son visited the home of his mother, in Flint, Sunday.

Mr. and Mrs. Dave Powluss were in Whittemore Friday evening. Mrs. William Bamburg and mother spent Monday in Saginaw.

Lower Hemlock

Several couples from the Hemlock were entertained at the Walter Anschuetz home in Tawas City Sunday evening.

Mrs. Louise McArdle returned to her home Monday evening from Detroit where she spent two weeks with relatives and friends.

We are sorry to see Harold Bouchard on crutches. He injured his knee by falling on the ice.

Mr. and Mrs. Andrew Anschuetz spent Sunday afternoon at the Albert Cholger home.

Mr. and Mrs. John Katterman spent Wednesday afternoon with Mr. and Mrs. E. Youngs.

Mr. and Mrs. Ted Anschuetz took their son, Jack, to Bay City and Detroit for doctor's consultation.

Relatives and friends met at the John Katterman, Sr., home Tuesday evening to help him celebrate his birthday.

Burleigh News

Clifford St. James was at Standish on business Monday.

A. B. Schneider and George Grabow were at Prescott Saturday.

Mrs. Eva St. James and daughter, Mary Jane, spent the week-end in Bay City.

Orville Bellor and Pat Corrigan were at Tawas City on business Saturday.

Gerald St. James was at Bay City the first part of the week.

Mr. and Mrs. Joe Schneider of Sherman visited with relatives here Friday.

A number from here attended the party at the Community Building at Whittemore Friday evening.

Black Widow Spider

Black widow spiders are found in all parts of the United States. They are jet black with a conspicuous, orange-colored hour-glass marking on the under side. The bite of this spider causes extreme cramp-like pain and muscle rigidity. Death is reported in about 4 per cent of cases.

HOUSEHOLD MEMOS

by Lynn Chambers

Use of Green Color in Spring Food Menus Will Enhance Appeal

WHETHER IT'S a party you're planning or just a family menu you're preparing, take a tip from nature and use the delicate green colors of foods generously. They'll give the lilt of spring to your meals.

The green of vegetables may be combined with white or yellow to great advantage for appetizing meals as well as colorful tables. If you're cooking the green vegetable, it's important to remember that overcooking will make the delicate green look dull as well as lose important nutrients, so keep an eye on the clock.

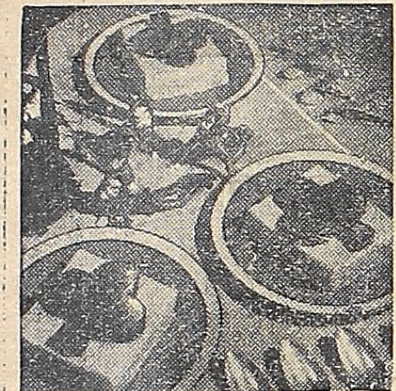

This is the time, too, when you can use many of the green vegetables in salad in raw form. Keep them crisp so there's no wilting and you'll have foods as fresh as the season itself.

IF YOU'RE PLANNING a St. Patrick's day party for oldsters or youngsters, you'll like this salad.

Grapefruit Lime Salad (Serves 8)

- 1 package lime-flavored gelatin
- 1 cup hot water
- 1 cup canned grapefruit syrup
- 1 cup drained, canned grapefruit
- 1/2 cup sliced stuffed olives
- Salad greens
- 1 avocado
- Mayonnaise or French dressing

Dissolve the gelatin in hot water. Add the grapefruit syrup then chill until mixture begins to thicken. Add the drained grapefruit and olives. Turn into small individual molds and chill until set. Unmold on salad greens, garnish with avocado slices and serve with mayonnaise or French dressing.

Begorra, if it doesn't look just like a party for the youngsters with perky lime gelatin shamrocks sitting prettily on slices of lime bavarian cream. Feature this delicious Irish dessert on a green linen or paper tablecloth, and you have a picture table.

IF YOU'RE GIVING a party for the youngsters and want to give them just a snack, you'll find the next recipe answers your problem completely. Perky shamrocks are set on slices of Bavarian cream, and are guaranteed to be the hit of the party. As a matter of fact, it would be a good idea to hang onto the recipe as it offers all sorts of possibilities.

With little chick cutters you can use lemon-colored ones for Easter, red and pink flowers for May day, etc. Serve them on a base of lime Bavarian cream or on plain cake or ice cream. Jolly thought, isn't it? Try it soon.

- *Lime Bavarian Cream (Serves 8 - 9)
- 1 package lime-flavored gelatin
- 1/2 teaspoon salt
- 1 cup hot water
- 1 cup cream, whipped
- 3 tablespoons sugar
- 1 cup canned crushed pineapple
- 1 package lime-flavored gelatin
- 1 1/2 cups hot water

Dissolve 1 package gelatin and salt in 1 cup hot water. Add pine-

LYNN SAYS:
Make the Most Of Vegetables

A dash of nutmeg and pickled onions added to new peas will lift this lovely vegetable out of the ordinary class.

Top asparagus served on toast points with cheese sauce and slices of broiled bacon if you want to make a complete vegetable luncheon.

Tomatoes may be stuffed with cooked corn kernels or those lovely baby lima beans. Bake just enough to cook the tomato.

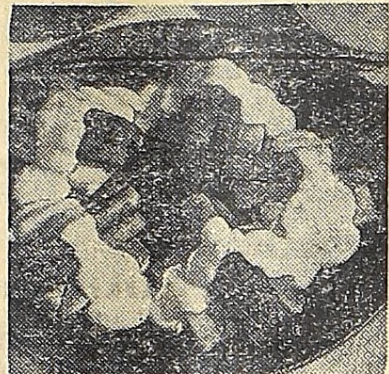

LYNN CHAMBERS' MENU

- Minted Fruit Cocktail
- Braised Lamb Steaks
- Mashed Potatoes
- *Spring Vegetable Platter
- Date Muffins Beverage
- *Lime Bavarian Cream
- *Recipe Given

apple juice. Chill until slightly thickened. Then fold in whipped cream. Add sugar to pineapple and fold into gelatin mixture. Turn into 10x10x2 pan and chill until firm.

Mean while, dissolve the other package of gelatin in 1 1/4 cups hot water. Turn into another pan of the same size as one used above. Chill until firm. Then cut 8 or 9 shamrock shapes with a shamrock cookie cutter. With spatula, carefully arrange shamrocks on first gelatin mixture, allowing one for each serving. Chill. Cut in squares.

If desired, cubed or iced gelatin may be used for decorating instead of shamrocks.

Asparagus tips riding on toast points with smooth, well-flavored cheese sauce make a truly spring-like dish for luncheon or supper. The green and yellow color scheme which this combination makes will make a welcome sight for winter-weary appetites.

ASPARAGUS, that aristocratic vegetable, which comes into season early in Spring is sometimes called sparrow grass. But whatever you call it, this handsome green-tipped vegetable is one of the true appetite treats of the season.

The vegetable can be changed from supplementary to a main dish if you serve it on toast with a cheese sauce because cheese is a high grade protein food. The cheese sauce is also an excellent idea to remember if you want to add interest to leftover vegetables.

- Asparagus on Toast with Cheese Sauce
- 2 tablespoons butter
- 4 tablespoons flour
- 2 cups milk
- 1/2 pound American cheese shredded
- Salt, pepper
- Hot, cooked asparagus tips
- Toast points

Make cream sauce with the butter, flour and milk. When thick and smooth, add the shredded cheese and stir until it is melted. Season to taste. Place each serving of asparagus on 2 toast points and cover with a generous amount of hot cheese sauce.

If you want to make a spring vegetable platter that looks pretty as well as one which interests winter-jaded appetites, this next recipe is just the thing:

- *Spring Vegetable Platter (Serves 6)
- 1 pound green beans
- 4 medium carrots, cut in strips
- 1 box frozen asparagus
- 1 hard-cooked egg, chopped
- 1/2 cup butter
- 2 tablespoons lemon juice

Cook green beans in boiling, salted water for 30 minutes. Cook carrots in boiling, salted water for 15 minutes. Cook spinach without water 5 - 8 minutes. Arrange spinach in center of platter and garnish with egg. Arrange drained green beans and carrots in spoke fashion around the spinach. Pour over them a sauce of the butter melted and mixed with lemon juice. Garnish the platter with the following: Roll slices of luncheon meat spread with salad dressing around tiny sweet pickles. Fasten with toothpicks.

Like creamed cauliflower? Stick 1/2 cup of salted almond meats in the white sauce after pouring it over the vegetable for appetite appeal.

Young cabbage cooked in milk rather than water is delicious to taste.

Melted butter mixed with lemon juice and chopped parsley makes an excellent sauce for whole cooked carrots.

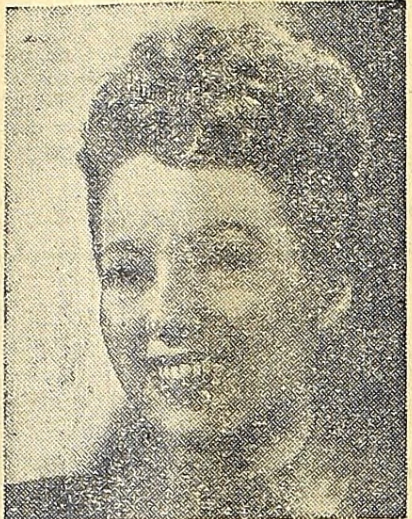

Cup of corn added to 3 cups of cabbage and seasoned with crisp, crumbled bacon and a bit of sugar is delicious.

Star Dust

STAGE SCREEN RADIO

Released by WNU Features.

By INEZ GERHARD
ONE OF THE REMARKABLE things about Evelyn Keyes is that she is not overshadowed by her brilliant husband, John Huston. She has worked hard for her success as an actress; at first she was always having to lose her southern accent for one picture and then get it back for another. One of her hobbies is collecting pre-Columbian

EVELYN KEYES

Mexican jewelry; the Hustons shopped for it in New York, only to have the dealer recognize them and double his prices. In her recent Columbia picture, "The Matting of Millie," Miss Keyes has a comedy role, but big dramatic parts are the goal she hopes to achieve.

Jenifer Jones had to rehearse wearing a hat for "We Were Strangers", since she and hats are strangers too—she never wears one. The script called for her to wear several, and that called for practise.

John Huston warns that his new picture, based on part of the book "Rough Sketch", is a shocker. In New York to receive the critics' award as the year's best director, for "Treasure of the Sierra Madre," he gave that warning. There's no need to ask if it will be good; Huston has the magic touch—possibly because he likes to write his own screen treatments, so he knows his characters thoroughly. Jenifer Jones, John Garfield and Pedro Armendariz star in this one, Columbia releases.

If ever you encounter Mr. and Mrs. Gail Shikles, don't be deceived; they are Alexis Smith and her husband, Craig Stevens, using their right names. They did it during their auto tour of the Grand Canyon; when people asked Alexis if she wasn't the star of "Whiplash" she said demurely that she was just Mrs. Shikles of Kansas City.

Gary Cooper isn't so lanky any more. He gained eight pounds in 24 days on G. I. rations, aboard the U. S. S. Antietam, while making action scenes for Warner Bros. "Task Force", now weighs an all-time high, 109 pounds.

Barbara Hale has a wonderful fan club. With headquarters in Philadelphia, it bought radio time to tell the world about Barbara's work in RKO's "The Window" and "The Boy with Green Hair."

Whenever anyone mentions parenthood in "Professor Quiz's" hearing he smiles. As progenitor of radio's first quiz show he's known as the daddy of the 400 or more now on the hour.

It was nothing new for Eddie Cantor to celebrate his 57th birthday by staging a big show for handicapped children and the March of Dimes. While on the Broadway stage he played six benefits in one night, a record. He was the first radio actor to combine good citizenship with good entertainment; is credited with coining the phrase, "The March of Dimes."

Radio executives plan to fill the summer season, when stars are on vacation for 13 weeks, with recordings of past shows by the same stars was no go. The American Federation of Radio Artists objected on the grounds that it would shut down an important talent showcase for AFRA members. They're right; many a good show has come from a summer replacement.

It looks as if Wendell Corey may have to fight to avoid being typed. He was fine in "Sorry, Wrong Number", was splendid as a detective in "The Accused", is being starred as an assistant district attorney in "Thelma Jordan".

Virginia Huston likes the name Scott. Her first break was in "Flamingo Road", with Zachary Scott. Then came Columbia's "The Great Manhunt", opposite Randolph Scott. Now she wishes Clark Gable would change Gable to Scott.

WOMAN'S WORLD

Busy Hands Require Daily Care To Prevent Their Losing Beauty

By Erta Haley

HOW OFTEN WOMEN have stretched out horny, unattractive hands to me after they finish a hard session at housework and said in dismay, "What can I do to them? They feel so awful."

It's difficult to undo the damage in a single treatment. The hands will remain not only unattractive but also uncomfortable as well, until the natural oils return to the skin. If you do hard work, the oils will return more quickly, but most women have to keep using their hands for washing, scrubbing and dishes and this, of course, is not conducive to healing.

Does this have to happen? No, believe it or not, no matter how busy your hands may be they can be kept soft, well-groomed and pretty if you will schedule some hand care in the daily routine. It need not be elaborate but you must be faithful to the beauty practice.

First of all, check the diet. This may seem far-fetched but hand health as well as anything else depends upon internal health. Certain vitamins, particularly vitamin A, keep the skin soft and pliable, and you must be getting the vitamin so the skin on the hands or anywhere else will keep soft and pliable.

Vitamin A is found plentifully in common foods such as the yellow vegetables. It's stored in the liver and is not easily destroyed by cook-

garden, or washing the family auto.

Just out are some very pliable plastic mitts which go on easily and come off without pulling or prodding. They do not fit the hands closely, thus allowing for a great deal of freedom. They're so lightweight, that you actually feel you're working without anything on the hands, and that's a very desirable thing, as any pair of busy hands, if they could tell you, would say.

It's also a good idea to keep your hand cream in the kitchen or laundry room—on an open shelf—if possible just to remind you to use it. When the cream is tucked away easily accessible when you're busy in the bathroom which is not as in another part of the house, it's too easy to forget to use it.

There's Proper Way To Use Cream

No matter on what part of the body you use cream for lubricating, softening and making skin smooth, never use anything but the most gentle action. A soft, round-and-round motion in massaging the hand cream is best. Beauty experts maintain that skin will stretch with any other motion.

For those of you who have an extra dry skin, it's wise to use a hand cream which has been fortified with lanolin, the fat of which is so beneficial a regular type of hand cream is best.

Even though you have protected hands during working time, it's smart to apply a bit of cream after finishing your work, to help smooth the hands. In case of chapping, or if you are going to be out-of-doors, apply hand cream for protection against the weather. Also it's not only the well-dressed woman but the wise one who protects her hands with gloves.

It's Easy to Keep Nails Conditioned

Any care that you give the hands in general will help out your nails, too, but they need a bit of extra care to keep them in good condition.

Here, again, it's a good idea to check the diet if your nails are breaking and cracking for no apparent reason. Nails require calcium and phosphorus as well as vitamins C and D to grow properly.

A well balanced diet including sufficient amounts of milk, eggs, meats, fish, cheese, fruits and vegetables will supply these, and in some cases the diet will have to be supplemented with vitamins to keep you healthy.

Plan to give yourself a manicure once a week if you cannot or do not have professional care available. Cut your cuticle if it needs trimming; otherwise just push it back with a gentle motion with the orange stick. Oil the nails while you work on the other hand, then wash in gentle soapy suds and dry the hand carefully.

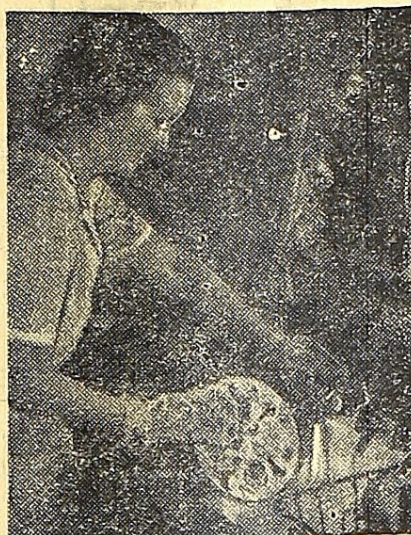

Now, file the nail into the shape desired; trim off any rough edges and make repairs as needed. Apply more oil to the nails and then after standing a bit, the hands are washed and creamed.

When Using Polish Do it Correctly

If you want to polish the nails, the polish will last longer if you apply a base coat to the perfectly dry nails. Usually two coats of nail enamel are applied, and this is topped with a protective coating that helps the nail enamel to harden as well as to last longer.

Keep an orange stick handy and have the tip of it wrapped in a bit of cotton which you keep dipping in polish remover to help remove polish from anything but the nail itself.

Protect Hands

Do you find kitchen gloves so clumsy that you'd rather get along without them and let your nail polish chip where it may? New, long-wearing flexible mitts of vinylite plastic that fit on either hand with equal ease offer a long-awaited solution to this daily problem. The mitts are unaffected by grease, acids or stains and give hands the freedom of action so desirable so there's no excuse for not wearing them every time you have a chore that threatens the hands or manicure.

Pattern No. 1622 is for sizes 14, 16, 18, 20; 42, 44 and 46. Size 16, cap sleeve, 4 1/2 yards of 35-inch.

Do you find kitchen gloves so clumsy that you'd rather get along without them and let your nail polish chip where it may? New, long-wearing flexible mitts of vinylite plastic that fit on either hand with equal ease offer a long-awaited solution to this daily problem. The mitts are unaffected by grease, acids or stains and give hands the freedom of action so desirable so there's no excuse for not wearing them every time you have a chore that threatens the hands or manicure.

Trimly Tailored Shirtwaister

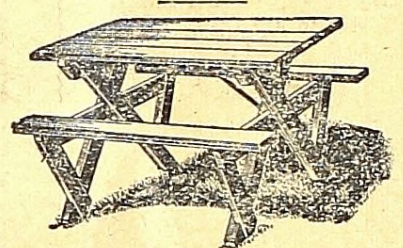

Toddler's Set Is Easy to Sew

Neat Shirtwaister Dress
SIMPLE, smart, wearable — the ever-popular shirtwaister dress that keeps you looking your best. This neat version has a choice of sleeves, makes up easily in almost any fabric.

Pattern No. 1622 is for sizes 14, 16, 18, 20; 42, 44 and 46. Size 16, cap sleeve, 4 1/2 yards of 35-inch.

Sturdy Table Ideal For Use in the Yard

THERE'S nothing like having an old fashioned picnic in your own backyard. Especially so when you have this sturdy table all set up ready to seat the entire family. Its construction permits leaving it out the year round.

The pattern offered below takes all the mystery out of building the table to any size needed. While the pattern suggests making it six feet, it provides complete, easy to follow, directions for making it longer, if desired. All materials used in building this table are stock size and readily obtainable at lumber yards everywhere.

Send 25c for FULL SIZE Picnic Table Pattern No. 22 to East-Bldg Pattern Company, Department W, Pleasantville, N. Y.

Household Hints

Gift wrapping paper from Christmas, birthdays, etc., makes a gay lining for dresser drawers.

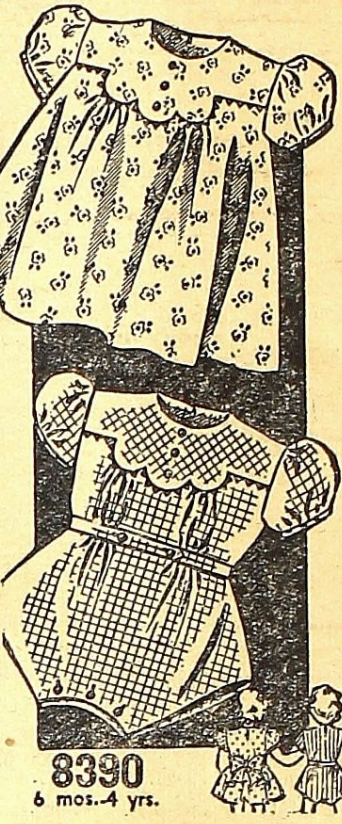

Wallpaper cleaner can be used to clean paper or parchment lamp shades successfully.

Water stained bottles can be cleaned by partially filling them with hot water, adding some small pebbles, BB shot or broken egg shells and then shaking vigorously.

When pressing velvet or corduroy place a bath towel under the part to be steamed. Dampen slightly and press on the wrong side with an iron. The nap will have a fresh, steam-cleaned look.

To remove liquid fat from hot broth, pour it through a clean cotton cloth which has been wrung out in cold water.

Pillows that are aired frequently will last longer. It isn't necessary to hang them out of doors; just pin the pillow on a line in the house so that the air can circulate around it. This fluffs it up and dries out possible perspiration dampness.

Tiny Tot Set
FOR the tiniest family members — gay little brother and sister set that's fun to sew. Bright ric rac is used to trim the pretty shaped yokeline, buttons are a nice finish.

Pattern No. 8390 comes in sizes 6 months, 1, 2 and 4 years. Size 1, dress, 1 1/2 yards of 35 or 38-inch; romper, 1 1/2 yards; 4 yard ric rac to trim each style.

SEWING CIRCLE PATTERN DEPT. 630 South Wells St., Chicago 7, Ill. Enclose 25 cents in coins for each pattern desired.

The Joe Louis Angels

AFTER ALL the hullabaloo, back and forth, a number of noncombatants are wondering just what Joe Louis plans to do about his title and his return to action.

Here are some of the angles they are discussing here on the West coast:

1. **LOUIS** has no intention of returning to the prize fight ring. He is using this talk to help his exhibition trip where he has been knocking over from \$10,000 to \$15,000 for each show. This is the easiest money anyone can make, using 14 and 16-ounce gloves.

2. **LOUIS** has no one to fight except Ezzard Charles who doesn't want to fight Louis. Besides the 175-pound Charles would make Louis look like an elephant chasing a rabbit or a whippet. It wouldn't be a contest. It wouldn't draw \$300,000.

3. **HERE IS** the situation as it is today—Louis is through and there is no challenger to meet him. The heavyweight division today is at its lowest ebb in ring history.

4. **(MINORITY OPINION)** Louis is a professional fighter. That's his trade. Why shouldn't he pick up from \$200,000 to \$300,000 meeting some pushover?

These are a few of the angles I've gathered recently, from such boxing men as Jack Dempsey and Abe Roth, the referee, on down the line.

Louis is in a spot where he can get no credit for beating any of the heavyweights now gumming up the scenery. On the other hand, to be beaten by one of these alleged prize fighters would leave a large blot on his so-called escutcheon. The theme song with thousands is: "It isn't what you used to be—it's what you are today."

Any outsider advising Louis what to do is wasting his time. Louis will either do what he wants or what Mike Jacobs wants. Louis hates to pass up what looks to be the softest touch any champion ever faced. Mike can always use more money, no matter how much he has stuffed away through the years.

As things look now, the Bomber probably would be the slowest-moving champion that ever defended a heavyweight title if he went to post again in June.

Jim Jeffries

The old boy with the scythe can travel in a hurry. It hardly seems possible that 50 years have passed since young Jim Jeffries knocked out Bob Fitzsimmons.

This was Big Jim's 11th fight. He had been Jim Corbett's sparring partner before Corbett's fight with Fitzsimmons at Carson City. And there are still vague rumors that Jeffries gave Corbett a heavy beating before Jim lost to Fitz, via the famous solar plexus route.

Sullivan, Corbett, Fitz and Jack Johnson have put on their traveler's cloaks and moved on beyond. But Big Jim is still here with us, hale and a trifle hearty after a bad paralysis jolt a year or two ago.

Fifty years after he knocked out Fitzsimmons, Jeffries, now in his 70's, is as bald as two doorknobs, but still a powerful looking citizen. When I first met Jeffries, back around 1902 or 1903, he could high jump six feet and run the 100 in about 10 seconds flat. He then weighed 212 pounds and he was as light on his feet as a featherweight.

"In some way," Jim Corbett told me later, "Jeff has become a better boxer than I ever was. And nobody can ever hurt him, not even with an axe."

Fitz broke almost every bone in both hands slugging Jeff in their second fight, without even jarring him. "I might as well have slugged a bloody hydrant," Fitz told friends after the fight.

Jim Jeffries, around 1902 and 1903, was as great a fighter as the game has ever known. He could hit you and hurt you—and no one could hurt him.

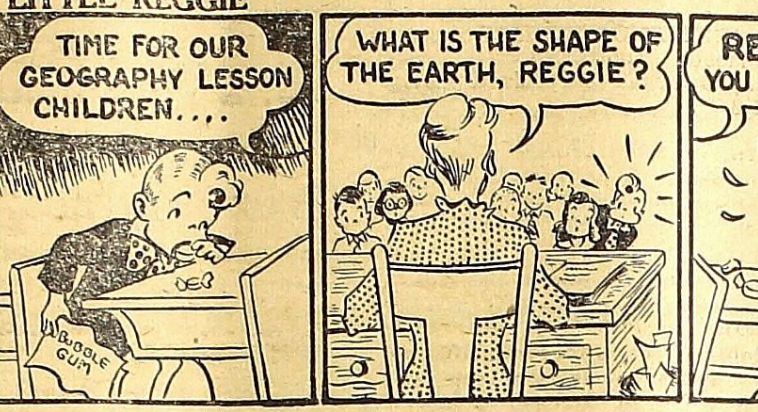

I saw him in 1910 training for the coming Jack Johnson party. He weighed over 270 and he was bald, fat and slow. He had been out of action for seven or eight years. The Jeffries of 1902 or 1903 would have murdered Johnson. The Jeffries of 1910 was a pushover for anyone who could breathe and move around.

They still talk about Dempsey and Louis. I often wonder how either would have looked against the Jeffries that used to be. You wonder what shape their fists would have been in after a few rounds.

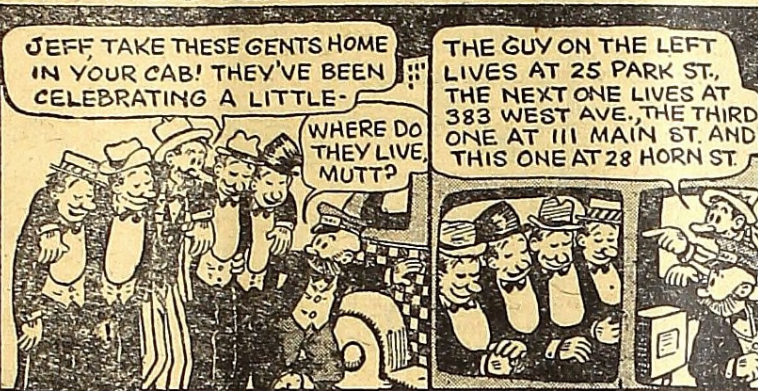

There has been a long gap since the days Jim Jeffries was so good he had to retire. It was a joke to mention anyone having a ghost of a chance against him. He dominated his field more than Dempsey ever did—more than Joe Louis ever did.

STATE OF MICHIGAN

The Probate Court for the County of Iosco

At a session of said Court, held at the Probate Office in the City of Tawas City, in said County, on the 7th day of February A. D. 1949.

Present, Honorable H. Read Smith, Judge of Probate.

In the Matter of the Estate of Mollie Mildred Dilworth, Deceased Roy J. McMurray having filed in said Court his petition praying that the administration of said estate be granted to him or to some other suitable person.

It is Ordered, That the 8th day of March, A. D. 1949, at ten o'clock in the forenoon, at said Probate office, be and is hereby appointed for hearing said petition; That notice thereof be given by publication of a copy hereof for three successive weeks previous to said day of hearing, in the Tawas Herald, a newspaper printed and circulated in said County.

H. Read Smith,
Judge of Probate.

A true copy.
Mabel Kobs,
Register of Probate.

Cape Cod Canal

Although George Washington stressed the need for a canal across Cape Cod during the Revolutionary war, it was 1909 before work was actually begun on the waterway. The Cape Cod canal was completed in 1914 at a cost of 13 million dollars.

Tawas City and Alabaster Win in Double Header

Tawas City and Alabaster came out on top, in the double header independent games at the Tawas City High School gym, Sunday night. In the first game Alabaster overwhelmed AuGres 68 to 34, and Tawas City squeaked by Hale 39 to 37.

Resuming their battle of a few weeks ago, in which Hale defeated Tawas City 36 to 34, with a basket in the closing minute of play, the Tawas Indies came back Sunday to drop Hale 39 to 37. At the final whistle the two teams were deadlocked a 37 all. In the three minute overtime, Herb Blust, came through with a two pointer to put the game on ice for the locals.

Both teams gave the referees a workout, thirty-five fouls being called, 16 on Tawas and 19 on Hale. Four men had to leave the game via the foul route.

Guard, Dale Landon, led his team in scoring with 14 points, followed by Blust and Musolf with eight each. Shellenbarger made 11 points for the Hale team, 10 of them in the first half.

With four Alabaster players hitting the hoop for 10 or more points, the White City team overran AuGres 68 to 34. John Martin, with 17 points, John Erickson with 14, E. Erickson with 11 and Rescoe with 10, for the Alabaster squad; while Beyer with nine and Paige with eight paced the AuGres team.

This week-end's basketball calendar will feature a Tawas Hospital benefit game Saturday night at the Tawas City gym before the Fireman's Ball and another basketball double-header on Sunday night.

The Saturday night game, will feature some fast moving talent from the fast Birmingham YMCA League, who will be up for a week-end at Silver Valley and are donating their time towards the Tawas Hospital Association. Tickets are on sale now, buy yours from local merchants or at the gate Saturday night. This event will be held at 7:00 and will precede the Fireman's ball which will go on directly after the game.

On Sunday night another twin-bill will be featured, the first game at 7:30 will see Alabaster and Standish tangle and the second game will find Tawas City and Oscoda teams fighting it out. Plan now to attend.

District Tournament Here 3 Days Next Week

Seven Schools to Participate

The local basketball tournament of the Michigan High School Athletic Association will be held Thursday, Friday and Saturday nights of next week at the High School gymnasium in this city, according to an announcement made this week by A. E. Giddings, superintendent of the Tawas City Public Schools.

There are seven teams to participate in this year's tournament, three in Class D and four in Class C. The Class D teams are AuGres, Hale and Whittemore, and the Class C are East Tawas, Oscoda, Twining and Tawas City.

There will be a total of five games. Games start at 7:30 P. M. Thursday night will have one game, with two games each on Friday and Saturday nights. Drawings to determine the order of teams playing will be made Monday night.

The price of admission each night is 65c for adults and 40c for students. There are no reserved seats and no season tickets.

Minnetonka Cave

Stones that look like great vats of whipped cream, a ghostly graveyard, and a seven-foot stalagmite modeled like a bride are but a few of the attractions found in the Minnetonka cave in eastern Idaho.

Doubles Champions Bowl Here Saturday

The Michigan State Doubles Champions, Fred Breckle and Fred Bujack, and their contenders for the 1949 title, George Young and Therman Gibson, will stage an unofficial battle for the crown in an exhibition match at the East Tawas Recreation Alleys Saturday night February 26.

Fred Wolf, bowling's best known commentator on the air waves will be on hand for the event and his half hour radio program of bowling news and alley babble broadcast nightly from 11:30 to 12:00 over WXYZ Detroit will originate at the local lanes.

Included among the contingent of Silver Valley Bowling Boosters being brought north by Walter Fettig will be some of the outstanding bowlers of the Silver Valley Ladies team who will meet the Tawas Silver Valley Ladies in an exhibition match at eight o'clock the same evening.

The men's team will meet the Tawas SV men's team in a special match game at ten o'clock on Friday night.

The two Freds, Breckle and Bujack, as well as George Young and Therman Gibson boast averages of 200 and over in the Major and Classic leagues of Detroit and have made several appearances here in the past. Originally scheduled to

be here during the Carnival week-end the plans were changed when they were scheduled to bowl in the \$36,000 DeVito Classic and the \$36,000 DeVito Classic in Chicago on those same dates. While all finished in the money only Gibson was able to stay in the top ten, he is currently in seventh place in the Peterson Classic. Breckle is currently leading the State Lutheran all-events with a 1943 count.

Elks Again Defeat Mio Bengals

(Continued from Section One)

Koch, classy guard on the Mio team, led his teammates with 12 markers.

The Reserves won revenge for their defeat from Mio earlier in the season when they trounced them Friday 38 to 22. The Tawas team was really hot on their one hard shot, with Gingerich garnering 12, N. Westcott and Wells, each eight, Phillips and Herriman, each two and Leslie one. Girls Win from Mio;

Victory String Broken by Twining Lassies

The Tawas City girls squad won over Mio Friday night 32 to 16. With the regular team sitting on the bench the first half. The second team were having a little trouble with the Mio lassies and in the second half the regulars were sent in and they promptly ran up a commanding lead.

Kendall led the team with 11 points. Sims was next with 10, Montgomery six and Gallicker one.

Tuesday night the Tawas City girls were heading for an unbeaten season but Twining came out on the long end of a 18 to 16 count. Both teams were running neck and neck throughout the game. Sims led the Tawas team with eight points, Kendall seven, and Montgomery one.

Baseball Team Elects '49 Officers

Schedule Game with Road Team for May 21

Baseball is just around the corner! Members of the Tawas City Baseball Club, with their eyes on the fast disappearing snow and the coming 1949 season, held their annual spring meeting at the Tawas City Legion Hall, Saturday evening.

The first thing on the docket called for election of officers and after nominations, the following were elected:

Manager Richard Prescott
Director Edwin Peterson
Secretary Nelson Thornton
Treasurer Carl Libka

Plans were also discussed for a game Saturday, May 21, with a traveling professional team traveling through the area. Improvements of the Tawas City Athletic Field were also discussed and the city's work already completed on the field and how the team could assist in future work.

Electrical Pied Piper
Electrically recorded mating squeaks of female rats are sounded by a Vancouver exterminator to trap male rats.

STATE OF MICHIGAN

The Probate Court for the County of Iosco

At a session of said Court, held at the Probate Office in the City of Tawas City, in said County, on the 7th day of February A. D. 1949.

Present, Honorable H. Read Smith, Judge of Probate.

In the Matter of the Estate of Mollie Mildred Dilworth, Deceased

Roy J. McMurray having filed in said Court his petition praying that the administration of said estate be granted to him or to some other suitable person.

It is Ordered, That the 8th day of March, A. D. 1949, at ten o'clock in the forenoon, at said Probate Office, he and is hereby appointed for hearing said petition;

It is Further Ordered, That notice thereof be given by publication of a copy hereof for three successive weeks previous to said day of hearing, in the Tawas Herald, a newspaper printed and circulated in said County.

H. Read Smith,
Judge of Probate.

A true copy.
Mabel Kobs,
Register of Probate.

Home-Made Dentifrice

An inexpensive dentifrice which can be made at home is a mixture of one-third powdered table salt and two-thirds baking soda, according to the American Dental association.

Hide These Gears

It was not until 1920 that enclosed gears were developed for tractors.

Athlete's Foot Common

Half of the American people are infected with athlete's foot. Most individuals, especially adults, have had athlete's foot infection a number of times. The disease is usually more irritating than dangerous. It is produced from the spores, or seeds, of a certain fungus and as such, spreads rapidly, especially in damp, dark places. The fungi causing the disease are usually found in three places: locker rooms, shower rooms and dressing rooms; shoes, garters, fabric equipment and towels and on the human body.

Telephone 2-2960

SELDOM is there trouble on your telephone line nowadays. But sometimes it does happen! An extra-heavy gale or sleet storm . . . a flood, fire or explosion may temporarily disrupt telephone service for a great many people at one time.

When such serious trouble develops, word is flashed to Michigan Bell "emergency headquarters" in Detroit. Within a matter of minutes, this room becomes a beehive of activity.

At their posts around the table, a General Working Committee assembles and begins a battle against time. Simultaneously, emergency committees in the stricken area swing into action. The object—to knit into one swift-moving team the telephone crews that will restore service at the earliest possible moment.

In rapid-fire succession, telephone calls begin to come in. Reports from the scene give a minute-by-minute account of developments.

Practically the instant the need for men or supplies becomes apparent, the Committeemen arrange to have them dispatched to the trouble spot.

If damages are such that Long Distance calls will have to be rerouted, the Committee works directly with the proper department to establish temporary circuits promptly. If structures and equipment are demolished, the Committee teams up with the engineers to start immediate plans for rebuilding.

No matter how long the emergency may last, the Committee stays right on the job. For these expert trouble-shooters can "be everywhere at once" by telephone . . . saving precious minutes . . . assuring the utmost efficiency in the use of manpower, materials and time.

This is another behind-the-scenes way in which Michigan Bell strives to provide and maintain for you the best possible telephone service at all times.
