Mr. and Mrs. Joseph Bartnick were in Detroit over the week-end.
Donald Mooney of Notre Dame University is spending his Easter vacation with his parents, Mr. and Mrs. Lyle Mooney.
(Continued No. 2, Back Page)

Dogs Must Not Run At Large
At the last council meeting a petition was presented by Mrs. Ernest Ross and Mrs. Harry Goodale of the Tawas City Garden Club requesting that dogs should not be allowed to run at large. Among the complaints given by the Garden Club were: destruction of shrubs, evergreens, vegetable gardens, flower beds and unsightly laws. The council advised the committee that a notice to dog owners will be published.
The following notice was authorized.
NOTICE
Notice is hereby given that all dogs running at large throughout the year will be impounded.
Tawas City Council.

WJR Sports Commentator To be Here

Arrangements for Three-Day Program Nearly Completed

Arrangements for the three-day 14th Annual Tawas Perch Festival which will be held here next week Friday, Saturday and Sunday are nearly complete, stated Carlton Merschel, general chairman of the committee in charge.
"Van Patrick, WJR sports commentator will be here to take part in the festivities, and we have invited Harry Heimann, states Merschel. "The WJR sound truck will be here for broadcasts."
"Newspapers in Detroit, Bay City, Saginaw and Flint have been carrying stories and pictures and radio stations have been publicizing the event."
The program will include vaudeville acts, parade, fishing contests, trapshoot and archery contests, boxing show, dancing, barbecue, bowling contests. With more than eight bands, the parade promises to be one of the best ever held here.

PROGRAM
Friday—
11:00 A. M. Trapshoot and Archery Range—Opens in Tawas City Park. A limited number of guns and bows are available at the range. Sponsored by the Isosco Sportsman's Club, the ranges will be open 'til dark. Small charge to cover cost of birds and shells for trapshoot. Prizes to be awarded.
2:30 P. M. Magic Show at the Community Building in East Tawas. Admission: Children 25c; Adults \$1.00.
8:15 P. M. Magic Show at the Community Building in East Tawas. Admission: Adults \$1.00; Children 25c.
Saturday—
8:00 A. M. Fishing Contest—at State Park Dock, East Tawas. Prizes to awarded winners.
9:00 A. M. Barbecue—Sponsored by V. F. W. and Hot Dog Stand, sponsored by Boy Scouts open in Tawas City Park.
11:00 A. M. Trapshoot and Archery Range—Open in Tawas City Park. See Friday schedule.
11:00 A. M. Parade begins—Starting point at Federal Building in East Tawas and proceeds through East Tawas business district to US-23; turning right at stop light and continuing along US-23 through Tawas City to the M-55 corner where it will be dispersed.
2:30 Fishing Contest—on Tawas River, south of Tawas City business district along US-23. Prizes to be awarded winners.
5:00 P. M. Roast Beef Dinner—Sponsored by the Methodist Ladies at the Latter Day Saints Church in Tawas City. Adults \$1.00; children under 12 years, 50c.
(Continued No. 3, Back Page)

P-T: A. Presents
Edgar Stephan, Magician
The Magic Rabbit is getting ready to make his appearance at an odd mystery program to be presented by Edgar Stephan, the modern magician, at the East Tawas Community Building afternoon and evening, April 29.
"The Haunted Egg of Hen Koo," "The Wandering Silks," "Japanese Box Mystery," "Wintertien in Manchuria" are but a few of the illusions Stephan will present.
A feature will be the "Packing Box Escape," now on display in the window of Patterson Tog Shop in East Tawas.
There is entertainment for the whole family, young and old, and an interesting evening of bafflement is promised.

Establishes Auto Body Shop
Robert Rollin has established an auto body shop at the Rainbow Service in this city. Rollin is a well known Tawas City boy and has had a number of years experience in the business. He was with the R. D. French Co., Bay City and has attended the Detroit Trade School. He will specialize in body and fender work, auto painting, sign-making and finishing. Free estimates given.

'Hearts and Gowns' Cast Chosen

Play to be Given As Hospital Benefit

The Tawas Hospital Association announced today the following cast chosen for the hospital benefit show, "Hearts and Gowns," after tryouts Monday April 4th.
Miss Miggs Mrs. Dorothy North
Bill Skeats Robert Welch
Jodie Dugan Mrs. Helen Tuttle
Ella Jones Mrs. Dan Cater
Don Ridge Lou Gorham
Delphine Dunn Mrs. Evelyn Colby
Elijah Dunn John Monarc
Mrs. Cadwallader-Smythe,
Mrs. Nate Barkman
Wynne Cadwallader-Smythe
Mrs. Kermit Gurley
Calvin Ridgeway Mike Coyle
Volunteers are still needed for the chorus and to work backstage. Anyone interested get in touch with Reginald Barnett, the director or Mrs. Robert Bontekoe, production manager. The show will go into rehearsal this week.

Cancer Fund Drive Now Underway

A house to house canvass is being made in cities and towns of the county in the interest of the Cancer Fund Drive, states Nathan Barkman, campaign chairman. The rural districts will be reached by letters.
The quota for Isosco county is \$1000.00, and the people of the county are to give as generously as possible to this worthwhile project. The portion of the fund remaining in the county is used in emergency loans in the treatment of cancer patients. The remainder of the fund is used by the National Foundation for cancer research.

Ernest Ross Family Gathers On Easter

Twenty-one out of a possible 30 members of the immediate family of Rev. and Mrs. Ernest Ross met Sunday at the Ross home for an Easter Basket hunt and family get-together. They were from Clawson, Rogers City, Saginaw, Cass City, Flint and Tawas City. Paul Ross, of the aircraft carrier, Midway, wired a beautiful Easter lily to the family. Five grandchildren were included in the gathering.
Mrs. Robert Alda Feted
Mrs. Robert Alda was feted at a shower Thursday evening of this week at the home of Miss Rosemary Mielock. Hostesses were, Misses Elca Green and Rosemary Mielock. Decorations were in keeping with Easter season. The group of young ladies presented Mrs. Alda with a lovely gift.
Entertainment of the evening were word games, bingo, group singing and refreshments.

Clark Gives Some Timely Spraying Hints

Dust sprays and the insecticides will do much to promote the growth of fruits and vegetables but they often have just the opposite effect on man. This warning comes from Harold R. Clark, county agricultural agent.
The agent urges special precautions to avoid inhaling fumes or vapors from fumigants. Though they may not be poison, they will usually prove irritating to humans. He puts special emphasis on proper labeling and safe storage where children cannot reach them.
Safety in insecticide use means caution. The following rules will help to point out the most important to remember.
1. Always spray or dust downward.
2. Wear approved respirators which protect the entire face when there is danger of inhaling fumes.
3. Follow the directions of the manufacturer in handling, mixing, and applying.
4. Gloves, long-sleeved shirts and clothing to cover the entire body are recommended.
5. Wash hands and other exposed parts of the body with soap and water after using poisonous chemicals.
6. Store poisonous chemicals in strong leak-proof containers. Be certain children or livestock cannot reach them.
7. Thoroughly wash or strip fruits and vegetables to which poisonous chemicals of a stable nature have been applied.
8. Unknown substances should not be used, nor should substances sold under trade names without complete information as to composition and proportions.

Win Opener from Harrisville

Tawas City High School Team

Mrs. Mary E. Frank
Mrs. Mary E. Frank, of Tawas township, died Tuesday at Samaritan hospital, Bay City, following a cerebral hemorrhage. She had been ill a week.
Born in Canada 68 years ago, she married Omar Frank in Tawas township of Isosco county in 1903. They had resided in Tawas township since. She was a member of the Reorganized Church of Jesus Christ, Latter Day Saints, Tawas City.
Funeral service was held Friday afternoon at 2:30 o'clock at the church, with the Rev. B. H. Doty, of Gladwin, officiating. Burial was in the Tawas City cemetery.
Surviving are her husband, Omar; three sons, Donald and Elmer, both of Bay City, and James L., at home; a daughter, Mrs. Clarence Williamson; 12 grandchildren; and two brothers, Charles and William Bellinger, both of Bay City.

Emil St. Martin
Funeral services for Emil St. Martin, who died Saturday at the home of his sister, Miss Annabelle St. Martin, of East Tawas, after being ill several months were held Tuesday morning. The Rev. Fr. Robert Neumann officiated at the service at St. Joseph church and burial was in the church cemetery.
Mr. St. Martin was born August 18, 1887, in East Tawas. He leaves his widow, Freda, of Black River; two sisters, Mrs. Annabelle St. Martin, and Mrs. Beatrice Burgett, of Cleveland, Ohio and a niece.
D. U. V. Meeting
Following a pot luck dinner served to 22 at the Eagles Hall on Thursday, April 14, the regular meet of the Mary Jane Goodale, Tent No. 50, D. U. V., was called to order by the president, Eva Robinson.
One candidate, Mrs. Ethel Featheringill of Tawas City, was initiated.
The following guests were present: Julia Barnhart, Benton Harbor, Department President; Irma Hirsh, Benton Harbor, Department Secretary; Frances Harmoun, Bay City, District President; Harriet Bogarn, Flint, Past Department President; Stella Hagar, Saginaw, Past President, Tent 39; Gladys Hagar, Saginaw, Past President, Tent 39; Beatrice Hagar, Saginaw, Past Department President; Florence Nash, Saginaw, Department Chaplain; Margaret Brandt, Saginaw, Department Secretary.
Next meeting of the D. U. V., Tent 50, will be held at the Eagles Hall, on Wednesday, April 27, at 1:30 p. m.

20th CENTURY CLUB
"Our Melodies" was the title of the Twentieth Century Club program when they met Wednesday evening. Mrs. William Dockter and Mrs. Elmer Graves were hostess and co-hostess.
The program was in charge of the Music Committee. Several selections were presented by the quartet and Miss Arlene Leslie played several records from the "Merchant of Venice." The records were purchased by the Tawas City Library from a donation by the Twentieth Century Club.
The hostesses served a lovely lunch. The picnic at the Rollin cabin on May 4 will be the last meeting of the club year.

YOUNG WOMEN'S LEAGUE
The annual dinner dance for members of the Young Women's League will be held Monday at 7:30 at the Barnes Hotel. Reservations must be made with Mrs. Jean Davis by Saturday.

CARD PARTY
A card party will be held at the Laidlawville School on Friday evening, April 29. Tickets 50c each. Lunch free. Everyone welcome.

C. of C. to Honor 4-H Leaders

Banquet at Holland Hotel May 5

In recognition of the splendid service, Isosco County's 4-H leaders are giving to its youth, the Tawas Chamber of Commerce is giving a banquet in their honor. The banquet will be held at the Holland Hotel in East Tawas, Thursday, May 5.
The committee, composed of Lyle Mooney, Floyd Ketcherside and Hugo Keiser are working with Harold R. Clark, County Extension Agent, Walter Martens, President of the Isosco County 4-H Council Association, and Russell R. Rollin, County School Commissioner in making arrangements for the event. Awards will be presented by A. G. Kettunen, State 4-H Club leader. H. J. Gallagher, of the Consumers Power Company, Jackson, will be the principle speaker.
Tickets may be obtained at the County Extension Office or from any member of the committee.

McKenzie Addresses Eden Lodge, Bay City

Russell McKenzie, Grand Herald of Michigan Odd Fellows Grand Lodge, gave an address Tuesday evening at Bay City Eden Lodge, I. O. O. F., and Lavina Rebekah Lodge. This occasion marked the 130th anniversary of the founding of Odd Fellowship in America. Mrs. McKenzie accompanied her husband to Bay City. Mr. and Mrs. Edward Seifert, Sr., also made the trip to Bay City. Seifert is a Past Grand of Eden Lodge.

Charles Parker Observes 90th Birthday

Charles Parker, former East Tawas resident will celebrate his 90th birthday anniversary on Friday April 22, at his home at 2321 North St., Flint.
He was a member of the U. S. Coast Guard Service for 33 years, retiring in 1916. The family moved to Flint in 1918.
A birthday dinner will be given Sunday at the Parker home for relatives and a few friends.

Thanks Citizens For Co-operation

The three-day Tourist Service Operators Convention and Suppliers Show was a fine success according to the statements of many who attended the event and participated in the workshop program. The northern Michigan area was well represented by about 150 hotel owners, resort owners, restaurant operators and operators of cabins in courts who attended the sessions Tuesday, Wednesday and Thursday of last week.
Arthur L. Johnson, chairman of the Tourist service operators committee of the Tawas Chamber of Commerce, which sponsored the meeting, said yesterday that the entire committee wished to thank the citizens of the two cities and all who took part in the program. He said "Such a program and meeting could well be made into an annual event. I feel that every tourist service operator who took part in the workshop program was well repaid for his time."
Much credit is due Frank Davis of the Eastern Michigan Tourist Association in helping to bring these men and women here.
Mrs. John Burt passed away Thursday morning. Funeral arrangements are incomplete.

Tawas City High Wins Season Opener

Local High School Team Goes to Hale This Afternoon

The Tawas City high School baseball squad came out with flying colors in their 1949 season opener, when they trimmed the Harrisville Tigers 10 to 4 under the one hit pitching of Herb Look. This game featured some long ball hitting by the local sluggers with Barry McGuire connecting for two doubles, Don Westcott and Lee Herriman each slanting out a two base knock and a single. Alo in the hitting column for the locals, were Kohn, Hill and Youngs, who each slammed out a single, while Herb Look connected for two singles.
Matuzak, pitcher for Harrisville, and Look, for Tawas, staged a strike out duel with Look whiffing 13 lads from Harrisville and Matuzak 12 of the Tawas boys. However the local team bunched their 12 hits to produce the 10 runs.
Today (Friday) the team will journey to Hale where they will tangle for seven innings with the out county team. Games next week are scheduled with Oscoda Tuesday and East Tawas, Friday.

Steadman Dredges Tawas River Mouth

Robert Steadman of Oscoda completed his contract of dredging the mouth of Tawas river yesterday (Thursday). The work was sponsored by the Tawas river committee at an approximate cost of \$700.00. The money is being raised by private contribution with the city participating to the extent of \$100.00.
The dredging project is 580 feet in length, 30 feet wide with a minimum water depth of six feet.
The committee will present a resolution to the Tawas City common council asking that a harbor master be appointed. The resolution will suggest that a five-mile per hour limit be set on boat traffic on the river.

Mrs. George Sedgeman Entertains Garden Club

Mrs. George Sedgeman was hostess to the Garden Club at her home on Lake Shore Drive Monday afternoon. Mrs. Lloyd McKay was co-hostess.
The program consisted of a paper on "Terrariums," by Mrs. Lloyd McKay and Demonstrations of Miniature terrariums by Mrs. Sedgeman.
After the program dainty refreshments were served by the hostess. Table decorations was a centerpiece of blue iris and yellow daffodils.

Mr. and Mrs. Charles Brussell Observe 50th Wedding Anniversary

Last Friday, April 15, Mr. and Mrs. Charles Brussell celebrated their 50th wedding anniversary at their Baldwin home. The family celebrated Easter Sunday with an anniversary dinner. Visitors were present from Walcott, Iowa; Rock Island, Illinois; Clio, Detroit, Adrian and Dearborn.
Mr. and Mrs. Brussell were married at Muskatine, Iowa, April 15, 1899. They have resided in Iowa and Illinois. For the past thirty years they have been residents of Michigan.
All their children were present at the anniversary: three sons, Andrew, Frank and George, and six daughters, Beatrice, Kathryn, Grace, Evelyn, Lucille and Pearl. The couple received many beautiful gifts.

EWES GIVES BIRTH TO SIX LAMBS . . . Kenneth George (left) a stockman of Thayer, Kas., with the aid of some friends proudly displays his five-year-old ewe who came up with something extremely rare in the sheep world. It gave birth to six lambs. Shown in this photo, the ewe and lambs appear in good condition. The nearest thing to a black sheep among the arrivals was the last one, which was described as almost black. The first two were white, the third brown and white, and the fourth black and white. The trader who sold the ewe, when informed of the birth of the lambs, declared, "I should have kept her."

BRITISH GENERAL AT WEST POINT . . . A regular army honor guard at the U. S. military academy at West Point is inspected by Lt. Gen. Sir Gerald Templer, vice chief of the Imperial general staff of the British army. General Templer arrived at the Point with Lady Templer for a brief visit. The general is the British lecturer appearing in the United States in a series of exchange of military lecturers between this country and Great Britain. The exchange is set up under terms of the Kermit Roosevelt fund. On the inspection tour, General Templer was accompanied by Lt. Col. F. W. Brien, of the U. S. army.

BY THEIR NECKTIES YOU'LL KNOW THEM . . . Glance at the cravats above and know you're looking at six of the chosen 10 best-necktied men, as selected by Ned Goldsmith, men's fashion authority. Top row, left to right, Alfred Gwynne Vanderbilt, who prefers flowered ties; Dancer Fred Astaire goes for bright checks; President Harry S. Truman, one-time haberdasher, who prefers bold, bright diamond patterns; England's war-time premier, Winston Churchill, identifiable by his polka dot ties; the Duke of Windsor, who likes colorful clan plaids, and Stork Club impresario Sherman Billingsley, who chooses multi-color coin dots.

SIT DOWN STRIKE VARIATION IN ITALY . . . Italian workers under the leadership of the Communist-controlled C.G.I.L. (confederation of labor) have developed a new variation of the sit-down strike. The technique calls for their moving into a factory where any sizeable number of workers are laid off and refusing to budge until the employer "sees the light." One group of "occupation workers" is shown here in possession of a construction materials plant "those reading are perusing copies of 'L'Unita,' the Communist newspaper.

Mercy Deaths Stir Up Storm Of Controversy

NEW YORK.—If you are suffering racking pains from "incurable" disease, should you have the right to ask your doctor for death by swift painless means?

Hundreds of ministers and doctors of New York state believe you should. So do more than 500 members of the Euthanasia Society of America. Voluntary euthanasia means ending human life by painless means to stop "incurable" physical suffering, but only at the request of the sufferer.

On the other hand, thousands of other prominent churchmen and physicians believe with equal conviction that you should not have that right.

Around these two points of view today swirls a controversy involving the Ten Commandments, man's relation to God and down-to-earth questions of right and wrong.

Has Many Supporters

The Euthanasia society, founded in 1938 has many members in science, medicine, letters and religion. Its founder was Dr. Charles Francis Potter, Protestant minister and founder of the first Humanist Society of New York. Its officers and advisory council are Dr. Henry Sloane Coffin, president emeritus of Union Theological seminary, New York; Margaret Sanger, leader of the birth control movement, and Fannie Hurst and Somerset Maugham, authors.

Both sides are working hard in defense of their stands.

Recently 379 ministers petitioned the New York state legislature for a voluntary euthanasia law. Among them were Dr. Harry Emerson Fosdick, minister emeritus of Riverside church, and Sidney Goldstein, Rabbi of Temple Emanu-El, both of New York. A committee of 1,776 physicians also took a stand in favor of "mercy death." Two years ago 1,100 of them petitioned the New York legislature for it.

The Euthanasia society now is drafting a petition to the United Nations commission on human rights, asking it to recognize as a fundamental human right "the right to merciful death as a release from incurable suffering."

Opposition Listed

Strong active opposition to mercy killing is led by the Roman Catholic church. Mons. Robert E. McCormick, presiding judge of the New York archdiocese court, and many other priests are attacking it vigorously in pulpit, pamphlet and press. Dr. John Behnken, president of the Lutheran church-Missouri synod, condemned the 379 clergymen's petition. The American Council of Christian Churches, representing 1,500,000 church members, also condemned euthanasia in two resolutions.

Four hundred members of a New York county medical society recently passed a resolution opposing legalized euthanasia. It will be sent to all New York legislators.

The Euthanasia society aim is to have voluntary euthanasia legalized in all states, but is currently concentrating activities in New York. The concept is illegal in every state at present.

The society has drafted a bill which provides that any sane person of more than 21, who is suffering severe physical pain from a disease for which present medicine knows no cure, may send a written petition for death to a court of record. It must be accompanied by his physician's affidavit. The case would be examined by a commission, including at least two doctors.

Scientist Discovers Ants Pattern Human Behavior

NEW YORK.—A tiny corner of what used to be the attic of the American Museum of Natural History is the planning center for a far-flung program of esoteric studies conducted by Dr. Theodore G. Schneirla, who is one of the world's leading ant psychologists.

In his book-lined office, Dr. Schneirla keeps track of what is doing in the ant world by corresponding with other scientists and by perusing scientific literature. He frequently makes a flying trip to Central America to study his favorite, the army ant, in its natural habitat.

At other times he may be found, as he was yesterday, measuring the time it takes a bright ant to find its way through a maze cleverly designed to test the learning ability of an insect in search of food.

As an ant psychologist, Dr. Schneirla believes that many of the oddities of human behavior may be at least partly explained when the inflexible patterns of behavior exhibited in a rudimentary society of ants are understood. To this end, Dr. Schneirla has spent many hours crawling on hands and knees watching ants at work and play and fearlessly has prodded into ant nests and activities rarely seen by human eyes.

Dr. Schneirla finds that weather has a direct effect on ant actions and that their behavior varies according to the prevailing temperature and humidity.

It Is No Task to Build This Hotbed Frame

START your garden early in this easy-to-build hotbed. The pattern offered below takes all the mystery out of building a 3 by 6 foot hotbed frame. It takes a standard 3 by 6 foot sash. No special tools or skills are required.

Send 25c for Pattern No. 12 to East-Bild Pattern Company, Dept. W, Pleasantville, New York.

Indian Cattle Raisers
Indians have increased their beef cattle herds from 171,000 in 1932 to 383,300 in 1946, and meantime the quality of the cattle has improved greatly. Dairy cattle, likewise, increased from 11,000 to 50,000 in the same period. Income from livestock operations during these years grew from \$1,300,000 to more than \$21,000,000.

Fast Plane Launching
The navy has an electric catapult that can launch a four-engine airplane at 120 miles an hour within 500 feet.

Hemlock Road

Mr. and Mrs. Raoul Herman and three daughters of Pontiac and Mr. and Mrs. Charles Brown were Saturday night supper guests of Mr. and Mrs. Russell Binder. Mr. and Mrs. Alton Durant and sons also spent the evening with the Binders.

Miss Ruth Herriman has returned to Wheaton College, at Wheaton, Illinois after a weeks vacation with her parents.

Mr. and Mrs. Raoul Herman and Mr. and Mrs. Russell Binder enjoyed the smelt fishing Saturday night and dipped three bushel of smelt. The Hermans took two bushels of smelt back to Pontiac to treat friends.

Mrs. John Burt suffered a stroke on Sunday after returning from church. Her many friends hope for a speedy recovery. Henry Burt of California, John Burt of Saginaw and Hazel Burt of Flint were called home.

Mr. and Mrs. Philip Watts and family were Easter guests of Mr. and Mrs. Frank Stodder.

Mr. and Mrs. Russell Long and children of Bay City and Mr. and Mrs. P. L. Owens and daughters of Plymouth spent the week-end with Hemlock relatives.

STATE OF MICHIGAN
The Probate Court for the County of Iosco

At a session of said Court, held at the Probate Office in the City of Tawas City, in said County, on the 9th day of April A. D. 1949.

Present: Honorable H. Read Smith, Judge of Probate.

In the Matter of the Estate of Ida Emma Schlechte, Deceased.
Beulah Trombley having filed in said Court her final administration account, and her petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate.

It is Ordered, That the 2nd day of May A. D. 1949, at ten o'clock in the forenoon, at said Probate office, be and is hereby appointed for examining and allowing said account and hearing said petition.

It is Further Ordered, That notice thereof be given by publication of a copy hereof for three successive weeks previous to said day of hearing, in the Tawas Herald, a newspaper printed and circulated in said County.

H. Read Smith,
Judge of Probate.

Mabel Kobs,
Register of Probate.

STATE OF MICHIGAN
The Probate Court for the county of Iosco

At a session of said Court, held at the Probate Office in the City of Tawas City, in said County, on the 16th day of April, 1949.

Present, Honorable H. Read Smith, Judge of Probate.

In the Matter of the Estate of Theodore St. James, Deceased.

It appearing to the Court that the time for presentation of the claims against said estate should be limited and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said Court;

It is Ordered, That all creditors of said deceased are required to present their claims to said Court at said Probate Office on or before the 11th day of July, 1949, at 10:00 o'clock in the forenoon, said time and place being hereby appointed for the examination and adjustment of all claims and demands against said deceased.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, once in each week for three weeks consecutively, previous to said day of hearing, in the Tawas Herald, a newspaper printed and circulated in said County.

H. Read Smith,
Judge of Probate.

A true copy.
Mabel Kobs,
Register of Probate.

C. L. McLean & COMPANY
TAWAS CITY PHONE 91

ORDINANCE No. 124

(Continued from Preceding Page) shall be of such construction as to permit easy cleaning and shall be painted or finished in an approved manner. Milk houses will be well lighted and ventilated and shall have all openings effectively screened or otherwise protected to prevent the entrance of flies.

(e) LIQUID WASTE DISPOSAL. Waste water from the washing of containers, equipment and utensils shall be drained away in such manner as to prevent contamination of water supplies or accumulation on the ground surface.

(f) COOLING EQUIPMENT. The milk house shall contain equipment for properly cooling and storing in a sanitary manner the volume of milk and milk products handled. All cooling tanks shall be of concrete or other impervious materials and shall be of such capacity as will afford proper cooling and storing of all milk and milk products handled, and shall be provided with a hinged insulated cover, newly constructed cooling tanks shall be completely insulated with at least two inches of approved waterproof material.

(g) UTENSIL RACK. A utensil rack, preferably of metal, shall be provided within the milk house upon which cleaned containers, equipment and utensils shall be stored when not in use. The lower shelf of such rack shall not be less than 12 inches above the floor.

(h) CLEANLINESS. Milk houses, including surroundings, shall be kept clean and free from objectionable odors.

Section 10. WASHING FACILITIES.

(a) WATER HEATING DEVICE. Suitable facilities for heating a sufficient amount of water shall be provided.

(b) WASH VATS. Suitable vats shall be provided for washing and bactericidal treatment.

Section 11. COOLING.

COOLING. Milk and or cream to be delivered to a milk plant or receiving station shall be cooled to 60 degrees F. or lower within one hour after milking or separating and so held until delivered.

Section 12. CONTAINERS.

...EQUIPMENT, UTENSILS.

(a) CONSTRUCTION. Containers, equipment and utensils used in the handling, storage and transportation of milk or milk products shall be made of smooth non-absorbent material and of such construction as to be easily cleaned and shall be in good repair. Joints and seams shall be soldered flush. All milking pails shall be of a small-mouth design approved by the enforcing officer.

(b) CLEANING and BACTERICIDAL TREATMENT. Containers, equipment and utensils used in handling, storage or transportation of milk or milk products shall be thoroughly cleaned by the use of hot water, a daily cleaner and brushes immediately after each use. After the cleaning process and before re-use, all such containers, equipment and utensils shall be subject to one of the following methods of bactericidal treatment; complete immersion for at least two minutes in hot water of a temperature of at least 170 degrees F; complete immersion for at least two minutes in a chlorine solution containing at least 100 p. p. m. of available chlorine; or other approved methods.

(c) STORAGE. Containers, equipment and utensils used in the handling, storage, or transportation of milk or milk products shall be stored so as not to become contaminated before being used.

Section 13. SEWAGE DISPOSAL.

TOILETS. Outhouses shall comply with Act 273, P. A. 1939, and the regulations pertaining thereto established by the Michigan Department of Health. Septic tank wastes shall be disposed of below the ground surface at a distance of at least 50 feet from any well.

Section 14. WATER SUPPLY.

WELLS and WATER SUPPLY. The water supply for the milk house and or milk room shall meet the recommendation of the Michigan Department of Health for such supply.

Section 15. MILK STOOLS.

MILK STOOLS. Milk stools shall be kept clean and shall be stored off the floor when not in use.

Section 16. REMOVAL OF MILK-STRAINING-DELIVERY

(a) REMOVAL OF MILK. Milk shall be promptly removed to the milk house.

(b) STRAINING. Milk shall be strained through approved single-service strainer pads and unused strainer pads shall be stored so as to be protected from contamination.

(c) DELIVERY. Milk and or cream shall be delivered to the milk plant or receiving station within 24 hours after milking.

Section 17. SAMPLING.

Bacteriological Standards.

(a) SAMPLING. Samples of milk and milk products shall be taken at intervals by the enforcing officer.

(b) BACTERIOLOGICAL STANDARDS. Milk, when delivered from a farm to a pasteurizing plant or receiving station shall have a bacterial plate count of not more than 300,000 per milliliter or a direct microscopic count of not more than 300,000 ifc lumps are counted, or a direct microscopic count of not more than 1,000,000 per milliliter if individual organisms are counted, or a methylene blue reduction time of not less than four hours.

Section 18. COMMUNICABLE DISEASES.

(a) NOTIFICATION OF DISEASE. Notice shall be sent to the enforcing officer immediately by any producer of milk or milk products upon whose farm any infectious, contagious or communicable disease occurs or exists.

(b) PROCEDURE WHEN A COMMUNICABLE DISEASE IS SUSPECTED. When suspicion

arises as to the possibility of transmission of infection from any person handling milk or milk products, the enforcing officer is authorized to require any or all of the following measures: (1) the immediate exclusion of that person from milk handling; (2) the immediate exclusion of the milk supply from distribution and use; (3) adequate medical and bacteriological examination of the person or his associates or of his or their body discharges.

Section 19. TRANSPORTATION OF MILK.

TRANSPORTATION. Trucks or vehicles used for hauling milk and from producing farms to milk plants shall have completely enclosed bodies.

Section 20. FARM PERMITS.

FARM PERMITS. No milk or milk product, intended to be sold for direct consumption, shall be received at any milk plant from any producing farm unless such farm has first complied with the provisions of this ordinance and has obtained a permit from the enforcing officer. A fee of \$1.00 shall be paid at time of issuance of said permit. The enforcing officer may refuse to issue a permit or revoke any existing permit when it is determined by him that any of the provisions of this ordinance have not been complied with.

MILK PLANT STANDARDS

Section 21. MILK PLANT CONSTRUCTION and FACILITIES

(a) MILK PLANT. A milk plant, as defined herein, shall be provided with: (1) a room or rooms for receiving and washing; (2) a room for processing, cooling and bottling and (3) a room for storing of milk and milk products. No washing, except that of equipment used in the processing room shall be permitted in the processing room. Doors shall be provided and kept closed when not in use. The various milk plant operations shall be so located as to prevent any contamination of the milk or of the cleaned equipment.

(b) FLOORS. Floors, including platform and stairs, of all rooms in which milk or milk products are handled shall be constructed of concrete or other impervious material, shall be smooth, graded to drain and in good repair, floors shall be equipped with adequately trapped drains discharging into proper sanitary drains.

(c) WALLS and CEILINGS. Walls and ceilings of the milk plant shall be of material that is impervious and smooth, or treated to provide an impervious, smooth surface. In newly constructed plants joints between walls and floors shall be covered to a minimum height of four inches and window sills shall have a downward slope the angle of which shall not be less than 45 degrees as measured from the horizontal and beginning at the base of the sash.

(d) LIGHT and VENTILATION. All rooms shall be well lighted, heated and ventilated to prevent condensation on walls and ceilings.

(e) FLY CONTROL. Openings to the outside shall be effectively screened and or such other means shall be employed as are necessary to eliminate flies.

(f) ROOMS. Rooms in which milk, milk products, cleaned utensils or containers are handled or stored shall not open directly into any stable or living quarters.

(g) CLEANLINESS. Milk plants, including surroundings, shall be kept clean and free from objectionable odors.

(h) EQUIPMENT INSTALLATION. All major equipment installed in milk plants constructed or remodel following the adoption of this ordinance shall be placed at least two feet from any wall and at least three feet from any other piece of equipment.

(i) TOILETS. Milk plants shall be provided with conveniently located sanitary toilet facilities. Toilets shall have impervious floors and smooth, solid walls, the base of which shall be an integral part of the floor and impervious to a height of not less than four inches. Toilets shall be maintained in a clean condition so that the waste is inaccessible to flies, and does not pollute the ground surface or contaminate any water supply.

(j) HANDWASHING. Handwashing facilities of an approved type shall be provided and located in or proximate to toilet rooms and in or proximate to processing rooms. Hands shall not be washed in vats used for cleaning equipment.

Section 22. WATER SUPPLY.

WATER. Water used in a milk plant shall be from a supply that is adequate and of a safe and sanitary quality and shall comply with the recommendations for Public Ground Water Supply as issued by the Michigan Department of Health. Cross connections between a private water supply and a public water supply shall conform with the regulations of the Michigan Department of Health covering cross connections.

Section 23. MILK SUPPLY.

(a) COOLING. All milk and milk products received for pasteurization shall immediately be cooled in approved equipment to 50 degrees F. or lower and maintained at that temperature until pasteurized, unless pasteurized within two hours after receipt. All milk and milk products shall be stored and maintained at a temperature of 50 degrees F. or lower until delivered.

(b) RECONTAMINATION. Pasteurized milk or pasteurized milk products shall not be permitted to come in contact with equipment with which unpasteurized milk or unpasteurized milk products have been in contact.

(c) MATERIAL STORAGE. Bottle caps or cap stock, parchment paper for milk cans, and single-service containers shall be purchased only in sanitary tubes and cartons and shall be stored therein in a clean, dry place. After bacter-

icidal treatment and during storage and usage, containers and equipment shall be handled and maintained in such a manner as to prevent contamination of the containers, equipment or the milk.

(d) TESTING. Such quality tests as are required by the enforcing officer shall be made of each producer's milk at least once each month.

(e) UNINSPECTED MILK. Uninspected milk shall not be received or allowed to be used in a milk plant unless methods approved by the enforcing officer are used to prevent the mingling of uninspected milk with inspected milk. Violation of this requirement shall warrant prompt revocation of license.

(f) BOTTLING. Bottling or packaging of milk and milk products shall be done at the place of pasteurization immediately after pasteurization and by approved mechanical equipment.

(g) CAPPING. Containers for milk and milk products of a capacity less than three gallons shall be capped by approved mechanical equipment.

(h) OVERFLOW MILK. Milk or milk products which have overflowed, drained or leaked from equipment shall not be sold for human consumption.

Section 24. EXAMINATION OF MILK and MILK PRODUCTS:

(a) SAMPLES. Samples of milk and milk products shall be available to the enforcing officer for examination. All proprietors of stores, cafes, restaurants, soda fountains and other similar places shall furnish the enforcing officer, upon his request, with the names of all distributors from whom milk and milk products are obtained. Examinations by the enforcing officer may include bacteriological, chemical and physical determinations as he may deem necessary and such examinations shall be made in accordance with the latest standard methods established by the American Public Health Association and the Association of Official Agricultural Chemists.

(b) VITAMIN FORTIFIED MILK. Analysis of vitamin fortified milk shall be made, when required by the enforcing officer by a method and in a laboratory approved by the enforcing officer, the cost of which shall be borne by the distributor thereof.

(c) BACTERIAL COUNTS. The standard plate count of milk and milk products except buttermilk, cultured buttermilk and soured cream shall not exceed 50,000 per milliliter after pasteurization.

Section 25. EQUIPMENT.

(a) EQUIPMENT. Sanitary pipe fittings and equipment shall be constructed so as to be easily cleaned. Each piece of pasteurizing equipment shall be equipped with a self-recording thermometer with charts showing a 1-degree Fahrenheit graduation and a 10-minute time duration. Charts shall be placed in the recorder before the pasteurization operation begins and left there until the pasteurization operation is completed and no chart shall be used for more than one day's operation. Charts shall be dated and the name of the dairy written or stamped thereon before placing in the recorder and used recording charts shall be preserved for at least three months. An accurate indicating thermometer shall be installed on each piece of pasteurizing equipment. All regenerative heating and cooling equipment shall be so constructed and operated that the pressure on the heated milk side exceeds the pressure on the raw milk side by at least one pound. Equipment used to pasteurize at a temperature not lower than 160 degrees Fahrenheit for 15 seconds shall include, in addition to the other requirements in this section, a flow diversion valve actuated by an accurate recording thermometer that will divert all of the milk before the falling temperature of the milk reaches 160 degrees Fahrenheit and a positive milk pump that is sealed at a maximum fixed speed.

(b) COOLERS. Open surface coolers shall be provided with tight-fitting shields, preferably suspended on trolleys, unless such coolers are located in separate well ventilated rooms.

(c) BOTTLING BOWL. Automatic bottling bowls shall be provided with covers so constructed as to prevent the contamination of the product in the bowls.

Section 26. CLEANING and BACTERICIDAL TREATMENT.

(a) FACILITIES. Adequate facilities for the heating of water for the cleaning of utensils and equipment shall be provided. A vat long enough to receive the longest piece of sanitary pipe in use in the plant shall be provided for cleaning all pipe lines.

(b) BOTTLE WASHING.

(1) Soaker type chlorine rinse. Where a chlorine rinse is used, bottles shall be subjected for at least seven minutes to a caustic solution of a strength not less than 1.5 percent at a temperature not less than 135 degrees F., and treated with a chlorine rinse having strength of not less than 100 p. p. m.

(2) Hand washing. Bottles washed by hand shall be washed in a solution containing not less than 0.5 percent total alkali at a temperature, during the washing process, not less than 115 degrees F. Suitable wash and rinse tanks shall be used and the bottles subjected for two minutes to a chlorine rinse containing at least 100 p. p. m. of chlorine.

(3) Other methods. Any other method approved by the enforcing officer.

(4) Bacterial count. Bottles, after washing and bactericidal treatment, shall not show a bacterial count of more than 200 per quart of capacity.

...CANS and CONTAINER WASHING.

Cans and containers shall be

thoroughly cleaned, inside and out, after each usage by an approved method and subjected to an approved method of sterilization. Cans and containers, after washing and sterilization, shall not show a bacterial count of more than 200 per quart of capacity. Cans and containers used to transport milk or milk products from the farm to the milk plant or receiving station must be returned to the producer of the milk thoroughly cleaned and dry.

(d) OTHER EQUIPMENT WASHING. Equipment shall be disassembled and washed after each operation and given bactericidal treatment after assembling and immediately before using, either with steam or hot water at a temperature of not less than 180 degrees F., for at least one minute or exposed to confined, moist steam for not less than 15 seconds, or a chlorine solution containing not less than 100 p. p. m. of chlorine for at least two minutes.

Section 27. PERSONNEL.

(a) PERSONNEL. No person who has a communicable disease or who is a carrier of such disease or has any type of open lesion shall be employed where milk or milk products are handled. Such persons shall furnish such information, submit to such physical examinations, and submit such laboratory specimens as the enforcing officer may require for the purpose of determining freedom from such infection.

(b) PERSONAL CLEANLINESS. Persons coming in contact with milk, milk products, containers or equipment shall wear clean, washable outer garments, and shall keep their hands clean while thus occupied. The use of tobacco in any form shall be prohibited in the receiving or processing room of any milk plant.

Section 28. DELIVERY VEHICLES

DELIVERY VEHICLES. Vehicles used for the transportation of pasteurized milk or pasteurized milk products in their final containers shall be constructed with permanent tops and with permanent or movable sides and back, provided that openings of a size necessary to pass the delivery man may be permitted in the sides of back for loading and unloading purposes. Vehicles shall be kept clean and no substances capable of contaminating pasteurized milk or milk products shall be transported with milk or milk products in such manner as to permit contamination. Vehicles used for the distribution of pasteurized milk or milk products shall have the name of the licensed milk plant prominently displayed on each outer side.

Section 29. CONTAINERS.

(a) LEGAL CONTAINERS. Milk and milk products shall be placed in their final delivery containers in the plant in which they are pasteurized. Milk and milk products sold in quantities less than three gallons shall be delivered in standard milk containers as may be approved by State regulations. It shall be unlawful to sell or serve any milk, cream or chocolate milk except in the original container; provided that this requirement shall not apply to cream, consumed on the premises which may be served from the original bottle or from a dispenser approved for such service.

(b) RETAIL COOLING. It shall be unlawful for any store, hotel, soda fountain, restaurant or similar establishment to sell or serve any milk or milk products which have not been maintained while in its possession, at a temperature of 50 degrees F., or lower. Bottled milk or milk products, if stored in water, shall be so stored that the tops of the bottles will not be submerged.

(c) WASHING AND USE. It shall be the duty of all persons to whom milk or milk products are delivered to wash and rinse the containers thoroughly before returning such containers. Containers used in the handling, storage, processing or transporting of milk or milk products shall not be used for other purposes.

Section 30. DELIVERY AT QUARANTINED RESIDENCES.

DELIVERY AT QUARANTINED RESIDENCES. The delivery of milk or milk products to the collection of milk or milk products containers from residences in which cases of communicable disease transmissible through milk supplies exist shall be subject to the special requirements of the enforcing officer.

Section 31. LABELING and BRANDING.

LABELING and BRANDING. Bottles, cans and other containers containing milk or milk products defined in this ordinance shall be plainly labeled or marked with (1) the name of the contents as defined in this ordinance; (2) the word, "pasteurized" together with the word or words "homogenized," "chocolate milk," "vitamin fortified," etc., in accordance with the contents thereof; (3) the name of the person preparing and putting up such products for sale and (4) in the case of vitamin fortified milk, the designation of the vitamin used and the number of units of vitamin contained in one quart. The label or marking shall be in letters of a size, kind and color approved by the enforcing officer and shall contain no words or markings which are misleading.

Section 32. PASTEURIZATION.

PASTEURIZATION. No person shall sell, offer or expose for sale, or deliver, or have in his possession with intent to sell for direct consumption, any milk or milk product which has not been pasteurized; provided, however, that nothing contained herein shall prohibit the delivery of unpasteurized milk to a duly licensed milk plant.

Section 33. LICENSES.

LICENSES. No person shall engage in the hauling, processing,

bottling or the distribution of milk or milk products for consumption in the City of Tawas City, without first having obtained a license for a milk plant, milk hauling vehicle, and each milk hauling vehicle used for hauling milk from a producing farm or receiving station to a milk plant. Every such person or corporation shall make application to the City Clerk for such license in writing upon blanks to be furnished by such officer. Licenses shall be issued for a period not to exceed one year and shall expire at midnight on the following June 30. Application for renewal of all licenses shall be duly made at least thirty (30) days before the commencement of the license year. Only persons who have complied with the requirements of this ordinance shall be entitled to keep and retain such license. Licenses may be suspended by the City Council on the violation by the holder of any of the provisions of this ordinance or amendments thereto, and may be revoked by the City Council when it is determined by the City Council that the holder of the license has failed to comply with the provisions of this ordinance.

LICENSE FEES: The City Clerk is hereby empowered upon the payment of the proper fees to grant licenses to any persons presenting applications approved by the City Council. The fee for each license shall be as follows:

For each milk plant, \$25.00
For each milk delivery vehicle, \$5.00
For each milk hauling vehicle, \$5.00.

Section 34. INSPECTION.

(a) No license or permit shall be issued to any person or persons engaged in producing, hauling, processing, bottling or distribution of milk or milk products for consumption in the City of Tawas City, until an inspection has been made by the City of Tawas City, to determine if the premises or equipment complies with the terms of this ordinance.

(b) INSPECTION FEES. No charge shall be made for any inspection of premises located within a 15 mile radius of the limits of the City of Tawas City, provided, however, that for any inspection outside of the above 15 mile radius a mileage and per diem charge shall be made as follows; to wit; Exceeding 10 miles, but not exceeding 25 miles, 10 cents per mile; exceeding 25 miles, but not exceeding 50 miles, 12 cents per mile; exceeding 50 miles, 15 cents per mile, said mileage shall be computed from a point 15 miles from the nearest City limits of Tawas City and the actual mileage both to and from the aforesaid place or beginning shall be charged to the premises or equipment to be inspected and the same shall be paid before license can be issued, and in the case such inspection is made during the period covered by an existing license, in conformity of directions in this ordinance, the failure to pay said inspection fee within 10 days from the date of said inspection; shall cancel the said existing license or permit.

A per diem charge at the rate of \$10.00 per day and not less than at 1/2 day charge may be made for inspection, outside the free inspection zone hereby established.

(c) TIME OF INSPECTIONS. Inspections of all producers or dairy farms shall be made not less than twice annually. Inspections of all processing plants or bottling plants shall be made at least, every fifteen (15) days or oftener if deemed necessary.

Section 35. PENALTY.

PENALTY FOR VIOLATION. Any person who shall violate any of the provisions of this ordinance shall upon conviction thereof before a Court of competent jurisdiction be punished by a fine not exceeding One Hundred Dollars (\$100.00) or by imprisonment in the county jail for a period not exceeding ninety (90) days, or by both such fine and imprisonment in the discretion of the Court.

Section 36. UNCONSTITUTIONALITY CLAUSE.

ORDINANCE DECLARED SEVERABLE. The sentences, sections and provisions of this ordinance are declared to be severable, and any portion which is declared unconstitutional or invalid for any reason by a court of competent jurisdiction shall in no way affect the remaining sentences, sections or provisions of this ordinance.

Section 37. REPEALING CLAUSE.

ORDINANCES REPEALED. All ordinances and parts of ordinances inconsistent with the provisions of this ordinance are hereby repealed.

Section 38. EFFECTIVE DATE.

EFFECTIVE DATE. This ordinance shall take effect and be in force thirty (30) days after its passage and publication.

Approved March 21, 1949.

John D. LeClair, Mayor.
Albert H. Buch, City Clerk.

STATE OF MICHIGAN

The Probate Court for the County of Isco

At a session of said Court, held at the Probate Office in the City of Tawas City in said County on the 5th day of April 1949.

Present, Honorable H. Read Smith, Judge of Probate.

In the Matter of the Estate of John Seale, Deceased.

It appearing to the Court that the time for presentation of the claims against said estate should be limited and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said Court;

It is Ordered, That all creditors of said deceased are required to present their claims to said Court at said Probate Office on or before the 20th day of June, 1949, at 10:00 o'clock in the forenoon, said time and place being hereby appointed for the examination and adjustment of all claims and demands against said deceased.

It is Further Ordered, That publication thereof be given by publication of a copy of this order, once in each week for three weeks consecutively, previous to said day of hearing, in the Tawas Herald, a newspaper printed and circulated in said County.

H. Read Smith, Judge of Probate.

What can you do with 70 MILLION DOLLARS in one year?

IT TAKES PLENTY OF EQUIPMENT TO GIVE GOOD TELEPHONE SERVICE. IN 1948, MICHIGAN BELL SPENT 70 MILLION DOLLARS TO IMPROVE AND EXPAND SERVICE... \$133 A MINUTE.

GRACIOUS, THAT'S A LOT OF MONEY!

YES, IT IS. AND A CONSTRUCTION PROGRAM LIKE THAT MEANS A LOT OF JOBS AND A LOT OF MONEY SPENT RIGHT HERE IN MICHIGAN.

WHAT DID THE 70 MILLION DOLLARS BUY?

YOU BET THERE WERE. CALLS HIT A NEW HIGH OF OVER 6,000,000 A DAY. THE AVERAGE CUSTOMER USED THE TELEPHONE MORE THAN 1,600 TIMES LAST YEAR.

WE COULDN'T GET ALONG VERY WELL WITHOUT THE TELEPHONE, COULD WE?

IT PAID FOR 36 NEW TELEPHONE BUILDINGS OR ADDITIONS, GOT 16 MORE UNDER WAY, PUT UP 62,000 POLES, 650,000 MILES OF WIRE. WANT ME TO GO ON?

I'VE HAD ENOUGH. WHAT DID IT MEAN IN THE WAY OF SERVICE?

THERE MUST HAVE BEEN A LOT MORE CALLS IN 1948

RIGHT! GOOD TELEPHONE SERVICE HELPED MAKE MICHIGAN GREAT. IF SERVICE DIDN'T KEEP PACE WITH THE PUBLIC'S DEMANDS, IT WOULD EVENTUALLY TOUCH THE POCKETBOOKS AND LIVES OF ALL MICHIGAN PEOPLE.

INDEED THERE IS! EVERYONE STILL CAN'T GET THE KIND OF SERVICE HE WANTS, WHEN AND WHERE HE WANTS IT—EVEN THOUGH 164 MILLION DOLLARS HAVE GONE INTO SERVICE IMPROVEMENTS SINCE VJ DAY.

164 MILLION DOLLARS! WHERE DO YOU GET THAT KIND OF MONEY? MOSTLY FROM INVESTORS, PEOPLE LIKE YOURSELF WHO ARE WILLING TO PUT THEIR SAVINGS IN A GOOD BUSINESS WHERE THEY'LL GET AN ADEQUATE RETURN.

IS THERE MORE TO BE DONE?

WELL, THERE'S ALMOST TWICE AS MUCH MONEY INVESTED IN MICHIGAN BELL NOW AS BEFORE THE WAR, BUT THE RETURN ON THAT MONEY IN 1948 WAS ONLY 3.77%—LOWEST IN 15 YEARS.

WHAT KIND OF RETURN WOULD MY MONEY GET IF IT WAS INVESTED IN MICHIGAN BELL?

NO, IT ISN'T. THE ONLY WAY MICHIGAN BELL CAN CONTINUE TO GIVE GOOD SERVICE IS TO GET HIGHER RATES THAT'LL KEEP THE BUSINESS SOUND AND PROVIDE A RETURN SUFFICIENT TO ATTRACT INVESTORS' DOLLARS.

THAT'S NOT TOO GOOD, IS IT?

MICHIGAN BELL IS CONFIDENT IT WILL BE ABLE TO KEEP ON WITH ITS IMPROVEMENT AND EXPANSION PROGRAM, KNOWING THAT ITS CUSTOMERS ARE WILLING TO PAY FOR GOOD SERVICE.

YOU MAY GET A COPY OF MICHIGAN BELL'S ANNUAL REPORT AT ANY MICHIGAN BELL BUSINESS OFFICE

WOMAN'S WORLD

Accessories Can Highlight Your Ensembles

By Ertta Haley. IF YOU'RE the kind of a woman who doesn't know what it's like to wear a dress because you go from one season to the next in a suit, fashion is all on your side.

Your suit may be elegant and perfectly tailored. It may need little in the way of dressing up for many occasions.

Some women like to leave their suits strictly alone, and use accessories elsewhere. Do it with a frothy veiled hat or one bedecked with flowers.

Another way to do it is with a blouse. For most times you can wear the trim and tailored blouses, but for other occasions, choose nylon, sheer, net or organdie with a fresh froth of lace or ruffles.

Beginner-easy filet crochet square makes a double-design cloth or spread! Pattern 507; direction.

Accessories brighten clothes... by the change. Luscious pastels are now available for everyone.

Scatter pins are hitting a new high in popularity especially on plain suits which show them off to such perfection.

There are some very clever single pins available now for those of you who like the novel and unusual. Some of them are pure design while others dip back into history, like the gay nineties pins.

White enameled jewelry in many different designs is also popular for the season. The suits, as well as the white print-on-dark-background dresses, are just made for this type of jewelry.

Several strands of beads are still being worn with many of the suits. Some of these are neck-hugging while others are long enough to be tied in a large loop a few inches below the neck.

Neckline decorations as well as earrings are increasingly important while the hair remains short.

Two-Piece Suit

This two-piece suit with the look of a coat dress comes from the spring collection of a New York designer. It boasts a snug, waist-length jacket, buttoned down the front in line with the fastening of the skirt, and moulds the shoulders in a beautiful, rounded line.

Gloves are Tonic To Suits, Dresses. This season the American manufacturers of gloves have created an abundance of white and natural colored gloves for all occasions.

For casual wear, there are white and natural colored chamois. White pigskin has taken on a new look of slim styling that makes it ideal with the new suits.

For casual wear, there are white and natural colored chamois. White pigskin has taken on a new look of slim styling that makes it ideal with the new suits.

Scatter pins are seen, not only on the suits which I mentioned, but also on white doekins or glaze gloves to dress them up. Buttons and bows are keynotes in styling, too, as are the appearance of embroidery, tassels and openwork on the gloves.

For cool comfort during spring and summer, shorties are the favored length, with really long gloves still holding their own for wear on very formal evenings.

The flowers that bloom have nothing on gloves when it comes to color. Glove shades range from delicate pastels to rich, vibrant tones. Among the most popular are Bristol blue, clove pink, fawn, sun bronze, carib green, rose lustre, cherry pink and South Sea violet.

Navy Favored For Shoes. Beautiful navy calf has been one of the important color and material combinations in the shoe picture so far.

Be Smart!

There never has been a season, it seems, when gabardines were so popular. The reason is the great beauty of the fabric and the way it takes so exquisitely to tailoring.

KATHLEEN NORRIS One Person Can Spoil the Scene

DON'T YOU THINK it's pretty hard," asks 22-year-old Marcella Ward, "when just one person stands between you and being perfectly happy? My mother-in-law lives with us, and although she tries to be nice, she spoils everything. She has no money, nowhere else to go, and she's only 58. She thinks I don't take the right care of the baby, she demands a lot of attention from Andrew and me, and she talks all the time. I find myself wishing she would die, and hoping she will, and it makes me feel awful. What can I do?"

Unfortunately, Marcella, you can't do much, and even more unfortunately, you are far from being alone in your trouble. For most of us, at long periods in our lives, the existence and demands of just one person — just one! — darkens our whole scene.

Sometimes it's an old relative, as in your case, who simply can not step up his tempo to meet the household requirements, and drags on and on, year after year, stubbornly clinging to life. Sometimes it's the rich uncle, who doesn't enjoy life anyway, and whose money will some day make the greatest difference to his heirs.

Often, today, that superfluous picture is the stepchild, in a second person right in the middle of the marriage. When Helen serenely watched her boss getting his divorce, and thought that she would always love his little girl, she didn't

faithful old workers and put raw college sons and nephews into positions of trust. As long as girls do indiscreet things for just a temporary loan, there will be sneaks about who will cash in on these secrets later on. And in the too-common story of divorce and remarriage there will always be children drifting about to come between the grown-ups problems with acute problems of their own.

So do what the bees do. When they find a foreign body in the hive, they rapidly wall it away in sheets of clean wax and go merrily on storing honey in the cells all about. Wall away your problem with philosophy and good sense. Don't let any one other individual spoil your life. Don't wish anyone dead; it's a sort of murder to begin with, and it's perfectly futile anyway.

And the awful truth is this. Just as soon as one bothersome personality is gone, and the funeral over and the will read, another shows up. This peculiar twisted life of ours allows us only a few deep breaths of relief, a deceptive brief time in which we can feel that at last everything is all right, and then the new shadow begins to form, and Helen goes about the house busy with murder plans again.

'Hex' Diamond On Sale Block

III-Famed Hope Gem Was Bought 'On Time'

WASHINGTON, D. C.—The Hope diamond, fabled harbringer of misfortune, once adored and feared by royalty, will adorn the neck of a new owner.

District Judge James W. Morris has given the executor of the late Evalyn Walsh McLean's estate permission to sell that stone, its less awesome but higher priced companion piece, the star of the east, and other gems, with a total value close to \$600,000.

Purchased by Louis XIV of France, locked up by Louis XV because of its bad luck reputation and placed around the neck of the ill fated Marie Antoinette by the equally ill starred Louis XVI, the Hope diamond came to Washington 37 years ago.

Details Revived. Details of the transaction by which Mrs. McLean and the late Edward B. McLean obtained the gem were revealed recently in a statement of the account with Cartier's famous New York jewelers.

Contrasting with this is the \$500,000 selling price of the 99.52 carat Shah of Persha diamond which has been up for sale for the last 30 years. Earliest known owner of this diamond of many lives—now in America—was Shah Jehan, builder of the Taj Mahal.

Purchase Described. Cartier's Hope diamond statement shows \$20,000 was paid in cash at the time of purchase and credit for \$35,000 allowed two months later for two other pieces of jewelry turned in on the purchase.

Dated Oct. 1, 1918, the statement describes the purchase this way: "Jan. 28, 1912—One head ornament of oval shape links all in brilliant containing in center the 'Hope diamond,' weighing 44 1/2 carats. Price agreed following terms of contract signed Feb. 1, 1912. . . . \$180,000."

AROUND THE HOUSE

When boiling rice, have water boiling furiously and drop rice into it so slowly that water never ceases to boil. Do not stir; lift kernels with fork and shake kettle occasionally to prevent rice from sticking to bottom of kettle.

Hang towels, napkins, etc. crosswise between parallel lines to save steps, and minimizing space needed for drying extra large washing.

When pans have "humped" in the middle, heat them and invert, then roll the rolling pin over their

inverted bottoms. The rolling pin treatment requires pressure, so if the humps won't roll out for you, have friend husband give it a try.

For flavorful vegetables, drop those which grow above ground into boiling water when cooking; put those which grow below ground on to boil in cold water. Green beans, carrots, etc., will retain more of their appetizing color, too.

Try slicing a little onion into the frying pan when frying fish—it minimizes that "fishy odor."

THE GARDEN SPOT

Perennials: Beauty, no Work

By Eldred E. Green

FOR BEAUTY without work there is nothing superior to a good selection of perennials. Once planted they go on for years and years producing beauty with only weeding needed. You can depend on perennials. From early spring to late fall they will furnish color and beauty in the garden.

The earliest of all are the violets. The large English violets are fragrant and bloom all season except in the hottest weather. They are fine for border or in shade. Bleeding heart also will grow in shade and flower early. The old fashioned tall kind will die back to the ground in midsummer, but the dwarf plummy one will continue to bloom all summer.

Peonies are tops for fine spring bloom. Plants are hardy, long-lived and are available in a bewildering range of size and color. While peony plants take a lot of room, yet other perennials can be planted among them.

Most gardeners are not familiar with the single and Japanese peonies. These have five large outside petals, a cluster of small yellow stamens in the center and the general appearance of a magnificent single rose.

The Japanese kinds have a large yellow center. A few of these in any of the fine colors is sure to be different and admired in your garden. Peonies never should have the reddish buds at the top of the roots more than two inches below the soil or they will not bloom.

Others can be added at any time. flat and many varieties will cover a small plate. Colors are very rich in shades of purple, blue, mahogany and white. They need a little more moisture than the bearded kinds. Flowers are produced about three weeks later so they fill in the season very well.

... one person darkens the scene ...

realize what a pest — and even worse, what a bore! — a ten-year-old girl can be. Pamela had been well schooled by her mother to believe that her father's new wife is a home breaker and a gold digger. And Pamela's schooling and teeth-straightening and clothing are expenses upon which Helen didn't

As for those unhappy women who are being blackmailed — and there are more than you might imagine, their thoughts as the sneaking triumphant figure goes his way, with their money in his pockets, can be easily imagined.

Yes, Marcella, everyone, at one time or another, finds herself saying "if only she would die." Death ends everyone's story, and there are certain stories to which we want to write finis. We find ourselves thinking of the freedom of the inherited money, of the office with a rational and capable figure at its head; of the relief of not having to send John's first wife that enormous check every month, of the easier household without dead old Uncle Peter or John's critical old mother.

Courage to Endure. But wiser than waiting for a dramatic change is the character and courage that accepts the utterly unacceptable and endures the completely unendurable. As long as there are young households, there will be fumbling, troublesome old persons in them. As long as there are offices at all, the higher-ups will step right over the claims of all the other workers out of step.

HOUSEHOLD MEMOS... by Lynn Chambers

Select Seasoning to Suit Meat (See Recipes Below)

Meat Tricks

THE FIELD of seasonings, especially as applied to meat cookery, is a wide and interesting one. If you want to have fun with cooking, and serve the family foods with fine flavor, follow some of the tips given here; then, go further and do some experimenting on your own.

Certain seasonings are ideal for different cuts of meat. For mild cuts of meat such as veal and lamb, the seasoning may be a little sharper than those used for beef. Spicy seasonings are favored for pork.

SOUR CREAM has long been a favorite with veal. When combined with a dill pickle relish and served with steaming hot egg noodles, veal can indeed be a treat.

Veal in Dill Sour Cream (Serves 4)
 1 tablespoon salt
 3 quarts boiling water
 6 ounces egg noodles
 1 pound veal, cut thin, from leg
 4 tablespoons butter or substitute
 1 tablespoon flour
 1/2 teaspoon salt
 1/2 teaspoon pepper
 4 tablespoons dill pickle relish

1 1/2 cups sour cream
 To cook egg noodles, add salt to boiling water and gradually add egg noodles. Do not let water stop boiling. Stir occasionally with a pancake turner. Boil rapidly about nine minutes, until tender. Drain thoroughly.

Have butcher cut veal 1/2-inch thick. Dredge in flour and sprinkle with salt and pepper. Melt butter in skillet; add veal and saute until golden brown. Cover and cook until tender. Remove from pan; keep warm in oven. Add two teaspoons flour to the drippings, blend well. Gradually stir in sour cream, pickled relish, salt and pepper. To serve, arrange veal in center of platter and surround with buttered egg noodles.

LAMB BREADST is among the more economical cuts of meat, but it's a real favorite when prepared with barbecue sauce:

Barbecued Lamb Breast (Serves 4)
 2 pounds lamb breast
 1 medium onion, sliced
 1/2 cup chili sauce
 1 teaspoon salt
 Pepper
 1/2 teaspoon red pepper
 1 tablespoon vinegar
 2 tablespoons brown sugar
 1 cup water

Cut lamb into five pieces. Season with salt and pepper. Place in hot skillet and let fatty sides brown. Mix remaining ingredients and pour over lamb. Cover and simmer for one and one-half hours. Remove cover and cook for 20 minutes longer, until sauce is absorbed.

Vegetables, cloves, bay leaves

LYNN SAYS:
Know these Facts About Cooking
 When brown sugar hardens, place in the refrigerator until the sugar softens. If the sugar is very hard, wrap a damp towel around it before refrigerating.
 If you add barley to soup or stew, the mixture will thicken naturally without the addition of flour and water.
 Beat cocoa with an egg beater to prevent cocoa from forming on its top.

and tomatoes add wonderful flavor to round steak. A low temperature is used in baking so the meat will be properly tender.

Tomato Steak (Serves 6-8)
 3 pounds round steak, cut 2 inches thick
 3 tablespoons fat
 1 pint tomatoes
 2 carrots
 1 large onion
 1 turnip
 2 cloves
 3 bay leaves
 2 teaspoons salt
 1/2 teaspoon pepper
 2 tablespoons flour
 2 tablespoons water

Score the steak by slashing with a sharp knife. Sear in heated fat in skillet. Prepare vegetable and put through coarse knife of the food chopper. Add them as well as the other seasonings to the meat. Cover carefully and bake in a slow (275°) oven for three hours or until tender. Remove meat from liquid. Combine flour and water. Add a little of the hot liquid to this, then add to remaining liquid. Boil together until thickened, then pour over meat and serve.

Apples and raisins are tucked into a sage-seasoned dressing for roast pork.

***Stuffed Shoulder of Pork**
 1 4-5 pound pork shoulder
 1 cup bread crumbs
 1/2 cup raisins
 1 egg, beaten
 2 tablespoons butter
 1/2 teaspoon salt
 Dash of pepper
 1 grated onion

Have the butcher cut a pocket in a shoulder of pork, from which the blade has been removed. Make the dressing as follows: Mix ingredients in order given and fill the pocket. Skewer or tie with coarse string. Rub the roasting pan lightly with a clove of garlic, if desired, and dust the pork shoulder with salt and pepper and paprika. Place in a 350° oven and cook two and one-half to three hours.

LIVER HAS little fat of its own, so bacon and pork are used with it to provide juices for cooking it. Here's an unusual way to prepare liver that's certain to be a favorite:

Liver Rolls
 Have desired number of slices of calves' or beef liver cut in one-fourth inch slices. Sprinkle with fine bread crumbs and spread with a mixture of sauteed onions, celery and chopped parsley. In the center of each slice, place a finger-length piece of salt pork. Roll each slice tightly and tie or skewer together. Dust with salt and pepper and roll in flour. Place in a baking pan to which a small amount of water mixed with bacon drippings has been added.

To keep yolks from which the whites have been used, place in a cup of water to prevent a hard crust from forming. Store in the refrigerator.
 Never beat muffin or pancake mixtures too thoroughly. Slight lumps should be left in the batter so the finished product will be really tender.
 When heating iced rolls place in the oven in a paper sack or in a heavy skillet on top of the range. Do not sprinkle with water since this may melt the icing.
