### Western Auto

### Truman Signs Bill for Extension Of European Aid Another 15 Months; U. S. Launches Bond Sale Drive

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

#### Men Who Found Kathy Remembered by Mail

The men who dug for little Kathy Fiscus, 3-year old who died in a California well shaft, were being remembered all over the nation.

More than 2,200 letters had been received by the Kathy Fiscus rescue fund from virtually every state in the union. Mayor Clark E. Bell, San Marino, chairman of the fund committee, said the first envelope opened contained \$1,020-an average contribution of \$5.10.

Donations ranged from 10 cents to \$50. It was pointed out that if the average continued, it would mean a total of more than \$11,000 for the men who worked for 52 hours to reach the child who fell to her death 92 feet down the well pipe.

#### AID BILL:

#### Has Truman Okay

A bill to give 5.58 billion dollars to the European recovery program over the next 15 months- with one billion available at once-was signed by President Truman.

MR. TRUMAN, as is a quaint capital custom in such maters, signed the bill with several penseight, in fact. Even Mr. Truman, himself, was moved to observe jestingly that "this will probably look like a forgery, but it really isn't."

The bill which Mr. Truman signed allots more than one-eighth of the entire budget of the United States to foreign aid.

Mr. Truman, ever a meticulous man, carefully wiped the points of the pens, handed one each to seven witnesses to the signing, and kept one for Sen. Arthur Vandenberg, who was unable to attend.

THERE WAS a check and balance in the bill, however. With the billion dollars to be made available at once, aid could be kept flowing to the Marshall plan countries of western Europe until congress votes the rest of the cash later.

#### CHURCHMEN:

#### UN Asks Facts

The United Nations wasn't heeding protests of Hungary and Bulgaria against its consideration of the trials of Cardinal Mindszenty and Protestant churchmen. Instead, the UN invited the two Soviet satellite countries to tell their stories of the imprisonment of the Cardinal and other clergymen.

THE RUSSIAN delegation indicated the two nations would disregard the invitation, since both Hungary and Bulgaria have contended the trials were internal matters and no business of the UN.

The world organization. voted 30 to 7 to put the church cases on its agenda and to go on with a full discussion of them.

U. S. delegate Benjamin V. Cohen inviting any nations or churches to send spokesmen until it decides how it wants to deal with the gues-

Russia's Jacob A. Malik indicated the two Russian satellites would reject such an invitation and accused Bolivia of violating the UN charter by seeking to invite religious organizations.

To the casual observer, the entire matter was even less than a tempest in a tea pot. Whatever the UN might find as a result of rehashing the convictions of the churchmenwhat could UN do about it? The force of UN in world peace retention efforts has been so meager as to cause critics to begin comparing it already with the old League of Nations which died of impotency.

#### BOND DRIVE:

Plan for Security

Kick-off speaker at the opening of the "Opportunity Bond Drive," in which the government hopes to sell one billion, 40 million dollars worth of U. S. savings bonds to its people, President Truman keyed his remarks to the need for nation-

HE PICTURED the bond drive as providing another opportunity for purchasers to assure security for themselves and their country. Among other things, the President

"We know that we cannot have a sound and secure nation unless security is the common possession of our people. Farmer, factory worker, banker, merchant, school teacher, housewife-all are buying security for themselves and each other when they buy savings bonds."

He added that "every bond they have bought has given them much more reason to feel secure about the future—their own and their country's.'

THE PRESIDENT said the kickoff dinner was to honor three million volunteers in the bond sales program, and declared they would be joined by another 250,000 newsboys who would "ring the nation's doorbells, bringing the message of the Opportunity Bond Drive into 12 million American homes.

Top question plaguing bond officials was the recession in employment, lower prices and less consumer cash interfering with the bond drive's reaching its goal.

#### OASI COST:

American taxpayers in covered employment would have to dig into their pockets to the tune of 3.75 billion dollars by 1955 to finance old age and survivors insurance under the proposals advanced by President Truman and his administra-

BY THE YEAR 2,000—when the program is expected to hit its peak -the proposed cost would have mounted to approximately 13 billion dollars.

'This estimate, made by the Research Council for Economic Security, Chicago, is based on a report from the advisory council on social security to the 80th congress. Of a labor force of over 60 mil-

lion, OASI now covers about 35 million, or roughly three out of five jobs. Coverage is now limited to persons employed in industry and commerce. It is proposed that the system be extended to cover the entire labor force.

In presenting both sides of the question, the council's report includes a full page of pros and cons. Each side might be summarized

ON THE ONE HAND, if employees of commerce and industry are entitled to this protection, why not employees on the farm and in argued the committee should delay the household? If the goal of the system is to provide even a minimum of subsistence, benefits must be raised now to keep in step with living costs. An adequate OASI system will reduce substantially the heavy burden of old age assistance.

On the other hand, opponents of the proposed extension point out that of those excluded, the majority are either protected by other systems or are able to provide for themselves, while the lowest income classes are employed too irregularly to earn insured status under any program. If the cost of living is a valid reason for raising benefits now, then logically the whole system should be geared to the cost of living, fluctuating down as well as up. The bigger the system, the better the promises of bigger and better pensions

COMPARATIVE BENEFITS . . . Under present provision of the social security law it is assumed the worker has 10 years of coverage. Under proposed provisions, however, monthly benefits would not be affected by length of time spent in covered employment. Chart, prepared by Research Council for Economic Security, offers comparison of present benefit scales with those proposed in the administration program.

#### ACCIDENTS:

### Fewer Noted

Hope was indicated that the appalling toll of death and injury on U. S. streets and highways might be Russian who sank and brought in cil reported that 92 cities of more than 10,000 population went through all of 1948 without a traffic death.

The council reported that Medford, Mass., with a population of 67,477, was the largest no-death city

#### Rural Housing Off

According to Senator Fear (D. Del.) some of the nation's worst housing conditions still exist in rural areas-a conclusion familiar already to many, many Americans, The senator's statement was made during a hearing by a senate committee on the multi-billion-dollar housing bill pending in congress.

There has been little talk of rural needs in discussion of the housing problem to date, although that need is as pressing, almost, as any other.

### Lady Sheriff

Mrs. Barkley Graham, weighing only 95 pounds, has become the first woman sheriff of Mc-Cracken county, Kentucky, birth place of Vice-President Alben W. Barkley. She succeeded her husband who resigned to become Pa-ducah's chief of police.

### FARM SURPLUS:

May Hasten Subsidy

The administration's farm experts weren't being too subtle in a movement to hasten payment of direct subsidies to farmers. They were pointing out in the capital that an over-supply of pork and milk expected within the next two months, may require President Truman to ask immediate authority for such action.

SECRETARY of Agriculture Brannan said he already had discussed such a proposal with the President. At the present time the government is committed to support prices of those commodities by buying any surplus and taking it off the market. This is supposed to keep the retail price up.

Farm legislation passed by the 80th congress authorized direct payments to farmers for pork and milk, but this law does not go into effect until January 1, 1950.

Meanwhile, the agriculture secretary said consumer prices on pork and milk probably would fall if the administration was allowed to make direct subsidy payments to produc-

DESPITE much sentiment to the contrary, Brannan said his department has had a "quite favorable" reaction to the proposed farm program which, briefly, would let farm products find their own price level through supply and demand, with the government paying the farmer the difference in this and the support price in cash.

Congressional critics of the farm program declare its cost will run into billions of dollars and that it will benefit neither the farmer nor the taxpayer, because, in the end. the farmer and the taxpayer will be paying additional taxes to finance the program.

#### CANCER:

#### Progress Seen

The men in white who wage an unceasing battle against cancer caught a glimmer of hope - they felt sure they had discovered, as they put it, "what is for all practical purposes a simple, cheap and reasonably sure blood test for can-

THE ANNOUNCEMENT was made with the customary caution and restraint of the men who work with test tubes-"reasonably sure" was how they described the test. But if they had made such a dis-

covery, it was a great stride forward toward victory over the terrible disease.

According to the announcement, comparative studies at the University of Chicago of the blood serum of cancer patients and nor mal and other non-cancerous individuals had revealed significant differences that led to the statement of the new cancer blood test. Report of the university findings

was made by Professor Charles B. Huggins, who 10 years ago originated a new treatment for prostatic cancer which has kept more than 25 per cent of the victims alive and well for more than eight years.

DISCUSSING the new test, he said that tests on almost 300 individuals-equally divided into cancer patients, apparently healthy persons, and patients with non-cancerous diseases-proved positive for all cancer cases, negative for all normal persons and negative for all other tested, except those with lung tuberculosis and massive acute infections.

Inasmuch as tuberculosis and inflammatory processes can be readily diagnosed, it was explained, the test was not expected to confound cancer with other conditions.

#### KIWI:

#### Rare Chick

Nature lovers in New Zealand rejoiced. A sturdy male kiwi chick was hatched at the Hawke's Bay game farm, bringing to six the only known existing family of this nocturnal, flightless bird which was thought to be extinct until a few years ago.

The male bird spent 81 days on the latest egg before the newcomer burst through the thick shell.

### COLONEL WINN'S NEW 'BEDSIDE MANNER' . . .

# Derby Betters' Loss Will Be Medicine's Gain

... MAY SOOTHE MANY A TROUBLED CONSCIENCE

#### MEDICINE AND THE DERBY

Churchill Downs, one of the oldest race tracks in the land, it is announced, is to be run for the benefit of the Louisville medical college. The Kentucky Derby has left many a man sick at the finish, but this is the first time anybody at the track thought of doing something about doctors.

to hold the premiere of "Tulsa"

The track is run by the famous Colonel Matt Winn, always a man in green, seldom a man in the red and now for the first time appearing as something of a Man in White.

The colonel is a smart, colorful racing genius, but up to now had not been associated with a bedside manner and a stethoscope. If you saw him

with a little black bag in hand you were under no illusion it held pills, capsules or oint-

It has never been recorded that he watched the crowds pour into the Downs for the Derby, we never got the impression he was thinking about what to do for the medical profession rather than what to do for Churchill Downs.

However, it will be strictly O. K. to see horse racing advancing the cause of humanity. It will be a great conscience soother for Derby addicts. Their alibi for the long trip and the Derby hysteria can now be, "Can I help it if I want to see ambitious medical students get a chance?"

He will feel better coming back from the Derby, too. If his bangtail finishes out of the money, he will have the satisfaction of realizing that Louisville Medical college (by Matt Winn-Ballyhoo) "finished strong and will bear watching."

We can picture the wide in-fluence of the school of medicine on the Derby, and vice versa. Churchill Downs will probably be redecorated in white enamel, with a nurse at every mutuels window and an intern in the hot dog stands. Fans will have their temperatures taken before and after photo finishes, stethoscopes will be used to detect suppressed tips.

There will be special windows where fans may get a sedative. And if his inside information proves cold, there will be heat treatments on the mezzanine.

"Ladies and gentlemen," we can hear the track announcer say, "the horses are on their way to the post to advance the cause of medicine and correct diagnosis. You have only five

minutes in which to help a student get through college.'

Similarly, Louisville medical college professors will be allotted official colors or "silks," classes will be opened with "Boots and Saddles" he was coupled in the betting with and on the day of exams there will 'Dr. Kildare." Observing him as be a morning line and late scratches.

> Life can be wonderful! But we hope no student will be flunked for bad behavior at the gate and "quitting when challenged." And let's have no dean of the medical school thrown out of training for a "popped osselet."

#### Please Do Not Disturb I live in a disgraceful rut, A thing to be deplored By fierce, ambitious people, but I'm not the least bit bored. Margaret Fishback

that he always
conjured when
Barry became
critical. "You
wouldn"t wouldn't understand," he said. "You're too impulsive to see what

I'm driving at. Let me tell you, it "Sure it does. But it doesn't pay to be overly careful. How does Valeria feel about it?"

"How does she feel? How do you think she feels? When a girl's in love she knows enough to be careful herself." "Meaning of course, that Val's

mad about you and she's willing to wait until you get through analyzing and justify or compensate her shortcomings in your mind." Hugh gestured indifferently. "Figure it that way, if you like."

"Wouldn't it be a shock to you if you discovered yourself to be wrong. I mean, if Val married someone else right under your nose." "She won't." said Hugh confi-

dently. "Girls aren't made that way." He stood up. "I haven't been studying psychology and human behavior five years for nothing." "But is she gets tired of waiting

and marries some one else in the meantime, maybe you'll regret it." "Don't be ridiculous. Val won't marry anyone else. I know what I'm doing." Barry let a fortnight elapse

before he again broached the subject of Val. It rankled him, and he felt better to get it off his chest. "Hate to mention it again, Hugh, but Val seems to think you've been neglecting her lately. Can't blame her much, either."

"Cut it!" Hugh looked ugly. "I think you'd better let me tend to my own affairs, Barry. The girl loves me and when I get around to it, I'll marry her. Goodness, can't you understand that a man shouldn't jump into such things!'

"Or a woman either," Barry of-fered. "I happen to know Val was out with someone last night." "Good. Comparing the someone

else with me will be the best thing in the world for her-and me too.' Hugh was annoyed. Blast it, why couldn't Barry mind his own business? Why did he always have to keep worrying about Val. It was plain as day that he didn't understand women. Val knew a good thing when she saw it. She loved him and was willing to wait. She

was smart. VAGUELY HE wondered who the other man could be she was out with. It was sort of amusing in a

# STRICTLY ANALYTICAL

"I don't believe it," said Hugh,

Answer to Puzzle Number 32

A VERY COCKY COCK ROBIN . . . Here's a robin so belligerent he fights with himself. In the upper left photo, the bird wearing a red tuxedo shirt imbibed too freely of the spring air and in the state of seasonal intoxication, squared off to fight with his own reflection as seen in an automobile hub cap. The other pictures show the battle as it waged to and fro. The little fellow refused to give up and so the owner of the car moved it before the bird could kill itself.

BRONX BELTER ABROAD . . . Steve Belloise, the balding Bronx belter who holds the distinction of being one of the world's top welterweight prizefighters, shows admiring Parisians the mitts with which he hoped to pummel Frenchman Jean Stock when the two met in the capital. Belloise has signed for several fights in Europe, but his goal is a go with another Frenchman-champion Marcel Cerdan-for the title in his weight class.

THIS LAD DIED FOR 10 MINUTES . . . In bed at home in St. Albans, N. Y., six-year old Tommy Billings points to scar on chest, memento of St. Patrick's day adenoids operation at St. Albans naval hospital. Tommy died on the operating table and his heart was stilled for 10 minutes until attending surgeon Lt. Comdr. Richard Gaillard made incision in chest, inserted finger and massaged heart until it started beating again. The boy's mother declared it was a miracle.

SENATE LEADERS STUDY TRUMAN MESSAGE . . . Sen. Tom Connally, Texas Democrat and chairman of the senate foreign relations committee, and Sen. Arthur Vandenberg, Michigan Republican, study a certified copy of the North Atlantic alliance in which President Truman urged American participation. Truman asked that the pact be ratified speedily and declared its intention was to secure peace and preserve small nations from aggression and brutality.

PACT BEARER . . . Herbert L. Miller, White House record clerk, is shown as he left the White House with the North Atlantic pact and President Truman's message to the senate, in which the chief executive urged ratification of the

CANCER FIGHTER . . . Dr. Stanley Graff, of Columbia's college of physicians and surgeons, has announced identification and isolation of a cancer virus found in animals. The discovery will advance research.

### MIRROR MIND

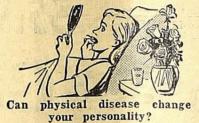

Verbal Musing **Not Dangerous** 

By Lawrence Gould

Is talking to yourself a sign of mental illness?

one is listening. A person may talk to himself, even out loud, for the purpose of reducing his ideas to words so as to make them clearer, and the practice has been advocated as a way of learning how to speak in public. But the fact that certain types of mental patients who live in a dream world are apt to be unaware of their surroundings may lead them not only to talk to themselves when they are not alone, but to hold animated conversations with people who exist only in their sick imag-

Answer: Never entirely, says Dr. Kurt Schneider of the University of Heidelberg. Even when brain to the experience of being ill." it.

Answer: Only if you think some | No matter what happens to you, mentally or physically, its effects will be influenced by the sort of person you are, and nothing can make your mind or personality exactly like anybody else's. You'll always be YOU.

Is intelligence inherited from parents?

Answer: Not to any extent we an count on. The noted authority on genius, Dr. Lewis M. Terman, has followed the histories of nearly 1500 "gifted" children to age 35, and says 30 per cent of their offspring show superior intelligence, but how far this may be the result of better education and contact with brilliant adults, no one can prove. Students of heredity injury or poisoning results in in- believe that high intelligence may sanity, the symptoms will depend be due to a fortunate combination to some extent upon the patient's of the "genes" inherited from character and mental constitution, many ancestors, but just having and especially upon "his reaction clever parents does not guarantee

PHONE 54

BOTH little ladies accomplished the same things - talked to local merchants and visited with a friend. But the little lady who stayed home was pressed for time that day. Hours and minutes counted and she made a big saving by using the telephone.

Take any telephone call you make - or receive. Figure how much time, gasoline, oil or shoe leather it would have taken you to talk to the same person face to face. This way, you begin to realize the true value of the telephone.

And yet the cost of your telephone remains low. Today it represents a smaller portion of the family budget than even before the war.

One of the greatest alues is the tralues ephone

For instance - the rusty sludge that has accumulated in your radiator should be cleaned out. Transmission and rear end may be low on lubrication, and should be checked. Crankcase oil should be changed to a summer grade.

The underside of your car has taken a lot of splashing on wet roads. Some of the chassis grease has been washed out, some of it fouled with mud and grit.

So it's time to drain out the dregs of winter. Time for a little of the knowing, loving care every Buick gets at the hands of our Buick-trained men, armed with Buick-developed tools, Buick-established methods, Buick-engineered parts.

It doesn't take long, doesn't cost much. But it goes a long way toward making old Buicks step out again like lively spring colts. How about stopping in-this weekto see about a spring rejuvenation for your faithful Buick?

Check your car---Check accidents!

Driving is twice the fun

when you have com-

plete confidence in your

car-when you know that tires, brakes, steering, lights and the like won't let you down. Altogether, there are

10 points to be checked for safety on any car. Bring your Buick in to us for a thorough going-over before setting off on your spring safaris. We'll take the worry and fuss off your hands-so you can be carefree at the wheel,

Buick care keeps Buicks best

### Pretty Aprons Will Make Housework Gayer

By Ertta Haley

Do YOU succeed in looking pretty at home? Or, do you hate hearing someone knock on your door because they will see you in an unattractive, dirty dress or a torn apron?

Aprons are so easy to make and quickly put together that no woman who works at home need ever look shabby. Use pretty bib aprons when you're doing the really big cleaning or cooking jobs, then make a quick change into frilly organdy or plastic half apron, and you'll al-

having a real field day with fabrics. There's such a variety available, and everything is so colorful and pretty, it seems like it's more fun

Sheer organdies, colorful plastics, a finely woven broadcloth and other materials are all good basic

as hobbies; others make money for incidentals by sewing aprons for others; and few women feel they ever have enough of them for every occasion. All of these make aprons a big and wonderful topic for con-

Make pretty hostess aprons . . . .

tive patterns, good material, fine stitching and almost as careful fitting as a dress.

Even though you select a bib apron that will be used primarily for the hard work, it can meet all the tests for good looks. One of these which I have added to my

This apron is made of deep blue, with the bib outlined in bright red rick-rack edging. It has large work pockets of white flowered chintz and fits beautifully. Wearing it is like glamorizing even the most menial task.

aprons which look so fragile but protect your dress while serving dinner or acting as hostess to the afternoon sewing club, are things of sheer delight. Many have interesting shapes and may be adorned with ruffles, flowers, or sheer, love-

Select patterns which you like. Fit them to you, making them a bit in the apron itself. wider or smaller as befits you.

Cotton for Travel

What could be smarter or more practical for traveling than this cotton redingote and dress by Tina Leser? The redingote is styled in iridescent cotton tweed in changeable colors of green and blue that shimmer in the sunlight. It's wrinkleshed, washable and long wearing. Underneath is a sun and date dress with a deep, cut-out neckline in satin striped cotton.

make the adjustment here, too, if

Select Colors, Fabrics That are Suitable

If there's a color which you avoid in clothing, observe the same rule when selecting material for an apron. By the same token, choose those colors which are flattering to you in dresses.

Many varieties and colors are now available for aprons, and you can afford to be as discriminating

Darker colors have always been favored for the work aprons, but They have everything-membership no longer do these need to be a hodge-podge of prints that are not try club, a car, a garden, a sumattractive. When you do choose the darker colors, lighten them with a and the three sparkling little bright, contrasting trimming on the bib or pockets where wear and dirt do not show.

If you choose checks and plaids, or even prints for the work apron

the plastic materials. Light pinks, yellows, blues and greens are popular in both prints and solid colors. No matter what the task, the apron is easily cleaned and wiped dry between towels in a matter of minutes, so it will always be fresh.

> Here are Tips For Plastic Sewing

When you sew with the plastics, plan to do it on a fairly cool day so that the material will be pliable while you work with it.

Never have the stitching too small and avoid tightness while sewing. Practice the stitching on a few scraps of material before putting the apron through the sewing machine. Let the plastic run easily through

the machine needles, without attempting to stretch or pull it. This prevents getting the material out of shape and makes sewing much Whether you're making work

aprons or hostess types, the aprons will be more attractive when lightened with clever edgings or appliques. Make your own appliques, or buy ready-niade ones which simply need to be attached.

Be Smart!

THE TAWAS HERALD

Much of the drama of the new season's frocks is in the skirt treatment. Sketched here are two of the most popular interpretations. At the left, in a small print on a tie type silk is the peg top skirt, which is meeting with an enthusiastic acceptance among the slender, youthful wearers. The full skirt at the right is made unusual with the manipulation of the stripes, also in tie silk, and the tiny front panel with pleats on the side. The bolero, too, is all the more interesting for its play of stripes.

### **Excess Social Drinking Hurts**

many men drink too much? Not destroy their children's confidence and respect.

Phil and Martha Anderson have three young daughters, a lovely home, a fine position in the community, and Phil is junior member of a successful law partnership. Both Phil and Martha have war records of useful service here and overseas; in short, the Andersons are typical of America's finest stock. in a pleasant, unpretentious counmer camp, friends, amusements daughters.

party," says Martha's letter, "Phil drinks himself silly and noisy and assertive, and embarrasses me so terribly that I have begun actually to dread social occasions. To him, as the cocktails go on and on, this seems very funny. He thinks he is urge more drink upon everyone, a great story-teller and insists on stage. Anything I say to him, to try to quiet him down, he shouts out loud, making it part of the fun.

"I love my husband. I am 37, he is four years older. We have had an unusually happy married life. But I can't reach him on this. When we leave the evening party, whatever it is, he asks me to drive home, and goes to sleep against my shoulder. I put the car away and go upstairs to find him stumbling his way slowly to bed. There

he simply doesn't hear. When he fresh and cheerful, it is ungracious to start in with reproaches.

"However, I have tried that, and tried quiet talks with him when their lives repeatedly. wouldn't begin to moralize every City, Calif. he embarrassed me, he's sorry,

"This problem," the letter ends, little girl taken away in a car. 'isn't mine alone. Many of my ness world, and is so trusted, should be humiliated and made ridiculous. But what is the cure, and what can I do?"

#### Common Problem

In answer, I must observe that you say a very true thing, Martha, when you say the problem is a common one. At every night club homes, one sees this wretched situation. Men don't knock their wives down or go out to lie in gutthe best for cutting. There are and trellis, Mignonette for perfume, giants and dwarfs in these two and Strawflowers for drying.

All the social pleasantness of a carefully planned, otherwise perhost or guest begin to get foolish,

gotten, and hilariously ignore the hints of the shamed and anxious women. Conversation becomes indeed a lost art, and the friendly fireside a spot from which some of the guests are anxious to escape.

Unfortunately, there is no cure for this except in Phil's mind and will. He could end it once and for all by strict limiting of his drinking, or by choosing some less potent form of refreshment. But until in all humility he sees the situation, sees what he is doing to his wife, his children and his entire social circle, there is no hope. Outside pressure will not affect these convivial gentlemen, for the second cocktail robs them of reasoning power, and everything goes into golden haze.

Especially trying to the wife, and again delaying any prospect of reform, is the fact that the men and women all about Phil are not at all unwilling that he shall make a fool of himself.

even against the protecting hands monopolizing the center of the and the voices that say "Oh, please, no. No more!" And also distressing is Phil's con-

The host considers it a duty to

fident assertion that he only drinks for the social fun of it and could stop tomorrow.

I have known hundreds of men who made their womenkind unhappy for years with their evening potations, yet who really could stop short, and did so when their health was in question. Many, of course, find then that it is too late, and all the physical ills they have been piling up with over-indulgence suddenly land on them. Then Martha must assume the part of patient and sympathetic nurse, and a glance about the elderly persons of your acquaintance will show you how often and how generously she

### Rescue Heroes Singled Out

Two Men Lauded In Well Tragedy

SAN MARINO, CALIF.-Heroes of the futile attempt to save Kathy comes downstairs for breakfast, Fiscus from death in an abandoned well were many. But two were singled out as "top heroes" of the rescue efforts in which many risked

They were Homer E. (Whitey) irritated by my reproof, says he Blickensderfer, a hard rock miner thought we had a mighty good time from Rosemead, Calif., and O. A. the previous night and wishes I Kelly, 49, a machinist of Temple

Both were near collapse when "Operations Kathy" finally rolled to a stop-the lifeless body of the

The 43-year-old Blickensderfer friends have the same reason to collapsed after returning from the dread-that mood when everything cramped confines of the rescue seems salubrious and nothing is shaft where he dug with his hands too silly, or even too vulgar, to to deepen the shaft. He fought say, This is no case for Alcoholics cave-ins, water and time. Despite Anonymous; Phil would laugh at doctors' orders, "Blick" returned the idea that a man who holds his again and again to the hole after own with such dignity in the busi- a brief rest, but fatigue overcame him and he was taken to a hospital.

Kelly, too, saw the final stages of the operations from a cot. He had been underground for a total of 16 hours, working on the iron casing which imprisoned little Kathy.

Asked how he felt, the weather beaten Kelly had a quick answer: "I've been nursing this carcass for 49 years and know what makes it tick

Both of the men, who faced death at every step from cave-ins or possible water seepage, were unemployed. Kelly said he felt "okey" after

cramped quarters.

THE GARDEN SPOT

**Annuals Are OK for Bouquet** 

EVERY GARDEN needs a few large flowers for showy flower ar packets of seeds to round out the rangements. flowering season. There are many of the old favorites that cannot be both will be found useful if planted grown as perennials, or other condiearly. They generally slow up in hot weather and will need to be tions may make a permanent in-

vestment in perennials foolish. As we mentioned before annuals as well as vegetables must be sown at the right time. Some come from cool climates and must be sown early, like the sweet peas, while many others come from the tropics and must be grown only in the warmer months.

The list of annual flowers is a

long one. The seed catalogs make

one dizzy. For variety try a packet

or so of some of the ones you do not know. It will certainly add interest to your garden. While a complete flower garden can be made up of annuals, much of their value lies in the number of flowers they produce for bouquets. They can be planted right in the vegetable garden in rows or they can be planted in beds or in groups

between shrubs or perennials in the flower garden. Sweet peas will need sowing as soon as the ground can be worked A deep rich soil is needed. There are some new kinds that do fairly well in warm weather but they are

best in moist cool regions. Calendulas and Cosmos are among the plants that give good effect Plant early for best development. There are many fine new colors in both of these. Snapdragons will do well if sown early or if planted in a colofframe for earliest flowers. Some of the new ones are gigantic in size, with a striking color range. They can be cut again and again. Zinnias and Marigolds are among

giants and dwarfs in these two

groups and a variety of colors. The

places. These can be started in seed beds and the plants transplanted

when other annuals start to die out. While the best use of annuals is to supply the house with flowers for bouquets, there are many others and restaurant and in many, many that are excellent in the garden, such as Petunias and Verbenas for edging. Morning glories for fences

and Strawflowers for drying.

A good garden soil, enriched with dwarfs are especially useful for fertilizer if necessary, plus good sun planting along edges of beds and and water in dry periods are the fect dinner can be spoiled when for use in low centerpieces or small | minimum requirements for most an-

Birthday Ideas

ANYBODY CAN HAVE a birthday cake, and usually does. Maybe that's because no one ever thinks of having a birthday pie. However, as you can Maybe that's besee from the picture, a birthday pie is both attractive and de-

licious, and is appropriate for carrying birthday greetings. Have you ever noticed how someone's birthday creeps up on you sort of unexpectedly, too? You may have planned a pie or just fruit and cookies for dessert. These, too, can

be decorated to suit the occasion. Then, again, if you are rushed for time, there may be some simple dessert which will take less time than the layer cake and its elaborate topping. Look through the tips I'm giving you today if you want unusual ways to celebrate birth-

A GLAMOROUS birthday party dessert may be swished out of pre-

pared chocolate pudding, like this: Chocolate Coconut Birthday Pie

1 package prepared chocolate pudding 2 cups milk

1/2 cup shredded coconut

1 baked 8-inch pie shell 2 egg whites 4 tablespoons sugar 1/4 cup shredded coconut Prepare chocolate pudding as di-

into pie shell. Beat egg whites until foamy throughout. Add sugar, one tablespoon at a time, beating after each addition until sugar is blended. Then continue beating until mixture stands in peaks. Pile lightly on top of filling. Bake in a moderate (350°) oven for 10 minutes. Sprinkle with one-fourth cup coconut and continue baking five minutes longer, or un-

til delicately browned. Candles are easily arranged on the pie if you simply melt a drop of wax on the plate and stick the candle in it. Another idea uses marshmallows for candles. In this

case, candles must be small, of course, to avoid top heaviness. Here's another idea for pie, if you want to carry out the same treatment suggested above for candle arrangement. This is a light, airy chiffon pie, butterscotch in

\*Butterscotch Chiffon Pie (Makes one 9-inch pie) 1 baked, 9-inch pie shell l tablespoon plain, unflavored gelatin

### **Pennant Hopes Spring Eternal**

\_By GRANTLAND RICE\_

springs eternal in the baseball are a menace. player's breast until around June. Then it begins to wither and fade. But hope sprang with greater alacrity in April than it has in some years. At least it was springing in more places.

For example, after a rabid discussion as to whether the Dodgers,

Braves or Cardinals were to be the swat this season, group. we ran into Art Rooney of Pittsburgh. Art Rooney owns the Pittsburgh football franchise. horses and he is also interested in Grantland Rice baseball as a fan.

"Braves, Dodg-ers or Cardinals?" he said. "Listen, the entire population of Pittsburgh has picked the Pirates to win. I agree with them. Pittsburgh is much stronger than it was a year ago.

Dickson will make a difference of 10 games. Bob Chesnes will be even better. Kiner is due to hit better. You can also make a note that Pittsburgh will outdraw every team in the National League as it did a year ago. I mean the Giants, Dodgers, Braves and Cubs.

"And I'm not being comical or funny when I pick Billy Meyer's bunch on top. I don't believe everybody in Pittsburgh can be wrong.'

In the course of the next hour or so, wandering here and ran into seven experts who had been in Florida. Here are their selections: two for the Dodgers, two for the Braves, two for the Cardinals and one for Pittsburgh. The Giants? Since this crop of

selectors had come up from Florida, they knew nothing about the New Yorkers. But Horace Stoneham and Leo Durocher are being quoted to the general effect that Giant pitching will be quite sufficient, coupled with the power that Giant

Here in April we had five National league ball clubs who believed they could win the flag, and three others who believed they had a chance to move up and win their share of games.

At this spot, the Dodgers, Braves, Cardinals and Pirates are closer than two Scotchmen. The Giants selected sons of must show they belong with this

The National league mix-up this season can be one of the closest races among more teams than any scramble either league has known so far. It could be that way if He also has a few vou study the eight teams that will soon get down to serious work.

#### The Trouble with 'IFS'

The main trouble with "IFS" is that they seldom work out any too well. Bob Feller is a big IF in Cleveland, but Feller is getting along. Even Boudreau is worried over his ability to keep his curve or his fast ball burning. Lemon and Bearden have yet to prove they are 20-game winners over a period of time.

Joe DiMaggio and the Yankee infield have yet to prove they are up to pennant-winning play. This, of course, means DiMaggio's afflicted heel. To have this heel in shape all season would be a big boon to baseball in general just as much as it would be to the Yankees. DiMaggio has been too brilliant a star to be missed without mourning.

No one can say, this far in divance, that the Red Sox pitching staff will be any better than it was a year ago. Joe McCarthy's spring attitude makes you think everything is O. K., but Hughson, Harris and Ferriss still have to prove they are the pitchers they were in 1946.

Billy Meyer is more than worried over Pittsburgh's full and firm belief in a pennant year. In a race such as the National League has on hand this season, Meyer knows his bats have carried. This means that team can play good baseball and at least five teams have the "hope finish fifth. He knows the number eternal" torch blazing these April of good breaks any team needs to win in a race of this type.

Billy Southworth knows he will need a better Warren Spahn than the left-hander was a year ago. So pecially if the Reds can shove many rumors of dissension will not be inclined to help his club. Any outfit that would turn against Billy Southworth can't be pennant-
