

TAWAS CITY

Down East Tawas With 14 Hit Attack

Tawas City Victory Puts East Tawas in Tie for First Place

A combination of a three hit pitching stint by Dale Landon, and a 14 hit attack by his teammates was too much as Tawas City downed East Tawas last Sunday, 11 to 5, and put them in a tie for first place with Alabaster, each having won nine games and lost three.

Landon never hurled better ball as he set East Tawas down with three hits. Though he struck out only four, his "stuff" kept the opposition from hitting the ball squarely. Four pop flies to the infield, seven flies to the outfield and twelve ground balls to the infield, plus four strikeouts accounting for all Tawas City put-outs.

Tawas City jumped onto Peterson for three runs in the first, East Tawas pushed across an unearned run, when an attempted pick-off play backfired. Katterman reached first when he was hit by a pitched ball. He then swiped second, and crossed the plate for East Tawas's first run, when Landon's pick-off throw got by Gingerich into center field.

Tawas added a pair in the second and in the third a single run was scored on Neil Thornton's home run. In the seventh, Bob Rollin, poled out a long homer accounting for three runs. Bill McCoy, relief hurler and manager, then relieved Peterson and retired the side. He held the locals scoreless in the eighth, but Tawas City scored two tallies in their half of ninth.

TIE PLAYOFF GAME AT TAWAS CITY THIS SUNDAY

This Sunday, August 21, the tie between East Tawas and Alabaster, each with nine wins and three losses, will be decided. Another team, West Branch, who was in the running in the league race were defeated 8 to 7 by Prescott last Sunday.

The play-off game will be played at the Tawas City Athletic Field, with the game getting underway at 2:30. Come out early for choice seats.

In the last of the eighth, a belated rally was started by East Tawas, with the East towners scoring four runs before the fire was finally put out. After two were out, Youngs reached first on an error, Katterman walked, Youngs taking second. Mallon gained a reprieve when Thornton missed his foul pop-up, and Youngs scored when Mallon's fly to center field, fell for a single. With two on, Rollie Gackstetter blasted a long homegood for three runs. That was the end of the scoring for East Tawas.

Bob Rollin and Bill Groff, both sent their batting average into the ".360's" with three hits each. Rollin homered with two aboard, and closely missed another, when he bounced one over the center-field fence for a ground rule double. Groff had a double and two singles. The other Tawas City homer was by Neil Thornton, who put one over the left field fence in the third inning. Staudacher doubled, for the other Tawas extra base hit.

(Continued No. 3, Back Page)

DUV Tea will be Given Wednesday

The Daughters of Union Veterans are giving a tea at the home of Mrs. J. W. Baushaw at East Tawas, at 1:30 o'clock Wednesday afternoon, August 24.

VFW to Hold Social Meeting Next Tuesday

A joint social meeting for members of the V. F. W. and Ladies Auxiliary will be held next Tuesday evening, August 23 at the club rooms. Lunch will be served.

NOTICE

Summer taxes are due and can be paid at my house on Friday and Saturday.

Margaret Lansky, Tawas City Treasurer.

ON GREAT LAKES CRUISE

Gordon Clute, with party of friends, including Hugo Keiser, Sr., and Al Chaney, of this city set out Monday for a week's cruise of the Great Lakes in Gordon's new 30 foot cabin cruiser. The all metal cruiser, which he built last winter has sleeping accommodations for four, a galley, and is powered by a 125 horse Grey Marine engine.

Property Tax Millage Allocated

County to Receive Eight Mills

At the final meeting of the Iosco County Property Tax Allocation Board held July 28, the 15 mill tax was allocated as follows:

	Mills
Iosco County	8.0
Alabaster Township	0.0
School Dist. No. 1	7.0
School Dist. No. 3 f	6.5
AuSable Township	1.0
School (TU-Oscoda)	6.0
Baldwin Township	0.0
School Dist. No. 1 f	7.0
School Dist. No. 2	4.0
School Dist. No. 3 f	4.0
School Dist. No. 4f	0.0
Burleigh Township	7.0
School District	0.0
Grant Township	0.0
School Dist. No. 1 f	7.0
School Dist. No. 2	3.0
School Dist. No. 3	7.0
Oscoda Township	1.0
School Dist.	6.0
Plainfield Township	1.0
School Dist.	6.0
Reno Township	0.0
School Dist. No. 1 f	7.0
School Dist. No. 2	7.0
School Dist. No. 3f	7.3
School District No. 4f	0.0
Sherman Township	0.0
School Dist. TU	7.0
Tawas Township	0.0
School Dist. No. 2	7.0
Schools Dist. 3f	6.0
School Dist. No. 5	7.0
School Dist. No. 7f	7.0
School Dist. No. 9	7.0
Wilber Township	1.0
School Dist. No. 1	6.0
School Dist. No. 3f	4.0
School Dist. No. 4f	0.0

The following Special Voted Taxes were approved by the Board in accordance to certificates filed:

Iosco County, Bldg.	2.0
East Tawas Schools, Bldg. and Site	5.0
Burleigh School, Operating	5.0
Burleigh School, Bldg & Site	5.0
Oscoda School, Special Bldg.	2.0
Sherman School, Bldg & Site	5.0
Tawas City Schools, Bldg and Site	5.0
Oscoda Township:	
Fire Protection	1.0
VanEtan Dam	1.5
Township Hall	1.5
Adjusting Assessment Roll	.5
Park and Recreation	.5
Cemetery	.5

The Haglund entry, "Starlight," came in first in Class B, followed closely by Jack McMurray's "Argo II," and the "Joanie Q" in third.

In the Lightening class, Ard Richardson sailed home the winner, McKinley brothers, second; Carl Babcock third; the Hess entry fourth, and Ladd McKay, fifth.

In Class C, Bill Mooney, first; Nelson brother's "Let's Go," second and "Amica," snipe class third.

New York and Pennsylvania have a greater number of Representatives in the House of Representatives than any other state.

Mrs. Jean Grantham has returned from Grand Rapids.

To Stage 3rd Annual AuSable Canoe Race

Course Between Grayling and Oscoda, September 17-18

Michigan's beautiful and historic AuSable River will again be the stage for the state's most gruelling outdoor sporting event of the fall season—the Third Annual Michigan Canoe Championship, September 17-18.

The race will begin at Grayling, where US-27 crosses the AuSable, down the river through Mio (M-33) and on to the finish line at Oscoda (US-23). The first canoe will start at 3:00 P. M., followed by others at ten second intervals. Because of the time differential of each canoe at the starting point, contestants will make up the time at Foote Dam, last of six power dams that require portaging during the race. There are many excellent vantage points for viewing the progress of the race.

According to Ray Snider of Grayling, General Chairman, many of the 1947-1948 contestants are planning to enter this year's canoe classic. The 1948 Michigan Canoe Championship went to the brother team of Frank and Hugh Bissonette, of Oscoda, who completed the 240-mile non-stop grind in 19-hours and 58-minutes. They will attempt to better their time and defend their title in the 1949 canoe championship race. Because of their fine performance in winning the Fourth of July Thunder Bay River Canoe Race, the Bissonettes will be favored to repeat their winning feat of 1948.

Out-of-state teams will again be invited to participate. Entry blanks, map of course, rules governing the race can be obtained by writing to: Michigan Canoe Championship Committee, Log Office, Bay City, Michigan, or Ray Snider, General Chairman, Grayling, Michigan.

Announces New D. & M. Office Hours

New office hours for the general offices were announced this week by N. W. Salsbery, secretary of the Detroit and Mackinac Railroad Company, effective September 1. The general offices will be closed Saturdays, Sundays and holidays. Institution of the 40-hour week on September 1 is the reason for the change.

It may be found necessary to make further changes over the line at a later date, Mr. Salsbery said.

Ayling Firm Awarded Two Paving Contracts

Contracts for blacktopping highways between Kingston and Peck in the Thumb district and at Rochester have been awarded to the Ayling Asphalt & Paving Co. of Adrian, according to a recent announcement. This firm was organized by Adrian Ayling, a former resident here and partner in White & Ayling, road contractors.

Robert and Walter Brown, sons of Orval Brown of Detroit are spending the week with their grandparents, Mr. and Mrs. Will Brown.

Urges Farmers to Furnish Exhibits

Entries of farm produce, vegetables, fruits and flowers, are being sought for the fair to be held at Hale on September 1 to 3, according to William Herriman, board member.

Iosco county residents are urged to enter their produce in an attempt to make this year's display bigger and better than ever. Rules for entries may be found on page 13 of this year's fair book.

R. A. Rollin Gets Association Post

Named Vice President At Marquette Meet

Russell A. Rollin, Iosco county school commissioner was elected vice president at the annual meeting of county school commissioners held last week at Marquette.

Other officers named at the meeting were Lya A. Torrant, of Jackson county, president, and Stanley Williamson of Ishpheming, secretary-treasurer.

Sixty-five of the state's 83 county school commissioners attended the four day meeting. Mrs. Rollin accompanied her husband to Marquette.

Arrange for Goodwill Luncheon Here

Wayne Brackenbury, secretary of the Saginaw Chamber of Commerce, was here Wednesday making arrangements with the Tawas Chamber of Commerce for a luncheon to be held here during the Saginaw Businessmen's Goodwill Tour early in September.

Births

Born to Mr. and Mrs. Deloise Rapp Saturday, August 13, a 6½ pound son at the Abbott Nursing Home.

Born to Mr. and Mrs. Vane Patterson recently a baby son at the Moeller Nursing Home.

Mrs. Rose Martin visited in Detroit last Tuesday.

DISCUSS STATE FAIR PLANS

James D. Friel, general manager of the Michigan State Fair, and George A. Prescott, Jr., of Tawas City (right) a veteran member of the Fair Board of Managers, discuss plans for the great Centennial Michigan State Fair to be held in Detroit September 2 through 11.

Robinson-Riley

In a candlelight ceremony at the Whittemore Methodist Church, Miss Beatrice Viola Robinson, daughter of Mr. and Mrs. Lester E. Robinson of Reno, became the bride of S-sgt. J. C. Riley, son of Mr. and Mrs. Grover C. Riley of AuGres. They were united in marriage by the Rev. Roland Brooks.

The bride was given in marriage by her father before an altar trimmed with baskets of garden flowers. For the double ring ceremony, Mrs. Earl Daugherty played the wedding march. Mrs. Lee Cater sang "Because," and "The Lord's Prayer," accompanied by Nyda Campbell Leslie.

The bride was attired in a gown of white slipper satin with long sleeves and circular train. She wore a string of pearls, a gift of the groom. Her finger tip veil was edged with lace and secured by a tiara of seed pearls. She carried a bouquet of pink roses and white carnations.

The bride's sister, Miss Dorothy Robinson, of Flint was maid of honor. She wore a pink net gown over taffeta and carried a arm bouquet of pink carnations and blue delphiniums tied with blue ribbons. Mrs. Henry Folcik, sister of the bridegroom, was bridesmaid. She chose a lime taffeta gown and carried an arm bouquet of yellow rose buds and white daisies.

The flower girls, cousins of the bride, Neva Daugherty and Janice Sturtevant, scattered rosebuds along the bridal path. David Sturtevant, cousin of the bride, acted as ring bearer, which were carried on a white satin pillow.

The bridegroom was in United States Air Force uniform. Henry Folcik, brother-in-law of the bridegroom, acted as best man and Leonard Robinson, brother of the bride, was the groom's other attendant. Earl Daugherty and Jim Sturtevant, cousins of the bride acted as ushers.

Immediately following the wedding, a reception was held at the Ladies' Aid Rooms. The couple received many beautiful gifts. For the couple's wedding Mrs. Robinson, mother of the bride, wore an orchid and white gown with white accessories. Mrs. Riley, mother of the bridegroom wore a tan crepe gown with blue accessories. They both wore orchid corsages.

The bride is a graduate of Whittemore High School and has been employed at the register of deeds office at Tawas City for the past two years.

The bridegroom is a graduate of AuGres High School and has been in the service and has re-enlisted for three years.

Guests were present from Flint, Battle Creek, Munger, Durand, Cleveland, O., Mount Morris and neighboring towns.

LeClair Family Reunion Held Sunday

The fourth LeClair family reunion was held at the farm home of Mr. and Mrs. Sam Denstedt at Hale, August 14. There were 129 relatives and friends present. Those present were from New Orleans, Louisiana, Detroit, Ypsilanti, Lansing, Flint, Bay City, Linwood, Pinconning, Standish, Tawas City, West Branch, The Heights and Hale. A pot luck dinner and supper were served and plenty of entertainment was provided for all.

Everybody enjoyed the day and plans were made to have it again the second Sunday, in August, 1950.

Will Show Movie At Baptist Church

Rev. Marvin Lewis, guest of the N. L. Bowns, will present a movie at the Tawas City Baptist Church next Wednesday evening, August 24. The title of the film is "Out of the Night," and is released by the famed Pacific Garden Mission of Lower State Street, Chicago. The public is cordially invited to attend this 8:00 p. m. service.

Mrs. Mable Carson of Detroit spent a few days this week here with relatives.

C. G. Scott Talks Before School Study Group

Urges Consideration Of Consolidated School Districts

Continuing their investigation of area school conditions in an effort to formulate suggestion for improvement, the Tawas area Study Group heard C. G. Scott, superintendent of Oscoda Rural Agricultural School recommend a central school system, using as an example the present Oscoda set-up.

Commenting on the situation in the Tawas, Mr. Scott said "You can't afford to let prejudice interfere with the education of your children; compare your many ineffectual units and limited programs to what you might have in a community school; combine your wealth to make your dollar pay in terms of efficiency for a dollar spent. Are you going to train your students for good citizenship? We are interdependent. None of us is by himself sufficient."

It was the combining of the pupils and money resources of a larger area in the Oscoda district, including 4½ townships, that made possible the growth of the Oscoda school from a Class D organization with 100 students to its present 350 students, an enriched curriculum and a better qualified teaching staff.

Asked whether it wouldn't be wiser to maintain local schools for elementary work, he thought it would in the Tawas situation, but that his groups wanted the experience the central school could offer. He cited music as an example, saying that a central school could afford the services of a full-time vocal instructor and a full-time instrumental instructor.

In conclusion Mr. Scott felt that if Tawas City and East Tawas could combine for a really modern high school, the outlying areas would gladly join forces with them and that it was therefore in the joining of the desires of the two towns that any work for an improved school system must start.

\$217,235.69 Low M-55 Project Bid

Nearly 7 Miles of Highway in Project

Low bidders on 13 state trunk-line construction projects totalling \$1,357,210.03 and three county road construction jobs totalling \$97,262.47, are announced by Highway Commissioner Charles M. Ziegler.

Included in the 13 state trunk-line projects is 6,858 miles of grading, drainage structures and stabilized aggregate surfacing on M-55 in Tawas and Grant townships and Tawas City. The successful bid by the Johnson-Greene Co. of Ann Arbor was \$217,235.69.

A re-allocation of the highway in Tawas City is included in this project. Completion date is August 1, 1950.

Mrs. Charles Randall

Mrs. Charles Randall of Alabaster passed away at 5:30 o'clock Thursday morning. Funeral services will be held Sunday afternoon at the Alabaster church. Obituary next week.

Engagement Announced

Mr. and Mrs. Gilbert Shover have announced the engagement of their daughter, Lillian Mary to Delbert J. Kirby, of Midland. The wedding will take place at Zion Lutheran Church on Saturday, September 17.

ASKS MERCHANTS TO BACK SOUVENIR COIN PROGRAM

An explanation to every person in business or otherwise located in either Tawas City or East Tawas on the purpose of our souvenir coin. This coin was put out for just one sole purpose which in turn is to help pay for our Tawas Chamber of Commerce Building, located in Tawas City, across from the Ford Garage and showroom. You won't find a more beautiful structure, or location, in any part of the country. It is something to be mighty proud of, an asset to the Tawas.

On these coins, every local or outside person, young or old, that keeps one of these beautiful coins as a souvenir, that is the coin that the Chamber of Commerce

makes their profit on. Sure, they are good for 25c in trade anywhere in the two Tawas and with our local Peoples State Bank, who is behind the Chamber of Commerce 100%. We mean by that, if the consumer turns them in to the merchant faster than he is able to sell them as a souvenir he makes his bank deposit or cashes them in at the Peoples State Bank for good old, cold, cash.

Our Chamber of Commerce office to date, has sold outright to tourists coming in for information over 100 coins that positively we know will not be redeemed.

You know a Chamber of Commerce is an advertising medium to

(Continued No. 4, Back Page)

WEEKLY NEWS ANALYSIS

A-Bomb Output Hits Record Peak; House Approves Vet Pension Hike; Anderson Proposes New Farm Plan

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

ATOM BOMB:

Record Output

Maybe the atomic bomb isn't the world's most fearful weapon. Maybe the bomb's effectiveness for destruction has been over-emphasized. Maybe it doesn't mean anything at all—but if potential enemies of the U.S. could squeeze any comfort from those "maybes," they were welcome to it.

For the United States had announced that its atom bomb production had reached an all-time high in the first six months of this year, and production is now on an assembly-line basis.

IN making that announcement, the atomic energy commission also announced that enormous tonnages of low grade uranium ores, have been located in this country, and could be used to produce A-bombs in an emergency if foreign supplies of high-grade ore were cut off.

All these disclosures were contained in the commission's sixth semi-annual report to congress.

Pointedly enough, the report made no mention of recent to-level secret conferences relative to sharing information with Britain and Canada.

It did have a lot to say, however, about the problems behind those conferences—United States' dependence on high-grade uranium ores from Canada and the Belgian Congo.

THE REPORT revealed that reserves of semi-processed ores are being built up steadily "to assure continuity of production." Research is being pressed on new extraction methods to cut the cost of processing the low-grade ores which abound in this country. And "actions have been taken to improve and make more certain the supply of ore from abroad."

This latter statement, which was not explained, presumably referred to later negotiations with Britain and Canada for a long-term agreement on exchange of atomic information and division of uranium ore.

FARM PLAN:

Something New

Farm plans, or substitutes therefor, were still kicking around the halls of congress, despite recent legislative action retaining the current program of farm price subsidies.

Latest proposal in the field came from Senator Anderson (D., N.M.) but it was another formula which didn't appeal to everyone's taste. Senator Anderson is the same gentleman who was onetime U.S. secretary of agriculture.

BRIEFLY, his plan called for flexible government supports for some crops, rigid control plans for others, and authority to try out the Brannan plan for subsidy on some perishables.

Anderson heads a seven-man subcommittee casting about for an acceptable farm bill.

Unless the senate and house managed to get together on some program, the delayed-action Aiken law passed by the Republican 80th congress would take effect January 1. It would permit, although not compel, the secretary of agriculture to maintain supports for major crops on a flexible scale ranging from 60 to 90 per cent of parity.

The senators "try-out" proposal for the Brannan plan would be limited to "nonstorage perishables" including oranges, grapefruit, apples and vegetables.

ARMED UNITY:

Up to Truman

Final action on the bill strengthening unification of the armed services was up to President Truman—but there was no doubt that he would affix his signature to the measure in speedy fashion.

BY a lopsided vote of 356 to 7, the house gave final congressional approval to the measure in a bid for greater efficiency and economy in military operations.

The bill, which was sent to the President for his signature, sprung directly from the recommendations of the commission headed by former President Herbert Hoover.

THE citizens' committee for the Hoover report, headed by Dr. Robert L. Johnson, president of Temple university, immediately hailed adoption of the bill as "paving the way for savings of at least a billion dollars a year, and maybe more."

ROUGH GOING

Adversity Plagues Viking Saga Revival

The "invading" vikings had not counted on England's weather. So, what was to have been a thrilling, colorful arrival of a sleek oaken ship on the Thames, turned into a ride in a green bus, with the Vikings' horned helmets lying in their laps and their sharp spears neatly stacked in the racks overhead. It was all rather anti-climatic.

New Justice

U. S. Attorney General Tom Clark, smiling so broadly here, hesitated but a short while before accepting President Truman's offer of appointment to the United States supreme court bench. Sen. J. Howard McGrath (D., R.I.) was to succeed Clark as attorney general.

PENSIONS:

More for Vets

Veterans of World Wars I and II and the Spanish-American war stood to benefit to the tune of an additional 112 million dollars a year if a bill passed by the national house of representatives is approved by the senate.

WITHOUT a single dissenting vote, the house passed a measure raising veterans' pensions and disability payments by that figure annually.

There was another possible hurdle for the measure, however, even if it should pass the senate, for house action on the bill was taken despite objections from the White House. Whether this means that President Truman would have the political fortitude to veto such a bill if it ever came to him is an interesting conjecture. The logical supposition is that he would not, particularly if he entertains any ideas of seeking a second term in 1952.

To indicate the potential weight of the veterans' vote as interpreted by house members, despite the fact that there was no opposition, a roll call was ordered and 354 members got "on the record" as approving the measure.

THE VETERANS' administration estimated that the first year cost of the proposal would exceed 112.5 million dollars. It made no estimate of costs in subsequent years.

Principal provisions of the bill: Increase from \$138 to \$150 rate of pay for total disability; increase monthly payments to widows and dependents of wartime casualties; full compensation for World War I veterans with disabilities presumed to be service-connected instead of the present 75 per cent; additional pay for dependents of veterans with service-connected 50 per cent disabilities.

At present such payments are made only if the disability is 60 per cent.

GIVE-AWAYS:

No Sinecure

The business of winning radio give-away prizes is not all beer-and-skittles. A Hollywood insurance man is authority for the conclusion.

He spent his vacation as a contestant on such shows and wound up with \$150 in one week—much more than he could have made working. He attended 20 radio shows, averaging four a day, saying that he couldn't stand any more than that.

That's all he could stand, he said. "It's much more work than working," he explained. The questions are easy, but the nervous strain is terrific. It's too hard on me to do it more than one week each year. He made his killing, however, on one program. He was asked to tell a girl how her husband would feel about her having a baby.

He replied that "things are very convenient for fathers these days." For that he received prizes worth \$150. How to get picked as a contestant? Just sit on the aisle and wisecrack as the announcer goes by.

EDUCATION:

Bicker & Strife

The proposal for federal aid to education was getting nowhere fast. Its proponents, realizing all the while upon what thin ice they skated, had believed the plan had been handled with sufficient tact and skill to win some hope of its final approval. But at this stage of the game, that appeared to be nothing more than wishful thinking.

THE explosive issue, made doubly volatile by the injection of the religious issue by a bill offered by Representative Barden (D., N.C.) and by the public row between Francis Cardinal Spellman and Mrs. Eleanor Roosevelt, threatened to kill the proposal entirely.

The Barden bill would exclude Catholic and other non-public schools from all federal aid. Because Mrs. Roosevelt, in some of her syndicated columns, had argued for separation of church and state, Cardinal Spellman accused her of being anti-Catholic. She denied the allegation and pointed to her record as proof.

WITHOUT any attempt to argue the relative merits of each viewpoint, capitol observers were generally agreed that these developments had done nothing to help the plan for federal government to assist in school programs by giving financial aid.

The proposal without the added controversies was stormy enough in itself, inasmuch as there had been much hue and cry to the effect that federal aid to schools would mean ultimately federal effort to control the choice of what would be taught in the schools.

It appeared that this obstacle to the proposal might have been hurdled, but when the religious issue was injected the fate of the plan was seriously jeopardized.

ADMIRAL BYRD:

For Horizons

The lure of the frozen, silent spaces were calling again and Adm. Richard Evelyn Byrd, veteran polar explorer, was harkening.

ACCORDING to reports out of New York, some 3,500 men and eight ships are earmarked for an Antarctic expedition, to be headed by Byrd, which will have as its objective the mapping of a vast area of unknown territory in the Antarctic about as big as Europe.

If present plans were finally approved, the first ships would sail in October. The expedition would establish a base in New Zealand and remain in the arctic about four months of the south polar "summer," before returning to the United States about April, 1950.

IT WAS UNDERSTOOD the venture depended upon approval of Secretary of Defense Louis Johnson, but planning has been underway for some time. This, certainly, would indicate a high optimism that Johnson's approval is assured.

It was said naval planes would probably participate in extensive aerial mapping, air-sea rescue work, and the scouting for ice leads. The goal of the expedition, apparently, is to be a great, oblong stretch of unexplored territory across the South Pole from Little America, site of the Byrd base camp in the admiral's expedition of 1929.

A LARGE AREA, part of which is claimed by Australia and Norway, lying south of Africa and stretching across the snowy wastes of the Antarctic toward Australia and South America, is virtually uncharted, and it is expected that aerial mapping will reveal many of its secrets.

The expedition, if finally approved, would be the admiral's fifth to the south polar regions.

Urged Arms Outlay

Secretary of State Dean Acheson, who put in the major licks favoring appropriation of approximately 1.5 billion dollars for arms to implement the North Atlantic pact, declared the aid program would prevent any aggressor from achieving a "quick and easy victory" in a future war.

WHITE HOUSE:

Tradition Wins

Score a victory for history and tradition: the White House, official abode of the United States presidents, will not be razed. Instead, the historic structure will be given a 5.20 million-dollar face-lifting job. A GROUP of six men settled the issue once and for all between advocates of renovation and those who wanted to tear down the present building and erect a new one.

HEAVEN IN THEIR HANDS . . . A Druse's idea of heaven is an opportunity to fight, and even the very young of these tribesmen of Arabic extraction living in Israel fondle guns and dream of fighting days to come. They became full-fledged citizens of the new state of Israel by fighting for the Israelites against the Arabs. Druses trace their ancestry to High Priest Jethro, Moses' father-in-law, who aided the escape of the children of Israel and was forced to flee with them. This ancient alliance seems to have survived throughout the years.

SITDOWN STRIKE . . . This spill, with Jockey Harry Harris and his mount Rapier, takes place during the running of the Charles L. Appleton steeplechase at Belmont Park, N.Y. Harris tries to grab the reins just before the horse breaks free and prepares to gallop off riderless. One man's spill is another man's thrill—this makes the steeplechase one of the most exciting sports from the spectator's standpoint, and from the rider's too, it looks from this spill.

AMPHIBIOUS HELICOPTER . . . The air force's first amphibious helicopter, the Sikorsky-built H-5H, just breaks from the water after a routine sea landing. With the new amphibious gear, the H-5H can land with equal ease ashore or on the water, thereby increasing its utility as a rescue, search, and liaison aircraft. The four little blisters before and behind the engine make it possible to carry three litter patients. Plane can hover motionless over rough sea and haul up survivors without further injury to hurt persons or danger to the rescuers. This device may revolutionize rescue at sea or delivery of goods to stranded ships.

"THEM DUDES" . . . Fred Astaire and Betty Hutton, movie stars, wear makeup for comedy satirical number—"Them Dudes"—in show "Let's Dance." They perform seven dances in the picture. Chances are that anyone trying to guess identity of the two players would be back at the starting point after a dozen tries, so we have identified them for you. Astaire's last hit picture was "The Barkleys on Broadway" in which he starred with Ginger Rogers and appearing opposite Betty Hutton in a musical picture is a new film experience for the tap dancing star. Astaire is one of the most skillful tappers on the screen and is especially noted for his novelty dances—such as the dance of the empty shoes in "The Barkleys."

Five Percenters

MOST EVERYTHING that happens in Washington during these long summer dog days can be viewed through the jaundiced eye of politics . . . of what it will mean in votes next year.

Latest sensation is the so-called "five percenter scandal." There are those who want to blow up this five percent deal into another Teapot Dome on the eve of the 1950 elections. They want another congressional investigation to be dragged out as long as possible.

Insofar as this reporter can judge, there is nothing here that can be blown into the category of a scandal. There are scores of people who have had government jobs, who know their way around Washington in the huge and vast ramifications of this government, who are making a living telling others who come here, wanting to sell to the government, how to go about it. Of course there may be some grafters who may attempt to trade on the fact they know "Harry." But these are few and will be weeded out anyway, for it is the "know-how" rather than "influence" which will keep these people in business.

Here is how it works. Take a big business on the scale of U.S. Steel or International Harvester or Edison Electric. This business would have a large office with a highly paid staff with an unlimited expense account to look after its government contract work here in Washington.

But a small business from St. Louis, for instance, thinks it has something the government should buy, whether it's an office desk or a new gadget. So this firm sends a representative to Washington to sell the government. He may be an able man, but he's here two weeks or a month before he establishes the proper connection, only to find out the government isn't interested or that he should have gone to San Francisco, or St. Louis or Chicago where the contract for that commodity is let. So the firm spends a lot of useless money and winds up right where it started. So the common practice has been to contact a representative in Washington who is paid a retainer to inform the small business concern the how, where and when about the commodity he has to sell. It's like having your own man on the job. That's what a "five percenter" is.

And Washington is full of them. Lawyers who have had experience in Government practicing before the various governmental agencies; business men who have had experience in government; career men who have grown tired of government service setting up their own shop, even newsmen who have run "beats" in Washington for many years have gone into the business of "Washington representation."

But it is legitimate business and we don't believe the few grafters who attempt to trade on "influence" can blow it up into a pre-election scandal, even though some anti-administration congressmen want to try it.

Power Lobby

Right now, as this is written, the private power lobby is sitting pretty, having won a signal victory over the public power cooperatives in slashing appropriations for transmission lines, particularly for the southwest power administration expansion in Arkansas, Louisiana, Oklahoma, Kansas and Missouri. These projects were backed by the National Rural Electric Cooperative Association, which claims to represent 10 million farm people in 42 states.

The private power lobby lost its initial fight when the house voted some \$20,000,000 for these projects. The lobby won in the senate when the senate appropriations committee not only slashed the money from the appropriations, but ordered the Southwestern Power Administration to sign contracts with the private power companies in these areas for transmission to consumers.

It may be in the closing days of this session before the battle is over, because the fight is scheduled to come on the senate floor with the public power advocates seeking to put the money back into the interior department appropriations.

Recession?

When you read the statistics you do wonder if the talk about a recession is not for a purpose. People have about \$60 billion dollars in their pockets; corporate profits are at a new high; there are still more people employed than in any year except the peak of 1948.

The securities exchange commission has just released figures showing net working capital of corporations increased during the first quarter of 1949.

MIRROR
Of Your
MIND

Be Sincere
In Your Aims

By Lawrence Gould

Is "determination" the secret of success?

Answer: Only when it is wholehearted; that is, when it does not conflict with unconscious fears or wishes. "Grim determination" often represents a desperate effort to keep from admitting that we do not really want the success which we have been trained to feel that we must strive for. What you really want, you'll automatically keep on trying to get, and whether you get it will mainly depend upon how well you adapt yourself to the "realities" of how it can be had. On the whole, adaptability is more important than determination.

self-esteem, which is involved in most neurotic problems, gives way to the instinct of self-preservation in the face of actual danger. He asserts that psychoneurosis decreased in Great Britain during the Blitz, and is rare in cold and hungry countries today.

Are there limits to how far back you can remember?

Answer: If you're speaking of conscious memory, yes. What is sometimes called "childhood amnesia" blocks most of us from recalling anything that happened before we were five or six years old. But this does not mean that earlier events are really forgotten. With the weakening of fear and inhibition that takes place in psychoanalysis, I have seen people remember thrills or shocks which they experienced at the age of two or younger and about which no one could have told them. And hypnosis can revive events of the first year of your life.

Will real danger blot out a neurotic fear?

Answer: Yes, says Dr. Richard W. Kilby of the University of Denver in the Journal of Abnormal and Social Psychology. There's a "hierarchy" in our motives on the basis of which more important needs take precedence over relatively unimportant ones when both are present. The desire for

DEVOTIONAL READING: Job 37:14-24

Singing, Shining

Lesson for August 21, 1949

EVERY ATOM of the universe, said Calvin, sparkles with the glory of God. That is our thought for this week: In the created universe we can see the God who is more wonderful than all his works. The selected Psalms express four different aspects of God's creative power. Psalm 8 brings out the dignity and the glory of man, made to be master of the earth; Psalm 19:1-6 listens to the majestic music of sun and stars; Psalm 65:9-13 sees nature as a farmer sees it, in terms of sun, rain and crops; Psalm 104, one of the noblest poems in existence, celebrates God's glory in all things great and small.

Dr. Foreman

Mystery

THESE inspired Psalmists saw a high truth: Nature is for man's use, in part, but has also a value, a beauty and a splendor all its own; and it is one of the ways by which we can know God. What is true of nature is true, far more, of the God who created all things. One of the thoughts suggested to their minds was the mystery of nature.

Even today, with all that science has discovered, there is mystery in the most elemental facts of existence. What is light? What is life? What is energy? Where did it come from and what is the destiny of it all?

A common grass blade performs miracles—that chemistry has not yet initiated. The mystery of nature suggests the deeper mystery of nature's God.

Power

WE ARE beginning now to realize, even better than the Psalmists could, how much energy there is in nature. We have seen tragic evidence of the atom's power. Now we have also found that while energy cannot be destroyed, it cannot be created by us, though it constantly changes form.

As the water in a power station which has run through a turbine will not climb back up to turn the turbine again, so the whole universe (they tell us) is in the process of running down.

But how was the universe born, how was energy born, in the first place? How was the universe, so to speak, wound up? Science does not profess to know; but religious answers by faith: In the beginning, God . . .

Beauty

THE writer of Psalm 104 was well aware that some parts of nature are useless to man; but he rejoiced in them none the less. Few of his neighbors had any use for whales, for example, but he takes delight in the whale (he calls him Leviathan) just playing in the ocean. St. Augustine, in the same mood, says somewhere about things like wasps and spiders that if we could forget that they bite, we would be greatly awed by their beauty and the perfection of their mechanism. Indeed, St. Augustine, in one of his prayers, calls God "Pulchritudo," Beauty. Just as God is The Truth and The Good, so he is The Beautiful.

Law

THE writers of these nature-Psalms (especially 19 and 65) were impressed by another fact about nature: its regularity. You can count on the sunrise, you always know which order the seasons will follow. Even things like earthquakes and tornadoes, which seem pretty unpredictable, follow laws of their own. Science has now shown this to be true on a cosmic scale. The stuff of which the farthest stars are made is just the same (only a lot hotter!) as the stuff in the rocks under your feet at this minute.

The laws that govern the fall of a leaf or the shape of rain-drops are the same laws that can be seen in the whirling of star-dust fifty million light years away.

The Creator of all is not erratic, eccentric or capricious. He is the God of Law, for from his infinite Mind come all the patterns, known to us or yet unknown, by which the vast fabric of the universe is woven. Mystery, Power, Beauty, Law: All nature, not only the stars, shine with all these—and as Addison says,

"Forever singing as they shine,
The hand that made us is divine."

HOUSEHOLD MEMOS by Lynn Chambers

Melt-in-Your-Mouth Pies Need Know-How
(See Recipes Below)

Pastry Perfection
ARE YOUR PIES wonderful to look at? Do they have a meltingly tender crust? Is the filling a delightful surprise instead of a disappointment?

Unless you can answer a resounding "yes" to each of those three questions, better take a good look at tips given in this column. They'll help you reach pastry making perfection if you put the hints into practice.

Pie is a dessert to have at any luncheon or dinner, whether light or heavy. It might be a rich apple pie, topped with scoops of ice cream if the meal itself has been shy on calories.

Pies may be baked or chilled. Their crust may be pastry or crumb. Their fillings may be fruit, berries, juice or eggs or combinations of these, so you see how much variety pie can give your meals.

If you have some especially bright and lovely berries or fruit, don't hide them under a top crust. Place a lattice crust or crumb topping or a lacy fluting of whipped cream on the pie, and let everyone enjoy the handsome looks of the pie.

HERE'S a foolproof recipe for a single pastry shell. If you want a double crust, make twice the recipe:

- Pastry Shell**
(Makes 1 8 or 9-inch)
1 cup sifted flour
1/4 teaspoon salt
5 tablespoons lard or shortening
2 tablespoons ice cold water

Sift together flour and salt. Cut in lard with two knives or a pastry blender. (Avoid using fingers, since they're warm and will melt the fat.) Sprinkle water in, while stirring with a fork. Press dough into a ball, then roll lightly on a pastry cloth or board. Fold over and fit pie plate. Trim edge, fold under and flute. For a baked pastry shell, prick bottom and sides with a fork. Bake in a hot (450°) oven 10 to 12 minutes or until golden brown. If the shell is to be baked with the filling, bake according to directions in recipe.

the shell is to be baked with the filling, bake according to directions in recipe.

IF PEACHES are on your mind here's a peaches and cream pie that is really delectable:

- Southern Peach Cream Pie**
(Makes 1 9-inch pie)
1 unbaked pastry shell
6 peach halves, fresh or canned
1/2 cup sugar
1 tablespoon flour
1/2 teaspoon almond extract
1/4 teaspoon salt
1 cup rich milk
2 egg yolks, beaten
1 tablespoon melted butter
2 egg whites, beaten

Arrange peaches, cut side down in pastry shell. Mix sugar, flour and salt. Combine dry ingredients with milk, almond extract, egg yolks and butter. Fold in egg

LYNN SAYS:
Wise Use of Leftovers
Makes For Economy

Add variety to waffles by using any of the following leftovers: chopped bacon, 2 ounces of melted chocolate, whole kernel corn, minced ham, nutmeats or chopped raw apples.

Many dabs of leftovers can be added to French dressing to add interest to salads. Add the last bit of honey to the dressing for fruit salads, or a bit of Roquefort cheese for green salads.

- LYNN CHAMBERS' MENU**
Broiled Lamb Chops Mint Jelly
Hashed Brown Potatoes
Buttered Zucchini Squash
Grated Carrot Salad
Date Muffins
*Blueberry Pie Beverage
*Recipe Given

whites; pour over peaches. Bake in a hot (450°) oven for 10 minutes; reduce heat to moderate (350°) and bake for 30 minutes or until a knife comes out clean.

- Deluxe Chocolate Pie**
(Make 1 9-inch pie)
1 chocolate crumb crust
3 egg yolks, slightly beaten
1/2 cup sugar
1/4 teaspoon salt
1 cup milk, scalded
1 tablespoon unflavored gelatin
1/2 cup cold water
1 teaspoon vanilla
3 egg whites, stiffly beaten
1 cup heavy cream, whipped
Shaved Chocolate

Combine egg yolks, sugar and salt; add milk slowly. Cook in top of double boiler until mixture coats spoon. Add gelatin softened in cold water. Stir until gelatin dissolves; add vanilla. Fold in egg whites and whipped cream. Pour into crust and chill until firm. Before serving garnish the top with shaved chocolate. (For doing this easily, use a clean razor blade on a bar of unsweetened chocolate to make the chocolate curls.)

- *Blueberry Pie**
(Makes 1 8-inch pie)
2 1/2 cups washed, picked blueberries
1 cup sugar
2 tablespoons cornstarch
1/4 teaspoon salt
1 tablespoon lemon juice
2 tablespoons butter

Double crust pastry
Combine blueberries with sugar which was mixed with cornstarch, salt and lemon juice. Fill a pastry lined pan and dot with butter. Top with crust and flute edges. Have gashes on top. Bake in a hot (450°) oven for 10 minutes, reduce heat to moderate (350°) and bake for 30 minutes longer.

HERE'S a delightful variation of apple pie with its crumbly, nut topping that's so delicious. This, like a regular apple pie, may be served with scoops of ice cream, if desired:

- Crumbly Apple Pie**
(Makes 1 9-inch pie)
6 large tart apples
1/2 cup sugar
1 1/2 teaspoons cinnamon
1/2 cup sugar
3/4 cup flour
1/2 cup butter
1/2 cup pecan halves
1 unbaked pastry shell

Pare apples and cut into eighths and arrange in pastry shell. Sprinkle with one-half cup sugar mixed with the cinnamon. Sift remaining one-half cup sugar with flour and cut in butter. Work mixture until crumbly and sprinkle over apples. Dot with pecan halves. Bake in a hot (450°) oven for 10 minutes, then reduce heat to moderate (350°) and bake for 40 minutes longer until apples are tender.

Leftover biscuits, split in half and covered with cheese and bacon, then broiled make a nice open-faced sandwich for soups or salads.

Leftover cocoa may be combined with coffee and served chilled with a whipped cream topping for a delicious beverage.

Combine several different kinds of leftover fruit juices for cooling first course beverages; pineapple and strawberry juice; grape, lemon and pineapple juice; raspberry and pineapple juice

AROUND the HOUSE Items of Interest to the Housewife

Mailing Candy, Nuts
Candy and nuts sent through the mails can be kept fresh and whole if they're packed in mason jars. Or, open an ordinary tin can almost all the way, empty it and wash thoroughly; then line the inside with waxed paper, fill it with nuts and candy and secure the lid with adhesive tape.

Ink Spots
If you can't get to an ink spot immediately, mix up a workable paste of milk and corn meal. Cover the spot liberally with the paste and let it stay 12 hours—at least overnight—before sweeping it up.

Simple Lines Make Dress Easy Sewing

8396
2-6 yrs.

Simple Lines
SIMPLE princess lines make easy sewing for mother. This darling puffed sleeve dress will be perfect for parties and kindergarten. Tiny ruffling gives a yoke effect.

Pattern No. 8396 is for sizes 2, 3, 4, 5 and 6 years. Size 3, 2 1/2 yards of 39-inch.

The Fall and Winter Issue of FASHION is a dependable guide in planning a smart winter wardrobe. Special features, fabric news—free pattern printed inside the book, 25 cents.

SEWING CIRCLE PATTERN DEPT., 330 South Wells St., Chicago 7, Ill.

Enclose 25 cents in coins for each pattern desired.

Pattern No. _____ Size _____

Address _____

Keeping Potatoes
To keep potatoes from turning soft before you're ready to serve them, store them by spreading them out in a shallow box so air can circulate around them.

Frosting Cakes
You can prevent fresh frosting from running off the top and down the sides of cakes by dusting flour across the cake as soon as the frosting is put on. Not enough to alter the taste of the icing, but just enough to make it congeal.

For Rainy Days
In rainy weather, lay a large size desk blotter just inside the front door so that wet overshoes and galoshes can be put on it. When the rain stops, the blotter can be rolled up and kept in the hall closet.

Serving Left-Over Beef
A quick way to serve left-over roast beef without re-heating it is to slice the meat, get the gravy piping hot and pour the hot gravy over the cold meat.

LOOKING AT RELIGION By DON MOORE

MERU
IT IS SAID THAT JERUSALEM HAS BEEN REBUILT SO MANY TIMES THAT ITS LEVEL HAS BEEN RAISED FROM 40 TO 70 FEET BY THE DEBRIS!
WHAT IS BIBLIOMANCY?
IT IS A SYSTEM OF FORTUNE TELLING INVENTED BY THE PURITANS. BRIEFLY IT CONSISTS OF SELECTING TEXTS OF SCRIPTURE—MANIPULATING THEM TO FORM PROPHECIES.
ACCORDING TO BUDDHIST LEGEND THERE IS A VAST, HEAVENLY MOUNTAIN (MERU) WHICH TOWERS 160,000 LEAGUES!

KEEPING HEALTHY
Eleventh Year Is Safest in Life

By Dr. James W. Barton

A FEW YEARS ago we learned from records of illness at different ages that the years between five and 10 were the ones with the lowest rate of illness and death. It is interesting to learn that the age of 11 is now found to be the safest year according to the bulletin of the Metropolitan Life Insurance Company.

The first year, and especially the first week of life, is fraught with serious hazards, most of which begin before or during birth. When the child has passed safely through infancy, the chances of surviving from year to year increase with each advance in age during the next 10 years of life. After this the chances of living to the end of the next year become less.

By the age of 11 the death rate from infants' diseases has decreased while adult or chronic diseases have not yet started. The death rate at 11 years of age is just one-half of what it was only 12 years ago.

It will come as no surprise to learn that a large proportion of the deaths at 11 years of age is due to accidents, especially among boys.

Parents soon learn that when a boy does not climb fences, jump in sandpits or play strenuous games, he is not like other boys. On the other hand parents do not like to see their girls engage in any of these pursuits. Even in accidents in the home, where the hazards might be expected to be nearly equal, the death rate among the boys was three times that among the girls.

While the three diseases causing most deaths—pneumonia, influenza and tuberculosis—have been reduced from between 60 to 80 per cent in the past 12 years, accidents lead other causes of death by a higher margin than ever.

As parents we know that school principals and teachers are doing their part in educating boys and girls in safety methods. It is now up to the parents to supervise their children insofar as this is possible in and out of the home.

HEALTH NOTES

You are hearing and reading more about how the emotions affect the various processes of the body, causing loss of appetite, diarrhoea or constipation, rapid heart beat, rise in blood pressure and other symptoms.

Unless severe heart or blood vessel disease or weakness of the bones of the spine is present, electroshock treatment of the elderly is considered safe.

In the armed forces it was found that recruits who had lived too much within themselves, not mixing with others, became neurotic during the training period for service.

A visit to your physician and dentist, once or twice a year, is our best health insurance.

Reno News

Mr. and Mrs. Chester R. Smith and daughter, Florence of Flint spent Sunday at the home of William Latter, Mrs. Smith, the former Dorothy Latter remained for a few days visit with her father and sisters. They have just returned from a trip to the west visiting relatives and friends en route. They also visited Mr. Smith's sister in Canada and Mrs. Smith's cousins, the sons of the late Edney Latter.

Mrs. Florence Latter is home for a short vacation after spending the summer among the Mexican migrants in Munger, Traverse City and Au Gres. She has been working with the Home Missions Council of North America and has had under her direction the Misses Marie Jump of Little Rock, Arkansas, Eula Jean Ford of Colorado Springs, Colorado, and Elena Jimenez of Cuba. She will show colored slides and speak of her work at the Reno Baptist church this Thursday evening, August 18 at 8:00 o'clock.

Mr. and Mrs. Robert Dancy and children of Detroit visited her brothers, George and Will Waters over the week-end.

Mr. and Mrs. James Sturdevant and three children have returned from a ten day vacation in northern Michigan.

Mr. and Mrs. Thomas Phelps and two children of Chicago spent a few days last week at her father's home, H. C. Latter and visited other relatives.

Mrs. Ruth Nichols of Flint was home for a few days vacation this past week.

Earl Daugherty and David DeMorrow are spending a few days fishing in Canada.

\$1,500 OFFERED IN PRIZES IN CANOE RACE

Nearly \$1,500.00 will be offered in prizes to contestants in the Third Annual Michigan Canoe Championship race which will be held September 17 and 18 on the AuSable river. Included in the awards will be the Marston Memorial Trophy.

The marathon race has become famed throughout the country and is one of the principal attractions here during the summer months. Starting at Grayling, the contestants will paddle straight through to Oscoda. Last year's winners finished with a total running time of 19 hours and 56 minutes.

The event is sponsored by the Oscoda-AuSable Chamber of Commerce, Grayling Chamber of Commerce, Mio Sportsman's Club, Tawas Chamber of Commerce and East Michigan Tourist Association.

The cash awards will be made as follows:

1st prize	\$600.00
2nd prize	300.00
3rd prize	200.00
4th prize	100.00
5th and 6th prizes, each	50.00
7th, 8th, 9th, 10th prizes, ea.	25.00

Salvation Mountain
Salvation mountain in the Chambon, Haute Loire, in the south of France, has been so designated officially on French military maps because of the great activity of the Salvation Army in that region. The army's chalet is located on the mountain at a height of over 3,000 feet.

Lower Hemlock

Mr. and Mrs. Henry Fahselt and Mrs. W. E. Laidlaw left Sunday morning for Saskatchewan where they will visit the Fahselt and Culham families.

Mr. and Mrs. Guy Latham and boys of Roseville are at Sand Lake on vacation. Guy called on relatives in Tawas and on the Hemlock Friday.

Mr. and Mrs. Andrew Anschuetz and Mr. and Mrs. Victor Bouchard left Sunday morning for a two day motor trip to Minnesota and other points.

Mrs. Louise McArdle spent a few days in Tawas City with Mr. and Mrs. D. O. Albertson, Mr. and Mrs. Arthur Wendt and other relatives.

Vera Rapp, bride of the month, was honored at a bridal shower at the home of Mrs. John Katterman, Saturday, August 13. Assisted by Mrs. Arthur Wendt and Mrs. Delbert Albertson. Vera received many nice gifts. Lunch was served by the hostess.

Mr. and Mrs. Ralph Curry and son of Detroit, Mr. and Mrs. Fred Howe and Carolyn and Mrs. Howe, Sr. of Bay City, Mrs. Martha Mochring and Mrs. Newholt of Highland Park, Mrs. Martha Flint, Mrs. Iva Mallon, Mr. Youngs, Ted Anschuetz and son, Norman, of East Tawas were week-end callers at the Waldo Curry, Sr. home.

Ralph Curry returned to Detroit Sunday evening, Mrs. Curry, and Gerald will spend a week with her parents, Mr. and Mrs. John Rapp.

Mr. and Mrs. Herman Fahselt and Mr. and Mrs. Waldo Curry, Sr. spent Friday evening with Mr. and Mrs. Henry Fahselt.

Mr. and Mrs. Ennis Proulx and children left Thursday morning for their home in Alexander, Virginia, after spending several weeks vacation with Mrs. Proulx's parents, Mr. and Mrs. Walter Kelchner and other relatives. Mrs. Waldo Curry, Jr. and son, Bobby, accompanied them for a few weeks vacation.

Mr. and Mrs. Frank Kessler and son of Flint spent the week-end with Mr. and Mrs. Edward Youngs and other relatives and friends.

Mr. and Mrs. Martin Fahselt and Mr. and Mrs. Herman Fahselt attended the Fahselt Reunion at Saginaw Sunday.

Mr. and Mrs. Chelsea Chambers and Beverley of Detroit and Grant Boomer and friend of Flint, were Sunday callers at the McArdle home.

Control of Stable Flies
Stable flies resemble house flies somewhat in appearance. These pests rest on the barns, in trees around where the cattle are feeding and to some extent on the animal, but the latter is usually just for feeding. To control the stable fly, the buildings as well as the animals must be treated with DDT, 2.5 per cent to 5 per cent solution should be used on the buildings. Applications should be made every three months.

N. C. Mountain Peaks
Haywood County, N. C., contains 72 mountain peaks more than 5,000 feet high.

STATE OF MICHIGAN

The Probate Court for the County of Iosco

At a session of said Court, held at the Probate Office in the City of Tawas City, in said County, on the 13th day of August A. D. 1949.

Present, Honorable H. Read Smith, Judge of Probate.

In the Matter of the Estate of Frederick E. Kocher, deceased.

R. H. McKenzie having filed in said Court his final administrator account, and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate.

It is Ordered, That the 19th day of September A. D. 1949, at ten o'clock in the forenoon at said Probate Office, be and is hereby appointed for examining and allowing said account and hearing said petition;

It is Further Ordered, That notice thereof be given by publication of a copy hereof for three successive weeks previous to said day of hearing, in the Tawas Herald, a newspaper printed and circulated in said County, and that the petitioner shall, at least (10) days prior to such hearing, cause a copy of this notice to be mailed to each party in interest in this estate at his last known address by registered mail, return receipt demanded.

H. Read Smith,
Judge of Probate.

7:30 P. M. Sunday School Teacher's meeting.
- EMANUEL LUTHERAN CHURCH**
Tawas City
Rev. J. J. Roekle, Pastor
Sunday, August 21—
10:00 A. M. English service.
The Ladies Aid will sponsor an ice cream social on the church lawn in the afternoon.
- Water for Dairy Cows**
Water is called the most important feed dairy cows get. Clean water, slightly warmed in winter, all the cows want, will pay big dividends.

FARM NEWS

Vermont Farmers Need Hay! Povish Herd Leads DHIA for July

Because of the severe drought in the New England states this summer, hay is in demand in many of the drought-stricken areas. The Vermont PMA Committee reports that many Vermont farmers are having difficulty in obtaining hay at reasonable prices.

Earl M. Partlo, chairman of the Iosco County AAA Committee has received word from the State PMA Committee that the Vermont office has written asking if there is good hay available in this state, where it is located, and what it would cost. He suggests that farmers in this county having hay for sale write to A. F. Heala, Executive Officer, Vermont PMA Committee, 102 Adams Street, Burlington, Vermont, giving him the information as to quantity, quality, location, price, etc.

David Parent, tester for the Iosco County Herd Improvement Association reports 21 herds on test for the month of July, comprising 271 cows. The average production of all cows tested was 34.44 pounds of fat from 936 pounds of milk.

Arthur Povish with a herd of 12 registered Holsteins holds high honors with a herd average of 47.5 pounds of fat from 1385 pounds of milk.

Waldo Curry with a herd of 16 grade Registered Holstein and Gurnsey, held second honors with a herd average of 46.0 pounds of fat from 1236 pounds of milk.

Cut Costs in Dairy Farming—Says Clark

With lower milk prices, dairy farmers are naturally looking for ways to cut costs on their farms. County agricultural agent H. R. Clark has some information from C. R. Hogland, Michigan State College agricultural economist, on housing costs.

Under four major topics, the economist lists ways to lower costs. They are: improved forage production, more efficient feeding, better work methods, and more economical housing.

Housing, the last item, is an item which agent Clark believes offers an opportunity for money saving. The cost of housing a dairy cow has averaged about \$10.00 per year in recent years. This includes repairs, depreciation, and an interest charge on the investment. This figure obtained from a study carried on the Detroit Milk Shed, is conservative, the economists point out, since very few barns have been built in recent years and repairs have been kept at a minimum. The inventory values of barns on the farms studied, averaged about \$3,500.00 or slightly over \$200.00 invested per cow.

New barns are costing from \$400.00 to \$600.00 per animal for the conventional stanchion barn. Pen-type parlor barns are often being constructed for less through the use of new building techniques. Some of the same new techniques which apply to the construction of pen-type barns can be adapted for stanchion barns. While a barn should be sturdy enough to stand weather and normal use, agent Clark believes farmers should investigate the opportunities of using different construction methods or materials when building new or remodeling old barns. Money saved will mean just that much less but the cows must pay off.

Check Now on Outcome of Wheat Crop

Though wheat harvest may just be over, county agricultural agent Harold R. Clark believes that now is a good time to check on the outcome of the wheat crop.

Farmers who weren't satisfied with their yields should make definite plans for improvements next year. Checking points such as seed bed preparation, planting time, and rate of seeding will help to show possible changes that can be made.

Certified seed, agent Clark reports, is a wise investment. The seed is produced under Michigan growing conditions and certified through cooperation of the Michigan Crop Improvement association and the Michigan State College farm crops department.

For Iosco, the agent recommends Yorkwin wheat.

With wheat allotments in effect for next year, the agent believes that farmers should do all they can to make sure their acreage is successful.

A list of supply sources for certified seed can be obtained from the County Extension office.

STATE OF MICHIGAN

The Probate Court for the County of Iosco.

At a session of said Court, held at the Probate Office in the City of Tawas City in said County, on the 26th day of July, 1949.

Present, Honorable H. Read Smith, Judge of Probate.

In the Matter of the Estate of George J. Nelem Deceased.

It appearing to the Court that the time for presentation of the claims against said estate should be limited and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said Court;

It is Ordered, That all creditors of said deceased are required to present their claims to said Court at said Probate Office, on or before the 10th day of October, 1949, at 10:00 o'clock in the forenoon, said time and place being hereby appointed for the examination and adjustment of all claims and demands against said deceased.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, once in each week for three weeks consecutively previous to said day of hearing, in the Tawas Herald a newspaper printed and circulated in said County.

H. Read Smith, Judge of Probate.

A true copy. Mabel Kobs, Register of Probate.

STATE OF MICHIGAN

The Probate Court for the County of Iosco.

At a session of said Court, held at the Probate Office in the City of Tawas City, in said County, on the 16th day of July A. D. 1949.

Present Honorable H. Read Smith, Judge of Probate.

In the Matter of the Estate of Walter E. Laidlaw Deceased.

May Laidlaw having filed in said Court, her petition praying that the administration of said estate be granted to Walter J. Laidlaw or to some other suitable person.

It is Ordered, That the 6th day of September A. D. 1949, at ten o'clock in the forenoon, at said Probate Office, be and is hereby appointed for hearing said petition.

It is Further Ordered, That notice thereof be given by publication of a copy hereof for three successive weeks previous to said day of hearing, in the Tawas Herald, a newspaper printed and circulated in said County.

H. Read Smith, Judge of Probate.

A true copy. Mabel Kobs, Register of Probate.

"That reminds me, dear. We've got to look in the telephone directory Yellow Pages for a man to fix the leak in the roof."

ANNOUNCING!

NEW Frigidaire Dehumidifier

- * Reduces indoor dampness!
- * Prevents moisture damage!

Prevent moisture damage in confined areas with a new Frigidaire Dehumidifier Compact, complete—can be placed in any convenient location. Then, all you do is plug it in. Excess moisture is taken from the air quickly, quietly. It will pay for itself by protecting valuables from mold, rust and mildew!

Effective in Confined Areas up to 8,000 cubic feet

Ideally suited for—Home Workshops and Basements . . . Terrace Apartments . . . Linen Storage Rooms . . . Libraries . . . Organ Lofts . . . Photographic Darkrooms . . . and other uses. Come in today for complete information.

ECONOMICAL PRODUCTION IMPORTANT AS SWINE INCREASE IN IOSCO

Economical production is even more important as swine numbers increase in Iosco county, says Harold R. Clark, County Agricultural agent.

Numbers are now high and are expected to increase due to an abundant feed supply and the outlook for one of the biggest corn crops in history.

Harry Moxley, Michigan State College extension swine specialist, says that profits in the swine business will depend on practices that insure economical production.

Use of good pastures is of great importance in pork production. One acre of good pasture, carrying 20 market hogs through the season, will give a saving of from 15 to 18 bushels of corn and about 550 pounds of protein.

When good pastures are used, pigs gain on the average 17% faster and are ready to go to market two to three weeks earlier—which means they are sold on the market from 50 to 75 cents higher.

In addition to saving feed, good lush pastures furnish plenty of vitamins and calcium and are the best insurance in the prevention of internal parasites and filth borne troubles. From a conservation standpoint, pasture crops add to the soil management and fertility practices.

The farmer raising hogs, if he is not using a pasture crop, can well afford to fence off a section of his alfalfa or alfalfa-brome field for a hog pasture, Moxley believes. He advises that rape is one of the good temporary pastures when planted in season.

POTATO GROWERS MUST SIGN UP TO PARTICIPATE IN SUPPORT PROGRAM

Iosco County potato growers are reminded that they must sign a certificate of eligibility prior to harvest or September 1, whichever is earlier, if they desire to participate in the 1949 potato price support program.

Earl M. Partlo, chairman of the Iosco County AAA Committee, said that only those growers who have planted within their assigned goal or those who, unassigned a goal, have planted three acres or less, will be eligible to sign certificates of eligibility.

The basic support prices will range from \$1.50 in August, 1949, to \$2.15 in March, 1950.

Full information about the support program for potatoes and the certificates of eligibility may be obtained from the county AAA office, Tawas City.

Meat Figures

Farmers probably receive a higher per cent of the consumer dollar for meat than for any other farm product.

Appeal to Farmers

U. S. department of agriculture is asking farmers to increase milk production by three per cent in 1949

Margaret Lansky, Tawas City Treasurer.

NOTICE OF MORTGAGE FORECLOSURE SALE

Default having been made in the condition of a certain mortgage made the 14th day of October, 1947, by Stephen D. Ferguson and Helen L. Ferguson, his wife, and Ida Ferguson, of Tawas City, Michigan, as mortgagors, to James Boomer and Sybil Boomer, his wife of Tawas City, Michigan, mortgagees, and recorded on the 31st day of October, 1947 in the office of the register of deeds for Iosco County, Michigan, in liber 16 of mortgages on page 486; which mortgage was assigned by said mortgagees to Nathan Barkman of East Tawas, Michigan, by an instrument dated the 17th day of March, 1949 and recorded in said office on the 21st day of March, 1949 in liber 23 of mortgages on page 298; on which mortgage there is claimed to be due and unpaid at the date of this notice eighteen hundred thirty-five dollars (\$1835.00) principal and one hundred forty-one and 21-100 dollars (\$141.21) interest; no suit or proceeding at law or in equity having been instituted to recover the debt, or any part of the debt.

secured by said mortgage, and the power of sale in said mortgage contained having become operative by reason of such default.

Notice is hereby given that on Saturday, the 20th day of August, 1949, at 11 o'clock in the forenoon at the front door of the courthouse in the City of Tawas City in said Iosco County, the circuit court for the County of Iosco, there will be offered for sale and sold to the highest bidder, at public auction or vendue, for the purpose of satisfying the amounts due and unpaid upon said mortgage, together with the legal costs and charges of sale, including an attorney fee provided by law and in said mortgage, the lands and premises in said mortgage mentioned and described as follows, to-wit:

The South half of Lots No. 1 and 2 of Block No. 2 of Ferguson's Addition to Tawas City situated in the City of Tawas City, County of Iosco, State of Michigan.
 Dated: May 17, 1949.

Nathan Barkman, Assignee of Mortgagee,
 Herbert Hertzler, Attorney for Assignee of Mortgagee,
 Tawas City, Michigan. 20-13b

Abortion in Sheep

Most cases of vibriotic (infectious) abortion in sheep occur in cold weather. The reason: "vibriotic fetus," the germ that causes this disease, which often results in heavy losses of lambs, thrives best in frigid temperatures. Tests have shown that at 45 degrees F. the disease bacteria lived an average of 20 days. At 70 to 100 degrees the organisms survived for an average of only 10 days.

Pullorum Disease

Veterinarians report that sulfa drugs are not an effective treatment for pullorum disease in poultry.

John Newberry is visiting relatives in Flint.

Mr. and Mrs. Paul Msner of Ypsilanti are visiting at the home of their parents, Mr. and Mrs. M. H. Barnes.

Removing Starch From Iron

Starch is removed from iron either with a soft damp cloth and non-abrasive cleaner or with a very fine steel wool which can be purchased in any hardware store. Home economists recommend No. 00.

Hog Wise Feeder

Although corn is considered the basal swine feed, the hog can utilize a larger variety of feeds to greater advantage than any other farm animal.

NOTICE OF SALE

Default having been made in the condition of a certain mortgage made the 25th day of October, 1945, by Joseph M. Nixon, and Regina M. Nixon, his wife, as mortgagors, to Commercial Bank of Tolfree Livingstone and Company of West Branch, Michigan, as mortgagee, and recorded on November 8, 1945, in the office of the register of deeds for Iosco County, Michigan, in liber 23 of mortgages on page 129; on which mortgage there is claimed to be due and unpaid at the date of this notice Three Thousand (\$3000.) Dollars principal and \$482.00 interest, and \$31.91 taxes; no suit or proceeding at law or in equity having been instituted to recover the debt, or any part of the debt, secured by said mortgage, and the power of sale in said mortgage contained having become operative by reason of such default.

Notice is hereby given that on the 26th day of September, 1949, at 10:00 o'clock in the forenoon, at the front door of the courthouse in the city of Tawas City, that being the place for holding the circuit court for said County of Iosco there will be offered for sale and sold to the highest bidder, at public auction or vendue, for the purpose of satisfying the amounts due and unpaid upon said mortgage, together with the legal costs and charges of sale, including an attorney fee as provided by law, the lands and premises in said mortgage mentioned and described as follows, to-wit:

A parcel of land described as commencing at a point 704 feet

East, 540 feet South and 320 feet East of the Northwest corner of the South half of the Southwest quarter of Section 23, Township 24 North, Range 5 East, Iosco County, Michigan, and running thence East 270 feet to the west line of a thirty foot driveway, thence South to the North line of highway M65, thence Southwesterly along said North line of highway M65 to a point due South of the place of beginning, and thence North to the place of beginning.

Dated: June 29, 1949.
 Commercial Bank of Tolfree Livingstone and Company of West Branch Michigan, Mortgagee.

Melvin E. Orr, Attorney for Mortgagee West Branch, Mich.

In Defense of Hog

The idea that hogs are filthy in their habits is untrue, says the World Book Encyclopedia. Hogs will not stuff themselves with food the way other animals—and humans—sometimes will. Hogs wriggle in the mud because it helps keep them cool and removes extra oil on their skins.

Brucellosis in Humans

Brucellosis mainly contracted by human beings from swine and cattle—first became a reportable human disease in 1923, when less than 100 cases were reported in the United States. In 1947 more than 6,000 human cases were reported. Approximately 35 per cent of human cases are caused by eating infected food products of animal origin. Such cases can be prevented by proper pasteurizing of milk products and cooking of all meat.

FARM BUREAU NOTES

Wilber Farm Bureau members met at the home of Mr. and Mrs. Richard Daroff, Sr. on Monday, August 15.

After the meeting was called to order by chairman, Harold Choler, roll call was taken by secretary, Mrs. Bert Harris.

It was decided that Bert Harris continue the Public Dumping Ground investigation, which is needed in the community.

The topic for discussion was "The Farm Bureau Insurance Program." Mr. Keinzle, the Discussion leader, gave a talk about how auto insurance benefits the individual Farm Bureau member, which was organized for Farm Bureau members only. It was very definitely felt that insurance cost to farmers was excessive.

The business meeting was then adjourned, and Recreation leader, Bert Harris took charge of the recreation period. Euchre was played and a delicious lunch was served by the hostess.

The Lower Hemlock Farm Bureau met at the home of Mr. and Mrs. Glenn McLeod, on Thursday evening. The advantages of Farm Bureau Auto Insurance were discussed. After the meeting, lunch was served by the hostess. The next meeting will be held at the home of Mr. and Mrs. Edward Krumm.

Hale News

The cheese factory has been moved to Rose City.

Many Hale people are picking black berries these days.

The Baptist Sunday School held their picnic at the Roll-ways last Saturday afternoon.

The Robert Buck family were visitors in Wilber last Sunday afternoon.

The Basil Humphrey family of Flint visited in Hale over the week end.

Mr. and Mrs. Charles Morgan of Ohio were visitors in Hale a few days last week.

Mr. and Mrs. Emil Wagner returned last week from Missouri where they attended the funeral of his father.

Mr. and Mrs. Elden Bannister, who have been living at South Branch have moved back to Hale.

Duall Pearsall is having his home repaired and painted.

Mr. and Mrs. Stanley Healy of California were visiting friends here last week.

Combination Utensil

A covered skillet—of heavy material—may serve as a fryer for chicken and chops, or as a Dutch oven. With a special rack, this covered skillet becomes a small surface oven. It can then be used for baking pies, rolls, biscuits, or small cakes.

LEGAL NOTICES

STATE OF MICHIGAN
In the Circuit Court for the County of Iosco

IN CHANCERY
Anna M. McMurray, plaintiff,
vs. Elwood J. McMurray, Defendant.

ORDER OF PUBLICATION
At a session of said Court held in the Courthouse in the City of Tawas City in said County this 21st day of July, 1949

Present: Honorable Herman Dehnke, Circuit Judge.

It is satisfactorily appearing to this Court by Affidavit on file, that a Chancery Summons has been duly issued out of and under the seal of said Court, for the appearance of said defendant therein, and that the same could not be served on said defendant, because that after diligent search and inquiry, it could not be ascertained in what State or County the said defendant resides, or the whereabouts of said defendant learned, and that said Chancery Summons has been duly returned by the Sheriff of said County with his certification thereon, endorsed that after diligent search and inquiry, he was unable to find the said defendant within the State of Michigan on or before the return date of said summons.

On motion of H. Read Smith, attorney for said plaintiff, IT IS ORDERED that the said defendant, Elwood J. McMurray, cause his appearance to be entered in this cause within three months after the date of this Order, and in case of his appearance, that he cause answer to the plaintiff's Bill of Complaint to be filed and a copy thereof served upon plaintiff's attorney within twenty days after service on him of a copy of said Bill and notice of this order, and that in default thereof said Bill be taken as confessed by said defendant.

IT IS FURTHER ORDERED that within twenty days after the date hereof, the plaintiff cause a copy of this Order to be published in the Tawas Herald, a newspaper printed, published and circulated in said County of Iosco, and that such publication be continued at least once a week for six weeks in succession or that she cause a copy of this Order to be personally served upon said defendant, at least twenty days before the time above prescribed for his appearance.

AND IT IS FURTHER ORDERED, that the said plaintiff cause a copy of this Order to be mailed to said defendant, at his last known post office address, by registered mail, and a return receipt demanded, at least thirty days before the date herein prescribed for his appearance.

Herman Dehnke,
Attorney for Plaintiff
Business Address:
Tawas City, Michigan.

War on Coyotes
Airplanes are being used extensively in Nebraska for killing coyotes, and latest reports show 146 of the marauders eliminated in the past few months in Greeley county. With one plane two hunters killed two coyotes for every hour in the air. Contributions from farmers are being used to defray expenses for gasoline, oil, ammunition and a fair wage for the pilot and gunner.

Land of Few Cows
Daily products are seldom eaten by the average Chinese. As a consequence, their diets are low in vitamin A, and night-blindness is very common.

LEGAL NOTICES

STATE OF MICHIGAN
The Probate Court for the County of Iosco

At a session of said Court, held at the Probate Office in the City of Tawas City in said County on the 1st day of August, 1949.

Present, Honorable H. Read Smith, Judge of Probate.

In the Matter of the Estate of Nelson C. Miller, Deceased.
It appearing to the Court that the time for presentation of the claims against said estate should be limited and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said Court;

It is Ordered, That all creditors of said deceased are required to present their claims to said Court at said Probate Office on or before the 17th day of October, 1949, at 10:00 o'clock in the forenoon, said time and place being hereby appointed for the examination and adjustment of all claims and demands against said deceased.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, once in each week for three weeks consecutively, previous to said day of hearing, in the Tawas Herald a newspaper printed and circulated in said County.

H. Read Smith,
Judge of Probate.
Mabel Kobs,
Register of Probate.

Sugar Cane Research
More sugar cane is being produced in Louisiana as the result of research by scientists of the bureau of plant industry, soils, and agricultural engineers on the control of alligator weed with 2,4-D. Protection from this weed pest saves Louisiana sugar cane growers a conservative \$5,000,000 a year, says the U. S. department of agriculture.

Auto Gadget Saves Brakes
A new electric gadget for the automobile is a dashboard signal light designed to prevent wear and tear on brakes. When the car's ignition is turned on the light goes on, if the hand-brake is set. It stays on until the brake is released.

Suspenders
Approximately 27 million pairs of suspenders are sold annually in the United States.

Calving Time
Give cows six to eight weeks of rest before freshening and have a clean stall for calving. This may save calves and prevent spread of disease.

Presenting the New

Cadillac Coupe de Ville

ILLUSTRATED above is the Coupe de Ville—an ultra smart new Cadillac body type, designed for those who seek the low-swept lines and open-airiness of a convertible—combined with the comfort, convenience and safety of a closed car.

It is a classic example of modernity and practicality—one of the most desirable and most useful models ever to issue from the boards of Cadillac designers. Yet—smart and beautiful as it is—the Coupe de Ville's greatest superiority lies in the chassis on which

it is built. For, like all Cadillacs, the core of its goodness is found in its performance—in the wonderful capacity of its new V-type engine; in the soft, even, restful manner in which it rolls over the highway; in the easy, effortless response to steering wheel and brakes. It is, truly, a symphony in motion. We should be pleased indeed to give you full details about this wonderful new body type—as well as the other beautiful models which grace our showroom. Why not come in at your earliest convenience?

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

WONDERFUL NEIGHBOR
by HOMER CROY

Driving home along a country road amid the scenes of his youth, Homer Croy—older, wiser now—recalled the people he had known, the friends he had had as a child. A prodigal son of north-west Missouri, he remembered happy times with the Kennedys—Newt, the kindest man he'd ever known; Mrs. Kennedy; their two daughters, Ida and Lucy; their son, Harlan, his childhood playmate. Then he remembered the Adventure—the time Newt, returning from town in his two-wheeled, one-seated cart, saw a mover wagon in the road and fled. The movers were people returning from western Nebraska where "cheap land," unimproved claims could be bought for little or nothing.

CHAPTER V

But we knew that next fall, or the next, or the next the movers would come back—"hailed out," or "droughted out," but never rained out, for there was never enough rain on the western Nebraska hardpan. But nothing ever discouraged them in their quest for "cheap lands"; the next time they would try South Dakota, North Dakota, or the valley of the Little Big Horn.

What did make it unusual was that the wagon was pulled off to the side of the road. Resting the team, maybe. But as he came closer, three children ran into the middle of the road and joined hands as if to keep him from passing. One of the children was sobbing, all were gesticulating wildly and repeating over and over, "Ma! Ma!" They were unusually ragged and dirty, even for mover children; there was no doubt something was wrong. Sometimes fearful tragedies had come to families in their efforts to live on cheap land.

The wagon had two thin, half-starved horses, a weather-beaten canvas top with crude patches, and there was a chicken coop roped on behind.

He mounted a hub. Writhing on a soiled feather bed on the floor of the wagon was a woman. "Help me!" she moaned pitifully when she saw Newt. Another paroxysm seized her. He rushed to the nearest house, but there was no answer to his knocks or his shouts. Then began the busiest, the most demanding, the most breathless hour of his life. For he opened the door, went in, piled wood into the stove, heated water, snatched up rags, cloths, soap and whatever he could find and raced back to the mover wagon.

At last, it was all over. He tied his horse and cart behind, got the children into the wagon, and picked up the lines.

Later Mrs. Kennedy and the children saw a mover wagon coming down the road. This was not unusual. They looked again. The man sitting in front seemed a bit like Newt. But, of course, this was impossible. The team plodded closer. Then, to their utter astonishment, the man on the seat waved.

"Good land!" gasped Mrs. Kennedy. "That's your father!"

The wagon came steadily on. In front of the house it stopped.

"We've got company!" called Newt cheerfully, for now the strain was over and he could relax.

Mrs. Kennedy looked at the dirty, half-starved, unkempt children, then climbed up on the hub and peered in.

"What do you think we ought to do, Minnie?"

"We must get her into the house," she said unhesitatingly.

The problem of getting the woman into the house was accomplished by putting her into a rocking chair and carrying her.

thing, Newt said. That day was gone; and cheap land had never been a success. But the old tradition of the pioneer West was too strong for Tom Davey. There was still cheap land left. He was goin' back to Illinois, get him work for a year or two, then head west again and try his luck.

"You'll be droughted out," said Newt. "Try to get you a black loam farm, even if you have to start in a small way. Stay in the corn belt section. That's where the money is."

Tom shook his head, "I'm goin' back and I'm goin' to try 'er again. I'll have me a big cheap-land farm yet."

Came the day of going. The woman was on the spring seat beside Tom, the baby in her arms. Tom picked up the lines and shook them over the still mangy, rack-ribbed sway-backed team. "Well, you folks sure been awful kind to us. We ain't goin' to forget it soon. When I pull west again, maybe we'll come by and say howdy. Get up!" The team leaned in their collars, the wagon went creaking into the highway.

Mrs. Kennedy stood looking after the retreating wagon, touched and moved and stirred by their going.

Monday night was the night Newt wrote "The One-Horse Farmer." We all dreaded for the night to come, yet we wouldn't have missed it for anything.

His was "neighborhood correspondence" for our country weekly. For this he received a free subscription and fifty cents a week. There, in a little square pasteboard box on the

center table for everybody to see, was the pile of stamped and self-addressed envelopes furnished by the newspaper. It was an honor to have such a pile of envelopes on a center table.

He was thrilled to be so close to someone who could put words on paper and then, a few days later, have them appear magically in print.

Monday was the night the neighborhood news had to be written; this would give it just time to get in that week's paper.

'One-Horse Farmer' Gets Some Inspiration

He was the best correspondent in the paper, for he not only told the news but put fun into the items. He had a vein of true humor and managed to get this into his neighborhood news. Most correspondence was stodgy, but not Newt's. At the end he put a poem; everybody remembered them and quoted them, or they expressed just what we believed. One was:

A bull unpenned,
Is a danger no end.
Another was:
Fretting over weather's lack,
Never filled an empty sack.
Another:
Keep away from trees and fences
When a thunderstorm comes.

All correspondents signed names; they used such names as "The Listener," "Aunt Polly," "Blue Eyes," "Sunbonnet Sue," "Ben-Hur," and so on. But not Newt. He signed himself "The One-Horse Farmer"; this made everybody laugh, for it would take three horses at the very least to operate a farm; five would be better.

Newt's correspondence made him important in town on Saturdays. People would come up to him and tell how they had read something by the One-Horse Farmer. He would stand, pulling at his big brown hands, immensely pleased, but pretending he hadn't written the item. "That sounds interestin', I'll look it up when I get home." When the Kennedy family went to the back end of the grocery store to eat dinner, there would be other families sitting at the tables the grocery furnished. Everybody smiled and looked at Newt in a friendly, laughing way.

knife and sharpen his pencil, then carefully arrange his writing tablet in front of him. There he would sit looking at the tablet. Then he would gaze up at the ceiling and down into the coal scuttle and at the floor, all the time scowling fearfully. "Dog-gone it! I can't think of a thing. I tell you nothing's happened. Nothing a-tall," he would say mournfully.

He would get up and go to the kitchen; the tin dipper would rattle in the cedar bucket.

Coming back, he would sink dejectedly into his chair. "I'm goin' to give it up. There's nothing this week, absolutely nothing."

"Has anybody died?" Grandpa would ask. He was always thinking about people dying.

Newt would shake his head. "Not a soul," he would say mournfully. "Has anyone gone anywhere?" Mrs. Kennedy would ask.

"Is there anybody sick?" Grandpa would ask.

Newt would shake his head again. "There hasn't been a doctor in the neighborhood all winter."

"Is there any news about the teacher?" Mrs. Kennedy would ask.

"Not a thing," Newt would say in the same gloomy, despondent voice.

Grandpa would unlock his hands, then lock them in a new position, "Any Bang's disease?"

"I want to get something a little more cheerful than Bang's disease, Pa. Any marriages?"

Ida would sit up here. "I know one that's going to be."

"Have they announced?"

"Not yet."

"Can't we say they're going together?" asks Ida. "Everybody is interested in people going together."

"Engagements and marriages, what we've got to stick to."

Newt would get up and put some coal in the base-burner, then sit down heavily and despondently.

We would all get gloomier and gloomier; the clock on the shelf would tick very loud.

Hamsters Build New Industry On Gulf Coast

NEW ORLEANS.—A new Gulf coast industry is being built around a small four-handed furry animal with a big name.

The weak-eyed little fellow commonly is known as the hamster, but to the scientific-minded the proper name is mesocricetus aratus.

He looks like a cross between a field mouse, a guinea pig and a monkey.

With two pairs a breeder within a year may raise 100,000 and with the animals selling at \$9 to \$15 a dozen this can be a lucrative business.

The sloe-eyed light golden brown rodent's four feet look like miniature human hands. On them he can scoot backward almost as fast as forward as he darts around his little cage.

The hamster first was found in the early 1930s by an explorer excavating near Aleppo, Syria. He shipped a mother and eight hamsters to London, where scientists immediately became interested.

Speed Laboratory Work

Because the warm blooded animal reacts to serums in 10 to 14 days—a much shorter period than is necessary for rats and guinea pigs—laboratory work can be speeded.

The hamster is subject to all the human ills that affect rats and guinea pigs and is highly favored by scientists.

The first hamsters shipped to the United States were sent to the U.S. Marine hospital at Carville, La., the nation's only institution for the treatment of leprosy. Today they are to be found in virtually every important medical laboratory and medical school.

Because the hamster thrives in temperatures between 65 and 75 degrees the Gulf states have been found an excellent habitat. One large hamstery is at Mobile, Ala., and there are two here. All find a ready market for the animals in pharmaceutical laboratories.

Hamsters make captivating pets, too. With their beady black eyes, their soft fur and their baby-like hands they seem to appreciate affection and become quite tame when handled. They are free of odor, have neither lice nor fleas and are subject to no ills of their own.

Hides His Food

The hamster stands about five inches high on his hind hands and likes to stand and brush at his nose with both front hands prior to eating. He is fond of hiding and usually builds a small den of straw or hay in a corner of a cage. There he stores part of his food and hides his young at the approach of danger.

Hamsters eat sparingly of dog food, poultry pellets and green vegetables and frequently store little bits of food in the pouch behind each rat-like ear. On occasion hamster will store one of her inch-long babies in the pouch.

There is little work in raising the animals and many breeders in this area do it as a hobby. Little room is required, as the average cage is but 12 by 18 by 8 inches.

GRANDMA

By Charles Kuhn

OH, MY!

THERE, THERE! YOU'RE ALL RIGHT NOW!

GOODNESS, GRANDMA, YOU ALMOST CHOKED! WHAT'S THE TROUBLE?

LAWDY ME . . . I FORGOT, AN' INHALED ON MY BUBBLE PIPE —

WEEKLY COMIC SECTION

JUST

The laundress's rival tried desperately to find someone who could dispute the washwoman's assertion that she had blue blood in her veins.

"Could be," said one of those asked, "all the women on her side of the family have used washing blue for eight generations."

Two very distinguished looking Southern gentlemen met on the street one morning after having attended a party the night before. The major greeted his ranking officer with all the respect and solemnity that the occasion demanded.

"Colonel," he said, "how do you feel, suh?"

The colonel's reply was just a bit on the brusque side.

"Major," he declared a little thickly, "I feel like hell, suh, as any Southern gentleman should, suh, at this hour of the morning."

A social climber, trying to impress a prominent member of a club she had just joined, traced her ancestry all the way back to Julius Caesar.

The prominent member admitted that went back quite a distance but pointed out that the pedigree of her own family filled six pages of parchment and in the middle was a notation, "About this time the world was created."

When Your Back Hurts -

And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

20-YEAR LAXATIVE HABIT BROKEN!

"Considering I was constipated for over 20 years and laxatives gave me no relief—it was amazing to find eating KELLOGG'S ALL-BRAN daily helped me so much!" Mrs. H. Rutledge, 120 Corry Ave., Aero Vista, Warrington, Florida. Just one of many unsolicited letters praising ALL-BRAN. If troubled by constipation due to lack of bulk in the diet, try this: eat an ounce of crisp ALL-BRAN every day, drink plenty of water. If not satisfied after 10 days, return empty box to Kellogg's, Battle Creek, Mich. **DOUBLE YOUR MONEY BACK!**

THIS kitchen unit can be built at a minimum of cost. The full size pattern offered below takes all the mystery out of building; provides a complete purchase list of materials, step-by-step building directions and full size patterns for cutting each part.

All materials needed are now readily available at lumber yards everywhere. The construction of this unit has been so simplified

AUTO-LITE STA-FUL BATTERY

...needs water only 3 times a year

In normal car use

70% longer average life*

Sta-ful Battery Saves Time and Money

The amazing new Auto-Lite Sta-ful Battery has greater liquid reserve than ordinary batteries—needs water only 3 times a year. In addition, "Sta-ful" Batteries have Fibre-glass mats for longer battery life. Money cannot buy a better battery. See your neighborhood Auto-Lite Battery Dealer.

Here's WHY Firestone CHAMPIONS

GO THROUGH WHERE OTHERS HANG UP!

LET'S talk facts . . . Here is a tire that has extra bar height, extra bar length, and a curved bar design that outcleans, outpulls, and outlasts any other tire. NO OTHER TIRE has ALL these advantages.

Those massive tread bars take a bigger bite, a better hold—and THAT'S NOT ALL. Because they're curved for self-cleaning, they keep right on pulling while other tires only clog and spin.

And here's another big feature. Every inch of tread-bar length does its share of the pulling because the low-pressure body design puts ALL of the tread in FULL ground contact for a FULL TRACTION BITE. Because it's patented, this tire gives you many advantages which no other tire has. Let your Firestone Dealer or Firestone Store demonstrate these facts to your satisfaction.

3 RULES FOR MAXIMUM TRACTION

1. USE FIRESTONE CHAMPIONS
2. USE FIRESTONE HYDRO-FLATION
3. USE ONLY 12 LBS. PRESSURE

Listen to the Voice of Firestone every Monday evening over NBC

bring tourists and all into a community. The plain facts are, the Tawas has had the biggest year ever. It has continued every week and every week to be full. With the crowds that have been coming up here, the Tawas could have used 1000 or more overnight and weekly cabins and cottages.

So, after all there is only one answer on this—lets all, everyone, and we mean everybody, get behind this act and really put it across. Everyone in Tawas City and East Tawas can feel mighty proud and praise the fine Chamber of Commerce Building.

Yes, sure, some merchants have more than done a real job and why not all, everyone. We need and must have 100% cooperation of everybody. No one has anything to lose but all to gain.

Oh, by the way, there are over 6,000 of these coins out at present, so you see we have an excellent opportunity to pay some real cash on the Chamber of Commerce Building.

COIN COMMITTEE.

St. Joseph CYO Win Two Games

St. Joseph CYO added a pair of wins to their victory skien, with a 18 to 8 win over Whittemore, Saturday and took a close, 5 to 4 victory Sunday, from West Branch at the Tawas City Athletic Field.

High spots of the loosely played game at Whittemore, was a fielding gem by Dorsey, Whittemore right fielder, who made a spectacular catch of a line drive off the bat of Don Reinke, in the first inning. "Slugger" Mielock led the St. Joseph attack with three hits.

Bob Ulman, timely double to left center in the eighth, inning, sent Larry Lixey across with the winning tally, as St. Joseph defeated West Branch 5 to 4, Sunday. Klenow's single previously put Lixey in a scoring position.

George Dubovsky with three hits led the St. Joseph hitters. Stellar performances were turned in by the St. Joseph battery, Mandock and Lixey.

Pantry Shelves

Fasten linoleum to shelves with linoleum cement and it almost never wears out. A damp cloth quickly makes linoleum-covered shelves immaculate.

Tawas Softball Team Continues to Win

The Tawas Softball team continued their winning ways last week as they defeated Consumers Power Co. Thursday night by a score of 5 to 2. Monday night defeating Hemlock Road 9-3 and winning the first league game of the season by defeating, Moeller Billiards 13 to 11.

Frank Mark hung up his first win last Thursday as he allowed four scattered hits in downing Consumers. Westcott and McMurray collected two hits to pace Tawas. Monday, Gingerich made his pitching record eleven wins and on losses as Tawas defeated Hemlock road. Westcott, Myles and Gingerich each had two hits.

Hill won the first league game of the season, although he had wobbly support. Koepke with three hits and Erickson with two, led Tawas. The season record for Tawas is eighteen won and three lost. They are now riding a five game winning streak.

The new softball league organized in the Tawas last week, opened their schedule Monday night with Tawas vs. Moellers at the Tawas City Park diamond and Lixey's vs. Consumers at the Tawas Beach diamond. A four week schedule has been planned with the following teams alternating each Tuesday and Thursday night at the two diamonds: Tawas, Moeller's, Hemlock, Anderson Coach, Lixey's. The schedule for the remainder of August and September is as follows:

Tuesday, August 23—
Moellers vs. Hemlock at the Tawas Beach diamond.
Anderson vs. Consumers, at the Tawas City Park diamond.

Thursday, August 25—
Lixey's vs. Anderson at the Tawas City Park diamond.
Tawas vs. Hemlock, at the Tawas Beach diamond.

Tuesday, August 30—
Moeller's vs. Consumers, at the Tawas City Park diamond.

Tawas vs. Anderson, at the Tawas Beach diamond.

Thursday, September 1—
Moeller's vs. Lixey's, at the Tawas City diamond.

Hemlock vs. Consumers, at the Tawas Beach diamond.

Tuesday, September 6—
Tawas vs. Consumers at the Tawas City Park diamond.

Moeller's vs. Anderson, at the Tawas Beach diamond.

Thursday, September 8—
Lixey's vs. Hemlock at the Tawas City Park diamond.
